Office of the Assistant Secretary for Public and Indian Housing

[Docket No. N–92–3472; FR–3155–N–03]

NOFA for Rental Voucher Program and Rental Certificate Program; Announcement of Funding Awards

AGENCY: Office of the Assistance Secretary for Public and Indian Housing, HUD.

ACTION: Announcement of funding awards.

SUMMARY: In accordance with section 102(a)(4)(C) of the Department of Housing and Urban Development Reform Act of 1989, this announcement notifies the public of funding decisions made by the Department in a competition for funding under the NOFA for Rental Voucher Program and Rental Certificate Program. The announcement contains the names and addresses of the award winners and the amount of each award.

FOR FURTHER INFORMATION CONTACT: Madeline Hastings, Director, Rental Assistance Division, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, DC 20410–8000, telephone (202) 708–0477. The TDD number for the speech- or hearing-impaired is (202) 708–4594. (These are not toll-free numbers.)

SUPPLEMENTARY INFORMATION: The purpose of the competition was to assist eligible families to pay the rent for decent, safe, and sanitary housing. The NOFA on which these awards were based identified the amount of housing assistance budget authority available for incremental rental vouchers and rental certificates for each HUD Field Office jurisdiction.

The FY 1992 awards announced in this Notice were selected for funding in a competition announced in a **Federal Register** notice published on July 29, 1992 (57 FR 33606). Applications were scored and selected for funding on the basis of selection criteria contained in that notice.

A total of $648,395,690 was awarded for 683 projects. Of this total, $189,186,615 of budget authority was committed for 5,610 rental voucher units, and $459,209,075 of budget authority was committed for 13,330 rental certificate units. In accordance with section 102(a)(4)(C) of the Department of Housing and Urban Development Reform Act of 1989 (Pub. L. 101–235, approved December 15, 1989), the Department is publishing the name, address, and amount of the award, as shown in the Appendix to this announcement.

Dated: December 14, 1992.

Michael B. Janis,

General Deputy Assistant Secretary for Public and Indian Housing.

Appendix—NOFA for Rental Voucher Program and Rental Certificate Program

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[CA-065-03-4191-03]

Notice of Intent; Proposed Briggs Project Inyo County, California

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of intent.

SUMMARY: Notice is hereby given that the Bureau of Land Management and County of Inyo will prepare a joint Environmental Impact Statement/ Environmental Impact Report (EIS/EIR) to assess the potential environmental impacts that may be associated with development of the proposed Briggs Project. Public scoping meetings have been scheduled in connection with the preparation of that document.

CR Briggs, a wholly owned subsidiary of Canyon Resources Corporation has filed applications with the Bureau and County for development of an open-pit, heap-leach gold mine in the Panamint Valley on the west flank of the Panamint Range in Inyo County, California. The Briggs Project is located approximately 34 miles northeast of Ridgecrest, California. The project will ultimately affect approximately 450 acres, and includes the following activities: mining, construction and operation of the heap-leach processing facility, construction and maintenance of roads, development of a water well field and pipelines, and reclamation of disturbed lands.

The EIS/EIR will be prepared by the Bureau and County with the assistance of an independent environmental consulting firm selected by the agencies. The following issues have been preliminarily identified for analysis: Water resources, vegetation and wildlife resources (including special interest species), cultural resources, recreation, visual resources, air quality, and public health and safety. In accordance with the National Environmental Policy Act and California Environmental Quality Act requirements, the EIS/EIR will also consider alternatives to the proposed action. Alternatives and additional issues may be identified as a result of the public scoping process.

Two scoping meetings are scheduled for public and agency input to determine the full scope of issues which should be addressed in the EIS/EIR. The dates, times and locations of the public meetings are as follows:

Date and Time: January 12, 1993, 7 p.m.

Location: Ridgecrest, California, Kerr McGee Center, 100 West California, Ridgecrest, CA 93555.

Date and Time: January 13, 1993, 7 p.m.

Location: Lone Pine, California, Statham Hall, 183 Jackson, Lone Pine, CA 93545.

This notice is a request for environmental information that you or your organization feels should be addressed in the EIS/EIR. Detailed information may be included in your response. Written comments should be sent to the address below no later than January 25, 1993.

FOR FURTHER INFORMATION CONTACT: Dave Taylor, Project Manager, Bureau of Land Management, Ridgecrest Resource Area, 300 S. Richmond Rd., Ridgecrest, CA 93555, 619/375-7125.

Dated: December 10, 1992.

Joseph L. Gum,

Acting Area Manager.

Availability of the Record of Decision for the TransColorado Gas Transmission Project

AGENCY: Bureau of Land Management, Interior.

ACTION: The Bureau of Land Management has prepared the Record of Decision (ROD) for the TransColorado Gas Transmission Project in accordance with the National Environmental Policy Act of 1969, and 40 CFR part 1500. This document is now available to the public.

SUMMARY: The ROD adopts the Agency Preferred Alternative as described in the final Environmental Impact Statement (EIS) and approves issuance of a Right of Way (ROW) grant to TransColorado for the construction, operation, maintenance and eventual termination of a natural gas pipeline and associated facilities. The permanent ROW will be limited to 50 feet in width with an additional temporary work space limited to 25 feet for the majority of the length of the pipeline. In areas where visual concerns were identified the total ROW width will be limited to a maximum of 50 feet. TransColorado will be required to obtain additional temporary use permits (TUP) if Federal lands outside of the authorized ROW are to be disturbed.

The environmental protection measures contained in the EIS will be incorporated into the final Plan of Development (POD). The final POD will be completed and approved prior to issuance of any construction related Notice to Proceed.

The decision is made under the authority of the Mineral Leasing Act of 1920 as amended, the implementing regulations contained in 43 CFR parts 2800 and 2880, and the policy guidance contained in BLM Manual 2800.

The date of publication of this notice in the **Federal Register** is the start of the 30 day appeal period on the ROD.

FOR FURTHER INFORMATION CONTACT: Interested parties may obtain a copy of the ROD by writing to Chuck Pinch, Project Manager, Bureau of Land Management, 2465 South Townsend Avenue, Montrose, Colorado 81401, or by calling Mr. Finch at 303-249-7791.

Dated: December 10, 1992.

Alan L. Kesterke,

District Manager.

Intent to Amend the Warner Lakes Management Framework Plan; Lakeview, OR

AGENCY: Bureau of Land Management, Interior.

ACTION: Opportunity for public comment; notice of intent to amend the Warner Lakes Resource Area Management Framework Plan (MFP), especially for juniper management.

SUMMARY: This notice of intent is to advise the public that the BLM Lakeview District Office intends to amend the existing planning document to address juniper management opportunities.

SUPPLEMENTARY INFORMATION: The BLM is proposing to amend the 1983 Warner Lakes Resource Area MFP to address management of juniper within view of Oregon Highway 140 and in Deep, Camas, Twelvemile and Twentymile Creek Canyons. The plan amendment area covers about 13,500 acres, the majority located in the extreme southern portion of Lake County, Oregon and generally 10-20 miles east and southeast of Lakeview, Oregon. The planning area also includes 400 acres along Twelvemile Creek in Washoe County, Nevada and 10 acres in Modoc County, California that are managed by the Lakeview Resource Area.

The purpose of the amendment would be to identify alternatives which resolve concerns relating to the management of juniper in portions of the Lakeview Resource Area. Preliminary management alternatives identified to

date include: (1) Maintain present situation (No Action). (2) Juniper management to meet watershed, wildlife and riparian objectives, excluding wilderness study areas. (3) Juniper management to meet watershed, wildlife and riparian objectives, including wilderness study areas.

At the time the existing MFP was prepared, it was felt that juniper was not a serious watershed concern and that it did not affect watershed or riparian condition, so it does not accommodate significant program changes since then. In addition, it does not allow management of juniper within view of State Highway 140, nor in Deep, Camas or Twentymile Creek Canyons.

Disciplines to be represented on the interdisciplinary team preparing the plan amendment and environmental assessment are wildlife, forestry, fisheries, sensitive plants, recreation, visual resources, fuels management, watershed, range management, wilderness and land use planning.

The following preliminary issues are proposed to be addressed in the MFP Amendment: (1) What constitutes ancient juniper and what level of protection will it be afforded? (2) What actions will be taken to protect visual resources both in the long and short term? (3) Where and how much juniper should be left to provide thermal and hiding cover for resident deer herds? (4) Should juniper management be allowed within the boundary of the Fish Creek Rim Wilderness Study Area and if so at what levels? (5) What will be done to increase stream and ground cover, and reduce stream sedimentation and erosion in order to improve watershed and fish habitat condition? (6) What methods will be allowed for juniper removal and disposal? More detailed information on planning issues and criteria is available at the Lakeview District Office and has also been mailed to known interested parties.

The comment period on the preliminary issues and planning criteria for the plan amendment and associated environmental assessment will close February 1, 1993. A public meeting will be held in the Lakeview District Conference Room at 1000 South Ninth, Lakeview, Oregon from 7-9 p.m. on Tuesday, January 12, 1993. Other public participation activities will include a 45-day review of the draft plan amendment and EA, a public meeting and a tour of the plan area during the public comment period for the draft plan amendment and EA. Dates, times and locations of future meetings and document review periods will be announced through local media and mailings to interested parties. Existing planning documents and information are available at the Lakeview District Office of the BLM, 1000 South Ninth Street, P.O. Box 151, Lakeview, OR 97630 during normal working hours. Phone (503) 947–2177.

FOR FURTHER INFORMATION CONTACT: Renee Snyder, Lakeview District Office, (503) 947–2177.

Judy Ellen Nelson,

Lakeview District Manager.

Las Vegas District Grazing Advisory Board Meeting; NV

Notice is hereby given in accordance with Public Law 92–463 that a meeting of the Las Vegas District Grazing Advisory Board will be held Friday, January 15, 1993. The meeting will begin at 8 a.m. in the conference room of the Las Vegas District Office, 4765 W. Vegas Drive, and continue until 5 p.m..

The agenda is as follows:

1. Field trip to typical ephemeral and perennial range.
2. Introductions and discussion of what reclassification of ephemeral range means.
3. Discuss allotment by allotment reclassification results.
4. Public comments.
5. Arrangements for next meeting.

The meeting is open to the public. Interested persons may make oral comments to the board during the public comment period on the day of the meeting or they may file written statements for the board's consideration during the meeting. Notify the District Manager, BLM, 4765 West Vegas Drive, P.O. Box 26569, Las Vegas, Nevada 89126, if you wish to make an oral statement to the Board. Summary minutes of the board meeting will be maintained at the Las Vegas District Office. The minutes will be available for public inspection during regular office hours (7:30 a.m. to 4:15 p.m.) within 30 days after the meeting.

Ben F. Collins,

District Manager, Las Vegas.

[UT–942–4210–06; U–42931 et. al.]

Proposed Continuation of Withdrawals; Utah

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The Bureau of Reclamation proposes that several land withdrawals for the Strawberry Valley Project and Central Utah Project, totalling 65,715.56 acres, continue for 100 years. The land would remain closed to surface entry and mining, but has been and would remain open to mineral leasing.

DATES: Comments should be received by March 18, 1993.

ADDRESSES: Comments should be sent to State Director, Utah State Office, P.O. Box 45155, Salt Lake City, Utah 84145–0155.

FOR FURTHER INFORMATION CONTACT: Randy Massey, BLM Utah State Office, (801) 539–4119.

SUPPLEMENTARY INFORMATION: The Bureau of Reclamation proposes that the existing land withdrawals made by Secretarial Orders dated May 6, 1905, November 16, 1905, January 30, 1906, May 13, 1907, and November 12, 1909, be continued for 100 years pursuant to section 204 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2751, 43 U.S.C. 1714. The land is described as follows:

Strawberry Valley Project

T. 9 S., R. 2 E.,
Sec. 21, N½NE¼, SE¼NE¼, NE¼SE¼;
Sec. 29, SE¼NE¼, E½SE¼;

The areas described aggregate 65,715.56 acres in Utah and Wasatch Counties.

The purpose of the withdrawals is to protect Strawberry Dam and Reservoir, Soldier Creek Dam and appurtenant works. They are also needed to protect the Syar Tunnel (construction completed), the Wasatch Aqueduct and the Diamond Fork Power System (construction planned), all features of the Bonneville Unit of the Central Utah Project. The withdrawals segregate the lands from settlement, sale, location, and entry, including location and entry under the mining laws, but not the mineral leasing laws. No change is proposed in the purpose or segregative effect of the withdrawal.

For a period of 90 days from the date of publication of this notice, all persons who wish to submit comments in connection with the proposed withdrawal continuation may present their views in writing to the Chief, Branch demand for the land and its resources. A report will be prepared for consideration by the Secretary of the Interior, the President, and Congress, who will determine whether or not the withdrawal will be continued, and, if so, for how long. The final determination of the continuation of the withdrawal will be published in the **Federal Register**. The existing withdrawal will continue until such final determination is made.

Robert Lopez,

Acting Chief, Branch of Lands and Minerals Operations.

BILLING CODE 4310–DQ–M

Bureau of Reclamation

Trinity River Basin Fish and Wildlife Task Force; Meeting

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of public meeting.

SUMMARY: In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), announcement is made of a meeting of the Trinity River Basin Fish and Wildlife Task Force.

DATES: The meeting begins on Thursday, January 7, 1993, at 9 a.m.

ADDRESSES: The meeting will be at the Expo Inn, 1413 Howe Avenue, Sacramento, California.

FOR FURTHER INFORMATION CONTACT: Mr. Chip Bruss, Trinity River Task Force Secretary, Bureau of Reclamation, MP–720, 2800 Cottage Way, Sacramento CA 95825; telephone: (916) 978–4956.

SUPPLEMENTARY INFORMATION: The Task Force will consider Grass Valley Creek issues and the status of the proposed program extension. The meeting of the Task Force is open to the public. Any member of the public may file a written statement with the Task Force before, during, or after the meeting, in person or by mail. To the extent that time permits, the Task Force chairman may allow public presentation of oral statements at the meeting.

Dated: December 10, 1992.

Kathy E. Gordon,

Deputy Assistant Commissioner—Administration.

BILLING CODE 4310–09–M

Fish and Wildlife Service

Availability of an Environmental Assessment and Receipt of an Application for an Incidental Take Permit for the Proposed Champagne Shores Development Near Arvin, Kern County, California

AGENCY: Fish and Wildlife Service, Department of the Interior.

ACTION: Notice.

SUMMARY: D.L. Griffin Company of Calabasas, California, has applied for a section 10(a)(1)(B) permit PRT–768386 from the U.S. Fish and Wildlife Service (Service) for the incidental take of the Tipton kangaroo rat *(Dipodomys nitratoides nitratoides)*. A Habitat Conservation Plan (HCP) and Implementation Agreement (IA) have been submitted with the application. The proposed permit would allow incidental take for a 100-year period during construction and operation of two water ski lakes and a residential development of 20 homes on 82 acres in Kern County. The take would include the loss of approximately 25 acres of occupied habitat. To compensate for the loss of habitat, the applicant will secure 75 acres of Prime Tipton kangaroo rat habitat at a location acceptable to the Service. A management endowment and protective fencing will be provided for the compensation lands. A series of specific on-site mitigation measures will also be conducted to minimize the potential for take during construction and operation of the development. The mitigation efforts will be fully funded by the applicant. Alternatives considered include implementation of the project on alternative sites, and no project.

DATES: Written comments on the permit application, HCP, IA, and EA should be received on or before January 19, 1993.

ADDRESSES: Comments regarding the adequacy of these documents should be addressed to: Mr. Wayne White, Field Supervisor, U.S. Fish and Wildlife Service, Sacramento Field Station, 2800 Cottage Way, room E–1803, Sacramento, California 95825–1846.

FOR FURTHER INFORMATION CONTACT: Mr. Bill Lehman, U.S. Fish and Wildlife Service, Sacramento Field Station, 2800 Cottage Way, room E–1823, Sacramento, California 93710, (916) 978–4866. Individuals wishing copies of the EA, HCP, or IA for review should immediately contact the above individual.

SUPPLEMENTARY INFORMATION: Section 9 of the Endangered Species Act prohibits the "taking" of endangered species, like the Tipton kangaroo rat. However, the Service, under limited circumstances, may issue permits to take endangered wildlife species incidental to, and not the purpose of, otherwise lawful activities. Regulations governing permits for endangered species are at 50 CFR 17.22.

D.L. Griffin Company (Griffin) proposes to construct and operate a water ski lake and residential development on an 82-acre parcel, which is located near the community of Arvin, in Kern County, California. The proposed development will be located within the east half of the northwest quarter of Section 1 T32S, R28E, Mount Diablo Baseline Meridian. Construction of the development will result in the permanent loss of approximately 25 acres of degraded and fragmented Tipton kangaroo rat habitat. Griffin proposes to mitigate for this incidental take via several off-site and on-site compensation and mitigation measures. Such measures include the offsite acquisition of 75 acres of prime Tipton kangaroo rat habitat, the transfer of $22,500 to the California Department of Fish and Game for a management

endowment to ensure the long-term management of the lands and various on-site mitigation measures designed to avoid "take" of listed species to the maximum extent possible during construction and operation of the development. The EA considers the environmental consequences of the proposed action, an alternative location and the no action alternative. The action requires the trapping and salvage and/or relocation of the on-site kangaroo rats. Even though the kangaroo rats are removed from the site, the potential exists trapping will miss a few. Consequently, the proposed action may result in the "take" of a small number of individual Tipton kangaroo rats. However, the action will also result in the preservation of 75 acres of prime habitat contiguous with an existing large refuge, the installation of protective fencing and the provision of funds for a long-term, management endowment, where funds for management were previously unavailable. Although the no action alternative would not result in the "take" of individual Tipton kangaroo rats, degradation of the fragmented habitat on the preferred alternative site would likely continue from outside pressures and the potential for take from wandering domestic animals, children playing, unauthorized trespassing and off-road vehicular traffic would result.

Dated: December 4, 1992.

Don Weathers,

Regional Director, Region 1, U.S. Fish and Wildlife Service.

BILLING CODE 4310-55-M

National Park Service

Civil War Sites Advisory Commission Meeting

AGENCY: National Park Service, U.S. Department of the Interior.

ACTION: Notice of meeting of the Civil War Sites Advisory Commission.

Notice is hereby given in accordance with the Federal Advisory Committee Act, 5 U.S.C. appendix (1988), that a meeting of the Civil War Sites Advisory Commission will be held on Saturday, January 30, 1992, at the Gettysburg Hotel, Eisenhower Room, One Lincoln Square, Gettysburg, Pennsylvania 17325. The meeting will begin at 9 a.m. and conclude before 3:30 p.m.

This meeting constitutes the thirteenth meeting of the Commission. The primary focus of the meeting will be on the Commission's draft report. The Commission will welcome input from the public on the subject of Civil War site evaluation and preservation, especially as it relates to Civil War sites in Pennsylvania and surrounding states.

Space and facilities to accommodate members of the public may be limited and persons will be accommodated on a first-come, first-served basis. Anyone may file a written statement with the Commission concerning matters to be discussed.

Persons wishing further information concerning the meeting or who wish to submit written statements may contact Ms. Jan Townsend, Interagency Resources Division, P.O. Box 37127, Washington, DC 20013-7127 (telephone 202-343-3936). Draft summary minutes of the meeting will be available for public inspection about 8 weeks after the meeting, in Suite 250, 800 N. Capitol St., NW., Washington, DC 20002.

Dated: December 10, 1992.

Lawrence E. Aten,

Acting Executive Director and Chief, Interagency Resources Division.

BILLING CODE 4310-70-M

Maine Acadian Culture Preservation Commission; Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770, 5 U.S.C. app. 1 section 10), that the Maine Acadian Culture Preservation Commission will meet on Thursday, January 21, 1993.

The Committee was established pursuant to Public Law 101-543. The purpose of the Committee is to consult with the Secretary of the Interior and to advise the Secretary with respect to the development and implementation of an interpretive program of Acadian culture in the State of Maine and the selection of sites for interpretation and preservation by means of cooperative agreements.

The meeting will convene at 7 p.m. at the Madawaska High School on 7th Avenue in Madawaska, Aroostock County, Maine. The agenda for the meeting is as follows:

1. Review and approval of the summary report of the November 19, 1992 meeting;
2. Public Involvement Subcommittee report;
3. Presentation by the Executive Director of Blackstone Valley River National Historic Corridor;
4. Report of the National Park Service planning team;
5. Opportunity for public comment;
6. Proposed agenda, place and date of next Commission meeting.

The meeting is open to the public. Interested persons may make oral or written presentations to the Commission or file written statements. Such requests should be made to the Superintendent at least seven days prior to the meeting.

Further information concerning these meetings may be obtained from the Superintendent, Acadia National Park, P.O. Box 177, Bar Harbor, Maine 04609, telephone: (207) 288-5472.

Dated: December 10, 1992.

John J. Burchill,

Acting Regional Director.

BILLING CODE 4310-70-M

History Areas Committee of the National Park Advisory Board; Meeting

AGENCY: National Park Service, Interior.

ACTION: Notice of meeting of History Areas Committee of National Park System Advisory Board.

SUMMARY: Notice is hereby given in accordance with the Federal Advisory Commission Act that a meeting of the History Areas Committee Of the Secretary of the Interior's National Park System Advisory Board will be held at 9 a.m. on the following date and at the following location.

DATES: January 12, 1993.

LOCATION: National Park Service Director's Conference Room 3119, Main Interior Building, 1849 C Street, NW., Washington, DC.

FOR FURTHER INFORMATION CONTACT: Ben Levy, Senior Historian, History Division, National Park Service, P.O. Box 37127, Washington, DC 20013-7127. Telephone (202) 343-8164.

SUPPLEMENTARY INFORMATION: The purpose of the meeting of the History Areas Committee of the Secretary of the Interior's national Park System Advisory Board is to evaluate studies of historic properties in order to advise the full National Park System Advisory Board meeting on February 3, 1993, of the qualifications of properties being proposed for National Historic landmark designation, and to recommend to the full Board those properties that the Committee finds meet the criteria of the National Historic Landmarks Program. The members of the History Areas Committee are:

Dr. Holly Anglin Robinson, Chairperson
Mr. F.C. Duke Zeller, Vice-Chairman
Lt. Governor Connie b. Binsfeld
Mr. Paul F. Cole
Ms. Carrel Cowan-Ricks
Dr. Stuart Kaufman
Mr. Karl A. Komatsu

Hon. Jim Smith
Judge Robert Flynn Orr, *ex officio*

The meeting will include presentations and discussions on the national historic significance and the integrity of a number of properties being nominated for National Historic Landmark designation. These nominations are:

7 properties being considered as part of the Women's History Theme Study:

Alice Austen House, New York;
Kate Chopin House, Louisiana;
Marie Webster House, Indiana;
Birdcfart Museum and Sanctuary, Connecticut;
Philadelphia School of Design, Pennsylvania
Picottee Memorial Hospital, Nebraska; and
IDA Tarbell House, Connecticut;

8 properties relating to art or architecture:

Canterbury Shaker Village, New Hampshire;
Cobblestone Historic District, New York;
Old First Presbyterian Chruch, Tennessee;
Florence Giswold House and Museum, Connecticut;
Wharton Esherick Studio, Pennsylvania;
Principia College Historic District, Illinois;
Majestic Theater, Texas; and
Bok Tower Gardens, Lake Wales, Florida;

a site relating to westward exploration and settlement:

Beginninig Point of the Louisiana Purchase Land Survey, Arkansas;

a property relating to engineering:

St. Clair River Tunnel, Michigan;

2 individual archaeological sites:

African Burial Ground, New York; and
Brooks River Archeological District, Alaska;

and 4 archaeological properties part of the Historic Contact Theme Study:

Nauset Archaeological District, Massachusetts;
Minisink Site, Pennsylvania and New Jersey;
Wards Point, New York; and
Fort Massapeag, New York.

The Committee will also review and make recommendations on the following special resource studies:

—Georggia O'Keeffe Sites, New Mexico
—Thomas Cole House, New York

The Committee will also hear status reports on the special resource studies program for fiscal years 1993 and 1994.

The meeting will be open to the public. However, facilities and space for accommodating members of the public are limited. Any member of the public may file with the Committee a written statement concerning matters to be discussed. Written statements may be submitted to Ben Levy, Manager, national Historic Landmarks Survey, History Division (418), National Park Service, P.O. Box 37127, Washington, DC 20013–7127.

Dated: December 14, 1992.

Rowland T. Bowers,

Deputy Associate Director, Cultural Resources, National Park Service, WASO.

[FR Doc. 92–30690 Filed 12–17–92; 8:45 am]

BILLING CODE 4310–70–M

Sudbury, Assabet and Concord Rivers Wild and Scenic Study, MA; Sudbury, Assabet and Concord Rivers Study Committee; Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act (Pub. L. 92–463, 86 Stat. 770, 5 U.S.C. app 1, section 10), that there will be a meeting of the Sudbury, Assabet and Concord Rivers Study Committee on Thursday, January 28, 1993.

The Committee was established pursuant to Public Law 101–628. The purpose of the Committee is to consult with the Secretary of the Interior and to advise the Secretary in conducting the study of the Sudbury, Assabet and Concord River segments specified in section 5(a)(110) of the Wild and Scenic Rivers Act. The Committee shall also advise the Secretary concerning management alternatives, should some or all of the river segments studied be found eligible for inclusion in the National Wild and Scenic Rivers System. Wayland Town Hall is located on the west side of Rte. 27, just south of the intersection of Rtes. 20 and 27 in Wayland center. From the north, take Rte. 27 south and turn right at first driveway after crossing Rte. 27. From the west, take Rte. 20 east, turn left on Rte. 27 south and take immediate right into driveway. Parking lot is behind building.

Agenda

I. Welcome and introductions—Bill Sullivan
II. Approval of minutes from 12/3/92 meeting
III. Brief statements and comments from the public
IV. Presentation—Existing laws and regulations affecting recreation on the study rivers
V. Subcommittee Reports—Subcommittee Chairs
  A. River Conservation Planning Subcommittee
  B. Water Resources Subcommittee
  C. Public Participation Subcommittee
VI. Discussion—Issues of Local Concern
VII. Opportunity for public questions and comments
VIII. Other Business
  A. Next meeting dates and locations

Dated: December 10, 1992.

John J. Burchill,

Acting Regional Director.

BILLING CODE 4310–70–M

INTERNATIONAL TRADE COMMISSION

[Investigation No. 337–TA–345]

Certain Anisotropically Etched One Megabit and Greater Drams, Components Thereof, and Products Containing Such Drams; Investigation

AGENCY: U.S. International Trade Commission.

ACTION: Institution of investigation pursuant to 19 U.S.C. 1337.

SUMMARY: Notice is hereby given that a complaint was filed with the U.S. International Trade Commission on November 13, 1992, under section 337 of the Tariff Act of 1930, as amended, 19 U.S.C. 1337, on behalf of Micron Semiconductor Inc., 2805 East Columbia Road, Boise, Idaho 83706–9698. A supplement to the complaint was filed on December 3, 1992. The complaint, as supplemented, alleges violations of subsection (a)(1)(B) of section 337 in the importation into the United States, the sale for importation, and the sale within the United States after importation of certain anisotropically etched one megabit and greater dynamic random access memories ("DRAMs"), components thereof, and products containing such DRAMs, alleged to be manufactured abroad by a process covered by claims 1, 2, 5, and 6 of U.S. Letters Patent 4,436,584, and that there exists an industry in the United States as required by subsection (a)(2) of section 337.

The complainant requests that the Commission institute an investigation and, after a hearing, issue a permanent exclusion order and permanent cease and desist orders.

ADDRESSES: The complaint, except for any confidential information contained therein, is available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 500 E Street SW., room 112, Washington, DC 20436, telephone 202–205–1802. Hearing-impaired individuals are advised that information on this matter can be obtained by contacting the Commission's TDD terminal on 202–205–1810.

FOR FURTHER INFORMATION CONTACT: Thomas L. Jarvis, Esq., Office of Unfair Importation Investigations, U.S. International Trade Commission, telephone 202–205–2568.

AUTHORITY: The authority for institution of this investigation is contained in section 337 of the Tariff Act of 1930, as amended, and in § 210.12 of the

Commission's Interim Rules of Practice and Procedure, 19 CFR 210.12.

SCOPE OF INVESTIGATION: Having considered the complaint, the U.S. International Trade Commission, on December 11, 1992, *Ordered that*—

(1) Pursuant to subsection (b) of section 337 of the Tariff Act of 1930, as amended, an investigation be instituted to determine whether there is a violation of subsection (a)(1)(B) of section 337 in the importation into the United States, the sale for importation, or the sale within the United States after importation of certain anisotropically etched one megabit or greater DRAMs, components thereof, or products containing such DRAMs, by reason of alleged infringement of claims 1, 2, 5, or 6 of U.S. Letters Patent 4,436,584, and whether there exists an industry in the United States as required by subsection (a)(2) of section 337.

(2) For the purpose of the investigation so instituted, the following are hereby named as parties upon which this notice of investigation shall be served:

(a) The complainant is—Micron Semiconductor Inc., 2805 East Columbia Road, Boise, Idaho 83706–9698.

(b) The respondents are the following companies alleged to be in violation of section 337, and are the parties upon which the complaint is to be served:

Hyundai Electronics Industries Co., Ltd., San 136–1, Ami-Ri, Bubal-Myun, Ichon-Ku, Kyungki-Do, Korea

Hyundai Electronics America, Inc., 4401 Great America Parkway, Santa Clara, California 95054

Goldstar Electron Co., Ltd., 16, Woomyeon-Dong, Seocho-Gu, Seoul, Korea

Goldstar Electron America, Inc., 3003 North First Street, San Jose, California 95134.

(c) Thomas L. Jarvis, Esq., Office of Unfair Import Investigations, U.S. International Trade Commission, 500 E Street SW., room 401–J, Washington, DC 20436, who shall be the Commission investigative attorney, party to this investigation; and

(3) For the investigation so instituted, Janet D. Saxon, Chief Administrative Law Judge, U.S. International Trade Commission, shall designate the presiding Administrative Law Judge.

Responses to the complaint and the notice of investigation must be submitted by the named respondents in accordance with § 210.21 of the Commission's Interim Rules of Practice and Procedure, 19 CFR 210.21. Pursuant to §§ 201.16(d) and 210.21(a) of the Commission's Rules, 19 CFR 201.16(d) and 210.21(a), such responses will be considered by the Commission if received not later than 20 days after the date of service of the complaint. Extensions of time for submitting responses to the complaint will not be granted unless good cause therefor is shown.

Failure of a respondent to file a timely response to each allegation in the complaint and in this notice may be deemed to constitute a waiver of the right to appear and contest the allegations of the complaint and this notice, and to authorize the administrative law judge and the Commission, without further notice to the respondent, to find the facts to be as alleged in the complaint and this notice and to enter both an initial determination and a final determination containing such findings, and may result in the issuance of a limited exclusion order or a cease and desist order or both directed against such respondent.

Issued: December 14, 1992.

By order of the Commission.

Paul R. Bardos,

Acting Secretary.

[FR Doc. 92–30676 Filed 12–17–92; 8:45 am]

BILLING CODE 7020–02–M

[Investigations Nos. 701–TA–319–332, 334, 336–342, 344, and 347–353 (Final)]

Certain Flat-Rolled Carbon Steel Products From Austria, Belgium, Brazil, France, Germany, Italy, Korea, Mexico, New Zealand, Spain, Sweden, and the United Kingdom; Institution of Final Countervailing Duty Investigations

AGENCY: United States International Trade Commission.

ACTION: Institution of final countervailing duty investigations.

SUMMARY: The Commission hereby gives notice of the institution of final countervailing duty investigations Nos. 701–TA–319–332, 334, 336–342, 344, and 347–353 (Final) under section 705(b) of the Tariff Act of 1930 (19 U.S.C. 1671d(b)) (the Act) to determine whether an industry in the United States is materially injured, or is threatened with material injury, or the establishment of an industry in the United States is materially retarded, by reason of imports of certain flat-rolled carbon steel products (as indicated in the table below), provided for in headings/subheadings 7208, 7209, 7210.31, 7210.39, 7210.41, 7210.49, 7210.60, 7210.70, 7210.90, 7211, 7212.21, 7212.29, 7212.30, 7212.40, 7212.50, and 7212.60 of the Harmonized Tariff Schedule of the Untied States, that the U.S. Department of Commerce (Commerce) has preliminarily found to have been subsidized by the Governments of the following countries:

Country	Cut-to-length plate	Hot-rolled sheet and strip	Cold-rolled sheet and strip	Corrosion-resistant sheet
Austria	.....	.....	701–TA–336	
Belgium	701–TA–319	701–TA–329	701–TA–337	
Brazil	701–TA–320	701–TA–330	701–TA–338	701–TA–347
France	701–TA–321	701–TA–331	701–TA–339	701–TA–348
Germany	701–TA–322	701–TA–332	701–TA–340	701–TA–349
Italy	701–TA–323	.....	701–TA–341	
Korea	701–TA–324	701–TA–334	701–TA–342	701–TA–350
Mexico	701–TA–325	.....	.....	701–TA–351
New Zealand	.....	.....	.....	701–TA–352
Spain	701–TA–326	.....	701–TA–344	
Sweden	701–TA–327	.....	.....	701–TA–353
United Kingdom	701–TA–328			

Pursuant to a request from petitioner under section 705(a)(1) of the Act (19 U.S.C. 1671d(a)(1)), Commerce has extended the date for its final determinations to coincide with those to be made in the ongoing antidumping investigations on certain carbon steel flat-rolled products from the above-listed countries and, in addition, has extended the date for its final determination on corrosion-resistant carbon steel flat-rolled products from

New Zealand to coincide with the final determinations in other investigations on those products. Accordingly, the Commission will not establish a schedule for the conduct of the countervailing duty investigations until Commerce makes preliminary determinations in the antidumping investigations (currently scheduled for January 26, 1993).

For further information concerning the conduct of these investigations, hearing procedures, and rules of general application, consult the Commission's Rules of Practice and Procedure, part 201, subparts A through E (19 CFR part 201), and part 207, subparts A and C (19 CFR part 207).

EFFECTIVE DATE: December 7, 1992.

FOR FURTHER INFORMATION CONTACT: Jonathan Seiger (202–205–3183) or Vera Libeau (202–205–3176), Office of Investigations, U.S. International Trade Commission, 500 E Street SW., Washington, DC 20436. Hearing-impaired persons can obtain information on this matter by contacting the Commission's TDD terminal on 202–205–1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202–205–2000.

SUPPLEMENTARY INFORMATION:

Background

These investigations are being instituted as a result of affirmative preliminary determinations by the Department of Commerce, under section 703 of the Act (19 U.S.C. 1671b), that certain benefits constituting subsidies are being provided to manufacturers, procedures, or exporters in Austria, Belgium, Brazil, France, Germany, Italy, Korea, Mexico, New Zealand, Spain, Sweden, and the United Kingdom of certain carbon steel flat-rolled products (cut-to-length plate, hot-rolled sheet and strip, cold-rolled sheet and strip, and/or corrosion-resistant sheet and strip). The investigations were requested in a petition filed on June 30, 1992, by counsel for Armco Steel Co., L.P.; Bethlehem Steel Corp.; Geneva Steel; Gulf States Steel, Inc. of Alabama; Inland Steel Industries, Inc.; Laclede Steel Co.; LTV Steel Co., Inc.; Lukens Steel Co.; National Steel Corp.; Sharon Steel Corp.; USX Corp./U.S. Steel Group; and WCI Steel, Inc. (not all companies are petitioners in all cases).

Participation in the Investigations and Public Service List

Persons wishing to participate in the investigations as parties must file an entry of appearance with the Secretary to the Commission, as provided in § 201.11 of the Commission's rules, not later than twenty-one (21) days after publication of this notice in the **Federal Register**. The Secretary will prepare a public service list containing the names and addresses of all persons, or their representatives, who are parties to these investigations upon the expiration of the period for filing entries of appearance.

Identification of Competition Arguments

Persons wishing to raise arguments during these investigations that specific subject imported steel products do not compete with products of the domestic industries (i.e., "niche product" arguments) are requested to provide a written, non-business-proprietary description (including tariff classification) of each steel product in question no later than the date for filing entries of appearance. Please note that this request pertains not only to products and countries covered by Commerce's preliminary subsidy determinations but also to products and countries for which preliminary antidumping determinations are pending.

Limited Disclosure of Business Proprietary Information (BPI) Under an Administrative Protective Order (APO) and BPI Service List

Pursuant to § 207.7(a) of the Commission's rules, the Secretary will make BPI gathered in these final investigations available to authorized applicants under the APO issued in the investigations, provided that the application is made not later than twenty-one (21) days after the publication of this notice in the **Federal Register**. A separate service list will be maintained by the Secretary for those parties authorized to receive BPI under the APO.

Authority: These investigations are being conducted under authority of the Tariff Act of 1930, title VII. This notice is published pursuant to § 207.20 of the Commission's rules.

Issued: December 16, 1992.

By order of the Commission.

Paul R. Bardos,

Acting Secretary.

BILLING CODE 7020–02–M

INTERSTATE COMMERCE COMMISSION

Agricultural Cooperative Notice to the Commission of Intent To Perform Interstate Transportation for Certain Nonmembers

December 15, 1992.

The following Notices were filed in accordance with section 10526(a)(5) of the Interstate Commerce Act. These rules provide that agricultural cooperatives intending to perform nonmember, nonexempt, interstate transportation must file the Notice, Form BOP 102, with the Commission within 30 days of its annual meeting each year. Any subsequent change concerning officers, directors, and location of transportation records shall require the filing of a supplemental Notice within 30 days of such change.

The name and address of the agricultural cooperative (1) and (2), the location of the records (3), and the name and address of the person to whom inquiries and correspondence should be addressed (4), are published here for interested persons. Submission of information which could have bearing upon the propriety of a filing should be directed to the Commission's Office of Compliance and Consumer Assistance, Washington, DC 20423. The Notices are in a central file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, DC.

BILLING CODE 7035–01–M

DEPARTMENT OF JUSTICE

Extension of Public Comment Period on Settlement Agreement Pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act and Other Environmental Statutes

Notice is hereby given that the public comment period on the second proposed settlement agreement in In re National Gypsum Co., Case No. 390–37213–SAF–11 (Bankr. N.D. Tex.) is being extended through January 5, 1993. This extension is due to a change in the Bankruptcy Court's confirmation

hearing schedule. For a summary of the proposed settlement agreement and a description of where copies may be obtained, please refer to the notice published at 57 FR 56,374 (Nov. 27, 1992).

The Department of Justice will receive comments relating to the proposed settlement agreement through January 5, 1993. Comments should be addressed to the Assistant Attorney General for the Environment and Natural Resources Division, Department of Justice, Washington, DC 20530, and should specifically refer to In re National Gypsum Co., D.J. reference #90-11-2-689.

John C. Cruden,

Chief, Environmental Enforcement Section, Environment and Natural Resources Division.

BILLING CODE 4410-01-M

DEPARTMENT OF LABOR

Employment Standards Administration

Wage and Hour Division

Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions

General wage determination decisions of the Secretary of Labor are issued in accordance with applicable law and are based on the information obtained by the Department of Labor from its study of local wage conditions and data made available from other sources. They specify the basic hourly wage rates and fringe benefits which are determined to be prevailing for the described classes of laborers and mechanics employed on construction projects of a similar character and in the localities specified therein.

The determinations in these decisions of prevailing rates and fringe benefits have been made in accordance with 29 CFR part 1, by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR part 1, appendix, as well as such additional statutes as may from time to time be enacted containing provisions for the payment of wages determined to be prevailing by the Secretary of Labor in accordance with the Davis-Bacon Act. The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public comment procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in the effective date as prescribed in that section, because the necessity to issue current construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General wage determination decisions, and modifications and supersedeas decisions thereto, contain no expiration dates and are effective from their date of notice in the Federal Register, or on the date written notice is received by the agency, whichever is earlier. These decisions are to be used in accordance with the provisions of 29 CFR parts 1 and 5. Accordingly, the applicable decision, together with any modifications issued, must be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR part 5. The wage rates and fringe benefits, notice of which is published herein, and which are contained in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under The Davis-Bacon And Related Acts," shall be the minimum paid by contractors and subcontractors to laborers and mechanics.

Any person, organization, or governmental agency having an interest in the rates determined as prevailing is encouraged to submit wage rate and fringe benefit information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Wage and Hour Division, Division of Wage Determinations, 200 Constitution Avenue, NW., room S-3014, Washington, DC 20210.

General Wage Determination Publication

General wage determinations issued under the Davis-Bacon and related Acts, including those noted above, may be found in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under The Davis-Bacon And Related Acts". This publication is available at each of the 50 Regional Government Depository Libraries and many of the 1,400 Government Depository Libraries across the country. Subscriptions may be purchased from: Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, (202) 783-3238.

When ordering subscription(s), be sure to specify the State(s) of interest, since subscriptions may be ordered for any or all of the three separate volumes,

arranged by State. Subscriptions include an annual edition (issued on or about January 1) which includes all current general wage determinations for the States covered by each volume. Throughout the remainder of the year, regular weekly updates will be distributed to subscribers.

Signed at Washington, DC, this 11th day of December 1992.

Alan L. Moss,

Director, Division of Wage Determinations.

BILLING CODE 4510–27–M

NATIONAL SCIENCE FOUNDATION

Committee Management; Renewal

The Assistant Director for Engineering has determined that the renewal of the Special Emphasis Panel in Engineering Education and Centers (formerly Special Emphasis Panel in Engineering Infrastructure Development) is necessary and in the public interest in connection with the performance of duties imposed upon the Director, National Science Foundation (NSF) by 42 U.S.C. 1861 et seq. This determination follows consultation with the Committee Management Secretariat, General Services Administration.

Name of Committee: Special Emphasis Panel in Engineering Education and Centers.

Purpose: To review applications to programs, progress of ongoing Engineering Research Centers and Engineering Education Coalitions, review special initiative proposals, and to advise the Division management of continuing funding.

Balanced Membership Plan: Membership will be selected on an "as needed basis in response to specific proposals/applications/sites to be reviewed. About 165 individual panelists will be used each year. Members will be selected for their technical fit and the breadth and depth of candidate members. Membership will represent industry and/or academia, small or large organizations. Consideration will also be given to achieving geographic balance and to enhancing representation for women, minority, younger and disabled scientists.

Responsible NSF officials: Dr. Sue Kemnitzer, Deputy Division Director (Education), National Science Foundation, room 1776G, Washington, DC 20550 (202) 786–9831.

Dated: December 11, 1992.

M. Rebecca Winkler,

Committee Management Officer.

[FR Doc. 92–30717 Filed 12–17–92; 8:45 am]

BILLING CODE 7555–01–M

Committee Management; Establishment

The Assistant Director for Education and Human Resources has determined that the establishment of the Advisory Panel for the Presidential Faculty Fellows activity is necessary and in the public interest in connection with the performance of duties imposed upon the Director, National Science Foundation (NSF) by 42 U.S.C. 1861 *et seq.* This determination follows consultation with the Committee Management Secretariat, General Services Administration.

Name of Committee: Advisory Panel for Presidential Faculty Fellows.

Purpose: To provide advice and recommendations to the Director, NSF, and the President, regarding nominations to the Presidential Faculty Fellow award for support and recognition of 36 of the nation's most outstanding young faculty members working in research, education, and human resources in the areas of the physical sciences, engineering, geoscience, mathematics, biology, computer and information science, and social, behavioral, and economic sciences.

Balanced Membership Plan: Membership will consist of about 35 persons selected to be representative of the scientific and engineering areas normally supported by the Foundation. Every effort is made to achieve a balanced membership with representation including women, minority scholars, disabled persons, as well as different geographic regions of the U.S. and leaders from predominately undergraduate institutions and industry.

Responsible NSF Officials: Dr. Sonia Ortega, Program Director or Ms. Mary Saladek, Program Manager, National Science Foundation, room 1202, Washington, DC 20550 (202) 357–9466.

Dated: December 11, 1992.

M. Rebecca Winkler,

Committee Management Officer.

BILLING CODE 7555–01–M

Proposed Change to Grant Policy; Request for Comments

AGENCY: National Science Foundation.

ACTION: Notice of proposed change to National Science Foundation grant policy; request for comments.

SUMMARY: The National Science Foundation (NSF) is considering revisions to Section 517 of the NSF Grant Policy Manual, which sets forth NSF policy on payment of page charges for scientific journal publications under NSF grants. The proposed change to Section 517d of the NSF Grant Policy Manual would eliminate the present prohibition against payment of page charges to journals operated for profit. If adopted, NSF policy would no longer distinguish between journals published by profitmaking organizations and those published by scientific societies or other non-profit organizations for purposes of allowing page charges.

DATES: The NSF will welcome any comments on the proposed policy change. In order to be assured consideration comments must be postmarked no later than January 19, 1993.

ADDRESSES: Comments may be addressed to Robert B. Hardy, Acting Head of Policy, Division of Grants and Contracts, National Science Foundation, Washington, DC 20550.

FOR FURTHER INFORMATION CONTACT: Robert E. Hardy, 202–357–7880.

Lawrence Rudolph,

Deputy General Counsel.

[FR Doc. 92–30628 Filed 12–17–92; 8:45 am]

BILLING CODE 7555–01–M

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50–325 and 50–324]

Consideration of Issuance of Amendments to Facility Operating Licenses and Opportunity for Hearing; Carolina Power & Light Co., et. al.

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of amendments to Facility Operating License Nos. DPR–71 and DPR–62, issued to Carolina Power & Light Company (CPL, the licensee), for operation of the Brunswick Steam Electric Plant, Units 1 and 2, located in Brunswick County, North Carolina.

The amendments would allow a one-time revision to the requirements of Technical Specification 3.3.3, Emergency Core Cooling System Actuation Instrumentation, when in Operational Condition 4 (Cold Shutdown) to allow the minimum number of operable channels for one reactor steam dome pressure—low instrumentation trip system to be

temporarily reduced from two (2) channels to one (1) channel. The proposed amendments would allow, on three (3) separate occasions, one (1) reactor steam dome pressure—low (injection permissive) channel to be placed in the inoperable status for up to seven (7) days without invoking the ACTION statement in order to support modifications to upgrade the seismic qualifications of instrument racks H21–P009 (Unit 2 only) and H21–P010 (Unit 1 and Unit 2).

Prior to issuance of the proposed license amendments, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations.

By January 19, 1993, the licensee may file a request for a hearing with respect to issuance of the amendments to the subject facility operating license and any person whose interest may be affected by this proceeding and who wishes to participate as a party in the proceeding must file a written request for hearing and a petition for leave to intervene. Requests for a hearing and petitions for leave to intervene shall be filed in accordance with the Commission's "Rules of Practice for Domestic Licensing Proceedings" in 10 CFR part 2. Interested persons should consult a current copy of 10 CFR 2.714 which is available at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC 20555 and at the Local Public Document Room located at the University of North Carolina at Wilmington, William Madison Randall Library, 601 S. College Road, Wilmington, North Carolina 28403–3297. If a request for a hearing or petition for leave to intervene is filed by the above date, the Commission or an Atomic Safety and Licensing Board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel, will rule on the request and/or petition; and the Secretary or the designated Atomic Safety and Licensing Board will issue a notice of hearing or an appropriate order.

As required by 10 CFR 2.714, a petition for leave to intervene shall set forth with particularity the interest of the petitioner in the proceeding, and how that interest may be affected by the results of the proceeding. The petition should specifically explain the reasons why intervention should be permitted with particular reference to the following factors: (1) The nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. The petition should also identify the specific aspect(s) of the subject matter of the proceeding as to which petitioner wishes to intervene. Any person who has filed a petition for leave to intervene or who has been admitted as a party may amend the petition without requesting leave of the Board up to fifteen (15) days prior to the first pre-hearing conference scheduled in the proceeding, but such an amended petition must satisfy the specificity requirements described above.

Not later than fifteen (15) days prior to the first prehearing conference scheduled in the proceeding, a petitioner shall file a supplement to the petition to intervene which must include a list of the contentions that are sought to be litigated in the matter. Each contention must consist of a specific statement of the issue of law or fact to be raised or controverted. In addition, the petitioner shall provide a brief explanation of the bases of the contention and a concise statement of the alleged facts or expert opinion which support the contention and on which the petitioner intends to rely in proving the contention at the hearing.

The petitioner must also provide references to those specific sources and documents of which the petitioner is aware and on which the petitioner intends to rely to establish those facts or expert opinion. Petitioner must provide sufficient information to show that a genuine dispute exists with the applicant on a material issue of law or fact. Contentions shall be limited to matters within the scope of the amendment under consideration. The contention must be one which, if proven, would entitle the petitioner to relief. A petitioner who fails to file such a supplement which satisfies these requirements with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing, including the opportunity to present evidence and cross-examine witnesses.

A request for a hearing or a petition for leave to intervene must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Docketing and Service Branch, or may be delivered to the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC 20555 by the above date. Where petitions are filed during the last ten (10) days of the notice period, it is requested that the petitioner promptly so inform the Commission by a toll-free telephone call to Western Union at 1–800–248–5100 (in Missouri 1–800–342–6700). The Western Union operator should be given Datagram Identification Number N1023 and the following message addressed to Elinor G. Adensam: petitioner's name and telephone number; date petition was mailed; plant name; and publication date and page number of this **Federal Register** notice. A copy of the petition should also be sent to the Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555, and to Gerald Charnoff, Esq., Shaw, Pittman, Potts & Trowbridge, 2300 N Street NW., Washington, DC 20037, attorney for the licensee.

Nontimely filing of petitions for leave to intervene, amended petitions, supplemental petitions and/or requests for hearing will not be entertained absent a determination by the Commission, the presiding officer or the presiding Atomic Safety and Licensing Board that the petition and/or request should be granted based upon a balancing of the factors specified in 10 CFR 2.714(a)(1)(i)–(v) and 2.714(d).

If a request for a hearing is received, the Commission's staff may issue the amendments after it completes its technical review and prior to the completion of any required hearing if it publishes a further notice for public comment of its intent to make a no significant hazards consideration finding in accordance with 10 CFR 50.91 and 50.92.

For further details with respect to this action, see the application for amendments dated November 16, 1992, which is available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC 20555, and at the local public document room.

Dated at Rockville, Maryland, this 11th day of December 1992.

For the Nuclear Regulatory Commission.

Stephen T. Hoffman,

Acting Director, Project Directorate II–1, Division of Reactor Projects—I/II, Office of Nuclear Reactor Regulation.

[FR Doc. 92–30724 Filed 12–17–92; 8:45 am]

BILLING CODE 7590–01–M

GE Nuclear Energy Receipt of Application for Design Certification

Notice is hereby given that the Nuclear Regulatory Commission (the Commission) has received an application from GE Nuclear Energy (GE) dated August 27, 1992, filed pursuant to section 103 of the Atomic Energy Act and 10 CFR part 52, for design certification of the Simplified Boiling Water Reactor (SBWR) Standard Plant Design. A notice relating to the rulemaking pursuant to 10 CFR 52.51 for design certification, including provisions for participation of the public and other parties, will be published in the future.

The SBWR is a 670 MWe boiling water reactor in which passive safety systems are used for the ultimate safety protection of the plant. All of the safety systems are designed to be passive, where natural forces, such as gravity, natural convection, and stored energy (in the form of compressed gas or batteries), are used as the motive forces of these systems. The SBWR has a number of unique features that distinguish it from both the current generation of light water reactors and the evolutionary light water reactors. The SBWR application includes the entire power generation complex, except those elements and features considered site-specific, and is not a modular design in which major components are shared.

The application is incomplete in several important respects, and cannot, therefore, be accepted formally as a rulemaking petition for design certification. However, the NRC staff plans some review activities at this early stage to give GE notice of issues and concerns. Therefore, Docket Number 52–004 is being assigned to the application to facilitate public access to correspondence and review information. No formal review schedule has been established. The staff will establish its review schedule for final design approval after GE supplies the missing material.

A copy of the application is available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC. Previous correspondence on this application was filed under Project Number 681. The new docket number established for this application is 52–004.

Dated at Rockville, Maryland this 8th day of December 1992.

For the Nuclear Regulatory Commission.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–31587; File No. SR–Amex–92–31]

Self-Regulatory Organizations; Filing of Proposed Rule Change by American Stock Exchange, Inc., Relating to Automatic Cancellation of Orders in Expiring Rights and Warrants

December 11, 1992.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"), 15 U.S.C. 78s(b)(1), notice is hereby given that on August 28, 1992, the American Stock Exchange, Inc. ("Amex" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The proposed amendment to Rule 179 provides for automatic cancellation of "regular way" and "next day" orders in expiring rights and warrants prior to commencing "next day" and "cash" trading, respectively, in such issues.

The text of the proposed rule change is available at the Office of the Secretary, Amex, and at the Commission.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

Exchange Rule 179 provides time frames during which orders in expiring rights and warrants must be for "next day" delivery or for "cash" settlement, rather than for "regular way" five-day delivery. In order to assure that trades are settled prior to expiration, orders in expiring warrants must be for "cash" settlement during the last five business days before expiration, and for "next day" delivery during the three business days preceding that five day period. Orders in rights must be for "cash" settlement on the last trading day before expiration and for "next day" delivery on the five business days preceding the last trading day. Currently, "regular way" orders and "next day" orders on the specialist's book are not cancelled unless prior to execution the member or member organization from whom the specialist received the order cancels it. If the order is not cancelled, it automatically becomes "next day" or "cash" in accordance with the above time frames.

The Exchange has determined to amend Rule 179 to provide, in accordance with the time frames of the Rule, for the automatic cancellation of open "regular way" and "next day" orders in expiring rights and warrants entered in the Post Execution Reporting ("PER") system and on the specialist's book prior to commencing "next day" and "cash" trading in those securities. The normal ticker notice provided by the Exchange with respect to expiring rights and warrants would provide ample notice to members and member organizations regarding such order cancellations thereby giving them the opportunity to replace or not replace their cancelled orders. Substituted "next day" and "cash" orders would be treated as new orders and not entitled to retain the priority on the specialist's book of the "regular way" order.

The new procedures are particularly important in light of the utilization of the Amex Order File ("AOF") by an increasing number of member organizations. GTC/GTX (good 'til cancelled) or open orders in rights or warrants entered into PER/AOF as "regular way" orders but not cancelled prior to the automatic "non-regular way" trading (*e.g.*, "next day" or "cash") may result in errors in clearance and settlement. "Regular way" GTC/GTX orders entered by member organizations are recorded on the AOF with the Amex omnibus give-up

"APEX" to facilitate clearance through National Securities Clearing Corporation ("NSCC") facilities. Currently, the omnibus give-up "APEX" remains on the order on file and on the paper order on the specialist's book until it is executed, cancelled, or manually deleted. "Cash" or "next day" trades require a member organization's specific give-up symbol, instead of "APEX", to facilitate clearance of such "non-regular way" trades through NSCC facilities. Modifications to AOF to permit automatic purging from the system of open orders in expiring rights and warrants and their re-entry by member organizations with the organization's specific "give-up", if applicable, will facilitate accurate clearance and settlement of "cash" and "next day" trades without special action being taken by the specialist.

2. Basis

The proposed rule change is consistent with section 6(b) of the Act in general and furthers the objectives of section 6(b)(5) in particular in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market, and, in general, to protect investors and public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

The proposed rule change will impose no burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the publication of this notice in the **Federal Register** or within such other period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) By order approve the proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying at the Commission's Public Reference Section, 450 Fifth Street NW., Washington, DC 20549. Copies of such filing will also be available for inspection and copying at the principal office of the Amex. All submissions should refer to File No. SR–Amex–92–31 and should be submitted by January 8, 1993.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Margaret H. McFarland,

Deputy Secretary.

[FR Doc. 92–30781 Filed 12–17–92; 8:45 am]

BILLING CODE 8010–01–M

[Release No. 34–31591; File No. SR–AMEX–92–18]

Self-Regulatory Organizations; Order Approving Proposed Rule Change by the American Stock Exchange, Inc. Relating to Portfolio Depository Receipts

December 11, 1992.

On July 22, 1992,[1] the American Stock Exchange, Inc. ("AMEX" or "Exchange") submitted to the Securities and Exchange Commission ("Commission" or "SEC"), pursuant to Section 19(b) of the Securities Exchange Act of 1934 ("Act")[2] and Rule 19b–4 thereunder,[3] a proposed rule change to adopt new Rules 1000 *et seq.* to provide for the listing and trading of Portfolio Depositary Receipts ("PDRs"), which are securities issued by a unit investment trust and holding a portfolio of securities linked to an index.

Notice of the proposed rule changes were published for comment and appeared in the **Federal Register** on August 20, 1992.[4] No comments were received on the proposed rule changes. This order approves the proposal.

II. Description of the Proposal

A. Listing Requirements for Unit Investment Trusts

The Exchange proposes to adopt new Rules 1000 *et seq.* to accommodate the trading on the AMEX of PDRs, securities which are interests in a unit investment trust ("Trust")[5] holding a portfolio of securities linked to an index. The Trust sponsor ("Sponsor") will be PDR Services Corporation, a wholly-owned subsidiary of the AMEX. Each Trust will provide investors with an instrument that closely tracks the underlying portfolio of securities, that trades like a share of common stock, and that pays PDR holders periodic dividends proportionate to those paid with respect to the underlying portfolio of securities, less certain expenses (as described in the Trust prospectus).

Under the proposal, the Exchange may list and trade PDRs based on one or more stock indexes or securities portfolios. PDRs based on each particular stock index or portfolio shall be designated as a separate series and identified by a unique symbol. The stocks that are included in an index or portfolio on which PDRs are based shall be selected by the AMEX or its agent, a wholly-owned subsidiary of the Exchange, or by such other person as shall have a proprietary interest in and authorized use of such index or portfolio, and may be revised as may be deemed necessary or appropriate to maintain the quality and character of the index or portfolio.[6]

---

[1] The AMEX originally submitted its filing on June 5, 1992. On July 22, 1992, the AMEX submitted an amendment to its filing.

[2] 15 U.S.C. 78s(b)(1) (1982).

[3] 17 CFR 240.19b–4 (1991).

[4] See Securities Exchange Act Release No. 31039 (August 20, 1992), 57 FR 37851.

[5] The SPDR Trust, Series I, filed with the Commission's Division of Investment Management an application seeking, among other things, an order: (1) Permitting secondary market transactions in SPDRs at negotiated prices, rather than at a current public offering price described in the prospectus as required by section 22(d) of the Investment Company Act of 1940 ("'40 Act") and Rule 22c–1; and (2) permitting the sale of Standard & Poor's ("S&P") Depositary Receipts ("SPDRs") to purchasers in the secondary market unaccompanied by a prospectus, when prospectus delivery is not required by section 4(3) of the Securities Act of 1933 but may be required according to section 24(d) of the '40 Act for redeemable securities issued by a Unit Investment Trust. The Commission granted these exemptions on October 26, 1992. The exemptions permit individual SPDRs to be traded in secondary market transactions similar to closed-end investment company securities.

[6] The Commission notes that the AMEX is required to submit rule filings pursuant to section 19(b) of the Act before it lists a PDR based on a new index or group of securities. See letter from James P. Duffy, Senior Vice President & General Counsel, Legal & Regulatory Policy Division, AMEX, to Sharon Lawson, Assistant Director, Division of

Continued

In connection with an initial listing, the Exchange proposes that, for each Trust of PDRs, the Exchange will establish a minimum number of PDRs required to be outstanding at the time of commencement of Exchange trading, and such minimum number will be filed with the Commission in connection with any required submission under Rule 19b–4 for each Trust.[7]

Because the Trust operates on an open-end type basis, and because the number of SPDR holders is subject to substantial fluctuations depending on market conditions, the Exchange believes it would be inappropriate and burdensome on PDR holders to consider suspending trading in or delisting a series of PDRs, with the consequent termination of the Trust, unless the number of holders remains severely depressed during an extended time period. Therefore, twelve months after the formation of a Trust and commencement of Exchange trading, the Exchange will consider suspension of trading in, or removal from listing of, a Trust when, in its opinion, further dealing in such securities appears unwarranted under the following circumstances:

(a) If the Trust on which the PDRs are based has more than 60 days remaining until termination and there have been fewer than 50 record and/or beneficial holders of the PDRs for 30 or more consecutive trading days; or

(b) If the Index on which the Trust is based is no longer calculated; or

(c) If such other event shall occur or condition exists which, in the opinion of the Exchange, makes further dealings on the Exchange inadvisable.

A Trust shall terminate upon removal from Exchange listing and its PDRs redeemed in accordance with provisions of the Trust prospectus. A Trust may also terminate under such other conditions as may be set forth in the Trust prospectus. For example, the Sponsor, following notice to PDR holders, shall have discretion to direct that the Trust be terminated if the value of securities in such Trust falls below a specified amount.[8]

B. Listing of SPDRs

The AMEX expects that the first Trust to be formed in connection with the issuance of Portfolio Depositary Receipts will be based on the S&P 500 Composite Stock Price Index ("S&P 500 Index" or "Index") with the securities of the Trust known as SPDRs. It is anticipated that the term of the SPDR Trust will be 25 years.[9] The Trustee of the SPDR Trust will have the right to vote any of the voting stocks held by the Trust, and will vote such stocks of each issuer in the same proportion as all other voting shares of that issuer voted.[10] Therefore, SPDR holders will not be able to directly vote the shares of the issuers underlying SPDRs.

The Trust will issue SPDRs in exchange for "Portfolio Deposits" of all of the S&P 500 Index securities, weighted according to their representation in the Index.[11] An investor making a Portfolio Deposit into the Trust will receive a "Creation Unit" composed of 500,000 SPDRs, with an initial net asset value of approximately $2.1 million.[12] The price of SPDRs will be based on a current bid/offer market.[13] SPDRs will not be redeemable individually, but may be redeemed in Creation Unit size (*i.e.*, 50,000 SPDRs). Specifically, a Creation Unit may be redeemed for an in-kind distribution of securities identical to a Portfolio Deposit.[14] PDR Distribution Services, Inc. ("Distributor"), a registered broker-dealer, will act as underwriter of SPDRs on an agency basis.

C. Trading of PDRs

The Amex proposal includes rules to govern the trading of PDRs, in general, and SPDRs, in particular.[15] First the AMEX proposal provides procedures to govern the application of trading halts. Specifically, the AMEX has stated that prior to commencement of trading in PDRs, the Exchange will issue a circular to members informing them of Exchange policies regarding trading halts in such securities. Under the proposal, the circular will make clear that, in addition to other factors that may be relevant, the Exchange may consider factors such as those set forth in Exchange Rule 918C(b), the AMEX's rule governing trading rotations, halts and suspensions for stock index options, in exercising its discretion to halt or suspend trading. For a PDR based on an index, these factors would include whether trading has been halted or suspended in the primary market(s) for any combination of underlying stocks accounting for 20% or more of the applicable current index group value; or whether other unusual conditions or circumstances detrimental to the maintenance of a fair and orderly market are present.

According to the AMEX, SPDR trading would be halted (along with other securities on the Exchange) if the circuit breaker parameters under AMEX Rule 117 have been reached.[16] The triggering of futures price limits for the S&P 500, S&P 100 Composite Price Stock Index ("S&P 100 Index") or Major Market Index ("MMI") futures contracts will not, in themselves, result in a halt in SPDR trading or a delayed opening. Such an event, however, could be considered by the Exchange, along with other factors, such as a halt in trading in S&P 100 Index Options ("OEX"), S&P

Market Regulation, SEC, dated July 23, 1992 ("AMEX Letter").

[7] The AMEX indicates that 150,000 SPDRs (approximately $8 million) will be required to be outstanding when trading commences.

[8] For an example of some specific conditions for termination of a Trust, see *infra* note 9.

[9] The SPDR Trust may terminate at an earlier time under certain circumstances, as provided in the prospectus. For example, the SPDR Trust may terminate if the license agreement with S&P Corporation terminates. In addition, the Sponsor of the SPDR Trust may terminate the Trust if the net asset value of the Trust, after six months from inception, falls below $150 million, and, after three years from inception, the net asset value of the Trust falls below $350 million, as adjusted annually for inflation.

[10] The Trustee will abstain from voting if the stocks held by the Trust cannot be voted in proportion as all other shares of the securities are voted.

[11] A Portfolio Deposit also will include a cash payment equal to a *pro rata* portion of the dividends accrued on the Trust's portfolio securities since the last dividend payment by the Trust, plus or minus an amount designed to compensate for any difference between the net asset value of the Portfolio Deposit and the S&P 500 Index caused by, among other things, the fact that a Portfolio Deposit cannot contain fractional shares.

[12] The Trust is structured so that the net asset value of an individual SPDR should equal one-tenth of the value of the S&P 500 Index. At the index's current level, the net asset value of a SPDR would be approximately $43 of the S&P 500 Index. At the index's current level, the net asset value of a SPDR would be approxiamtely $43.

[13] The AMEX has, in a separate rule filing, proposed to use 1/32's as the minimum fraction for trading in SPDRs. See file no. SR–AMEX–92–14 (December 11, 1992).

[14] An investor redeeming a Creation Unit will receive Index securities and cash identical to the Portfolio Deposit required of an investor wishing to purchase a Creation Unit on that particular day. Since the Trust will redeem in kind rather than for cash, the Trustee will not be forced to maintain cash reserves for redemptions. This should allow the Trust's resources to be committed as fully as possible to tracking the S&P 500 Index, enabling the Trust to track the Index more closely than other basket products that must allocate a portion of their assets for cash redemptions.

[15] Because SPDRs represent a portfolio of securities, and do not involve the trading of the stocks in the portfolio on an individual basis, the Commission believes that SPDRs are distinct and separate securities from the securities contained in the portfolio and, thus, would not be subject to off-board trading restrictions. Accordingly, SPDRs may be traded off-exchange or off-board pursuant to Rule 19c–3. In addition, SPDRs also would be eligible for trading by other exchange markets pursuant to the unlisted trading privileges ("UTP") procedure, as set forth under 12(f) under the Act.

[16] AMEX Rule 117 provides that:

If the Dow Jones Industrial Average ("DJIA") is calculated at a value of 250 or more points below its closing value on the previous trading day ("Closing Value"), trading in securities on the Exchange shall halt and not reopen for one hour. If, on the same day, the DJIA is subsequently calculated at a value of 400 or more points below that closing value, trading in securities on the Exchange shall halt and may not reopen for two hours.

500 Index Options ("SPX"), or Major Market Index Options ("XMI"), in deciding whether to halt trading in SPDRs.[17]

Second, the AMEX proposal requires that members and member organizations provide to all purchasers of each series of such securities, in a form prepared by the Exchange, not later than the time a confirmation of the first transaction in such series of PDRs is delivered to such purchaser. In this regard, a number or member organization carrying an omnibus account for a non-member broker-dealer will be required to inform such non-member that execution of an order to purchase PDRs for such omnibus account will be deemed to constitute an agreement by the non-member to make such written description available to its customers on the same terms as are directly applicable to member and member organizations. The written description must be included with any sales material on that series of PDRs that a member provides to customers or the public. Moreover, other written materials provided by a member or member organization to customers or the public making specific reference to a series of PDRs as an investment vehicle must include a statement in substantially the following form: "A circular describing the terms and characteristics of [the series of PDRs] has been prepared by the AMEX and is available from your broker or the Exchange. It is recommended that you obtain and review such circular before purchasing [the series of PDRs]. In addition, upon request you may obtain from your broker a prospectus for [the series of PDRs]." [18] Finally, as noted above, the Exchange requires that members and member organizations provide customers with a copy of the prospectus for a series of PDRs upon request.

Third, the proposal provides in Commentary .02 to Proposed AMEX Rule 1000 that transactions in PDRs may be necessary on the AMEX until 4:15 p.m. each business day.[19] Secondary market transactions of PDRs, in general, and SPDRs, in particular, will be reported to the consolidated tape.

III. Discussion

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange, and, in particular, the requirements of section 6(b)(5). Specifically, the Commission believes that providing for the exchange-trading of PDRs, in general, and SPDRs, in particular, will offer a new and innovative means of participating in the securities markets. In particular, the Commission believes that the trading of PDRs will provide investors with increased flexibility in satisfying their investment needs of allowing them to purchase and sell a low-cost security replicating the performance of a broad portfolio of stocks at negotiated prices throughout the business day.[20] The Commission also believes that the PDRs will benefit investors by allowing them to trade securities based on unit investment trusts in secondary market transactions.[21]

The Commission believes that the listing and trading on an exchange of a security like SPDRs, which replicates the performance of a broad portfolio of stocks, could benefit the securities markets by, among other things, helping to ameliorate the volatility occasionally experienced in these markets, such as during the October 1987 and 1989 Market Breaks.[22] The Commission believes the creation of one or more products where actual portfolios of stocks or instruments representing portfolios of stock, such as PDRs, that can trade at a single location in an auction market environment could alter the dynamics of program trading, because the availability of such single transaction portfolio trading could, in effect, restore the execution of program trades to more traditional block trading techniques.[23]

The 1987 Market Break Report noted the potential benefits to be derived from providing a market where institutional investors and member firms could focus their equity transactions at posts trading a portfolio of stocks in a single transaction. In particular, the 1987 Market Break Report noted that the specialist(s) and the trading crowd(s) at the portfolio post could provide additional liquidity, that is currently unavailable at the posts for trading in each of the individual stocks, as well as provide the additional efficiencies associated with effecting a single transaction in a portfolio of securities as opposed to numerous transactions in individual stocks. The additional layer of liquidity to the market could help to absorb the velocity and concentration of trading associated with index-related trading strategies involving individual stocks. Because market portfolio instruments, such as SPDRs, would be traded at a single location on an exchange floor, the potentially adverse effects of program trading order flows during volatile market conditions, such as imbalances in particular stocks, would be diminished.[24] Moreover, the trading of a single security replicating the performance of a broad portfolio of stocks, in general, and SPDRs, in particular, will provide an easy and inexpensive method to clear and settle a portfolio of stocks. Accordingly, given the design of the PDRs in general, and SPDRs, in particular, the Commission believes that the benefits to the marketplace noted above resulting from the trading of a "basket" product likely will result from the trading of PDRs.

As noted above, an individual SPDR will have a value approximately equal to 10% of the value of the S&P 500 Index. This should potentially make this product more available and useful to individual retail investors desiring to hold a security replicating the performance of a broad portfolio of stocks. Accordingly, the Commission believes that SPDRs will provide retail investors with a cost efficient means to make investment decisions based on the direction of the market as a whole and may provide stock market participants several advantages over existing

---

[17] See AMEX Letter, *supra* note 6.

[18] See Commentary .01 to Proposed AMEX Rule 1000.

[19] SPDR creations and redemptions, however, will not be reported to the tape by any party, nor will securities delivered to the Trust upon the creation of SPDRs or securities delivered by the Trust to SPDR holders upon redemption. The transfer of stock to create or redeem SPDRs is not a transaction on the Exchange, and, therefore is not a transaction that would be subject to the requirements of Rule 11Ac1–2 under the Act. Accordingly, because no transactions in individual S&P 500 stocks will occur on the AMEX, an application to trade such securities pursuant to UTP procedures is unnecessary and not required under the Act.

[20] Pursuant to section 6(b)(5) of the Act the Commission must predicate approval of exchange trading for new products upon a finding that the introduction of the product is in the public interest. Such a finding would be difficult with respect to a product that served no investment, hedging or other economic function, because any benefits that might be derived by market participants would likely be outweighed by the potential for manipulation, diminished public confidence in the integrity of the markets, and other valid regulatory concerns.

[21] The Commission notes, however, that unlike open-end funds where investors have the right to redeem their fund shares on a daily basis, investors could only redeem SPDRs in 50,000 share units. Nevertheless, SPDRs would have the added benefit of liquidity from the secondary market and SPDR holders, unlike holders of most other open-end funds, would be able to dispose of their shares in a secondary market transaction.

[22] See Division of Market Regulation, SEC, The October 1987 Market Break (February 1988) ("1987 Market Break Report") and Division of Market Regulation, SEC, Market Analysis of October 13, and 16, 1989 (December 1990).

[23] Program trading is defined as index arbitrage or any trading strategy involving the related purchase or sale of a "basket" or group of 15 or more stocks having a total market value of $1 million or more.

[24] See *infra* note 35.

methods of effecting program trades involving stocks.

The Commission also believes that PDRs, in general, and SPDRs, in particular, will provide investors with several advantages over standard open-end S&P 500 Index mutual fund shares. In particular, investors will have the ability to trade SPDRs continuously throughout the business day in secondary market transactions at negotiated prices.[25] In contrast, pursuant to Investment Company Act Rule 22c–1,[26] holders and prospective holders of open-end mutual fund shares are limited to purchasing or redeeming securities of the fund based on the net asset value of the securities held by the fund as designated by the board of directors.[27] Accordingly, PDRs, and SPDRs in particular, will allow investors to (1) respond quickly to changes in the market; (2) trade at a known price; (3) engage in hedging strategies not currently available to retail investors; and (4) reduce transaction costs for trading a portfolio of securities.

Although SPDRs are not leveraged instruments, and, therefore, do not possess any of the attributes of stock index options, their price will still be derived and based upon the securities held in the Trust. In essence, SPDRs are equity securities that are priced off a portfolio of stocks based on the S&P 500 Index.[28] Accordingly, the level of risk involved in the purchase or sale of a SPDR is similar to the risk involved in the purchase or sale of traditional common stock, with the exception that the pricing mechanism for SPDRs is based on a basket of stocks. Nonetheless, the Commission has several specific concerns regarding the trading of these securities. In particular, SPDRs raise disclosure, market impact and secondary market trading issues that must be addressed adequately. As discussed in more detail below, the Commission believes the AMEX proposal adequately addresses these concerns.

A. Disclosure

The Commission believes the AMEX proposal contains several provisions that will ensure that investors are adequately apprised of the terms, characteristics, and risks of trading PDRs. As noted above, the proposal include five aspects addressing disclosure concerns. First, AMEX members must provide their customers trading PDRs with a written explanation of any special characteristics and risks attendant to trading such PDR securities (such as SPDRs), in a form prepared by the AMEX.[29] Second, members and member orgnaizations must include this written product description with any sales material relating to a series of PDRs that is provided to customers or the public. Third, any other written materials provided by a member or member organization to customers or the public referencing PDRs as an investment vehicle must include a statement in a form specified by the AMEX, that a circular and prospectus are available from a broker upon request. Fourth, a member or member organization carrying an omnibus account for a non-member broker-dealer is required to inform such non-member that execution of an order to purchase a series of PDRs for such omnibus account will be deemed to constitute agreement by the non-member to make the written product description available to its customers on the same terms as member firms. Accordingly, the Commission believes that investors in PDR securities, in general, and SPDRs, in particular, will be provided with adequate disclosure of the unique characteristics of the PDR instruments and other relevant information pertaining to the instruments.[30]

Finally, under the AMEX's proposal there will be no special account opening or customer suitability rules applicable to the trading of PDRs.[31] Nevertheless, pursuant to proposed AMEX Rule 1000(a), the AMEX equity rules governing account opening and suitability will apply. Specifically, these provisions provide that members shall use due diligence to learn the essential facts relative to every customer, order or account accepted, and, prior to or promptly after the competition of a transaction for such account, specifically approve the opening of the account.[32]

B. Market Impact

The Commission believes the AMEX has adequately addressed the potential market impact concerns raised by its proposal. First, the AMEX proposal permits the listing and trading of specific PDRs only after review by the Commission.[33] Second, the AMEX has developed policies regarding trading halts in PDRs. Specifically, the Exchange would halt PDR trading if the circuit breaker parameters under AMEX Rule 117 were reached.[34] In addition, in deciding whether to halt trading or conduct a delayed opening in PDRs, in general, and SPDRs, in particular, the AMEX represents that it will be guided by, but not necessarily bound to, relevant stock index option trading rules. Specifically, consistent with AMEX Rule 918C(b), the AMEX may consider whether trading has been halted or suspended in the primary market(s) for any combination of

---

[25] Because of potential arbitrage opportunities, the Commission believes that SPDRs will not trade at a material discount or premium in relation to their net asset value. The mere potential for arbitrage should keep the market price of a SPDR comparable to its net asset value, and therefore, arbitrage activity likely will be minimal. In addition, the Commission believes the Trust will track the S&P 500 index more closely than an open-end index fund because the Trust will accept only in-kind deposits, and, therefore, will not incur brokerage expenses in assembling its portfolio. In addition, the Trust will redeem only in kind, thereby enabling the Trust to invest virtually all of its assets in securities comprising the S&P 500 Index.

[26] Investment Company Act Rule 22c–1 generally requires that a registered investment company issuing a redeemable security, its principal underwriter, and dealers in that security, may sell, redeem, or repurchase the security only at a price based on the net asset value next computed after receipt of an investor's request to purchase, redeem, or resell. The net asset value of a mutual fund generally is computed once daily Monday through Friday as designated by the investment company's board of directors. The Commission granted SPDR Trust an exemption from this provision in order to allow SPDRs to trade at negotiated prices in the secondary market.

[27] *Id.*

[28] In fact, the margin requirement for the PDRs will be identical to the requirements for other equity securities. The short sale of a SPDR will be margined at 150% of the current market value of the security, while long SPDR positions are set at 50% of the current market value of the security, the usual Regulation T requirements for equity margin stocks.

[29] The AMEX submitted with its rule filing a SPDR Product Description required to be distributed to customers trading SPDRs. This document describes, among other things, that SPDRs possess risks similar to those present when investing in a broadly based portfolio of common stocks, including the risk that the general level of stock prices may decline, thereby adversely affecting the value of such investment.

[30] In addition, the exemptions granted by the Commission under the Investment Company Act of 1940 that permit the secondary market trading of SPDRs are specifically conditioned upon the customer disclosure requirements described above.

[31] This reflects the fact that PDRs are equity products and not an options product, and, therefore, do not necessitate the imposition of options-like rules.

[32] See Amex Rule 411.

[33] See AMEX Letter, *supra* note 6. In reviewing proposals concerning specific series of PDRs, the Commission expects to focus on whether the PDR series by virtue of its design or composition raises potential manipulation, disclosure, or other trading abuse concerns.

[34] The circuit breaker rules provide that trading in the stock, options and futures markets will halt for one hour if the Dow Jones Industrial Average ("DJIA") declines 250 points or more from its previous day's closing level, and, thereafter, trading would halt for an additional two hours if the DJIA declines 400 points from the previous day's close. The triggering of futures price limits for the S&P 500, S&P 100, or MMI futures, however, will not, in themselves, result in a halt in PDR trading or delayed openings. Such an event, however, could be considered by the Exchange, along with other factors, in deciding whether to halt trading in PDRs.

underlying stocks accounting for 20% or more of the applicable current index group value or whether other unusual conditions or circumstances detrimental to the maintenance of a fair and orderly market are present.

The Commission believes that the listing and trading of SPDRs will not adversely impact U.S. securities markets. The corpus of the SPDR Trust will be a portfolio of stocks replicating the S&P 500 Index, a broad-based, capitalization-weighted index consisting of 500 of the most actively-traded and liquid stocks in the U.S. Accordingly, the Commission believes that SPDRs do not contain features that will make them likely to impact adversely the U.S. securities markets. In fact, as described above, the Commission believes SPDRs may provide substantial benefits to the marketplace and investors, including, among others, enhancing the stability of the markets for individual stocks.[35] Finally, the AMEX has developed surveillance procedures for PDRs that incorporate and rely upon existing AMEX surveillance procedures governing options and equities.

C. Trading Rules

The Commission finds that the AMEX has designed adequate rules and procedures to govern the trading of PDR securities, including SPDRs. Specifically, because PDRs, in general, and SPDRs, in particular, are equity securities that will be subject to the full panoply of AMEX rules governing the trading of equity securities on the AMEX, including, among others, rules governing the priority, parity and precedence of orders and the responsibilities of specialists. In addition, the AMEX has developed specific listing and delisting criteria for PDRs that will help to ensure that the markets for PDRs will be deep and liquid. As noted above, the AMEX also has developed trading halt procedures governing PDRs. Accordingly, the Commission believes that the AMEX's rules governing the trading of PDRs provide adequate safeguards to prevent manipulative acts and practices and to protect investors and the public interest. The Commission also finds that permitting the trading of PDRs until 4:15 p.m. is appropriate given the availability of other basket products, such as stock index options, until that time.

[35] Even though PDR transactions may serve as substitutes for transactions in the cash market, thereby making the order flow in individual stocks smaller than would otherwise be the case, the Commission acknowledges that during turbulent market conditions the ability of large institutions to redeem or create PDRs could conceivably have an impact on price levels in the cash market. In particular, if a PDR is redeemed, the resulting long stock position could be sold into the market, thereby depressing prices further. The Commission notes, however, that the redemption or creation of PDRs likely will not exacerbate a price movement because PDRs will be subject to the equity margin requirements of 50% and PDRs are non-leveraged instruments. In addition, as noted above, during turbulent market conditions, the Commission believes PDRs and SPDRs, in particular, will serve as a vehicle to accommodate and "bundle" order flow that otherwise would flow to the cash market, thereby allowing such order flow to be handled more efficiently and effectively. Accordingly, although PDRs and SPDRs could, in certain circumstances, have an impact on the cash market, on balance we believe the product will be beneficial to the marketplace and can actually aid in maintaining orderly markets.

IV. Conclusion

The Commission finds that the listing and trading of PDRs, in general, and SPDRs, in particular, is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange, and, in particular, the requirements of section 6(b)(5). As discussed above, the trading of PDRs, including SPDRs, on a secondary market, should provide a variety of benefits to the marketplace and investors trading portfolios of securities. Accordingly, the Commission believes that SPDRs will serve to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, protect investors and the public interest.

It is therefore ordered, pursuant to section 19(b)(2) of the Act,[36] that the proposed rule change (SR–AMEX–92–18) is approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.[37]

Margaret H. McFarland,

Deputy Secretary.

[Release No. 34–31586; International Series Release No. 508; File No. SR–NASD–92–27]

Self-Regulatory Organizations; National Association of Securities Dealers, Inc.; Notice of Amendment and Order Granting Temporary Accelerated Approval of Proposed Rule Change Relating to Issuer Notification Requirements and Fees for the Issuance of Additional Shares and the Creation of Certain Stock Plans

December 11, 1992.

On June 17, 1992, the National Association of Securities Dealers, Inc. ("NASD", "Association" or "Corporation") submitted a proposed rule change to the Securities and Exchange Commission ("SEC" or "Commission") pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")[1] and Rule 19b–4 thereunder.[2] The proposal amends Schedule D of the NASD's By-Laws[3] in order to require issuers included in either the Regular NASDAQ System ("regular NASDAQ") or the NASDAQ/National Market System ("NASDAQ/NMS"), (together known as "NASDAQ") to file with the NASD notification of the creation of a stock option, employee stock purchase or other stock remuneration plan or the issuance of additional shares of any class of securities included in NASDAQ, other than securities issued under such plans. Issuers of securities (except for ADRs) included in NASDAQ will also be required to notify the NASD of any change in the issuer's transfer agent or registrar. Further, the rule change amends Schedule D of the By-Laws[4] to require NASDAQ issuers to pay a fee for each issuance of additional shares of an already included security in connection with certain enumerated transactions.

Notice of the proposed rule change, as originally filed, together with its terms of substance was provided by the issuance of a Commission release (Securities Exchange Act Release No. 31289, International Release No. 467, October 5, 1992) and by publication in the **Federal Register** (57 FR 46887, October 13, 1992). No comments were received in response to the Commission release.

On November 18, 1992, the NASD submitted Amendment No. 1 to the proposed rule change. Amendment No. 1 responds to four comment letters received by the Commission prior to publication of notice of the original filing; amends the language of the filing to clarify the intent of the NASD, especially to clarify that the proposed fee will be a *per issuance* fee and that the notification requirements apply only to the creation of certain stock remuneration plans and the issuance of additional shares; corrects certain technical errors in the filing; and requests an effective date of December 1, 1992 for the rule change.[5]

[5] By letter dated December 3, 1992, the NASD withdrew its request for an effective date of

Continued

Amendment No. 2, filed on December 8, 1992, further clarifies the rule change by making certain technical changes to the text of the rule change.

By this release, the Commission: (i) Solicits comments on Amendment Nos. 1 and 2; and (ii) approves the proposed rule change, as amended, on an accelerated basis, until February 28, 1993. At the end of the comment period for Amendment Nos. 1 and 2, the Commission will determine whether to approve the proposed rule change, as amended, on a permanent basis.

Below is the text of the rule change, as amended by Amendment Nos. 1 and 2. Language added to the original proposal is italicized; proposed deletions to the language originally filed as SR–NASD–92–27 are in brackets.

Schedule D to the NASD By-Laws

Part II

Qualification Requirements for NASDAQ Securities

Sec. 1 Qualification Requirements for Domestic and Canadian Securities

* * * * *

(c)

* * * * *

(15) The issuer shall be required to file on a form designated by the Association notification of the creation of a stock option, [stock purchase or similar plan or arrangement to issue additional shares] *employee stock purchase or other stock remuneration plan* or the issuance of additional shares of any class of securities included in the NASDAQ System, *except for the issuance of additional shares under a stock option, employee stock purchase or other stock remuneration plan,* no later than 15 calendar days prior to the creation of the plan[, arrangement] or *the* issuance *of additional shares.*

(16) The issuer of any class of securities included in the NASDAQ System shall notify the Association promptly in writing of any change in the issuer's transfer agent or registrar.

Subsections (15)–(17) are renumbered (17)–(19) respectively.

Sec. 2 Qualification Requirements for non-Canadian Foreign Securities and American Depositary Receipts.

* * * * *

(e)

* * * * *

(14) The issuer shall be required to file on a form designated by the Association notification of the creation of a stock option, [stock purchase or similar plan or arrangement to issue additional shares] *employee stock purchase or other stock remuneration plan* or the issuance of additional shares of any class of securities included in the NASDAQ System, except for *the issuance of additional shares under a stock option, employee stock purchase or other stock remuneration plan and* American Depository Receipts, no later than 15 calendar days prior to the date of creation of the plan[, arrangement] or *the* issuance *of additional shares.*

(15) The issuer of any class of securities included in the NASDAQ System, except for American Depositary Receipts, shall notify the Association promptly in writing of any change in the issuer's transfer agent or registrar.

Subsections (14)–(16) are renumbered (16)–(18) respectively.

Part IV

Listing Fees

The NASDAQ Stock Market-National Market System

* * * * *

B. Additional Shares

1. The issuer of each class of security, other than American Depositary Receipts, which is listed in the National Market System shall pay to the Corporation the fee set forth in paragraph 2. below in connection with the issuance of additional shares of each class of listed security set forth in paragraph 3. below.

2. The fee in connection with additional shares shall be $2,000 or $.02 per additional share, whichever is higher, up to a maximum of $17,500 per [issuer] *issuance.*

3. The fee in connection with additional shares is applicable to the following issuances of securities:

a. Acquisitions, mergers or consolidations;

b. Public offerings;

c. Rights and subscription offerings;

d. Exchange offers; and

e. Private placements.

4. Payment of the fee to the [Association] *Corporation* shall be included with the issuer notification to the Association of the issuance of additional shares of securities as required under provisions of Sections 1(c)(15) and 2(e)(14) of Part II to Schedule D of the NASD By-Laws.

[B]*C.* Annual Fee-Domestic and Foreign Issues.

* * * * *

[C]*D.* Annual Fee-American Depositary Receipts (ADRs).

* * * * *

Regular NASDAQ System

[D]*E.* Entry Fee.

* * * * *

F. Additional Shares

1. The issuer of each class of security other than American Depositary Receipts which is listed in the Regular NASDAQ System shall pay to the Corporation the fee set forth in paragraph 2. below in connection with the issuance of additional shares of each class of listed security set forth in paragraph 3. below.

2. The fee in connection with additional shares shall be $1,000 or $.01 per additional share, whichever is higher, up to a maximum of $7,500 per [issuer] *issuance.*

3. The fee in connection with additional shares is applicable to the following issuances of securities:

a. Acquisitions, mergers or consolidations;

b. Public offerings;

c. Rights and subscription offerings;

d. Exchange offers; and

e. Private placements.

4. Payment of the fee to the [Association] *Corporation* shall be included with the issuer notification to the Association of the issuance of additional shares of securities as required under provisions of Sections 1(c)(15) and 2(e)(14) of Part II to Schedule D of the NASD By-Laws.

Subsections E–G are renumbered G–I, respectively.

Fifteen Days Prior Notice

In the past, the NASD has not required issuers included in NASDAQ to file with the NASD notification of the issuance of additional shares or notification of the creation of stock option, employee stock purchase or other stock remuneration plans under which securities included in NASDAQ will be issued.[6] The NASD has determined that such notification will supply the NASD with relevant information regarding NASDAQ issuers

December 1, 1992. *See* letter from Suzanne E. Rothwell, Associate General Counsel, NASD, to Selwyn Notelovitz, Branch Chief, SEC, dated December 3, 1992.

[6] In contrast to the application and approval procedures required by the New York Stock Exchange ("NYSE") and the American Stock Exchange ("AMEX") for issuance of additional securities, the instant rule change requires issuers only to submit notification to the NASD of the issuance of additional shares. See § 703.00, NYSE Manual and sections 301–343 of part 3 to the Listing Standards, Policies and Requirements of the AMEX Guide, Vol. 2. The NYSE and AMEX do not permit a listed company either to issue or to authorize the company's registrar or transfer agent to issue or register additional securities of a class listed on the exchange until the company has filed an application with the exchange. The application requirements of the NYSE and AMEX also apply to the creation of stock option, stock purchase and other remuneration plans involving listed securities.

and the purpose for which the securities are being issued. The rule change approved herein on a temporary basis will require domestic and foreign issuers of securities included in NASDAQ, except for issuers of such securities held in American Depositary Receipts ("ADRs"), to file on a NASD designated form, notification regarding the issuance of additional shares of any class of securities included in NASDAQ no later than 15 calendar days prior to such issuance.[7] Issuances of additional securities include securities issued in connection with dividends, stock splits, rights and exchange offers, public and private offers, acquisitions, mergers or consolidations. Issuances of additional shares will not include securities *issued under* a stock option, employee stock purchase or other stock remuneration plan.[8]

However, issuers of securities included in NASDAQ will be required to provide detailed notification to the NASD upon the *creation* of a stock option, employee stock purchase or other stock remuneration plan. The NASD believes such plans have the potential for affecting the market of issuers in NASDAQ. Notification will further facilitate NASD oversight of the NASDAQ/NMS criteria for shareholder approval of certain remuneration plans under section 5(i) of Part III to Schedule D of the NASD's By-Laws.[9] In the case of such plans, the NASD believes only notification of creation of the plan will be necessary for oversight purposes and not actual notification of the periodic issuance of stock under the plan. The NASD, therefore, will require that domestic and foreign issuers of securities included in NASDAQ, except for issuers having such securities held in ADRs, file on a NASD designated form notification regarding the creation of a stock option, employee stock purchase or other stock remuneration plan in connection with any class of securities included in NASDAQ no later than 15 calendar days prior to creation of such plan.

Notification of Change in Transfer Agent or Registrar

The NASD previously did not require a NASDAQ issuer to notify the NASD when there was a change in the issuer's transfer agent or registrar. The NASD believes prompt receipt of such information is relevant to the NASD's oversight of NASDAQ. Therefore, upon the effective date of this approval order, foreign and domestic issuers of securities included in NASDAQ, except for issuers of securities held in ADRs,[10] must notify the NASD promptly in writing of any change in the issuer's transfer agent or registrar.

Fee for Issuances of Additional Shares

The NASD is also imposing a fee on NASDAQ issuers to be paid when such issuers notify the NASD of the issuance of an additional amount of an already included security in connection with the following transactions: (a) Acquisitions, mergers or consolidations; (b) public offerings; (c) rights and subscription offerings; (d) exchange offers; and (e) private placements. Under the rule change, the issuance of additional shares of an already included security in connection with a transaction that is not listed above would not have a fee for additional shares imposed. For example, the issuance of additional shares in connection with a stock option, dividend reinvestment plan, stock split or stock dividend will not result in a fee under the rule change. Moreover, no fee will be charged in connection with the establishment of stock option, employee stock purchase or other stock remuneration plan.

The NASD has created a separate fee schedule for regular NASDAQ and NASDAQ/NMS issuers that the NASD believes reflects the different level of service and exposure provided to such respective issuers in NASDAQ. For securities included in regular NASDAQ, issuances or plans to issue additional securities under the specific circumstances set forth above are subject to a fee of $1,000 or $.01 per additional share, whichever is higher, up to a maximum of $7,500 per issuance.[11] For securities included in NASDAQ/NMS, issuances or plans to issue additional securities are subject to a fee of $2,000 or $.02 per additional share, whichever is higher, up to a maximum of $17,500 per issuance.[12]

Increased funding for Issuer-Related Operations

The NASD has stated that the fees obtained from the rule change are intended to fund additional issuer-related operations. Such operations include educational initiatives, issuer service initiatives, and NASD surveillance measures currently being created, or improved, which the NASD believes will enhance the quality of NASDAQ for issuers and improve the capital-raising capabilities for such issuers.

Specifically, the NASD states that it plans educational programs for registered representatives of NASD members to increase their knowledge of the market structure of NASDAQ. Training programs are also planned for the entry level personnel of NASD members to increase their knowledge of the NASD and NASDAQ by focusing on issues such as NASD market surveillance procedures, NASDAQ trading practices, and the qualifications criteria for companies included in NASDAQ. Also planned is the development of educational programs for international investors regarding the qualification requirements of NASDAQ. In addition, the revenues obtained from the fee will supplement current advertising to make the public more aware of the opportunities of investing in the stock of NASDAQ companies.

The NASD states that revenues obtained from the fee also will be used to enhance the ability of NASDAQ to educate individual companies on market-related issues whenever individual corporate inquiries arise. Specifically, a program is planned to increase the expertise of the NASDAQ representatives whose duty it is to help designated NASDAQ/NMS and regular NASDAQ issuers on a day-to-day basis with inquiries regarding NASDAQ, the securities markets, and questions of capital formation. The NASD also anticipates that the revenues obtained

---

[7] Rule 10b–17 of the Act requires certain issuers to provide notification to the NASD in connection with: a dividend or other distribution in cash or in kind; a stock split or reverse split; or a rights or subscription offering. To avoid duplicate reporting to the NASD for issuers in the NASDAQ System who are commencing stock splits, rights offers, subscription offers, or a dividend or other distribution involving the issuance of additional shares, the NASD designated notification form will include the information required to be submitted to the NASD pursuant to Rule 10b–17. The NASD will inform issuers in the NASDAQ System by means of an NASD "Notice to Issuers" that compliance with the proposed rule change's notification requirements for purposes of a stock split, a rights offer, a subscription offer, or a dividend or other distribution involving the issuance of additional shares, will also satisfy Rule 10b–17's notification requirements to the NASD.

[8] Amendment No. 2 amends the text of the rule change to clarify that securities issued under a stock option, employee stock purchase or other stock remuneration plan will not be included in the notification requirements.

[9] NASD Securities Dealers Manual, Schedule D to the By-Laws, Part III, Designation of NASDAQ/NMS Securities, Section 5(i), Non-Quantitative Designation Criteria, CCH, ¶ 1612.

[10] The exception of ADRs is proposed because notifications to U.S. holders of ADRs are provided by the U.S. depository bank that created the ADR and not the registrar or transfer agent of the foreign issuer.

[11] Amendment No. 1 to the filing clarifies that the NASD intends to make the fee a "per issuance" fee. As originally filed, the language of the proposal indicated a fee "per issuer" despite the fact that the descriptive language of the original filing described a "per issuance" fee.

[12] The fee schedule for NASDAQ/NMS is equivalent to the AMEX fee schedule under Section 142 to Part 1 of the Listing Standards, Policies and Requirements of the AMEX Guide, Vol. 2.

from the fee will be used for the development and maintenance of experimental issuer information services including: (i) A system that would permit certain issuers to access current and historical trading data of the company via a personal computer, and to set-up and track the company's stock in comparison to the stock of peer companies; (ii) a surveillance system that would monitor trading in certain stocks pursuant to parameters set by the issuer and provide a next-day report to those companies; and (iii) a system that would provide certain issuers with quarterly and annual customized records of the company's stock trading activity. Revenues from the fee are also intended to support further automation and streamlining of the NASDAQ issuer application procedures, and for further automation of the work-flow process and analysis of maintenance qualifications. In particular, it is intended that monitoring and reviewing the issuances of additional shares of NASDAQ/NMS issuers will be enhanced to ensure compliance with NASDAQ/NMS issuers will be enhanced to ensure compliance with NASDAQ/NMS corporate governance requirements imposed pursuant to Part III, section 5 of Schedule D to the NASD By-Laws.

The NASD states that revenues from the new fee will also support further development and ongoing implementation of NASD Market Surveillance procedures including the implementation of an incident tracking surveillance system, enhancements to the StockWatch automated tracking system ("SWAT"), procurement of additional commercially available surveillance data to better monitor issuer price and volume movement, the development of a surveillance system for the proposed high-yield fixed-income pricing system, enforcement of Rule 10b–6 in accordance with the NASD's passive market-making proposal, and enforcement of the proposed NASD short-sale rule.

Waiver of Fees for Issuances Pending on Effective Date of the Rule Change

The boards of directors of some NASDAQ issuers may have approved the issuance of additional shares without notice of the fee approved herein and that the approved issuance may be pending on the effective date of the rule change. To ensure that all issuers included in NASDAQ have adequate notice of the new fee prior to action by the issuer's board of directors, the NASD will waive the fee for the issuance of additional shares if the company's board approved the issuance prior to the effective date of the rule change.

Comment Letters

Four comment letters were received by the Commission and the NASD prior to Commission publication of the rule change.[13] The four letters, all in opposition to the rule change, responded to an NASD informational bulletin issued in June 1992 describing the proposal.[14] No additional comments were received by the Commission after publication of notice of the filing in the **Federal Register**.

The four commenters each argued directly or indirectly that the fees are excessive. In response, the NASD states that the fees imposed are either comparable to or less than the fees charged for issuances of additional shares of securities listed on the national exchanges. Specifically, the NASD notes that the rule change would impose a significantly lower burden on issuances of additional shares of securities included in regular NASDAQ. For issuances of additional shares of securities in NASDAQ/NMS, the fee schedule is equivalent to the AMEX fee schedule, and lower than the NYSE fee schedule.

Three commenters questioned the NASD's justification for the new fees. For example, the comment letter from Old National Bancorp stated that an issuance of additional shares "results in no additional work on the part of NASDAQ, and notifications of such issuances are already provided for through any number of other sources." In response, the NASD states that it provided ample justification for the new fee schedule in a letter [15] to the Commission staff responding to a request for further justification for the fees. The contents of that letter are reflected in the Notice of Proposed Rule Change published in the **Federal Register**. In essence, the NASD plans to implement new programs or supplement existing programs that it believes will benefit the NASDAQ issuer community.

One commenter raised the concern that the notification requirements would infringe on a company's right to conduct normal business functions.[16] Science Dynamics specifically mentioned notification of serious negotiations where securities are issued under circumstances described under subsections B.3. and F.3. to Part IV of Schedule D. The NASD believes that the commenter was misled by a general description of the rule change in the NASD informational bulletin published in June 1992. The NASD states that the rule change is intended only to require notification of the creation of stock option and other stock remuneration plans and would not require notification of the creation of all types of corporate plans to issue additional shares. To avoid any misinterpretation, the NASD submitted Amendment No. 1, which clarifies that the rule applies only to the creation of stock option, employee stock purchase or other stock remuneration plans.

The NASD further believes that Science Dynamics misinterpreted the fee imposed by the fee schedules to be the same regardless of the size of the issuance. Science Dynamics stated that the issuance of 10,000 warrants at $1 each would cost a company $17,500. In response, the NASD notes that the fee schedules impose a fee on the commenter's described transaction of only $1,000 for an issuer included in regular NASDAQ and only $2,000 for an issuer included in NASDAQ/NMS.

Science Dynamics further notes that its Board of Directors has approved shares for a second offering that may or may not be forthcoming and believes such Board approval will result in the fee being waived for the future issuance. This comment raises the issue of whether a company could avoid future fees on an issuance of additional shares by approving the issuance prior to the effective date of the rule change but with no intent to effect the issuance in the near future. The NASD that the purpose of the waiver is to ensure that every NASDAQ issuer has adequate notice of the fee prior to action by its board of directors and where the approved issuance may be pending on the effective date of the rule filing. The NASD states that the waiver is not intended to provide a permanent exemption for future issuances based on the date of a Board's approval, especially when there was no intent by such approval to effect the issuance in the near future. When the issuance is not pending on the effective date of the rule change, the NASD will review the

[13] Letters from David J. Hunter, President, BI Incorporated, to SEC, dated July 7, 1992; Dan W. Mitchell, Chairman, Old National Bancorp, to Jonathan Katz, Secretary, SEC, dated July 20, 1992; W. Ross C. Corace, President, Foxmoor Industries, Ltd., to SEC, dated July 22, 1992; and Lyndon A. Keele, President, Science Dynamics Corp., to Tony Shaffer, NASD, dated July 22, 1992.

[14] The informational bulletin is attached as Exhibit 1 to Amendment No. 1.

[15] Letter from Suzanne E. Rothwell, Associate General Counsel, NASD, to Katherine A. England, Branch Chief, Division of Market Regulation, SEC, dated August 6, 1992.

[16] Letter from Lyndon A. Keele, President, Science Dynamics Corp. ("Science Dynamics"), to Tony Shaffer, NASD, dated July 22, 1992.

issuer's request for a waiver of the fee on a case-by-case basis to ensure the fee schedule is equitably applied or waived pursuant to the described intent of the waiver.

In its comment letter, Old National Bancorp argued that the fees for additional shares would be unfair when applied in connection with mergers and acquisitions, because the fees would be obtained at the expense of strong, successful companies which are presently in the position to acquire others. In response, the NASD notes that the fee schedules for regular NASDAQ and NASDAQ/NMS would apply to issuances of additional shares not only in connection with acquisitions, mergers or consolidations, but also in connection with public offerings, rights and subscription offerings, exchange offers and private placements. The NASD states that fee schedules would not be imposed on particular types of companies, but on the activity of raising capital by issuing additional shares. The NASD, therefore, believes the rule change will not impose an inequitable burden on successful companies involved in mergers and acquisitions.

Amendment Nos. 1 and 2

As mentioned above, the NASD filed Amendment No. 1 to the rule filing in order to: (i) Respond to the four comment letters received by the NASD and the Commission; (ii) request an effective date of December 1, 1992; (iii) correct certain technical errors; and (iv) provide additional clarification. Amendment No. 2 was filed to further clarify that the NASD will not require notification of the issuance of additional shares under stock option, employee stock purchase or other stock remuneration plans. The Commission is seeking comment on the clarifications to the original rule change.

By filing Amendment No. 1, the NASD proposes to amend part II, sections 1(c)(15) and 2(e)(14) of the proposed rule change relating to certain issuer notification requirements to provide that the scope of the notification requirements apply only to corporate activities that were intended and described in the descriptive language of the original rule filing. In the original descriptive language, it was noted that the purpose of requiring issuer notification prior to the creation of a "stock option, stock purchase or similar plan or arrangement to issue additional shares" is to further facilitate NASD oversight of the NASDAQ/NMS criteria for shareholder approval of certain remuneration plans pursuant to section 5(i) of Part III to Schedule D of the NASD By-Laws. In addition, the NASD indicated that it believes that such plans have the potential to affect the market of issuers in NASDAQ. To avoid misinterpretation, the NASD is amending the description of the situations to which the new reporting requirements apply to "stock option, employee stock purchase or other stock remuneration plan." In the case of such plans, the NASD believes only notification of creation of the plan will be necessary for oversight purposes and not actual notification of the periodic issuance of stock under the plan.

The NASD also seeks to amend part IV, sections B.2. and F.2. to Schedule D of the By-Laws. Specifically, Amendment No. 1 changes the term "per issuer" to "per issuance." As corrected, the text of the proposed rule change on the fee schedules will correspond to the general description of the fee schedules contained in the original filing.[17]

Interested persons are invited to submit written data, views, and arguments concerning Amendment Nos. 1 and 2. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room. Copies of the filing will also be available for inspection and copying at the principal office of the NASD. All submissions should refer to the file number in the caption above and should be submitted by January 8, 1993.

Discussion and Findings

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to the NASD. Specifically, the Commission believes that the rule change is consistent with the provisions of section 15A(b)(5) of the Act.[18] Section 15A(b)(5) requires that the rules of the NASD provide for the equitable allocation of reasonable dues, fees and other charges among members, issuers and other persons. The Commission believes that the fee structure approved herein is equitably divided between those securities included in regular NASDAQ and those included in NASDAQ/NMS. In addition, the Commission believes that the fees imposed are reasonable. Issuers listed on the national exchanges pay fees for the issuance of additional shares that are either equivalent to or less than those that will be imposed by the NASD. The Commission also finds that the rule change approved herein is consistent with the provisions of section 15A(b)(6) of the Act.[19] Section 15A(b)(6), among other things, requires that the rules of the NASD be designed to perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. Notification of additional issuances of securities will provide the NASD with greater oversight of such securities. In addition, by requiring notification of the creation of stock remuneration plans and the issuance of additional shares, the NASD will be able to more closely monitor the corporate governance requirements for shareholder approval of remuneration plans and the issuance of additional shares under section 5(i) of part III to Schedule D of the By-Laws. Such monitoring should further perfect the NASDAQ marketplace and provide better protection to investors and the public interest.

By letter dated December 3, 1992, the NASD requests that the Commission find good cause for approving the rule filing as amended by Amendment No. 1, prior to the 30th day following publication of notice of the filing of Amendment No. 1 in the **Federal Register**.[20] The NASD states that the proposed rule change is essential to the efficient implementation and maintenance of the issuer-related operations that the NASD expects to fund with the fees anticipated from the rule change. Additionally, the NASD has withdrawn its request in Amendment No. 1 for an effective date of December 1, 1992 and has consented to the approval of the filing on a

[17] In Amendment No. 1, the NASD indicated that the intent expressed in the general description of the proposed fee schedule was to apply the fees on a "per issuance" basis in contrast to the text of the initial proposal which said "per issuer." Further, the NASD notes that footnote 5 to the rule filing cites both the NYSE and AMEX fee schedules for the issuance of additional shares, both of which are "per issuance" fees.

[18] 15 U.S.C. 78o-3(b)(5) (1988).

[19] 15 U.S.C. 78o-3(b)(6) (1988).

[20] Letter from Suzanne E. Rothwell, Associate General Counsel, NASD, to Selwyn Notelovitz, Branch Chief, SEC, dated December 3, 1992.

temporary basis, until February 28, 1993.

Pursuant to section 19(b)(2) of the Act,[21] the Commission finds good cause for approving the proposed rule change, as amended, prior to the 30th day after publication of Amendment Nos. 1 and 2 in the **Federal Register**. The Commission believes it is important for the NASD to receive notification of the creation of plans for stock option and other stock remuneration plans. Such plans may have effects on the market for the securities of the issuer of which the NASD should be aware. In addition, the NASD has already begun to implement the issuer-related operations that will be funded by the fee requirements approved herein. In order that such operations may continue without interruption, the Commission believes that the rule filing should be approved, as amended, without delay.

It is therefore ordered, pursuant to section 19(b)(2) of the Act, that the above-mentioned proposed rule change be, and hereby is, approved until February 28, 1993.

For the Commission, by the Division of Market Regulation pursuant to delegated authority.[22]

Margaret H. McFarland,

Deputy Secretary.

BILLING CODE 8010-01-M

[Release No. 31593; File No. SR-PTC-92-01]

Self-Regulatory Organizations; Participants Trust Company; Order Approving a Proposed Rule Change Relating to a Modification of the Rebate Policy

December 11, 1992.

On January 10, 1992, the Participants Trust Company ("PTC") filed a proposed rule change (File No. SR-PTC-92-01) with the Securities and Exchange Commission ("Commission"), pursuant to section 19(b) of the Securities Exchange Act of 1934 ("Act").[1] The purpose of the proposed rule change is to modify PTC's rebate policy relating to excess earnings from principal and interest ("P&I") payments. Notice of the proposed rule change appeared in the **Federal Register** on February 3, 1992.[2] No comments were received. This order approves the proposed rule change.

I. Description

PTC filed the proposed rule change to modify PTC's policy with respect to the rebate of revenues to its participants from invested principal and interest payments ("P&I") received but not yet disbursed. Under the proposed rule change, PTC will distribute excess earnings from invested P&I receipts based on each participant's pro rata share of P&I disbursements.

Under PTC's rebate policy, PTC may determine to distribute revenues based upon consideration as PTC's board of directors deems relevant, including projected earnings of PTC, projected financial needs of PTC, and the desirability of paying dividends on PTC's outstanding stock. Under PTC's current policy on rebates, PTC may distribute revenues based on all sources of revenue, including excess income from invested P&I receipts. Rebates for each participant are calculated on the basis of the participant's share of total service fees regardless of the participant's share of P&I receipts. The proposal will calculate any rebate from excess income from invested P&I receipts differently from other excess revenue and will distribute the excess income from invested P&I receipts based on each participant's pro rata share of P&I.

II. Discussion

Section 17A of the Act sets forth certain standards with regard to clearing agency rules. Specifically, section 17A(b)(3)(D) of the Act requires that the rules of a clearing agency provide for the equitable allocation of reasonable dues, fees, and other charges among its participants.[3] As discussed below, the Commission believes that the proposed rule change is consistent with the Act and in particular section 17A(b)(3)(D).

PTC participants use PTC's facilities to access a number of clearing agency services including certificate safekeeping, book-entry deliveries, and pledging or loaning of securities. Because some participants use primarily safekeeping services and other participants use primarily book-entry and pledge facilities, the current policy on rebates may not adequately reflect a participant's use of a particular service.

The Commission, in approving PTC's proposal to eliminate proration charges for the cost of financing P&I advances, required that PTC's board of directors adopt a policy statement addressing the use of excess earnings from invested P&I receipts.[4] This proposal implements a rebate policy for excess earnings from invested P&I receipts based upon participants' pro rata share of P&I disbursements. Since the amount of a participant's rebate directly correlates to the amount of a participant's P&I disbursements, the proposal will provide a more equitable allocation of excess earnings from invested P&I receipts. Thus the Commission believes that the proposed rule change is consistent with the Act in that the proposal equitably allocates dues, fees, and other charges among its participants.

III. Conclusion

For the reasons discussed above, the Commission finds that the proposal is consistent with the requirements of the Act, particularly with section 17A of the Act, and the rules and regulations thereunder.

It is therefore ordered, pursuant to section 19(b)(2) of the Act, that the above-mentioned proposed rule change (File No. SR-PTC-92-01) be, and hereby is, approved.

For the Commission, by the Division of Market Regulation, pusuant to delegated authority.

Margaret H. McFarland,

Deputy Secretary.

Self-Regulatory Organizations; The Options Clearing Corporation; Notice of Proposed Rule Change Relating to Clarifying a Competency Requirement

December 11, 1992.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),[1] notice is hereby given that on November 12, 1992, The Options Clearing Corporation ("OCC") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

[3] 15 U.S.C. 78q-1(b)(3)(D).

[4] Because of PTC's efforts to encourage paying agents to make P&I payments available by payment date, the income from investing collected P&I received prior to distribution date is more than sufficient to satisfy anticipated borrowing costs. Securities Exchange Act Release No. 29311 (June 14, 1991), 56 FR 28783.

[1] 15 U.S.C. 78s(b)(1).

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The proposed rule change would change a clarifying amendment to OCC's By-laws [2] and Rules [3] that require U.S. broker-dealer applicants for membership and existing Domestic Clearing Members to employ one associated person who is registered with the National Association of Securities Dealers ("NASD") as a "Limited Principal—Financial and Operations" (a "FINOP"). Under the amendment, the Clearing Member would have met such requirement by employing a person who has passed the appropriate qualification examination even if such person is not registered with the NASD.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

In January 1992, the Commission approved an OCC rule change which, among other things, requires that at least one associated person of registered broker-dealer applicants for clearing membership, and existing Domestic Clearing Members, be registered with the National Association of Securities Dealers ("NASD") as a "Limited Principal—Financial and Operations" (a "FINOP").[4] OCC has been advised by the NASD that it does not deem a person who has passed the NASD FINOP examination, but who is associated with a broker-dealer that is not a NASD member, to be registered as a FINOP. Rather, the NASD would consider such person to be qualified as a FINOP. Because the recently approved rule change requires that an associated person be registered as a FINOP, this interpretation could affect broker-dealer applicants for OCC clearing membership and existing Domestic Clearing Members, who are not NASD members (*i.e.*, firms doing a proprietary business), but who have or employ an associated person who has passed the FINOP qualification examination for registration as such. Accordingly, OCC would make a technical amendment to its By-laws and Rules to accommodate this situation. The amendment would require a U.S. broker-dealer applicant for membership or an existing Domestic Clearing Member to employ one associated person who is either registered with NASD as a FINOP or qualified to be a FINOP.

OCC believes that the proposed rule change is consistent with the requirements of section 17A of the Act. Specifically, OCC believes that the proposed rule change will facilitate the prompt and accurate clearance and settlement of securities transactions and will provide for the safeguarding of securities and funds.

B. Self-Regulatory Organization's Statement on Burden on Competition

OCC does not believe that the proposed rule change would impose any burden on competition that is not necessary or appropriate in furtherance of the purpose of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

Written comments were not and are not intended to be solicited with respect to the proposed rule change, and none have been received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within thirty-five days of the date of publication of this notice in the **Federal Register** or within such longer period: (i) as the Commission may designate up to ninety days of such date if it finds such longer period is appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

A. By order approve the proposed rule change, or

B. Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, DC 20549. Copies of such filing also will be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to File No. SR–OCC–92–35 and should be submitted by January 11, 1993.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Margaret H. McFarland,

Deputy Secretary.

Self-Regulatory Organizations; The Options Clearing Corporation; Notice of Filing of a Proposed Rule Change Relating to the Acceptance of Certain Sovereign Debt as Margin Deposits

December 11, 1992.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),[1] notice is hereby given that on September 22, 1992, The Options Clearing Corporation ("OCC") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared primarily by OCC. On December 2, 1992, OCC filed an amendment to the proposed rule change. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The proposed rule change would allow the sovereign debt of cross-rate foreign currency countries to be

[1] 15 U.S.C. 78s (1988).

designated as Government Securities acceptable to OCC for margin purposes.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, OCC included statements concerning the purpose of and basis for the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. OCC has prepared summaries, set forth in section A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

On November 7, 1991, the Commission approved OCC's proposed rule change which set forth the clearance and settlement rules for cross-rate foreign currency options ("cross-rates").[2] As part of the cross-rate filing, OCC amended the definition of Government Securities to allow it to accept as a form of margin the deposit of sovereign debt of any country designated by OCC. With this filing, OCC proposes to designate the sovereign debt of Germany and Japan as Government Securities acceptable to OCC as a form of margin.

Both Germany and Japan are countries whose currencies are presently the "trading currencies" [3] for classes of cross-rate options ("cross-rate countries"). OCC has established banking relationships in both of the cross-rate countries,[4] and OCC has experience respecting the deposit and withdrawal of the trading currencies at these banks. Based upon this experience, OCC has concluded that the criteria used to approve banking relationships for the settlement of cross-rate obligations should be the same criteria used to approve banks to act as custodians for sovereign debt obligations.[5]

OCC currently accepts, with Commission approval, deposits of the sovereign debt of Canada as a form of margin.[6] OCC's experience in valuing the sovereign debt of Canada can be used in valuing the sovereign debt of the cross-rate countries. Appropriate haircuts, as determined by OCC's Membership/Margin Committee ("Committee"), will be taken in valuing such deposits. While the Committee will have some discretion in establishing the haircuts, the Committee will take into consideration the haircuts specified in paragraph (c)(2)(vi)(F) of the Commission's uniform net capital rule, Rule 15c3–1.[7] It is anticipated that the Committee will use such haircuts unless it determines that it has good cause to use some other value. Once the Committee has determined the haircut, the sovereign debt will be valued for margin purposes at the lesser of par value or an amount not to exceed the current market value less the haircut.

OCC notes that the sovereign debt of foreign governments is includable in broker-dealers' net capital computations and that the staff of the Division has issued a no-action letter respecting a request made by the Securities Industry Association ("SIA") wherein the Division stated it would not recommend enforcement action to the Commission if broker-dealers apply the haircut standards set forth in Rule 15c3–1(c)(2)(vi)(F) to certain sovereign debt contained in the broker-dealers' proprietary accounts.[8] The sovereign debt of the cross-rate countries currently meets each and every one of the criteria set forth in both the SIA's request and the Division's no-action letter in that it (1) is a general obligation of a sovereign government; (2) has a fixed maturity date; (3) is not traded flat or in default as to principal or interest; and (4) is rated (implicitly or explicitly) in one of the four higher rating categories by at least two nationally recognized statistical rating organizations.

OCC has been advised that the Commodity Futures Trading Commission ("CFTC"), by letter dated June 30, 1992, approved an amendment to the rules of the Chicago Mercantile Exchange ("CME") to add, among other things, the sovereign obligations of the Group of Seven Leading Industrialized Democracies ("G–7 Countries") as acceptable forms of "performance bonds" for CME Clearing Members. Germany and Japan are included in the list of G–7 Countries.

As in the case of U.S. Government securities deposited with OCC for margin purposes, all interest received on Government Securities of cross-rate countries prior to any sale or negotiation thereof will belong to the Clearing Member. The interest may be released to the Clearing Member upon instructions from the Clearing Member (subject to any withholding tax required by the local jurisdiction of the approved depository).

Finally, the current market value of Government Securities of the cross-rate countries shall be determined by OCC on a daily basis using pricing information from a third party. The third party providing such pricing information will value such securities in local currency and in U.S. dollars using the close of market prices and exchange rates. Initially, the third party will be one of OCC's custodian banks equipped to provide such service. However, OCC reserves the right to engage other third party sources that may provide comparable services.

The proposed rule change is consistent with the purposes and requirements of section 17A of the Act,[9] as amended, because it allows OCC to accept the sovereign debt of certain foreign governments as a form of margin like other financial institutions. Moreover, the proposed rules sets forth adequate controls to ensure that OCC will be able to provide for the adequate safeguarding of those securities.

B. Self-Regulatory Organization's Statement on Burden on Competition

OCC does not believe that the proposed rule change would impose any burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were not and are not intended to be solicited with respect to the proposed rule change, and none have been received.

[2] Securities Exchange Act Release No. 34–29920, International Series Release No. 340 (November 7, 1991), 56 FR 58105 [File No. SR–OCC–91–04].

[3] In Article XX of OCC's By-Laws, the term "trading currency" is defined as the currency in which premium and exercise prices are determined for a class of cross-rate foreign currency options. The Commission has approved three cross-rates contracts: (1) Options on German (Deutsche) marks with exercise prices in Japanese yen ("DM/JY options"); (2) options on British pounds with exercise prices in Japanese yen ("BP/JY options"); and (3) options on British pounds with exercise prices in German (Deutsche) marks ("BP/DM options").

[4] OCC's lead settlement banks in Cross-Rate Countries are the Mitsubishi Bank in Japan, the Commerzbank in Germany, and Citibank in the United Kingdom.

[5] OCC has established eleven standards to be met before granting approval to a local bank as an approved Cross-Rate Settlement Bank. These eleven standards are set forth in the letter from Jacqueline R. Luthringshausen, Staff Attorney, OCC, to Jeffrey T. Brown, Staff Attorney, Division of Market Regulation ("Division"), Commission (November 20, 1992).

BILLING CODE 8010-01-M

DEPARTMENT OF STATE

Bureau of Politico-Military Affairs

[Public Notice 1738]

Policy Governing Munitions Export Licenses to Cyprus

AGENCY: Department of State.

ACTION: Public notice.

SUMMARY: Notice is hereby given that all licenses and other approvals to export or otherwise transfer defense articles or defense services to any of the armed forces on Cyprus (except to the United Nations Forces in Cyprus—UNFICYP) are being denied pursuant to section 38 and 42 of the Arms Export Control Act.

EFFECTIVE DATE: November 16, 1992.

FOR FURTHER INFORMATION CONTACT: Clyde G. Bryant, Jr., Chief, Compliance Analysis Division, Office of Defense Trade Controls, Bureau of Politico-Military Affairs, Department of State (703–875–6650).

SUPPLEMENTARY INFORMATION: It is the policy of the U.S. Government to deny all applications for licenses and other approvals to export or otherwise transfer defense articles and services to any of the armed forces in Cyrpus. The U.S. Government opposes such exports because of their ability to contribute to an arms race on the island and hinder U.N. and U.S. efforts to reach a fair and permanent settlement of the Cyprus dispute. This action does not affect exports of defense articles or defense services for the United Nations Forces in Cyprus (UNDICYP) or for civilian end-users.

The licenses and approvals that are affected include manufacturing licenses, technical assistance agreements, technical data, and commercial military exports of any kind involving any of the armed forces on Cyprus subject to the Arms Export Control Act. This action also affects the use in connection with Cyprus of any exemptions from licensing or other approval requirements included in the International Traffic in Arms Regulations (ITAR) (22 CFR parts 120–130).

This action has been taken pursuant to sections 38 and 42 of the Arms Export Control Act (22 U.S.C. 2778, 2791) and § 126.7 of the ITAR in furtherance of the foreign policy of the United States.

In accordance with §§ 126.3 and 126.7 of the ITAR, affected U.S. persons desiring review of this decision with regard to a particular export may petition the Director, Office of Defense Trade Controls.

Dated: December 9, 1992.

Robert L. Gallucci,

Assistant Secretary, Bureau of Politico-Military Affairs, Department of State.

[FR Doc. 92–30754 Filed 12–17–92; 8:45 am]

BILLING CODE 4710-25-M

[Public Notice 1737]

Suspension of Munitions Export Licenses to Liberia

AGENCY: Department of State.

ACTION: Public notice.

SUMMARY: Notice is hereby given that all licenses and other approvals to export or otherwise transfer defense articles or defense services to Liberia, other than articles or services destined for the sole use of the peace-keeping forces of ECOWAS, are suspended until further notice pursuant to sections 38 and 42 of the Arms Export Control Act.

EFFECTIVE DATE: December 18, 1992.

FOR FURTHER INFORMATION CONTACT: Clyde G. Bryant, Jr., Chief, Compliance Analysis Division, Office of Defense Trade Controls, Bureau of Politico-Military Affairs, Department of State (703–875–6650).

SUPPLEMENTARY INFORMATION: Effective immediately, it is the policy of the U.S. Government to deny all applications for licenses and other approvals to export or otherwise transfer defense articles and services to Liberia. In addition, U.S. manufacturers and exporters and any other effected parties are hereby notified that the Department of State has suspended all previously issued licenses and approvals authorizing the export or other transfer of defense articles or defense services to Liberia. This action has been taken in accordance with U.N. Security Council Resolution 788 instituting a general and complete embargo on all deliveries of weapons and military equipment to Liberia. This action does not apply to weapons and military equipment destined for the sole use of the peace-keeping forces of ECOWAS in Liberia, including weapons and military equipment destined for constituent members of the ECOWAS peace-keeping forces.

The licenses and approvals that have been suspended include any manufacturing licenses, technical assistance agreements, technical data, and commercial military exports of any kind subject to the Arms Export Control Act involving Liberia. This action also precludes the use in connection with Liberia of any exemptions from licensing or other approval requirements included in the International Traffic in Arms Regulations (ITAR) (22 CFR parts 120–130).

This action has been taken pursuant to sections 38 and 42 of the Arms Export Control Act (22 U.S.C. 2778, 2791) and § 126.7 of the ITAR.

Dated: December 9, 1992.

Robert L. Gallucci,

Assistant Secretary, Bureau of Politico-Military Affairs, Department of State.

Coast Guard

[CGDO-92-33]

Lower Mississippi River Waterway Safety Advisory Committee; Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C. app. II) notice is hereby given of a meeting of the Lower Mississippi River Waterway Safety Advisory Committee. The meeting will be held on Tuesday, January 19, 1993, in the 29th floor Boardroom of the World Trade Center, 2 Canal Street, New Orleans, Louisiana at 9 a.m. The agenda for the meeting consists of the following items:

1. Call to order.
2. Minutes of the October 20, 1992 meeting.
3. Old Business.
4. New Business.
5. Report from the VTS Subcommittee.
6. Adjournment.

The purpose of this Advisory Committee is to provide recommendations and guidance to the Commander, Eighth Coast Guard District on navigation safety matters affecting this waterway.

All meetings are open to the public. Members of the public may present written or oral statements at the meetings.

Additional information may be obtained from Mr. M. M. Ledet, USCG, Recording Secretary, Lower Mississippi River Waterway Safety Advisory Committee, c/o Commander, Eighth Coast Guard District (oan), room 1209, Hale Boggs Federal Building, 501 Magazine Street, New Orleans, LA 70130-3396, telephone number (504) 589-4686.

Dated: December 11, 1992.

J.C. Card,

Rear Admiral, U.S. Coast Guard, Commander, Eighth Coast Guard District.

BILLING CODE 4910-14-M

National Highway Traffic Safety Administration

[Docket No. 92-44; Notice 2]

Determination that Nonconforming 1990 Mercedes-Benz 190E Passenger Cars are Eligible for Importation

AGENCY: National Highway Traffic Safety Administration (NHTSA), DOT.

ACTION: Notice of determination by NHTSA that nonconforming 1990 Mercedes Benz 190E passenger cars are eligible for importation.

SUMMARY: This notice announces the determination by NHTSA that 1990 Mercedes Benz 190E passenger cars not originally manufactured to comply with all applicable Federal motor vehicle safety standards are eligible for importation into the United States because they are substantially similar to a vehicle originally manufactured for importation into and sale in the United States and certified by its manufacturer as complying with the safety standards (the U.S. certified version of the 1990 Mercedes Benz 190E), and they are capable of being readily modified to conform to the standards.

DATES: The determination is effective as of December 18, 1992.

FOR FURTHER INFORMATION CONTACT: Ted Bayler, Office of Vehicle Safety Compliance, NHTSA (202-366-5306).

SUPPLEMENTARY INFORMATION:

Background

Under section 108(c)(3)(A)(i) of the National Traffic and Motor Vehicle Safety Act (the Act), 15 U.S.C. section 1397(c)(3)(A)(i), a motor vehicle that was not originally manufactured to conform to all applicable Federal motor vehicle safety standards shall be refused admission into the United States on and after January 31, 1990, unless NHTSA has determined that

(I) the motor vehicle is * * * substantially similar to a motor vehicle originally manufactured for importation into and sale in the United States, certified under section 114 [of the Act], and of the same model year * * * as the model of the motor vehicle to be compared, and is capable of being readily modified to conform to all applicable Federal motor vehicle safety standards * * *.

Petitions for eligibility determinations may be submitted by either manufacturers or importers who have registered with NHTSA pursuant to 49 CFR part 592. As specified in 49 CFR 593.7, NHTSA publishes notice in the **Federal Register** of each petition that it receives, and affords interested persons an opportunity to comment on the petition. At the close of the comment period, NHTSA determines, on the basis of the petition and any comments that it has received, whether the vehicle is eligible for importation. The agency then publishes this determination in the **Federal Register.**

Liphardt & Associates of Ronkonkoma, New York (Registered Importer No. R-90-004) petitioned NHTSA to determine whether 1990 Mercedes Benz 190E passenger cars are eligible for importation into the United States. NHTSA published notice of the petition on September 18, 1992 (57 FR 43284) to afford an opportunity for public comment. The reader is referred to that notice for a thorough description of the petition. No comments were received in response to the notice. Based on its review of the information submitted by the petitioner, NHTSA has determined to grant the petition.

Vehicle Eligibility Number for Subject Vehicles

The importer of a vehicle admissible under any final determination must indicate on the form HS-7 accompanying entry the appropriate vehicle eligibility number indicating that the vehicle is eligible for entry. VSP #22 is the vehicle eligibility number assigned to vehicles admissible under this notice of final determination.

Final Determination

Accordingly, on the basis of the foregoing, NHTSA hereby determines that a 1990 Mercedes Benz 190E (Model ID 201.024) that was not originally manufactured to conform to all applicable Federal motor vehicle safety standards is substantially similar to a 1990 Mercedes Benz 190E (Model ID 201.028) that was originally manufactured for importation into and sale in the United States and certified under section 114 of the National Traffic and Motor Vehicle Safety Act, and that it is capable of being readily modified to conform to all applicable Federal motor vehicle safety standards.

Authority: 15 U.S.C. 1397(c)(3)(A)(i)(I) and (C)(ii); 49 CFR 593.8; delegations of authority at 49 CFR 1.50 and 501.8.

Issued on: December 9, 1992.

William A. Boehly,

Associate Administrator for Enforcement.

UNITED STATES INFORMATION AGENCY

Islamic Culture and Civilization Today Program

AGENCY: United States Information Agency.
ACTION: Notice—request for proposals.

SUMMARY: The Bureau of Educational and Cultural Affairs of the U.S. Information Agency (USIA) seeks a non-profit organization to assist in the administration of the FY 1993 Fulbright "Islamic Culture and Civilization Today" program. The organization, in cooperation with USIA, shall solicit and receive applications from faculty of colleges, universities and community colleges in the U.S. The organization also shall coordinate the competitive review of technically eligible

applications and provide panel recommendations and assessments on each application based on academic criteria to be provided by USIA.

The Islamic Culture and Civilization Today program shall support a seminar in a country with a substantial Muslim population. Interested organizations may propose to develop and administer a seminar of up to four to six weeks beginning June 1994 in one of the following countries: Egypt, Jordan, Morocco, Tunisia, Yemen, or Pakistan. The seminar should be conducted in English for up to 12 U.S. faculty who are neither area nor Islamic studies specialists. Participants must be U.S. citizens with limited or no previous experience in the area but whose teaching or other professional responsibilities relate in some degree to the Islamic world. The seminar shall examine the political, social, economic, educational, and cultural institutions of the subject country, in light of its recent history and current development.

The seminar shall be interdisciplinary and the sessions led by experts in fields concerned with seminar topics and who are resident in the subject country. The seminar may include sessions or meetings in various locales within the subject country, as well as visits to relevant institutions in the country. The organization shall publicize the opportunity among and accept applications from faculty of social sciences and humanities, such as history, religious studies, political science, art, geography. A Ph.D. shall be generally required and candidacy restricted to applicants who hold full-time teaching appointments.

DATES: Deadline for proposals: All copies must be received at USIA by 5 p.m. Washington, DC, time on March 12, 1993. Faxed documents will not be accepted, nor will documents postmarked on March 12, 1993, but received at a later date. It is the responsibility of each organization to ensure that proposals are received by USIA by the above deadline. Grants should begin September 1, 1993, and run through August 31, 1994.

ADDRESSES: The original and fourteen (14) copies of the completed application, including required forms, should be submitted by the deadline to U.S. Information Agency, Islamic Culture and Civilization Today, Office of Grants Management (E/XE), room 336, 301 Fourth Street, SW., Washington, DC 20547.

FOR FURTHER INFORMATION: Interested organizations should contact Mr. Michael B. Graham, Near East/South Asia Academic Exchange Programs (E/AEN), U.S. Information Agency, room 212, 301 Fourth Street, SW., Washington, DC 20547 (Tel. 202–619–5368), to request detailed application packets, which include award criteria additional to this announcement, all necessary forms, and guidelines for preparing a proposal, including specific budget preparation information.

SUPPLEMENTARY INFORMATION:

Overview

Authority for this activity is the Mutual Educational and Cultural Exchange Act of 1961, Public Law 87–256 (Fulbright-Hays Act). Through the Fulbright program and other academic exchange activities, USIA seeks to increase mutual understanding between the people of the United States and people of other countries. Pursuant to the Bureau's authorizing legislation, programs must maintain a non-political character and should be balanced and representative of the diversity of American political, social and cultural life.

Eligibility

Non-profit organizations with experience in international exchange, such as educational and professional organizations and institutions, American overseas research centers, colleges and universities, are invited to submit proposals for a USIA cooperative agreement.

Guidelines

In preparing a proposal, organizations should address the subjects of program design and scheduling, as well as program administration. At a minimum, a successful proposal should clearly cover publicity, logistical and scheduling measures. A plan for post-seminar follow-up evaluation and reporting must also be submitted.

Proposed Budget

A comprehensive line item budget not to exceed $100,000 must be submitted with the proposal. Not more than 20 percent of the proposed total cost to USIA may be for administrative and overhead expenses. Specific guidelines for budget preparation are included in the application material available from USIA. (Grants awarded to eligible organizations with less than four years experience conducting international exchange activities will be limited to $60,000. Budget submissions from such organizations cannot exceed this amount.)

Review Process

USIA will acknowledge receipt of all proposals and will review them for technical eligibility. Proposals will be deemed ineligible if they do not adhere to the guidelines established herein and in the application packet. Eligible proposals will be forwarded to panels of USIA officers for advisory review. All eligible proposals will also be reviewed by the appropriate geographic area office, and the budget and contracts offices. Proposals may also be reviewed by the USIA Office of General Counsel. Funding decisions are at the discretion of the Associate Director for Educational and Cultural Affairs. Final technical authority for awarding a grant resides with USIA's Office of Contracts.

Review Criteria

Technically eligible proposals for this competition will be reviewed according to the following criteria and funding will be allocated on the basis of the degree to which the criteria are met:

1. Quality/responsiveness—Quality of administrative plan and adherence of the proposed activity to the criteria and conditions described in the application material available from USIA. Proposals should clearly demonstrate how the organization will meet the program's objectives and plan.

2. Institutional capacity—Proposed personnel and institutional resources to be applied to the project should be adequate and appropriate to achieve all goals and objectives.

3. Cost-effectiveness—The overhead and administrative components of the proposal, including salary/benefits, cannot exceed 20 percent of the total funds requested from USIA. All budget items should be necessary and appropriate. Proposals should demonstrate cost-sharing and in-kind support.

4. Track record/potential—Proposals should demonstrate potential for excellence and/or a track record of the organization's involvement in international education; particularly academic exchange.

5. Evaluation plan—Proposals should provide a plan for follow up and evaluation by the grantee organization.

6. Reasonableness, feasibility, flexibility—Proposals should demonstrate how the objectives will be met.

7. Multiplier effect/impact—A particular priority is that the seminar strengthen long-term mutual understanding, include maximum sharing of information and views among participants, and provide opportunities to facilitate the establishment of broader institutional and individual scholarly ties for collaborative teaching and research in the U.S. and the subject country.

8. Mutuality of benefits—Proposals should show evidence of strong mutual benefits to the U.S. and foreign institutions and individuals involved, as well as evidence of strong commitment to the goals of the program.

Notice

The terms and conditions published in this RFP are binding and may not be modified by any USIA representative. Explanatory information provided by the Agency that contradicts published language will not be binding. Issuance of the RFP does not constitute an award commitment on the part of the U.S. Government. Final award cannot be made until funds have been fully appropriated by Congress, allocated and committed through internal USIA procedures.

Notification

All applicants will be notified of the results of the review of full proposals on or about May 7, 1993. Grant awards will be subject to periodic reporting and evaluation requirements.

Dated: December 14, 1992.

Barry Fulton,

Acting Associate Director, Bureau of Educational and Cultural Affairs.

[FR Doc. 92-30682 Filed 12-17-92; 8:45 am]

BILLING CODE 8230-01-M

Postdoctoral Foreign Language and Area Studies—U.S. Scholars; Request for Prospectuses

AGENCY: United States Information Agency.

ACTION: Notice; request for prospectuses.

SUMMARY: The Bureau of Educational and Cultural Affairs of the U.S. Information Agency (USIA) seeks prospectuses from non-profit organizations for programs or projects under the rubric of the FY 1993 "Near and Middle East Research and Training" program. USIA will evaluate the prospectuses to identify organizations that will be invited to submit full proposals for further consideration.

Organizations shall conceive, develop and administer in cooperation with USIA activities that will assist American scholars in Near and Middle East studies. Activities permitted under this program include foreign language training, foreign area studies and foreign area research for periods ranging from two months to a full academic year abroad.

A total of $1 million will be made available through this competition. USIA expects to make up to 10 awards ranging from $100,000 to $500,000 each. Organizations that are awarded funding shall solicit and receive applications from American scholars nationwide who seek to conduct overseas study and research on the Near and Middle East and have little or no previous experience in the region. The organizations also shall coordinate the competitive review of technically eligible scholar applications and provide panel recommendations and assessments based on academic criteria to be provided by USIA.

Eligible fields of study and research shall be open to scholars of all disciplines with a need or established interest in topics requiring study or research abroad in the Near and Middle East. However, special emphasis will be given to social sciences and humanities. Eligibility shall be restricted to applicants who have a Ph.D. degree and who have postdoctoral college or university teaching experience.

For the purposes of this program, the Near and Middle East refers to the region consisting of countries and peoples covered by the Bureau of Near Eastern Affairs of the U.S. Department of State. Currently eligible locales for study overseas are Mauritania, Morocco, Algeria, Tunisia, Egypt, Israel, Jordan, Syria, Saudi Arabia, Kuwait, United Arab Emirates, Bahrain, Qatar, and Yemen.

DATES: Deadline for submissions: All copies must be received at USIA by 5 p.m. Washington, DC, time on Thursday, February 11, 1993. Faxed documents will not be accepted, nor will documents postmarked on February 11, 1993, but received at a later date. It is the responsibility of each grant applicant to ensure that submissions are received by USIA by the above deadline. Grants should begin September 1,1993, and may last for up to 24 months.

ADDRESSES: The original and ten (10) copies of the prospectus should be submitted by the deadline to U.S. Information Agency, Postdoctoral Foreign Language and Area Studies—U.S. Scholars, Office of Grants Management (E/XE), room 336, 301 Fourth Street SW., Washington, DC 20547.

FOR FURTHER INFORMATION: Interested organizations should contact Dr. Jerry Brennig, Chief, Near East/South Asia Branch, Academic Exchange Programs Division (E/AEN), U.S. Information Agency, room 212, 301 Fourth Street SW., Washington, DC 20547 (Tel. 202-619-6864), for further information if needed.

SUPPLEMENTARY INFORMATION:

Overview

Authority for this activity is the Mutual Educational and Cultural Exchange Act of 1961, Public Law 87-256 (Fulbright-Hays Act). Through the Fulbright program and other exchange activities, USIA seeks to increase mutual understanding between the people of the United States and people of other countries. Pursuant to the Bureau's authorizing legislation, programs must maintain a non-political character and should be balanced and representative of the diversity of American political, social and cultural life.

Eligibility

Non-profit organizations with experience in international academic exchange activities, such as educational and professional organizations and institutions, American overseas research centers, colleges and universities, are invited to apply.

Guidelines

No application material from USIA is necessary to prepare a prospectus for this competition. In preparing prospectuses, organizations should address the subjects of program design and scheduling, as well as program administration. At a minimum, a successful prospectus should clearly cover publicity, logistical and scheduling measures. A basis plan for post-program follow-up evaluation should also be included. The prospectus must be typewritten and double-spaced, and cannot exceed ten pages, including budget attachment.

Proposed Budget

A one-page budget not to exceed $500,000 must be submitted as part of the prospectus. Not more than 20 percent of the proposed total cost to USIA may be for administrative and overhead expenses. USIA does not award grants of greater than $60,000 to organizations with less than four years experience conducting international exchange programs. Submissions from such organizations cannot be considered technically eligible for the purposes of this program.

Review Process

USIA will acknowledge receipt of all prospectuses and will review them for technical eligibility. Prospectuses will be deemed ineligible if they do not adhere to the guidelines established herein. Eligible submissions will be

forwarded to panels of USIA officers for advisory review. All eligible submissions will also be reviewed by the appropriate geographic area office. Invitations to submit a full proposal are at the discretion of the Associate Director for Educational and Cultural Affairs. Final technical authority for awarding a grant resides with USIA's Office of Contracts.

Review Criteria

Technically eligible prospectuses will be competitively reviewed according to the following criteria:

1. Quality/responsiveness—Quality of administrative plan and adherence of the proposed activity to the criteria and conditions described herein. Prospectuses should demonstrate how the organization will meet the program's objectives and plan.

2. Institutional capacity—Proposed personnel and institutional resources to be applied to the project should be adequate and appropriate to achieve all goals and objectives.

3. Cost-effectiveness—The overhead and administrative components of the costs to USIA, including salary/benefits, cannot exceed 20 percent of the total budget. Prospectuses should demonstrate cost-sharing and in-kind support.

4. Track record/potential—Submissions should demonstrate potential for excellence or a track record of the organization's involvement in international programs, particularly academic exchange.

5. Evaluation plan—Prospectuses should provide for follow up and evaluation by the grantee organization.

6. Reasonableness, feasibility, flexibility—Prospectuses should demonstrate how the objectives will be met.

7. Multiplier effect/impact—A particular priority is that the program strengthen long-term mutual understanding, include maximum sharing of information and views by participants with host country counterparts, and provide opportunities to facilitate the establishment of broader institutional and individual scholarly ties in the U.S. and the host country.

8. Mutuality of benefits—Prospectuses should show evidence of strong mutual benefits to the institutions and individuals involved, as well as evidence of strong commitment to the goals of the program.

Notice

The terms and conditions published in this announcement are binding and may not be modified by any USIA representative. Explanatory information provided by the Agency that contradicts published language will not be binding. Issuance of this announcement does not constitute an award commitment on the part of the U.S. Government. Final award cannot be made until funds have been fully appropriated by Congress, allocated and committed through internal USIA procedures.

Notification

All applicants will be notified of the results of the review of prospectuses on or about March 15, 1993. Invitations and application material needed to submit a full proposal also will be issued at that time, with submissions due at USIA on or about April 30, 1993. Grant awards will be subject to standard periodic reporting and evaluation requirements.

Dated: December 14, 1992.

Barry Fulton,

Acting Associate Director, Bureau of Educational and Cultural Affairs.

BILLING CODE 8230–01–M

International Educational and Cultural Activities Discretionary Grant Program

AGENCY: United States Information Agency.

ACTION: Notice—request for proposals.

SUMMARY: The Office of Citizen Exchanges (E/P) announces a discretionary grants program for private, non-profit organizations in support of projects that link their international exchange interests with counterpart institutions/groups in ways supportive of the aims of the Bureau of Educational and Cultural Affairs. Interested applicants are urged to read the complete **Federal Register** announcement before addressing inquiries to the Office or submitting their proposals.

ANNOUNCEMENT NUMBER: The Announcement Number is E/P–93–6. Please refer to this number in all correspondence or telephone calls to the Agency.

DATES: Deadline for Proposals: All copies must be received at the U.S. Information Agency by 5 p.m. Washington, DC time on Friday, February 26, 1993. Faxed documents will not be accepted, nor will documents postmarked on February 26, 1993, but received at a later date. It is the responsibility of each grant applicant to ensure that proposals are received by the above deadline. This action is effective from the publication date of this notice through February 26, 1993, for projects whose activities will begin between July 1, 1993, and December 31, 1993.

ADDRESSES: The original and *14* copies of the completed application, including required forms, should be submitted by the deadline to: U.S. Information Agency, REF: E/P Discretionary Grant Competition, Office of Grants Management (E/XE), 301 4th Street, SW., room 336, Washington, DC 20547.

FOR FURTHER INFORMATION CONTACT: Interested organizations/institutions must contact the Office of Citizen

Exchanges, Bureau of Educational and Cultural Affairs, United States Information Agency, 301 4th Street, SW., Washington, DC 20547, (202) 619–5348, to request detailed application packets, which include award criteria, all necessary forms, and guidelines for preparing proposals, including specific budget preparation information.

SUPPLEMENTARY INFORMATION: The Office of Citizen Exchanges of the United States Information Agency announces a program to encourage, through limited awards to non-profit institutions, increased private sector commitment to and involvement in international exchanges. Awarding of any and all grants is contingent upon the availability of funds.

The Office of Citizen Exchanges works with U.S. private sector non-profit organizations on cooperative international group projects that introduce American and foreign participants to each others' social, economic, and political structures; and international interests. The Office supports international projects in the United States or overseas involving leaders or potential leaders in the following fields and professions: Urban planners, jurists, specialized journalists (specialists in economics, business, political analysis, international affairs), business professionals, environmental specialists, parliamentarians, educators, economic planning and other government officials.

Applicants should carefully note the following restrictions/recommendations for proposals in specific geographical areas:

The Newly Independent States: USIA and other agencies of the U.S. government have numerous programs in the countries of the NIS (Armenia, Azerbaijan, Belarus, Georgia, Kazakhstan, Kyrgyzstan, Moldova, Russia, Tajikistan, Turkmenistan, Ukraine, and Uzbekistan). As such, the amount of funds for that part of the world in this competition will be extremely limited. Proposals which would normally be considered for other USIA grant competitions will not be accepted. E/P encourages organizations to seek clarification on these points before presenting a proposal.

Europe, Eastern Europe, and the Baltics (EU): Projects are encouraged involving Western Europe. Due to the fact that the office has or is in the process of conducting specific competitions in Eastern Europe and the Baltics, we will not accept proposals for youth exchange programs or for programs in the following thematic areas: Public administration, business management, independent media development, journalism training, and local government administration and municipal management.

East Asia and the Pacific (EA): Except where noted elsewhere in this announcement, there are no country or thematic restrictions for this geographic region, which also includes Mongolia, Indochina, and the Pacific Islands.

American Republics (AR): Except where noted elsewhere in this announcement, there are no country or thematic restrictions for this geographic region. However, priority will be given to projects in the following areas: Strengthening of democracy, economic reform, free markets, journalism, administration of justice, civil/military relations, and good governance.

Africa (AF): Except where noted elsewhere in this announcement, there are no country or thematic restrictions for this geographic region.

North Africa, Near East and South Asia (NEA): Except where noted elsewhere in this announcement, there are no country or thematic restrictions for this geographic region. However, priority will be given to projects which promote democratization, free markets, tolerance and pluralism, and conflict resolution.

The Office of Citizen Exchanges strongly encourages the coordination of activities with respected universities, professional associations, and major cultural institutions in the U.S. and abroad, but particularly in the U.S. Projects should be intellectual and cultural, not technical. Vocational training (an occupation other than one requiring a baccalaureate or higher academic degree; i.e., clerical work, auto maintenance, etc. and other occupations requiring less than two years of higher education) and technical training (special and practical knowledge of a mechanical or a scientific subject which enhances mechanical, narrowly scientific, or semi-skilled capabilities) are ineligible for support. In addition, scholarship programs are ineligible for support. Pursuant to the Bureau's authorizing legislation, programs must maintain a non-political character, should be balanced and representative of the diversity of American political, social and cultural life.

The Office does not support proposals limited to conferences or seminars (i.e., one to fourteen-day programs with plenary sessions, main speakers, panels, and a passive audience). It will support conferences only insofar as they are part of a larger project in duration and scope which is receiving USIA funding from this competition. USIA-supported projects may include internships; study tours; short-term, non-technical training; and extended, intensive workshops taking place in the United States or overseas.

The themes addressed in exchange programs must be of long-term importance rather than focused exclusively on current events or short-term issues. In every case, a substantial rationale must be presented as part of the proposal, one that clearly indicates the distinctive and important contribution of the overall project, including where applicable the expected yield of any associated conference.

No funding is available exclusively to send U.S. citizens to conferences or conference-type seminars overseas; neither is funding available for bringing foreign nationals to conferences or to routine professional association meetings in the United States.

Projects that duplicate what is routinely carried out by private sector and/or public sector operations will not be considered. USIS post consultation by applicants, prior to submission of proposals, is strongly recommended for all programs.

Additional Guidelines and Restrictions

Office of Citizen Exchanges grants are not given to support projects whose focus is limited to technical or vocational subjects, or for research projects, for publications funding, for student and/or teacher/faculty exchanges, for sports and/or sports related programs. Nor does this office provide scholarships or support for long-term (a semester or more) academic studies. Competitions sponsored by other Bureau offices are also announced in the **Federal Register**.

For projects that would begin after December 31, 1993, competition details will be announced in the **Federal Register** on or about June 1, 1993. Inquiries concerning technical requirements are welcome prior to submission of applications.

Selection of Participants

A project proposal should clearly describe the type of person who will participate in the program and for what reasons. The process by which participants will be selected initially should be described (e.g., nominations from employers, open competition, applications, interviews, etc.)

In the selection of foreign participants, USIA and USIS and American Embassies retain the right to nominate all participants and to accept or deny participants recommended by grantee institutions. However, grantee institutions will often provide support,

as requested by USIA, in the nomination of participants. The grantee institution will also provide the names of American participants and brief biographical data to the Office of Citizen Exchanges for information purposes. Priority will be given to foreign participants who have not previously travelled to the United States.

Application Requirements

Proposals must be structured as outlined in the application package. Confirmation letters from American and foreign co-sponsors noting their intention to participate in the program will enhance an institution's submission.

Funding

Competition for USIA funding is keen. The selection of grantee institutions will depend on program substance, cross-cultural sensitivity, and ability to carry out the program successfully. Since USIA grant assistance constitutes only a portion of total project funding, proposals should list and provide evidence of other anticipated sources of financial and in-kind support. Proposals with cost sharing of less than 33 percent of the total project cost will be considered ineligible. USIA-funded administrative costs are limited to twenty (20%) percent of the total funds requested from USIA. Administrative costs are defined as salaries for grantee organization employees, benefits, other direct and indirect costs incurred in the United States. Overseas administrative costs—such as compensation of an employee in an overseas office—are not counted in this 20 percent limit. Important note for universities: The U.S. Information Agency's Bureau of Educational and Cultural Affairs defines American faculty salaries as an administrative expense, regardless of how the faculty time is to be used.

A proposal's cost-effectiveness—including in-kind contributions and ability to keep administrative costs low—is a major consideration in the review process. Although no set funding limit exists, proposals for less than $150,000 will receive preference. Organizations with less than four years of successful experience in managing international exchange programs are limited to grants of $60,000.

The Government reserves the right to reject any or all applications received. USIA will not pay for design and development costs associated with submitting a proposal. Applications are submitted at the risk of the applicant; should circumstances prevent award of a grant, all preparation and submission costs are at the applicant's expense. USIA will not award funds for activities conducted prior to the actual grant award.

Review Process

USIA will acknowledge receipt of all proposals and will review them for technical eligibility. Proposals will be deemed ineligible if they do not fully adhere to the guidelines established herein and in the application packet. Eligible proposals will be forwarded to panels of USIA officers for advisory review. All eligible proposals will also be reviewed by the appropriate geographic area office, and the budget and contract offices. Proposals may also be reviewed by the Agency's Office of General Counsel.

Funding decisions are at the discretion of the Associate Director for Educational and Cultural Affairs. Final technical authority for grant awards resides with USIA's contracting officer. The award of any grant is subject to the availability of funds.

Review Criteria

USIA will evaluate proposals based on the following criteria:

1. *Quality of Program Idea:* Proposals should exhibit originality and substance. Their rationale should persuade the reader that the U.S. taxpayer's dollar is being well-spent for a clearly defined need.

2. *Institution Reputation/Ability:* Institutions should demonstrate their potential for program excellence and/or provide documentation of successful programs. If an organization is a previous USIA grant recipient, responsible fiscal management and full compliance with all reporting requirements for past Agency grants as determined by USIA's Office of Contracts (M/KG) will be considered.

3. *Project Personnel:* Personnel's professional and logistical expertise should be relevant to the proposed program. Resumes should be relevant to the specific proposal.

4. *Thematic Expertise:* Proposal should demonstrate the organization's expertise in the subject area.

5. *Program Planning:* Detailed agenda and work plan should demonstrate substance and logistical capacity.

6. *Cross-Cultural Sensitivity/Area Expertise:* Evidence of sensitivity to historical, linguistic, and other cross-cultural factors; relevant knowledge of geographic area.

7. *Ability to Achieve Program Objectives:* Objectives should be realistic and obtainable. Proposal should clearly demonstrate how the grantee institution will meet the program's objectives.

8. *Multiplier Effect:* Proposed programs should strengthen long-term mutual understanding, to include maximum sharing of information and establishment of long-term institutional ties.

9. *Cost-Effectiveness:* The overhead and administrative components should be as low as possible. All other items proposed for USIA funding should be necessary and appropriate to achieve the program's objectives.

10. *Cost-Sharing:* Proposals should show cost-sharing through other private sector support as well as direct funding contributions and in-kind support from the prospective grantee institution.

11. *Follow-on Activities:* Proposals should provide a plan for continued exchange activity (without USIA support) which ensures that USIA-funded programs are not one-time events.

12. *Project Evaluation:* Proposals should include a plan to evaluate the activity's success.

Additional Guidance

The Office of Citizen Exchanges offers the following additional guidance to prospective applicants:

1. This Office of Citizen Exchanges encourages project proposals involving more than one country. However, single-country projects that are clearly defined and possess the potential for creating and strengthening continuing linkages between foreign and U.S. institutions are also welcome.

2. Proposals for bilateral programs are subject to review and comment by the USIS post in the relevant country, and pre-selected participants will also be subject to USIS post review.

3. Bilateral programs should clearly identify the counterpart organization and provide evidence of the organization's participation.

4. The Office of Citizen Exchanges will consider proposals for activities in other countries when USIS posts are consulted in the design of the proposed program and in the choice of the most suitable venues for such programs.

Notice

The terms and conditions published in the RFP are binding and may not be modified by any USIA representative. Explanatory information provided by the Agency that contradicts published language will not be binding. Issuance of the RFP does not constitute an award commitment on the part of the Government. Final award cannot be made until funds have been fully appropriated by Congress, allocated and

committed through internal USIA procedures.

Notification

All applicants will be notified of the results of the review process on or about June 1, 1993. Awarded grants will be subject to periodic reporting and evaluation requirements.

Dated: December 14, 1992.

Barry Fulton,

Acting Associate Director, Bureau of Educational and Cultural Affairs.

Sunshine Act Meetings

Federal Register
Vol. 57, No. 244
Friday, December 18, 1992

This section of the FEDERAL REGISTER contains notices of meetings published under the "Government in the Sunshine Act" (Pub. L. 94-409) 5 U.S.C. 552b(e)(3).

COMMODITY FUTURES TRADING COMMISSION

"FEDERAL REGISTER" CITATION OF PREVIOUS ANNOUNCEMENT: 57 F.R. 57864.

PREVIOUSLY ANNOUNCED TIME AND DATE OF MEETING: 10:00 a.m., Tuesday, December 29, 1992.

CHANGES IN THE MEETING: The Commodity Futures Trading Commission has cancelled the meeting previously announced to discuss a Rule Enforcement Review.

CONTACT PERSON FOR MORE INFORMATION: Jean A. Webb, 254–6314.

Jean A. Webb,

Secretary of the Commission.

[FR Doc. 92–30863 Filed 12–16–92; 3:53 pm]

BILLING CODE 6351–01–M

U.S. CONSUMER PRODUCT SAFETY COMMISSION

TIME AND DATE: (Times listed below), Tuesday, December 22, 1992.

LOCATION: Room 556, Westwood Towers, 5401 Westbard Avenue, Bethesda, Maryland.

STATUS: Open to the Public.

MATTERS TO BE CONSIDERED:

10:00 a.m.

1. Pride in Public Service

The Commission will present the Pride in Public Service Award to December's recipient.

2. Election of Vice Chairman

The Commission will elect a Vice Chairman for a term ending on December 31, 1993.

3. ANPR on Sleepwear

The Commission will consider an Advance Notice of Proposed Rulemaking (ANPR) to amend the standards for flammability of children's sleepwear to exempt close fitting garments and garments intended for infants.

4. Charcoal Container Labeling, Petition HP 91–1

The Commission will consider petition HP 91–1 from Barbara Muak requesting changes to the labeling requirements for containers of charcoal.

2:00 p.m.

5. Voluntary Standards/International Affairs

The staff will brief the Commission on voluntary standards and international affairs activities carried out by staff during the fourth quarter of fiscal year 1992.

For a Recorded Message Containing the Latest Agenda Information, Call (301) 504–0709.

CONTACT PERSON FOR ADDITIONAL INFORMATION: Sheldon D. Butts, Office of the Secretary, 5401 Westbard Ave., Bethesda, Md. 20207 (301) 504–0800.

Dated: December 15, 1992.

Sheldon D. Butts,

Deputy Secretary.

FEDERAL DEPOSIT INSURANCE CORPORATION

Notice of Change in Subject Matter of Agency Meeting

Pursuant to the provisions of subsection (e)(2) of the "Government in the Sunshine Act" (5 U.S.C. 552b(e)(2)), notice is hereby given that at its open meeting held at 10:04 a.m. on Tuesday, December 15, 1992, the Corporation's Board of Directors determined, on motion of Director C.C. Hope, Jr. (Appointive), seconded by Director Stephen R. Steinbrink (Acting Comptroller of the Currency), concurred in my Acting Chairman Andrew C. Hove, Jr., and Director Jonathan L. Fiechter (Acting Director, Office of Thrift Supervision), that Corporation business required the addition to the agenda for consideration at the meeting on less than seven days' notice to the public, of the following matter:

Report on the status of pending regulations to be issued pursuant to the Federal Deposit Insurance Corporation Improvement Act of 1991.

By the same majority vote, the Board further determined that no notice earlier than December 11, 1992, of this change in the subject matter of the meeting was practicable.

The meeting was held in the Board Room of the FDIC Building located at 550—17th Street, N.W., Washington, DC.

Dated: December 15, 1992.

Federal Deposit Insurance Corporation.

Robert E. Feldman,

Deputy Executive Secretary.

FEDERAL DEPOSIT INSURANCE CORPORATION

Notice of Changes in Subject Matter of Agency Meeting

Pursuant to the provisions of subsection (e)(2) of the "Government in the Sunshine Act" (5 U.S.C. 552b(e)(2)), notice is hereby given that at its closed meeting held at 11:39 a.m. on Tuesday, December 15, 1992, the Corporation's Board of Directors determined, on motion of Director C.C. Hope, Jr. (Appointive), seconded by Director Stephen R. Steinbrink (Acting Comptroller of the Currency), concurred in by Acting Chairman Andrew C. Hove, Jr., and Director Jonathan L. Fiechter (Acting Director, Office of Thrift Supervision), that Corporation business required the addition to the agenda for consideration at the meeting, on less than seven days' notice to the public, of the following matters:

Matters relating to an assistance agreement with an insured institution.

Recommendation concerning certain financial institutions.

The Board further determined, by the same majority vote, that no earlier notice of the changes in the subject matter of the meeting was practicable; that the public interest did not require consideration of the matters in a meeting open to public observation; and that the matters could be considered in a closed meeting by authority of subsections (c)(4), (c)(6), (c)(8), (c)(9)(A)(ii), and (c)(9)(B) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(4), (c)(6), (c)(8), (c)(9)(A)(ii), and (c)(9)(B)).

Dated: December 15, 1992.

Federal Deposit Insurance Corporation.

BILLING CODE 1505-01-D

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 91-NM-234-AD; Amdt. 39-8357; AD 92-18-12]

Airworthiness Directives; Boeing 747 Series Airplanes

Correction

Due to errors in the original publication of rule document 92-24750 beginning on page 46769 in the issue of Tuesday, October 13, 1992, the airworthiness directive beginning on page 46770 is republished in its entirety as follows:

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. App. 1354(a), 1421 and 1423; 49 U.S.C. 106(g); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by removing amendment 39-8011 (56 FR 51232, October 11, 1991), and by adding a new airworthiness directive (AD), amendment 39-8357, to read as follows:

92-18-12 **Boeing:** Amendment 39-8357. Docket No. 91-NM-234-AD. Supersedes AD 91-18-08, Amendment 39-8011.

Applicability: Model 747 series airplanes, equipped with brake part numbers (P/N) identified in paragraphs (a) and (b) of this AD, certificated in any category.

Compliance required as indicated, unless previously accomplished.

To prevent loss of main landing gear braking effectiveness, accomplish the following:

(a) Within 180 days after November 12, 1991 (the effective date of Amendment 39-8011, AD 91-18-08), incorporate the maximum brake wear limits, shown below, into the FAA-approved maintenance inspection program:

Brake mfr.	Brake P/N	Boeing P/N	Maximum wear limit (inches)
Bendix	2603703-13	60B10014-9	1.55
Bendix	2603703-14	60B10014-11	1.55
Bendix	2605662-1	60B10014-15	2.50
Bendix	2605662-3	60B10014-23	2.70
BFGoodrich	2-1515-1	60B10062-11	2.00
BFGoodrich	2-1515-2	60B10062-12	2.00

(b) Within 180 days after the effective date of this AD, accomplish the requirements specified in paragraph (b)(1), (b)(2), (b)(3), (b)(4), (b)(5), or (b)(6) of this AD, as applicable:

(1) For airplanes equipped with Bendix Part Numbers (P/N) 2602012-2, -3, -4, and -5, (Boeing P/N 60B00150-5, -6, -8, and -12):

(i) Inspect each brake to ensure it is not worn more than 1.75 inches. Any brake worn more than this limit must be replaced, prior to further flight, with a brake within this limit; or with a Bendix Brake P/N 2602012-30, -40, or -50, (Boeing P/N 60B00150-21, -22, and -23), as applicable, built in accordance with Bendix Service Bulletin 2602012-32-001, Revision 2, dated October 10, 1991.

(ii) Add Bendix Brake P/N's 2602012-30, -40, and -50 to the FAA-approved Airplane Flight Manual (AFM), Section 4, "Maximum Brake Energy Limit Speed," Category "B," and remove Bendix brake P/N's 2602012-2, -3, -4, and -5 from the AFM.

(iii) Intermix of the P/N 2602012-2, -3, -4, and -5 brakes with the P/N 2602012-30, -40 and -50 brakes is allowed for 360 days after the effective date of this AD. Delay removal of the P/N 2602012-2, -3, -4, and -5 brakes from the AFM, as required by paragraph (b)(1)(ii) of this AD, until intermix is ended.

(iv) Change all references of Bendix Brake P/N's 2602012-2, -3, -4, and -5 to Category "B" on the Maximum Brake Energy Chart in section 4 of the AFM.

(v) Incorporate a 1.75-inch maximum allowable brake wear limit for Bendix brake P/N's 2602012-30, -40 and -50 into the FAA-approved maintenance inspection program.

(2) For airplanes equipped with Bendix Brake P/N's 2601902-1, -2, and -5, (Boeing P/N's 60B00150-4, -9, and -13): Incorporate a 2.38-inch maximum allowable brake wear limit into the FAA-approved maintenance inspection program.

(3) For airplanes equipped with Bendix Brake P/N's 2601902-3, -4, and -6, (Boeing P/N's 60B00150-10, -11, and -14):

(i) Inspect each brake to ensure it is not worn more than 1.73 inches. Any brake worn more than this limit must be replaced, prior to further flight, with a brake within this limit; or with a Bendix Brake P/N 2601902-30, -40, or -60, (Boeing P/N's 60B00150-24, -25, and -26), as applicable, built in accordance with Bendix Service Bulletin 2601902-32-001, Revision 2, dated October 10, 1991.

(ii) Add Bendix Brake P/N's 2601902-30, -40, and -60 to the AFM, Section 4, "Maximum Brake Energy Limit Speed," Category "C."

(iii) Intermix of the P/N 2601902-3, -4, and -6 brakes with the P/N 2601902-30, -40, and -60 brakes is allowed for 360 days after the effective date of this AD when a 1.73-inch maximum allowable brake wear limit removal criteria is used for these brakes.

(iv) Move Bendix Brake P/N's 2601902-3, -4, and -6 from Category "C" to Category "B" in the AFM, Section 4, "Maximum Brake Energy Limit Speed." If intermixing is used, delay movement of these brakes to Category "B" until intermixing is ended.

(v) Change all references of Bendix P/N's 2601902-3, -4, and -6 to Category "C" on the Maximum Brake Energy Chart in section 4 of the AFM.

(vi) Incorporate a 2.38-inch maximum allowable brake wear limit for Bendix Brake P/N's 2601902-3, -4, and -6, and a 1.73-inch maximum allowable brake wear limit for P/N's 2601902-30, -40, and -60, into the FAA-approved maintenance inspection program.

(4) For airplanes equipped with Bendix Brake P/N 2605662-2, (Boeing P/N 60B10014-14):

(i) Inspect each brake to ensure that it is not worn more than 1.73 inches. Any brake worn more than this limit must be replaced, prior to further flight, with a brake within this limit; or with Bendix Brake P/N

2605662–20, (Boeing P/N 60B10014–30), built in accordance with Bendix Service Bulletin 2605662–32–028, Revision 2, dated October 10, 1991.

(ii) Add Bendix Brake P/N 2605662–20 to the AFM, Section 4, "Maximum Brake Energy Limit Speed," Category "C."

(iii) Intermix of the P/N 2605662–2 brakes with the P/N 2605662–20 brakes is allowed for 360 days after the effective date of this AD when a 1.73-inch maximum allowable ware limit removal criteria is used for these brakes.

(iv) Move Bendix Brake P/N 2605662–2 from Category "C" to Category "B" in the AFM, Section 4, "Maximum Brake Energy Limit Speed." If intermixing is used, delay movement of these brakes to Category "B" until intermix is ended.

(v) Change all references of Bendix P/N 2605662–2 to Category "C" on the Maximum Brake Energy Chart in section 4 of the AFM.

(vi) Incorporate a 2.30-inch maximum allowable brake wear limit for Bendix Brake P/N 2605662–2, and a 1.73-inch maximum allowable brake wear limit for P/N 2605662–20, into the FAA-approved maintenance inspection program.

(5) For airplanes equipped with Bendix Brake P/N 2605155–1, (Boeing P/N 60B10014–10):

(i) Inspect each brake to ensure that it is not worn more than 2.50 inches. Any brake worn more than this limit must be replaced, prior to further flight, with a brake within this limit; or with Bendix Brake P/N 2605155–2, (Boeing P/N 60B10014–31), built in accordance with Bendix Service Bulletin 2605155–32–001, Revision 2, dated October 10, 1991.

(ii) Add Bendix Brake P/N 2605155–2 to the Airplane Flight Manual (AFM), Section 4, "Maximum Brake Energy Limit Speed," Category "C."

(iii) Intermix of the P/N 2605155–1 brakes with the P/N 2605155–2 brakes is allowed for 360 days after the effective date of this AD when a 2.50-inch maximum allowable wear limit removal criteria is used for these brakes.

(iv) Move Bendix Brake P/N 2605155–1 from Category "C" to Category "B" in the AFM, Section 4, "Maximum Brake Energy Limit Speed." If intermixing is used, delay movement of this brake to Category "B" until intermixing is ended.

(v) Change all references of Bendix P/N 2605155–1 to Category "C" on the Maximum Brake Energy Chart in section 4 of the AFM.

(vi) Incorporate a 3.20-inch maximum allowable brake wear limit for Bendix Brake P/N 2605155–1, and a 2.50-inch maximum allowable brake wear limit for P/N 2605155–2, into the FAA-approved maintenance inspection program.

(6) For airplanes equipped with Bendix Brake P/N 2605392–1, (Boeing P/N 60B10035–2): Incorporate a 1.90-inch maximum allowable brake wear limit into the FAA-approved maintenance inspection program.

(c) An alternative method of compliance or adjustment of the compliance time, which provides an acceptable level of safety, may be used when approved by the Manager, Seattle Aircraft Certification Office (ACO), FAA, Transport Airplane Directorate. Operators shall submit their requests through an appropriate FAA Principal Maintenance Inspector, who may concur or comment and then send it to the Manager, Seattle ACO.

Note: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Seattle ACO.

(d) Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate airplanes to a base in order to comply with the requirements of this AD.

(e) Brakes shall be built in accordance with Bendix Service Bulletin 2601902–32–001, Revision 2, dated October 10, 1991; Bendix Service Bulletin 2602012–32–001, Revision 2, dated October 10, 1991; Bendix Service Bulletin 2605155–32–001, Revision 2, dated October 10, 1991; or Bendix Service Bulletin 2605662–32–028, Revision 2, dated October 10, 1991; as applicable. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies may be obtained from Allied-Signal Aerospace Company, Bendix Wheels and Brakes Division, South Bend, Indiana 46628. Copies may be inspected at the FAA, Transport Airplane Directorate, 1601 Lind Avenue, SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

(f) This amendment becomes effective on November 17, 1992.

Regulations Governing the Practice of Attorneys, Certified Public Accountants, Enrolled Agents, and Enrolled Actuaries Before the Internal Revenue Service

Correction

In proposed rule document 92–24347 beginning on page 46356 in the issue of Thursday, October 8, 1992, make the following corrections:

§ 10.3 [Corrected]

1. On page 46358, in the third column, in § 10.3(f), in the third line, "any" should read "an".

§ 10.7 [Corrected]

2. On page 46359, in the first column, in § 10.7(b), "*ruleaking*" should read "*rulemaking*".

3. On the same page, in the same column, in § 10.7(c), in the 10th line, "this" should read "his".

§ 10.53A [Corrected]

4. On page 46360, in the second column, in § 10.53A(b)(2), "on" should read "of".

Department of Education

34 CFR Part 682
Federal Family Education Loan Programs; Final Regulations

DEPARTMENT OF EDUCATION

34 CFR Part 682

RIN 1840–AA96

Federal Family Education Loan Programs

AGENCY: Department of Education.

ACTION: Final regulations.

SUMMARY: The Secretary amends the regulations for the Federal Family Education Loan (FFEL) programs. The new FFEL regulations will govern the Federal Stafford Loan Program (formerly the Guaranteed Student Loan Program), the Federal Supplemental Loans for Students (Federal SLS) Program, the Federal PLUS Program, and the Federal Consolidation Loan Program, collectively referred to as the Federal Family Education Loan programs. The Federal Stafford Loan, the Federal SLS, the Federal PLUS and the Federal Consolidation Loan programs are hereinafter referred to as the Stafford, SLS, PLUS and Consolidation programs. These programs complement key components of American 2000, the President's education strategy. The final regulations incorporate statutory changes made by the Consolidated Omnibus Budget Reconciliation Act of 1985 (enacted April 7, 1986) (COBRA) (Pub. L. 99–272), the Higher Education Amendments of 1986 (enacted October 17, 1986) (1986 Amendments) (Pub. L. 99–498), the Higher Education Technical Amendments Act of 1987 (enacted June 3, 1987) (Technical Amendments) (Pub. L. 100–50), Public Law 100–297 (enacted April 28, 1988), Public Law 100–369 (enacted July 18, 1988), the Omnibus Budget Reconciliation Act of 1989 (enacted December 19, 1989) (Pub. L. 101–239), the Omnibus Budget Reconciliation Act of 1990 (enacted November 5, 1990) (Pub. L. 101–508), the National and Community Service Act of 1990 (enacted November 16, 1990) (Pub. L. 101–610), the Higher Education Technical Amendments of 1991 (enacted April 9, 1991) (Pub. L. 102–26), one technical change required by the Emergency Unemployment Compensation Act of 1991 (enacted November 14, 1991) (Pub. L. 102–164), and changes to reflect self-implementing provisions of the Higher Education Amendments of 1992 (1992 Amendments) (enacted July 23, 1992) (Pub. L. 102–325). To the extent these regulations may be inconsistent with the 1992 Amendments, the 1992 Amendments supersede the regulations. The remainder of the provisions enacted as part of the 1992 Amendments will be addressed in separate proposed and final regulations developed under the requirements of negotiated rulemaking. The final regulations also establish various policy initiatives intended to improve program administration, prevent loan defaults, and generate repayment of defaulted loans.

EFFECTIVE DATE: Except as otherwise specified below, these regulations take effect either 45 days after publication in the Federal Register or later if the Congress takes certain adjournments, with the exception of §§ 682.205, 682.206, 682.208, 682.209, 682.210, 682.211, 682.214, 682.301, 682.305, 682.401, 682.402, 682.404, 682.406, 682.407, 682.409, 682.410, 682.411, 682.412, 682.414, 682.507, 682.508, 682.511, 682.515, 682.601, 682.602, 682.603, 682.604, 682.605, 682.606, 682.610, 682.711, 682.712, 682.713, 682.802, 682.803, and appendix B. These sections will become effective after the information collection requirements contained in these sections have been submitted by the Department of Education and approved by the Office of Management and Budget under the Paperwork Reduction Act of 1980.

Subject to approval under the Paperwork Reduction Act, if applicable, the following effective dates also apply to certain provisions of these regulations.

Section 682.302(d)(1)(v), which requires lenders to file default claims within 60 days after the date of default to retain eligibility for special allowance payments from the Secretary, is effective for loans on which the first day of delinquency is on or after 120 days of following the date of publication.

Section 682.302(d)(1)(vii), which requires a lender to resubmit within 30 days a default claim that has been returned to the lender by the guaranty agency due solely to inadequate documentation to maintain eligibility for special allowance, is effective for loans on which the first day of delinquency is on or after 120 days following the date of publication.

Section 682.401(d)(3), which requires a guaranty agency to use common forms approved by the Secretary is, with the exception of the common application form and promissory note, effective 360 days following the date of publication. Under the 1992 Amendments, the Secretary must approve a common application form and promissory note within 360 days after the enactment of that law.

Section 682.401(b)(17), which requires a guaranty agency to have a written agreement with each lender in its program, is effective 120 days following the date of publication.

Section 682.401(b)(18)(ii), which requires guaranty agencies to use the data elements and report format provided in appendix B for monitoring the enrollment status of student borrowers, is effective 120 days following the approval of this provision by OMB under the Paperwork Reduction Act of 1980.

Section 682.406(a)(3), which requires a lender to provide an accurate collection history and payment history to the guaranty agency with each default claim, is effective for loans that enter repayment on or after the effective date of these regulations.

Section 682.406(a)(6), which requires a lender to resubmit within 30 days a default claim that has been returned by the guaranty agency due solely to inadequate documentation for interest accruing beyond the 30th day to be reinsured, or to resubmit the claim within 60 days to maintain reinsurance on the loan, is effective for loans on which the first day of delinquency is on or after 120 days following the date of publication.

Section 682.406(a)(8), which requires that guaranty agencies must pay or reject a claim by the 60th day after a default claim is received for the interest accruing after the 60th day to be reinsured, is effective for loans on which the first day of delinquency is on or after 120 days following the date of publication.

Section 682.410(b)(4), which requires guaranty agencies to capitalize any interest due to the lender from the borrower at the time the guaranty agency pays the default claim, is effective for claims paid by the agency on or after 120 days following the date of publication.

Section 682.411, which defines the minimum due diligence requirements for lenders in the collection of guaranty agency loans, is effective for loans on which the first day of delinquency is on or after 120 days following the date of publication.

If you want to know the effective date of these regulations, call or write the Department of Education contact person. A document announcing the effective date will be published in the Federal Register.

FOR FURTHER INFORMATION CONTACT: Patricia Beavan or Pamela Moran, U.S. Department of Education, 400 Maryland Avenue, SW., room 4310, ROB 3, Washington, DC 20202–5449. Telephone: (202) 708–8242. Deaf and hearing impaired individuals may call the Federal Dual Party Relay Service at

1–800–877–8339 (in the Washington, DC 202 area code, telephone 708–9300) between 8 a.m. and 7 p.m., Eastern time.

SUPPLEMENTARY INFORMATION: The Stafford, SLS, and PLUS programs provide loans to eligible student or parent borrowers who might otherwise be unable to finance the costs of postsecondary education. The Consolidation Loan Program gives borrowers an opportunity to consolidate loans made under the Stafford loan, Perkins loan (formerly National Direct Student Loan), PLUS (for loans made to students prior to 1986), SLS, and Health Professions Student Loan programs.

On November 20, 1990, the Secretary published a notice of proposed rulemaking (NPRM) for the GSL programs in the **Federal Register** (55 FR 48324). Those proposed regulations did not reflect changes to the Higher Education Act of 1965, as amended, (the Act) authorizing legislation for the FFEL programs made after the enactment of Public Law 100–369 (July 18, 1988). These final regulations, however, now reflect the statutory changes made to the programs by the laws identified in the Summary, which include provisions that—

- Provide that an individual serving in a medical internship or residency program, except for an internship in dentistry, is ineligible to receive a Stafford or SLS loan (§ 682.201(a)(8));
- Prohibit a borrower who is serving in a medical internship or residency program, except for an internship in dentistry, from receiving or continuing a deferment of repayment on a Stafford or SLS loan based on the borrower's full-time or half-time study at a school (§ 682.210(c)(4));
- Require a lender to grant forbearance to a borrower who is serving in a medical internship or residency program and who already has received the maximum two-year internship deferment (§ 682.211(g));
- Provide that a student who does not have a high school diploma or recognized equivalent is ineligible to borrow an SLS loan (§ 682.201(a)(3)(ii));
- Provide that the proceeds of any Stafford or SLS loan must be disbursed in two or more installments regardless of the amount of the loan or the length of the period of enrollment for which the loan is made (§ 682.207(c)(1));
- Prohibit a lender or escrow agent from disbursing the second or any subsequent disbursement of a Stafford or SLS loan after it is informed by the student or institution that the student has ceased to be enrolled at the institution (§ 682.207(b)(1)(vi));
- Require an institution to withhold from the student and promptly return to the lender or escrow agent any Stafford or SLS disbursement not yet delivered to the student that exceeds the amount of assistance for which the student is eligible, taking into account other financial aid obtained by the student (§ 682.604(h));
- Require the student to provide the lender with a statement from the institution setting forth a disbursement schedule for the proceeds of a Stafford or SLS loan in installments (§ 682.207(b)(1)(B));
- Require that, for a student to be eligible to receive financial assistance authorized by Title IV of the Higher Education Act of 1965, as amended (the Act), a student who does not have a high school diploma or a recognized equivalent must pass an independently administered examination approved by the Secretary (§ 682.201(a)(7));
- Require guaranty agencies, upon request of a lender, to provide preclaims assistance on accounts that are less than 120 days delinquent and supplemental preclaims assistance on accounts that are delinquent at least 120 days (§ 682.411(h));
- Require guaranty agencies, upon the request of an eligible institution, to furnish information to the institution on borrowers who were enrolled at the institution and who have defaulted on their FFEL loans (§ 682.401(b)(22));
- Establish a minimum period for annual SLS loan eligibility that is the greater of the length of the institution's academic year or seven consecutive months (§ 682.204(e)(2));
- Prohibit an institution from delivering for endorsement the first installment of a Stafford or SLS loan to any student who is entering the first year of a program of undergraduate education at an institution, and who has not previously received a Stafford or SLS loan, until 30 days after the first day of the student's program of study (§ 682.604(c)(5));
- Extend the provision prohibiting the discharge of certain student loans to borrowers who file for relief under Chapter 13 of the Bankruptcy Code;
- Extend the 5-year period under which a Title IV loan generally may not be discharged in bankruptcy to 7 years (§ 682.402(d)(5)(B));
- Permit an institution to refuse to certify an otherwise eligible borrower's FFEL application, or to certify a loan for an amount that is less than what the student would be otherwise eligible for, as long as the reason for that action is documented and given to the student in writing (§ 682.603(e));
- Require an institution to review with the borrower during exit counseling the conditions under which the borrower may defer repayment of a loan because of service under the Peace Corps Act, the Domestic Volunteer Service Act of 1973, or for comparable full-time service as a volunteer in a tax-exempt organization (§ 682.604(g)(2)(vi));
- Eliminate any statutes of limitation that previously applied to enforcement action to collect FFEL loans;
- Prohibit a guaranty agency for retaining 35 percent of collections from defaulted borrowers obtained through a wage garnishment law that complied with section 428E of the Act, which was repealed by section 605(b)(1) of Pub. L. 102–164;
- Provide a reduced annual limit on SLS loans for a student in a program of study that is less than a full academic year in length (§ 682.204(e)(1));
- Prohibit an incarcerated student from borrowing under the FFEL program;
- Require an annual independent compliance audit of each lender conducted by an independent organization or person (§ 682.305(c));
- Require a guaranty agency to submit a request for payment of reinsurance no later than 45 days after the guaranty agency has paid a claim to the lender on a loan (§ 682.406(a)(9));
- Require a guaranty agency, upon the request of a school, to provide information to the school about a borrower who received an FFEL loan for attendance at the school if the borrower's lender submitted a request for preclaims assistance (§ 682.404(a)(5));
- Require the lender prior to or at the time the loan is disbursed to provide the borrower with a clear and concise statement, in bold print and prominently and clearly displayed, that the borrower is receiving a loan that must be repaid (§ 682.205(a)(1));
- Require the lender to disclose certain information regarding repayment to Stafford and SLS borrowers not less than 60 days nor more than 240 days before the first payment on the borrower's loan becomes due (§ 682.205(c)(1));
- Eliminate the requirement for a lender to disclose the projected total of interest charges to SLS, PLUS, or unsubsidized Stafford loan borrowers if the lender provides the borrower with sample projections of monthly repayment amounts (§ 682.205(d));
- Provide that the lender must charge an SLS or PLUS loan borrower an origination fee of five percent of the principal amount of the loan (§ 682.202(c));
- Change the definition of eligible institution by repealing the definitions

of "institution of higher education" and "vocational school" previously found in section 435(b) of the Act (§ 682.200). For purposes of an in-school deferment, an eligible institution includes an institution of higher education whether or not it participates in any Title IV program or has lost its eligibility to participate in the FFEL programs because of a high default rate;

- Define when a repayment period begins for loans made under each of the FFEL programs (§ 682.200);
- Provide a variable interest rate for new Stafford loan borrowers (§ 682.202(a)(1));
- Establish new maximum variable rates for SLS and PLUS loans (§ 682.202(a)(2) and (a)(3));
- Establish a reduced annual loan limit for Stafford loan borrowers who have not completed the first year of an undergraduate program (§ 682.204(a));
- Require a lender to disburse a PLUS loan by means of a co-payable check or by electronic funds transfer (EFT) to the school (§ 682.207(b));
- Require a lender to disburse loan proceeds, at the borrower's request, directly to a borrower enrolled in a study-aboard program approved for credit at the home institution or, at the borrower's request, to the home institution for the endorsement or EFT authorization by an individual provided power-of-attorney by the borrower (§ 682.207(b)(10)(v));
- Require that if a loan is sold, transferred, or assigned to another holder and there will be a change in the identity of the party to whom the borrower must send subsequent payments or direct communications, both the assignor and assignee must provide separate notices to the borrower regarding the sale or transfer (§§ 682.208(e) and 682.508);
- Provide that an SLS borrower who has not yet entered repayment on a Stafford loan may postpone payment until expiration of the borrower's grace period on the borrower's Stafford loan (§ 682.209(a)(2)(iii));
- Make PLUS borrowers eligible to borrow under the Consolidation Loan program if the PLUS loans were obtained after October 17, 1986 (§ 682.100);
- Extend eligibility for Consolidation loans to delinquent and defaulted borrowers who will re-enter repayment through loan consolidation (§ 682.201(c)(1)(ii)(C)(1));
- Allow a Consolidation loan borrower to add additional loans received prior to the date of the Consolidation loan during the 180-day period following the making of the Consolidation loan (§ 682.209(h)(4));
- Provide that interest will be paid by the Secretary on behalf of a Consolidation loan borrower during authorized deferment periods (§ 682.210(a)(3));
- Allow married couples to consolidate their loans jointly (§ 682.201(c)(2));
- Provide for longer repayment periods for Consolidation loan borrowers and require lenders to offer these borrowers repayment schedules that provide for graduated or income-sensitive repayment (§ 682.209(h));
- Provide that when a lender grants forbearance to a borrower, it must be a total cessation of payments unless the borrower requests an extension of time for making payments or a temporary acceptance of smaller payments than previously were scheduled (§ 682.211(h));
- Increase the amount of a fine from $1,000 to $10,000 for any person who knowingly and willfully makes an unlawful inducement to an eligible lender (§ 682.212(g));
- Require a guaranty agency to have an independent financial and compliance audit annually (§ 682.410(b)(1));
- Require the Secretary to prescribe a common application form and promissory note and other common forms developed in cooperation with FFEL program participants (§ 682.401(d));
- Repeal the prior 1 percent limitation on the amount of discount at which a tax-exempt authority may purchase student loans from lenders;
- Eliminate a lender or school's opportunity to request a hearing on the record as governed by the Administrative Procedure Act in the Secretary's review of a guarantee agency's disqualification action against the lender or school (§§ 682.712 and 682.713).

The regulations established various policy initiatives designed to reduce defaults and increase collections on loans that go into default. They also include the revisions to part 682 made in the following final regulations that recently were published: regulations implementing the targeted teacher deferment, see 55 FR 35002 (August 27, 1990); regulations relating to appeals from the loss of FFEL program eligibility for high default rate schools, see 56 FR 33332 (July 19, 1991); and regulations requiring the lender to notify the borrower of a loan assignment, see 56 FR 48990 (September 26, 1991).

To reduce unnecessary duplication of regulations that apply to all Title IV student assistance programs, these regulations delete a number of definitions and existing rules and replace them with cross-references to the Student Assistance General Provisions regulations (34 CFR part 668) and the Institutional Eligibility Regulations (34 CFR part 600).

These regulations seek to improve the efficiency of Federal student aid programs and, by so doing, to improve their capacity to enhance opportunities for postsecondary education. Encouraging students to graduate from high school and to pursue high quality postsecondary education are important elements of the President's America 2000 strategy to move the nation toward achieving the National Education Goals. The student aid programs also enable both current and future workers to have the opportunity to acquire both basic and technologically advanced skills needed for today's and tomorrow's workplace. They provide the financial means for an increasing number of Americans to receive an education that will prepare them to think critically, communicate effectively, and solve problems efficiently, as called for in the National Education Goals.

Substantive Revisions to the Notice of Proposed Rulemaking

Subpart B—General Provisions

Section 682.200 Definitions

- The Secretary has incorporated into the regulations a definition of "expected family contribution" for the FFEL programs that is consistent with the existing definition used in the Perkins Loan, College Work-Study, and Supplemental Educational Opportunity Grant Programs.
- The Secretary has revised the definition of "holder" to include a Federal or State agency or an organization or corporation acting on behalf of such an agency and acting as a conservator, liquidator, or receiver of an eligible lender.
- The Secretary has changed the definition of "lender" contained in proposed § 682.200. The NPRM would have allowed mortgage loans serviced, but not held by the lender, to be included in the calculation of the lender's total consumer credit portfolio. The final regulations provide that only loans held by the lender may be included in this calculation. The final regulations also delete the proposal to use a net income standard to determine a lender's primary consumer credit function since events beyond the lender's control, such as an increase in interest rates or defaults on non-student loans, may result in student loans representing the majority of a lender's profits.

• The Secretary has modified the definition of "Stafford Loan Program" to indicate that an unsubsidized Stafford loan is an insured Stafford loan that does not qualify for interest benefits.

Section 682.201 Eligible Borrowers

• The Secretary has revised the provisions of § 682.201(a)(5) to require borrowers to reaffirm any written-off FFEL programs debt before the borrower can receive additional aid under the FFEL programs.

Section 682.202 Permissible Charges by Lenders to Borrowers

• The Secretary has revised § 682.202(a) of the regulations to include the provisions of section 427A of the Act that require a rebate to be given to a borrower with a Stafford loan with an interest rate of 10 percent in the event that Treasury bill rates decline below a certain level.

• Section 682.202(f)(2)(ii) of the proposed regulations has been dropped to be consistent with changes made in § 682.201(a)(4).

• The Secretary has deleted from § 682.202(g) of the proposed regulations, which identifies the costs that a lender may pass on to the borrower in the collection of a FFEL loan, the cost of local and long-distance telephone calls, skip-tracing costs, credit bureau reporting costs, costs of preparing letters or notices, and collection firm charges.

Section 682.205 Disclosure Requirements

• The Secretary has deleted the requirement in proposed § 682.205(a)(1) that would have required a lender to secure the borrower's signed acknowledgement of the initial disclosure statement before disbursing loan funds. Current regulatory language, without the requirement of a signed statement, has been reinstated.

• Proposed § 682.205(b)(3) has been deleted in light of the deletion of § 682.215 resulting from the Secretary's decision not to prescribe in regulations a uniform Federal rule regarding borrower defenses.

Section 682.207 Due Diligence in Disbursing a Loan

• The Secretary has revised § 682.207(d)(2) of the proposed regulations to allow a lender to make a late disbursement within 60 days after the student ceases to be enrolled on at least a half-time basis or after the expiration date of the period of enrollment for which the loan was intended unless the guaranty agency prohibits late disbursements. The regulations also have been revised to allow a late disbursement to cover a student's documented educational expenses for costs normally included in a borrower's cost of attendance under section 472 of the Act rather than only outstanding institutional charges as proposed in the NPRM.

Section 682.208 Due Diligence in Servicing a Loan

• The Secretary has deleted the requirement in § 682.208(b) of the proposed regulations that would have required a lender to report the borrower's date of default to at least one national credit bureau as provided in section 430A(a)(2) of the Act. This task has been, and will continue to be, performed by the guaranty agency that pays the default claim.

• The Secretary has deleted the requirement in § 682.208(d) that required lenders offering graduated repayment to restrict to the first five years of repayment the period during which the lender may provide for graduated or income-sensitive payments.

Section 682.210 Deferment

• The Secretary has deleted the proposal contained in proposed § 682.210(a)(4)(ii) that permitted a lender to grant a borrower a deferment based on substantially complete documentation pertaining to the borrower's eligibility for a deferment. The final regulations permit a lender to grant a deferment based only on complete information and documentation that establishes the borrower's deferment eligibility.

• The Secretary has changed proposed § 682.210(h)(1)(iii), which specifies the requirements for an unemployment deferment, to define the circumstances under which a public or private employment agency's location is accessible. The Secretary has determined that such an agency is accessible to an unemployed borrower if the agency is located within a 50-mile radius of the borrower's permanent or temporary address.

• The Secretary has modified proposed § 682.210(m)(1)(iii) to permit a borrower to qualify for a deferment as a full-time paid volunteer for a tax-exempt organization as long as the borrower does not receive compensation that exceeds the Federal minimum wage. The proposed regulations would have required the borrower to earn less than the Federal minimum wage to qualify for this deferment.

Section 682.211 Forbearance

• The Secretary has revised the proposed section to permit lenders to grant forbearances to endorsers as well as to the student or parent borrower. Historically, the Secretary has encouraged lenders to extend forbearance to borrowers to prevent defaults. The Secretary believes that extending the forbearance provisions to an endorser who has agreed to make scheduled payments on behalf of the borrower but who temporarily is unable to do so because of personal circumstances will be equally effective in preventing defaults.

• The Secretary has added § 682.211(g) of the regulations to provide that a lender must grant forbearance of interest and principal to borrowers serving in medical internships or residencies whose eligibility for deferment under § 682.210(n) has expired. This revision implements section 428(C)(3)(A) of the Act as added by Public Law 101–239.

Section 682.215 Defenses to the Borrower's Obligation to Repay a FFEL Loan

• The Secretary proposed in § 682.215 to restrict sharply the instances in which borrowers could raise school-related defenses to repayment of a loan made by a bank or other third party. After considering the comments on this proposal and the Department's experience with litigation regarding this matter, the Secretary has determined that it is not desirable at this time to prescribe by regulation a uniform Federal rule regarding borrower defenses that would preempt State law otherwise applicable to FFEL program loans. In the Department's view, whether a defense to repayment of a FFEL program loan is available under State law depends on whether application of State law would frustrate accomplishment of the Federal objectives of the FFEL programs. This requires a case-by-case assessment of individual State laws.

In litigation, the Department has identified four kinds of State laws whose application would not frustrate the accomplishment of FFEL program policies; those State laws are, therefore, not preempted by Federal law. These are State laws that would make a lender subject to school-related defenses if—

(1) The lender had notice (actual or imputed) of substantial prior unresolved complaints about the school prior to making the loan at issue;

(2) The lender had delegated substantial loan-making functions to the school ("an origination relationship" under FFEL program regulations);

(3) The lender and school are corporate affiliates or are otherwise commonly controlled; or

(4) The lender paid a finder's fee or referral fee to the school with regard to the loan.

The Secretary recognizes that whether particular State laws are preempted ultimately must be decided by the courts and that Congress may enact a uniform Federal rule in the future. The Secretary considers the issuance of preemptive Federal regulations to be unwarranted at this time.

Subpart D—Guaranty Agency Programs

Section 682.401 Basic Program Agreement

- The Secretary has revised the proposed regulations to require a borrower to notify the holder of his or her loan, rather than the school, whenever there is a change in the borrower's employer or employer's address.
- The Secretary has revised the proposed regulations to allow a guaranty agency to consider a lender's prior experience in similar Federal, State, or private student loan programs in determining whether to permit the lender to participate in the guaranty agency's program.
- The Secretary has revised the proposed regulations to codify his policy that any transfer of loan guarantees between guaranty agencies may be done only with this approval unless it is a transfer sought by a borrower to secure a single guarantor for all of the borrower's FFEL program loans. The Secretary takes this position in light of the reinsurance implications for the affected agencies and the potential financial liabilities to the Department if such a transfer occurs.
- The Secretary has revised § 682.401(b)(15) to require that a loan may be assigned only if it is fully disbursed and to clarify to which entities a guaranty agency shall permit a loan to be assigned.
- The Secretary has revised the regulations to require that a guaranty agency must have a written agreement with each eligible lender in its program. As part of the President's initiative to reduce the Federal government's regulatory burden on the private sector, the Secretary and student loan industry representatives are participating in a task force sponsored by the Department of Treasury's Financial Management Service to develop a standardized lender agreement for use in the FFEL programs.
- The Secretary has revised the regulations to delete the requirement that a guaranty agency must submit forms to the Secretary for pre-approval prior to their use. Under the 1992 Amendments, the secretary is required to work with FFEL program participants to develop a common application form and promissory note and other common forms. Guarantee agencies will be required to use these forms when they are developed.
- The Secretary has revised the regulations to require that a guaranty agency must develop and implement appropriate procedures that provide for granting a student deferment as specified in § 682.210(a)(6)(iv) and § 682.210(c) (2) and (3). The Secretary expects agencies to require lenders to use these procedures.

Section 682.404 Federal Reinsurance Agreement

- The proposed regulations have been revised to incorporate provisions of the Omnibus Budget Reconciliation Act of 1990 (Pub. L. 101–508) that require the Secretary to pay guaranty agencies $50 for each account on which the agency performs supplemental preclaims assistance and for which a default claim is not filed by the 150th day after the loan becomes 120 days delinquent.
- The proposed regulations have been revised to require that the Secretary's equitable share of amounts collected on defaulted loans by guaranty agencies be forwarded to the Secretary within 45 days after the payment is received by the guaranty agency, or a collection agency acting on behalf of the guaranty agency, rather than within 30 days as proposed in the NPRM. These amounts normally are offset (subtracted) from amounts owed by the Secretary to guaranty agencies for reinsurance. Because reinsurance claims are processed monthly, the Secretary believes that it would be virtually impossible, using a 30-day deadline, for amounts received at the end of the month to be included on that month's reinsurance-claims submission.

Section 682.406 Conditions of Reinsurance Coverage

- The Secretary has reinstated the requirement in § 682.406(a) of the Department's current regulations that a lender's exercise of due diligence in making, disbursing, and servicing a loan is a condition of reinsurance. The Secretary did not intend to delete this requirement.

Subpart E—Federal Guaranteed Student Loan Programs

Section 682.515 Records, Reports, and Inspection Requirements for Federal Guaranteed Student Loan (GSL) Programs Lenders

- The Secretary has revised § 682.515(c), which governs lender inspections, to correspond to similar inspection requirements for guaranty agencies in § 682.414(c).

Subpart F—Requirements, Standards, and Payments for Participating Schools

Section 682.603 Certification by a Participating School in Connection With a Loan Application

- The Secretary has revised the regulations to require a school, if it becomes aware that a loan applicant is a member of a religious order, group, community, society, agency, or other organization, to determine if the organization meets the conditions of § 682.301(a)(2), which would make the applicant ineligible for Federal interest benefits on a Stafford loan. The school may rely on information provided by the applicant.
- The proposed regulations have been amended to reflect the Department's previous policy guidance establishing the minimum and maximum periods of enrollment for which a school may certify a FFEL program loan application.
- The regulations have been revised to specify that a school may not certify an SLS loan application for an undergraduate student after the school receives a notice from the Secretary, pursuant to § 668.15(i), that its cohort default rate for the most recent fiscal year is equal to or greater than 30 percent. This restriction does not apply to a student who is seeking an SLS loan to complete a program of study for which he or she previously received an SLS loan. A school may not extend the duration of a program of study to evade the consequences of this restriction.
- The regulations have been amended to prohibit a school from engaging in discriminatory practices when refusing to certify a FFEL program loan application.

Section 683.604 Processing the Borrower's Loan Proceeds and Counseling Borrowers

- The Secretary has deleted the reference in § 682.604(b)(ii) to a student notifying the school on or before the first day of classes that he or she will be delaying attendance. The Secretary has changed the regulations to allow the school to consider any student who begins attendance after the first day of the period of enrollment for which the loan is intended to have maintained eligibility for the loan from the first day of the period of enrollment. The Secretary has also deleted the 30-day time limit for the student to commence delayed attendance, but has modified § 682.604(d)(3) to provide that a school must return loan proceeds to the lender

no later than 30 days after the first day of the period of enrollment if the students does not register for the period of enrollment or does not begin attendance on a delayed basis prior to that date.

• The Secretary has revised § 682.604(d)(1)(ii)(B) of the proposed regulations to permit but not require a school to hold additional loan proceeds on behalf of a student to help the student manage his or her loan funds, if the student requests that help in writing.

• The Secretary has revised proposed § 682.604(d) (3) and (4) to provide that the school must return the loan proceeds to the lender no later than 30 days after the first day of the period of enrollment if the student fails to register or does not begin attendance. The NPRM would have provided the school with 60 days to return the loan proceeds.

• The proposed regulations have been revised to incorporate new section 428G(b)(1) of the Act (as added by Pub. L. 101–508) that provides that a school may not present the proceeds of the first installment of a loan made to any student who is a first-year, first-time FFEL borrower for endorsement until 30 days after the first day of the student's program of study.

• The regulations have been revised to provide that a school may not deliver a second or subsequent disbursement to a borrower who has ceased to be enrolled on at least a half-time basis unless the borrower has graduated or successfully has completed the period of enrollment for which the loan was intended.

• The regulations have been revised to allow a school to deliver to the borrower a Stafford or SLS disbursement issued in accordance with § 682.207(e). The school will be allowed to deliver a late disbursement, within 60 days after the earlier of (1) the end of the period of enrollment, or (2) before the end of the period of enrollment for which the loan was made but after the student ceased to be enrolled at the school on least a half-time basis, unless the lender or guaranty agency has informed the school that a late disbursement is not permitted.

• The regulations have been revised to provide that a PLUS loan, Consolidation loan, or a loan to a student attending a foreign school is not subject to the overaward provisions in § 682.604(h).

Section 682.605 Determining the Date of a Student's Withdrawal

• The Secretary has revised § 682.605(b) of the regulations, which establishes rules for determining the date of a student's withdrawal. If the student drops out without notifying the school, the school must determine the student's date of withdrawal no later than (1) 45 days after the expiration date of the academic term for a school with standard academic terms and (2) no later than 25 days after a student's last date of attendance for a school using clock hours or credit hours without standard academic terms.

Section 682.606 Refund Policy

• Section 682.606(c)(1)(i) of the regulations governing *pro rata* refunds has not been revised to include a change discussed in the preamble of the NPRM but inadvertently not included in the proposed regulations. The proposed change provided that the reasonable administrative fee a school could subtract from the *pro rata* refund could not exceed $100. However, this change will not be made because the 1992 Amendments include a definition of *pro rata* refund that permits the school to subtract the lesser of $100 or 5 percent of tuition, fees, room and board, and other charges assessed the student.

Section 682.607 Payment of a Refund to a Lender

• The Secretary has revised § 682.607(c) of the regulations, which specifies the deadlines for schools to make timely payments of refunds to lenders on behalf of borrowers, to conform to changes made in § 682.605(b) for determining the date of a student's withdrawal.

Appendix B—Student Status Confirmation Report

• The Secretary has modified appendix B to define the types of data mandated for use on the report to ensure standardized reporting of data.

Appendix D—Policy for Waiving the Secretary's Right To Recover or Refuse To Pay, Interest Benefits, Special Allowance, and Reinsurance on Stafford, PLUS, Supplemental Loans for Students, and Consolidation Program Loans Involving Lenders' Violations of Federal Regulations Pertaining to Due Diligence in Collection or Timely Filing of Claims [Dear Guaranty Agency Director Letter 88–G–138]

• The Secretary has modified Appendix D to impose a 3-year limit on a lender's option to cure due diligence violations on loans that have lost reinsurance coverage.

• The Secretary has modified Appendix D so that if a loan subject to § 682.411 has a gap of more than 45 days in collection activities, the due diligence violation may be cured by the receipt of a full payment or a signed repayment obligation from the borrower.

Analysis of Comments and Changes

In response to the Secretary's invitation in the NPRM, 313 parties submitted comments on the proposed regulations. An analysis of the comments and of the changes in the regulations since publication of the NPRM follows. Substantive issues and significant technical changes are discussed under the section of the regulations to which they pertain.

Section 682.200 Definitions

Endorser

Comment: Many commenters believed that the inclusion of the definition of "endorser" indicates that an endorser is "co-liable" or jointly liable and suggested that the term endorser be deleted.

Discussion: The definition of "endorser" is not intended to imply that an endorser is jointly liable on the borrower's FFEL. As indicated in the definition, the endorser agrees to repay the loan in the event the borrower fails to do so. In the event the endorser refuses to repay the loan, the endorser is in default at the end of the 180th day of delinquency.

Changes: None.

Comment: A number of commenters stated that the proposed definition of "endorser" makes an endorser a co-maker.

Discussion: The definition of "endorser" in current regulations states that the endorser is secondarily liable for the repayment of the loan. The definition was revised in the NPRM to state more clearly that the endorser is liable only in the event that the borrower does not repay the loan. The Secretary does not believe that this definition suggests that the endorser is a co-maker; the endorser is not a co-maker.

Changes: None.

Escrow Agent

Comment: Many commenters suggested that the Secretary change the proposed definition of "escrow agent." Some commenters suggested that the Secretary revise the proposed definition to include PLUS loans. Other commenters indicated that the Secretary's proposed definition was not specific and appeared to exceed the statutory provision providing that only guaranty agencies and eligible lenders may act as an escrow agent to transmit FFEL funds to the borrower or the borrower's school.

Discussion: The Secretary agrees with the commenters that the proposed definition should include PLUS loans among the types of loans that may be transmitted through an escrow agent. The Secretary also agrees that the definition of "escrow agent" should be clarified to indicate that only a guaranty agency or another eligible lender may act as an escrow agent.

Changes: A change has been made. In the final regulations, the Secretary has revised the definition of "escrow agent" to specify that only eligible lenders or guaranty agencies may act as an escrow agent and that these entities may transmit the proceeds of any FFEL program loan to the borrower or the borrower's school.

Estimated Financial Assistance

Comment: Several commenters noted that, to avoid double-counting, estimated financial assistance should not include veterans' educational benefit payments that are included in the need analysis as part of the student contribution. They also noted that, in addition to SLS and PLUS loans, the definition should be expanded to clarify that private and State-sponsored loans and nonsubsidized Stafford loans may be used to substitute for the expected family contribution (EFC).

Discussion: The 1992 Amendments have revised the definition of "estimated financial assistance" to include all veterans' benefits paid because of enrollment in an institution of higher education as well as veterans' education benefits as defined in section 480(c) of the Act. In the loan certification process, institutions currently are required to include as estimated financial assistance those veterans' benefits not included in the need analysis formula. The Secretary has decided that, because the changes made by the 1992 Amendments to exclude veterans benefits from the needs analysis formula do not become effective until July 1, 1993, veterans' benefits should not be included as "estimated financial assistance" until these changes are effective. In light of this change in the law, the Secretary does not believe it is appropriate to change the treatment of veteran's educational benefits as recommended by the commenters. This provision of the 1992 Amendments will be reflected in separate proposed and final regulations developed under the requirements of negotiated rulemaking. The Secretary agrees, however, that the definition should be revised to discuss private and State-sponsored loans and unsubsidized Stafford loans.

Changes: The definition has been revised to incorporate the statutory provision in section 428(a)(2)(E) of the Act that allows amounts received by a student from private and State-sponsored loans to substitute for the EFC and to reflect current policy that allows unsubsidized Stafford loans to be used in the same manner.

Comment: A few commenters disagreed with the proposed change to the definition of "estimated financial assistance" that would require schools to include as estimated financial assistance, Perkins loan or College Work-Study (CWS) awards that were offered to a student and declined, unless an award was declined for an acceptable reason. The commenters believe that the aid administrator should not be required to determine whether the student's declination is for an acceptable reason and that declined awards should not be included in the amount of estimated financial assistance.

Discussion: Current regulations require that the amount of assistance that has been or will be awarded to the student must be considered in determining estimated financial assistance. This amount includes all awards offered, even if declined by the student, regardless of the reason. In proposing the definition included in the NPRM, the Secretary acknowledged that there are certain limited circumstances in which a student should be allowed to decline a Perkins loan or CWS award and not have the amount included in the amount of estimated financial assistance used to determine the student's FFEL eligibility. The Secretary believes that these circumstances include, but are not limited to the following: A student declines a CWS award because he or she (1) is unable to work because of family responsibilities such as caring for an elderly parent or dependent child; (2) is carrying a heavy academic workload (perhaps as part of an accelerated program) or is at academic risk and therefore requires special tutoring or other remedial work; or (3) is already employed at a higher paying or an academically or a career-related job. In the case of a Perkins loan, the student may decline a small Perkins loan award to increase the student's eligibility for a Stafford loan and allow the student to avoid simultaneous repayment to multiple sources following completion of his or her program of study. The Secretary believes that excluding all awards declined by the student, as suggested by the commenters, would frustrate the goal of ensuring that students apply for all forms of assistance. Accordingly, the Secretary is adopting the NPRM proposal in the final regulations.

Change: None.

Full-Time Student

Comment: Several commenters suggested that the Secretary revise the proposed definition of "full-time student" to include a student enrolled at more than one school under a consortium agreement or under similar contractual arrangements.

Discussion: The Secretary wishes to clarify that a student who is enrolled in more than one school under a consortium agreement or similar contractual arrangement may be considered a full-time student based on the student's combined enrollment. The determination that the student is full-time must be made by the school from which the student is seeking a degree or certificate and must be made according to standards applicable to all students enrolled in the student's program of study. The Secretary does not believe, however, that a change in the definition of "full-time student" is necessary.

Change: None.

Grace Period

Comment: Several commenters suggested that the definition of "grace period" should be changed to define that term as the period that begins on the day after a Stafford loan borrower ceases to be enrolled on at least a half-time basis and end on the day before the repayment period begins. The commenters also suggested that using the term "participating school" in the definition rather than the term "eligible institution" would mean that a borrower who transfers to an otherwise eligible institution that has elected not to participate in the FFEL programs will use up his or her grace period even though pursuing a postsecondary education.

Discussion: The Secretary agrees that the commenters' suggested change to the definition more appropriately describes the length of the grace period. The Secretary also agrees with the commenters that requiring a student to be enrolled at a participating school rather than at an otherwise eligible institution could unnecessarily penalize the student by prematurely starting the grace period while he or she is still pursuing a postsecondary education.

Changes: The Secretary has revised the definition of "grace period" in the regulations to be the period that begins on the day after a Stafford loan borrower ceases to be enrolled as at least a half-time student at an eligible institution and ends on the day before the repayment period begins.

Half-Time Student

Comment: Several commenters recommended that the Secretary revise the definition of "half-time student" to permit a student enrolled in an eligible institution but not at a school participating in the FFEL programs to qualify for a student deferment. The commenters argued that requiring enrollment in a participating school penalizes a student who enrolls in an otherwise eligible institution that elects not to participate in the FFEL programs. They pointed out that such a student would be required to use his or her grace period and begin repayment on a FFEL program loan while still pursuing a postsecondary education.

Discussion: The Secretary understands the commenters' concerns. However, the Secretary notes that at least half-time enrollment is only one criterion for a "new" borrower, as defined in § 682.210(b)(7), to qualify for a student deferment. The other criterion is that the borrower has received a Stafford or SLS loan for the period of enrollment for which the deferment is sought. Therefore, a borrower enrolled on less than a full-time basis may not qualify for a student deferment unless the school is participating in the FFEL programs.

Changes: None.

Comment: Several commenters suggested that the definition specify that a student attending more than one school during an academic term under a consortium agreement or similar contractual arrangement may be considered to be a half-time student based on the student's combined enrollment.

Discussion: The Secretary wishes to clarify that a student may be considered to be enrolled half-time based on the student's combined enrollment at more than one institution under a consortium agreement or similar contractual arrangement. However, the Secretary does not believe that a change in the definition of "half-time student" is necessary.

Changes: None.

Holder

Comment: Many commenters suggested that the Secretary should revise the definition of "holder" to specify which entities may be holders of FFEL loans.

Discussion: The Secretary agrees with the commenters that the definition of "holder" should identify the entities authorized to hold FFEL loans.

Changes: A change has been made. The regulations have been changed to state that a holder is an eligible lender in possession of an FFEL loan note that is payable to, or has been assigned to, the lender, including a Federal or State agency or an organization or corporation acting on behalf of the agency and acting as a conservator, liquidator, or receiver of an eligible lender.

Lender

Comment: One commenter stated that the Act prohibits a lender from mailing unsolicited applications only to students and proposed that the prohibition against mailing unsolicited applications to a student's parents should be deleted. The commenter believes that the restriction should not apply to mailings to parents because it is not provided for in the statute and parents require less protection than students.

Discussion: The Secretary believes that an application that is sent to a student's parents is actually sent to the parents on behalf of the student and, therefore, the same protective measures provided for the student are also necessary for the parents. A lack of any restriction on unsolicited mailings to parents would create a loophole in the explicit statutory restriction on unsolicited mailings to students.

Changes: None.

Comment: Many commenters opposed the provision within the definition of "eligible lender" that would allow a lender to include home mortgages that it serviced, but did not hold, in the calculation of the lender's consumer-credit loan portfolio. The commenters indicated that a loan that is serviced, but not held by a bank, is not considered an asset of the bank for other purposes and, therefore, should not be considered an asset for FFEL program purposes.

Discussion: The Secretary has decided that mortgage loans that a lender services, but does not hold, should not be included in the calculation of a lender's primary consumer-credit function because they do not give a true indication of the receivables due the lender.

Changes: A change has been made. The definition of "eligible lender" has been revised to prohibit the inclusion of home mortgages that only are serviced by the lender in the lender's consumer-credit portfolio in determining whether FFEL loans exceed 50 percent of that portfolio.

Comment: Many commenters objected to the proposal in the definition of "eligible lender" that would examine a lender's net income to determine if FFEL program loans constituted the primary consumer-credit function of the lender. The commenters pointed out that using a net-income standard to determine if a lender's primary function is student loans could result in a lender inadvertently violating the standard due to events beyond the lender's control. These events might include a precipitous rise in interest rates or defaults in non-student loan areas that result in student loans representing the majority of the lender's profits.

Discussion: The Secretary agrees that using a net-income standard could result in the kind of inadvertent technical violations the commenters cite.

Changes: A change has been made. The use of the net-income standard to determine the lender's primary consumer-credit function has been deleted from the definition.

National Credit Bureau

Comment: Many commenters indicated that a credit bureau that operates in more than one State but only in a single region is not considered to be a national credit bureau under present reporting standards.

Discussion: The Secretary believes that the national credit bureau reporting requirements will be frustrated if reporting is restricted to a single region of the country. The Secretary agrees with the commenters that to satisfy the statute's intent, the definition must specify that a credit bureau operating in only one region is not a national credit bureau for FFEL program purposes.

Changes: A change has been made. The Secretary has changed the definition of "national credit bureau" in the final regulations to define a national credit bureau as one that operates in more than one region.

Origination Fee

Comment: A number of commenters suggested that the definition of "origination fee" should be modified to reflect the fact that lenders must pay this fee to the Secretary even if the fee is not charged to borrowers.

Discussion: Section 438 of the Act requires that the origination fee be paid by the lender regardless of whether the fee is assessed against the borrower.

Changes: A change has been made. The definition has been modified to reflect the requirement that lenders must pay the origination fee to the Secretary and may assess the fee against the borrower.

Parent

Comment: Many commenters recommended that the proposed definition be expanded to include a stepparent. These commenters believe that it is unfair to expect a stepparent to

contribute financially to a student's education and yet prohibit the stepparent from borrowing a PLUS loan on behalf of the student.

Discussion: "Parent" is defined in 34 CFR 668.2 as a student's natural or adoptive mother or father and, under limited circumstances, the student's legal guardian; this includes the legal definition of a stepparent. The Secretary believes the definition of "parent" for the PLUS program should be consistent with this definition.

Changes: A change has been made. The term "parent" is defined in 34 CFR 668.2 for title IV program purposes. Therefore, the definition has been deleted in the final FFEL program regulations.

Period of Enrollment

Comment: Several commenters recommended that this term be defined to codify current policy. The commenters argued that it is necessary to define this term in regulations because guaranty agencies do not define the term consistently. The commenters indicated that schools need guidance to correctly certify FFEL program loan applications.

Discussion: The Secretary agrees with the commenters.

Changes: The Secretary has revised the final regulations to define the term "period of enrollment" as the period for which a Stafford, SLS, or PLUS loan is intended. The period of enrollment must coincide with a *bona fide* academic term established by the school for which institutional charges are normally assessed.

Post-Deferment Grace Period

Comment: One commenter recommended that the proposed definition be expanded to specify that the borrower is eligible for only one post-deferment grace period regardless of the number of times the borrower qualifies for an unemployment deferment.

Discussion: The Secretary believes this change is unnecessary.

Changes: No change has been made to the definition. However, the Secretary has revised § 682.210(a)(2)(ii) to include the restriction.

Repayment Period

Comment: One commenter suggested that the term "repayment period" be defined clearly as the term is used frequently throughout the regulations.

Discussion: The Secretary agrees with the commenter that it would be helpful to include a definition of this term that is consistent with § 682.209(a). Moreover, the 1992 amendments have defined when the repayment period begins in each of the FFEL programs.

Changes: The final regulations have been revised to reflect the change made to the Act by the 1992 Amendments. The repayment period for a Stafford loan is now defined as the period beginning the day following the expiration date of the grace period and ending no later than 10 years from that date. For an SLS loan, the repayment period is defined as the period that begins on the date of the last disbursement of the loan and ends no later than 10 years from that date. For a PLUS loan, the repayment period begins on the date the loan is disbursed and ends no later than 10 years from the beginning date of the repayment period. For a Consolidation loan, the repayment begins on the date the loan is disbursed and ends no later than 12, 15, 20, 25, or 30 years from the beginning date of the repayment period, depending upon the sum of the amount of the Consolidation loan and the unpaid balance on other student loans. Corresponding changes have been made in § 682.209(a). Any period of deferment or forbearance is not included in the statutory maximum repayment period.

School

Comment: One commenter suggested deleting the phrase "public or private nonprofit" from the definition. The commenter pointed out that this phrase was unnecessary because the definition of institution of higher education contained in 34 CFR part 600 contained this element.

Discussion: The Secretary agrees with the commenter that it is unnecessary to include this phrase.

Change: The phrase "public or private nonprofit" has been deleted from the definition.

Comment: One commenter objected to including a hospital or health care facility in the definition of "school." The commenter believes that attendance in a program of study at such a facility is approved only for deferment purposes.

Discussion: The 1992 Amendments repealed the definitions of "institution of higher education" and "vocation school" in sections 435 (b) and (c) of the Act. The definition of "institution of higher education" is now in section 481 of the Act and does not include hospital and health care facilities. Therefore, the Secretary now agrees with the commenter that the reference to hospitals and health care facilities should be deleted.

Changes: The reference to a hospital or health care facility has been deleted from the definition of "school."

Comment: Many commenters suggested that the Secretary revise the proposed definition of "promote the availability" as it relates to the definition of "school" as a way to prevent commissioned salespersons from providing application forms or other FFEL loan information to enrolled students as well as to prospective students.

Discussion: The Secretary agrees that enrolled students should receive the same protection from commissioned salespersons promoting the availability of FFEL loans that prospective students receive.

Changes: A change has been made. The Secretary has revised the final regulations to prevent a commissioned salesperson from promoting the availability of FFEL loans to enrolled students.

Comment: A few commenters objected to the proposed expansion of the prohibition on activities of commissioned salespersons. The commenters argued that the proposed language would prevent commissioned salespersons from providing a school catalog to a prospective student because the catalog contains information on student financial aid, including the FFEL programs.

Discussion: The Secretary does not intend to prevent commissioned salespersons, as part of their recruitment activities, from distributing school catalogs that may contain general information regarding student financial aid. The Secretary believes, however, that the proposed language is needed to restrict commissioned salespersons from activities such as providing individuals with financial aid applications, assisting them with the completion of the applications, and assisting them with other aspects of the aid application process.

Change: None.

Temporarily Totally Disabled

Comment: Many commenters suggested that the 90-day time period for which a borrower must be unable to work, earn money, or attend school resulting from an injury or illness was unreasonably long. The commenters suggested that a 30-day time period was more equitable.

Discussion: The Secretary agrees that the proposed minimum 90-day period that a borrower must be totally disabled to satisfy the definition of "temporarily totally disabled" may be too long. The Secretary proposed this standard to be consistent with the 90-day period, required by section 435(g)(2) of the Act, to qualify for a deferment based on the disability of a dependent. The Secretary

agrees that the impact of a borrower's totally disabling condition on his or her ability to repay a FFEL program loan might be much more immediate than the financial impact of a borrower's dependent's disability. However, the Secretary believes that 30 days is too short a period of time, because the borrower would not have yet missed a payment by the close of a 30-day period.

Changes: A change has been made. The Secretary has reduced from 90 days to 60 days the minimum time period that a borrower must be temporarily totally disabled to qualify for the temporarily totally disabled deferment.

Comment: A number of commenters suggested that the phrase "but not for a period of more than three years" be added at the end of the definition of "temporarily totally disabled". The commenters said this should be done to provide a limit to the temporarily totally disabled deferment that was consistent with the statutory deferment provisions.

Discussion: The Secretary does not agree that the three-year maximum should be included with the definition. That limitation is codified in 34 CFR 682.210(b)(1)(iv). In addition, because the criteria for a borrower to be considered temporarily totally disabled differs from the criteria necessary for the borrower to receive a deferment based on the condition of the borrower's spouse or dependent, to include the three-year maximum in the definition could cause unnecessary confusion. For example, the period for which a borrower may receive a deferment based on his or her own total temporary disability, is limited to a reasonable period to recover from an injury or illness up to 3 years. However, a total temporary disability deferment based on a spouse's or dependant's condition is contingent only upon whether the condition is such that the spouse or dependent "during a period of injury or illness of not less than 3 months, requires continuous nursing or similar services." See section 435(g)(2) of the Act.

Changes: None.

Totally and Permanently Disabled

Comment: Many commenters objected to the Secretary further restricting the conditions under which a borrower may receive a loan repayment cancellation by incorporating the phrase "or attend school" in the definition of "totally and permanently disabled."

Discussion: The Secretary does not believe that the phrase "or attend school" further restricts the conditions to receive a loan repayment cancellation for a borrower who is totally and permanently disabled. The Secretary notes that section 435(g) of the Act defines "temporarily and totally disabled" as an individual who is unable to work or attend school. The Secretary does not believe it was the intent of Congress to allow loan cancellations to be based on less restrictive requirements than those required by statute to receive such a deferment.

Changes: None.

Undergraduate Student

Comment: A few commenters recommended that the Secretary redefine the term "undergraduate student." The commenters recommended deleting the phrase "designed to lead to a first degree" because they believe it might be misinterpreted. They pointed out that a baccalaureate degree could be a second degree for a student who previously received an associate's degree and that a student seeking a second baccalaureate degree is still considered to be an undergraduate student. Another commenter objected to considering a student in "any other length program" as an undergraduate student only for the first four academic years. The commenter was concerned that students enrolled in short-term vocational programs would be considered graduate students if they were enrolled for more than four of the school's academic years. The commenter also pointed out that a student who took longer than four years to complete a baccalaureate degree would be considered a graduate student after the fourth year.

Discussion: The Secretary agrees with the commenters that the proposed definition may be misinterpreted. The Secretary did not intend that a student enrolled in a succession of short-term vocational programs that extend beyond four of the school's academic years be considered a graduate student. The Secretary also did not intend that a program of study at or below the baccalaureate level that is designed to lead to a degree or certificate at or below the baccalaureate level could be considered a graduate program. The Secretary also agrees that the language "leads to a first degree" also lends itself to differing interpretations. The Secretary intends that a student enrolled in a second baccalaureate degree program or in a first baccalaureate degree program following completion of a certificate, diploma, or associate's degree program be considered an undergraduate student.

Changes: The definition of "undergraduate student" has been revised to include a student who is enrolled at a school in a program of study at or below the baccalaureate level that is designed to lead to a degree or certificate at or below the baccalaureate level and that normally is completed in four academic years or less.

Section 682.201 Eligible Borrowers

Section 682.201(a)

Comment: Many commenters believed that since proposed § 682.201(a) did not expressly state that a borrower must provide his or her social security number as a condition for Stafford or SLS loan eligibility, a social security number no longer was required. The commenters indicated that without a social security number, their skip-tracing, credit-bureau reporting, and other collection activities would be impaired significantly.

Discussion: Although proposed § 682.201(a) does not expressly require a borrower to provide his or her social security number as an eligibility requirement for a Stafford or an SLS loan, it does require that the borrower meet the eligibility requirements contained in 34 CFR part 668. The provisions of 34 CFR 668.32(a)(1) require the borrower to report his or her social security number to the lender on the statement of educational purpose. The Secretary does not believe that it is necessary to repeat this requirement in the FFEL program regulations as it is required in the regulations governing all the student financial assistance programs authorized under title IV of the Act.

Changes: None.

Section 682.201(a)(2)

Comment: Many commenters objected to including incarcerated students in § 682.201(a) as eligible borrowers. The commenters argued that due to the difficulty involved in working with correctional institutions to acquire an "unconditional release date," all of those students should be ineligible until they no longer are incarcerated. Several commenters also noted that incarcerated borrowers are likely to encounter difficulty locating employment, thus making it unwise, and not in the best interest of the FFEL programs, to make loans to those students.

Discussion: The 1992 Amendments now prohibit incarcerated students from receiving title IV student loans.

Changes: The provision providing for the eligibility of incarcerated students has been deleted.

Section 682.201(a)(3)

Comment: Several commenters suggested that the Secretary amend the requirement that a borrower have his or her need for a Stafford loan determined,

and if determined to have need file an application for a Stafford loan, before being determined eligible for an SLS loan. The commenters recommended that the Secretary codify policy guidance provided in Dear Colleague Letter GEN–88–34 that exempted from this requirement borrowers who have need of less than $200.

Discussion: The Secretary agrees with the commenters that an applicant for an SLS loan should not be required to file an application for a Stafford loan if the borrower has need of less than $200. The Secretary believes this exemption is consistent with section 428(j) of the Act, which provides that a lender of last resort is not required to make a Stafford loan to a borrower who has need of less than $200.

Changes: A change has been made in what now appears as § 682.201(a)(2) of the regulations. The Secretary has revised the definition of "eligible borrower" to provide that a borrower who has need of less than $200 is not required to file an application for a Stafford loan before applying for an SLS loan.

Section 682.201(a)(4)

Comment: Many commenters suggested that the Secretary define or itemize the exceptional circumstances under which a dependent undergraduate student's parents are likely to be precluded from borrowing under the PLUS program as a way to determine whether the student is eligible for an SLS loan.

Discussion: The Secretary believes that a restrictive list of the criteria for determining a dependent undergraduate student's eligibility for an SLS loan should not be included in the regulations because exceptional circumstances might arise that are not covered by the regulations. The Secretary believes that the most equitable way to administer this provision is by providing examples of exceptional circumstances in the regulations while giving the financial aid administrator the discretion to determine, on a case-by-case basis, if other equally acceptable exceptional circumstances exist. Examples of exceptional circumstances include, but are not limited to (1) situations in which the parent is denied a PLUS loan because the parent receives public assistance; (2) the parent is totally and permanently disabled and receives only disability benefits as income; (3) the parent is incarcerated; or (4) the parent is unable to borrow because his or her whereabouts are unknown. Under no circumstances may a financial aid administrator certify a dependent undergraduate student for an SLS loan if the student's parents refuse to borrow a PLUS loan and no exceptional circumstances exist.

Changes: A change has been made in what now appears in § 682.201(a)(3) of the regulations. The Secretary has revised the regulations to incorporate examples of exceptional circumstances that may be used to determine a dependent undergraduate student's eligibility for an SLS loan.

Section 682.201(a)(5)

Comment: Several commenters objected to the proposal to require, as a condition to receive additional FFEL program loans, that a borrower reaffirm a FFEL debt that previously was canceled due to the borrower's total and permanent disability or was discharged in bankruptcy. These commenters suggested that a person who had become disabled may need additional training to be able to secure gainful employment. They also believe the policy was inconsistent with the "fresh start" principle of consumer bankruptcy and the reaffirmation procedures in section 524 of the Bankruptcy Code. The commenters suggested that a borrower who had his or her loan discharged in bankruptcy on grounds of hardship may need to return to school to acquire the skills necessary to secure gainful employment and that forcing the individual to reaffirm prior debts would be a disincentive to returning to school.

Discussion: The Secretary believes that the requirement that a borrower reaffirm a FFEL debt previously canceled is consistent with the principles underlying 34 CFR 668.7(a)(7) regarding the eligibility of defaulted borrowers—e.g., that a borrower who has not satisfied a previous FFEL debt, for whatever reason, should not receive new loans. Furthermore, the Secretary believes that a borrower who has benefitted from having all or part of a loan unilaterally written-off by the Secretary or a guaranty agency should be required to reaffirm the written-off debt before receiving additional Title IV loans.

Changes: A change has been made in what now appears in § 682.201(a)(4) of the regulations. The regulations have been revised to include a provision to require a borrower to reaffirm any FFEL program debt previously written off before receiving additional FFELs.

Section 682.201(c)

Comment: One commenter suggested that the Secretary revise the criteria under which a loan may be consolidated in a Consolidation loan. The commenter suggested that a borrower be allowed to consolidate a loan that is more than 90-days delinquent at the time the Consolidation loan is made rather than requiring that a loan not be more than 90-days delinquent at the time of application for the Consolidation loan. Another commenter recommended that the Secretary permit a borrower who is more than 90-days delinquent on a loan to borrow under the Consolidation loan program to prevent default. The commenter suggested offering this option to borrowers as part of the supplemental preclaims assistance (SPA) effort.

Discussion: The Secretary's proposed regulations governing Consolidation loan eligibility in § 682.201(c) were consistent with former section 428C(a)(3)(A)(ii) of the Act, which stipulated that, to be eligible for loan consolidation, a borrower may not be more than 90-days delinquent on a loan to be consolidated at the time the borrower submits an application for a Consolidation loan. However, the 1992 Amendments changed section 428C(a)(3)(A)(ii) of the Act to delete the "90-day delinquent" provision and provide for the eligibility of a delinquent or defaulted borrower who will re-enter repayment through loan consolidation.

Changes: The regulations have been revised to reflect the change in the definition of eligible borrower for Consolidation loans made by the 1992 Amendments.

Section 682.202—Permissible Charges by Lenders to Borrowers

Comment: One commenter suggested that the Secretary eliminate the words "by lenders" in the title because interest may be charged, interest may be capitalized, and late charges or collection charges or both may be assessed by a guaranty agency after it pays a default claim on a loan. The commenter stated that it would be useful to make the agency's authority to assess these charges explicit in the title of this section.

Discussion: The Secretary does not agree that the title of this section of the regulations should be revised so as to clarify a guaranty agency's authority to assess a borrower these charges because not all the costs listed in the regulations (i.e., origination fees and refinancing fees) are charged by guaranty agencies. The Secretary also believes that an agency's authority to assess collection charges and capitalize interest are adequately addressed elsewhere in the regulations.

Changes: None.

Section 682.202(a)

Comment: Many commenters suggested that the interest rate on a Stafford loan with an 8 percent interest rate should increase to 10 percent under proposed § 682.202(a)(1)(i)(D) if a default claim is paid on the loan after the repayment period begins but before the 4-year period elapses that dictates when the interest rate changes to 10 percent.

Discussion: Section 427A(d) of the Act only authorizes a change in the interest rate at the end of four years after the beginning of repayment, even if a default claim has been paid on the loan.

Changes: None.

Comment: Many commenters suggested that § 682.202(a)(5) of the NPRM should be modified to reflect that lenders may charge an actual interest rate on a Consolidation loan that is lower than the interest rate calculated under section 428C of the Act.

Discussion: The NPRM appears to prohibit a lender from charging a lesser interest rate than the interest rate calculated under section 428C of the Act. However, section 427A(f) of the Act clearly states that a lender may charge a lesser rate than the one specified in section 428C of the Act.

Changes: A change has been made. The regulations have been revised to clarify that a lender may charge a lower interest rate on a Consolidated loan than the rate specified in section 428C of the Act.

Comment: Many commenters suggested that a provision should be added to the regulations for variable interest rate loans that are based on the 91-day Treasury bill rate plus 3.25 percent that changes each January 1.

Discussion: A number of variable interest rate PLUS and SLS loans made after the enactment of the 1986 Amendments but before the enactment of the Technical Amendments remain subject to a calendar-year adjustment of the variable interest rate based on the 91-day Treasury bill method that existed in section 427A(c)(4) of the Act during this period. Such a loan remains subject to this variable-rate adjustment, as stated in the borrower's promissory note, for the life of the loan unless the borrower chooses to refinance under the current interest rate provisions. If a borrower whose interest rate changes each January 1 refinances his or her loan, that loan may not revert back to the interest rate provisions applied to the borrower's original loan.

Changes: A change has been made. The final regulations have been revised to reflect the interest rate provisions for those borrowers whose interest rates change each January 1.

Comment: A number of commenters noted that the 12 percent ceiling on variable interest rate PLUS and SLS loans was not mentioned in the proposed regulations.

Discussion: The Secretary agrees with the commenters that the provisions of section 427A(c)(4) of the Act related to the variable interest rate ceiling for PLUS and SLS loans should be included in the regulations.

Changes: A change has been made. The final regulations will clarify that a 12 percent ceiling applies to variable-rate PLUS and SLS loans. The Secretary has also amended the regulations to reflect the new variable interest rate ceilings of 10 percent for PLUS loans disbursed on or after October 1, 1992 and 11 percent for SLS loans disbursed on or after October 1, 1992, resulting from the 1992 amendments.

Section 682.202(b)

Comment: Many commenters suggested that the regulations should be modified to provide for the capitalization of interest from the beginning of the repayment period until the first payment due date when the lender receives late notification that the borrower has dropped below half-time enrollment. The commenters also suggested that the regulations permit capitalization of interest accruing on SLS loans during periods of student deferment and on nonsubsidized Stafford loans during periods of student deferment and during the grace period if the borrower agreed to make payments but (1) failed to do so, and (2) failed to respond to a notice of delinquency stating that the lender plans to capitalize the interest accruing during the remainder of the deferment period.

Discussion: Previous guidance from the Department in Dear Guaranty Agency Director Letter 88–G–138 and Dear Colleague Letter 90–G–175 allowed lenders to capitalize interest in these instances. Many program participants have adopted these practices. While the Secretary remains concerned about the effects of capitalization on borrowers, the Secretary agrees that a borrower's failure to honor his or her obligation to make a promised payment or to respond to a delinquency notice sent by the lender warrants this approach.

Changes: A change has been made. Section 682.202(b) has been modified to reflect the Department's decision to permit lenders to capitalize interest under these circumstances.

Section 682.202(c)(4)

Comment: Many commenters suggested that the phrase "the portion of loan proceeds which are" be deleted and replaced with the phrase "any full disbursement". The commenters argued that the proposal does not agree with earlier guidance provided by the Department in a Dear Colleague letter. They believe the suggested change will ensure that only full disbursements returned to the lender or not delivered to the borrower will trigger a refund of origination fees.

Discussion: The Secretary agrees with the commenters. Guidance provided by the Department in Dear Colleague Letter Gen–90–93, Q&A 78, stated that if an institution negotiated the original loan check because the student was eligible for a portion of the original disbursement, the lender was not required to refund the amount of the origination fee attributable to the portion of the loan returned to the lender for which the student is no longer eligible. If the student is ineligible for the entire amount disbursed or the institution otherwise chooses to return the original loan check and request a revised check, the lender must refund the amount of the insurance premium and origination fee that is attributable to the amount of the loan for which the student is no longer eligible to the student's account.

Changes: A change has been made in the final regulations in what is now § 682.202(c)(5) to reflect the guidance provided in Dear Colleague Letter Gen–90–93, Q&A 78.

Section 682.202(e)

Comment: A few commenters suggested changing "a lender" to "any lender" to prevent misinterpretation of the one-time refinancing fee. The commenters believe this clarification is necessary because there may be more than one lender involved in refinancing.

Discussion: The Secretary does not believe that the regulations preclude a lender, or more than one lender, from charging a borrower a $100 fee for separate refinancing transactions. For example, if a borrower refinances different loans through the same lender over a period of years, the lender may charge the borrower a fee for each refinancing transaction. Similarly, if a borrower refinances different loans through different lenders, each lender refinancing a loan for the borrower may assess the borrower the $100 fee. The regulations permit only the lender refinancing the loan to charge the borrower the fee.

Changes: None.

Section 682.202(g)

Comment: Several commenters objected to proposed § 682.202(g),

which would permit lenders to require borrowers to pay the costs normally associated with routine collection activities.

Discussion: The Secretary agrees with the commenters. The Secretary expects lenders to cover the routine collection costs associated with preparing letters and notices or with making local and long-distance telephone contact with the borrower through earnings made on the loans. The Secretary will allow only extraordinary costs, such as telegrams, attorney's fees, and court costs to be passed along to the borrower.

Changes: A change has been made. The final regulations have been revised to contain the same language as current regulations except for the addition of a reference to long-distance telephone calls, which the Secretary believes are routine collection costs.

Section 682.204 Maximum Loan Amounts

Comment: Several commenters asked the Secretary to clarify that annual loan amounts for a Stafford loan borrower are based on the borrower's academic standing in the program in which he or she currently is enrolled.

Discussion: The Secretary agrees with the commenters. If a borrower has received a baccalaureate degree and then subsequently enrolls in a second baccalaureate program, that borrower is eligible only for $2,625 annually until he or she is considered a third-year student in the second program.

Changes: The regulations have been revised to reflect that the Stafford loan annual amounts are based on the borrower's academic standing in the program in which he or she is currently enrolled.

Comment: A few commenters recommended that "a borrower" should be revised to "each borrower" in § 682.204(c) to clarify that the PLUS annual loan limit does not restrict a parent from borrowing for more than one dependent.

Discussion: The Secretary agrees with the commenters' recommendation. The Secretary also notes that the 1992 Amendments repealed the annual and aggregate limits on the amount a parent may borrow in the PLUS programs, for loans on which the first disbursement is made on or after July 1, 1993.

Changes: The regulations have been revised to clarify that a parent may borrow up to $4,000 for each dependent student in the family for any academic year and up to a total of $20,000 for each dependent student.

Comment: A number of commenters recommended deleting the provision to attribute Consolidation loan amounts to the borrower's Stafford, SLS, and PLUS loan maximums in proportion to the amounts of the underlying loans consolidated. They indicated that neither lenders nor guarantors could be expected to track this data. They argued that it is unreasonable to expect borrowers to keep track of the information and report it to subsequent FFEL lenders. Furthermore, they believe no enforcement mechanisms exist for carrying out this provision.

Discussion: The Secretary disagrees. The Secretary believes that lenders are able, through the certified statement provided by other lenders during the consolidation process, to determine the amounts of underlying loans that have been consolidated. Guaranty agencies must require their lenders to submit data that allows the agency to track a borrower's aggregate loan amounts, in accordance with section 428C(a)(3)(B)(ii) of the Act and these regulations. A guaranty agency's ED form 1130 report submissions will be subject to review by the Secretary to ensure compliance with this provision.

Changes: None.

Section 682.205 Disclosure Requirements for Lenders

Comment: Some commenters suggested that this section be modified to prohibit lenders from charging the borrower for the costs incurred in making required disclosures concerning the loan.

Discussion: Lenders are required to make certain disclosures to borrowers before they enter repayment. However, the cost of making these disclosures is considered a normal cost of doing business and may not be charged to the borrower under § 682.202 and is prohibited under § 682.205(d).

Changes: None.

Section 682.205(a)(1)

Comment: Commenters overwhelmingly objected to the requirement that a borrower must provide the lender with a written acknowledgement of his or her receipt and understanding of the disclosure information that the lender is required to provide the borrower before the lender may disburse the loan. The commenters believe that imposing this additional step after the lender provides the required disclosure information and before the loan disbursement is made will be extremely burdensome for the school, the lender, and the borrower. They argued (1) that the requirement would impose another item for lenders to monitor; (2) that borrowers' signed acknowledgements would not be received in a timely fashion, which would result in the expiration of loan guarantees and requiring borrowers to reapply; and (3) that students' and schools' receipt of loans would be delayed significantly. School commenters noted that the terms and conditions and other information related to the loan are reviewed with new borrowers during the required initial counseling prior to delivery of the loan proceeds and that this provides the borrower with an opportunity to cancel the loan.

Discussion: The Secretary understands that requiring a signed acknowledgement of the initial disclosure prior to loan disbursement could seriously impede the delivery of student loans and frustrate the goal of electronic funds transfer, which the Secretary supports. The Secretary also agrees that confirmation of a borrower's understanding of the terms and conditions of the loan prior to the borrower incurring the debt can be handled successfully during required initial counseling.

Changes: The Secretary has deleted the proposal to require the borrower to provide the lender with a signed acknowledgement of the initial disclosure.

Section 682.205(a)(2)(xvii)

Comment: Some commenters suggested that paragraph (a)(2)(xvii) should specify that the use of a reference table of estimated repayment amounts in disclosing an estimate of a borrower's projected monthly payment is acceptable as stated previously by ED.

Discussion: The Secretary agrees with the commenters that this paragraph should codify existing policy guidance provided in Dear Colleague Letter 86–G–97 that allows a table to be used in disclosing a borrower's estimated cumulative monthly payment.

Changes: A change has been made. The regulations have been revised to adopt this suggestion.

Section 682.205(b)(3)

Comment: A number of commenters suggested that the language of this provision regarding the statement of borrower's rights and responsibilities is misleading and could be construed to imply that borrowers need not repay loans made by school lenders.

Discussion: The Secretary agrees with the commenters.

Changes: The Secretary has deleted that language to prevent any potential misunderstanding regarding the repayment obligation of borrowers.

Section 682.205(d)

Comment: One commenter recommended retaining the language from current § 682.205(c) that requires the lender to provide the information that is required to be disclosed by this section at no cost to the borrower.

Discussion: The Secretary agrees with the commenter that this information should be provided to the borrower without charge.

Changes: Current § 682.205(c) has been restored to the regulations as § 682.205(d).

Section 682.206 Due Diligence in Making a Loan

Section 682.206(a)(1)

Comment: Some commenters suggested that § 682.206(a)(1) assumes that there must be a separate application or promissory note or both for each period of enrollment for which FFEL program loan funds are sought. They believe this approach would preclude the possible use of a single, open-ended promissory note for a borrower's entire undergraduate and graduate loan maximum, the use of the Application for Federal Student AID (AFSA) and other approved aid applications, and the use of electronically submitted application data to guarantee and disburse loans. The commenters objected to any regulatory restrictions that would prevent establishing new processing procedures to reduce the administrative burden on applicants, schools, lenders, and guarantors.

Discussion: The Secretary does not believe that this section precludes the possible use of a single application or promissory note or both or the use of electronically transmitted data. The Secretary actively encourages examination of the use of any approach that may streamline and improve the student aid delivery system. In working with the community in the development of common forms, the Secretary will examine the use of electronically submitted data, as well as other concepts.

Changes: None.

Section 682.206(b)

Comment: One commenter suggested adding a new provision prohibiting a lender, school, or guaranty agency from obtaining a borrower's power of attorney to complete a FFEL loan application on behalf of the borrower. The commenter argued that it is unreasonable to expect a student to understand the rights and obligations of a borrower of a FFEL program loan if the school or another party completes the application or promissory note.

Discussion: The regulations prohibit the use of a power of attorney to endorse a loan check or to approve the transfer of loan proceeds to the borrower's account using electronic funds transfer unless the borrower is enrolled in a study-abroad program approved for credit at the home institution at which the student is enrolled. See § 682.207(b)(2). The Secretary believes that this restriction provides sufficient protection for the borrower. The Secretary also believes that the use of power of attorney to complete an application or promissory note is useful for the student in some circumstances and should not be totally precluded. For example, power of attorney was used extensively for completing applications by borrowers serving in Operation Desert Shield or Operation Desert Storm.

Changes: None.

Section 682.206(c)

Comment: Several commenters recommended that § 682.206(c) of the regulations be revised to specify that in determining a borrower's eligibility for a loan amount, the lender may not approve a loan for more than the borrower requests or shows financial need, for, or the annual loan maximum. The commenters cited many instances of borrower requests for loans less than the annual loan maximum being ignored. They also believe that it should be emphasized that the lender is responsible for monitoring the borrower's approved loan amount based on the borrower's remaining financial need and annual loan maximums. The commenters believe this is particularly critical in processing multiple applications for a borrower during a given academic year and in light of the format of many loan applications.

Discussion: The Secretary agrees that a lender must follow the borrower's instructions regarding the loan amount as requested. The Secretary believes that, although it is the school's primary responsibility as part of the certification process to monitor a borrower eligibility based on annual and aggregate loan maximums, the lender also has a responsibility in making a loan to ensure that a borrower does not receive loan proceeds in excess of the annual and aggregate maximums.

Changes: A new section has been added to the regulations to specify that a lender may not approve a loan amount that is more than the borrower requests or qualifies for based on unmet financial need or annual loan maximums.

Comment: One commenter stated that this section assumes that all schools certify Cost of Attendance and Estimated Financial Assistance on a paper application form that is submitted to the lender. The commenter pointed out that in a number of automated application processes already in place, the data information is transmitted electronically by the school. The commenter recommended that the first sentence of the section be revised to require the lender to review data on the student's cost of attendance and estimated financial assistance provided by the school. Another commenter noted that in many application processing systems the guaranty agency, rather that the lender, receives the data *via* paper application or electronic transmission. The guaranty agency is the party that reviews the data to determine the loan amount based on annual and aggregate loan limits before issuing a guarantee and notifying the lender. The commenters recommended revising this provision of the regulations to allow the lender or guaranty agency to fulfill this function.

Discussion: The Secretary agrees with the commenter that the regulations should reflect the use of electronic data transmission in the application process. The Secretary also understands that in some application-processing systems the guaranty agency reviews the data before issuing a guarantee. The Secretary does not intend, through the regulations, to preclude a guaranty agency from operating in this manner on behalf of lenders. However, the lender is responsible for reviewing the application and determining the loan amount pursuant to § 682.206 of the regulations. In the situation described by the commenters, the guaranty agency acts as the agent of the lender in its receipt and review of application data and its determination of borrower eligibility. Therefore, the Secretary does not believe that the regulations should be changed to refer to guaranty agencies specifically.

Changes: The regulations have been changed to clarify that applicant and loan certification data may be provided electronically.

Section 682.206(e)

Comment: Many commenters opposed the requirement in the proposed regulations that prohibited a guaranty agency from requiring cosigners for a Stafford or SLS loan. The commenters noted that nothing in the Act supported such a prohibition.

Discussion: The Secretary agrees with the commenters.

Changes: The prohibition against a guaranty agency requiring a lender to obtain security or endorsement on a

Stafford or SLS loan has been deleted from the final regulations.

Section 682.207 Due Diligence in Disbursing a Loan

Section 682.207(b)(1)(i)(B)

Comment: A commenter suggested that regulations governing loan disbursement should require the lender to comply with the disbursement schedule provided by the school or with the recommended disbursement dates provided by the school for a particular borrower on the loan application.

Discussion: Under section 428G(c)(1) of the Act, the lender must follow the disbursement schedule provided by the school under section 428(a)(1)(A)(i)(III).

Changes: The regulations have been revised to provide that a lender must disburse a Stafford or SLS loan in accordance with a disbursement schedule provided by the school.

Section 682.207(b)(1)(ii)(A)

Comment: One commenter suggested that all FFEL checks should be co-payable, including PLUS. The commenter believes that the school should have the opportunity to verify the eligibility of the student on whose behalf a parent is borrowing a PLUS loan before the parent receives the loan proceeds.

Discussion: As a result of the 1992 Amendments, section 428B(c) of the Act now requires that PLUS checks be made co-payable to the borrower and the school. However, in regard to the other FFEL programs, section 428(b)(1)(N) of the Act prohibits the Secretary from requiring co-payable checks.

Changes: The regulations have been revised to require PLUS checks to be made co-payable to the borrower and the school.

Comment: Many commenters supported the Secretary's deletion of the phrase "other written approval" from the regulations because they believe it is ambiguous. One commenter supported the deletion of the phrase and also noted that this paragraph allows co-payable checks only if the guarantor requires co-payable checks. The commenter recommended that since many lenders make loans guaranteed by more than one guarantor, it may be more appropriate to allow the co-payable decision to be made by the lender rather than the guaranty agency. Several other commenters asked whether the deletion of "or other written approval" would prevent delivery of the borrower's loan process through the use of direct deposit of a borrower's loan funds.

Discussion: The Secretary notes that the deletion of the phrase "or other written approval" would prevent the delivery of loan proceeds through the use of direct deposit into a borrower's account at a financial institution because the borrower's signature on a direct deposit form does not constitute a personal endorsement. Because the Secretary believes that the use of the direct-deposit delivery mechanism is important for borrowers who are attending classes at another institution under an agreement with the borrowers' home institution, he has decided to revise the regulations to include the phrase "or other written certification." This phrase, which is consistent with the language of section 428(b)(1)(N) of the Act, is intended to permit the use of direct deposit based on the borrower's written certification on a direct deposit form. The Secretary agrees that a lender of a Stafford or SLS loan should be allowed to establish a policy of making Stafford or SLS loan checks co-payable if co-payable checks are not required by the guaranty agency and the guaranty agency has no objection to the lender adopting such a policy.

Changes: The regulations have been revised to include the phrase "or other written certification" to provide for the use of direct deposit of a borrower's funds into his or her account at a financial institution. The regulations also have been revised to allow a lender to establish a policy of making Stafford or SLS checks co-payable if this is not required by the guaranty agency.

Section 681.207(b)(1)(ii)(B)

Comments: Several commenters supported the Department's proposed requirement that the borrower approve the release of loan proceeds by electronic funds transfer to an account that requires written approval by the borrower for the release of those funds from the account. However, the commenters did not agree with the requirement of a separate "written" approval statement from the borrower. The commenters suggested that the term "written" be deleted and that the phrase "negotiated in accordance with § 682.604(c)(3)(ii)" be added at the end of the provision. They believe that the additional language would clarify that the school is required to document the receipt and application of the funds to the borrower's account with the school. They recommended that the requirement that the borrower approve the release of loan proceeds by electronic funds transfer be moved from § 682.207 to § 682.604 to clarify that the responsibility for obtaining the borrower's authorization to release funds and maintaining evidence of the authorization rests with the school.

Discussion: The Secretary believes that the requirement that the borrower give written approval for release of the loan proceeds is consistent with the statutory requirement that funds be disbursed in a manner that requires "the endorsement or other certification by the student." See section 428(b)(1)(N) of the Act. The Secretary has clarified the school's responsibility to secure and retain the borrower's written authorization in § 682.610(b)(9)(iv).

Changes: None.

Comment: A number of commenters objected to the proposed requirement that funds disbursed by electronic funds transfer be disbursed to a restricted account maintained by the school from which funds cannot be released without the borrower's written approval.

Discussion: Section 428(b)(1)(N) of the Act requires that funds are to be disbursed to students by a means that "requires the endorsement or other certification by such student." The Secretary has decided that a single written approval for each type of loan (e.g., Stafford or SLS) is sufficient for all disbursements. This written approval to release loan proceeds from the school's restricted account must be a separate statement and may not be incorporated into the loan application.

Changes: None.

Section 682.207(b)(1)(v)(B)

Comments: A few commenters expressed concern about the proposed requirement governing loan disbursement to a borrower enrolled at a foreign institution as part of a program of study at a school located in the United States. Under these circumstances, the loan check must be disbursed to the school in the United States and the borrower's endorsement on the loan check must be secured before the loan proceeds can be applied to the borrower's account with the school. The commenters understand that, under current regulations, the school has the option of directly depositing the check into the borrower's account at a financial institution. The borrower then pays the school from that account. The commenter recommended that the proposed regulations be revised to allow the school to secure the borrower's approval for the use of direct deposit earlier than 30 days before the date the borrower is scheduled to enroll because most students involved in these programs generally have left the country and are in school by the time loan funds are disbursed.

Discussion: The 1992 Amendments changed section 428(b)(1)(N) of the Act to provide that in the case of a student in a study-abroad program approved for

credit at the home institution at which the student is enrolled, the lender must, at the borrower's request, disburse the loan directly to the borrower. Alternatively, at the borrower's request, the lender shall disburse the loan proceeds to the borrower's home institution if the borrower provides his or her power-of-attorney to an individual not affiliated with the institution to endorse the borrower's check or complete an EFT authorization. The endorsement of the loan checks or completion of an EFT authorization by an individual under a power-of-attorney must be done according to the requirements contained in § 682.604(c)(2) and (3). The Secretary believes that these changes to the disbursement and delivery provisions for students studying abroad under the auspices of the home institution do not prohibit the use of the option of directly depositing the borrower's loan proceeds into the borrower's account at a financial institution as previously authorized. For borrowers who are not first-time borrowers subject to delayed delivery of Stafford and SLS loan proceeds, nothing contained in § 682.604(c)(2) prevents the school from securing a borrower's approval for direct deposit of a loan check into the borrower's account at a financial institution earlier than 30 days before the first day of classes in the period of enrollment, provided the borrower is registered as a student. The actual delivery of the loan proceeds, however, must be made pursuant to § 682.604(d) of the regulations.

Changes: None.

Section 682.207(d)(2)

Comment: Many commenters objected strenuously to the proposal to limit the amount of a late disbursement only to the amount needed to cover a student's outstanding charges at the institution. The commenters argued that this creates an unfair economic burden on the student because the student's demonstrated financial need for the period of enrollment for which the loan is intended is based on institutional and non-institutional charges and is not reduced after the last day of classes. The commenters argued that the proposed regulations are not consistent with the disbursement of late awards in the other Title IV programs and do not recognize that a student may have other outstanding debts that resulted from the student borrowing to finance his or her attendance at the school (e.g., paying tuition with a credit card, using private loans for living expenses, etc.).

Discussion: The Secretary agrees with the commenters that a lender making a late disbursement of FFEL loan proceeds should be allowed to recognize more than outstanding institutional charges if the borrower can document additional educational costs he or she incurred that are included normally in a borrower's cost of attendance under section 472 of the Act. The school would be expected to collect and retain documentation from the student supporting the amount of the late disbursement delivered to the borrower. Excess loan proceeds must be refunded by the school to the lender.

Changes: The regulations have been revised to allow a lender to make a late disbursement based on the borrower's documented educational expenses for the period of enrollment if those expenses include costs that are normally included in a borrower's cost of attendance under section 472 of the Act.

Comment: A number of commenters agree with the Secretary that the late disbursement policy needs to be standardized. However, they believe the language of the NPRM is unnecessarily complex and should be simplified. They recommended that lenders be allowed to disburse funds up to 60 days after the student has ceased to be enrolled on at least a half-time basis without express guaranty agency approval. Other commenters believe that guaranty agencies should be allowed to establish procedures for requesting and approving late disbursements according to the needs of their program participants and systems.

Discussion: The Secretary agrees with the commenters that the late disbursement policy needs to be simplified and that the guaranty agency should have the option of allowing lenders to make late disbursements. The Secretary believes that, if a guaranty agency does not prohibit late disbursements, a lender should be allowed to make a late disbursement within 60 days after the student ceases to be enrolled on at least a half-time basis or after the expiration date of the period of enrollment for which the loan was intended without prior approval of the agency. The Secretary also believes that if the guaranty agency and lender have informed the school that late disbursements are permitted, a school should be able to deliver the loan proceeds to the borrower without obtaining the guaranty agency's or lender's approval on a case-by-case basis.

Changes: The regulations have been revised to provide that if the guaranty agency does not prohibit late disbursements, the lender may disburse loan proceeds within 60 days after the student has ceased to be enrolled on at least a half-time basis or after the expiration date of the period of enrollment for which the loan was intended. The Secretary has also revised § 682.604(e) to correspond with the changes made to § 682.208(d) by allowing a school to deliver loan proceeds received within 60 days of the earlier of the dates specified in § 682.604(e)(1) unless the guaranty agency or lender have informed the school that late disbursements are prohibited.

Section 682.208 Due Diligence in Servicing a Loan

Comment: One commenter recommended that the Secretary regulate servicers as many loans are serviced by third-party servicers.

Discussion: The 1992 Amendments specifically authorized the Secretary to regulate third-party servicers. The Secretary intends to develop these regulations through the negotiated rulemaking process for rules implementing the 1992 Amendments.

Changes: None.

Section 682.208(b)

Comment: Several commenters recommended changing the time period required for credit bureau reporting from 90 days to 150 days of a disbursement. They stated that making credit bureau reporting consistent with the 120-day cancellation rule will prevent many instances of unnecessary reporting in which information submitted to meet the 90-day reporting deadline must be corrected because a loan is subsequently canceled by the 120th day.

Discussion: While it is true that a loan is canceled if the amount disbursed is repaid or the check is not cashed within 120 days, the Secretary believes that 150 days is too long and that the 90-day period is late enough in the disbursement process to prevent the unnecessary reporting of most canceled disbursements.

Changes: None.

Comment: Several commenters indicated that reporting a borrower's delinquency before the 90th day of delinquency substantially increases the unnecessary reporting of borrowers who are in the process of remitting payment or securing the documentation to support a deferment or forbearance. They recommended that reporting the extent of the borrower's delinquency should occur at or after the 90th day of delinquency.

Discussion: The Secretary believes that it would be inconsistent with the intent of Congress and the purpose of credit bureau reporting if only

borrowers who are delinquent on their loans by 90 days or more are reported to credit bureaus. The fact that a borrower consistently is late in remitting payments is relevant information to those entities that use credit bureau information. In addition, although the Secretary understands that there might be a delay in the submission of documentation supporting a borrower's eligibility for a forbearance or deferment, he nevertheless believes that the borrower remains responsible for making payments if he or she is unable to submit supporting documentation promptly.

Changes: None.

Section 682.208(c)(1)

Comment: Several commenters suggested that this section be revised to require that a lender respond to any inquiries about a loan from a borrower or endorser within a reasonable time period rather than within the proposed 30 days. They believe that in many cases 30 days is not enough time to research properly a borrower's account, especially if the research involves the originating lender, system transfers, and several subsequent holders. They also believe that in some cases, such as deferment processing, 30 days may be too much time. They recommended that the regulations provide that responses be made within a reasonable time, thus allowing guaranty agencies the flexibility to establish reasonable response times depending on the nature of the inquiry.

Discussion: The Secretary wishes to clarify that the lender's response to a borrower's inquiry by the 30-day deadline may be in the form of a written interim response. The Secretary recognizes that a lender may need more time to research some cases, but believes that it is reasonable to expect some form of response be given to the borrower within this time period.

Changes: None.

Section 682.208(d)

Comment: Many commenters opposed the Secretary's effort in the NPRM to encourage lenders to offer graduated or income-sensitive repayment schedules, citing the increased costs the borrower incurs over time with those schedules. On the other hand, many other commenters applauded the Secretary's efforts, saying that such an initiative shows sensitivity to the fact that a borrower's income and ability to repay is generally less at the beginning of the repayment period than at the end.

Discussion: The Secretary recognizes that a borrower will pay less over the life of a loan with a level repayment schedule than with a graduated repayment schedule. However, the Secretary also believes that it is critical to establish a repayment habit with borrowers. A repayment schedule that the borrower views as unrealistic might impede that effort and might, in fact, precipitate a default. Therefore, the Secretary will continue to strongly encourage the use of graduated repayment schedules for old borrowers. The 1992 Amendments amended section 428(b)(1)(E)(i) of the Act to require lenders to offer a graduated or income-sensitive repayment schedule to new borrowers after July 1, 1993.

Changes: None.

Section 682.208(f)

Comment: Several commenters objected to the proposed requirement that a lender make what they believe is a highly subjective evaluation of whether the borrower "knew" or "should have known" that information used to support his or her eligibility was incorrect. The commenters recommended that the regulations be revised to permit a lender to use "substantial facts" to determine whether a borrower has established eligibility for all or part of the loan.

Discussion: The Secretary notes that the proposed requirement that the lender determine whether the borrower "knew" or "should have known" was intended to clarify that the procedures of § 682.412 should be applied only to: (1) Borrowers who provided false or erroneous information to support their eligibility for insurance coverage and the payment of Federal interest benefits on their behalf, and (2) borrowers who received loan proceeds for which they subsequently were determined to be ineligible because they did not attend school for the period of enrollment for which the loans were intended. The Secretary wishes to distinguish these borrowers from those whose ineligibility resulted from an error made by the school in determining borrower eligibility and certifying the loan application or by the lender in making the loan. In clarifying the application of § 682.412, however, the Secretary did not intend to require the lender to take action unless it received information about a borrower that could be substantiated by the lender directly or by the school.

Changes: The regulations have been revised to provide that a lender shall follow the procedures in § 682.412 if it receives information that can be substantiated that the borrower, or, if applicable, the student on whose behalf a parent borrowed, provided false or erroneous data to support his or her loan eligibility or that the borrower received loan proceeds for which he or she became ineligible due to nonattendance.

Section 682.209 Repayment of a Loan

Comment: A commenter suggested there should be a section in this area that addresses combining Stafford loans to allow one payment by the borrower. The commenter also questioned whether loans can be combined in one payment if the loans enter repayment at different times.

Discussion: Nothing in this section prevents a lender from establishing a single repayment schedule for a borrower with multiple FFEL loans. If the lender establishes such a schedule, it must ensure that payments are applied so that each loan is repaid within the 10-year maximum repayment period.

Changes: The Secretary has added language in § 682.208(d) to clarify that a lender may establish a single repayment schedule for all the FFEL loans that the lender holds for a particular borrower.

Section 682.209(a)(3)

Comment: One commenter stated that there is a great deal of confusion surrounding the establishment of the payment due date following a period of authorized deferment or forbearance and recommended that the Secretary provide clarification in this area.

Discussion: The Secretary has decided that a lender may use the 45-day standard in the regulations for establishing a first payment due date for a borrower completing a deferment or forbearance period.

Changes: A change has been made in the regulations to require the lender to establish a first payment due date that is no more than 45 days following the expiration of the borrower's deferment or forbearance period.

Section 682.209(a)(3)(ii)

Comment: Several commenters noted that the regulations state that the first payment on a Stafford loan is due on a date established by the lender that is no more than 45 days following the first day of the month in which the repayment period begins. The commenters noted that this requirement would not be feasible for lenders that have day-specific servicing systems.

Discussion: The Secretary understands that some lenders use day-specific servicing systems and that the 9- and 12-month grace period is calculated on a day-specific basis. For lenders with day-specific systems or with loans that have a 9- to 12-month

grace period, the requirement that the first payment due date be no more than 45 days after the first day of the month in which the repayment period begins could result in that date being considerably sooner than 45 days after the end of the grace period.

Changes: The regulations have been revised to specify that a first payment due date established by the lender must be within 45 days of the end of the grace period or, if the lender learns, after the fact, that the borrower has entered the repayment period, no later than 75 days after the lender learns that the borrower has entered the repayment period.

Section 682.209(a)(4)

Comment: One commenter suggested adding a restriction in the last sentence of § 682.605(b)(3) of the regulations because he felt that the phrase "first failure to submit a lesson" was unclear and subject to misinterpretation.

Discussion: The Secretary agrees with the commenter that the reference to "first failure to submit a lesson" in § 682.209(a)(4) is unclear and might be interpreted to mean that the school may grant more than one restoration to in-school status. Under § 682.605(b)(3), a school may not grant a correspondence student more than one restoration to in-school status after the student fails to submit lessons in accordance with the established schedule.

Changes: The regulations have been changed to reflect that a school may provide a borrower with a one-time restoration to in-school status following the borrower's failure to submit a lesson within the 60-day period after the due date for submission.

Section 682.209(a)(6)

Comments: Many commenters suggested deleting the provision limiting the terms of graduated or income-sensitive repayment schedules. The commenters believe that the Secretary should not prescribe the terms of graduated or income-sensitive repayment schedules because this will limit lenders' use of this optional default management tool.

Discussion: The Secretary believes that the terms imposed on graduated or income-sensitive repayment schedules in § 682.209(a)(6) merely reflect long-standing Departmental policy prohibiting a schedule that includes large balloon payments. The Secretary believes that assisting a borrower in avoiding default early in the repayment period is meaningless if a graduated repayment schedule with unrealistically large payments precipitates a default later in the repayment cycle.

Changes: None.

Section 682.209(a)(7)(i)

Comment: Several commenters recommended deleting the last sentence regarding the 15-year repayment rule for Federally Insured Student Loans (FISLs) made for periods of enrollment before July 1, 1986. They believe this deletion is necessary because the Secretary indicated in the preamble of the NPRM his intention to waive violations of this rule for pre-1986 FISLs.

Discussion: The Secretary wishes to reiterate that the provision still applies and lenders must comply with it. Through his discussion in the preamble of the NPRM, the Secretary simply intended to clarify that he would waive any violation of this provision of the regulations

Changes: None.

Section 682.209(b)

Comment: Several commenters questioned the Secretary's proposed rule on how a borrower's prepayment of a FFEL program loan should be applied. The commenters recommended that the lender should be allowed to apply the prepayment to unpaid accrued interest before it is applied to unpaid principal. Several other commenters argued that not allowing the lender to apply the prepayment to late changes the borrower may have been assessed conflicted with standard banking practice.

Discussion: The Secretary understands that a borrower making a prepayment might have overdue accrued interest or late charges that have been assessed. The Secretary agrees that a lender receiving a prepayment should have the flexibility to apply the prepayment to cover outstanding interest or late charges before applying it to unpaid principal.

Changes: The final regulations have been amended to clarify that the lender may credit the prepayment first to late charges or collection costs, then to outstanding interest, and then to unpaid principal, unless the borrower otherwise specifies that the prepayment be applied to future installments or as a prepayment of principal.

Comment: Many commenters applauded the proposal that would allow a lender to credit prepayment that equal or exceed three full payments against future installment payments. Several commenters felt that lenders should be able to apply any amount received in excess of a full payment against future installments. Still other commenters favored retention of the existing requirement that lenders apply payments in excess of the amount due to reduce outstanding principal because of the financial benefit to the borrower.

Discussion: The Secretary recognizes the financial benefit to the borrower of having outstanding principal on the loan reduced as quickly as possible. The Secretary also believes, however, that a borrower who makes a large payment generally intends it to be used to satisfy future loan repayment installments. The Secretary believes that these regulations identify a realistic payment-amount-threshold that allows a lender to interpret the borrower's intent for a payment to be applied to future repayment installments. The Secretary also has decided that when a borrower makes such a large payment, without specifying how it should be applied, the lender should have the option to apply the payment either to future installments or as a prepayment of principal.

Changes: A change has been made to § 682.209(b)(2) to allow the lender, in the absence of direction from the borrower, to apply a payment amount that equals or exceeds three full payments under the repayment schedule either to future installments or as a prepayment of principal.

Section 682.209(c)(1)

Comment: Several commenters recommended that language be included in the regulations to distinguish between loans that have the $360 minimum annual repayment and loans that have the $600 minimum annual repayment. Several commenters suggested including the applicable dates these minimum annual repayment amounts became effective in the regulations to make the distinction.

Discussion: The minimum annual repayment was increased from $360 to $600 by the Postsecondary Student Assistance Amendments of 1981 (sections 531–540 of Pub. L. 97–35). The Secretary believes that it is unnecessary to include in the final regulations the $360 minimum annual repayment provision as no new loans are effected. All loans to which the $360 minimum annual repayment provision applies include the minimum annual repayment amount as a term of the promissory note.

Changes: None.

Section 682.209(f)(3)

Comment: Many commenters objected to the requirement that the promissory note be sent to the refinancing lender because consumer-banking laws dictate that the paid-in-full note be returned to the borrower. Other commenters objected to the requirement that lenders mail a certification statement to the refinancing lender within three days following receipt of a payment-in-full

due to refinancing. They believe this proposal would require that a separate payment system be developed to identify a refinanced payment. They indicated that these payments generally are processed through a lockbox. Therefore, most lenders are unable to identify a payment as a refinancing payment and would not be able to comply with the requirement.

Discussion: The Secretary proposed that the lender send the borrower's original promissory note to the refinancing lender as an alternate method of certifying that a borrower's fixed-rate loan had been discharged as provided for in section 428A(d)(4) and section 428B(d)(4) of the Act. However, the Secretary understands that the practice of forwarding an original paid-in-full promissory note to a party other than the borrower is contrary to consumer-banking laws and agrees that the use of this proposed option rather than a certification statement might result in the inadvertent loss of the borrower's promissory note. Therefore, the Secretary has decided to allow the use of a copy of the borrower's original promissory note evidencing the loan as the certification statement. The Secretary believes that the refinancing lender must receive timely notification that a borrower's original loan has been discharged. However, he agrees that three business days might be insufficient time for the original lender to apply the loan proceeds to discharge the original loan and mail the refinancing lender a certification to that effect. Although the Secretary recognizes that payments are generally processed through a lockbox system, and that this might make it more difficult to identify a refinancing payment, he believes that lenders must make the system changes necessary to post the payment and provide the required certification statement to the refinancing lender within the specified time limit.

Changes: Proposed § 682.209(f)(3)(i) has been deleted. However, lenders are still required to provide either a copy of the borrower's original promissory note evidencing the loan or a statement to the refinancing lender certifying the discharge of the original loan. See sections 428A(d)(4) and 428B(d)(4) of the Act. The regulations also have been revised to provide lenders with five business days to post a refinancing payment and provide the certification statement to the refinancing lender.

Section 682.209(h)

Comments: Several commenters noted that the regulations did not reflect section 428C(c)(2)(B) of the Act, which provides that unless a Consolidation loan is being used to discharge at least $5,000 of FFEL programs loans, the Consolidation loan must be repaid in not more than 10 years.

Discussion: The Secretary agrees; this provision of the statute inadvertently was not included in the NPRM. Moreover, the 1992 Amendments have changed this section of the statute to require that such a Consolidation loan must be repaid in not more than 12 years.

Changes: The regulations have been revised to include this statutory provision.

Section 682.209(i)(1)

Comment: A number of commenters objected to the proposal that a refund received by a lender from a school should be used to reduce the borrower's outstanding principal. The commenters stated that general accounting principles, as well as their own system requirements, would require that any outstanding interest be satisfied first. Other commenters felt that this requirement should apply only to Stafford loans because interest would have accrued on nonsubsidized Stafford, PLUS, and SLS loans.

Discussion: The Secretary wishes to note that interest accrues on all loans, but the Department pays the interest for certain periods on subsidized Stafford loans. The Secretary views refunds as "unused loan proceeds" that should be credited against the principal of the loan to create the maximum benefit for the borrower.

Changes: None.

Section 682.209(j)

Comment: A few commenters recommended that the 10-day time period for responding to a certification statement in connection with a Consolidation loan should be changed to 10 business days to allow for adequate auditing of all loan and payment records before issuing the certification.

Discussion: The Secretary agrees with the commenters.

Changes: The regulations have been changed to provide the lender 10 business days to provide the certification.

Section 682.210 Deferment

Comment: One commenter requested that the Secretary clarify why a 6-month certification limitation applies to some deferments (e.g., temporary total disability, dependent's temporary total disability, and unemployment) but not to others.

Discussion: The Secretary strongly believes that a deferment based on a condition that temporarily affects a borrower's ability to repay should be recertified periodically to assure the Secretary that the condition continues. He does not believe that the deferment should be granted automatically for the maximum statutory period as the borrower's situation might no longer warrant the deferment.

Changes: None.

Section 682.210(a)(4)(i)

Comment: The majority of commenters recommended permitting oral requests for deferments provided the lender is required to document these requests in the borrower's file. Many commenters felt that requiring a borrower to request a deferment in writing would delay significantly the time it takes to process a deferment.

Discussion: The Secretary agrees with the commenters that it is appropriate to allow the lender to accept the borrower's verbal request for a deferment since the lender may not grant the deferment until the borrower has submitted complete documentation supporting his or her eligibility for the deferment.

Changes: A change has been made. The Secretary has deleted "in writing" from § 682.210(a)(4).

Section 682.210(a)(4)(ii)

Comment: Many commenters supported the concept of allowing lenders to grant deferments based on substantially complete documentation. However, they did not agree with the NPRM proposal and recommended significant changes. Many commenters recommended that the Secretary define the term "substantially complete" because they felt it was overly ambiguous and would lead to inconsistent treatment of borrowers by different lenders. Many commenters objected to the operational difficulties they believe would be associated with retroactively canceling a 60-day "conditional" deferment and repaying interest to the Secretary if the borrower does not complete the deferment process. The commenters indicated that few lenders would choose to use this option because of these operational problems. They recommended instead that the 60-day conditional deferment period be retained even if the borrower does not provide the missing information; the borrower would be expected to resume repayment at the close of the 60-day period. A few commenters recommended that the lender be allowed to grant forbearance to the borrower until the borrower

submits the missing information rather than granting a 60-day deferment period that they might have to cancel.

Discussion: The Secretary agrees with the commenters that the term "substantially complete" is somewhat vague. However, the Secretary declined to be more prescriptive in the NPRM expressly to provide lenders flexibility in administering this provision. Further, he does not believe that the term can be defined effectively to address the many situations to which it may apply. The Secretary understands that the lender performs additional work if a borrower fails to provide missing information by the close of the 60-day conditional deferment period and the lender is required to cancel the deferment and repay interest payments paid to the lender by the Secretary. However, the Secretary does not believe that it is in the fiscal interest of the FFEL programs to allow the 60-day deferment period to stand if the borrower does not complete the deferment process. Further, the Secretary is persuaded by the commenters that few lenders will use this option as currently written. Therefore, the Secretary has decided to delete this provision from the regulations. Lenders are reminded that they may grant forbearance until the borrower submits the missing documentation. Once the lender receives complete documentation establishing the borrower's eligibility, a deferment can be granted based on the date the condition entitling the borrower to the deferment first existed in accordance with § 682.210(a)(5).

Changes: A change has been made. The proposal to allow lenders to grant a deferment based upon substantially complete information submitted by the borrower has been deleted from the regulations.

Section 682.210(a)(6)(iv)

Comment: Several commenters requested clarification of an apparent conflict between proposed § 682.210(a)(6)(iv) and § 682.210(c)(2) regarding the use of the anticipated graduation date (AGD) as the ending date of a Stafford and SLS student deferment. Additional comments included concerns that requiring a separate certification statement for the half-time student deferment represents unnecessary duplication since a condition for receipt of that deferment is that the borrower is also receiving a loan for the intended deferment period and, therefore, a loan application is required. Several commenters supported the proposal to treat a certified loan application as sufficient documentation for a student deferment up through the student's anticipated graduation date for (a) any SLS loan, and (b) a Stafford loan if the guaranty agency's student status confirmation report (SSCR) system includes a mechanism for the school's confirmation of the borrower's student deferment status. A number of commenters supported the concept of a yearly recertification for the student deferment if the guaranty agency does not have an SSCR system that includes a borrower's student-deferment status and emphasized that a yearly recertification of eligibility for the student deferment by the school would represent unnecessary work for schools, lenders, and guaranty agencies, and be a duplication of SSCR enrollment-verification data.

Discussion: The Secretary agrees with the commenters that the use of the loan application to request a student deferment, the use of the school's certification on the loan application to document the borrower's eligibility, and the use of the borrower's anticipated graduation date as the end date of the deferment represents an efficient and reasonably accurate method for granting a student deferment in the Stafford and SLS programs, provided the guaranty agency's student status confirmation report system provides status reports for each borrower with a student deferment. Further, the Secretary has decided that, in the interest of standardizing procedures and reducing the administrative burden associated with student deferments, this same approach should be extended to the PLUS program. The Secretary also agrees with commenters that proposed §§ 682.210(a)(6)(iv) and 682.210(c)(2) are inconsistent in describing the end date of a student deferment.

Changes: A change has been made to § 682.210(a)(6)(iv) to provide that the AGD date also should generally be considered the end date of a student deferment for a PLUS borrower. In addition, the language of proposed § 682.210(c)(2) that would have restricted the period of enrollment that may be certified in a single deferment certification to one academic year has been deleted from the regulations and § 682.210(c) has been revised to provide for the use of the loan application to request and document eligibility for a student deferment in the Stafford, SLS, and PLUS loan programs.

Section 682.210(b)(1)

Comment: A few commenters suggested that the regulations include a complete description of the eligibility requirements for what is popularly referred to as the "summer bridge" student deferment for continuously enrolled borrowers who do not attend classes during the summer months.

Discussion: The Secretary considers the summer months part of the in-school period for borrowers who are maintaining either an in-school status or a student deferment status and who plan to return to school in the fall. For borrowers in a student deferment status, particularly SLS borrowers, the Department has recommended that lenders collect a statement-of-intent-to-reenroll from the borrower to support the lender's continued cessation of collection activity otherwise required under the due diligence regulations during the summer months. The lender should continue to bill the Department for interest on Stafford loans during this period. If a borrower does not submit documentation supporting continued eligibility for a student deferment within 30 days of the start of the fall term, the lender is required to convert the borrower to repayment. Under these circumstances, the borrower is considered to have ceased enrollment on the last day of the previous spring term. However, the lender is allowed to treat the borrower as entering repayment without the lender's knowledge so that the borrower is not considered retroactively delinquent for a period during which he or she neither has been billed nor has an opportunity to pay. The lender is required to repay ED the interest paid on behalf of the borrower for the summer period. The interest may be capitalized pursuant to the regulations.

Changes: None.

Section 682.210(b)(1)(i)

Comment: Some commenters suggested replacing the term "school" with "eligible institution of higher education," and specifying that this includes vocational school and foreign schools. The commenters stated that they believed this would result in consistency between the requirements for a full-time student deferment and the definition of full-time student in § 682.200.

Discussion: The Secretary does not agree with the commenters. The definition of "school" found in § 682.200 properly reflects the statutory definition of "institution of higher education" in section 481 of the Act resulting from the 1992 Amendments.

Changes: None.

Section 682.210(b)(1)(v)

Comment: Some commenters suggested that the Secretary define "United States" for purposes of the unemployment deferment so that

lenders clearly understand which geographic areas are included.

Discussion: The Secretary believes it is unnecessary to define this term in the regulations. For purposes of this deferment, the Secretary clarifies that, consistent with the definition of State in 34 CFR 668.2, the United States includes borrowers residing in and seeking employment in any State of the Union, the Commonwealth of Puerto Rico, the District of Columbia, American Samoa, Guam, the Trust Territory of the Pacific Islands, the Virgin Islands, and the Northern Mariana Islands.

Additionally, a U.S. military base or U.S. embassy compound in a foreign country is considered as "in the United States" for purposes of this deferment. A borrower who resides on a U.S. military base or U.S. embassy compound in a foreign country because his or her spouse is stationed there, and who is seeking employment, would be required to provide documentation roughly equivalent to that required in § 682.210(h)(1)(i). The "name of the firm" could be the "U.S. Military Base employment office" or "U.S. Embassy Personnel Office." The Secretary does not require those borrowers to comply with the requirement that they make six attempts to secure employment during the period of certification.

Changes: None.

Section 682.210(b)(4)

Comment: Some commenters suggested deleting the language referring to a borrower's attendance at a school that is operated by an agency of the Federal Government. The commenters recommended this change because students in the service academies do not qualify for FFEL program loans and are, therefore, ineligible for student deferments based on half-time enrollment.

Discussion: The Secretary recognizes that a condition of receiving a student deferment for half-time enrollment is that the borrower simultaneously be receiving a FFEL program loan. Since students attending the service academies, (and other federally-operated schools that do not participate in the FFEL programs) may not receive loans because these schools do not participate in the FFEL programs, they cannot qualify for this deferment.

Changes: The regulations have been revised. The language referencing schools operated by an agency of the Federal government has been deleted.

Section 682.210(b)(5)(iv)

Comment: One commenter suggested revising the rules dealing with the working-mother deferment. The commenter believes the regulations go beyond the statutory language by limiting eligibility for the deferment to only those individuals who apply for the deferment within one year of entering or re-entering the work force.

Discussion: The Secretary disagrees with the commenter. The statute clearly states that the deferment is "* * *for mothers with pre-school age children who are just entering or re-entering the work force* * *" (Emphasis added.) See section 428(b)(1)(M)(xi) of the Act. The Secretary believes that it is appropriate to define "just entering or re-entering" as within one year of entering or re-entering the work force on a full-time basis.

Changes: The Secretary is not revising the rules dealing with the working-mother deferment. However, the regulations are being revised to reflect that full-time employment involves at least 30 hours of work a week and is expected to last at least three months. This standard is consistent with the standard used in regard to the unemployment deferment.

Section 682.210(c)(1)(ii)

Comment: Many commenters stated that the proposed language would require both the registrar's and financial aid officer's signatures for half-time student deferments. They suggested that this places an unreasonable administrative burden on the borrower, school, and lender.

Discussion: The Secretary notes that for a new borrower applying for a student deferment, two conditions must be met. The borrower must obtain documentation from an authorized official of the school certifying at least half-time enrollment and a statement, or other documentation, from the financial aid administrator, indicating that the borrower has received or will receive a Stafford or SLS loan for the same period of enrollment for which the deferment is requested. Nothing in the regulations precludes the financial aid administrator, as an authorized official of the school, from certifying the student's half-time enrollment, based on information provided by the registrar. The borrower may provide other information, i.e., a copy of the certified loan application, promissory note, or notice-of-loan guarantee as evidence that the borrower has or will be receiving a loan for the same period.

Changes: The Secretary has revised § 682.210(c)(1)(ii) to permit the borrower to provide other documentation evidencing that the borrower has received or will be receiving a Stafford or SLS loan for the same period for which the deferment is requested.

Comment: Several commenters suggested that the borrower be allowed to provide the necessary proof that he or she has obtained a new loan for the period covered by the student deferment.

Discussion: The Secretary agrees with the commenters that allowing the borrower who applies for a student deferment to provide proof that he or she has obtained a new loan for the same period would lessen the administrative burden. The Secretary believes that a copy of the lender's notice-of-loan-guarantee or a copy of the application containing the school's certification would be acceptable documentation that the borrower has received or will receive a Stafford or SLS loan for the period of enrollment for which the deferment is sought.

Changes: The Secretary has revised the regulations, as noted earlier, to permit a borrower to document eligibility for a student deferment by submitting evidence that a loan has been received.

Section 682.210(c)(1)(iii)

Comment: One commenter recommended that the Department's current policy that deferment applications be prescribed by the guaranty agency be changed. The commenter asked that the Department prescribe the use of standard deferment forms. The commenter believes that the Department is in the best position to develop a standard format for all deferment forms and that standardization would ease the administrative burden on schools. The commenter also believes that the use of standard deferment forms prescribed by the Secretary would contribute to the goal of greater automation in the administration of the FFEL programs and to the development of the National Student Loan Data Base.

Discussion: The Secretary understands the commenter's preference for the standardization of various FFEL program documents, especially as they relate to the Department's move toward enhanced methods of electronic processing and the development of the National Student Loan Data Base. As a result of a change made in section 432(m)(2) of the Act by the 1992 Amendments, the Secretary is required to work with representatives of guaranty agencies, institutions of higher education, and lenders to develop and prescribe a common deferment reporting form.

Changes: Section 682.401(d)(3) of the regulations have been revised to specify

that guaranty agencies must use common forms, including common deferment forms, approved by the Secretary.

Section 682.210(f)(2)

Comment: Some comments suggested that the Secretary clarify that pregnancy is not considered a disabling condition unless extraordinary circumstances are certified by the physician.

Discussion: The Secretary restates his prior guidance that "temporarily totally disabled" is defined in section 435(g) of the Act as referring to a borrower "* * * who, by reason of *injury or illness,* cannot be expected to be able to attend an eligible institution or to be gainfully employed during a reasonable period of recovery from such injury or illness not to exceed 3 years." (Emphasis added.) Since the statute specifically uses the term "by reason of injury illness," this deferment does not include all medical conditions. A healthy pregnancy is neither an injury nor illness and does not satisfy the requirements for a deferment.

The Secretary recognizes that during pregnancy there may be a period of time during which the borrower is unable to continue to attend school. The Secretary encourages lenders and guaranty agencies to grant forbearance to borrowers in these circumstances.

Changes: None.

Section 682.210(h)(1)(i)

Comment: Several commenters recommended deleting the requirement that a borrower seeking an unemployment deferment provide the names or titles of the people contacted as part of the borrower's conscientious search for employment. The commenters believe this requirement is burdensome and of little or no benefit to the borrower.

Discussion: The Secretary strongly disagrees. The Secretary expects an unemployed borrower to make a truly conscientious effort to secure employment. The Secretary believes that this involves making personal contact, either by phone or in person, with key personnel of potential employers, not just submitting resumes or job applications to those employers. The Secretary believes that if a borrower is not required to provide this information there is no evidence that a contact was made. However, the Secretary has decided to amend the regulations to provide that a lender may also accept, as evidence of employer contacts, documentation the borrower has provided to meet the requirements of the Unemployment Insurance Service if the documentation shows the same number of contacts and contains the same information that the borrower would be required to provide under the Department's regulations.

Changes: The regulations have been revised to provide that a lender may accept alternative documentation of employer contacts made to meet the requirements of the Unemployment Insurance Service.

Comment: Several commenters recommended inserting "during the preceding six months, except in the case of the initial period of unemployment" after "conscientious search for full-time employment." They suggested that this change clarifies that the borrower is to identify employers whom they already have contacted as opposed to listing potential future contacts. The commenters believe this avoids requiring that the deferment always be back-dated.

Discussion: The Secretary agrees that the attempts to secure employment for a given certification period should reflect contacts already made rather than potential contacts.

Changes: The Secretary has revised the regulations to adopt the recommended language.

Section 682.210(h)(1)(iii)

Comment: Several commenters suggested that the Secretary define what is considered an "accessible" public or private employment agency because they did not believe it was reasonable to expect an unemployed borrower to travel to the nearest public or private employment agency regardless of the distance involved. Some commenters recommended using a 50-mile radius as a reasonable distance to expect an unemployed borrower to travel.

Discussion: The Secretary believes that it is reasonable to expect a borrower to make a good-faith effort to register with a public or private employment agency as part of his or her employment search. However, the Secretary agrees with the commenters that for an unemployed borrower this requirement is reasonable only if the borrower does not have to travel long distances to register with an agency. Further, the Secretary believes that employment opportunities listed by an agency a significant distance from the borrower's home may not be realistic prospects if getting to work sites involves significant travel.

Changes: The Secretary has revised the regulations to reflect that a borrower must register with such an agency if one is within a 50-mile radius of the borrower's permanent or latest temporary address.

Section 682.210(h)(3)

Comment: One commenter recommended that the Secretary reinstate language found in current regulations in this section that provides that an unemployment deferment is not justified if a borrower refuses to seek or accept employment "in kinds of positions or at salary and responsibility levels for which the borrower feels overly qualified by virtue of education or previous experience." The commenter stated that this wording had been helpful in the administration of this provision. Other commenters supported the concept that an unemployed borrower should not be overly restrictive in his or her search for employment, but also felt that a borrower should be allowed to take certain professional considerations into account in that search. They believe that someone trained for, or who has been employed in, a specific professional area should be able to pursue employment in that career.

Discussion: The Secretary agrees that the language deleted from this provision in the NPRM is intended to establish a requirement that a borrower cannot refuse work based on certain preferences. The Secretary does not agree with those commenters who believe that an unemployed borrower should be allowed to take into account professional preferences in his or her job search. The Secretary believes that a borrower is responsible for repayment of a FFEL program loan and should not expect the Secretary to subsidize the borrower's search for the best professional opportunity. The Secretary understands that this may require a borrower to accept temporary or less desirable employment in order to make payments on the loan while continuing a long-term search for a better job opportunity.

Changes: The Secretary has revised the regulations to include the phrase deleted from the NPRM.

Section 682.210(i)

Comment: Numerous commenters recommended that borrowers attempting to qualify for a military deferment should be allowed to provide the lender with a copy of his or her official military orders in lieu of a "written" statement from the borrower's commanding or personnel officer.

Discussion: The Secretary agrees that a lender should be able to use information from the borrower's military orders to document that the borrower is eligible for a military deferment.

Changes: The Secretary has revised the regulations to allow a borrower to

document eligibility for a military deferment by providing either a "written" statement from the commanding or personnel officer or a copy of his or her official military orders and official military identification.

Comment: Several commenters recommended that proposed § 682.210(i)(3) be revised to provide that under certain circumstances military reservists serving on active duty for less than one year would be eligible for a military deferment. The commenters noted that many reservists that were called to active duty in Operation Desert Shield or Operation Desert Storm would not qualify for a military deferment based on the proposed regulations. The commenters recommended that the Secretary provide for flexibility in the regulations to address these types of situations.

Discussion: The Secretary agrees with the commenters that the regulations should be revised to give lenders the ability to react in a timely fashion to circumstances in which the normal one-year requirement for active duty might not be appropriate.

Changes: The language of § 682.210(i)(3) has been revised to specify that a reservist called to active duty would be expected to serve on a full-time basis for at least one year unless an order for national mobilization of reservists is issued.

Section 682.210(m)

Comment: Some commenters objected to the limitation on the compensation rate for full-time volunteers serving with tax-exempt organizations to qualify for a deferment as proposed in § 682.210(m)(1)(iii) of the regulations. The commenters stated that restricting the compensation rate to one that does not equal or exceed the Federal minimum wage was inconsistent with the statutory intent that these volunteers be treated as performing service comparable to service performed by volunteers in the Peace Corps and ACTION programs because volunteers in those programs are compensated at a rate consistent with the Federal minimum wage. Another commenter indicated that this restriction was in conflict with the President's active support of volunteerism. Still another commenter indicated that many individuals working for tax-exempt organizations would be ineligible for the deferment if the organizations' by-laws required that individuals serving with the organizations be paid the Federal minimum wage.

Discussion: Sections 427(a)(2)(C) and 428(b)(1)(M) of the Act were amended by the 1992 Amendments to reduce the different types of deferments available to FFEL borrowers. In particular, the new law provides new borrowers, whose first disbursement is made on or after July 1, 1993, with the following types of deferment: (1) Student deferment, (2) graduate fellowship deferment, (3) rehabilitation training program deferment, (4) unemployment deferment, and (5) economic hardship deferment. For purposes of these deferments, a new borrower is one who, on the date of application, has no outstanding balance of interest or principal on a Stafford, SLS, or PLUS loan or, in the case of a Consolidation loan applicant, has no outstanding balance on any other FFEL program loan obtained prior to July 1, 1993. The term economic hardship is defined in the statute as circumstances under which a borrower is working full-time and is earning an amount that does not exceed the greater of the minimum wage rate described in section 6 of the Fair Labor Standards Act of 1938 or an amount equal to 100 percent of the poverty line for a family of two as determined in accordance with section 673(2) of the Community Service Block Grant Act, or under other criteria identified by the Secretary in regulations. Because this definition provides for a compensation rate that is at least the Federal minimum wage and new borrowers serving as volunteers in tax-exempt organizations may be eligible for this deferment based on this criteria, the Secretary believes that the same standard of compensation should apply to borrowers subject to the previous deferment provisions.

Changes: The phrase "or equals" has been deleted from § 682.210(m)(1)(iii).

Section 682.210(n)

Comment: One commenter suggested clarifying the definition of "internship or residency." The commenter indicated that these terms can refer to any profession and believe it is necessary to specify which professions satisfy the requirements for this deferment.

Discussion: The Secretary does not believe that it is necessary to define these terms. An internship or residency deferment may be provided to borrowers in any profession that meets the regulatory requirements.

Changes: None.

Section 682.210(o)(1)

Comment: A few commenters suggested revising the eligibility criteria for a parental-leave deferment so that a Stafford loan borrower may qualify for the deferment without being required to forego a portion of his or her grace period. A Stafford loan borrower does not enter repayment until his or her six-month grace period has elapsed. At that time, the borrower would not have been enrolled at an eligible institution during the preceding six months, as required for the deferment. The commenters believe that by relaxing this criterion the Department will ease the lender's task of securing a borrower's authorization to waive voluntarily a portion of his or her grace period so the deferment can be processed.

Discussion: Section 435(h)(3) of the Act clearly requires that to qualify for a parental-leave deferment the borrower has to be enrolled at least half-time at an eligible institution during the preceding six months. The Secretary cannot waive these statutory requirements. The Secretary previously has issued guidance to lenders indicating that they may advise a borrower that he or she voluntarily may waive a portion of the grace period to qualify for the deferment.

Changes: None.

Comment: Several commenters recommended that the phrase "or the borrower's spouse is pregnant * * *" be deleted from the eligibility criteria for the parental-leave deferment. The commenters stated that the pregnancy of a borrower's spouse did not appear to be covered by section 435(h) of the Act.

Discussion: The Secretary agrees with the commenters that the Act does not extend to cover the pregnancy of a borrower's spouse.

Changes: The phrase has been deleted from the regulations.

Comment: One commenter noted that in many adoption cases the child is placed in the home before the completion of the adoption process. The commenter recommended that the regulations be revised to ensure that a borrower on leave as part of a preadoption placement is eligible for the parental-leave deferment.

Discussion: The Secretary believes that a borrower who takes leave from employment in conjunction with the adoption process should be eligible for the parental-leave deferment regardless of whether the leave occurs before or immediately following the official adoption date.

Changes: The regulations have been revised to permit a borrower to qualify for the parental-leave deferment during the period the borrower cares for a child immediately following placement of the child with the borrower in connection with an adoption.

Section 682.210(r)(2)

Comment: Many commenters objected to the documentation required to support a borrower's eligibility for the working-mother deferment. They

believe it represents a significant burden on the borrower and that the documents cannot be obtained easily. The commenters suggested that the borrower be allowed to self-certify the information necessary to qualify for the deferment.

Discussion: The Secretary notes that a borrower is required under § 682.210 "to provide the lender with all information and documents required to establish eligibility for a specific type of deferment." The Secretary believes that allowing a borrower to self-certify eligibility for the working-mother deferment fails to meet this requirement. The Secretary considers that the documents the borrower is required to submit to support eligibility (e.g., a photocopy of child's birth certificate documenting the child's age and a pay stub or similar document showing her pay rate) represent minimal requirements and are obtained easily.

Changes: None.

Comment: One commenter suggested that the benefits of the working-mother deferment should be extended to single fathers who also meet the eligibility criteria for the deferment.

Discussion: The provisions of section 428(b)(1)(M)(xi) of the Act clearly restrict the working-mother deferment to mothers.

Changes: None.

Section 682.211 Forbearance

Section 682.211(a)(2)(i)

Comment: A few commenters recommended the deletion of the requirement that the lender document that the borrower intends to repay the loan as a condition for granting forbearance. The commenters believe this affirmation by the borrower serves no purpose. They believe it adds no further creditability to the information submitted by the borrower to support the forbearance.

Discussion: The Secretary believes that forbearance should be granted only to borrowers who are willing to repay their loans but temporarily are unable to make payments due to medical or other acceptable circumstances. The proposed additional documentation requirement forces the lender to ensure that the borrower states his or her intention to repay the loan as well as providing a record of the factors that support the lender's decision to grant the forbearance. The lender is being required simply to document the borrower's willingness to repay.

Changes: None.

Section 682.211(b), (c), and (d)

Comment: Many commenters opposed the proposal to treat a forbearance granted after default differently from other types of forbearance, i.e., a post-default forbearance would not extend the 10-year repayment period and the minimum annual repayment provisions would apply. The commenters indicated that this would require the lender to develop a separate tracking system for borrowers granted forbearance after default. Several other commenters questioned the need for specifying that a lender must grant a forbearance on terms that are "consistent with" or "inconsistent with" the 10-year repayment and the minimum annual repayment provisions and requested that the Secretary simplify the forbearance provisions. Still other commenters recommended that the Secretary specify that a lender does not have to sign a forbearance agreement with a borrower in offering the borrower a graduated repayment schedule that provides for payments that total less than the minimum annual payment amount. The commenters believe that requiring a signed forbearance agreement would discourage lenders from offering the graduated repayment option to borrowers.

Discussion: The Secretary agrees that developing and maintaining separate tracking systems for different types of forbearances would be administratively burdensome and complicate significantly the use of forbearance to assist a borrower in avoiding default. The Secretary also agrees that a lender should be able to offer a borrower a graduated repayment schedule that provides for payment of less than the minimum annual repayment amount without executing a forbearance agreement with the borrower.

Changes: The Secretary has deleted all reference to repayment terms that are consistent or inconsistent with the minimum annual payment requirement and the 10-year maximum repayment period in § 682.211(b), § 682.211(c), and § 682.211(d) of the regulations. Section 682.209(a)(6)(ii) of the regulations has also been revised to provide that a lender may offer a borrower a graduated repayment schedule without completing an agreement as specified in § 682.209(c)(1)(ii).

Comment: Several commenters recommended that the regulations be revised specifically to provide that, upon notice to a borrower, a lender may grant forbearance in circumstances similar to the Operation Desert Shield or Operation Desert Storm action in which contact with a borrower might be impossible.

Discussion: The Secretary agrees that specific guidance should be incorporated into the regulations to ensure that lenders react in a timely manner to situations such as Operation Desert Shield or Operation Desert Storm in the future.

Changes: The regulations have been revised in § 682.211(f) to provide that, upon notice to a borrower, forbearance may be granted by a lender in the event of a national military mobilization or other national emergency for a period authorized by the Secretary.

Section 682.211(f)

Comment: Several commenters recommended that a lender be allowed to grant forbearance for the period prior to the borrower filing a bankruptcy petition. The commenters noted that, without this change, lenders would only be able to approve forbearance from the date the borrower files the bankruptcy petition when the borrower might already be severely delinquent.

Discussion: The Secretary agrees that lenders should be provided with the option of offering forbearance to a borrower to cover this period. The Secretary believes this would assist in the handling of delinquencies for borrowers who, after a significant period of time, emerge from a stay of collections associated with the bankruptcy process and are again subject to collection.

Changes: A new provision has been added to § 682.211(f) to permit a lender to grant a forbearance for a period prior to the borrower filing a bankruptcy petition.

Section 682.213 Prohibition Against the Use of the Rule of 78s

Comment: Some commenters recommended that this section be expanded to include guidance on loans previously approved using the Rule of 78s to calculate the outstanding principal balance of the loan.

Discussion: The Secretary continues to receive questions on this issue and agrees that the regulations should recognize loans on which the principal balance was previously calculated using the Rule of 78s.

Changes: The regulations have been revised to recognize that the Rule of 78s still might apply to loans that entered repayment before June 26, 1987 that had the principal balance calculated using the Rule of 78s. The Rule of 78s would be used for the life of the loan.

Section 682.214 Compliance With Equal Credit Opportunity Requirements

Comment: A number of commenters recommended that this section be modified to include all the FFEL programs, rather than having it apply just to the Stafford Loan Program.

Discussion: The Secretary has been advised by the Federal Reserve Board that the regulations as currently written comply with Regulation B, 12 CFR part 202. The PLUS program does not meet any of the criteria of 12 CFR 202.8, and neither PLUS nor SLS meet the criteria of 12 CFR 202.8(d) of Regulation B.

Changes: None.

Section 682.215 Defenses to the Borrower's Obligation To Repay a GSL Loan

Comment: Many commenters indicated that they believed that lenders must have a clearly protected right to repayment by borrowers even if the borrower's school violates its obligations to its students. The commenters recommended that the regulations be modified to state that lenders would be subject to a borrower's defense against repayment of a loan based on school misconduct only if a written origination contract existed between the school and lender, or the school, with the consent of the lender, completes the lender's section of the loan application on behalf of the lender. These same commenters supported the proposed use of a disclaimer to inform borrowers that lenders are generally not responsible for school misconduct. They recommended that the definition of "origination" in 34 CFR 682.200 be modified to delete reference to a "special" relationship and the examples provided in the definition because the regulations would specify the circumstances under which a defense would apply. Several other commenters recommended defining what does not constitute an "origination relationship" rather than what does. Many other commenters stated that they agreed that the quality of a school's performance and the employability of its graduates should not provide a borrower with a defense to repayment of a loan. However, these commenters indicated that the proposed regulations still held borrowers financially responsible for most cases of school fraud and recommended that the Secretary take direct responsibility in the final regulations for borrowers harmed by school fraud or school closings. Several commenters indicated that they believed that the regulations provided insufficient protection to borrowers from a school's failure to comply with Title IV refund requirements. Two other commenters strongly objected to the proposed section, saying that it did not provide adequate consumer protection for borrowers and recommended deletion of the section. The commenters stated that the use of the disclaimer notice by the lender made it virtually impossible for a borrower to ever raise such a defense and thereby rendered the borrower's rights illusory.

Discussion: After considering the comments on this proposed section and the Department's experience in this area, the Secretary has decided that it is not desirable at this time to prescribe in regulations a uniform Federal rule regarding borrower defenses that would preempt State law otherwise applicable to the FFEL programs. The Department believes that the determination of whether a defense under State law is available to a borrower requires a case-by-case assessment of whether individual State laws would frustrate accomplishment of the Federal objectives of the FFEL program. The Department, as a result of its litigation experience, has identified four kinds of State laws whose application would not frustrate FFEL program policies and are therefore not preempted by Federal law. These are State laws that would make a lender subject to school-related defenses against the repayment of the loan if: (1) The lender has notice (actual or imputed) of substantial prior unresolved complaints about the school prior to making the loan; (2) the lender has delegated substantial loan making functions to the school (an "origination relationship"); (3) the lender and the school are corporate affiliates or are otherwise commonly controlled; and (4) the lender paid a finder's fee or referral fee to the school with regard to the loan. Consistent with this approach, the term "origination" in proposed § 682.200 has been revised to be "origination relationship." The Secretary has also decided to describe an "origination relationship" as a special business relationship between a school and a lender so as to distinguish it from the relationship that exists between these parties as part of the normal loan processing and delivery system. In addition, the Secretary notes that the 1992 Amendments have amended the Act to provide for the discharge of loans for a student who received a loan on or after January 1, 1986 and who was unable to complete a program of study in which he or she was enrolled due to the school's closure or if the student's eligibility for a loan was falsely certified by the school. These provisions will be reflected in future regulations developed as a result of the 1992 Amendments.

Changes: The Secretary has deleted the provisions of § 682.215. The term "origination" in proposed § 682.200 has been revised to "origination relationship." Further, the regulations have been revised to describe an "origination relationship" as a special business relationship.

Section 682.300 Payment of Interest Benefits on Stafford Loans

Section 682.300(b)(2)

Comment: Several commenters suggested that the Secretary modify the proposed regulatory provision requiring interest on loan proceeds transferred electronically to cease on the 120th day if the school has not released the funds from the school's restricted account. The commenters argued that the lender would have no way of knowing if funds are released and might incur a violation based on an event controlled by the school and not by the lender. The commenters suggested defining the date that interest benefits cease as the date funds are returned to the lender. Other commenters suggested that processing time is needed after loan proceeds are returned to the lender and recommended that 10 business days be provided for that purpose.

Discussion: The Secretary believes that 120 days is sufficient time for a school to return funds from its restricted account to the lender and for the lender to complete any required processing. Lenders must have a system in place to monitor the release of loan proceeds to ensure that funds are not delivered after 120 days.

Changes: None.

Comment: One commenter stated that § 682.300(b)(2)(iii) and § 682.300(b)(2)(iv) are confusing. The commenter indicated that the event causing the claim to be filed, *i.e.*, default, always would be earlier than the date the lender receives payment on a claim for loss on the loan. Thus, the Secretary's obligation to pay interest benefits always would cease on the date of default.

Discussion: There are special conditions, such as school closings, in which default claims must be filed with the guaranty agency. In these cases, the loan is in default only for the purpose of allowing the lender to receive an insurance payment. The borrower is not considered to be in default as defined in section 435(1) of the Act, and a lender may not report to any credit bureau or other third party that the borrower is in default on the loan.

Changes: None.

Section 682.301 Eligibility of Borrowers for Interest Benefits on Stafford Loans

Comment: One commenter suggested that the Secretary clarify that it is the school's responsibility to determine whether a borrower is a member of a

religious order and, if so, to notify the lender that the borrower is ineligible to receive interest benefits. Another commenter asked whether this determination would have to be made for every applicant that indicates a religious affiliation on a school application or other form.

Discussion: The Secretary wishes to clarify that these regulatory provisions are intended to mirror similar provisions that have existed in other Title IV programs for a number of years. See §§ 673.22(a)(5), 674.9(c), 675.9(c) and 676.9(c). They are not intended to apply to every applicant that responds to a question on religious affiliation. In determining an applicant's eligibility for interest benefits, if the school has received information indicating that the applicant is a member of a religious order, group, community, society, agency, or other similar organization, it is required to document whether the conditions detailed in in § 682.301(a)(2) apply to the applicant. In the Secretary's view, service in such an order generally reflects that the individual is supported fully by the order and does not have financial need for FFEL purposes. A school is not expected to make a determination unless it has reason to know that an applicant is a member of such an order and meets the criteria specified in § 682.301(a)(2). The school must document its determination and place it in the student's file.

Changes: None.

Section 682.301(b)

Comment: One commenter argued that § 682.301(b) seems to require the student to submit the loan application directly to the lender and, therefore, unduly restricts the use of automated application processing. The commenter urged the Secretary to clarify that a school may submit a loan application directly to the lender at the borrower's request.

Discussion: The Secretary did not intend in § 682.301(b) to require a borrower to submit a loan application directly to a lender.

Changes: A change has been made. The Secretary has modified § 682.301(b) to clearly state that a school may transmit a loan application to an eligible lender at the direction of the borrower.

Section 682.301(c)

Comment: One commenter suggested that § 682.301(c), concerning use of loan proceeds to replace EFC, should also clearly indicate that borrowers may use aid from private and State-sponsored programs.

Discussion: The Secretary agrees with the commenter. Section 428(a)(2)(E) of the Act provides for the EFC to be offset by loans made under the SLS, PLUS, State-sponsored, or private loan programs.

Changes: A change has been made. The Secretary has revised § 682.301(c) to reflect the requirements of section 428(a)(2)(E) of the Act. In addition, the Secretary is codifying current policy that allows the use of a nonsubsidized Stafford loan to replace the student's EFC.

Section 682.302 Payment of Special Allowance on FFEL Loans

Section 682.302(d)

Comment: Many commenters opposed the Secretary's proposal to terminate a lender's eligibility for special allowance payments 45 days after the borrower's default on the loan unless the lender had filed a default claim with the guaranty agency by the 45th day. The commenters felt that 45 days would not provide sufficient time for a lender to compile all the required documents for a default claim, particularly given the new requirement that a payment and collection history be part of the default claim filed with the guaranty agency. The commenters felt that the current 90-day standard with full interest and special allowance benefits should be retained.

Discussion: The Secretary notes that a lender may continue to file a default claim with the guaranty agency within 90 days of default under the provisions of § 682.406(a)(5). The Secretary intended, through this proposal, to restrict the payment of special allowance to the lender to 45 days after the borrower's default on the loan if the lender did not submit the default claim to the guaranty agency by the 45th day. However, the Secretary agrees with the commenters that the 45-day deadline for submission of a default claim package for the lender to retain special allowance after the 45th day may not provide sufficient time to prepare and submit a default claim package in light of the new documentation requirements for claim submissions. Therefore, the Secretary has decided to change the 45-day deadline to a 60-day deadline. The regulations will now restrict the payment of special allowance to the lender to 60 days after the borrower's default on the loan if the lender does not submit the default claim package to the guaranty agency by the 60th day. Additionally, to provide lenders with extra time to adjust to this provision, the Secretary has decided to delay the effective date of the provision. The provision will become effective for loans for which the first day of delinquency is on or after 120 days following the date of publication of the regulations.

Changes: The Secretary has amended the regulations to allow a lender to maintain eligibility for special allowance payments if the lender submits a claim to the guaranty agency within 60 days of the date of default.

Comment: Several commenters disagreed with the Secretary's proposal to terminate special allowance on the date the guaranty agency returns a claim to a lender for additional documentation. These commenters felt that eligibility for special allowance should continue until the claim is paid.

Discussion: The Secretary agrees with the commenters and has decided to revise the regulations so as not to penalize a lender by terminating special allowance on an otherwise eligible loan if it is returned by the guaranty agency due to inadequate documentation. If the loan had not been submitted by the lender by the 60th day after default, it already would have lost eligibility for special allowance and being returned because of inadequate documentation would not re-establish eligibility for special allowance. If a loan is rejected by the guaranty agency because of a due diligence or timely filing violation, eligibility for special allowance already would have been lost as of the date of the violation.

Changes: The regulations have been revised to reflect that an otherwise eligible loan may continue to receive special allowance if it is resubmitted by the 30th day after the loan was returned to the lender by the guaranty agency solely because of inadequate documentation. If the loan is submitted after the 30th day, but by the 60th day, the loan is reinsured but special allowance is limited to the 30th day after the loan is returned by the guaranty agency due solely to inadequate documentation. If an otherwise eligible loan is not resubmitted by the 60th day after being returned to the lender by the guaranty agency, the timely filing violation must be cured by the lender using the procedures in Bulletin 88–G–138 (appendix D).

Comment: One commenter stated that the provisions of § 682.302(d)(vii) conflicted with § 682.406(a)(7). These two sections reflect that special allowance terminates on returned claims at a different time than the period during which interest is paid.

Discussion: The Secretary disagrees with the commenter. Section 682.302(d)(vii) specifies one of the conditions under which special allowance payments will terminate.

Section 682.406(a)(7) outlines the conditions of reinsurance coverage and specifies the maximum length of time the Secretary will pay interest on a reinsured claim.

Changes: None.

Section 682.304 Methods for Computing Interest Benefits and Special Allowance

Section 682.304(b)

Comment: One commenter noted that § 682.304(b)(2) is inconsistent with § 682.304(c). The commenter suggested that the 365.25-day calculation method should be used in the average daily balance method as well as in the actual accrual method.

Discussion: Section 682.304(b)(2) prescribes the calculation method that the Secretary will use to determine the average daily balance for interest benefits unless the lender chooses to use the actual accrual method. A lender chooses the average daily balance method by not completing ED Form 799, part III, Column E, entitled "Interest benefits." Completion of this part of the form is optional. If the lender chooses to complete the interest section, it may use the 365.25-day calculation method. If the lender chooses not to complete the interest section, the Secretary will use the calculation method prescribed in 34 CFR 682.304(b)(2) to compute interest benefits.

Changes: None.

Section 682.304(d)

Comment: One commenter suggested that the Secretary should clarify that the calculation in § 682.304(d)(1) represents the average daily balance for the quarter for qualifying loans at each applicable interest rate.

Discussion: The Secretary agrees with the commenter's suggestion.

Changes: A change has been made. Section 682.304(d)(1) has been revised to clarify that the average daily balance calculation for the quarter represents qualifying loans at each applicable interest rate.

Section 682.305 Procedures for Payment of Interest Benefits and Special Allowance

Section 682.305(a)(4)(ii)

Comment: Many commenters were opposed to the Secretary's proposal to make the buyer and the seller jointly and severally liable for payment of origination fees. The commenters argued that the buyer paid the seller for outstanding origination fees at the time of the sale and that the buyer should be liable only if the loans were bought in the same quarter in which they were originated.

Discussion: The proposed regulations codify the Secretary's long-standing view that if a loan is assigned the assignee and assignor have equal responsibility to ensure that origination fees are paid to the Secretary. Bulletin 91–L–142, dated October 1991, reiterated this requirement, reminding chief executive officers of entities that make, sell, and buy Stafford loans that origination fees should be paid in a timely manner. For operational purposes, the regulations allow either the buyer or the seller to report the amount of the origination fee to the Secretary if the loan is originated and sold within the same quarter. It is assumed that if a loan is sold in a quarter after the one in which it was originated, the originating lender would already have reported the amount of the origination fee to the Secretary.

Changes: The Secretary has modified § 682.406(a)(12) to specify that the payment of origination fees is a condition of reinsurance. However, the Secretary will apply this sanction only if the purchasing lender refuses to pay outstanding origination fees on loans it has purchased.

Section 682.305(b)(1)(ii)

Comment: Several commenters argued that § 682.305(b)(1)(ii) should be revised to clarify that, for penalty interest purposes, the payment of interest benefits begins on the date on which payment actually is made by the Treasury Department rather than the date on which the Secretary authorizes the Treasury Department to pay the lender.

Discussion: Section 682.305(b)(1)(ii) is based on section 438(b)(4) of the Act, which provides that the calculation of the time period ends on the date the Secretary authorizes payment.

Changes: None.

Comment: Several commenters argued that penalty interest should not be limited to the special allowance rate applicable to loans made on or after November 16, 1986, *i.e.*, Treasury bills plus 3.25 percent. The commenters suggested that the Secretary reimburse the lender for the actual special allowance factor as authorized by the Act.

Discussion: The Secretary agrees that the penalty interest calculation should be based on the actual interest and special allowance rates. He also believes that it is necessary to clarify how reductions to interest and special allowance payments (e.g., reductions for origination fees or other debts owed to the Federal government) will be accommodated in penalty interest calculations.

Changes: The Secretary has modified the regulations to base penalty interest calculations on actual interest and special allowance rates.

Section 682.305(b)(6)(iv)

Comment: A few commenters suggested that the Secretary include the phrase "unless the Secretary authorizes an exception in writing" at the end of § 682.305(b)(6)(iv).

Discussion: Proposed § 682.305(b)(6), which is now § 682.306(b)(5), specifically identifies the circumstances in which the Secretary considers a request from a lender for payment of interest and special allowance to be inaccurate and incomplete. The Secretary does not anticipate permitting any exceptions to these requirements.

Changes: None.

Section 682.305(c)

Comment: Many commenters objected to the Secretary requiring an independent audit of a lender's loan portfolio if the lender originates in excess of, or its loan volume exceeds, $10 million. The commenters stated that large lenders are audited extensively by their own auditors, guaranty agencies, and the Federal government, and this requirement only would produce unnecessary financial expense and burden for lenders. Other commenters stated that an audit every two or three years is sufficient. Several commenters objected to the proposed requirement that the audit report be submitted within 90 days of the end of the Federal fiscal year. The commenters did not believe that this was sufficient time to conduct an audit of this scope and complete and submit the required audit report to the Secretary.

Discussion: The 1992 Amendments require that each lender participating in the FFEL programs have an annual independent compliance audit conducted by a qualified independent organization or person. The regulations have been changed to reflect this new requirement. In addition, the Secretary agrees with the commenters that 90 days after the end of the Federal fiscal year may not be sufficient for conducting the audit and completing and submitting the audit report. The Secretary has decided to require that the audit report be submitted within six months following the end of the audit period. However, the Secretary will monitor the implementation of this requirement closely to determine if this period can be reduced in the future.

Changes: A change has been made. The Secretary has revised § 682.305(c)

to require all lenders to conduct an annual compliance audit by a qualified independent organization or person. The audit must be submitted to the Secretary within six months following the end of the audit period. The Secretary also is requiring that the first audit cover the lender's first fiscal year that begins after July 23, 1992.

Comment: A number of commenters opposed the requirement that the independent financial and compliance audit period be based on the Federal fiscal year.

Discussion: The Secretary understands that this requirement would represent a significant administrative burden for lenders that do not use the Federal fiscal year and are required to conduct audits to comply with other Federal or State requirements. To prevent having to conduct more than one audit, the lender would be required to conduct one audit to cover all program operations occurring within the three months overlapping separate audit periods.

Changes: The Secretary has revised the regulations to allow lenders to use an alternative audit period to the Federal fiscal year to conduct the annual compliance audit.

Comment: A few commenters noted that nonprofit and State government lenders are subject to the provisions of Office of Management and Budget (OMB) Circular No. A–133 that provides that a single audit of the entity's participation in all Federal programs satisfies the audit requirement of all of those programs. The commenters suggested that nonprofit and State lenders be exempt from the proposed audit requirement in § 682.305(c).

Discussion: The Secretary agrees with the commenters. An additional independent audit of nonprofit and State government lenders' administration of the FFEL programs would create an additional financial burden if the lenders are subject to the single Federal audit requirement.

Changes: A change has been made. The Secretary has revised 34 CFR 682.305(c)(2) to exempt nonprofit and State government lenders from the audit requirement if an audit, in accordance with 31 U.S.C. 7502 and OMB Circular A–133, has been conducted.

Section 682.401 Basic Program Agreement

Section 682.401(b)(4)

Comment: Many commenters opposed the proposed requirement that borrowers notify the school of any change in employer or employer's address. The commenters indicated that borrowers are unlikely to report this information to their schools and that although this information is useful to lenders if a borrower becomes delinquent, it is not useful to schools. The commenters recommended that the requirement be deleted or modified to require that borrowers notify lenders of those changes. Other commenters recommended that the borrower be required to notify the current holder of the loan of these changes rather than the lender; this was based on the likelihood that the loan would be sold.

Discussion: The Secretary agrees that it is unusual for a school to know when a borrower changes employers and that the information should be reported to the lender to assist the lender in collecting the loan if the borrower becomes delinquent. The Secretary also agrees that changes of student status or employer should be reported to the current holder of the loan to ensure that the information is provided to the party to which it will prove most useful. The Secretary believes that Congress also contemplated that this information would be most useful to the lender when it required in section 485(b) of the Act that information collected from the borrower during the exit interview regarding the borrower's expected future employment be forwarded to the holder of the borrower's loan.

Changes: The Secretary has amended the regulations to require a borrower to notify the current holder of any change of name, address, student status to less than half-time, employer, or employer's address.

Section 682.401(b)(8)

Comment: Some commenters requested that the Secretary clarify whether any service or fee restrictions can be imposed on students (or parents borrowing on behalf of those students) who are not residents of the State served by a guaranty agency but who are attending school in that State. The commenters questioned whether a variable fee structure for out-of-state borrowers would be prohibited by this provision.

Discussion: A guaranty agency is prohibited from imposing any additional restrictions on out-of-state students who are attending a school in a State served by the guaranty agency. A fee structure that discriminates against out-of-state borrowers attending an in-state school would violate the non-discrimination provisions in section 428(b)(1)(S) of the Act. However, a variable fee structure imposed by the agency on both in-state and out-of-state students would not be considered such a restriction.

Changes: None.

Section 682.401(b)(9)

Comment: One commenter suggested deleting the phrase "excluding interest or other charges the lender may have added to the principal balance" from § 682.401(b)(9)(iv), which describes how much the guaranty agency may charge as an insurance premium.

Discussion: Because the insurance premium is deducted from the proceeds of a loan when it is made, it is not possible for interest or other charges to have been added to the loan before the insurance premium is deducted.

Changes: The regulations have been revised to remove the phrase regarding interest and other charges from the description of how much a guaranty agency can charge for an insurance premium.

Comment: A number of commenters objected to requirements in § 682.401(b)(9) and § 682.406(a)(1) that, if funds are disbursed by means of electronic funds transfer and the funds are not released within 120 days from the school's restricted account, the insurance premium must be refunded and the loan loses reinsurance. The commenters stated that a lender would have no way of knowing if or when the funds were released from the restricted account.

Discussion: If loan proceeds are disbursed by means of electronic funds transfer, the lender must have a system in place to determine that the funds were released from the school's restricted account within 120 days of disbursement. The system developed to monitor and document that the funds have been released is a matter between the lender and the school. If these funds are released after the 120th day, the loan loses reinsurance, and the origination fee and any insurance premium assessed against the borrower must be refunded.

Changes: None.

Section 682.401(b)(12)

Comment: Some commenters asked the Secretary to clarify that if a guaranty agency charges its lenders a fee to refinance fixed-rate PLUS and SLS loans, the agency must not charge different fees to different lenders. Other commenters asked how this fee may be assessed, *i.e.*, is it to be a flat dollar fee or may a percentage of the refinanced amount be used?

Discussion: Guaranty agencies are permitted to charge lenders a fee for refinancing fixed-rate PLUS and SLS loans. See § 682.401(b)(12). If an agency charges a fee, it must charge that fee consistently to all lenders who refinance

fixed-rate PLUS and SLS loans. A guaranty agency may not discriminate against participating lenders. See section 428(b)(1)(u) of the Act. This fee may be either a flat dollar amount or a percentage of the fee charged to the borrower.

Changes: The regulations have been amended to clarify that if an agency charges a fee, it must charge that fee to all lenders.

Section 682.401(b)(18)

Comment: Some commenters questioned what lenders and guaranty agencies would be permitted to do with information learned through a student status confirmation report. Other commenters questioned what procedures should be followed if information on a student status confirmation report conflicts with information held by the lender or guaranty agency.

Discussion: A holder of a FFEL program loan is required to act on any information received from the student status confirmation report. As noted in Section III of Dear Guaranty Agency Director Letter 88–G–138, "A lender must promptly attempt to reconcile conflicting information regarding a borrower's in-school status by making inquiries of appropriate parties, including the borrower's school. Pending reconciliation, the lender may rely on the most recent credible information it has."

Changes: None.

Comment: A number of commenters suggested that rather than requiring guaranty agencies to use the report format specified in appendix B for the student status confirmation report, the Secretary should specify only the data elements that must be included and let the format be developed by guaranty agencies and other program participants. Many commenters wholeheartedly supported the establishment of a uniform system for monitoring student enrollment status.

Discussion: In the "Comments and Responses" to the final FFEL regulations published on November 10, 1986, the Secretary noted his concern "with the administrative burden that might be imposed on schools if each agency adopts a different monitoring system." See 51 FR 40941. No uniform system for monitoring student-enrollment status has been established voluntarily in the intervening years. Therefore, the Secretary, in response to continuing requests from schools to establish such a system, is mandating that guaranty agencies use the form specified in appendix B of these regulations, unless the Secretary notifies the guaranty agency that other data elements or a revised format may be used.

Changes: The regulations have been revised to require the guaranty agency to use appendix B, unless notified by the Secretary that other data elements or a revised format may be used. The Secretary has also revised appendix B to provide definitions that apply to the data elements.

Section 682.401(d)(1)

Comment: Many commenters asked the Secretary to include a provision in the regulations that requires the school or a Multiple Data Entry (MDE) service to provide, without cost, the items on the common financial aid form that could not be included in the loan application.

Discussion: The Secretary does not believe a regulatory change is necessary and will ensure that a guaranty agency has access without cost to the data that is needed by the guaranty agency but that may not be included on the loan application.

Changes: None.

Section 682.401(e)

Comment: A number of commenters asked that Dear Colleague Letter 89–G–157, which dealt with inducements by lenders and guaranty agencies, be incorporated into the regulations.

Discussion: Dear Colleague Letter 89–G–157, issued in February 1989, described a number of scenarios that the Secretary would consider improper inducements and a number of scenarios that he would not consider to be inducements. Nothing in these regulations invalidates that guidance. The Secretary declines, however, to incorporate the contents of the letter into the regulations.

Changes: None.

Section 682.402 Death, Disability and Bankruptcy Payments

Section 682.402(a)(3)

Comment: Many commenters suggested that the Secretary should reinsure a death, disability, or bankruptcy claim even if the loan would not qualify for payment as a default claim. They suggested the lender's activity or inactivity has no relation to the borrower's present condition.

Discussion: The Secretary agrees that the lender's actions had no bearing on the condition that would otherwise qualify the borrower for cancellation. The same cannot be said about the effect of the lender's failure to service the loan properly on the repayment status of the loan before the cancellation. Therefore, the Secretary continues to believe that a claim that is not otherwise eligible for a default claim before cancellation should not be paid simply as a result of an unrelated condition of the borrower.

Changes: None.

Section 682.402(b)(3)

Comment: Several commenters requested that the Secretary increase the period for suspension of collection activities pending receipt of documentation verifying a borrower's death to 60 days from the proposed 30 days. They argued that the proposed rule provided lenders with insufficient time to secure the required documentation and placed them in the position of having to resume collection activities with the borrower's bereaved family.

Discussion: The Secretary understands the commenters' reluctance to resume collection activities under these circumstances. However, the Secretary believes that 30 days is a sufficient period to secure documentation of a borrower's death in light of the fact that, in addition to a death certificate, a lender may accept "other proof of death that is acceptable under applicable State law" or, if that is not available, "other evidence" that the guaranty agency believes establishes that the borrower has died. The Secretary believes that in many States the borrower's obituary notice is sufficient to document the borrower's death. "Other evidence" may also include, but is not limited to, a published account of a borrower's death in a newspaper or other published report or a letter from a member of the clergy or funeral home director in a position to verify the death.

Changes: None.

Section 682.402(d)(2)

Comment: Several commenters requested that the Secretary revise § 682.402(d)(2) to provide that if a lender receives notification of a borrower's bankruptcy filing in the form of a written notice from the borrower's attorney, the notice must specify the name and address of the court in which the bankruptcy petition was filed and the case number. The commenters believe this additional information is necessary because written notices sometimes reflect a borrower's intention to file rather than an actual filing.

Discussion: The Secretary understands that written notices can sometimes be misleading. However, he believes that being overly prescriptive in detailing the contents of the written notice will result in a lack of lender response to notices that do not contain exactly the information prescribed in

the regulations. The Secretary expects the lender to follow up with the attorney or the borrower if it receives a written notice that does not include all the information necessary to conclude that a bankruptcy petition has been filed.

Changes: None.

Section 662.402(d)(4)

Comment: A number of commenters noted that there was no mention in the regulations as to what procedures a lender should follow if it receives notice that a bankruptcy court has converted a "no asset" case to an "asset" case. The commenters suggested that the lender should be required to file a proof of claim with the bankruptcy court within 30 days after receiving such a notice from the court.

Discussion: The Secretary agrees with the commenters. It is not uncommon for a bankruptcy court to decide that the borrower does have assets even though the original bankruptcy petition stated that no assets were available.

Changes: The Secretary has added a provision to the regulation to require a lender to file a proof of claim with the bankruptcy court within 30 days after receiving notice that a "no asset" case has been converted to an "asset" case.

Section 682.402(d)(5)

Comment: Several commenters requested that the Secretary clarify that, in the case of a Consolidation loan, the seven-year period in which a Title IV student loan cannot be discharged in bankruptcy begins when the Consolidation loan enters repayment rather than when the loans that were consolidated entered repayment.

Discussion: Section 682.402(d)(5) of the regulations, which addresses the circumstances under which a lender must file a bankruptcy claim with the guaranty agency, specifies that "the loan has been in repayment for more than seven years * * * from the due date of the first payment until the date of the filing of the petition for relief * * *." The Secretary notes that "the loan" as used in the regulations includes a Consolidation loan and that the seven-year period of nondischargeability commences from the due date of the first payment on the Consolidation loan rather than from the due date of the first payment on the underlying loans paid off by the Consolidation loan.

Changes: None.

Comment: A number of commenters felt the language in the regulations requiring a lender to file a bankruptcy claim if the borrower "has begun an action" to have the loan discharged was unnecessarily vague. The commenters believed that the language concerning the lender learning of a bankruptcy action should refer to the lender receiving a "summons and complaint" to determine dischargeability based on undue hardship.

Discussion: The term "summons and complaint" is the correct technical term for what the lender should receive if the dischargeability of a loan is going to be addressed to a bankruptcy court. However, the Secretary also recognizes that a lender might learn of a bankruptcy petition or action filed by the borrower through other means. The general language of the regulations requires the lender to take action to protect the loan from being discharged on the basis of information that might not necessarily come as a formal "summons and complaint" from the bankruptcy court.

Changes: None.

Section 682.402(d)(5)(ii)

Comment: Several commenters requested that the regulations be revised to allow a lender, after a bankruptcy proceeding has been completed or dismissed, to treat the loan as having been in forbearance from the date of the borrower's delinquency preceding the filing of the bankruptcy petition rather than from the date of the borrower's filing of the petition as proposed. The commenters believe that this will improve the lender's chances of averting a default by a borrower who might have been severely delinquent prior to filing a bankruptcy petition and who will continue to have difficulty making payments on a FFEL loan after the stay on collections is lifted.

Discussion: The Secretary understands the commenter's concerns and agrees that lenders should have greater flexibility in assisting borrowers in these circumstances to avoid default. However, the Secretary has decided to provide for this treatment by revising § 682.211 of the regulations rather than making a change to § 682.402.

Changes: None.

Section 682.402(e)(2)(ii)

Comments: Several commenters recommended revisions to the filing deadlines for a lender to file a bankruptcy claim with the guaranty agency. One commenter stated that the deadline for submission of a bankruptcy claim should never be less than 30 days and recommended that the Secretary allow a guaranty agency to provide a longer filing period if it believes this will not in any way hamper its ability to oppose the discharge of the loan. The commenter indicated that he knew of no instance where a 30-day period prevented an agency from opposing a discharge. Other commenters objected to the 10 (calendar) day standard included in § 682.402(e)(2)(ii)(C) because they believe this is an insufficient period for claim filing. These commenters recommended that the provision be revised to 10 business days or 15 days.

Discussion: The Secretary believes that bankruptcy claims must be handled as expeditiously as possible to provide guaranty agencies with sufficient time to successfully oppose the discharge of the loan. The Secretary does not agree that 30 days is always sufficient time. The Secretary also believes that, given the increased number of bankruptcy filings nationwide, standard filing deadlines are important. Therefore, the Secretary declines to allow a guaranty agency to establish its own filing deadlines. The Secretary agrees that 10 calendar days might be insufficient time for claim filing if it includes a holiday period. Therefore, the regulations have been revised to provide 15 days.

Changes: Section 682.402(e)(2)(ii)(B) has been revised to provide the lender with 15 days to file a claim with the guaranty agency after the lender is served with a complaint or motion to have a loan determined to be dischargeable on the grounds of undue hardship.

Section 682.402(h)(5)

Comment: Several commenters objected to the proposed requirement that a lender repurchase a loan if a judgment is entered that the loan is non-dischargeable in bankruptcy or a discharge is denied to the borrower on any ground. The commenters stated that it is possible that the lender required to repurchase the claim might no longer participate in the FFEL program and that these repurchases will result in borrower confusion. They also stated that a borrower who has filed a bankruptcy petition is unlikely to be able to repay the loan and is likely to default on the loan. Therefore, they recommended that the borrower be required to make payments to the guaranty agency sufficient for the borrower to rehabilitate the loan.

Discussion: The Secretary believes that a loan subject to repurchase under these provisions should be handled like all other loans subject to pre-default collection and that the lender is the party best equipped to deal with these loans. If the guaranty agency should find that a lender that would be expected to repurchase a loan has withdrawn from the program, the Secretary would expect the agency to arrange a repurchase by another eligible

lender in its program. The Secretary also believes, contrary to the commenter's view, that a borrower who has filed a bankruptcy petition and has discharged other debts might be in a better position to repay his or her FFEL loan than prior to the bankruptcy filing. Finally, the Secretary is requiring the repurchase of loans that were not in default at the time the bankruptcy petition was filed. Loans that were in default prior to the borrower's filing of the bankruptcy petition would remain with the guaranty agency and loan rehabilitation and repurchase would be an option available to the borrower.

Changes: None.

Section 682.402(i)

Comment: Many commenters strongly supported the proposed change in the treatment of chapter 13 bankruptcy claims that provides that the Secretary would reimburse the guaranty agency for its losses after it pays those claims to lenders. Several commenters requested that the Secretary clarify that this treatment would apply to chapter 13 bankruptcy claims paid to lenders prior to the date these regulations become effective and held currently by the guaranty agency.

Discussion: The Secretary agrees that it is necessary to clarify that the provisions contained in § 682.402(i) apply to chapter 13 claims paid to lenders prior to the date these regulations become effective and held currently by the guaranty agencies, in addition to any claims paid subsequent to the date the regulations become effective. However, the Secretary does not believe a revision to the regulations is necessary.

Changes: None.

Section 682.404 Federal Reinsurance Agreement

Section 682.404(a)(2)

Comment: Some commenters objected to the definition of preclaims assistance as at least three collection activities by the guaranty agency. If preclaims assistance is available only at the 90th day of delinquency, the commenters believe that there will not be enough time for the agency to comply with the statutory requirement that supplemental preclaims assistance be performed.

Discussion: While there is a requirement that supplemental preclaims assistance be performed on or after the 120th day of delinquency, there is no similar requirement regarding the timing of preclaims assistance. If a guaranty agency offering preclaims assistance only at the 90th day of delinquency feels that it is incapable of performing three collection activities in 30 days before beginning supplemental preclaims assistance at day 120, it should consider making preclaims assistance available to its lenders earlier (e.g., at the 60th day of delinquency).

Changes: None.

Section 682.404(g)(2)

Comment: A number of commenters stated that the Secretary's equitable share of payments received on defaulted loans should not apply to collection costs guaranty agencies charge on those loans. These commenters believe that section 428(c)(2)(D) of the Act limits the Secretary's equitable share only to payments made to reduce outstanding principal and interest owed by the borrower. The commenters also believe that since the Secretary does not provide reinsurance for collection costs it is inappropriate to deduct the Secretary's equitable share from these costs.

Discussion: Section 428(c)(2)(D) of the Act specifies that an agreement between the Secretary and a guaranty agency "shall provide that if * * * any payments are made in discharge of the obligation incurred by the borrower * * * (including any payment of interest accruing on such loan * * *), there shall be paid over to the Secretary * * * (a) proportion of the amounts of such payments * * *" Thus, this provision clearly states that a portion of all payments made by a borrower on a defaulted loan held by a guaranty agency goes to the Secretary. The debtor's obligation includes principal, interest, and collection costs under section 484A(b)(1) of the Act. An agency receives reimbursement for its cost of collecting a defaulted loan through the portion of the collected amounts it is allowed to keep. By assessing and collecting these costs (even though it may only keep a portion of the collection), an agency receives more than if it had never assessed collection costs.

Changes: None.

Section 682.404(g)(3)

Comment: A number of commenters objected to the proposal that the Secretary's equitable share of payments made on defaulted loans be forwarded to the Secretary within 30 days of receipt of those payments because this would conflict with the contracts many guaranty agencies have with their collection contractors. The commenters also argued that it would be difficult to reflect end-of-the-month collections on the monthly reports to the Secretary.

Discussion: Many guaranty agencies use outside collection contractors. In fact, the alternative collection procedure for defaulted loans in § 682.410(b) requires an agency to use outside collection contractors if the guaranty agency's own efforts to bring the borrower into repayment are unsuccessful. The Secretary recognizes that as payments to the Department are made once a month, it would be unlikely that a payment made at the end of the month would be included in that month's payment to the Secretary.

Changes: The regulations have been amended to allow guaranty agencies 45 days from receipt of payments made on defaulted loans to send the Secretary's equitable share of those payments to the Secretary.

Section 682.406 Conditions of Reinsurance Coverage

Section 682.406(a)(2)

Comment: Many commenters opposed the proposal that the lender provide a payment history and a collection history to the guaranty agency with a default claim. Several commenters believe that the collection history should be required only on the most recent 180 days before the borrower defaulted on the loan.

Discussion: One of the greatest areas of dispute with borrowers is how loan payments have been applied. Without a payment history in the file, it is impossible for the guaranty agency to determine if payments have been applied properly. If a loan is transferred to another servicing system, a print-out of the payment history should be maintained in the borrower's file to meet this requirement. While it is true that in reviewing the due diligence performed on a loan the Secretary is concerned with the 180-day delinquency period that preceded the default, an examination of the activity that occurred on the account before it became delinquent is equally important. A report on this activity is used to verify the repayment status of the borrower at the beginning of the delinquency period.

Changes: None.

Section 682.406(a)(5)

Comment: Many commenters objected to the proposal that would require, as a condition of reinsurance, that a claim returned to the lender due to inadequate documentation be resubmitted to the guaranty agency within 30 days. Many commenters felt that 60 or 90 days should be permitted, while other commenters stated that lenders should be allowed a "reasonable" time to resubmit such a claim. One commenter stated that an interest limitation on

resubmitted claims would better ensure that returned claims are resubmitted in a timely manner rather than having resubmission of the claim required within a given number of days as a condition of reinsurance.

Discussion: The Secretary is concerned that loans eligible for default claim payments be processed quickly to allow the guaranty agency to begin its collection efforts against the borrower at the earliest possible time. The Secretary also is concerned that a lender not file a claim it knows is incomplete and will be rejected solely to avoid missing the timely filing deadline or to extend the period for which the lender may receive interest and special allowance payments. The Secretary also recognizes that there are occasions when a claim submitted to the guaranty agency does not initially satisfy the requirements for claim payment but can do so with additional documentation or explanation.

Changes: The Secretary has changed the regulations to provide that a lender may receive full reimbursement for outstanding principal, accrued interest, and special allowance if an otherwise eligible claim that has been returned solely because of inadequate documentation is resubmitted within 30 days after the date the agency returned the claim. If the lender resubmits the claim by the 60th day after the claim was returned by the guaranty agency, principal is reinsured but interest payments will be limited to the 30th day after the claim is returned. The timely filing violation on otherwise eligible claims not resubmitted by the 60th day after being returned by the guaranty agency must be cured using the procedures set forth in Bulletin 88–G–139 (appendix D).

Section 682.406(a)(7)

Comment: Many commenters strenuously opposed the proposed requirement that a guaranty agency pay or return a default claim to a lender within 45 days of the date the lender filed the claim in order for interest accruing beyond the 45th day to be reinsured. The commenters felt that the increased administrative burden to review claims quickly would outweigh any costs realized by the reduction in time allowed guaranty agencies to pay or return claims. Many commenters believed that 45 days would not provide sufficient time for a guaranty agency to adequately review a claim. Other commenters noted that some guaranty agencies begin collection activity when a claim is submitted and that it was not uncommon for this collection activity to be instrumental in causing the borrower to reduce the delinquency status sufficient to bring the loan out of default. Many commenters suggested that the proposed rule might actually increase defaults because a borrower would no longer have the benefit of this additional collection activity.

Discussion: The Secretary believes that it is necessary for the default claim to be reviewed and paid promptly to reduce the amount of the default claim and to allow the guaranty agency to begin collection activity against the defaulted borrower. If an agency is able to bring a borrower into repayment so quickly after the lender has failed to collect on the loan, the Secretary believes it calls into question the lender's collection efforts. However, the Secretary recognizes that in some circumstances (e.g., an unusually large volume of default claims), it might be difficult for a guaranty agency to adequately review a claim within 45 days and, therefore, he has extended to 60 days the deadline by which a guaranty agency must pay a default claim to receive reinsurance on all otherwise eligible accrued interest. The Secretary wishes to clarify that if a claim is paid after the 60th day, and the guaranty agency's agreement with the lender covers accrued interest, the guaranty agency is required to pay the interest accruing after the 60th day to the lender even though this interest is not eligible for reinsurance. In consideration of commenters' concerns regarding the change in procedures required by this provision, the Secretary is delaying the date this requirement becomes effective.

Changes: The Secretary has extended to 60 days the deadline by which a guaranty agency must pay a default claim to receive reinsurance on all otherwise eligible accrued interest.

Section 682.406(a)(9)

Comment: Some commenters objected to the proposal establishing, as a condition of reinsurance, the requirement that a loan be legally enforceable when the agency pays the claim. The commenters argued that a number of events relevant to the enforceability of the loan may have occurred without the guaranty agency's or lender's knowledge.

Discussion: The Secretary notes that it has always been the Department's policy that a loan be legally enforceable if it is to be insured or reinsured by the Secretary. This provision, which is now contained in § 682.406(a)(10), is not new and merely codifies within the regulations a long-standing policy that has been part of the FISL and the FFEL programs since their inception.

Discussion: A guaranty agency may use the assets of its reserve fund only as permitted by § 682.410(a). Paragraph (a)(3) of that section permits a guaranty agency to use a specific portion of its reserve funds "* * * only for payments necessary to perform functions directly related to the guaranty agency's agreement with the Secretary and for proper administration of the guaranty agency's FFEL loan guarantee activities." The costs of operating a loan servicer for loans that have not yet defaulted clearly are unrelated to the expenses incurred by a guaranty agency in providing loan guarantees to lenders and are, therefore, not permissible.

This policy applied to all agencies as of December 26, 1986, the date the final regulations published by the Department on November 10, 1986 went into effect. The Secretary believes that the use of any reserve funds for for-profit enterprises is not permitted because of the risk to funds dedicated to the FFEL program.

Changes: None.

Section 682.410(a)(3)

Comment: Several commenters objected to the proposed restrictions on the use of borrower payments by guaranty agencies contained in § 682.410(a)(3)(iv). The commenters believed that these restrictions conflict with section 428(c)(6) of the Act, which allows guaranty agencies to use the percentage it retains of borrower payments "for costs related to the student loan insurance program, including the administrative costs of collection * * *"

Discussion: The Secretary agrees with the commenters that the proposed restrictions represent a narrow interpretation of the intent of the statute and that agencies should be allowed to use borrower payments for activities supporting the proper administration of the guaranty agency's loan guarantee activities.

Changes: Section 682.410(a)(3)(iv) has been deleted and "amounts collected on FFEL loans" has been added to the other items specified in § 682.410(a)(3)(i) that can be used to support the agency's administration of its loan guarantee activities.

Section 682.410(b)(2)

Comment: Many commenters objected to the requirement that a guaranty agency must assess collection charges against the borrower. Other commenters stated that if collection charges had to be assessed, a flat rate should be used by each guaranty agency.

Discussion: The statute clearly specifies that, notwithstanding any

provision of State law to the contrary, collection charges must be assessed against the borrower. See section 484A(b) of the Act. The formula referenced in § 682.410(b)(2) specifies that the amount charged will be the lesser of the costs of collection under the formula in 34 CFR 30.60, or the amount the borrower would be charged if the loan was held by the Department. This amount will be a percentage of the principal and interest outstanding, may be calculated annually, and would be a flat rate assessed against all borrowers with defaulted loans held by that agency.

Changes: None.

Section 682.410(b)(4)

Comment: Some commenters questioned what charges a guaranty agency may capitalize after a default claim has been paid.

Discussion: A guaranty agency is required to capitalize any interest owed on the loan by the borrower. This may include interest that was not paid to the lender by the guaranty agency and interest paid by the guaranty agency that will not be reimbursed by the Secretary.

Changes: This provision of the regulations has been amended to clarify that all interest, rather than "unpaid charges" owed by the borrower, must be capitalized by the guaranty agency.

Section 682.410(b)(5)

Comment: Many commenters vigorously opposed the provision that requires a guaranty agency to grant a borrower an opportunity for an administrative review of the legal enforceability or past-due status of the loan obligation before reporting the default to a credit bureau or assessing collection costs against the borrower. The commenters stated that a defaulted borrower had already had ample opportunity throughout the repayment period to protest the debt and that the administrative review would result in a substantial administrative burden for an agency and would delay any recovery of the debt. In addition, the commenters felt that section 430A of the Act set the parameters of credit bureau reporting for the FFEL programs and that an opportunity for an administrative review was inconsistent with congressional intent.

Discussion: Federal law requires notice and opportunity to contest a debt before a default is reported to a credit bureau. See 31 U.S.C. 3711(f). Moreover, in light of the serious consequences of credit bureau reporting for a borrower, the Secretary believes it reasonable and appropriate for a borrower to have an opportunity to contest the default. The Secretary believes that a guaranty agency should not have difficulty implementing this requirement as it already provides an opportunity for review when it assigns a loan to the Secretary for participation in the Internal Revenue Service (IRS) offset process. The statute authorizing Federal agencies to collect debts by administrative offset also requires the agency to provide a debtor with notice of a proposed IRS offset and at least 60 days in which to present evidence regarding the debt. See 31 U.S.C. 3720A. In the FFEL program, the Secretary provides this opportunity to a debtor by a review and an initial determination by the guaranty agency that held the debtor's loan and maintains records of that loan account. At this time, virtually all guaranty agencies participate in the IRS offset procedures. When a guaranty agency submits loans to the Department for collection through IRS tax-offset, it certifies that the affected borrowers have been granted an opportunity for an administrative review. Both 31 U.S.C. 3711(f) and 31 U.S.C. 3720A require a 60-day notice period and an opportunity for an administrative review of the debt. The administrative review procedures outlined in the regulations meet the credit bureau reporting requirements and the requirements for participation in the IRS offset process. Once the opportunity for an administrative review has been offered to the borrower, the guaranty agency is not required to offer it again. The Secretary expects the volume of requests for administrative reviews received by a guaranty agency to be manageable.

Changes: The Secretary has retained the requirement that borrowers be given an opportunity for an administrative review before a guaranty agency reports the debt to a credit bureau. However, to reduce both the administrative burden for agencies and possible confusion for borrowers, the Secretary has modified § 682.410(b)(6) to provide that the initial notices sent to borrowers in the administrative review process shall also serve as the initial collection activities for purposes of collecting the loan under § 682.410(b)(6).

Section 682.410(b)(7)

Comment: Some commenters objected to the proposed requirement in the alternative due diligence collection procedures for guaranty agencies that a guaranty agency refer all loans to one or more collection contractors if its collection efforts are unsuccessful. The commenters believe the agency should be allowed to retain some loans to compete with the collection contractors.

Discussion: A major underlying premise of the proposed alternative due diligence collection procedures is that a guaranty agency will do everything possible within the 180 days during which it attempts to collect to bring the borrower into repayment. If the borrower does not begin repayment, the amount the agency is allowed to retain after paying the Secretary's equitable share and the contingency fee to the collection contractor is much smaller than the amount it would retain if it brought the borrower into repayment through its own efforts. The Secretary believes that there would be little incentive for the guaranty agency to vigorously pursue repayment within the allotted 180-day period if the guaranty agency were allowed to continue to collect on loans after that period.

Changes: None.

Section 682.410(c)(11)

Comment: Many commenters opposed the provision that would require a guaranty agency to provide training and technical assistance or to act as an escrow agent for a school that is experiencing financial difficulty. These commenters felt that a guaranty agency should not "prop-up" a school that is experiencing financial difficulty.

Discussion: The Secretary agrees that it is not always in the best interest of the FFEL program to prolong the existence of schools that are in financial difficulty.

Changes: The Secretary has amended the regulations to require a guaranty agency to provide training and technical assistance, if appropriate, to a school or holder experiencing financial problems and has deleted the provision that would have required a guaranty agency to act as an escrow agent.

Section 682.411 Due Diligence by Lenders in the Collection of Guaranty Agency Loans

Comment: The Department received many comments regarding the due diligence requirements for lenders collecting loans guaranteed by a guaranty agency. Virtually all the commenters commended the Department's willingness to be more accommodating to lenders' concerns and to reduce the opportunity for a loan to lose reinsurance because of incidental violations of the due diligence collection requirements. While some commenters approved of the proposed procedures with minor modifications, others felt that a complete reworking of the procedures focusing on performance-based standards related to the lender's default rate or compliance with a given standard would better

achieve the goals of reducing default and minimizing the lender's risk of losing reinsurance on a loan. A number of other commenters felt that retaining the standards set forth in the Department's current regulations and cure procedures would be preferable to adopting another standard. Other commenters felt the previous standards should be maintained but that the cure procedures for loans that have lost reinsurance should be relaxed.

Discussion: The Secretary is sympathetic to the commenters' concerns that a lender should not face an undue risk of loss of reinsurance because of technical violations of a collection standard. However, the Secretary is also convinced that the level and intensity of effort expended in the collection of a student loan relates directly to the likelihood of its default. One commenter, in supporting the Secretary's development of performance-based collection standards, noted that stringent standards are necessary for some lenders but are inappropriate for others because of the care and diligence with which those lenders exercise their fiduciary obligations. The Secretary believes that, while performance standards for lenders might be attractive, establishing an acceptable standard of performance is not possible because the make-up of lenders' portfolios differs greatly, e.g., by type of school and region of the country, etc. Compliance with a given performance standard also presents difficulties because an audit using a statistically valid sample of a lender's entire student loan portfolio, not just claims submitted, would have to be used to determine an acceptable level of compliance. Changes that occur subsequent to the audit that affect compliance, e.g., loan volume, personnel or computer changes, etc., could not be accounted for or even anticipated by the audit. Finally, given the serious and detrimental effect of a defaulted loan to the borrower, the Secretary is strongly opposed to the idea that a default claim could be paid by a guaranty agency without a review by the agency to ensure that the borrower was given the opportunity to respond to a diligent collection effort on the loan. Establishing different standards for different lenders would make that review extremely difficult and time-consuming. The commenters who generally supported the proposed § 682.411 felt that some modifications would be necessary for lenders to be able to continue to use the collection systems designed to meet the standards in the current FFEL program regulations. It has always been the Secretary's intent that lenders and servicers that made substantial investments in systems to meet the existing collection requirements should be able to meet the new requirements without making substantial modifications to their systems.

The cure procedures that were issued in March 1988 and published as appendix D of the NPRM will not be relaxed. They were developed after extensive discussion and consultation with representatives of the lender and guaranty agency community and the Secretary continues to believe that they adequately address good-faith violations of the regulatory requirements.

Changes: After carefully reviewing the comments received on § 682.411 and meeting with various representatives of the industry, the Secretary has decided to adopt, with some modifications, the standards proposed in the NPRM. The Secretary has amended the regulations so that no required collection activity during a borrower's delinquency is contingent upon the timing, success, or failure of another collection activity. In addition, the Secretary has changed the due diligence requirements to ensure telephone collection efforts will be used throughout the delinquency cycle, rather than only at the beginning or end, as the Secretary believes that telephone collection activity is most effective if used at regular intervals throughout the delinquency.

Section 682.411(a)

Comment: Many commenters indicated that the language in the NPRM concerning the due diligence requirements for endorsers was unclear. Other commenters opposed the Secretary's proposal to regulate due diligence for endorsers and felt it only would discourage the use of endorsers. Other commenters noted that some State laws prohibit collection efforts against an endorser until after default. Many commenters were also concerned about the consequences of failing to complete the collection activities required of endorsers.

Discussion: The Secretary believes that the use of endorsers can be an effective means of reducing defaults. However, the value of having an endorser on a loan is eliminated if the endorser is not subject to collection activity when the loan becomes delinquent. The Secretary believes that the collection activities undertaken for an endorser should differ from those applied to the borrower and generally should not begin until the borrower is significantly delinquent. Any State law that normally would prohibit collection activity against an endorser from occurring before default occurs is preempted by § 682.411(n).

Changes: Section 682.411(m) has been added to the regulations to clarify that an endorser on a loan must receive at least two collection letters in addition to a final demand letter and at least one diligent effort for telephone contact. If during the delinquency cycle, but prior to the sending of the final demand letter, the lender receives information indicating it does not know the address of the endorser, the lender must attempt to locate the endorser through the use of normal skip-tracing techniques, which must include at least an inquiry to directory assistance. In addition, § 682.406(a)(3) has been revised to state explicitly that due diligence against an endorser is a condition of reinsurance. If a lender fails to perform all, or any portion of, the required due diligence with an endorser, the loan will not be eligible for reinsurance until the missing activities have been performed. The lender may perform the collection activities late, but the timely-filing deadlines and associated penalties still apply. Missed due diligence activities with an endorser will not be counted as violations but must be performed.

Comment: Several commenters noted that the term "outside the United States" would exclude telephone efforts against borrowers residing in Puerto Rico, Canada, and Mexico who are easily accessible by telephone.

Discussion: The Secretary agrees with the commenters that diligent telephone efforts to contact borrowers residing in these areas should not be excluded.

Changes: The regulations have been revised to provide that the lender must make telephone calls to borrowers who reside in a State (as that term is defined in § 668.2), Canada, and Mexico.

Section 682.411(b)

Comment: A number of commenters were concerned about how violations would be counted if the first payment due date was not established in a timely manner.

Discussion: Section II of appendix D discusses the requirements for establishment of the first payment due date. The deadlines and penalties outlined in that discussion are based on the current regulations under which a violation could not occur until the 31st day of delinquency. The penalties increase depending upon how late the first payment due date is established. Under the new standards contained in § 682.411, a violation occurs if the first payment due date does not occur by the deadline contained in § 682.411(b). The Secretary has decided that in

determining the penalties to be associated with the failure to establish a first payment due date on a timely basis, the Secretary will look at the period between when the first payment due date should have been established according to § 682.411(b) and the date of the actual first payment due date. If this period is more than 45 days, reinsurance is lost, any special allowance received for the period that begins 31 days after the date the first payment due date should have been established according to § 682.411(b) must be returned, and the lender must receive a full payment or signed repayment agreement in order for reinsurance to be reinstated. If this period is more than 35 days, but not more than 45 days, a single violation will be assessed against the lender.

Changes: None.

Comment: Several commenters opposed the inclusion of the phrase "more than half of which" payment is later made. The commenters believed that this wording would require a major change to the collection systems of many lenders. They believed that lenders should not be required to count one half of a payment as advancing the due date and curing delinquency for that month. Many commenters believed that the language should be revised to allow a guaranty agency to determine a reasonable payment-shortfall tolerance if a full payment is not received before the date the lender must consider the borrower delinquent.

Discussion: The Secretary recognizes that the language as written might create substantial administrative burden associated with half payments. The Secretary agrees that a reasonable payment-shortfall tolerance amount needs to be established under which a lender need not initiate collection activities if the lender's system allows for such a tolerance. The Secretary also believes that such a tolerance must be standardized across the FFEL program and not vary by guaranty agency.

Changes: The regulations have been revised to provide that a payment that is within $5 of the amount required to advance the due date may advance the due date if the lender's procedures allow for that advancement.

Section 682.411(c)

Comment: Many commenters objected to the proposal that the first collection notice be sent by the 10th day of delinquency. Some commenters submitted data showing that many borrowers who do not meet the payment due date make a payment shortly afterward. Commenters believe that sending a delinquency notice to a borrower so soon after the payment due date was missed is counterproductive and will increase costs to the lender without any commensurate benefit to the FFEL programs. Commenters also pointed out that to provide themselves sufficient lead time to comply with this requirement, lenders would have to reprogram their computer systems to generate the late notices no later than the seventh day of delinquency.

Discussion: The Secretary believes that a notice sent very early in a borrower's delinquency impresses upon the borrower the seriousness of the delinquency status and provides greater incentive to the borrower to make a payment to bring the loan current and avoid further delinquency and default. The Secretary does not believe that lenders will incur significantly greater costs by sending the initial collection notice by the 10th day of delinquency rather than at a slightly later date.

Changes: None.

Section 682.411(d)

Comment: A number of commenters objected to the proposed requirement in the NPRM that each collection letter sent to a borrower must include the consequences of default, including the possibility that litigation may be initiated against the borrower by the guaranty agency. The commenters felt that collection letters sent during the delinquency cycle should be progressively more forceful to be most effective.

Discussion: The Secretary agrees that sending an extremely forceful collection letter early in the delinquency cycle may needlessly alienate a borrower who, for any number of reasons, is experiencing a short-term delinquency. The Secretary also agrees that a series of progressively more forceful collection letters is likely to be more effective than a series of identical letters.

Changes: The regulations have been amended to require that only two of the four letters that lenders are required to send to delinquent borrowers outline the consequences of default. Although the timing of these letters is left to the discretion of the lender, the Secretary intends that the two most forceful letters should be sent late in the delinquency cycle, when they are likely to have the greatest effect on the borrower.

Comment: A number of commenters observed that the language in the NPRM required the final demand letter to be sent after the 180th day of delinquency. The commenters felt that the lender should be able to send the final demand letter earlier than the 180th day of delinquency in order to have more time to prepare and file the claim with the guaranty agency.

Discussion: The Secretary agrees with the commenters. The lender is required to wait 30 days after sending the final demand letter before filing a default claim to give the borrower a chance to respond before a claim is filed with the guaranty agency. The Secretary understands that the proposed rule would have left the lender with only a short time period to file a timely claim.

Changes: The regulations have been amended to allow the lender to send the final demand letter on or after the 151st day of delinquency.

Section 682.411(e)

Comment: A number of commenters objected to the provision that would have required a borrower, after the final demand letter had been sent, to avert default only by making payments sufficient to bring the loan current. The commenters felt that lenders should have the option of not filing a default claim if the borrower could make payments sufficient to bring the loan out of default or sign a forbearance agreement to cover all or some portion of the delinquency.

Discussion: The Secretary agrees with the commenters that there might be circumstances where the borrower might be able to reduce the extent of the delinquency, and thus avoid default, but still not be able to repay the loan in full.

Changes: The Secretary has revised the regulations to allow the lender to permit a borrower who is more than 180 days delinquent to avert default by bringing his or her account less than 180 days delinquent. The requirement that the borrower accomplish this by making payments has been deleted.

Section 682.411(g)

Comment: A commenter requested that the Secretary clarify whether skip-tracing may be undertaken on a borrower prior to the skip-tracing of a delinquent borrower required under § 682.411(g) and, if it is undertaken but unsuccessful, whether skip-tracing activities must be repeated when the borrower becomes delinquent. The commenter stated his belief that skip-tracing should be undertaken as soon as the lender receives information indicating the address of the borrower is unknown, even if this takes place in the grace period prior to the borrower entering repayment.

Discussion: The Secretary agrees with the commenter that a lender should have the flexibility to undertake skip-tracing activities as soon as the address of a borrower becomes unknown. Furthermore, he strongly supports this

approach to loan collection. The Secretary believes that a lender should not be required, if the skip-tracing activities are unsuccessful, to repeat those activities later in the borrower's delinquency cycle unless the lender receives a payment or some other communication from the borrower indicating the borrower's address.

Changes: The Secretary has added a new paragraph (g) to § 682.208 specifying that a lender may undertake the skip-tracing activities specified in § 682.411(g) when a borrower is not delinquent if the lender receives information indicating that the borrower's address is unknown.

Comment: Many commenters felt that the skip-tracing requirements were unclear and were particularly concerned about what penalties a lender would incur if some or all of the skip-tracing was not performed.

Discussion: The Secretary believes that skip-tracing should begin soon after the lender learns the borrower's address is unknown and continue until all possible sources of information available to the lender regarding the borrower's address have been exhausted. Once these efforts have been concluded, or the final demand letter has been sent, the Secretary does not believe that there is any point in requiring further activity until the loan is eligible for claim payment.

Changes: The Secretary has revised the regulation so that a lender may be considered to have met the requirement to diligently attempt to locate the borrower if it attempts to contact, by the date of default, each individual and entity identified in the borrower's file and if there is no gap of more than 45 days between attempts to contact those individuals or entities. If the lender does not contact one or more of the individuals or entities identified in the borrower's loan file and the borrower's address remains unknown, a single due diligence violation will have occurred. If the guaranty agency requires that the lender request preclaims assistance in the event the borrower's address becomes unknown, and the lender does not request the preclaims assistance within 10 days of when it receives information indicating it does not know the borrower's current address, another violation will be considered to have occurred. If a lender performs no skip-tracing on a borrower whose address is unknown, up to three violations would be considered to have occurred. However, under the definition of "Gap in collection activity" in § 682.411(i), a gap begins the day after a lender receives information indicating the lender does not know the borrower's current address. A gap is also defined as the period between collection activities. Any attempt to contact an individual or entity in the borrower's loan file is a collection activity. A gap of more than 45 days (60 for a transfer), necessitates a cure via the lender's receipt of a signed repayment obligation or a full payment. See appendix D. If a lender does not contact each individual or entity in the borrower's loan file by the date of default, but no gap of more than 45 days exists, the lender must satisfy the requirements outlined in I.E.1. of appendix D, or receive a full payment, or a new signed repayment agreement for reinsurance to be reinstated.

Section 682.412 Consequences of the Failure of a Borrower or Student to Establish Eligibility

Section 682.412(a)

Comment: Some commenters expressed concern about subjecting borrowers who receive loan proceeds but do not attend classes to the provisions of § 682.412. The commenters recommended that these borrowers be allowed to receive a grace period and begin normal repayment on the loan.

Discussion: Federal student financial assistance is intended to assist students and their parents to meet the costs of postsecondary education. If a student receives a FFEL program loan but does not attend school, that student has no costs of attendance. Therefore, the borrower must repay immediately the funds for which he or she is now ineligible. The Secretary believes that an individual who borrows and does not matriculate should not receive FFEL program benefits such as the grace period or the 10-year repayment period normally provided to student borrowers.

Changes: None.

Comment: Several commenters objected to the subjective evaluation that a lender would be required to make regarding a borrower's intentions under proposed § 682.412. The proposed rules specify that the lender would exercise the provisions of § 682.412 against a borrower if it determined that a borrower's initial eligibility for a FFEL program loan resulted from information that the borrower knew or should have known was incorrect. The commenters stated these such actions should be taken only on the basis of substantiated fact.

Discussion: The Secretary agrees that subjective determinations cannot be made effectively by lenders and that they should only undertake these actions based on information they can substantiate. The Secretary believes these actions should be taken when the lender can substantiate that a borrower, or a student on whose behalf a parent is borrowing, provided false or erroneous information to support his or her eligibility. These situations are to be distinguished from borrower ineligibility resulting from school certification error or lender error in making the loan where the Secretary does not intend the provisions of § 682.412 to apply.

Changes: The regulations have been revised, consistent with the changes made to similar provisions in § 682.208(f) of the regulations, to require a lender to exercise the provisions of § 682.412 when it receives substantiated information supporting the fact that a borrower, or a student on whose behalf a parent is borrowing, provided false or erroneous information upon which his or her eligibility was based or took other actions leading to a borrower's ineligibility. The provisions also apply to borrowers who receive loan proceeds but do not attend classes.

Section 682.414 Records, Reports, and Inspection Requirements for Guaranty Agency Programs

Section 682.414(a)(3)

Comment: Many commenters stated that they believed lenders should be able to keep a copy of a signed repayment obligation or an affidavit of the borrower's debt in lieu of the original application and promissory note.

Discussion: The Secretary continues to feel strongly that any standard of due diligence that lenders are required to exercise should require that the lender maintain a copy of the original documents that are the basis of the debt. While a signed repayment obligation or affidavit may reflect the borrower's affirmation of the debt's existence, the Secretary believes it would be inconsistent with his responsibilities to allow these types of documents to be retained in lieu of the original application and promissory note.

Changes: None.

Section 682.414(c)

Comment: Many commenters questioned the Secretary's authority in § 682.414(c)(2) to prohibit a guaranty agency from requiring the presence of an agency representative during interviews conducted with personnel during a review of the agency. The commenters believe this prohibition denies the agency due process.

Discussion: The Secretary feels that it is imperative that the Department's representatives have complete access to

guaranty agency personnel and records during reviews of the agency's administration of the FFEL programs. The Secretary further believes, and prior experience indicates, that the presence of agency representatives during interviews with personnel or recording the interviews results in less than a candid flow of information among the reviewers and the agency's personnel. The Secretary believes that an agency receives sufficient due process related to findings that might result from a review and that the restriction on attendance at interviews does not deny due process.

Changes: None.

Section 682.502 The Application To Be a Lender

Section 682.502(b)(4)

Comment: In determining whether to enter into an agreement with an applicant to become a participating lender in the Federal GSL programs, one commenter suggested that the Secretary consider the applicant's default track record under the Title IV loan programs.

Discussion: The Secretary believes that § 682.502(b)(4) provides him with sufficient authority to examine a lender's prior default experience to determine whether to enter into an agreement with the lender. This is because it provides that the Secretary will consider "whether the applicant has had prior experience with a similar Federal, State, or private, nonprofit student loan program * * *." The Secretary believes that this allows him to examine all aspects of a lender's previous performance with Title IV and other programs, including the lender's default rates.

Changes: None.

Section 682.505 Insurance Premium

Section 682.505(c)

Comment: One commenter argued that there is no basis for the FISL insurance premium calculation to be any different from the insurance premium calculation required by statute for guaranty agencies.

Discussion: The statute provides for a separate insurance premium calculation for FISL loans. See section 429(c) of the Act.

Changes: None.

Section 682.507 Due Diligence in Collecting a Loan

Section 682.507(a)(1)

Comment: Several commenters stated that § 682.507(a)(1) should allow for the release of endorsers or, if not, the lender should be directed to use the due diligence collection procedures in § 682.411 with cosigners and endorsers. Some commenters argued that the use of endorsers is not allowed in the FISL program and questioned why they are mentioned in the regulations.

Discussion: Section 427(a)(2)(A) of the Act provides, in part, that a loan is insurable by the Secretary if the promissory note or other written agreement is made without security and without endorsement, except endorsement may be required if the borrower is a minor and his or her signature would not create a binding obligation under applicable State law. Clarification regarding the release of endorsers under the FISL program was provided to lenders in Bulletin L–35, dated June 27, 1978. This Bulletin stated that the Secretary would not pay a default claim on a loan made on or after September 30, 1977 that contained an unauthorized endorsement. However, it allowed a lender to release an unauthorized endorser before the loan became delinquent without jeopardizing Federal insurance. The Bulletin stated further that if the borrower was a minor (and could not legally have entered into a contract) at the time the promissory note was executed, the authorized endorser could not be released. Although due diligence steps with respect to authorized endorsers in the FISL program are not specified, the collection activities required for endorsers in § 682.411 are acceptable to the Secretary.

Changes: The Secretary has revised the regulations to reflect that a lender should exercise due diligence in collecting a loan with regard to an authorized endorser.

Comment: Many commenters suggested that the collection procedures for FISL loans should parallel the due diligence collection procedures required of lenders in the guaranty agency program in § 682.411.

Discussion: The Secretary does not believe it is necessary, at this time, to change the FISL due diligence procedures for lenders because loans no longer are being made under the FISL program. However, as there are only minor differences between the requirements of § 682.411 and § 682.507, the Secretary believes lenders should be allowed to use the due diligence procedures in § 682.411 in lieu of the requirements of § 682.507.

Changes: The regulations have been revised to state specifically that a lender may use the due diligence procedures in § 682.411 in lieu of the requirements in § 682.507.

Section 682.508 Assignment of a Loan

Comment: Two commenters suggested that 45 days be inserted in place of the word "promptly" for notifying borrowers of the purchase or assignment of their loans. They believe this will require lenders holding FISLs and FFELs to service them consistently.

Discussion: The Secretary agrees with the commenters that, if possible, consistent servicing of FISL and guaranteed loans is desirable.

Changes: The regulations have been revised to conform to § 682.208(e)(1) and include the 45-day notice requirement suggested by the commenters.

Section 682.513 Factors Affecting Coverage of a Loan Under the Loan Guarantee

Comment: Several commenters recommended that the phrase "* * * or if it would not be payable on a default claim by the Secretary * * *" be removed from § 682.513(b). The commenters argued that a lender should not be at risk for principal on any bankruptcy, death, or disability claim if no action or inaction by the lender affected whether the claim is collectable.

Discussion: The Secretary believes that a due diligence violation affecting the insurability of a loan before the lender's filing of a death, disability, or bankruptcy claim is sufficient grounds to reject payment of a claim. A death, disability, or bankruptcy should not be an assurance to the lender that the claim will be paid. The Secretary believes a lender's assurance for claim payment must be based on its total due diligence performance in making, disbursing, servicing, and collecting the loan.

Changes: None.

Section 682.515 Records, Reports, and Inspection Requirements for Federal GSL Programs Lenders

Section 682.515(a)(3)

Comment: One commenter suggested that this section be modified to allow documents to be retained on optical-disk media.

Discussion: The Secretary agrees with the commenter that other methods for storing and retrieving data should be recognized.

Changes: A change has been made. The Secretary is revising § 682.515(a)(3)(i) to include optical-disk media or other machine readable formats as an optional method for storing and retrieving data. This change has also been made in § 682 414(a)(4)(i).

Section 682.600 Agreement Between an Eligible School and the Secretary for Participation in the FFEL Programs.

Section 682.600(a)(1)

Comment: Several commenters stated that the Secretary should include proprietary institutions and postsecondary vocational institutions in § 682.600(a)(1) because 34 CFR 600.2 defines four types of schools as eligible institutions. The commenters believe that these two regulatory provisions should be consistent to prevent any confusion surrounding the types of institutions that are eligible to participate in the FFEL programs.

Discussion: The Secretary shares the commenters' concern regarding the need to clarify what constitutes an eligible institution. For purposes of the FFEL programs, section 435(a) of the Act and 34 CFR 682.200 specify two types of eligible institutions: institutions of higher education and vocational schools. A school that meets the definition of a vocational school may also meet the definition of proprietary institution or postsecondary vocational institution in 34 CFR 600.2. The school types listed in 34 CFR 600.2 are not mutually exclusive.

Changes: None.

Section 682.600(a)(2)

Comment: One commenter recommended that the Secretary modify proposed § 682.600(a)(2) to permit only the owner or the institution's Chief Executive Officer to sign the written program participation agreement on behalf of the institution. The commenter recommended this because he felt it was the only way to ensure that the institution's most senior management official understood the administrative and fiduciary responsibilities required of a participating school. The commenter did not believe it was in the best interest of the FFEL programs to delegate this responsibility to another authorized official of the school.

Discussion: The Secretary agrees with the commenter that this change is necessary to protect the integrity of the FFEL programs. Further, the program participation agreement form used by the Department allows only for the signature of the Chief Executive Officer of the institution.

Changes: A change has been made. The Secretary has revised the regulations to specify that the Chief Executive Officer of the institution must sign the program participation agreement with the Secretary.

Section 682.601 Rules for a School That Makes or Originates Loans

Section 682.601(a)

Comment: One commenter stated that § 682.601(a)(3) should be modified to stipulate that an eligible school lender may not make loans to more than 25 percent of the undergraduate students at the school.

Discussion: Section 435(d) of the Act specifies that an eligible school lender may make loans to 50 percent of its undergraduate students. The Secretary has no authority to change this statutory provision.

Changes: None.

Comment: A number of commenters recommended that the Secretary retain the paragraph in current regulations that allows the Secretary to consider any evidence that suggests that a school lender may not have provided sufficient counseling to students to seek loans from a commercial lender before the school makes a loan to a student. Any pattern of denial letters or students' sworn statements may reveal that a school lender did not make a good-faith effort to counsel students to obtain loans from a commercial lender.

Discussion: The Secretary agrees with the commenters.

Changes: The paragraph detailing what the Secretary may consider in deciding whether a school has given sufficient counseling to students to seek loans from commercial lenders first has been reinstated.

Section 682.601(b)

Comment: Many commenters stated their objection to the proposed elimination of the requirement that the student have documented evidence that he or she has been denied a loan from a commercial lender before obtaining a loan from a school lender.

Discussion: The Secretary agrees with the commenters that documentation is necessary to implement section 435(d)(2)(D) of the Act. This provision of the Act specifies that, to be an eligible lender of a FFEL loan, a school may not make a loan to an undergraduate student unless the student previously has received a loan from the school or has been denied a loan by an eligible lender.

Changes: A change has been made. The Secretary has revised the regulations to require the student to provide a written statement of denial for a FFEL loan from an eligible commercial lender before applying to the school for a FFEL program loan. Consequently, the written documentation requirement previously contained in § 682.601(c) of the Department's current regulations has been reinstated in these final regulations.

Section 682.601(c)

Comment: One commenter expressed concern that a school might use the factors listed in § 682.601(c) (1), (2), and (3) of the NPRM when requesting a waiver of the 50 percent school lending limit to circumvent the requirements contained in § 682.601(a). The commenter believes that a school should be required to prove that economically disadvantaged students would be better off for having received the training offered by the school when requesting such a waiver. Further, the commenter does not believe "uniqueness" is a valid reason to permit a school to take advantage of a student who may not be a well-informed consumer.

Discussion: The Secretary does not agree. Section 682.601(c) contains some, but not all, of the factors the Secretary uses to evaluate a school's request to waive the 50 percent lending limit because imposing that limit would create substantial hardships for the school's present or prospective students. The Secretary believes that these factors represent reasonable criteria to use in determining whether a waiver will provide access to FFEL program loans to students who otherwise would not have access.

Changes: None.

Section 682.602 Correspondence School Schedule Requirements

Section 682.602(b)

Comment: One commenter objected to the requirement that a correspondence school establish and provide a schedule for lesson submission to a prospective student before the student actually makes a commitment to enroll in a course of study by correspondence. The commenter argued that each schedule is individualized and that the actual lesson due dates for each lesson that makes up the course schedule are contingent upon the student's actual program start date.

Discussion: The Secretary does not agree with the commenter. The Secretary believes that it is essential to provide a prospective student who is considering a program of study by correspondence with a schedule containing sufficient information to help the student make a good decision about undertaking the course of study. The Secretary understands that a course schedule provided before the student enrolls is a tentative schedule that might require later modification. However, the Secretary believes that information

provided to a prospective student on the content of lessons in the program and the sequence of those lessons would greatly assist the student in determining whether a course of study meets his or her individual needs and lifestyle. Finally, the Secretary believes that a prospective student who receives this kind of information is more likely to complete the program successfully.

Changes: None.

Comment: One commenter recommended that the schedule required of correspondence schools also should contain information about the location of any residential training required by the program.

Discussion: The Secretary agrees that the location of residential training is often an important factor in whether a student is able to complete a course of study by correspondence and, therefore, a prospective student should have this information before he or she makes a commitment to a course of study.

Changes: A change has been made. The school is required now to provide the exact location of any required residential training as part of the course schedule given to prospective students.

Section 682.603 Certification by a Participating School in Connection With a Loan Application

Comment: Several commenters recommended the deletion of § 682.603(c), which requires that a school delay loan certification for first time Stafford and SLS borrowers entering the first year of an undergraduate program of study. The commenters stated that this provision is no longer necessary because section 428G(b)(1) of the Act now requires delayed delivery of loan proceeds to the same category of borrowers until 30 days after the borrower begins a course of study.

Discussion: The Secretary agrees with the commenters.

Changes: Section 682.603(c) of the regulations has been deleted.

Section 682.603(d)

Comment: Several commenters suggested that the school should not be required to monitor annual loan limits in certifying an application for a loan. The commenters believe that the school's sole responsibility in the loan certification process should be to determine the applicant's unmet need for loan eligibility.

Discussion: A school's responsibility for monitoring a student's annual loan limits and aggregate maximum loan limits is mandated by section 484(g) of the Act. Also, 34 CFR 668.19(a)(4)(ii) stipulates that a school must return to the lender any Stafford or SLS proceeds that, according to a financial aid transcript, would cause the student to exceed a loan limit under the Stafford or SLS programs. A school is held responsible for information relating to an applicant's annual and aggregate loan limits to the extent that the school's records contain such information.

Changes: None.

Section 682.604 Processing the Borrower's Loan Proceeds and Counseling Borrowers

Section 682.604(b)(2)

Comments: Many commenters disagreed with the requirement of § 682.604(b)(2)(ii) that bases the school's ability to deliver loan proceeds to a student who delays attendance on whether the student notifies the school of his or her plans. Commenters believe that a school should be able to consider any student who begins attendance no later than 30 days after the first day of classes to have maintained eligibility for the loan.

Discussion: The Secretary agrees that the school should be allowed to consider such a borrower to have maintained eligibility and deliver the loan proceeds even if the student does not notify the school of his or her intentions. However, the school also must comply with the change made in § 682.604(d)(3), which requires that if the student fails to register or begins attendance on a delayed basis, the school must return the check to the lender no later than 30 days after the first day of the period of enrollment. To comply with this requirement, the school must develop a system to monitor whether students begin attendance on a delayed basis in sufficient time to prevent having to return the check to the lender by the 30th day.

Changes: A change has been made. A school may consider a student to have maintained eligibility from the first day of the period of enrollment if the student delays attendance.

Comments: Many commenters objected to the proposal that a school could deliver FFEL loan proceeds to a student after the school receives notice of its loss of institutional eligibility if the first disbursement of the loan had been delivered to the student before the institution's receipt of the notice. The commenters believe that the student only will have incurred increased debt for a program of questionable quality and that this provision is not in the best interests of the FFEL programs.

Discussion: The Secretary notes that 34 CFR 668.25(c) authorizes a school to deliver loan proceeds under these circumstances. *See* 56 FR 33332, 33341 (July 19, 1991). The Secretary believes it is important to provide the second disbursement of a FFEL program loan to a student who has received the first disbursement of the loan, and who has completed a significant portion of his or her program of study. The Secretary believes that a loss of access to loan funds will present serious obstacles to the student's completion of the program and will, as a result, precipitate a default. Although the Secretary shares the commenters' concern that the borrower has incurred increased debt, the Secretary believes the borrower is better served by having the opportunity to complete his or her program of study and secure employment.

Changes: None.

Section 682.604(c)(3)

Comment: Many commenters objected to the exception provided in proposed § 682.604(c)(3) that would permit delivery of loan proceeds through EFT to borrowers attending an initial loan-counseling session without written authorization. The commenters stated that it was unclear whether the Secretary intended to exempt these borrowers from providing written authorization for the release of loan funds or from the 30-day time frame provided for securing written authorization. Many commenters questioned the relationship between attending an initial loan-counseling session and providing written authorization.

Discussion: The Secretary agrees with the commenters that the purpose of the exception is unclear. The Secretary also believes that the proposed exception would be contrary to the Secretary's long-standing view that the borrower's written authorization for the release of loans by EFT is a vital measure to protect students in the FFEL programs.

Changes: The exception has been deleted from § 682.604(c)(3).

Section 682.604(d)

Comments: A number of commenters objected to the proposed requirement under § 682.604(d)(1)(ii)(B) that if a student asks the school to help manage his or her loan funds for the academic year, the school must establish a separate trust account. Many commenters believe that the requirement is both administratively burdensome and costly to a school. The commenters also indicated that such a student service should be optional rather than required.

Discussion: The Secretary has decided to permit, but not require, schools to

provide this service to help students budget loan proceeds. If a school chooses to offer this student service, all of the excess loan proceeds that students request the school to hold in its account must be maintained in a separate account. The Secretary does not intend to require that a separate account be maintained for each borrower. However, consistent with provisions in the Campus-Based program regulations, these may not be commingled with other accounts of the school. The account may be an interest-bearing account. The Secretary considers the interest earned by the school on this account to be an administrative allowance for providing this student service.

Change: A change has been made. The regulations have been changed to provide that if the student requests, in writing, that the school hold loan funds to assist the student in budgeting those funds, a school may, but is not required to do so.

Section 682.604(f)

Comment: A number of commenters suggested that the requirement that the initial counseling required by § 682.604(f) be conducted either in person or by videotape presentation is not a reasonable expectation for a student who is enrolled in foreign study abroad under the auspices of a school in the United States.

Discussion: The Secretary agrees with the commenters.

Change: The regulations have been revised to provide that the initial counseling requirement for students enrolled in a program of study abroad approved for credit by the home institution will be the same as that for students enrolled in a correspondence program.

Section 682.605 Determining the Date of a Student's Withdrawal.

Section 682.605(b)(1)

Comment: Several commenters argued that the regulations should impose a limit on the period in which a school has to determine that a student has withdrawn if the student does not formally withdraw. They believe that a time limit is essential because such a determination directly affects a student's right to a refund and the timely payment of a refund to a lender on behalf of the student.

Discussion: The Secretary agrees that there should be a maximum time period for a school to determine a student's date of withdrawal under § 682.605(b)(1)(ii). The Secretary believes that the lack of a specific time period exacerbates the problem of unpaid and untimely refunds.

Changes: A change has been made. The Secretary has revised the regulations to provide that if the student drops out without notifying the school, the school must determine the student's date of withdrawal no later than 45 days after the expiration date of the academic term for a school with standard terms, and no later than 25 days after a student's last date of attendance for a schoool using clock hours or credit hours without standard terms. The Secretary believes the time frames established in these regulations are reasonable given the different methods used for determining progress at various schools.

Section 682.605(b)(2)

Comment: One commenter objected to the proposed rule requiring a school to determine the withdrawal date for a student who was granted a leave of absence, approved under paragraph (c) of this section, and who fails to return to school at the expiration of the leave of absence, to be the date of the first day of the leave of absence. The commenter argued that this requirement conflicts with the requirement of § 682.607(c)(2) that requires a school to pay a refund to a lender within 30 days after the last day of a student's approved leave of absence should the student not resume his or her program of study.

Discussion: The Secretary disagrees with the commenter. The Secretary notes that § 682.605(b)(2) establishes a procedure for a school to determine the withdrawal date for a student who fails to return to school after a leave of absence has expired. This date is determined for the purpose of a school reporting to the lender the date the student has withdrawn from the school and for determining when a refund must be paid under § 682.606. The Secretary also notes that § 682.607(c)(2) requires that a school must make a refund, if applicable, within 30 days after the last day of a leave of absence, not 30 days after the withdrawal date.

Changes: None.

Section 682.609 Remedial Actions

Section § 682.609(a)

Comment. Many commenters stated that a borrower whose eligibility has been affected by a school's error in determining financial need or in certifying the loan application should not lose the rights and benefits afforded other eligible FFEL program loan borrowers if the school is required to purchase all or a portion of the loan. The commenters believed that the school should absorb any losses on interest benefits or special allowance payments resulting from such a situation.

Discussion: The Secretary does not believe that a change to the regulations is necessary. It has been the Secretary's longstanding view that a student who becomes ineligible for a loan due to a school error does not lose his or her rights. The school, like any other holder of a FFEL program loan, is bound by the terms of the promissory note. The school is also responsible for payment to the Secretary of any interest and special allowance paid by the Secretary on the ineligible portion of the loan.

Changes: None.

Section 682.610 Administrative and Fiscal Requirements for Participating Schools

Section § 682.610(b)

Comment: Several commenters recommended that § 682.610(b) of the regulations be revised to allow a school to keep a copy of the loan certification data electronically transmitted by the school to the lender or guaranty agency in lieu of a copy of a paper application form. The commenters believe it is important for the regulations to reflect the electronic application processing now in place at many schools.

Discussion: The Secretary agrees that the regulations should reflect electronic application processing and schools should be allowed to comply with the record-retention requirements by maintaining this data in a computer or optical-disk medium. The Secretary expects, however, that a school, upon request, will be able to produce a hard copy of the loan certification data.

Changes: The regulations have been revised to allow a school to retain the data electronically transmitted as part of the loan certification process to satisfy the record-retention requirements.

Section 682.610(d)

Comment: Several commenters expressed concern that the 5-year record-retention requirement under § 682.610(d)(1) is not long enough. The commenters believe the information contained in a school's record on a borrower is useful when the borrower enters the repayment period or when a default claim is filed, which may be after 5 years.

Discussion: The Secretary agrees with the commenters. In addition, the Secretary recognizes that there may be instances when it is necessary for schools to retain records to respond to on-going audits.

Changes: The regulations have been revised to require the school to retain

records for 5 years after the borrower's last day of attendance and to retain records involved in any loan, claim, or expenditure questioned by a Federal audit until the audit questions have been resolved.

Comment: A number of commenters suggested that the inspection requirements in § 682.610(e)(2) deny a school due process and are unreasonable.

Discussion: The Secretary believes that it is imperative that the Department's representatives have complete access to a school's records during an investigation of the school's administration of the Title IV programs. Further, the Secretary believes, and his experience has shown, that allowing the presence of a school representative during an interview with school personnel or allowing the school to record the interview would result in less than a candid exchange of information among investigators and the personnel interviewed. The Secretary believes the school receives sufficient due process related to findings that might result from such an inspection and does not believe that a prohibition on attendance at interviews by school representatives violates due process.

Changes: None.

Section 682.610(f)

Comment: Several commenters argued that § 682.610(f)(2), which requires the school to notify the holder of a borrower's loan within 30 days of receiving information on the borrower's change of permanent address, is an administrative burden for the school because the provision places no limits on the reporting requirement. The commenters noted that as written the requirement applies to all borrowers who ever attended the school for the life of their loans, the duration of which the school is unlikely to even know. The commenters also indicated that they believe the requirement is not feasible since loan transfers are now commonplace and schools do not always know the current holder of a borrower's loan.

Discussion: The Secretary understands that a school might not always know the current holder of a borrower's loan. However, in light of the increasing volume of loan defaults, the Secretary believes that schools have a particular responsibility to share any information they have on a borrower's whereabouts. The Secretary agrees with the commenters that a requirement that the school provide information within 30 days of the school's receipt of the information throughout the life of the borrower's loan, without regard to the lender's need for the information, might be overly burdensome.

Changes: The regulations have been revised to require the school to notify the current holder of the loan of a borrower's change of permanent address only while the borrower is enrolled at the school. Section 682.610(f)(1) continues to require the school to provide this information upon request of the Secretary, guaranty agency, or lender.

Section 682.700 Purpose and Scope

Section 682.700

Comment: Several commenters asked the Secretary to clarify whether subpart G, which governs fine, limitation, suspension, and termination proceedings, applies directly to actions taken by guaranty agencies or whether policies of the guaranty agency must be consistent with, but not the same as, subpart G.

Discussion: The Secretary specifies in § 682.401(b)(6)(i)(A) that lender's eligibility may be subject to a limitation, suspension, or termination action by a guaranty agency under standards and procedures that are substantially the same as subpart G.

Changes: None.

Section 682.701 Definitions of Terms Used in This Subpart

Section 682.701 Disqualification

Comment: A commenter expressed concern that the NPRM would revise current policy regarding the Department's review of guaranty agency Limitation, Suspension, and Termination (L, S, & T) actions to allow disqualifications based on a guaranty agency's termination to last indefinitely rather than the 18 months specified in current Department bulletins. The commenter believes that a guaranty agency should not be able to trigger indefinite disqualification of a lender or school from the FFEL programs. Accordingly, the commenter urged the Secretary to incorporate the current 18-month limitation in the final regulations.

Discussion: Sections 682.710 and 682.711 of the regulations allow a lender to request removal of a limitation 12 months after it is imposed and reinstatement of its eligibility 18 months after termination. However, section 432(h)(2)(C) of the Act specifies that the Secretary shall not lift a disqualification until the Secretary is satisfied that the lender has corrected the failures that led to the limitation, suspension, or termination action by the guaranty agency and there are assurances that, in the future, the lender will comply with all program requirements. Because the Secretary is required to apply qualitative standards in deciding whether to lift sanctions, he does not believe it is appropriate to impose a time limit such as the commenter suggests.

Changes: None.

Section 682.702 Effect on Participation

Section 682.702(c)

Comment: Many commenters suggested that the Secretary prohibit a lender that is subject to an L, S, & T proceeding from making a second or subsequent disbursement on a loan for which a guarantee commitment has been issued.

Discussion: The Secretary believes that it is important to provide a student who has received the first disbursement of a FFEL program loan access to subsequent disbursements of the loan. The Secretary believes that a loss of access for such a student will present serious obstacles to the student's completion of the program and will, as a result, precipitate a default.

Changes: None.

Section 682.704 Emergency Action

Section 682.704(c)

Comment: Many commenters suggested that the Secretary revise the date an emergency action becomes effective from the date the notification of the action is mailed to the lender to the date the lender actually receives the notification. The commenters believe that such a change is necessary to ensure that an emergency action does not become effective before the lender receives notification of that action.

Discussion: The Secretary does not agree. The Secretary believes that the date an emergency action against a lender becomes effective should be consistent with the date an emergency action taken against an institution becomes effective, which, pursuant to section 487(c)(1)(E) of the Act, is the date on which the notification is mailed. The regulations also specify that the notice must be sent by certified mail, return receipt requested.

Changes: None.

Section 682.705 Suspension Proceedings

Section 682.705(b)(2)

Comment: Many commenters suggested that the Secretary revise the date a lender's suspension becomes effective from the date the notification of the suspension is mailed to the lender to the date the lender receives the notification. The commenters believe that such a change is necessary to

ensure that the suspension does not become effective before the lender receives the notification of the suspension.

Discussion: Unlike the emergency actions, which are intended to have immediate effect, suspensions do not take effect until after an opportunity is provided for a hearing. Therefore, the Secretary has revised the regulations to give a lender notice of an impending suspension.

Changes: A change has been made. The Secretary has revised the regulations to provide that a lender's suspension will become effective on a proposed date that is at least 20 days after the date the Secretary's notice is mailed to the lender.

Section 682.706 Limitation or Termination Proceedings

Section 682.706(c)

Comment: One commenter suggested that, in the event the lender's owner or an officer is convicted of, or pleads nolo contendere or guilty to, a crime involving FFEL program administration, the provision that a lender be subject to automatic termination is too severe a penalty to impose on a lender that is discovered to have one dishonest officer or employee. The commenter suggested that the discretionary authority afforded the Secretary in § 682.712(c) should specify that an automatic termination under this section may be waived.

Discussion: The language in the regulations provides that such a criminal conviction is grounds for the Secretary to terminate a lender's eligibility. It does not, however, automatically terminate the lender's eligibility. The Secretary will make this determination on a case-by-case basis.

Changes: None.

Section 682.709 Reimbursements, Refunds, and Offsets

Comment: A number of commenters requested that the Secretary clarify the authority of a guaranty agency to require a school to repay FFEL funds owed to borrowers and lenders. The commenters stated that this authority should be explicitly spelled out in the regulations because guaranty agencies generally identify school error that results in liability or the repurchase of FFEL loans by the school.

Discussion: The Secretary agrees that this authority should be explicit in regulations and also believes that the agency's general enforcement authority should be clarified. However, he does not believe that these regulatory changes should be contained in § 682.709.

Changes: Section 682.609 of the regulations has been revised to contain a new paragraph (e) that specifies that a guaranty agency may take an emergency action against a school or limit, suspend, or terminate the school's participation in the agency's loan guarantee program and may require the school to repay funds to another party or to purchase loans.

Section 682.712 Disqualification Review of Limitation, Suspension, and Termination Actions Taken by Guaranty Agencies Against Lenders

Section 682.712

Comment: One commenter recommended that if the Secretary upholds an agency's termination of a lender, the Secretary also should rely upon the agency's determination that the lender's failures have been corrected. The commenter suggested adding "guaranty agency" after "Disqualification by the Secretary."

Discussion: Section 432(h)(2)(B) of the Act requires the Secretary, before lifting any limitation, suspension, or termination sanction imposed on a lender, to make an independent determination that the lender has corrected the failures that led to the sanction. The Secretary notes, however, that nothing in the regulations prevents a guaranty agency from continuing a limitation or termination sanction even if the Secretary removes a national disqualification. The Secretary notes that the 1992 Amendments deleted the term "disqualification" as it was previously used to refer to the steps by which a guaranty agency's sanction against a lender or school received national effect. This change is a change in terminology and not in substance. However, the Secretary has not made that change to this regulation. The Secretary will issue new regulations to conform to the new statute at a later date.

Changes: None.

Sections 682.712 and 682.713

Comment: One commenter suggested that the Secretary revise the final regulations to provide for an evidentiary hearing by the Department for an institution or lender that has an L, S, or T action taken against it by a guaranty agency. The commenter argued that section 432(h) (2) and (3) of the Act provides that a lender or an institution that has an L, S, or T action taken against it by a guaranty agency is entitled to a trial-type evidentiary hearing.

Discussion: The Secretary does not agree with the commenter. The regulations do not preclude the use of an evidentiary hearing in a disqualification proceeding if the presiding officer determines that such a hearing is necessary. However, the Secretary believes that evidentiary proceedings in disqualification cases will be very rare. The only issues are whether the guaranty agency used the proper standards and procedures. Moreover, under the 1992 Amendments, the Department's review is limited to a review of the written record of the proceedings and the agency's procedures. Thus, the issues in a proceeding under §§ 682.712 and 682.713 should not present any questions requiring an evidentiary hearing.

Changes: A change has been made in §§ 682.712 and 682.713 of the regulations to delete references to a hearing on the record.

Section 682.800 Special Allowance Payments for Loans Financed by Proceeds of Tax-Exempt Obligations

Section 682.800(a)(2)

Comment: Several commenters recommended that the regulations be revised to clarify that an Authority whose Plan for Doing Business was subsequently approved by the Governor is eligible to receive special allowance on obligations issued before the November 16, 1986, date established by the 1986 Amendments.

Discussion: The Secretary agrees with the commenters that this section as currently written does not address special allowance payments for this category of loans.

Changes: A change has been made. The Secretary has revised § 682.800(a)(2) to provide for special allowance payments on obligations issued before November 16, 1986 on the basis of a Plan approved by the Governor after that date.

Section 682.801 Provisions Required in Plan

Section 682.801(h)

Comment: A number of commenters felt that § 682.801(h), which proposed to prohibit an Authority from issuing tax-exempt obligations in excess of the unmet need for student loan credit in its service area, should be deleted because it is not one of the criteria listed in section 438(d)(2) of the Act.

Discussion: The Secretary agrees with the commenters that a demonstration of the need for tax-exempt financing is not required as part of the Plan. In addition, the Department of Treasury regulations governing caps on tax-exempt financing prevent the excessive use of tax-exempt financing.

Changes: Section 682.801(h) has been deleted from the regulations. The Secretary has also deleted the corresponding provision in § 682.802(g).

Sections 682.802 682.805

Comment: Several commenters recommended deleting these sections as the authority for the approval of the Plan for Doing Business was shifted to the Governor of the State in the 1986 Amendments. The commenters questioned the Secretary's authority to (1) regulate the required documentation submitted with the Plan; (2) enforce, suspend, or revoke a Plan that previously was approved by a Governor for the Authority's failure to comply with the Plan; or (3) impose sanctions for material misrepresentations.

Discussion: The Secretary believes that the fact that he does not directly approve the Plan does not prohibit him from enforcing program requirements. Clearly, in revising section 438(d) of the Act to provide the authority to the Governor to approve the Authority's Plan for Doing Business, Congress did not intend for the Secretary to permit non-compliance with the law.

Changes: None.

Section 682.830 Audit Standards

Section 682.830(a)

Comment: Some commenters felt the audit required by § 682.830 should be limited to a financial audit and the requirement that the audit also should cover the Authority's compliance with its Plan for Doing Business should be deleted. The commenters believe that the guaranty agency's program review required under § 682.410(c) addresses the issues normally covered by a compliance audit and that requiring an outside auditor to examine compliance is duplicative. Other commenters argued that if an Authority received a financial and compliance audit from an independent auditor, it should be exempted from review by the guaranty agency.

Discussion: The Secretary does not agree that a guaranty agency's review would duplicate the compliance audit required by § 682.830. Guaranty agency reviews often focus on a single area, e.g., due diligence. The Secretary believes that the familiarity of guaranty agency officials with the FFEL programs provides for a more focused review than the compliance audit would require. Additionally, a determination of the Authority's compliance with its Plan for Doing Business generally is not covered by a guaranty agency program review. The Secretary believes, therefore, that exempting an Authority that has undergone an independent audit from a guaranty agency review would run counter to the best interests of the FFEL programs, even if the review and the audit overlap in some areas.

Changes: None.

Section 682.840 Prohibition Against Discrimination as a Condition for Receiving Special Allowance Payments

Section 682.840(b)

Comment: Several commenters recommended the deletion of § 682.840(b), which prohibits an Authority from receiving special allowance payments on loans guaranteed by an agency or organization that discriminates against borrowers. The commenters believe that an Authority should not be held responsible for the practices of another entity over which the Authority has no direct control. The commenters also noted that section 439(e) of the Act has a similar provision for the Student Loan Marketing Association ("Sallie Mae"), but that no similar provision jeopardizing the special allowance on loans held by Sallie Mae has ever been proposed. Some commenters said that this requirement unfairly penalizes an Authority in a State where the guaranty agency is prohibited by State law from guaranteeing loans to students attending a particular eligible institution.

Discussion: Under section 438(d)(3) of the Act, an Authority may not engage in any pattern or practice that results in a denial of a borrower's access to loans because of the borrower's race, sex, color, religion, national origin, age, handicapped status, income, attendance at a particular eligible institution within the area served by the Authority, the length of the borrower's educational program, or the borrower's academic year in school. The Secretary considers an Authority "to have adopted a practice of denying access to loans" if it does business with an entity (e.g., a guaranty agency) that denies access to loans to eligible students in violation of similar restrictions on the guaranty agency contained in section 428(c)(2)(F) of the Act. Section 438(d)(3) also requires the Secretary to deny special allowance payments to holders of loans that were made or purchased with funds obtained from the Authority if the Authority discriminates. Therefore, the Secretary believes his authority to withhold special allowance payments applies to the Authority and to any holder acting as trustee for the Authority. The Secretary also notes that the Department is specifically prohibited from regulating the activities of Sallie Mae. Nonetheless, Sallie Mae is required to comply with the requirements of section 439(e) of the Act.

Changes: None.

Waiver of Proposed Rulemaking

In addition to the changes made to part 682 based on public comment on the notice of proposed rulemaking, the Secretary has revised the regulations to include technical amendments made by certain legislation enacted subsequent to publication of the notice of proposed rulemaking.

It is the practice of the Secretary to offer interested parties the opportunity to comment on proposed regulations in accordance with section 431(b)(2)(A) of the General Education Provisions Act (20 U.S.C. 1232(b)(2)(A) and the Administrative Procedure Act, 5 U.S.C. 553. However, since these changes merely incorporate statutory changes into the regulations and do not implement substantive policy, public comment could have no effect. Therefore, the Secretary has determined pursuant to 5 U.S.C.(b)(B) that public comment on the regulations is unnecessary and contrary to the public interest.

Executive Order 12291

These regulations have been reviewed in accordance with Executive Order 12291. They are not classified as major because they do not meet the criteria for major regulations established in the order.

Assessment of Educational Impact

In the notice of proposed rulemaking, the Secretary requested comments on whether the proposed regulations would require transmission of information that is being gathered by or is available from any other agency or authority of the United States.

Based on the response to the proposed rules and on its own review, the Department has determined that the regulations in this document do not require transmission of information that is being gathered by or is available from any other agency or authority of the United States.

List of Subjects in 34 CFR Part 682

Administrative practice and procedure, colleges and universities, Education, Loan programs-education, Reporting and recordkeeping requirements, Student aid, Vocational education.

Dated: December 4, 1992.

Lamar Alexander,

Secretary of Education.

(Catalog of Federal Domestic Assistance Number 84.032, Stafford Loan Program and PLUS Program)

The Secretary revises part 682 of title 34 of the Code of Federal Regulations to read as follows:

PART 682—FEDERAL FAMILY EDUCATION LOAN (FFEL) PROGRAM

Subpart A—Purpose and Scope

Sec.

682.100 The Federal Family Education Loan programs.
682.101 Participation in the FFEL programs.
682.102 Obtaining and repaying a loan.
682.103 Applicability of subparts.

Subpart B—General Provisions

682.200 Definitions.
682.201 Eligible borrowers.
682.202 Permissible charges by lenders to borrowers.
682.203 Responsible parties.
682.204 Maximum loan amounts.
682.205 Disclosure requirements for lenders.
682.206 Due diligence in making a loan.
682.207 Due diligence in disbursing a loan.
682.208 Due diligence in servicing a loan.
682.209 Repayment of a loan.
682.210 Deferment.
682.211 Forbearance.
682.212 Prohibited transactions.
682.213 Prohibition against the use of the Rule of 78s.
682.214 Compliance with equal credit opportunity requirements.

Subpart C—Federal Payments of Interest and Special Allowance

682.300 Payment of interest benefits on Stafford loans.
682.301 Eligibility of borrowers for interest benefits on Stafford loans.
682.302 Payment of special allowance on FFEL loans.
682.303 [Reserved]
682.304 Methods for computing interest benefits and special allowance.
682.305 Procedures for payment of interest benefits and special allowance.

Subpart D—Administration of the Federal Family Education Loan Programs by a Guaranty Agency

682.400 Agreements between a guaranty agency and the Secretary.
682.401 Basic program agreement.
682.402 Death, disability, and bankruptcy payments.
682.403 Federal advances for claim payments.
682.404 Federal reinsurance agreement.
682.405 [Reserved]
682.406 Conditions of reinsurance coverage.
682.407 Administrative cost allowance for guaranty agencies.
682.408 Loan disbursement through an escrow agent.
682.409 Mandatory assignment by guaranty agencies of defaulted loans to the Secretary.
682.410 Fiscal, administrative, and enforcement requirements.
682.411 Due diligence by lenders in the collection of guaranty agency loans.
682.412 Consequences of the failure of a borrower or student to establish eligibility.
682.413 Remedial actions.
682.414 Records, reports, and inspection requirements for guaranty agency programs.

Subpart E—Federal Guaranteed Student Loan Programs

682.500 Circumstances under which loans may be guaranteed by the Secretary.
682.501 Extent of Federal guarantee under the Federal GSL programs.
682.502 The application to be a lender.
682.503 The guarantee agreement.
682.504 Issuance of Federal loan guarantees.
682.505 Insurance premium.
682.506 Limitations on maximum loan amounts.
682.507 Due diligence in collecting a loan.
682.508 Assignment of a loan.
682.509 Special conditions for filing a claim.
682.510 Determination of the borrower's death, total and permanent disability, or bankruptcy.
682.511 Procedures for filing a claim.
682.512 Determination of amount payable on a claim.
682.513 Factors affecting coverage of a loan under the loan guarantee.
682.514 Procedures for receipt or retention of payments where the lender has violated program requirements for Federal GSL loans.
682.515 Records, reports, and inspection requirements for Federal GSL program lenders.

Subpart F—Requirements, Standards, and Payments for Participating Schools

682.600 Agreement between an eligible school and the Secretary for participation in the FFEL programs.
682.601 Rules for a school that makes or originates loans.
682.602 Correspondence school schedule requirements.
682.603 Certification by a participating school in connection with a loan application.
682.604 Processing the borrower's loan proceeds and counseling borrowers.
682.605 Determining the date of a student's withdrawal.
682.606 Refund policy.
682.607 Payment of a refund to a lender.
682.608 Termination of a school's lending eligibility.
682.609 Remedial actions.
682.610 Administrative and fiscal requirements for participating schools.

Subpart G—Limitation, Suspension, or Termination of Lender Eligibility and Disqualification of Lenders and Schools

682.700 Purpose and scope.
682.701 Definitions of terms used in this subpart.
682.702 Effect on participation.
682.703 Informal compliance procedure.
682.704 Emergency action.
682.705 Suspension proceedings.
682.706 Limitation or termination proceedings.
682.707 Appeals in a limitation or termination proceeding.
682.708 Evidence of mailing and receipt dates.
682.709 Reimbursements, refunds, and offsets.
682.710 Removal of limitation.
682.711 Reinstatement after termination.
682.712 Disqualification review of limitation, suspension, and termination actions taken by guarantee agencies against lenders.
682.713 Disqualification review of limitation, suspension, and termination actions taken by guarantee agencies against a school.

Subpart H—Special Allowance Payments on Loans Made or Purchased With Proceeds of Tax-Exempt Obligations

682.800 Special allowance payments for loans financed by proceeds of tax-exempt obligations.
682.801 Provisions required in Plan.
682.802 Submission of Plan for approval—required documentation.
682.803 Amendments to Plan for Doing Business.
682.804 Failure to comply with Plan for Doing Business.
682.805 Sanctions for material misrepresentation.
682.806–682.829 [Reserved]
682.830 Audit standards.
682.831–682.839 [Reserved]
682.840 Prohibition against discrimination as a condition for receiving special allowance payments.

Appendix A—Standards for Acceptable Refund Policies by Participating Schools

Appendix B—Students Status Confirmation Report

Appendix C—Procedures for Curing Violations of the Due Diligence in Collection and Timely Filing of Claims Requirements Applicable to FISLP and Federal PLUS Program Loans and for Repayment of Interest and Special Allowance Overbillings [Bulletin L–77a]

Appendix D—Policy for Waiving the Secretary's Right To Recover or Refuse To Pay, Interests Benefits, Special Allowance, and Reinsurance on Stafford, PLUS, Supplemental Loans for Students, and Consolidation Program Loans Involving Lenders' Violations of Federal Regulations Pertaining to Due Diligence in Collection or Timely Filing of Claims [Bulletin 88–G–138]

Authority: 20 U.S.C. 1071 to 1087–2, unless otherwise noted.

Subpart A—Purpose and Scope

§ 682.100 The Federal Family Education Loan programs.

(a) This part governs the following four programs collectively referred to in these regulations as "the Federal Family Education Loan (FFEL) programs," in which lenders use their own funds to make loans to enable a student or his or her parents to pay the costs of the student's attendance at postsecondary schools:

(1) The Federal Stafford Loan (Stafford) Program, which encourages making loans to undergraduate, graduate, and professional students.

(2) The Federal Supplemental Loans for Students (SLS) Program, which encourages making loans to graduate, professional, independent undergraduate, and certain dependent undergraduate students.

(3) The Federal PLUS (PLUS) Program, which encourages making loans to parents of dependent students. Before October 17, 1986, the PLUS Program also provided for making loans to graduate, professional, and independent undergraduate students.

(4) The Federal Consolidation Loan (Consolidation) Program, which encourages making loans to borrowers for the purpose of consolidating their repayment obligations, with respect to loans received while they were students, under the Federal Insured Student Loan (FISL), Stafford loan, SLS, PLUS (as in effect before October 17, 1986), and Perkins Loan programs, and under the Health Professions Student Loan (HPSL) Program authorized by subpart II of part C of Title VII of the Public Health Service Act and for parent PLUS borrowers whose loans were made after October 17, 1986.

(b)(1) Except for the loans guaranteed directly by the Secretary described in paragraph (b)(2) of this section, a guaranty agency guarantees a lender against losses due to default by the borrower on a FFEL loan. If the guaranty agency meets certain Federal requirements, the guaranty agency is reimbursed by the Secretary for all or part of the amount of default claims it pays to lenders.

(2)(i) The Secretary guarantees lenders against losses—

(A) Within the Stafford Loan Program, on loans made under Federal Insured Student Loan (FISL) Program;

(B) Within the PLUS Program, on loans made under the Federal PLUS Program;

(C) Within the SLS Program, on loans made under the Federal SLS Program; and

(D) Within the Consolidation Loan Program, on loans made under the Federal Consolidation Loan Program.

(ii) The loan programs listed in paragraph (b)(2)(i) of this section collectively are referred to in these regulations as the "Federal Guaranteed Student Loan (GSL) programs."

(iii) The Federal GSL programs are authorized to operate in States not served by a guaranty agency program. In addition, the FISL and Federal SLS programs are authorized, under limited circumstances, to operate in States in which a guaranty agency program does not serve all eligible students.

(Authority: 20 U.S.C. 1701 to 1087–2)

§ 682.101 Participation in the FFEL programs.

(a) Eligible banks, savings and loan associations, credit unions, pension funds, insurance companies, schools, and State and private nonprofit agencies may make loans.

(b) Eligible educational institutions, including most colleges, universities, graduate and professional schools, and many vocational, technical, and correspondence schools may participate as schools, enabling an eligible student or his or her parents to obtain a loan to pay for the student's cost of education.

(c) Students who meet certain requirements, including enrollment at a participating school, may borrow under the Stafford loan and SLS programs. Parents of eligible dependent students may borrow under the PLUS Program. Students borrowers who have at least $7,500 outstanding in Stafford, SLS, FISL, Perkins, HPSL, student PLUS loans or Parent PLUS loans borrowed after October 16, 1986 may borrow under the Consolidation Loan Program.

(Authority: 20 U.S.C. 1071 to 1087–2)

§ 682.102 Obtaining and repaying a loan.

(a) *Stafford loan application.* Generally, to obtain a Stafford loan, a student completes an application and submits it to the school for certification. After the school certifies the application, the application is submitted to a participating lender. If the lender decides to make the loan, the lender obtains a loan guarantee from a guaranty agency or the Secretary.

(b) *SLS loan application.* Generally, to obtain an SLS loan, a student completes an application and submits it to the school for certification. After the school certifies the application, the application is submitted to a participating lender. If the lender decides to make the loan, the lender obtains a loan guarantee from a guaranty agency or the Secretary.

(c) *PLUS loan application.* Generally, to obtain a PLUS loan, both the student and the parent complete an application and submit it to the school for certification. After the school certifies the application, the application is submitted to a participating lender. If the lender decides to make the loan, the lender obtains a loan guarantee from a guaranty agency or the Secretary.

(d) *Consolidation loan application.* Generally, to obtain a Consolidation loan, a borrower completes an application and submits it to a lender holding at least one of the borrower's loans to be consolidated. If all the holders of loans selected for consolidation by the borrower refuse to make a Consolidation loan, the borrower may submit the application to any other lender participating in the Consolidation Loan Program. If a lender decides to make the loan, the lender obtains a loan guarantee from a guaranty agency or the Secretary.

(e) *Repaying a loan*—(1) *General.* Generally, the borrower is obligated to repay the full amount of the loan, late fees, collection costs chargeable to the borrower, and any interest not payable by the Secretary. The borrower's obligation to repay is cancelled if the borrower dies, becomes totally and permanently disabled, or has that obligation discharged in bankruptcy.

(2) *Stafford loan repayment.* Generally, a borrower is not required to make any principal payments on a Stafford loan during the time the borrower is in school. In most cases, the Secretary pays the interest on the borrower's behalf during the time the borrower is in school. When the borrower ceases to be enrolled on at least a half-time basis, a grace period begins during which no principal payments are required, and the Secretary continues to make interest payments on the borrower's behalf. At the end of the grace period, the repayment period begins. During the repayment period, the borrower pays both the principal and the interest accruing on the loan.

(3) *SLS loan repayment.* Generally, the repayment period for an SLS loan begins immediately on the day of the last disbursement of the loan proceeds by the lender. The first payment of principal and interest on an SLS loan is due from the borrower within 60 days after the loan is fully disbursed unless a borrower who is also a Stafford loan borrower requests that commencement of repayment on the SLS loan be deferred until the borrower's grace period on the Stafford loan expires.

(4) *PLUS loan repayment.* Generally, the repayment period for a PLUS loan begins immediately upon disbursement of the loan by the lender. The first

payment of principal and interest on a PLUS loan is due from the borrower within 60 days after the loan is fully disbursed.

(5) *Consolidation loan repayment.* Generally, the first payment of principal and interest on a Consolidation loan is due from the borrower within 60 days after the borrower's liability on all loans being consolidated has been discharged.

(6) *Deferment of repayment.* Repayment of principal on a FFEL program loan may be deferred under the circumstances described in § 682.210.

(7) *Default.* If a borrower defaults on a loan, the guarantor reimburses the lender for the amount of its loss. The guarantor then collects the amount owed from the borrower.

(Authority: 20 U.S.C. 1071 to 1087–2)

§ 682.109 Applicability of subparts.

(a) Subpart B of this part contains general provisions that are applicable to all participants in the FFEL programs.

(b) The administration of the FFEL programs by a guaranty agency is subject to subparts C, D, F, and G of this part.

(c) The Federal FFEL programs are subject to subparts C, E, F, and G of this part.

(d) Certain requirements applicable to schools under all the FFEL programs are set forth in subpart F of this part.

(Authority: 20 U.S.C. 1071 to 1087–2)

Subpart B—General Provisions

§ 682.200 Definitions.

(a)(1)(i) The following definitions are set forth in the Student Assistance General Provisions, 34 CFR part 668:

Academic year
Campus-based programs
College Work-Study (CWS) Program
Consolidation Loan Program
Dependent student
Eligible program
Eligible student
Enrolled
Guaranteed Student Loan (GSL) Program
Independent student
National of the United States (Referred to as U.S. Citizen or National in 34 CFR 668.2)
Pell Grant Program
Perkins Loan Program
PLUS Program
State
State Student Incentive Grant (SSIG) Program
Supplemental Educational Opportunity Grant (SEOG) Program
Supplemental Loans for Students (SLS) Program

(ii) The following definitions are set forth in the regulations for Institutional Eligibility under the Higher Education Act of 1965, as amended, 34 CFR part 600:

Accredited
Clock hour
Educational program
Eligible institution
Institution of higher education (§ 600.4)
Nationally recognized accrediting agency or association
Preaccredited
Program of study by correspondence
Secretary
Vocational school

(b) The following definitions also apply to this part:

Act. The Higher Education Act of 1965, as amended, 20 U.S.C. 1071 *et seq.*

Actual interest rate. The annual interest rate a lender charges on a loan, which may be equal to or less than the applicable interest rate on that loan.

Applicable interest rate. The maximum annual interest rate that a lender may charge under the Act on a loan.

Authority. Any private non-profit or public entity that may issue tax-exempt obligations to obtain funds to be used for the making or purchasing of FFEL loans. The term "Authority" also includes any agency, including a State postsecondary institution or any other instrumentality of a State or local governmental unit, regardless of the designation or primary purpose of that agency, that may issue tax-exempt obligations, any party authorized to issue those obligations on behalf of a governmental agency, and any non-profit organization authorized by law to issue tax-exempt obligations.

Borrower. An individual to whom a FFEL loan is made.

Co-maker. One of two individuals who are joint borrowers on a PLUS loan and who are jointly and severally liable for repayment of the loan.

Default. The failure of a borrower and endorser, if any, or joint borrowers on a PLUS loan, to make an installment payment when due, or to meet other terms of the promissory note, if the Secretary or guaranty agency finds it reasonable to conclude that the borrower and endorser, if any, no longer intend to honor the obligation to repay, provided that this failure persists for—

(1) 180 days for a loan repayable in monthly installments; or

(2) 240 days for a loan repayable in less frequent installments.

Disbursement. The transfer of loan proceeds by a lender to a borrower, a school, or an escrow agent by issuance of a check or by electronic funds transfer.

Endorser. An individual who signs a promissory note and agrees to repay the loan in the event that the borrower does not.

Escrow agent. Any guaranty agency or other eligible lender that receives the proceeds of a FFEL program loan as an agent of an eligible lender for the purpose of transmitting those proceeds to the borrower or the borrower's school.

Estimated cost of attendance. The tuition and fees normally assessed a student carrying the same academic workload as the student to whom or on whose behalf a FFEL program loan is sought, as determined by the school, plus the school's estimate of other expenses reasonably related to attendance at that school, for the period of enrollment for which the loan is sought. These expenses may not include the purchase of a motor vehicle. They may include, but are not limited to—

(1) The costs for rental or purchase of any equipment, materials, or supplies required of all students in the student's course of study, except for the cost of rental or purchase of telecommunications equipment for a student receiving all or part of his or her instruction by means of that telecommunications technology;

(2) For a student attending the institution on at least a half-time basis, an allowance for books, supplies, transportation, and miscellaneous personal expenses;

(3) If applicable, the insurance premium for the loan;

(4) If applicable, the origination fee for the loan;

(5) An allowance, as determined by the school, for room and board costs incurred by the student that includes—

(i) For a student, without dependents, residing at home with parents, an allowance of at least $1,500;

(ii) For a student, without dependents, residing in institutionally owned or operated housing, a standard allowance based on the amount normally assessed most of the school's residents for room and board; and

(iii) For all other students, an allowance of not less than $2,500 for expenses reasonably incurred by those students for room and board;

(6) For a student enrolled in a program of study by correspondence, only the tuition and fees and, if required, books and supplies, travel, and room and board costs incurred specifically in fulfilling a required period of residential training;

(7) For a student enrolled in an educational program that normally includes a formal program of study abroad, reasonable costs associated with that study;

(8) For a student with one or more dependents, an allowance based on the expenses reasonably incurred for dependent care based on the number and age of the dependents; and

(9) For a student with a disability, an allowance for those expenses related to his or her disability, including special services, transportation, equipment, and supplies that reasonably are incurred and not provided by other assisting agencies.

Estimated financial assistance. (1) The estimated amount of assistance that a student has been or will be awarded, during the period of enrollment for which the loan is sought, from Federal, State, institutional, or other scholarship, grant, financial need-based employment, or loan programs, including but not limited to—

(i) Benefits paid under section 156 of title 42 of the United States Code (formerly Social Security Benefits);

(ii) Veterans' educational benefits paid under chapters 30, 31, 32, 34, and 35 of title 38 of the United States Code;

(iii) Educational benefits paid under Chapters 106 and 107 of Title 10 of the United States Code (Selected Reserve Educational Assistance Program);

(iv) Reserve Officer Training Corps (ROTC) scholarships and subsistence allowances awarded under chapter 2 of title 10 and chapter 2 of title 37 of the United States Code;

(v) The estimated amount of other Federal student financial aid, including, but not limited to, a Stafford loan for which interest benefits are payable under this part, Pell Grants and campus-based aid, that the student would be expected to receive if the student applied, whether or not the student has applied for that aid; and

(vi) If the student is applying for a loan to cover expenses incurred within the same enrollment period as that for which a prior FFEL was received, the amount of Stafford, SLS, and PLUS loan proceeds withheld by the lender on the prior loan to cover the origination fee or insurance premium, if those costs were included in computing the borrower's estimated cost of attendance for the prior loan.

(2) The estimated amount of assistance does not include those amounts used to replace the expected family contribution, including—

(i) Stafford loan amounts for which interest benefits are not payable;

(ii) SLS and PLUS loan amounts;

(iii) Private and state-sponsored loan programs; and

(iv) Perkins loan and College Work-Study funds that the school determines the student has declined for an acceptable reason.

Expected family contribution. The amount a student and his or her spouse and family are expected to pay toward he student's cost of attendance.

Federal GSL programs. The Federal Insured Student Loan Program, the Federal Supplemental Loans for Students Program, the Federal PLUS Program, and the Federal Consolidation Loan Program.

Federal Insured Student Loan Program. The loan program authorized by Title IV–B of the Act under which the Secretary directly insures lenders against losses.

Foreign school. A school not located in a State.

Full-time student. (1) A student enrolled in an eligible institution (other than a student enrolled in a program of study by correspondence) who is carrying a full-time academic workload, as determined by the school under standards applicable to all students enrolled in that student's particular program. The student's workload may include any combination of courses, work, research, or special studies, whether or not for credit, that the school considers sufficient to classify the student as a full-time student; or

(2) A student enrolled in a vocational school (other than a student enrolled in a program of study by correspondence) who is carrying a workload of not less than 24 clock-hours per week or 12 semester or quarter hours per semester or quarter, respectively, of instruction, or its equivalent.

Grace period. The period that begins on the day after a Stafford loan borrower ceases to be enrolled as at least a half-time student at an eligible institution and ends on the day before the repayment period begins. See also "Post-deferment grace period."

Graduate or professional student. A student who, for a period of enrollment—

(1) Is enrolled in a program above the baccalaureate level at an institution of higher education or is enrolled in a program leading to a first professional degree;

(2) Has completed the equivalent of at least three academic years of full-time study at an institution of higher education, either before entrance into the program or as part of the program itself; and

(3) Is not receiving aid under Title IV of the Act as an undergraduate student for the same period of enrollment.

Guaranty agency. A State or private nonprofit organization that has an agreement with the Secretary under which it will administer a loan guarantee program under the Act.

Half-time student. A student who is enrolled in a participating school and is carrying an academic workload that amounts to at least one-half the workload of a full-time student, as determined by the school, and is not a full-time student. A student enrolled solely in an eligible program of study by correspondence as defined in 34 CFR 668.8 is considered a half-time student.

Holder. An eligible lender in possession of a FFEL program loan note that is payable to, or has been assigned to the lender, including a Federal or State agency or an organization or corporation acting on behalf of such an agency and acting as a conservator, liquidator, or receiver of an eligible lender.

Legal guardian. An individual appointed by a court to be a "guardian" of a person and specifically required by the court to use his or her financial resources for the support of that person.

Lender. (1) The term "eligible lender" is defined in section 435(d) of the Act, and in paragraphs (2)–(4) of this definition.

(2) With respect to a National or State chartered bank, a mutual savings bank, a savings and loan association, a stock savings bank, a trust company, or a credit union—

(i) The phrase "subject to examination and supervision" in section 435(d) of the Act means "subject to examination and supervision in its capacity as a lender"; and

(ii) The phrase "does not have as its primary consumer-credit function the making or holding of loans made to students under this part" in section 435(d) of the Act means that the lender does not, or in the case of a bank holding company, the company's wholly-owned subsidiaries as a group do not at any time, hold FFEL program loans that total more than one-half of the lender's or subsidiaries' combined consumer credit loan portfolio, including home mortgages held by the lender or its subsidiaries.

(3) The corporate parent or other owner of a school that qualifies as an eligible lender under section 435(d) of the Act is not an eligible lender unless the corporate parent or owner itself qualifies as an eligible lender under section 435(d) of the Act.

(4) The term "eligible lender" does not include any lender that the Secretary determines, after notice and opportunity for a hearing before a designated Department official, has—

(i) Offered, directly or indirectly, points, premiums, payments, or other inducements, to any educational institution or other party to secure applicants for FFEL loans;

(ii) Conducted unsolicited mailings to a student or a student's parents of FFEL loan application forms, except to a student who previously has received a FFEL loan from the lender or to a

student's parent who previously has received a FFEL loan from the lender;

(iii) Offered, directly or indirectly, a FFEL loan to a prospective borrower to induce the purchase of a policy of insurance or other product or service by the borrower or other person; or

(iv) Engaged in fraudulent or misleading advertising with respect to its FFEL program loan activities.

National credit bureau. A credit bureau with a service area that encompasses more than a single region of the country.

Origination relationship. A special business relationship between a school and a lender in which the lender delegates to the school, or to an entity or individual affiliated with the school, substantial functions or responsibilities normally performed by lenders before making FFEL program loans. In this situation, the school is considered to have "originated" a loan made by the lender.

Origination fee. A fee that the lender is required to pay the Secretary to help defray the Secretary's costs of subsidizing the loan. The lender may pass this fee on to the Stafford loan borrower.

Participating school. A school that has in effect a current agreement with the Secretary under § 682.600.

Period of enrollment. The period for which a Stafford, SLS, or PLUS loan is intended. The period of enrollment must coincide with a *bona fide* academic term established by the school for which institutional charges are normally assessed. The period of enrollment is also referred to as the loan period.

Post-deferment grace period. For a loan made prior to October 1, 1981, a single period of six consecutive months beginning on the day following the last day of an authorized deferment period.

Repayment period. (1) For a Stafford loan, the period beginning on the date following the expiration of the grace period and ending no later than 10 years from that date, exclusive of any period of deferment or forbearance.

(2)(i) For a PLUS loan disbursed in more than one installment, the period that begins on the date the first disbursement is made for a loan and ending no later than 10 years from that date, exclusive of any period of deferment or forbearance; for a PLUS loan disbursed in a single installment, the period that begins on the date the loan is disbursed and ending no later than 10 years from that date exclusive of any period of deferment or forbearance.

(ii) For an SLS loan, the repayment period begins on the date of the last disbursement of the loan and ending no later than 10 years from that date, exclusive of any period of deferment or forbearance.

(3) For a Consolidation loan, the period that begins on the date the loan is disbursed and ends no later than 12, 15, 20, 25 or 30 years from that date depending upon the sum of the amount of the Consolidation loan, and the unpaid balance on other student loans, exclusive of any period of deferment or forbearance.

School. (1) An "institution of higher education" as that term is defined in section 481 of the Act.

(2) The term includes only those individual units or programs within a school that satisfy the definition of "eligible program" in 34 CFR part 668.

(3) The term does not include any educational institution that employs or uses commissioned salespersons to promote the availability of Stafford, SLS, or PLUS loans for attendance at the institution. For this purpose—

(i) A *commissioned salesperson* is one who receives compensation in any form or amount that is related to, or calculated on the basis of, student applications for enrollment, student acceptances for enrollment, student enrollments, or student retention; and

(ii) *Promote the availability* means—

(A) Provide a prospective or enrolled student with FFEL loan application forms, or names of eligible lenders;

(B) Provide other information relating to the FFEL programs to a prospective or enrolled student in order to encourage the student to finance his or her education with a FFEL loan; or

(C) Otherwise use the availability of FFEL loans as a recruiting or retention tool.

(4) The term does not include any educational institution that has a default rate in excess of the threshold rates established under section 435(a)(2) of the Act.

(5) For purposes of an in-school deferment, the term includes an eligible institution, whether or not it participates in any Title IV program or has lost its eligibility to participate in the FFEL program because of a high default rate.

School lender. A school, other than a correspondence school, that has entered into a contract of guarantee under this part with the Secretary or, a similar agreement with a guaranty agency.

Stafford Loan Program. The loan program authorized by Title IV–B of the Act which encourages the making of loans to undergraduate, graduate, and professional students and is one of the Federal Family Education Loan programs. An unsubsidized Stafford loan is a loan that does not qualify for interest benefits under § 682.301(b).

State lender. In any State, a single State agency or private nonprofit agency designated by the State that has entered into a contract of guarantee under this part with the Secretary, or a similar agreement with a guaranty agency.

Temporarily totally disabled. The condition of an individual who, though not totally and permanently disabled, is unable to work and earn money or attend school, during a period of at least 60 days needed to recover from injury or illness. With regard to a disabled dependent of a borrower, this term means a spouse or other dependent who, during a period of injury or illness, requires continuous nursing or similar services for a period of at least 90 days.

Totally and permanently disabled. The condition of an individual who is unable to work and earn money or attend school because of an injury or illness that is expected to continue indefinitely or result in death.

Undergraduate student. A student who is enrolled at a school in a program of study, at or below the baccalaureate level, that usually does not exceed four academic years, or is up to five academic years in length, and is designed to lead to a degree or certificate at or below the baccalaureate level.

(Authority: 8 U.S.C. 1101; 20 U.S.C. 1070 to 1087–2, 1088–1098, 1141)

§ 682.201 Eligible borrowers.

(a) *Student borrower.* Except for a refinanced SLS/PLUS loan made under § 682.209 (e) or (f), a student is eligible to receive a Stafford loan, and an independent undergraduate student, a graduate or professional student, or, subject to paragraph (a)(3) of this section, a dependent undergraduate student, is eligible to receive an SLS loan, if the student meets the requirements for an eligible student under 34 CFR part 668, and—

(1) In the case of an undergraduate student who seeks a Stafford loan or SLS loan for the cost of attendance at a school that participates in the Pell Grant Program, has received a final determination, or, in the case of a student who has filed an application with the school for a Pell Grant, a preliminary determination, from the school of the student's eligibility or ineligibility for a Pell Grant and, if eligible, has applied for the period of enrollment for which the loan is sought;

(2)(i) In the case of any student who seeks an SLS loan for the cost of attendance at a school that participates in the Stafford Loan Program, has received a determination of need for a

Stafford loan, and if determined to have need in excess of $200, has filed an application with a lender for a Stafford loan; and

(ii) In the case of a student who seeks an SLS loan for the cost of attendance at any school that participates in the FFEL programs, the student must have received a certification of graduation from a school providing secondary education or the recognized equivalent;

(3) For purposes of a dependent undergraduate student's eligibility for an SLS loan, is a dependent undergraduate student for whom the financial aid administrator determines and documents in the school's file, after review of the family financial information provided by the student and consideration of the student's debt burden, that the student's parents likely will be precluded by exceptional circumstances (e.g., the student's parent receives only public assistance or disability benefits, is incarcerated, or his or her whereabouts are unknown) from borrowing under the PLUS Program and the student's family is otherwise unable to provide the student's expected family contribution. A parent's refusal to borrow a PLUS loan does not constitute an exceptional circumstance;

(4)(i) Reaffirms any FFEL loan amount that previously was cancelled due to the borrower's total and permanent disability; or that was discharged in bankruptcy or that was written off.

(ii) For purposes of this paragraph, reaffirmation means the acknowledgement of the loan by the borrower in a legally binding manner. The acknowledgement may include, but is not limited to, the borrower—

(A) Signing a new promissory note or repayment schedule; or

(B) Making a payment on the loan.

(5)(i) In the case of a borrower whose previous loan was cancelled due to total and permanent disability, obtains a certification from a physician that the borrower's condition has improved and that the borrower is able to engage in substantial gainful activity; and

(ii) Signs a statement acknowledging that any new FFEL loan the borrower receives cannot be cancelled in the future on the basis of any present impairment, unless that condition substantially deteriorates;

(6) In the case of any student who seeks a loan but does not have a certificate of graduation from a school providing secondary education or the recognized equivalent of such certificate, has passed an independently administered examination approved by the Secretary; and

(7) Is not serving in a medical internship or residency program, except for an internship in dentistry.

(b) *Parent borrower.* A parent is eligible to receive a PLUS Program loan, other than a loan made under § 682.209(e) or (f), if the parent—

(1) Is borrowing to pay for the educational costs of a dependent student who meets the requirements for an eligible student set forth in 34 CFR part 668;

(2) Provides his or her and the student's social security number;

(3) Meets the requirements pertaining to citizenship and residency that apply to the student in 34 CFR 668.7;

(4) Meets the requirements concerning defaults and overpayments that apply to the student in 34 CFR 668.7;

(5) Except for the completion of a Statement of Selective Service Registration Status, complies with the requirements for submission of a Statement of Educational Purpose that apply to the student in 34 CFR part 668; and

(6) Meets the requirement of paragraphs (a)(5) and (a)(6) of this section.

(c) *Consolidation Program borrower.* (1) An individual is eligible to receive a Consolidation loan if, at the time of application for a Consolidation loan, the individual—

(i) Has an outstanding indebtedness of not less than $7,500 on loans eligible for consolidation under this part; and

(ii)(A) Is in a grace period preceding repayment;

(B) Is in repayment status; or

(C)(*1*) Is delinquent or has made satisfactory repayment arrangements on a defaulted loan; and

(*2*) Will reenter repayment through consolidation.

(2) A married couple is eligible to receive a Consolidation loan in accordance with this section if each—

(i) Agrees to be held jointly and severally liable for the repayment of the total amount of the Consolidation loan;

(ii) Agrees to repay the debt regardless of any change in marital status; and

(iii) Certifies that no other application for a Consolidation loan is pending and agrees to notify the holder of any change in address.

(Authority: 20 U.S.C. 1077, 1078, 1078–1, 1078–2, 1078–3, 1082, 1091)

§ 682.202 Permissible charges by lenders to borrowers.

The charges that lenders may impose on borrowers, either directly or indirectly, are limited to the following:

(a) *Interest*—(1) *Applicable interest rates under the Stafford Loan Program.* (i) Subject to paragraph (a)(1)(ii) of this section, the applicable interest rate on a Stafford loan for a borrower is—

(A) 7 percent for a loan covering a period of instruction beginning before January 1, 1981;

(B) 9 percent for a loan covering a period of instruction beginning on or after January 1, 1981, but before September 13, 1983;

(C) 8 percent for a loan covering a period of instruction beginning on or after September 13, 1983;

(D) For a loan covering a period of instruction beginning on or after July 1, 1988, 8 percent until 48 months elapse after the repayment period begins, and 10 percent thereafter;

(E) Subject to paragraph (a)(1)(vi) of this section, for a loan for which the first disbursement is made on or after October 1, 1992, a variable rate not to exceed 9 percent; or

(F) Subject to paragraph (a)(1)(v) of this section, for a loan for which the first disbursement is made on or after October 1, 1992, 8 percent.

(ii) If the borrower, on the date the promissory note evidencing the loan is signed, has an outstanding balance on a previous Stafford loan the applicable interest rate is the rate charged on that previous Stafford loan.

(iii) If the borrower, on the date the promissory note evidencing the loan is signed, has no outstanding balance on a Stafford loan but has an outstanding balance of principal or interest on a PLUS or SLS loan made for a period of enrollment beginning before July 1, 1988 or on a Consolidation loan that repaid a loan made for a period of enrollment beginning before July 1, 1988 the applicable interest rate is the rate provided in paragraph (a)(1)(i)(C) of this section.

(iv) If the borrower, on the date the promissory note evidencing the loan is signed, has no outstanding balance on a Stafford, PLUS or SLS loan made for a period of enrollment beginning before July 1, 1988, or on a Consolidation loan that repaid a loan made for a period of enrollment beginning before July 1, 1988, the applicable interest rate is the rate provided in paragraph (a)(1)(i)(D) of this section.

(v) If the borrower, on the date the promissory note evidencing the loan is signed, has no outstanding balance on a Stafford loan but has an outstanding balance of principal or interest on an SLS, PLUS, or Consolidation loan, for a Stafford loan for which the first disbursement is made on or after October 1, 1992, the applicable interest rate is the rate provided in paragraph (a)(1)(i)(C) of this section.

(vi) If the borrower, on the date the promissory note evidencing the loan is signed, has no outstanding balance of principal or interest on any FFEL Program loan, the applicable rate is a variable rate, applicable to each July 1–June 30 period, that equals the lesser of—

(A) The bond equivalent rate of the 91-day Treasury bills auctioned at the final auction held prior to June 1, plus 3.10 percent; or

(B) 9 percent.

(vii) For a loan with an interest rate of 10 percent, if at the end of any calendar quarter, the sum of the average of the bond equivalent rates of the 91-day Treasury bills auctioned for that quarter, plus 3.25 percent, is less than 10 percent, the lender shall—

(A) Calculate an adjustment in an amount specified under paragraph (a)(1)(iv) of this section; and

(B) Credit the adjustment to reduce the outstanding principal balance of the loan as specified under paragraph (a)(1)(v) of this section if the borrower's account is not more than 30-days delinquent on December 31.

(viii) The amount of an adjustment for a calendar quarter is equal to—

(A) 10 percent minus the sum of the average of the bond equivalent rates of the 91-day Treasury bills auctioned for the applicable quarter plus 3.25 percent;

(B) Multiplied by the outstanding principal balance of the loan (not including unearned interest added to principal);

(C) Divided by 4.

(ix) No later than 30 calendar days after the end of the calendar year, the holder of the loan shall apply any amount computed under paragraph (a)(1)(iv) of this section to reduce the outstanding principal balance as of December 31.

(2) *Applicable interest rates under the PLUS program.* The applicable interest rate on a PLUS loan is—

(i) 9 percent for a loan made on or after January 1, 1981, but before October 1, 1981;

(ii) 14 percent for a loan made on or after October 1, 1981, but before November 1, 1982;

(iii) Except as provided in paragraphs (a)(2) (iv) and (v) of this section, 12 percent for a loan made on or after November 1, 1982;

(iv) For a loan disbursed on or after July 1, 1987, and for any loan made under § 682.209 (e) or (f), a variable rate, applicable to each July 1–June 30 period, that equals the lesser of—

(A) The bond equivalent rate of the 52-week Treasury bills auctioned at the final auction held prior to the June 1 immediately preceding the July 1–June 30 period, plus 3.25 percent; or

(B) 12 percent;

(v) For a combined repayment schedule under § 682.209(d), the rate that is the weighted average of the rates of all loans included under that schedule; and

(vi) For a loan disbursed prior to July 1, 1987, if provided for in a promissory note, a variable rate, applicable to each January 1–December 31 period, that equals the lesser of—

(A) The average of the bond equivalent rates of 91-day Treasury bills auctioned during the 12-months ending the November 30 preceding the January 1–December 31 period; plus 3.75 percent; or

(B) 12 percent.

(vii) For a loan for which the first disbursement is made on or after October 1, 1992, a variable rate, applicable to each July 1–June 30 period, that equals the lesser of—

(A) The bond equivalent rate of the 52-week Treasury Bills auctioned at the final auction held prior to the June 1 immediately preceding that July 1–June 30 period, plus 3.1 percent; or

(B) 10 percent.

(3) *Applicable interest rates under the SLS Program.* The applicable interest rate on an SLS Program loan is—

(i) 12 percent for a loan covering a period of enrollment beginning on or after October 17, 1986, but before July 1, 1987;

(ii) For a loan disbursed on or after July 1, 1987, and for any loan made under § 682.209 (e) or (f), a variable rate, applicable to each July 1–June 30 period, that equals the lesser of—

(A) The bond equivalent rate of the 52-week Treasury Bills auctioned at the final auction held prior to the June 1 immediately preceding that July 1–June 30 period, plus 3.25 percent; or

(B) 12 percent; and

(iii) For a combined repayment schedule under § 682.209(d), the rate that is the weighted average of the rates of all loans included under that schedule; and

(iv) For a loan disbursed prior to July 1, 1987, if provided for in a promissory note, a variable rate, applicable to each January 1–December 31 period, that equals the lesser of—

(A) The average of the bond equivalent rates of 91-day Treasury bills auctioned during the 12-months ending the November 30 preceding the January 1–December 31 period, plus 3.75 percent; or

(B) 12 percent.

(v) For a loan for which the first disbursement is made on or after October 1, 1992, a variable rate, applicable to each July 1–June 30 period, that equals the lesser of—

(A) The bond equivalent rate of the 52-week Treasury Bills auctioned at the final auction held prior to the June 1 immediately preceding that July 1–June 30 period, plus 3.1 percent; or

(B) 11 percent.

(4) *Applicable interest rates under the Consolidation Program.* A Consolidation Program loan bears interest at the rate that is the greater of—

(i) The weighted average of interest rates on the loans consolidated, rounded to the nearest whole percent; or

(ii) 9 percent.

(5) *Actual interest rates under the Stafford loan, SLS, PLUS, and Consolidation Programs.* A lender may charge a borrower an actual rate of interest that is less than the applicable interest rate specified in paragraphs (a)(1)–(4) of this section.

(b) *Capitalization.* (1) A lender may add accrued interest and unpaid insurance premiums to the borrower's unpaid principal balance in accordance with paragraph (b)(2) of this section. This increase in the principal balance of a loan is called "capitalization."

(2) A lender may capitalize interest payable by the borrower that has accrued—

(i) During the period from the date the first disbursement was made to the beginning date of the in-school period;

(ii) During the in-school period or grace period, if capitalization is expressly authorized by the promissory note (or with the written consent of the borrower);

(iii) During a period of authorized deferment;

(iv) During a period of authorized forbearance; or

(v) During the period from the date the first installment payment was due until it was made.

(3) A lender may capitalize accrued interest under paragraphs (b)(2)(ii) through (iv) of this section no more frequently than quarterly, except that capitalization is again permitted when repayment is required to begin or resume. A lender may capitalize accrued interest under paragraph (b)(2)(i) and (v) of this section only on the date repayment of principal is scheduled to begin.

(4) Under the SLS and PLUS programs, the lender shall require the borrower to pay on a monthly or quarterly basis or, with the borrower's written consent, capitalize on a quarterly basis interest that has accrued during periods in which the borrower—

(i) Is pursuing a full-time course of study at an eligible institution;

(ii) Is pursuing at least a half-time course of study (as determined by the institution) during an enrollment period

for which the student has obtained a FFEL loan;

(iii) Is pursuing a course of study pursuant to a graduate fellowship program approved by the Secretary; or

(iv) Is pursuing a rehabilitation training program for disabled individuals that is approved by the Secretary.

(5) For all borrowers who are in a period of deferment, a required medical or dental internship forbearance, or the in-school or grace period on a nonsubsidized Stafford loan and have agreed to monthly or quarterly payments of interest, the lender may capitalize past due interest after notification to the borrower that the borrower's failure to resolve any delinquency constitutes the borrower's consent to capitalization of delinquent interest and all interest that will accrue through the remainder of that period.

(c) *Origination fee for Stafford, SLS, and PLUS loans.* Except in the case of an unsubsidized Stafford loan, a lender—

(1) May charge a borrower an origination fee on a subsidized Stafford loan not to exceed the maximum rate specified by Federal statute;

(2) Shall charge a borrower an origination fee on an SLS or PLUS loan of 5 percent of the principal amount of the loan;

(3) May deduct the origination fee from the proceeds of the loan;

(4) Shall, in the case of a loan disbursed in multiple installments, deduct a *pro rata* portion of the fee from each disbursement; and

(5) Shall refund by a credit against the borrower's loan balance the portion of the origination fee previously deducted from the loan that is attributable to any portion of that loan that is—

(i) Returned by the school to the lender;

(ii) Repaid within 120 days of disbursement; or

(iii) Not delivered within 120 days of disbursement.

(d) *Insurance premium.* A lender may charge the borrower the amount of the insurance premium paid by the lender to the guarantor up to 3 percent of the principal amount of the Stafford, SLS, or PLUS loan, if that charge is provided for in the borrower's promissory note.

(e) *Administrative charge for a refinanced PLUS or SLS Loan.* A lender may charge a borrower up to $100 to cover the administrative costs of making a loan to a borrower under § 682.209(e) for the purpose of refinancing a PLUS or SLS loan to secure a variable interest rate.

(f) *Late charge.* (1) If authorized by the borrower's promissory note, the lender may require the borrower to pay a late charge under the circumstances described in paragraph (f)(2) of this section. This charge may not exceed six cents for each dollar of each late installment.

(2) The lender may require the borrower to pay a late charge if the borrower fails to pay all or a portion of a required installment payment within 10 days after it is due.

(g) *Collection charges.* (1) If provided for in the borrower's promissory note, and notwithstanding any provisions of State law, the lender may require that the borrower or any endorser pay costs incurred by the lender or its agents in collecting installments not paid when due, including, but not limited to—

(i) Attorney's fees;

(ii) Court costs; and

(iii) Telegrams.

(2) The costs referred to in paragraph (g)(1) of this section may not include routine collection costs associated with preparing letters or notices or with making personal contacts with the borrower (e.g., local and long-distance telephone calls).

(Authority: 20 U.S.C. 1077, 1078, 1078–1, 1078–2, 1078–3, 1079, 1082, 1087–1, 1091a)

§ 682.203 Responsible parties.

(a) *Delegation of functions.* A school, lender, or guaranty agency may contract or otherwise delegate the performance of its functions under the Act and this part to a servicing agency or other party. This contracting or other delegation of functions does not relieve the school, lender, or guaranty agency of its duty to comply with the requirements of the Act and this part.

(b) *Trustee responsibility.* A lender that holds a loan in its capacity as a trustee assumes responsibility for complying with all statutory and regulatory requirements imposed on any other holders of a loan.

(Authority: 20 U.S.C. 1082)

§ 682.204 Maximum loan amounts.

(a) *Stafford Loan Program annual limits.* (1) Except as provided in paragraph (a)(2) of this section, the total amount a student may borrow for any academic year of study under the Stafford Loan Program, including the FISL Program, may not exceed—

(i) $2,625, in the case of an undergraduate student who has not successfully completed the first and second years of the undergraduate program of study in which he or she is currently enrolled;

(ii) $4,000, in the case of an undergraduate student who has successfully completed the first and second years of the undergraduate program of study in which he or she is currently enrolled; and

(iii) $7,500, in the case of a graduate or professional student.

(2) In the case of a student who has not successfully completed the first year of a program of undergraduate education, the total amount a student may borrow may not exceed—

(i) $2,625 for enrollment in a program of study of at least a full academic year in length;

(ii) $1,750 for enrollment in a program of study of at least two-thirds but less than a full academic year in length; and

(iii) $875 for enrollment in a program of study of at least one-third but less than two-thirds of an academic year in length.

(b) *Stafford Loan Program aggregate limits.* The aggregate guaranteed unpaid principal amount of all Stafford loans made to a student may not exceed—

(1) $17,250, in the case of an undergraduate student for programs of study at the undergraduate level; and

(2) $54,750, in the case of graduate or professional student, including loans for undergraduate study.

(c) *PLUS Program annual limit.* The total amount of all PLUS loans that parents may borrow on behalf of each dependent student for any academic year of study may not exceed $4,000.

(d) *PLUS Program aggregate limit.* The total guaranteed upaid principal amount of PLUS Program loans that parents may borrow on behalf of each dependent student may not exceed $20,000.

(e) *SLS Program annual limit.* (1) The total amount of all SLS loans that a student may borrow for any academic year of study may not exceed $4,000 or, if the student is entering or is enrolled in a program of undergraduate education that is less than one academic year in length and the student's SLS loan application is certified pursuant to § 682.603 by the school on or after January 1, 1990—

(i) $2,500 for a student enrolled in a program of study of at least ⅔ of an academic year but less than a full academic year in length;

(ii) $1,500 for a student enrolled in a program of study less than ⅔ but at least ⅓ of an academic year in length; and

(iii) $0 for a student enrolled in a program of study that is less than ⅓ of an academic year in length.

(2) The minimum period for which a student may apply for an SLS loan is the greater of—

(i) The length of the institution's academic year; or

(ii) Seven consecutive months.

(f) *SLS Program aggregate limit.* The total guaranteed unpaid principal

amount of SLS Program loans made to a student may not exceed $20,000.

(g) *Treatment of Consolidation loans for purposes of determining loan limits.* The percentage of the outstanding balance on a Consolidation loan counted against a borrower's aggregate loan limits under the Stafford loan, SLS, PLUS, Perkins Loan, or HPSL program must equal the percentage of the original amount of the Consolidation loan attributable to loans made to the borrower under that program.

(h) In no case may a Stafford, PLUS, or SLS loan amount exceed the student's estimated cost of attendance for the period of enrollment for which the loan is intended, less—

(1) The student's estimated financial assistance for that period; and

(2) The borrower's expected family contribution for that period, in the case of a Stafford loan that is eligible for interest benefits.

(Authority: 20 U.S.C. 1075, 1078, 1078–1, 1078–2, 1078–3, 1079, 1082, 1089)

§ 682.205 Disclosure requirements for lenders.

(a) *Initial disclosure statement.* (1) Except in the case of a Consolidation loan, a lender shall disclose the information described in paragraph (a)(2) of this section to a borrower in writing before or at the time of the first disbursement on a FFEL program loan. The written information given to the borrower must prominently and clearly display, in bold print, a clear and concise statement that the borrower is receiving a loan that must be repaid.

(2) The lender shall provide the borrower with—

(i) The lender's name, the address to which correspondence with the lender and payments should be sent, and a statement that the lender may sell or transfer the loan to another party, in which case the address and identity of the party to which correspondence and payments should be sent may change;

(ii) The principal amount of the loan;

(iii) The amount of any charges, including the origination fee if applicable, and the insurance premium, to be collected by the lender before or at the time of each disbursement on the loan, and an explanation of whether those charges are to be deducted from the proceeds of the loan or paid separately by the borrower;

(iv) The actual interest rate;

(v) The annual and aggregate maximum amounts that may be borrowed;

(vi) A statement that information concerning the loan, including the date of disbursement and the amount of the loan, will be reported to a national credit bureau;

(vii) An explanation of when repayment of the loan is required and when the borrower is required to pay the interest that accrues on the loan;

(viii) The minimum and maximum number of years in which the loan must be repaid and the minimum amount of required annual payments;

(ix) An explanation of any special options the borrower may have for consolidating or refinancing the loan;

(x) A statement that the borrower has the right to prepay all or part of the loan at any time, without penalty;

(xi) A statement describing the circumstances under which repayment of the loan or interest that accrues on the loan may be deferred;

(xii) A statement of availability of the Department of Defense program for repayment of loans on the basis of military service, as provided for in 10 U.S.C. 2171;

(xiii) The definition of "default" found in § 682.200, and the consequences to the borrower of a default, including a statement concerning likely litigation, a statement that the default will be reported to a national credit bureau, and statements that the borrower will be liable for substantial collection costs, that the borrower's Federal and State income tax refund may be withheld to pay the debt, that the borrower's wages will be garnished or offset, and that the borrower will be ineligible for additional Federal student financial aid, as well as for assistance under most Federal benefit programs;

(xiv) An explanation of the possible effects of accepting the loan on the student's eligibility for other forms of student financial assistance;

(xv) An explanation of any costs the borrower may incur in the making or collection of the loan; and

(xvi) In the case of a Stafford or SLS loan, other than an SLS loan made under § 682.209 (e) or (f) or a loan made to a borrower attending a school that is not in a State, a statement that the loan proceeds will be transmitted to the school for delivery to the borrower; and

(xvii) A statement of the total cumulative balance, including the loan applied for, owed to that lender, and an estimate of, or information that will allow the borrower to estimate, the projected monthly payment amount based on that cumulative outstanding balance.

(b) *Separate statement of borrower rights and responsibilities.* In addition to the disclosures required by paragraph (a) of this section, the lender shall provide the borrower with a separate statement, written in plain English, at or prior to the time of the first disbursement, that—

(1) Summarizes the rights and responsibilities of the borrower with respect to the loan; and

(2) Indicates the consequences to the borrower of defaulting on the loan described in paragraph (a)(2)(xiii) of this section.

(c) *Disclosure of repayment information.* (1) The lender shall disclose the information described in paragraph (c)(2) of this section in a written statement provided to the borrower at or prior to the beginning of the repayment period. In the case of a Stafford or SLS loan, the disclosures required by this paragraph must be made not less than 60 days nor more than 240 days before the first payment on the loan is due from the borrower. In the case of a FISL loan, the lender shall make the disclosures during the grace period. If the borrower enters the repayment period without the lender's knowledge, the lender shall provide the required disclosures to the borrower in writing immediately upon discovering that the borrower has entered the repayment period.

(2) The lender shall provide the borrower with—

(i) The lender's name and the address to which correspondence with the lender and payments should be sent;

(ii) The scheduled date the repayment period is to begin;

(iii) The estimated balance, including the estimated amount of interest to be capitalized, owed by the borrower as of the date upon which the repayment period is to begin, or the date of the disclosure, whichever is later;

(iv) The actual interest rate on the loan;

(v) An explanation of any fees that may accrue or be charged to the borrower during the repayment period;

(vi) The borrower's repayment schedule, including the due date of the first installment and the number, amount, and frequency of payments;

(vii) Except in the case of a Consolidation loan, an explanation of any special options the borrower may have for consolidating or refinancing the loan and of the availability and terms of such other options;

(viii) The estimated total amount of interest to be paid on the loan, assuming that payments are made in accordance with the repayment schedule; and

(ix) A statement that the borrower has the right to prepay all or part of the loan at any time, without penalty.

(d) *Exception to disclosure requirement.* In the case of an SLS or PLUS loan, the lender is not required to

provide the information in paragraph (c)(2)(viii) of this section if the lender, in lieu of that disclosure, provides the borrower with sample projections of monthly repayment amounts assuming different levels of borrowing and interest accruals resulting from capitalization of interest while the student is in school. Sample projections must disclose the cost to the borrower of capitalizing—

(1) Principal and interest; and

(2) Interest only.

(e) *Borrower may not be charged for disclosures.* The lender shall provide the information required to be disclosed by paragraphs (a), (b), and (c) of this section at no cost to the borrower.

(Authority: 20 U.S.C. 1077, 1078, 1078–1, 1078–2, 1078–3, 1082, 1083(a))

§ 682.206 Due diligence in making a loan.

(a) *General.* (1) Loan-making duties include processing the loan application and other required forms, approving the borrower for a loan, determining the loan amount, explaining to the borrower his or her rights and responsibilities under the loan, and completing and having the borrower sign the promissory note.

(2) A lender that delegates substantial loan-making duties to a school on a loan thereby enters into a loan origination relationship with the school in regard to that loan. If that relationship exists, the lender may rely in good faith upon statements of the borrower made in the loan application process, but may not rely upon statements made by the school in that process. A non-school lender that does not have an origination relationship with a school with respect to a loan may rely in good faith upon statements of both the borrower and the school in the loan application process. Except as provided in 34 CFR part 668, subpart E, a school lender may rely in good faith upon statements made by the borrower in the loan application process.

(b) *Processing forms.* Before disbursing a loan, a lender must determine that all required forms have been accurately completed by the borrower, the student, the school, and the lender. A lender may not ask the borrower to sign any form before the borrower has provided on the form all information requested from the borrower.

(c) *Approval of borrower and determination of loan amount.* (1) A lender may make a loan only to an eligible borrower. To the extent authorized by paragraph (a)(2) of this section, the lender may rely on the information provided on the application form or data electronically transmitted to the lender by the school, the borrower, and, if the borrower is a parent, the student on whose behalf the loan is sought, in determining the borrower's eligibility for a loan.

(2) In determining the amount of the loan to be made, the lender shall review the data on the student's cost of attendance and estimated financial assistance that is provided by the school. In no case may the loan amount exceed the student's estimated cost of attendance less the sum of—

(i) The student's estimated financial assistance for the period of enrollment for which the loan is intended; and

(ii) In the case of a Stafford loan that is eligible for interest benefits, the borrower's expected family contribution for that period.

(3) A lender may not approve a loan for more than the borrower requests, the student's unmet financial need, or the maximum established by § 682.204, whichever is less.

(d) *Promissory note.* (1) The lender shall obtain from the borrower an executed legally enforceable promissory note for each loan as proof of the borrower's indebtedness.

(2) Without the guarantor's prior approval, a lender may not add any clauses to, or modify any provisions of, the most current promissory note provided by the guarantor.

(3) The lender shall give the borrower and any endorser or co-maker a copy of each executed note.

(e) *Security, endorsement, and co-makers.* (1) A FISL or Federal PLUS loan must be made without security or endorsement.

(2) A Federal PLUS Program loan may be made to two eligible parents who agree to be jointly liable for repayment of the loan as co-makers.

(f) *Additional requirement for Consolidation loans.* (1) Prior to disbursement of a Consolidation loan, the lender shall obtain from the holder of each loan to be consolidated a certification with respect to the loan held by the holder that—

(i) The loan is a legal, valid, and binding obligation of the borrower;

(ii) The loan was made and serviced in compliance with applicable laws and regulations; and

(iii) In the case of a FFEL loan, that the guarantee on the loan is in full force and effect.

(2) The Consolidation loan lender may rely in good faith on the certification provided under paragraph (f)(1) of this section by the holder of a loan to be consolidated.

(Authority: 20 U.S.C. 1077, 1078, 1078–1, 1078–2, 1078–3, 1079, 1080, 1082, 1083, 1085)

§ 682.207 Due diligence in disbursing a loan.

(a) (1) This section prescribes procedures for lenders to follow in disbursing Stafford, SLS, and PLUS loans, other than a refinanced SLS or PLUS Program loan made under § 682.209 (e) or (f). With respect to FISL, Federal SLS, and Federal PLUS loans, references to the "guaranty agency" in this section shall be understood to refer to the "Secretary."

(2) The requirements of paragraphs (b)(1) (ii) and (v) of this section must be satisfied either by the lender or by an escrow agent with which the lender has an agreement pursuant to § 682.408. The lender shall comply with paragraph (b)(1)(iii) of this section whether or not it disburses to an escrow agent.

(b) (1) In disbursing a loan, a lender—

(i) (A) May not disburse loan proceeds prior to the issuance of the guarantee commitment for the loan by the guaranty agency, except with the agency's prior approval; and

(B) Must disburse a Stafford or SLS loan in accordance with the disbursement schedule provided by the school;

(ii) Shall disburse loan proceeds by—

(A) A check that is made payable to the borrower, or, if required by the guarantor or lender, is made co-payable to the borrower and the school for attendance at which the loan is intended, and requires the personal endorsement or other written certification of the borrower in order to be cashed or deposited in an account of the borrower at a financial institution; or

(B) If authorized by the guarantor, electronic funds transfer to a separate account maintained by the school as trustee for the lender, the guaranty agency, the Secretary, and the borrower, that requires the written approval of the borrower that is secured and retained by the school for each FFEL program loan for which funds are released from the account;

(iii) May not disburse loan proceeds earlier than is reasonably necessary to meet the student's cost of attendance for the period for which the loan is made, and, in no case without the Secretary's prior approval, disburse loan proceeds earlier than 30 days prior to the date on which the student is scheduled to enroll;

(iv) Shall require an escrow agent to disburse loan proceeds no later than 21 days after the agent receives the proceeds from the lender;

(v) Shall disburse—

(A) Except as provided in paragraph (b)(1)(v)(C)(*1*) of this section, directly to the school;

(B) In the case of a PLUS loan, a check made co-payable to the institution and the borrower or by electronic funds transfer to a separate account maintained by the school as trustee for the lender; or

(C) In the case of a student enrolled in a study-abroad program approved for credit at the home institution in which the student is enrolled, if the student requests—

(*1*) Directly to the student; or

(*2*) To the home institution if the borrower provides a power-of-attorney to an individual not affiliated with the institution to endorse the check or complete an electronic funds transfer authorization.

(vi) Except as provided in paragraph (d)(2) of this section, may not disburse a second or subsequent disbursement on a Stafford or SLS loan to a student who has ceased to be enrolled.

(2) Except as provided in paragraph (b)(1)(v)(C)(*2*) of this section, neither a lender nor a school may obtain a borrower's power of attorney or other authorization to endorse or otherwise approve the cashing of a loan check or the release of funds disbursed by electronic funds transfer, nor may a borrower provide this power of attorney or authorization to anyone else. However, the school may present the loan check to a financial institution for deposit in an account of the borrower pursuant to the borrower's written authorization under paragraph (b)(1)(ii)(A) of this section.

(c) A lender shall disburse any Stafford or SLS loan, as follows:

(1) Disbursement must be in two or more installments.

(2) No installment may exceed one-half of the loan.

(3) At least one-half of the period of enrollment for which the loan is made must elapse before the second installment is disbursed, except as necessary to permit the second installment to be disbursed at the beginning of the next semester, quarter, or similar division of the period of enrollment.

(d)(1) Unless prohibited by the guaranty agency, a lender may disburse loan proceeds after the student has ceased to be enrolled on at least a half-time basis or after the expiration date of the period of enrollment for which the loan was intended, in accordance with paragraphs (d)(2) and (3) of this section.

(2) A disbursement described in paragraph (d)(1) of this section may be made—

(i)(A) Only if the loan proceeds will be used to cover documented educational charges to the student that are normally included in a borrower's cost of attendance under section 472 of the Act for a period of enrollment for which the loan was intended and during which the student was actually enrolled on at least a half-time basis;

(B) Only if a student completed the first 30 days of the loan period for which the loan was intended, in the case of a first disbursement of a loan obtained by a student to attend the first year of a program of undergraduate education; or

(C) Only if the student successfully completed the period for which the loan was intended, in the case of second or subsequent disbursement; and

(ii) Within 60 days after the date the student ceases to be enrolled on at least a half-time basis or after the expiration date of the period of enrollment for which the loan was made, whichever is earlier.

(3) The lender shall give notice to the school that the loan proceeds have been disbursed in accordance with paragraph (d)(2) of this section at the time the lender sends the loan proceeds to the school.

(Authority: 20 U.S.C. 1077, 1078, 1078–1, 1078–2, 1078–3, 1079, 1080, 1082, 1085)

§ 682.208 Due diligence in servicing a loan.

(a) The loan servicing process includes reporting to national credit bureaus, responding to borrower inquiries, and establishing the terms of repayment.

(b) (1) An eligible lender of a FFEL loan shall report to at least one national credit bureau—

(i) The total amount of FFEL loans the lender has made to the borrower, within 90 days of each disbursement;

(ii) The outstanding balance of the loans;

(iii) Information concerning the repayment status of the loan, within 90 days after a change in that status from current to delinquent;

(iv) The date the loan is fully repaid by, or on behalf of, the borrower, or discharged by reason of the borrower's death, bankruptcy, or total and permanent disability, within 90 days after that date;

(v) Other information required by law to be reported.

(2) An eligible lender that has acquired a FFEL loan shall report to at least one national credit bureau the information required by paragraph (b)(1)(ii)–(v) of this section within 90 days of its acquisition of the loan.

(c)(1) A lender shall respond within 30 days after receipt to any inquiry from a borrower or any endorser on a loan.

(2) When a lender learns that a Stafford loan borrower is no longer enrolled at an eligible school on at least a half-time basis, the lender shall promptly contact the borrower in order to establish the terms of repayment.

(d) Subject to the rules regarding maximum duration of a repayment period and minimum annual payment described in § 682.209(a)(7), (c), and (h), nothing in this part is intended to limit a lender's discretion in establishing, or, with the borrower's consent, revising a borrower's repayment schedule—

(1) To provide for graduated or income-sensitive repayment terms. The Secretary strongly encourages lenders to provide a graduated or income-sensitive repayment schedule to a borrower providing for at least the payment of interest charges, unless the borrower requests otherwise, in order to make the borrower's repayment burden commensurate with his or her projected ability to pay; or

(2) To provide a single repayment schedule for all FFEL program loans to the borrower held by the lender.

(e)(1) If the assignment of a Stafford, PLUS, or SLS loan is to result in a change in the identity of the party to whom the borrower must send subsequent payments, the assignor and the assignee of the loan shall, no later than 45 days from the date the assignee acquires a legally enforceable right to receive payment from the borrower on the assigned loan, provide separate notice to the borrower of—

(i) The assignment;

(ii) The identity of the assignee;

(iii) The name and address of the party to whom subsequent payments must be sent; and

(iv) The telephone numbers of both the assignor and the assignee.

(2) The assignor and assignee must provide the notice required by paragraph (e)(1) of this section separately. Each notice must indicate that a corresponding notice will be sent by the other party to the assignment.

(3) For purposes of this paragraph, the term "assigned" is defined in § 682.401(b)(15)(ii).

(f) (1) Notwithstanding an error by the school or lender, a lender shall follow the procedures in § 682.412 whenever it receives information that can be substantiated that the borrower, or the student on whose behalf a parent has borrowed, provided false or erroneous information or took actions that caused the student or borrower—

(i) To be ineligible for all or a portion of a loan made under this part;

(ii) To receive a Stafford loan subject to payment of Federal interest benefits as provided under § 682.301, for which he or she was ineligible; or

(iii) To receive loan proceeds that were not paid to the school or repaid to the lender by or on behalf of a registered student who—

(A) The school notifies the lender under § 682.604(d)(4) has withdrawn or been expelled prior to the first day of classes for the period of enrollment for which the loan was intended; or

(B) Failed to attend school during that period.

(2) For purposes of this section, the term "guaranty agency" in § 682.412(e) refers to the Secretary in the case of a Federal GSL loan.

(g) If, during a period when the borrower is not delinquent, a lender receives information indicating it does not know the borrower's address, it may commence the skip-tracing activities specified in § 682.411(g).

(Authority: 20 U.S.C. 1077, 1078, 1078–1, 1078–2, 1078–3, 1079, 1080, 1082, 1085)

§ 682.209 Repayment of a loan.

(a) *Conversion of a loan to repayment status.* (1) For a PLUS loan disbursed in one installment or a Consolidation loan, the repayment period begins on the date the loan is disbursed. The first payment is due within 60 days after the date the loan is fully disbursed.

(2) (i) For a PLUS loan disbursed in more than one installment, the repayment period begins on the date of the first disbursement made on the loan. The first payment is due within 60 days after the date the loan is fully disbursed.

(ii) For an SLS loan, the repayment period begins on the date the loan is disbursed, or, if the loan is disbursed in multiple installments, on the date of the last disbursement of the loan. Except as provided in paragraph (a)(2)(iii) of this section the first payment is due within 60 days after the date the loan is fully disbursed.

(iii) For an SLS borrower who has not yet entered repayment on a Stafford loan, the borrower may postpone payment, consistent with the grace period on the borrower's Stafford loan.

(3)(i) Except as provided in paragraphs (a)(4) and (5) of this section, for a Stafford loan the repayment period begins—

(A) For a borrower with a loan for which the applicable interest rate is 7 percent per year, not less than 9 nor more than 12 months following the date on which the borrower is no longer enrolled on at least a half-time basis at an eligible school. The length of this grace period is determined by the lender for loans made under the FISL Program, and by the guaranty agency for loans guaranteed by the agency; and

(B) For a borrower with a loan for which the initial applicable interest rate is 8 or 9 percent per year, 6 months following the date on which the borrower is no longer enrolled on at least a half-time basis at an eligible school.

(ii) The first payment on a Stafford loan is due on a date established by the lender that is no more than—

(A) 45 days following the first day that the repayment period begins;

(B) 45 days from the expiration of a deferment or forbearance period;

(C) 45 days following the end of the grace period; or

(D) If the lender first learns after the fact that the borrower has entered the repayment period, no later than 75 days after the date the lender learns that the borrower has entered the repayment period.

(4) For a borrower of a Stafford loan who is a correspondence student, the grace period specified in paragraph (a)(3)(i) of this section begins on the earliest of the date—

(i) The borrower completes the program;

(ii) The borrower falls 60 days behind the due date for submission of a scheduled assignment, according to the schedule required in § 682.602. However, a school may grant the borrower one restoration to in-school status if the borrower fails to submit a lesson within this 60-day period after the due date for submission of a particular assignment if, within the 60-day period, the borrower declares, in writing, an intention to continue in the program and an understanding that the required lessons must be submitted on time; or

(iii) That is 60 days following the latest allowable date established by the school for completing the program under the schedule required under § 682.602.

(5) For a Stafford loan, the repayment period begins prior to the end of the grace period if the borrower requests in writing and is granted a repayment schedule that so provides. In this event, a borrower waives the remainder of the grace period.

(6) (i) The repayment schedule may provide for substantially equal installment payments or for installment payments that increase in amount over the repayment period.

(ii) If a graduated or income-sensitive repayment schedule is established, it may not provide for any single installment that is more than three times greater than any other installment. An agreement as specified in paragraph (c)(1)(ii) of this section is not required if the schedule provides for less than the minimum annual payment amount specified in paragraph (c)(1)(i) of this section.

(7) (i) Subject to paragraphs (a)(7) (ii) through (iv) of this section, a lender shall allow a borrower at least 5 years, but not more than 10 years, to repay a Stafford, SLS, or PLUS loan, calculated from the beginning of the repayment period. Except in the case of a FISL loan for a period of enrollment beginning on or after July 1, 1986, the lender shall require a borrower to fully repay a FISL loan within 15 years after it is made.

(ii) If the borrower receives an authorized deferment or is granted forbearance, as described in § 682.210 or § 682.211, respectively, the periods of deferment or forbearance are excluded from determinations of the 5-, 10-, and 15-year periods.

(iii) If the minimum annual repayment required in paragraph (c) of this section would result in complete repayment of the loan in less than 5 years, the borrower is not entitled to the full 5-year period.

(iv) The borrower may, prior to the beginning of the repayment period, request and be granted by the lender a repayment period of less than 5 years. Subject to paragraph (a)(7)(iii) of this section, a borrower who makes such a request may, by written notice to the lender at any time during the repayment period, extend the repayment period to a minimum of 5 years.

(8) If, with respect to the aggregate of all loans held by a lender, the total payment made by a borrower for a monthly or similar payment period would not otherwise be a multiple of five dollars, the lender may round that periodic payment to the next highest whole dollar amount that is a multiple of five dollars.

(b) *Prepayment.* (1) The borrower may prepay the whole or any part of a loan at any time without penalty. Except as provided in paragraph (b)(2) of this section, the lender may credit the entire prepayment first to any late charges accrued or collection costs and then to any outstanding interest and then to outstanding principal, unless the borrower requests that the lender credit the prepayment to future installments or a prepayment of principal.

(2) If the prepayment amount equals or exceeds 3 full payments under the repayment schedule established for the loan, unless the borrower requests otherwise, the lender may apply the prepayment to future installments and advance the next payment due date, without the prior request of the borrower. If the lender does apply payments to future installments, it shall notify the borrower that the payments have been so applied, and remind the

borrower of the repayment obligation and the next scheduled payment due date.

(c) *Minimum annual payment.* (1)(i) Subject to paragraphs (c)(1) (ii) and (iii) of this section, during each year of the repayment period a borrower's total payments to all holders of the borrower's FFEL Program loans must total at least $600 or the unpaid balance of all loans, including interest, whichever amount is less.

(ii) If the borrower and the lender agree, the amount paid may be less.

(2) The provisions of paragraphs (c)(1) (i) and (ii) of this section may not result in an extension of the 10-year maximum repayment period unless forbearance, as described in § 682.211 or deferment described in § 682.210, has been approved.

(d) *Combined repayment of a borrower's student PLUS and SLS loans held by a lender.* (1) A lender may, at the request of a student borrower, combine the borrower's, student PLUS and SLS loans held by it into a single repayment schedule.

(2) The repayment period on the loans included in the combined repayment schedule must be calculated based on the beginning of repayment of the most recent included loan.

(3) The interest rate on the loans included in the new combined repayment schedule must be the weighted average of the rates of all included loans.

(e) *Refinancing a fixed-rate PLUS or SLS Program loan to secure a variable interest rate.* (1) Subject to paragraph (g) of this section, a lender may, at the request of a borrower, refinance a PLUS or SLS loan with a fixed interest rate in order to permit the borrower to obtain a variable interest rate.

(2) A loan made under paragraph (e)(1) of this section—

(i) Must bear interest at the variable rate described in § 682.202(a)(2)(iv); and

(ii) May not extend the repayment period provided for in paragraph (a)(7)(i) of this section.

(3) The lender may not charge an additional insurance premium on the loan, but may charge the borrower an administrative fee pursuant to § 682.202(e).

(f) *Refinancing of a fixed-rate PLUS or SLS Program loan to secure a variable interest rate by discharge of previous loan.* (1) Subject to paragraph (g) of this section, a borrower who has applied for, but been denied, a refinanced loan authorized under paragraph (e) of this section by the holder of the borrower's fixed-rate PLUS or SLS loan, may obtain a loan from another lender for the purpose of discharging the fixed-rate loan and obtaining a variable interest rate.

(2) A loan made under paragraph (f)(1) of this section—

(i) Must bear interest at the variable interest rate described in § 682.202(a)(2)(iv);

(ii) May not operate to extend the repayment period provided for in paragraph (a)(7)(i) of this section; and

(iii) Must be disbursed to the holder of the fixed-rate loan to discharge the borrower's obligation thereon.

(3) Upon receipt of the proceeds of a loan made under paragraph (f)(1) of this section, the holder of the fixed-rate loan shall, within five business days, apply the proceeds to discharge the borrower's obligation on the fixed-rate loan, and provide the refinancing lender with either a copy of the borrower's original promissory note evidencing the fixed-rate loan or the holder's written certification that the borrower's obligation on the fixed-rate loan has been fully discharged.

(4) The refinancing lender may charge the borrower an insurance premium on a loan made under paragraph (f)(1) of this section, but may not charge a fee to cover administrative costs.

(5) For purposes of deferments under § 682.210, the refinancing loan—

(i) Is considered a PLUS loan if any of the included loans is a PLUS loan made to a parent;

(ii) Is considered an SLS loan if the combined loan does not include a PLUS loan made to a parent; or

(iii) Is considered a loan to a "new borrower" as defined in § 682.210(b)(7), if all the loans that were refinanced were made on or after July 1, 1987, for a period of enrollment beginning on or after that date.

(g) *Conditions for refinancing certain loans.* (1) A lender may not refinance a loan under paragraphs (e) or (f) of this section if that loan is in default, involves a violation of a condition of reinsurance described in § 682.406, or, in the case of a Federal SLS or PLUS loan, is uninsured by the Secretary.

(2)(i) Prior to refinancing a fixed-rate loan under paragraph (f) of this section, the lender shall obtain a written statement from the holder of the loan certifying that—

(A) The holder has refused to refinance the fixed-rate loan under paragraph (e) of this section; and

(B) The fixed-rate loan is eligible for insurance or reinsurance under paragraph (g)(1) of this section.

(ii) The holder of the fixed-rate loan shall, within 10 business days of receiving a lender's written request to provide a certification under paragraph (g)(2)(i) of this section, provide the lender with that certification, or provide the lender and the guarantor on the loan with a written explanation of the reasons for its inability to provide the certification to the requesting lender.

(iii) The refinancing lender may rely in good faith on the certification provided by the holder of the fixed-rate loan under paragraph (g)(2)(ii) of this section.

(h) *Consolidation loans.* (1) For a Consolidation loan, the repayment period begins on the day of disbursement, with the first payment due within 60 days after the date of disbursement.

(2) If the sum of the amount of the Consolidation loan and the unpaid balance on other student loans to the applicant—

(i) Is equal to or greater than $7,500 but less than $10,000, the borrower shall repay the Consolidation loan in not more than 12 years;

(ii) Is equal to or greater than $10,000 but less than $20,000, the borrower shall repay the Consolidation loan in not more than 15 years;

(iii) Is equal to or greater than $20,000 but less than $40,000, the borrower shall repay the Consolidation loan in not more than 20 years;

(iv) Is equal to or greater than $40,000 but less than $60,000, the borrower shall repay the Consolidation loan in not more than 25 years; or

(v) Is equal to or greater than $60,000, the borrower shall repay the Consolidation loan in not more than 30 years.

(3) In order to qualify for a repayment period under paragraph (h)(2)(ii) of this section, the Consolidation loan must include at least $5,000 in Title IV Part B loans.

(4) For the purpose of paragraph (h)(2) of this section the unpaid balance on other student loans—

(i) May not exceed the amount of the Consolidation loan; and

(ii) Does not include the unpaid balance on any loan on which the borrower is in default, unless the borrower has made satisfactory arrangements with the holder to repay that loan.

(iii) May include loans received prior to the date of the Consolidation loan provided that the loans are included within 180 days after the Consolidation loan is made.

(5) A repayment schedule for a Consolidation loan—

(i) Must be established by the lender;

(ii) Must provide for graduated or income-sensitive repayment; and

(iii) Must require that each payment equal at least the interest that accrues during the interval between scheduled payments.

(6) Upon receipt of the proceeds of a loan made under paragraph (h)(2) of this section, the holder of the underlying loan shall promptly apply the proceeds to discharge fully the borrower's obligation on the underlying loan, and provide the consolidating lender with the holder's written certification that the borrower's obligation on the underlying loan has been fully discharged.

(i) *Treatment by a lender of borrowers' refunds received from schools.* (1) A lender shall treat a payment of a borrower's refund of tuition or other institutional charges received by the lender from a school as a credit against the principal amount owed by the borrower on the borrower's loan.

(2)(i) If a lender receives a refund payment from a school on a loan that is no longer held by that lender, or that has been discharged by another lender by refinancing under § 682.209(f) or by a Consolidation loan, the lender shall transmit the amount of the refund payment, within 30 days of its receipt, to the lender to whom it assigned the loan, or to the lender that discharged the prior loan, with an explanation of the source of the payment.

(ii) Upon receipt of a refund transmitted under paragraph (i)(2)(i) of this section, the holder of the loan promptly shall provide written notice to the borrower that the holder has received the refund.

(j) *Certification on loans to be repaid through consolidation.* Within 10 business days after receiving a written request for a certification from a lender under § 682.206(f), a holder shall either provide the requesting lender the certification or, if it is unable to certify to the matters described in that paragraph, provide the requesting lender and the guarantor on the loan at issue with a written explanation of the reasons for its inability to provide the certification.

(Authority: 20 U.S.C. 1077, 1078, 1078–1, 1078–2, 1078–3, 1079, 1082, 1085)

§ 682.210 Deferment.

(a) *General.* (1) A borrower is entitled to have periodic installment payments of principal deferred during authorized periods after the beginning of the repayment period, pursuant to paragraph (b) of this section.

(2) (i) For a loan made before October 1, 1981, the borrower is also entitled to have periodic installments of principal deferred during the six-month period (post-deferment grace period) that begins after the completion of each deferment period or combination of those periods, except as provided in paragraph (a)(2)(ii) of this section.

(ii) Once a borrower receives a post-deferment grace period following an unemployment deferment, as described in paragraph (b)(1)(v) of this section, the borrower does not qualify for additional post-deferment grace periods following subsequent unemployment deferments.

(3) Interest accrues and is paid by the borrower during the deferment period and the post-deferment grace period, if applicable, unless interest accrues and is paid by the Secretary if—

(i) in the case of a Stafford loan, the loan was determined to be eligible for interest benefits under § 682.301 when the loan was made; or

(ii) in the case of a Consolidation loan, during any period the borrower was eligible for a deferment under section 428(b)(1)(m).

(4) As a condition for receiving a deferment, the borrower shall request the deferment, and provide the lender with all information and documents required to establish eligibility for a specific type of deferment.

(5) An authorized deferment period begins on the date the condition entitling the borrower to the deferment first exists, but not more than six months before the date the lender receives a request and the information and documentation required for the deferment.

(6) An authorized deferment period ends on the earlier of—

(i) The date when the condition establishing the borrower's eligibility for the deferment ends;

(ii) Except as provided in paragraph (a)(6)(iv) of this section, the date on which, as certified by an authorized official, the borrower's eligibility for the deferment is expected to end;

(iii) Except as provided in paragraph (a)(6)(iv) of this section, the expiration date of the period covered by any certification required by this section to be obtained for the deferment;

(iv) In the case of a student deferment for a Stafford or PLUS loan made to a borrower guaranteed by a guaranty agency whose student status confirmation report system includes student status reports for each borrower with a student deferment, and in the case of an SLS loan made to a borrower for a period of enrollment that commences at the same time as the deferment, the student's anticipated graduation date as indicated on the loan application, and as updated by notice to the lender from the school or guaranty agency; or

(v) The date when the condition providing the basis for the borrower's eligibility for the deferment has continued to exist for the maximum amount of time allowed for that type of deferment.

(7) A lender may not deny a borrower a deferment to which the borrower is entitled, even though the borrower may be delinquent, but not in default, in making required installment payments. The 180- or 240-day period required to establish default does not run during the deferment and post-deferment grace periods. Unless the lender has granted the borrower forbearance under § 682.211, when the deferment and, if applicable, the post-deferment grace period expire, a borrower resumes any delinquency status that existed when the deferment period began.

(8) A borrower whose loan is in default is not eligible for a deferment as to that loan, unless the borrower has made satisfactory repayment arrangements with the holder of the loan.

(9) The borrower promptly must inform the lender when the condition entitling the borrower to a deferment no longer exists.

(10) Authorized deferments are described in paragraph (b) of this section. Specific requirements for each deferment are set forth in paragraphs (c) through (r) of this section.

(b) *Authorized deferments.* (1) Deferment is authorized for a FFEL borrower during any period when the borrower is—

(i) Except as provided in paragraph (c)(4) of this section, engaged in full-time study at a school, or at a school that is operated by the Federal Government (e.g., the service academies), unless the borrower is not a national of the United States and is pursuing a course of study at a school not located in a State;

(ii) Engaged in a course of study under an eligible graduate fellowship program;

(iii) Engaged in a rehabilitation training program for disabled individuals;

(iv) Temporarily totally disabled, or unable to secure employment because the borrower is caring for a spouse or other dependent who is disabled and requires continuous nursing or similar services for up to three years; or

(v) Conscientiously seeking, but unable to find, full-time employment in the United States, for up to two years.

(2) For a borrower of a Stafford or SLS loan, and for a parent borrower of a PLUS loan made before August 15, 1983, deferment is authorized during any period when the borrower is—

(i) On active duty status in the United States Armed Forces, or an officer in the Commissioned Corps of the United States Public Health Service, for up to

three years (including any period during which the borrower received a deferment authorized under paragraph (b)(5)(i) of this section);

(ii) A full-time volunteer under the Peace Corps Act, for up to three years;

(iii) A full-time volunteer under Title I of the Domestic Volunteer Service Act of 1973 (ACTION programs), for up to three years;

(iv) A full-time volunteer for a tax-exempt organization, for up to three years; or

(v) Engaged in an internship of residency program, for up to two years (including any period during which the borrower received a deferment authorized under paragraph (b)(5)(iii) of this section).

(3) For a borrower of a Stafford or SLS loan who has been enrolled on at least a half-time basis at an eligible institution during the six months preceding the beginning of this deferment, deferment is authorized during a period of up to six months during which the borrower is—

(i) (A) Pregnant;

(B) Caring for his or her newborn child; or

(C) Caring for a child immediately following the placement of the child with the borrower before or immediately following adoption; and

(ii) Not attending a school or gainfully employed.

(4) For a "new borrower," as defined in paragraph (b)(7) of this section, of a Stafford, SLS, or PLUS loan, deferment is authorized during periods when the borrower is engaged in at least half-time study at a school for a period of enrollment for which the borrower received a Stafford or SLS loan, unless the borrower is not a national of the United States and is pursuing a course of study at a school not located in a State.

(5) For a new borrower, as defined in paragraph (b)(7) of this section, of a Stafford or SLS loan, deferment is authorized during any period when the borrower is—

(i) On active duty status in the National Oceanic and Atmospheric Administration Corps, for up to three years (including any period during which the borrower received a deferment authorized under paragraph (b)(2)(i) of this section);

(ii) Up to three years of service as a full-time teacher in a public or non-profit private elementary or secondary school in a teacher shortage area designated by the Secretary under paragraph (q) of this section.

(iii) Engaged in an internship or residency program, for up to two years (including any period during which the borrower received a deferment authorized under paragraph (b)(2)(v) of this section); or

(iv) A mother who has preschool-age children (i.e., children who have not enrolled in first grade) and who is earning not more than $1 per hour above the Federal minimum wage, for up to 12 months of employment, and who began that full-time employment within one year of entering or re-entering the work force. Full-time employment involves at least 30 hours of work a week and it expected to last at least 3 months.

(6) For a parent borrower of a PLUS loan, deferment is authorized during any period when the student on whose behalf the parent borrower received the loan—

(i) Is not independent as defined in section 480(d) of the Act; and

(ii) Meets the conditions and provides the required documentation, for any of the deferments described in paragraphs (b)(1)(i)–(iii) and (b)(4) of this section.

(7) For purposes of this section, a "new borrower" with respect to a loan is a borrower who, on the date he or she signs the promissory note, has no outstanding balance on—

(i) A Stafford, SLS, or PLUS loan made prior to July 1, 1987 for a period of enrollment beginning prior to July 1, 1987; or

(ii) A Consolidation loan that repaid a loan made prior to July 1, 1987 and for a period of enrollment beginning prior to July 1, 1987.

(c) *Student deferment.* (1) Except as provided in paragraph (c)(4) of this section, to document eligibility for a deferment for full-time study or half-time study at a school, the borrower shall provide the lender with—

(i) A completed deferment application or certified loan application; and

(ii) A statement, which may be on the deferment application or a loan application, completed by an authorized official of the school certifying that the borrower is enrolled on a full-time basis, or, in the case of a deferment described in paragraph (b)(4) of this section, on at least a half-time basis; and

(iii) In the case of a deferment described in paragraph (b)(4) of this section for a borrower who is at least half-time but less than full-time, a statement from the financial aid administrator of the school or other documentation evidencing that the borrower has received, or will receive, a Stafford or SLS loan for the period of enrollment for which the deferment is sought.

(2) The lender shall consider a deferment granted on the basis of a certified loan application to cover the period lasting until the anticipated graduation date appearing on the application, unless and until it receives notice that the borrower has ceased the level of study (i.e., full-time or half-time) required for the deferment.

(3) In the case of an SLS or PLUS borrower, the lender shall treat the certified loan application as sufficient documentation for a student deferment for any outstanding SLS or PLUS loan previously made to the borrower that is held by the lender.

(4) A borrower serving in a medical internship residency program, except for an internship in dentistry, is prohibited from receiving or continuing deferment on a Stafford or SLS loan under paragraph (c) of this section.

(d) *Graduate fellowship deferment.* (1) To qualify for a deferment for study in a graduate fellowship program, a borrower shall provide the lender with a statement from an authorized official of the borrower's fellowship program certifying—

(i) That the borrower holds at least a baccalaureate degree conferred by an institution of higher education;

(ii) That the borrower has been accepted or recommended by an institution of higher education for acceptance on a full-time basis into an eligible graduate fellowship program; and

(iii) The borrower's anticipated completion date in the program.

(2) For purposes of paragraph (d)(1) of this section, an eligible graduate fellowship program is a fellowship program that—

(i) Provides sufficient financial support to graduate fellows to allow for full-time study for at least six months;

(ii) Requires a written statement from each applicant explaining the applicant's objectives before the award of that financial support;

(iii) Requires a graduate fellow to submit periodic reports, projects, or evidence of the fellow's progress; and

(iv) In the case of a course of study at a foreign university, accepts the course of study for completion of the fellowship program.

(e) *Rehabilitation training program deferment.* (1) To qualify for a rehabilitation training program deferment, a borrower shall provide the lender with a statement from an authorized official of the borrower's rehabilitation training program certifying that the borrower is either receiving, or is scheduled to receive, services under an eligible rehabilitation training program for disabled individuals.

(2) For purposes of paragraph (e)(1) of this section, an eligible rehabilitation

training program for disabled individuals is a program that—

(i) Is licensed, approved, certified, or otherwise recognized as providing rehabilitation training to disabled individuals by—

(A) A State agency with responsibility for vocational rehabilitation programs;

(B) A State agency with responsibility for drug abuse treatment programs;

(C) A State agency with responsibility for mental health services program;

(D) A State agency with responsibility for alcohol abuse treatment programs; or

(E) The Department of Veterans Affairs; and

(ii) Provides or will provide the borrower with rehabilitation services under a written plan that—

(A) Is individualized to meet the borrower's needs;

(B) Specifies the date on which the services to the borrower are expected to end; and

(C) Is structured in a way that requires a substantial commitment by the borrower to his or her rehabilitation. The Secretary considers a substantial commitment by the borrower to be a commitment of time and effort that normally would prevent an individual from engaging in full-time employment, either because of the number of hours that must be devoted to rehabilitation or because of the nature of the rehabilitation. For the purpose of this paragraph, full-time employment involves at least 30 hours of work per week and is expected to last at least three months.

(f) *Temporary total disability deferment.* (1) To qualify for a temporary total disability deferment, a borrower shall provide the lender with a statement from a physician, who is a doctor of medicine or osteopathy and is legally authorized to practice, certifying that the borrower is temporarily totally disabled as defined in § 682.200(b).

(2) A borrower is not considered temporarily totally disabled on the basis of a condition that existed before he or she applied for the loan, unless the condition has substantially deteriorated so as to render the borrower temporarily totally disabled, as substantiated by the statement required under paragraph (f)(1) of this section, after the borrower submitted the loan application.

(3) A lender may not grant a deferment based on a single certification under paragraph (f)(1) of this section beyond the date that is six months after the date of certification.

(g) *Dependent's disability deferment.* (1) To qualify for a deferment given to a borrower whose spouse or other dependent requires continuous nursing or similar services for a period of at least 90 days, the borrower shall provide the lender with a statement—

(i) From a physician, who is a doctor of medicine or osteopathy and is legally authorized to practice, certifying that the borrower's spouse or dependent requires continuous nursing or similar services for a period of at least 90 days; and

(ii) From the borrower, certifying that the borrower is unable to secure full-time employment because he or she is providing continuous nursing or similar services to the borrower's spouse or other dependent. For the purpose of this paragraph, full-time employment involves at least 30 hours of work per week and is expected to last at least three months.

(2) A lender may not grant a deferment based on a single certification under paragraph (g)(1) of this section beyond the date that is six months after the date of the certification.

(h) *Unemployment deferment.* (1) To qualify for an unemployment deferment, a borrower shall provide the lender with a written certification—

(i) Describing the borrower's conscientious search for full-time employment during the preceding six months, except in the case of the initial period of unemployment, including, for each of at least six attempts to secure employment to support the period covered by the certification—

(A) The name of the employer contacted;

(B) The employer's address and phone number;

(C) The name or title of the person contacted; and

(ii) Setting forth the borrower's latest permanent home address and, if applicable, the borrower's latest temporary address; and

(iii) Affirming that the borrower has registered with a public or private employment agency, if one is within a 50-mile radius of the borrower's permanent or temporary address, specifying the agency's name and address and the date of registration.

(2) A borrower may qualify for an unemployment deferment whether or not the borrower has been previously employed.

(3) An unemployment deferment is not justified if the borrower refuses to seek or accept employment in kinds of positions or at salary and responsibility levels for which the borrower feels over qualified by virtue of education or previous experience.

(4) For the purpose of this paragraph, full-time employment involves at least 30 hours of work a week and is expected to last at least three months.

(5) A lender may not grant a deferment based on a single certification under paragraph (h)(1) of this section beyond the date that is six months after the date of the certification.

(6) A lender may accept, as an alternative to the certification of employer contacts required under paragraph (h)(1)(ii) of this section, comparable documentation the borrower has used to meet the requirements of the Unemployment Insurance Service, provided it shows the same number of contacts and contains the same information the borrower would be required to provide under the Department's regulations.

(i) *Military deferment.* (1) To qualify for a military deferment, a borrower shall provide the lender with—

(i) A written statement from the borrower's commanding or personnel officer certifying—

(A) That the borrower is on active duty in the Armed Forces of the United States;

(B) The date on which the borrower's service began; and

(C) The date on which the borrower's service is expected to end; or

(ii)(A) A copy of the borrower's official military orders; and

(B) A copy of the borrower's military identification.

(2) For the purpose of this section, the Armed Forces means the Army, Navy, Air Force, Marine Corps, and the Coast Guard.

(3) A borrower enlisted in a reserve component of the Armed Forces may qualify for a military deferment only for service on a full-time basis that is expected to last for a period of at least one year in length, as evidenced by official military orders, unless an order for national mobilization of reservists is issued.

(4) A borrower enlisted in the National Guard qualifies for a military deferment only while the borrower is on active duty status as a member of the U.S. Army or Air Force Reserves, and meets the requirements of paragraph (i)(3) of this section.

(j) *Public Health Service deferment.* To qualify for a Public Health Service deferment, the borrower shall provide the lender with a statement from an authorized official of the United States Public Health Service (USPHS) certifying—

(1) That the borrower is engaged in full-time service as an officer in the Commissioned Corps of the USPHS;

(2) The date on which the borrower's service began; and

(3) The date on which the borrower's service is expected to end.

(k) *Peace Corps deferment.* To qualify for a deferment for service under the

Peace Corps Act, the borrower shall provide the lender with a statement from an authorized official of the Peace Corps certifying—

(1) That the borrower has agreed to serve for a term of at least one year;

(2) The date on which the borrower's service began; and

(3) The date on which the borrower's service is expected to end.

(l) *Full-time volunteer service in the ACTION programs.* To qualify for a deferment as a full-time paid volunteer in an ACTION program, the borrower shall provide the lender with a statement from an authorized official of the program certifying—

(1) That the borrower has agreed to serve for a term of at least one year;

(2) The date on which the borrower's service began; and

(3) The date on which the borrower's service is expected to end.

(m) *Deferment for full-time volunteer service for a tax-exempt organization.* To qualify for a deferment as a full-time paid volunteer for a tax-exempt organization, a borrower shall provide the lender with a statement from an authorized official of the volunteer program certifying—

(1) That the borrower—

(i) Serves in an organization that has obtained an exemption from taxation under section 501(c)(3) of the Internal Revenue Code of 1986;

(ii) Provides service to low-income persons and their communities to assist them in eliminating poverty and poverty-related human, social, and environmental conditions;

(iii) Does not receive compensation that exceeds the rate prescribed under section 6 of the Fair Labor Standards Act of 1938 (the Federal minimum wage), except that the tax-exempt organization may provide health, retirement, and other fringe benefits to the volunteer that are substantially equivalent to the benefits offered to other employees of the organization;

(iv) Does not, as part of his or her duties, give religious instruction, conduct worship services, engage in religious proselytizing, or engage in fund-raising to support religious activities; and

(v) Has agreed to serve on a full-time basis for a term of at least one year;

(2) The date on which the borrower's service began; and

(3) The date on which the borrower's service is expected to end.

(n) *Internship or residency deferment.* (1) To qualify for an internship or residency deferment under paragraphs (b)(2)(v) or (b)(5)(iii) of this section, the borrower shall provide the lender with a statement from an authorized official of the organization with which the borrower is undertaking the internship or residency program certifying—

(i) That the internship or residency program is a supervised training program that requires the borrower to hold at least a baccalaureate degree prior to acceptance into the program;

(ii) That, except for a borrower that provides the statement from a State official described in paragraph (n)(2) of this section, the internship or residency program leads to a degree or certificate awarded by an institution of higher education, a hospital, or a health care facility that offers postgraduate training;

(iii) That the borrower has been accepted into the internship or residency program; and

(iv) The anticipated dates on which the borrower will begin and complete the internship or residency program, or, in the case of a borrower providing the statement described in paragraph (n)(2) of this section, the anticipated date on which the borrower will begin and complete the minimum period of participation in the internship program that the State requires be completed before an individual may be certified for professional practice or service.

(2) For a borrower who does not provide a statement certifying to the matters set forth in paragraph (n)(1)(ii) of this section to qualify for an internship deferment under paragraph (b)(2)(v) of this section, the borrower shall provide the lender with a statement from an official of the appropriate State licensing agency certifying that the internship or residency program, or a portion thereof, is required to be completed before the borrower may be certified for professional practice or service.

(o) *Parental-leave deferment.* (1) To qualify for the parental-leave deferment described in paragraph (b)(3) of this section, the borrower shall provide the lender with—

(i) A statement from an authorized official of a participating school certifying that the borrower was enrolled on at least a half-time basis during the six months preceding the beginning of the deferment period;

(ii) A statement from the borrower certifying that the borrower—

(A) Is pregnant, caring for his or her newborn child, or caring for a child immediately following the placement of the child with the borrower in connection with an adoption;

(B) Is not, and will not be, attending school during the deferment period; and

(C) Is not, and will not be, engaged in full-time employment during the deferment period; and

(iii) A physician's statement demonstrating the existence of the pregnancy, a birth certificate, or a statement from the adoption agency official evidencing a pre-adoption placement.

(2) For purposes of paragraph (o)(1)(ii)(C) of this section, full-time employment involves at least 30 hours of work per week and is expected to last at least three months.

(p) *NOAA deferment.* To qualify for a National Oceanic and Atmospheric Administration (NOAA) deferment, the borrower shall provide the lender with a statement from an authorized official of the NOAA corps, certifying—

(1) That the borrower is on active duty service in the NOAA corps;

(2) The date on which the borrower's service began; and

(3) The date on which the borrower's service is expected to end.

(q) *Targeted teacher deferment.* (1) To qualify for a targeted teacher deferment under paragraph (b)(5)(ii) of this section, the borrower, for each school year of service for which a deferment is requested, must provide to the lender—

(i) A statement by the chief administrative officer of the public or nonprofit private elementary or secondary school in which the borrower is teaching, certifying that the borrower is employed as a full-time teacher; and

(ii) A certification that he or she is teaching in a teacher shortage area designated by the Secretary as provided in paragraphs (q) (5) through (7) of this section, as described in paragraph (q)(2) of this section.

(2) In order to satisfy the requirement for certification that a borrower is teaching in a teacher shortage area designated by the Secretary; a borrower must do one of the following:

(i) If the borrower is teaching in a State in which the Chief State School Officer has complied with paragraph (q)(3) of this section and provides an annual listing of designated teacher shortage areas to the State's chief administrative officers whose schools are affected by the Secretary's designations, the borrower may obtain a certification that he or she is teaching in a teacher shortage area from his or her school's chief administrative officer.

(ii) If a borrower is teaching in a State in which the Chief State School Officer has not complied with paragraph (q)(3) of this section or does not provide an annual listing of designated teacher shortage areas to the State's chief administrative officers whose schools are affected by the Secretary's designations, the borrower must obtain certification that he or she is teaching in a teacher shortage area from the Chief

State School Officer for the State in which the borrower is teaching.

(3) In the case of a State in which borrowers wish to obtain certifications as provided for in paragraph (q)(2)(i) of this section, the State's Chief State School Officer must first have notified the Secretary, by means of a one-time written assurance, that he or she provides annually to the State's chief administrative officers whose schools are affected by the Secretary's designations and the guaranty agency for that State, a listing of the teacher shortage areas designated by the Secretary as provided for in paragraphs (q) (5) through (7) of this section.

(4) If a borrower who receives a deferment continues to teach in the same teacher shortage area as that in which he or she was teaching when the deferment was originally granted, the borrower shall, at the borrower's request, continue to receive the deferment for those subsequent years, up to the three-year maximum deferment period, even if his or her position does not continue to be within an area designated by the Secretary as a teacher shortage area in those subsequent years. To continue to receive the deferment in a subsequent year under this paragraph, the borrower shall provide the lender with a statement by the chief administrative officer of the public or nonprofit private elementary or secondary school that employs the borrower, certifying that the borrower continues to be employed as a full-time teacher in the same teacher shortage area for which the deferment was received for the previous year.

(5) For purposes of this section a teacher shortage area is—

(i)(A) A geographic region of the State in which there is a shortage of elementary or secondary school teachers; or

(B) A specific grade level or academic, instructional, subject-matter, or discipline classification in which there is a statewide shortage of elementary or secondary school teachers; and

(ii) Designated by the Secretary under paragraphs (q)(6) or (q)(7) of this section.

(6)(i) In order for the Secretary to designate one or more teacher shortage areas in a State for a school year, the Chief State School Officer shall by January 1 of the calendar year in which the school year begins, and in accordance with objective written standards, propose teacher shortage areas to the Secretary for designation. With respect to private nonprofit schools included in the recommendation, the Chief State School Officer shall consult with appropriate officials of the private nonprofit schools in the State prior to submitting the recommendation.

(ii) In identifying teacher shortage areas to propose for designation under paragraph (q)(6)(i) of this section, the Chief State School Officer shall consider data from the school year in which the recommendation is to be made, unless that data is not yet available, in which case he or she may use data from the immediately preceding school year, with respect to—

(A) Teaching positions that are unfilled;

(B) Teaching positions that are filled by teachers who are certified by irregular, provisional, temporary, or emergency certification; and

(C) Teaching positions that are filled by teachers who are certified, but who are teaching in academic subject areas other than their area of preparation.

(iii) If the total number of unduplicated full-time equivalent (FTE) elementary or secondary teaching positions identified under paragraph (q)(6)(ii) of this section in the shortage areas proposed by the State for designation does not exceed 5 percent of the total number of FTE elementary and secondary teaching positions in the State, the Secretary designates those areas as teacher shortage areas.

(iv) If the total number of unduplicated FTE elementary and secondary teaching positions identified under paragraph (q)(6)(ii) of this section in the shortage areas proposed by the State for designation exceeds 5 percent of the total number of elementary and secondary FTE teaching positions in the State, the Chief State School Officer shall submit, with the list of proposed areas, supporting documentation showing the methods used for identifying shortage areas, and an explanation of the reasons why the Secretary should nevertheless designate all of the proposed areas as teacher shortage areas. The explanation must include a ranking of the proposed shortage areas according to priority, to assist the Secretary in determining which areas should be designated. The Secretary, after considering the explanation, determines which shortage areas to designate as teacher shortage areas.

(7) A Chief State School Officer may submit to the Secretary for approval an alternative written procedure to the one described in paragraph (q)(6) of this section, for the Chief State School Officer to use to select the teacher shortage areas recommended to the Secretary for designation, and for the Secretary to use to choose the areas to be designated. If the Secretary approves the proposed alternative procedure, in writing, that procedure, once approved, may be used instead of the procedure described in paragraph (q)(6) of this section for designation of teacher shortage areas in that State.

(8) For purposes of paragraphs (q)(1) through (7) of this section—

(i) The definition of the term *school* in § 682.200(b) does not apply;

(ii) *Elementary school* means a day or residential school that provides elementary education, as determined under State law;

(iii) *Secondary school* means a day or residential school that provides secondary education, as determined under State law. In the absence of applicable State law, the Secretary may determine, with respect to that State, whether the term "secondary school" includes education beyond the twelfth grade;

(iv) *Teacher* means a professional who provides direct and personal services to students for their educational development through classroom teaching;

(v) *Chief State School Officer* means the highest ranking educational official for elementary and secondary education for the State;

(vi) *School year* means the period from July 1 of a calendar year through June 30 of the following calendar year;

(vii) *Teacher shortage area* means an area of specific grade, subject matter, or discipline classification, or a geographic area in which the Secretary determines that there is an inadequate supply of elementary or secondary school teachers; and

(viii) *Full-time equivalent* means the standard used by a State in defining full-time employment, but not less than 30 hours per week. For purposes of counting full-time equivalent teacher positions, a teacher working part of his or her total hours in a position that is designated as a teacher shortage area is counted on a *pro rata* basis corresponding to the percentage of his or her working hours spent in such a position.

(r) *Working-mother deferment.* (1) To qualify for the working-mother deferment described in paragraph (b)(5)(iv) of this section, the borrower shall provide the lender with a statement certifying that she—

(i) Is the mother of a preschool-age child;

(ii) Entered or reentered the workforce not more than one year before the beginning date of the period for which the deferment is being sought;

(iii) Is currently engaged in full-time employment; and

(iv) Does not receive compensation that exceeds $1 per hour above the rate prescribed under section 6 of the Fair Labor Standards Act of 1938 (the Federal minimum wage).

(2) In addition to the certification required under paragraph (r)(1) of this section, the borrower shall provide to the lender documents demonstrating the age of her child (e.g., a birth certificate) and the rate of her compensation (e.g., a pay stub showing her hourly rate of pay).

(3) For purposes of this paragraph—

(i) A preschool-age child is one who has not yet enrolled in first grade or a higher grade in elementary school; and

(ii) Full-time employment involves at least 30 hours of work a week and is expected to last at least 3 months.

(Authority: 20 U.S.C. 1077, 1078, 1078–1, 1078–2, 1078–3, 1082, 1085)

§ 682.211 Forbearance.

(a) (1) The Secretary encourages a lender to grant forbearance for the benefit of a borrower or endorser in order to prevent the borrower or endorser from defaulting on the borrower's or endorser's repayment obligation, or to permit the borrower or endorser to resume honoring that obligation after default. *Forbearance* means permitting the temporary cessation of payments, allowing an extension of time for making payments, or temporarily accepting smaller payments than previously were scheduled.

(2) Subject to paragraph (h) of this section, a lender may grant forbearance of payments of principal and interest under paragraphs (b), (c), and (d) of this section only if—

(i) The lender reasonably believes, and documents in the borrower's file, that the borrower or endorser intends to repay the loan but, due to poor health or other acceptable reasons, is currently unable to make scheduled payments; or

(ii) The borrower's payments of principal are deferred under § 682.210 and the Secretary does not pay interest benefits on behalf of the borrower under § 682.301.

(3) If two individuals are liable for repayment of a PLUS Program loan as co-makers, the lender may grant forbearance only if the ability of both individuals to make scheduled payments has been impaired.

(4) If payments of interest are forborne, they may be capitalized as provided in § 682.202(b).

(b) A lender may grant forbearance if the lender and the borrower or endorser agree in writing to the terms of the forbearance, or, in the case of forbearance of interest during a period of deferment, if the lender informs the borrower at the time the deferment is granted that interest payments are to be forborne.

(c) A lender may grant forbearance for a period of up to one year at a time if both the borrower or endorser and an authorized official of the lender agree in writing to the forbearance.

(d) A guaranty agency may authorize a lender to grant forbearance to permit a borrower or endorser to resume honoring the repayment obligation after default. The terms of the forbearance agreement in this situation must include a new signed repayment obligation.

(e) Except in the case of forbearance of interest payments during a deferment period or a forbearance granted under paragraph (g) of this section, if a forbearance involves the postponement of all payments, the lender must contact the borrower or endorser by telephone or send a written notice to the borrower or endorser at least once every three months during the period of forbearance to remind the borrower or endorser of the outstanding obligation to repay.

(f) A lender may grant forbearance, upon notice to the borrower or if applicable, the endorser, with respect to payments of interest and principal that are overdue—

(1) For a properly granted period of deferment for which the lender learns the borrower did not qualify;

(2) Upon the beginning of an authorized deferment period;

(3) For the period beginning when the borrower entered repayment until the first payment due date was established;

(4) For a period as authorized by the Secretary in the event of a national military mobilization or other national emergency; or

(5) For the period prior to the borrower's filing of a bankruptcy petition as provided in § 682.402(d).

(g) Upon the written request of the borrower, a lender shall grant forbearance of principal and, unless otherwise indicated by the borrower, interest, in 12-month intervals to a borrower whose deferment received under § 682.210(n) has expired until the borrower has completed the internship or residency.

(h) In granting a forbearance under this section, a lender shall grant a temporary cessation of payments, unless the borrower chooses another form of forbearance subject to paragraph (a)(1) of this section.

(Authority: 20 U.S.C. 1077, 1078, 1078–1, 1078–2, 1078–3, 1080, 1082)

§ 682.212 Prohibited transactions.

(a) No points, premiums, payments, or additional interest of any kind may be paid or otherwise extended to any eligible lender or other party in order to—

(1) Secure funds for making loans; or

(2) Induce a lender to make loans to either the students or the parents of students of a particular school or particular category of students or their parents.

(b) The following are examples of transactions that, if entered into for the purposes described in paragraph (a) of this section, are prohibited:

(1) Cash payments by or on behalf of a school made to a lender or other party.

(2) The maintaining of a compensating balance by or on behalf of a school with a lender.

(3) Payments by or on behalf of a school to a lender of servicing costs on loans that the school does not own.

(4) Payments by or on behalf of a school to a lender of unreasonably high servicing costs on loans that the school does own.

(5) Purchase by or on behalf of a school of stock of the lender.

(6) Payments ostensibly made for other purposes.

(c) Except when purchased by the Student Loan Marketing Association, an agency of any State functioning as a secondary market or in any other circumstances approved by the Secretary, notes, or any interest in notes, may not be sold or otherwise transferred at discount if the underlying loans were made—

(1) By a school; or

(2) To students or parents of students attending a school by a lender having common ownership with that school.

(d) Except to secure a loan from the Student Loan Marketing Association or an agency of a State functioning as a secondary market or in other circumstances approved by the Secretary, a school or lender (with respect to a loan made to a student, or a parent of a student, attending a school having common ownership with that lender), may not use a loan made under the FFEL programs as collateral for any loan bearing aggregate interest and other charges in excess of the sum of the interest rate applicable to the loan plus the rate of the most recently prescribed special allowance under § 682.302.

(e) The prohibitions described in paragraphs (a), (b), (c), and (d) of this section apply to any school, lender, or other party that would participate in a proscribed transaction.

(f) This section does not preclude a buyer of loans made by a school from obtaining from the loan seller a warranty that—

(1) Covers future reductions by the Secretary or a guaranty agency in

computing the amount of loss payable on default claims filed on the loans, if the reductions are attributable to an act, or failure to act, on the part of the seller or previous holder; and

(2) Does not cover matters for which a purchaser is charged with responsibility under this part, such as due diligence in collecting loans.

(g) Section 490(c) of the Act provides that any person who knowingly and willfully makes an unlawful payment to an eligible lender as an inducement to make, or to acquire by assignment, a FFEL loan shall, upon conviction thereof, be fined not more than $10,000 or imprisoned not more than one year, or both.

(Authority: 20 U.S.C. 1077, 1078, 1078–1, 1078–2, 1078–3, 1082, 1097)

§ 682.213 Prohibition against the use of the Rule of 78s.

For purposes of the calculations required by this part, a lender may not use the Rule of 78s to calculate the outstanding principle balance of a loan, except for a loan made to a borrower who entered repayment before June 26, 1987 and who was informed in the promissory note that interest on the loan would be calculated using the Rule of 78s. For those loans, the Rule of 78s must be used for the life of the loan.

(Authority: 20 U.S.C. 1077, 1078, 1078–1, 1078–2, 1078–3, 1082)

§ 682.214 Compliance with equal credit opportunity requirements.

In making a Stafford loan on which interest benefits are to be paid, a lender shall comply with the equal credit opportunity requirements of Regulation B (12 CFR part 202). With regard to Regulation B, the Secretary considers the Stafford loan program to be a credit-assistance program authorized by Federal law for the benefit of an economically disadvantaged class of persons within the meaning of 12 CFR 202.8(a)(1). Therefore, under 12 CFR 202.8(d), the lender may request a loan applicant to disclose his or her marital status, income from alimony, child support, and separate maintenance income, and spouse's financial resources.

(Authority: 20 U.S.C. 1071–1087–2)

Subpart C—Federal Payments of Interest and Special Allowance

§ 682.300 Payment of interest benefits on Stafford loans.

(a) *General.* The Secretary pays a lender a portion of the interest on a Stafford loan on behalf of a borrower who qualifies under § 682.301. This payment is known as interest benefits.

(b) *Covered interest.* (1) The Secretary pays a lender the interest that accrues on an eligible Stafford loan—

(i) During all periods prior to the beginning of the repayment period, except as provided in paragraph (b)(2) of this section;

(ii) During any period when the borrower has an authorized deferment, and, if applicable, a post-deferment grace period; and

(iii) During the repayment period for loans described in paragraph (d)(2) of this section.

(2) The Secretary's obligation to pay interest benefits on an otherwise eligible loan terminates on the earliest of—

(i) The date the borrower's loan is repaid;

(ii) The date the disbursement check that represents a portion of a loan is returned uncashed to the lender, or the 120th day after the date of that disbursement, if—

(A) The check for the disbursement has not been negotiated on or before that date; or

(B) The proceeds of the disbursement made by electronic funds transfer in accordance with § 682.207(b)(1)(ii)(B) have not been released from the restricted account maintained by the school on or before that date;

(iii) The date of default by the borrower;

(iv) The date the lender receives payment of a claim for loss on the loan;

(v) The date the borrower's loan is discharged in bankruptcy;

(vi) The date the lender determines that the borrower has died or has become totally and permanently disabled; or

(vii) The date the loan ceases to be guaranteed or ceases to be eligible for reinsurance under this part, with respect to that portion of the loan that ceases to be guaranteed or reinsured, regardless of whether the lender has filed a claim for loss on the loan with the guarantor.

(3) Section 682.412 sets forth circumstances under which a lender may be required to repay interest benefits received on a loan guaranteed by a guaranty agency.

(c) *Interest not covered.* The Secretary does not pay—

(1) Interest for which the borrower is not otherwise liable; or

(2) Interest paid on behalf of the borrower by a guaranty agency.

(d) *Rate.* (1) Except as provided in paragraph (d)(2) of this section, the Secretary pays the lender at the actual interest rate on a loan provided that the actual interest rate does not exceed the applicable interest rate.

(2) For a loan disbursed prior to December 15, 1968, or subject to a binding commitment made prior to that date, the Secretary pays an amount during the repayment period equivalent to 3 percent per year of the unpaid principal amount of the loan.

(Authority: 20 U.S.C. 1078, 1082)

§ 682.301 Eligibility of borrowers for interest benefits on Stafford loans.

(a) *General.* (1) A borrower must demonstrate financial need in accordance with Part F of the Act to qualify for interest benefits on a Stafford loan.

(2) The Secretary considers a member of a religious order, group, community, society, agency, or other organization who is pursuing a course of study at an institution of higher education to have no financial need if that organization—

(i) Has as its primary objective the promotion of ideals and beliefs regarding a Supreme Being;

(ii) Requires its members to forego monetary or other support substantially beyond the support it provides; and

(iii) (A) Directs the member to pursue the course of study; or

(B) Provides subsistence support to its members.

(b) *Application for interest benefits.* To apply for interest benefits, the student, or the school at the direction of the student, shall submit a loan application to the lender. The application must include a certification from the student's school of the following information:

(1) The estimated cost of attendance for the student for the academic period for which the loan is intended.

(2) The estimated financial assistance for the student for the academic period for which the loan is intended.

(3) The student's expected family contribution, as determined pursuant to part F of the Act, under a need analysis system approved by the Secretary.

(4) The amount of the student's need for a loan, as determined pursuant to part F of the Act, under a need analysis system approved by the Secretary.

(c) *Use of loan proceeds to replace expected family contribution.* A borrower may use the amount of an SLS, PLUS, nonsubsidized Stafford loan, State sponsored loan, or private loan program obtained for a period of enrollment to replace the expected family contribution determined under paragraph (b)(3) of this section for that period of enrollment.

(Authority: 20 U.S.C. 1078, 1082, 1087–1)

§ 682.302 Payment of special allowance on FFEL loans.

(a) *General.* The Secretary pays a special allowance to a lender on an eligible FFEL loan. The special

allowance is a percentage of the average unpaid principal balance of a loan, including capitalized interest, computed in accordance with paragraph (c) of this section.

(b) *Eligible loans.* (1) Except for nonsubsidized Stafford loans disbursed on or after October 1, 1981, or as provided in paragraphs (b)(2) or (e) of this section, FFEL loans that otherwise meet program requirements are eligible for special allowance payments.

(2) For a loan made under the SLS or PLUS Program on or after July 1, 1987 or under § 682.209 (e) or (f), no special allowance is paid for any period for which the interest rate determined under § 682.202(a)(2)(iv)(A) for that loan does not exceed 12 percent.

(c) *Rate.* (1) Except as provided in paragraph (c)(2) of this section, the special allowance rate for an eligible loan during a 3-month period is calculated by—

(i) Determining the average of the bond equivalent rates of the 91-day Treasury bills auctioned during the 3-month period;

(ii) Subtracting the applicable interest rate for that loan;

(iii) Adding—

(A) 3.25 percent to the resulting percentage, for a loan made on or after November 16, 1986;

(B) 3.25 percent to the resulting percentage, for a loan made on or after October 17, 1986 but before November 16, 1986, for a period of enrollment beginning on or after November 16, 1986;

(C) 3.5 percent to the resulting percentage, for a loan made prior to October 17, 1986, or for a loan described in paragraph (c)(2) of this section; or

(D) 3.5 percent to the resulting percentage, for a loan made on or after October 17, 1986 but before November 16, 1986, for a period of enrollment beginning prior to November 16, 1986;

(iv) Rounding the result upward to the nearest one-eighth of 1 percent, for a loan made prior to October 1, 1981; and

(v) Dividing the resulting percentage by 4.

(2) The special allowance rate determined under paragraph (c)(1)(iii)(C) of this section applies to loans made or purchased from funds obtained from the issuance of an obligation of the—

(i) Maine Educational Loan Marketing Corporation to the Student Loan Marketing Association pursuant to an agreement entered into on January 31, 1984; or

(ii) South Carolina Student Loan Corporation to the South Carolina National Bank pursuant to an agreement entered into on July 30, 1986.

(3)(i) Subject to paragraph (c)(3)(ii) of this section, the special allowance rate is one-half the rate calculated under paragraph (c)(1)(iii)(C) of this section for a loan made or guaranteed on or after October 1, 1980 that was made or purchased with funds obtained by the holder from—

(A) The issuance of obligations, the income from which is exempt from taxation under the Internal Revenue Code of 1986;

(B) Collections or payments by a guarantor on a loan that was made or purchased with funds obtained by the holder from obligations described in paragraph (c)(3)(i)(A) of this section;

(C) Interest benefits or special allowance payments on a loan that was made or purchased with funds obtained by the holder from obligations described in paragraph (c)(3)(i)(A) of this section;

(D) The sale of a loan that was made or purchased with funds obtained by the holders from obligations described in paragraph (c)(3)(i)(A) of this section; or

(E) The investment of the proceeds of obligations described in paragraph (c)(3)(i)(A) of this section.

(ii) The special allowance rate applicable to loans described in paragraph (c)(3)(i) of this section may not be less than—

(A) 2.5 percent per year on eligible loans for which the applicable interest rate is 7 percent;

(B) 1.5 percent per year on eligible loans for which the applicable interest rate is 8 percent; or

(C) One-half of 1 percent per year on eligible loans for which the applicable rate is 9 percent.

(d) *Termination of special allowance payments on a loan.* (1) The Secretary's obligation to pay special allowance on a loan terminates on the earliest of—

(i) The date a borrower's loan is repaid;

(ii) The date a borrower's loan check is returned uncashed to the lender;

(iii) The date a lender receives payment on a claim for loss on the loan;

(iv) The date a loan ceases to be guaranteed or ceases to be eligible for reinsurance under this part, with respect to that portion of the loan that ceases to be guaranteed or reinsured, regardless of whether the lender has filed a claim for loss on the loan with the guarantor;

(v) The 60th day after the borrower's default on the loan, unless the lender files a claim for loss on the loan with the guarantor together with all required documentation, prior to the 60th day;

(vi) The 120th day after the date of disbursement, if—

(A) The loan check has not been negotiated on or before that date; or

(B) The loan proceeds disbursed by electronic funds transfer in accordance with § 682.207(b)(1)(ii)(B) have not been released from the restricted account maintained by the school on or before that date; or

(vii) The 30th day after the date the guaranty agency returns a claim for loss on the loan to the lender due solely to inadequate documentation unless the lender files a claim for loss on the loan with the guarantor, together with all required documentation, prior to the 30th day.

(2) Section 682.413 sets forth the circumstances under which a lender may be required to repay the special allowance received on a loan guaranteed by a guaranty agency.

(e) *Special allowance payments for loans financed by proceeds of tax-exempt obligations.* (1) The Secretary pays a special allowance on a loan described in paragraph (c)(3)(i) of this section that is held by or on behalf of an Authority only if the loan meets the requirements of § 682.800.

(2) The Secretary pays a special allowance to an Authority at the rate prescribed in paragraph (c)(1) of this section on a loan described in paragraph (c)(3)(i) of this section—

(i) After the loan is pledged or otherwise transferred in consideration of funds derived from sources other than those described in paragraph (c)(3)(i) of this section; and

(ii) If the authority retains a legal or equitable interest in the loan—

(A) The prior tax-exempt obligation is retired; or

(B) The prior tax-exempt obligation is defeased by means of obligations that the Authority certifies in writing to the Secretary bear a yield that does not exceed the yield permitted under Internal Revenue Service regulations, 26 CFR 1.103–14, with regard to investments of proceeds of a tax-exempt refunding obligation.

(Authority: 20 U.S.C. 1077, 1078, 1078–1, 1078–2, 1078–3, 1082, 1087–1)

§ 682.303 [Reserved]

§ 682.304 Methods for computing interest benefit and special allowance.

(a) *General.* The Secretary pays a lender interest benefits and special allowance on eligible loans on a quarterly basis. These calendar quarters end on March 31, June 30, September 30, and December 31 of each year. A lender may use either the average daily balance method or the actual accrual method to determine the amount of interest benefits payable on a lender's loans. A lender shall use the average daily balance method to determine the

balance on which the Secretary computes the amount of special allowance payable on its loans.

(b) *Average daily balance method for interest benefits.* (1) Under this method, the lender adds the unpaid principal balance outstanding on all loans qualifying for interest benefits at each actual interest rate for each day of the quarter, divides the sum by the number of days in the quarter, and rounds the result to the nearest whole dollar. The resulting figure is the average daily balance for qualified loans outstanding at each actual interest rate.

(2) The Secretary computes the interest benefits due on all qualified loans at each actual interest rate by multiplying the average daily balance thereof by the actual interest rate, multiplying this result by the number of days in the quarter, and then dividing this result by the actual number of days in the year.

(c) *Actual accrual method for interest benefits.* (1) Under this method, the lender computes the total unpaid principal balance outstanding on all qualified loans at each actual interest rate on each day of the quarter, multiplies this result by the actual interest rate, and divides this result by the actual number of days in the year, or, alternatively, 365.25 days. A lender who chooses to divide by 365.25 days must do so for four consecutive years.

(2) The interest benefits due for a quarter equal the sum of the daily interest benefits due, computed under paragraph (c)(1) of this section, for each day of the quarter.

(d) *Average daily balance method for special allowance.* (1) To compute the average daily balance outstanding for purposes of special allowance, the lender adds the unpaid principal balance outstanding on all qualified loans at each applicable interest rate for each day of the quarter, divides this sum by the number of days in the quarter, and rounds the result to the nearest whole dollar. The resulting figure is the average daily balance for the quarter for qualifying loans at each applicable interest rate.

(2) The Secretary computes the special allowance payable to a lender based upon the average daily balance computed by the lender under paragraph (d)(1) of this section.

(Authority: 20 U.S.C. 1082, 1087–1)

§ 682.305 Procedures for payment of interest benefits and special allowance.

(a) *General.* (1) To receive payments of interest benefits and special allowance, a lender must submit quarterly reports to the Secretary on a form provided or prescribed by the Secretary.

(2) The lender shall report, on the quarterly report required by paragraph (a)(1) of this section, the amount of origination fees it was authorized to collect and the amount of those fees refunded to borrowers during the quarter covered by the report.

(3) The Secretary reduces the amount of interest benefits and special allowance payable to the lender by the amount of origination fees the lender was authorized to collect during the quarter under § 682.202(c), whether or not the lender actually collected that amount. The Secretary increases the amount of interest benefits and special allowance payable to the lender by the amount of origination fees refunded to borrowers during the quarter under § 682.202(c).

(4)(i) If a lender sells or otherwise transfers a loan within the calendar quarter in which the loan is disbursed, either the lender making the loan or the new holder may report the amount of the origination fee to the Secretary.

(ii) A lender that makes a loan and any subsequent holder of the loan are jointly and severally liable for payment of the origination fee on the loan to the Secretary.

(b) *Penalty interest.* (1)(i) If the Secretary does not pay interest benefits or the special allowance within 30 days after the Secretary receives an accurate, timely, and complete request for payment from a lender, the Secretary pays the lender penalty interest.

(ii) The payment of interest benefits or special allowance is deemed to occur, for purposes of this paragraph, when the Secretary—

(A) Authorizes the Treasury Department to pay the lender;

(B) Credits the payment due the lender against a debt that the Secretary determines is owed the Secretary by the lender; or

(C) Authorizes the Treasury Department to pay the amount due by the lender to another Federal agency for credit against a debt that the Federal agency has determined the lender owes.

(2) Penalty interest is an amount that accrues daily on interest benefits and special allowance due to the lender. The penalty interest is computed by—

(i) Multiplying the daily interest rate applicable to loans on which payment for interest benefits was requested, by the amount of interest benefits due on those loans for each interest rate;

(ii) Multiplying the daily special allowance rate applicable to loans on which special allowance was requested by the amount of special allowance due on those loans for each interest rate and special allowance category;

(iii) Adding the results of paragraphs (b)(2)(i) and (ii) of this section to determine the gross penalty interest to be paid for each day that penalty interest is due;

(iv) Dividing the results of paragraph (b)(2)(iii) of this section by the gross amount of interest benefits and special allowance due to obtain the average penalty interest rate;

(v) Multiplying the rate obtained in paragraph (b)(2)(iv) of this section by the total amount of reduction to gross interest benefits and special allowance due (e.g., origination fees or other debts owed to the Federal government);

(vi) Subtracting the amount calculated in paragraph (b)(2)(v) of this section from the amount calculated under paragraph (b)(2)(iii) of this section to obtain the net amount of penalty interest due per day; and

(vii) Multiplying the amount calculated in paragraph (b)(2)(vi) of this section by the number of days calculated under paragraph (b)(3) of this section.

(3) The Secretary pays penalty interest for the period—

(i) Beginning on the later of—

(A) The 31st day after the final day of the quarter covered by the request for payment; or

(B) The 31st day after the Secretary's receipt of an accurate, timely, and complete request for payment from the lender; and

(ii) Ending on the day the Secretary pays the interest benefits and the special allowance at issue, in accordance with paragraph (b)(1)(ii) of this section.

(4) A request for interest benefits and special allowance is considered timely only if it is received by the Secretary within 90 days following the end of the quarter to which the request pertains.

(5) A request for interest benefits and special allowance is not considered accurate and complete if it—

(i) Requests payments to which the lender is not entitled under § 682.300 through § 682.302;

(ii) Includes loans that the Secretary, in writing, has directed that the lender exclude from the request;

(iii) Does not contain all information required by the Secretary or contains conflicting information; or

(iv) Is not provided and certified on the form and in the manner prescribed by the Secretary.

(c) *Independent audits.* (1) A lender shall arrange for an independent annual compliance audit conducted by a qualified independent organization or person.

(2) The audit required under paragraph (c)(1) of this section must—

(i) Examine the lender's compliance with the Act and applicable regulations;

(ii) Examine the lender's financial management of its FFEL program activities;

(iii) Be conducted in accordance with the standards for audits issued by the United States General Accounting Office's (GAO's) *Government Auditing Standards*. Procedures for audits are contained in an audit guide developed by and available from the Office of the Inspector General of the Department;

(iv) Be conducted at least annually and be submitted to the Secretary within six months of the end of the audit period. The initial audit must be of the lender's first fiscal year that begins after July 23, 1992, and must be submitted within six months of the end of the audit period. Each subsequent audit must cover the lender's activities for the period beginning no later than the end of the period covered by the preceding audit;

(v) With regard to a lender that is a governmental entity, the audit required by this paragraph must be conducted in accordance with 31 U.S.C. 7502 and 34 CFR part 80, appendix G; and

(vi) With regard to a lender that is a nonprofit organization, the audit required by this paragraph must be conducted in accordance with OMB Circular A–133, Audit of Institutions of Higher Education and Other Nonprofit Institutions, as incorporated in 34 CFR 74.61(h)(3). If a nonprofit lender meets the criteria in Circular A–133 for choosing the option for a program-specific audit, and so chooses, the program-specific audit must meet the requirements in paragraphs (c)(1) through (c)(2)(iv) of this section.

(vii) The Secretary may determine that a lender has met the requirements of paragraph (c) of this section if the lender has been audited in accordance with 31 U.S.C. 7502 for other purposes, the lender submits the results of the audit to the Office of Inspector General, and the Secretary determines that the audit meets the requirements of this paragraph.

(Authority: 20 U.S.C. 1077, 1078, 1078–1, 1078–2, 1078–3, 1082, 1087–1)

Subpart D—Administration of the Federal Family Education Loan Programs by a Guaranty Agency

§ 682.400 Agreements between a guaranty agency and the Secretary.

(a) The Secretary enters into agreements with a guaranty agency whose loan guarantee program meets the requirements of this subpart. The agreements enable the guaranty agency to participate in the GSL programs and to receive the various payments and benefits related to that participation.

(b) There are three agreements:

(1) *Basic program agreement.* In order to participate in the FFEL programs, a guaranty agency must have a basic program agreement. Under this agreement—

(i) Borrowers whose Stafford loans are guaranteed by the agency may qualify for interest benefits that are paid to the lender on the borrower's behalf;

(ii) Lenders under the guaranty agency program may receive special allowance payments from the Secretary and have death, disability, and bankruptcy claims paid by the Secretary through the guaranty agency; and

(iii) The guaranty agency may apply for the administrative cost allowance and for the other agreements described in this section.

(2) *Federal advances for claim payments agreement.* A guaranty agency must have an agreement for Federal advances for claim payments to receive and use Federal advances to pay default claims.

(3) *Reinsurance agreement.* A guaranty agency must have a reinsurance agreement to receive reimbursement from the Secretary for its losses on default claims.

(c) The Secretary's execution of an agreement does not indicate acceptance of any current or past standards or procedures used by the agency.

(d) All of the agreements are subject to subsequent changes in the Act, in other applicable Federal statutes, and in regulations that apply to the FFEL programs.

(Authority: 20 U.S.C. 1072, 1078–1, 1078–2, 1078–3, 1082, 1087, 1087–1)

§ 682.401 Basic program agreement.

(a) *General.* In order to participate in the FFEL programs, a guaranty agency shall enter into a basic agreement with the Secretary.

(b) *Terms of agreement.* In the basic agreement, the guaranty agency shall agree to ensure that its loan guarantee program meets the following requirements at all times:

(1) *Aggregate loan limits.* The aggregate guaranteed unpaid principal amount for all Stafford, SLS, and PLUS loans made to a borrower may not exceed the amounts set forth in § 682.204(b), (d), and (f).

(2) *Annual loan limits.* (i) The annual loan maximum amount for a borrower that may be guaranteed for an academic year may not exceed the amounts set forth in § 682.204(a), (c), and (e).

(ii) A guaranty agency may make the loan amounts authorized under paragraph (b)(2)(i) of this section applicable for either—

(A) A period of not less than seven nor more than 12 months; or

(B) A period of not less than seven months in which the student earns the amount of credit in the student's program of study required by the student's school as the amount necessary for the student to advance in academic standing as normally measured on an academic year basis (for example, from freshman to sophomore) or, in the case of schools using clock hours, completion of at least 900 clock hours.

(iii) The amount of a loan guaranteed may not exceed the amount set forth in § 682.204(h).

(3) *Duration of borrower eligibility.* (i) A student borrower under the Stafford Loan Program or the SLS Program and a parent borrower under the PLUS Program are eligible to receive a guaranteed loan for any year of the student's study at a participating school.

(ii) Loans must be available to or on behalf of any student for at least six academic years of study.

(4) *Borrower responsibilities.* (i) The borrower shall indicate his or her preferred lender on the loan application, if he or she has such a preference.

(ii) The borrower shall give the lender, as part of the application process for a Stafford, SLS, or PLUS loan—

(A) A statement, as described in 34 CFR part 668, that the loan will be used for the cost of the student's attendance;

(B) Information demonstrating that the borrower is eligible for the loan;

(C) Information concerning the outstanding FFEL loans of the borrower and, for a parent borrower, of the student, including any Consolidation loan used to discharge a Stafford, SLS, or PLUS loan;

(D) A statement of the sources and amount of the student's estimated financial assistance, as defined in § 682.200, for the period of enrollment for which the loan is intended;

(E) A statement from the student authorizing the school to release information relevant to the student's eligibility to borrow or to have a parent borrow on the student's behalf (e.g., the student's enrollment status, financial assistance, and employment records); and

(F) Information from the school demonstrating that the student qualifies as an eligible student and providing the maximum amount that may be borrowed by or on behalf of the student.

(iii) The borrower shall give the lender, as part of the application process for a Consolidation loan—

(A) Information demonstrating that the borrower is eligible for the loan under § 682.201(c); and

(B) A statement that the borrower does not currently have another application for a Consolidation loan pending.

(iv) The borrower shall promptly notify—

(A) The current holder or the guaranty agency of any change of name, address, student status to less than half-time, employer, or employer's address; and

(B) The school of any change in local address during enrollment.

(5) *School eligibility.* A school that has a program participation agreement in place with the Secretary under § 682.600 is eligible to participate in the program of the agency except to the extent that—

(i) The school's eligibility is limited, suspended, or terminated by the Secretary under 34 CFR part 668 or by the guaranty agency under standards and procedures that are substantially the same as those in 34 CFR part 668;

(ii) The school is disqualified by the Secretary under section 432(h)(3) of the Act or § 682.713;

(iii) The school is ineligible under section 435(a)(3) of the Act;

(iv) There is a State constitutional prohibition affecting the school's eligibility;

(v) The school's programs consist of study solely by correspondence; or

(vi) The agency determines that the school does not satisfy the standards of administrative capability and financial responsibility as defined in 34 CFR part 668.

(6) *Lender eligibility.* (i) An eligible lender may participate in the program of the agency under reasonable criteria established by the guaranty agency except to the extent that—

(A) The lender's eligibility has been limited, suspended, or terminated by the Secretary under subpart G of this part or by the agency under standards and procedures that are substantially the same as those in subpart G of this part; or

(B) The lender is disqualified by the Secretary under sections 432(h)(1), 432(h)(2), 435(d)(3), or 435(d)(5) of the Act or § 682.712; or

(C) There is a State constitutional prohibition affecting the lender's eligibility.

(ii) The agency may not guarantee a loan made by a school lender that is not located in the geographical area that the agency serves.

(iii) The guaranty agency may refuse to guarantee loans made by a school on behalf of students not attending that school.

(iv) The guaranty agency may, in determining whether to enter into a guarantee agreement with a lender, consider whether the lender has had prior experience in a similar Federal, State, or private nonprofit student loan program and the amount and percentage of loans that are currently delinquent or in default under that program.

(7) *Out-of-State schools.* The agency shall guarantee Stafford, SLS, and PLUS loans for students who are legal residents of any State served by the agency under § 682.404(i)(2) but who attend schools out of that State and for parents who are legal residents of that State and are borrowing on behalf of students attending schools out of that State. In guaranteeing these loans, the agency may not impose any restrictions that it does not apply to borrowers who are legal residents of the State attending in-State schools or to parent borrowers who are legal residents of the State and are borrowing for students attending in-State schools.

(8) *Out-of-State residents.* The agency shall guarantee Stafford, SLS, and PLUS loans for students who are not legal residents of any State served by the agency under § 682.404(i)(2) but who attend schools in that State, and for parents who are not legal residents of that State and who are borrowing on behalf of students attending schools in that State. In guaranteeing these loans, the agency may not impose any restrictions that it does not apply to borrowers who are legal residents of the State attending in-State schools, or to parent borrowers who are legal residents of the State and who are borrowing for students attending in-State schools.

(9) *Insurance premiums.* (i) Except for a SLS or PLUS loan refinanced under § 682.209 (e) or (f), the guaranty agency may charge the lender an insurance premium on each Stafford, SLS, or PLUS loan it guarantees.

(ii) The guaranty agency may use the proceeds of this charge only to guarantee loans and to cover costs incurred by the guaranty agency in the administration of its loan guarantee program.

(iii) The lender may deduct the amount of the premium from the borrower's loan proceeds. For a loan disbursed in more than one installment, the insurance premium must be deducted proportionately from each disbursement of the loan proceeds.

(iv) The amount of the insurance premium may not exceed 3 percent of the principal balance of the loan.

(v) The guaranty agency shall refund to the lender any insurance premium received for a loan under the circumstances specified in § 682.401(b)(9)(vi) (A) and (B).

(vi) The lender shall refund to the borrower by a credit against the borrower's loan balance all or a part of the insurance premium paid by the borrower on a loan under the following circumstances:

(A) The premium, or the portion attributable to a portion of a loan disbursed in more than one installment, must be refunded if the loan check is returned uncashed to the lender.

(B) The premium must be refunded if within 120 days of disbursement—

(*1*) The loan is repaid in full;

(*2*) The loan check has not been negotiated; or

(*3*) The loan proceeds disbursed by electronic funds transfer in accordance with § 682.207(b)(1)(ii)(B) have not been released from the restricted account maintained by the school.

(10) *Payments for lender referral service.* (i) The guaranty agency may not use insurance premiums to pay incentive fees to lenders, except to those lenders who agree to participate in and make FFEL loans (other than Stafford loans that do not qualify for interest benefits) to all eligible students referred under a qualified lender referral service.

(ii) For purposes of this paragraph, the term *qualified lender referral service* means a lender referral service offered by a guaranty agency under which the agency refers to a participating lender each eligible student applying for the service who is either a resident of the State in which the agency is the principal guaranty agency or attending a school in that State and who has sought and been unable to find a lender willing to make a FFEL loan (other than a Stafford loan that does not qualify for interest benefits) to the student.

(11) *Administrative fee for Consolidation loans.* The guaranty agency may charge a lender a fee, not to exceed $50, reasonably calculated to cover the agency's cost of increased or extended liability incurred in guaranteeing a Consolidation loan. The lender may not pass the fee on to the borrower. If it charges the fee, the agency must charge it for all loans made under the agency's Consolidation Loan program.

(12) *Administrative fee for refinancing fixed-rate PLUS or SLS loans.* The guaranty agency may require a lender to pay to the guaranty agency up to 50 percent of the fee the lender charges a borrower under § 682.202(e) for the purpose of defraying the agency's administrative costs incident to the guarantee of a lender's reissuance of a fixed-rate PLUS or SLS loan at a variable interest rate. If it charges the

fee, the agency must charge the same fee to all lenders that refinance under this paragraph.

(13) *Guarantee liability.* The guaranty agency shall guarantee 100 percent of the unpaid principal balance of each loan guaranteed.

(14) *Guaranty agency administration.* In the case of a State loan guarantee program administered by a State government, the program must be administered by a single State agency, or by one or more private nonprofit institutions or organizations under the supervision of a single State agency. For this purpose, "supervision" includes, but is not limited to, setting policies and procedures, and having full responsibility for the operation of the program.

(15) *Loan assignment.* (i) The guaranty agency shall allow a loan to be assigned only if the loan is fully disbursed and is assigned to—

(A) An eligible lender;

(B) A guaranty agency, in the case of a borrower's default, death, total and permanent disability, or filing of a bankruptcy petition, or for other circumstances approved by the Secretary, such as a loan made for attendance at a school that closes;

(C) An educational institution, whether or not it is an eligible lender, in connection with the institution's repayment to the agency or to the Secretary of a guarantee or a reinsurance claim payment made on a loan that was ineligible for the payment;

(D) A Federal or State agency or an organization or corporation acting on behalf of such an agency and acting as a conservator, liquidator, or receiver of an eligible lender; or

(E) The Secretary.

(ii) For the purpose of this paragraph, "assigned" means any kind of transfer of an interest in the loan, including a pledge of such an interest as security.

(16) *Transfer of guarantees.* Except in the case of a transfer of guarantee requested by a borrower seeking a transfer to secure a single guarantor, the guaranty agency may transfer its guarantee obligation on a loan to another guaranty agency, only with the approval of the Secretary, the transferee agency, and the holder of the loan.

(17) *Standards and procedures.* (i) The guaranty agency shall establish, disseminate to concerned parties, and enforce standards and procedures for—

(A) Ensuring that all lenders in its program meet the definition of "eligible lender" in section 435(d) of the Act and have a written lender agreement with the agency;

(B) School and lender participation in its program;

(C) Limitation, suspension, termination of school and lender participation;

(D) Emergency action against a participating school or lender;

(E) The exercise of due diligence by lenders in making, servicing, and collecting loans; and

(F) The timely filing by lenders of default, death, disability, and bankruptcy claims.

(ii) The guaranty agency shall ensure that its program and all participants in its program at all times meet the requirements of subparts B, C, D and F of this part.

(18) *Student status confirmation.* (i) The guaranty agency shall establish and use a system and procedures for monitoring the enrollment status of a FFEL program borrower or student on whose behalf a parent has borrowed that includes, at a minimum—

(A) Transmitting to the school, that according to the guaranty agency's records the student most recently attended, a student status confirmation report for completion at least semi-annually in accordance with a schedule established by the agency;

(B) Reporting to the current holder of the loan within 60 days of the receipt of the completed report from the school any change in the student's enrollment status reported by the school that triggers—

(*1*) The beginning of the borrower's grace period; or

(*2*) The beginning or resumption of the borrower's immediate obligation to make scheduled payments.

(ii) The agency shall use the data elements and report format provided in Appendix B to this part, unless the Secretary notifies the guaranty agency that other data elements or a revised format may be used.

(19) *Submission of interest and special allowance information.* Upon the Secretary's request, the guaranty agency shall submit, or require its lenders to submit, information that the Secretary deems necessary for determining the amount of interest benefits and special allowance payable on the agency's guaranteed loans.

(20) *Submission of information for reports.* The guaranty agency shall require lenders to submit to the agency the information necessary for the agency to complete the reports required by § 682.414(b).

(21) *Guaranty agency transfer of information.* (i) A guaranty agency from which another guaranty agency requests information regarding Stafford and SLS loans made after January 1, 1987, to students who are residents of the State for which the requesting agency is the principal guaranty agency as defined in § 682.800(d) shall provide—

(A) The name and social security number of the student; and

(B) The annual loan amount and the cumulative amount borrowed by the student in loans under the Stafford and SLS programs guaranteed by the responding agency.

(ii) The reasonable costs incurred by an agency in fulfilling a request for information made under paragraph (b)(21)(i) of this section must be paid by the guaranty agency making the request.

(22) *Information of defaults.* The guaranty agency shall upon the request of an eligible institution furnish information with respect to students, including the names and addresses of such students, who were enrolled at the eligible institution and who are in default on the repayment of any loan guaranteed by that agency.

(c)(1) *Lender of last resort.* The guaranty agency shall ensure that it or an eligible lender described in section 435(d)(1)(D) of the Act serves as a lender of last resort in the State in which it is the principal guaranty agency, as defined in § 682.800(d).

(2) The lender of last resort shall make a Stafford loan to any eligible student who satisfies the lender's eligibility requirements and—

(i) Qualifies for interest benefits, pursuant to § 682.301, for a loan amount of at least $200; and

(ii) Has been otherwise unable after conscientious efforts to obtain a loan from another eligible lender for the same period of enrollment.

(3) The guaranty agency or an eligible lender described in section 435(d)(1)(D) of the Act may arrange for a loan required to be made by this paragraph to be made by another eligible lender.

(d) *Review of forms and procedures.* (1) The guaranty agency shall submit to the Secretary its write-off criteria and procedures. The agency may not use these materials until the Secretary approves them.

(2) The guaranty agency shall promptly submit to the Secretary its regulations, statements of procedures and standards, agreements, and other materials that substantially affect the operation of the agency's program, and any proposed changes to those materials. Except as provided in paragraph (d)(1) of this section, the agency may use these materials unless and until the Secretary disapproves them.

(3) The guaranty agency shall use a common application form, promissory note, and other common forms approved by the Secretary.

(4) The guaranty agency must develop and implement appropriate procedures that provide for the granting of a student deferment as specified in § 682.210(a)(6)(iv) and (c)(3) and require their lenders to use these procedures.

(5) The guaranty agency shall ensure that all program materials meet the requirements of Federal and State law, including, but not limited to, the Act and the regulations in this part and part 668.

(e) *Prohibited inducements.* A guaranty agency may not—

(1) Offer directly or indirectly any premium, payment, or other inducement to an employee or student of a school, or an entity or individual affiliated with a school, to secure applicants for FFEL loans;

(2) Conduct unsolicited mailings of student loan application forms to students enrolled in secondary school;

(3) Conduct fraudulent or misleading advertising concerning loan availability.

(Authority: 20 U.S.C. 1078, 1078–1, 1078–2, 1078–3, 1082)

§ 682.402 Death, disability, and bankruptcy payments.

(a) *General.* (1) Rules governing the cancellation of loans due to death, total and permanent disability, or discharge in bankruptcy are set forth in paragraphs (a)(2), (b), (c), and (d) of this section.

(2) If a PLUS loan was obtained by two parents as co-makers and only one of the borrowers dies, becomes totally and permanently disabled, or has his or her loan obligation discharged in bankruptcy, the other borrower remains obligated to repay the loan.

(3) The Secretary does not pay a death, disability, or bankruptcy claim if the loan would not qualify either for payment of a default claim or for reinsurance payments in the event of default.

(b) *Death.* (1) If an individual borrower dies, the obligation of the borrower and any endorser to make any further payments on the loan is canceled.

(2) In determining that a borrower has died, the lender may rely on a death certificate or other proof of death that is acceptable under applicable State law. If a death certificate or other acceptable proof of death is not available, the borrower's obligation on the loan can be canceled only if the guaranty agency determines that other evidence establishes that the borrower has died.

(3) After receiving information indicating that the borrower has died, the lender, if it believes the information to be reliable, shall suspend any collection activity against the borrower and promptly request that the borrower's representative provide the documentation described in paragraph (b)(2) of this section. During the suspension of collection activity, which may not exceed 30 days, the lender shall attempt diligently to obtain documentation verifying the borrower's death. If, despite diligent attempts, the lender is not able to confirm the borrower's death within 30 days, the lender shall resume collection activity from the point that it had been discontinued and is deemed to have exercised forbearance as to repayment of the loan during the period when collection activity was suspended.

(4) Once the lender has determined under paragraph (b)(2) of this section that the borrower has died, the lender may not attempt to collect on the loan from the borrower's estate or from any endorser.

(5) The lender shall return to the sender any payments received from the estate or paid on behalf of the borrower after the date of the borrower's death.

(c) *Total and permanent disability.* (1) If the lender determines that an individual borrower is totally and permanently disabled, the obligation of the borrower and any endorser to make any further payments on the loan is canceled. A borrower is not considered totally and permanently disabled on the basis of a condition that existed at the time he or she applied for the loan, unless the borrower's condition has substantially deteriorated later, so as to render the borrower totally and permanently disabled. In the case of a consolidation loan, the condition must not have existed prior to the time the borrower applied for each of the underlying loans, unless the condition substantially deteriorates, so as to render the borrower totally and permanently disabled.

(2) After being notified by the borrower or the borrower's representative that the borrower claims to be totally and permanently disabled, the lender promptly shall request that the borrower or the borrower's representative submit on a form provided or approved by the Secretary a certification by a physician who is a doctor of medicine or osteopathy and legally authorized to practice in a State that the borrower is totally and permanently disabled. The lender shall continue collection until it receives either the certification of total disability or a letter from a physician stating that the certification has been requested and that additional time is needed to determine if the borrower is totally and permanently disabled. Except as provided in paragraph (c)(4) of this section, after receiving the physician's certification or letter, the lender may not attempt to collect from the borrower or any endorser.

(3) After receiving the physician's certification described in paragraph (c)(2) of this section, the lender shall return any payments that it received from or on behalf of the borrower after the date the borrower or the borrower's representative notified the lender of the borrower's claim of total disability.

(4) If the lender determines that a borrower who claims to be totally and permanently disabled is not in fact disabled, or if the lender does not receive the physician's certification of total disability within 60 days of the receipt of the physician's letter requesting additional time, as described in paragraph (c)(2) of this section, the lender shall resume collection and shall be deemed to have exercised forbearance of payment of both principal and interest from the date the lender received the physician's letter requesting additional time and may capitalize, in accordance with § 682.202(b), any interest accrued and not paid during that period.

(d) *Bankruptcy*—(1) *General.* If a borrower files a petition for relief under the Bankruptcy Code, the Secretary reimburses the holder of the loan for unpaid principal and interest on the loan in accordance with paragraphs (d) through (i) of this section.

(2) *Notice of bankruptcy filing.* The lender shall determine that a borrower has filed a bankruptcy petition on the basis of a notice of the first meeting of creditors received from the bankruptcy court, other documents showing a petition has been filed, or written notice from the debtor's attorney of the filing date of the petition.

(3) *Suspension of collection activity.* If a lender is notified pursuant to paragraph (d)(2) of this section that a borrower has filed a petition for relief in bankruptcy, the lender shall immediately suspend any collection efforts outside the bankruptcy proceeding—

(i) Against the borrower, and

(ii) If the borrower has filed for relief under Chapters 12 or 13, against any co-maker or endorser.

(4) *Proof of claim.* The lender shall file a proof of claim with the bankruptcy court within—

(i) 30 days after the lender receives a notice of first meeting of creditors unless, in the case of a proceeding under Chapter 7, the notice states that the borrower has no assets; or

(ii) 30 days after the lender receives a notice from the court stating that a

Chapter 7 no-asset case has been converted to an asset case.

(5) *Filing of bankruptcy claim with the guaranty agency.* (i) The lender shall file a bankruptcy claim on the loan with the guaranty agency in accordance with paragraph (e) of this section, if—

(A) The borrower has filed a petition for relief under Chapters 12 or 13 of the Bankruptcy Code; or

(B) The borrower has filed a petition for relief under Chapters 7 or 11 of the Bankruptcy Code and the loan has been in repayment for more than seven years (exclusive of any applicable suspension of the repayment period) from the due date of the first payment until the date of the filing of the petition for relief; or

(C) The borrower has begun an action to have the loan obligation determined to be dischargeable on grounds of undue hardship.

(ii) In cases not described in paragraph (d)(5)(i) of this section, the lender shall continue to hold the loan notwithstanding the bankruptcy proceeding. Once the bankruptcy proceeding is completed or dismissed, the lender shall treat the loan as if the lender had exercised forbearance as to repayment of principal and interest accrued from the date of the borrower's filing of the bankruptcy petition until the date the lender is notified that the bankruptcy proceeding is completed or dismissed.

(e) *Claim procedures for a loan by a lender*—(1) *Documentation.* A lender shall provide the guaranty agency with the following documentation when filing a death, disability, or bankruptcy claim:

(i) The original promissory note.

(ii) The loan application.

(iii) In the case of a death claim, those documents that formed the basis for the determination of death.

(iv) In the case of a disability claim, a copy of the certification of disability described in paragraph (c)(2) of this section.

(v) In the case of a bankruptcy claim—

(A) Evidence that a bankruptcy petition has been filed, all pertinent documents sent to or received from the bankruptcy court by the lender, and an assignment to the guaranty agency of any proof of claim filed by the lender regarding the loan; and

(B) A statement of any facts of which the lender is aware that may form the basis for an objection or exception to the discharge of the borrower's loan obligation in bankruptcy and all documents supporting those facts.

(2) *Filing deadlines.* A lender shall file a death, disability, or bankruptcy claim within the following periods:

(i) A lender shall file a death or disability claim within 60 days of the date on which the lender determines that a borrower has died or is totally and permanently disabled.

(ii) A lender shall file a bankruptcy claim with the guaranty agency by the earlier of—

(A) 30 days after the date on which the lender receives notice of the first meeting of creditors or other information described in paragraph (d)(2) of this section; or

(B) 15 days after the lender is served with a complaint or motion to have the loan determined to be dischargeable on grounds of undue hardship, or, if the lender secures an extension of time within which an answer may be filed, 25 days before the expiration of that extended period, whichever is later.

(f) *Payment of death, disability, and bankruptcy claims by the guaranty agency*—(1) *General.* (i) The guaranty agency shall review a death, disability, or bankruptcy claim promptly and shall pay the lender on an approved claim the amount of loss in accordance with paragraph (f) of this section, not later than 45 days after the claim was filed by the lender.

(ii) In the case of a bankruptcy claim, the guaranty agency shall, upon receipt of the claim from the lender, immediately take those actions required under paragraph (g) of this section to oppose the discharge of the loan by the bankruptcy court.

(2) *Amount of loss to be paid on a claim.* (i) The amount of loss payable on a death, disability, or bankruptcy claim is equal to the unpaid balance of principal and interest determined in accordance with paragraph (f)(3) of this section.

(ii) The unpaid balance of principal may include interest capitalized in accordance with § 682.202(b).

(3) *Payment of interest.* If the guarantee covers unpaid interest, the amount payable on an approved claim includes the unpaid interest that accrues during the following periods:

(i) During the period before the claim is filed, not to exceed the period provided for in paragraph (e)(2) of this section for filing the claim.

(ii) During a period not to exceed 30 days following the return of the claim to the lender by the guaranty agency for additional documentation necessary for the claim to be approved by the guaranty agency.

(iii) During the period required by the guaranty agency to approve the claim and to authorize payment or to return the claim to the lender for additional documentation.

(g) *Guaranty agency participation in bankruptcy proceedings*—(1) *Undue hardship claims.* (i) In response to a petition filed with regard to any bankruptcy proceeding by the borrower for discharge under 11 U.S.C. 523(a)(8)(B) on the grounds of undue hardship, the guaranty agency shall determine on the basis of reasonably available information—

(A) Whether the first payment on the loan was due less than 7 years (exclusive of any applicable suspension of the repayment period) before the filing of the petition for relief commencing the bankruptcy case; and

(B) Whether repayment under either the current repayment schedule or any adjusted schedule authorized under this part would impose an undue hardship on the borrower and his or her dependents.

(ii) If the agency determines that repayment would not constitute an undue hardship, the agency shall then determine whether the expected costs of opposing the discharge petition would exceed one-third of the total amount owed on the loan, including principal, interest, late charges, and collection costs.

(iii) If the expected costs of opposing the discharge petition do not exceed one-third of the total amount owed on the loan, the agency shall—

(A) Oppose the borrower's petition for a determination of dischargeability; and

(B) If the borrower is in default on the loan, seek a judgment for the amount owed on the loan.

(iv) In opposing a petition for a determination of dischargeability on the grounds of undue hardship, a guaranty agency may agree to discharge of a portion of the amount owed on a loan if it reasonably determines that the agreement is necessary in order to obtain a judgment on the remainder of the loan.

(2) *Response by a guaranty agency to plans proposed under Chapters 11, 12, and 13 for loans in repayment more than seven years.* The guaranty agency shall take the following actions with regard to a loan that was in repayment for at least seven years (exclusive of applicable suspensions of the repayment period) when a petition for relief in bankruptcy under Chapter 11, 12, or 13 was filed:

(i) The agency is not required to respond to a proposed plan that—

(A) Provides for repayment of the full outstanding balance of the loan;

(B) Makes no provision with regard to the loan or to general unsecured claims.

(ii) In any other case, the agency shall determine, based on a review of its own

records and documents filed by the debtor in the bankruptcy proceeding—

(A) What part of the loan obligation will be discharged under the plan as proposed;

(B) Whether the plan itself or the classification of the loan under the plan meets the requirements of 11 U.S.C. 1129, 1225, or 1325, as applicable; and

(C) Whether grounds exist under 11 U.S.C. 1112, 1208, or 1307, as applicable, to move for conversion or dismissal of the case.

(iii) If the agency determines that grounds exist to challenge the proposed plan, the agency shall, as appropriate, object to the plan or move to dismiss the case, if—

(A) The costs of litigation of these actions are not reasonably expected to exceed one-third of the amount of the loan to be discharged under the plan; and

(B) With respect to an objection under 11 U.S.C. 1325, the additional amount that may be recovered under the plan if an objection is successful can reasonably be expected to equal or exceed the cost of litigating the objection.

(iv) The agency shall monitor the debtor's performance under a confirmed plan. If the debtor fails to make payments required under the plan and demonstrates entitlement to discharge under 11 U.S.C. 1328(b), the agency shall oppose any requested discharge and move to dismiss the case if the costs of litigation together with the costs incurred for objections to the plan are not reasonably expected to exceed one-third of the amount of the loan to be discharged under the plan.

(3) *Response by guaranty agency to plans proposed under Chapters 11, 12, and 13 for loans in repayment less than seven years.* The guaranty agency shall take the following actions with regard to a loan that was in repayment for less than seven years (exclusive of applicable suspensions of the repayment period) when a petition for relief in bankruptcy under chapter 11, 12, or 13 was filed:

(i) If the debtor proposes a plan that is expected to end less than seven years (exclusive of applicable suspensions of the repayment period) after the first payment was due on the loan, the agency shall monitor the debtor's performance under a confirmed plan. If the debtor fails to make payments required under the plan and demonstrate entitlement to discharge under 11 U.S.C. 1328(b), the agency shall oppose any requested discharge and move to dismiss the case if the costs of litigation together with the costs incurred for objections to the plan are not reasonably expected to exceed one-third of the amount of the loan to be discharged under the plan.

(ii) If the debtor proposes a plan that is expected to end more than seven years (exclusive of applicable suspensions of the repayment period) after the first payment was due on the loan, the agency shall take the actions required under paragraph (h)(2) of this section.

(h) *Mandatory repurchase by lender.* (1) The lender shall repurchase from the guaranty agency a loan held by the agency pursuant to a bankruptcy claim paid to that lender promptly after the earliest of the following events:

(i) The entry of an order denying or revoking discharge or dismissing a proceeding under any chapter.

(ii) A ruling in a proceeding under chapter 7 or 11 that the loan is not dischargeable under 11 U.S.C. 523(a)(8)(B) or other applicable law.

(iii) The entry of an order granting discharge under chapter 12 or 13, or confirming a plan of arrangement under chapter 11 in a proceeding begun less than 7 years (exclusive of any applicable suspension of the repayment period) after the first payment due date of the loan, unless the court determined that the loan is dischargeable under 11 U.S.C. 523(a)(8)(B) on grounds of undue hardship.

(2) The lender may capitalize past-due interest accrued on a loan repurchased under this paragraph.

(i) *Claims for reimbursement from the Secretary on loans held by guarantee agencies.* (1)(i) The Secretary reimburses the guaranty agency for its losses on bankruptcy claims paid to lenders after—

(A) A determination by the court that the loan is dischargeable under 11 U.S.C. 523(a)(8)(B) with respect to a proceeding initiated under chapter 7 or chapter 11 begun less than 7 years (exclusive of any applicable suspension of the repayment period) after the first payment due date of the loan; or

(B) With respect to any other loan, after the agency pays the claim to the lender.

(ii) The guaranty agency shall refund to the Secretary the full amount of reimbursement received from the Secretary on a loan that a lender repurchases under this section.

(2) The Secretary pays a death, disability, or bankruptcy claim in an amount determined under paragraph (i)(3) of this section on a loan held by a guaranty agency after the agency has paid a default claim to the lender thereon and received payment under its reinsurance agreement. The Secretary reimburses the guaranty agency only if—

(i) The guaranty agency determines that the borrower has died, become totally and permanently disabled since applying for the loan, or has filed for relief in bankruptcy, in accordance with the procedures set forth in paragraphs (b)–(d) of this section. For purposes of this paragraph, references to the "lender" and "guaranty agency" in paragraphs (b)–(d) of this section mean the guaranty agency and the Secretary respectively;

(ii) In the case of a Stafford, SLS, or PLUS loan, the guaranty agency determines that the borrower (or in the case of a PLUS Program loan each of the co-makers) has died, become totally and permanently disabled since applying for the loan, or has filed the petition for relief in bankruptcy within 10 years of the date the borrower entered repayment, exclusive of periods of deferment or periods of forbearance granted by the lender that extended the 10-year maximum repayment period;

(iii) In the case of a Consolidation loan, the guaranty agency determines that the borrower has died, become totally and permanently disabled since applying for the Consolidation loan, or has filed the petition for relief in bankruptcy within the maximum repayment period described in § 682.209(h)(2), exclusive of periods of deferment or periods of forbearance granted by the lender that extended the maximum repayment period;

(iv) The guaranty agency has not written off the loan in accordance with the procedures established by the agency pursuant to § 682.410(b)(6)(x);

(v) The guaranty agency has exercised due diligence in the collection of the loan, in accordance with the procedures established by the agency pursuant to § 682.410(b)(6)(x), until the borrower (or in the case of a PLUS loan each of the co-makers) died, became totally and permanently disabled, filed a chapter 12 or 13 petition, or had the loan discharged in bankruptcy; and

(iv) In the case of a bankruptcy claim, the guaranty agency has complied with the requirements of paragraph (g) of this section.

(3)(i) The Secretary pays the guaranty agency a percentage of the outstanding principal and interest that is equal to the complement of the reinsurance percentage paid on the loan. This interest includes interest that accrues during the shorter of—

(A) The period from the date the guaranty agency determines that the borrower (or each of the co-makers) died, became totally and permanently disabled, filed a chapter 12 or 13

bankruptcy petition, or had the loan discharged in bankruptcy until the Secretary authorizes payment; or

(B) 60 days.

(ii) In addition, the Secretary pays the guaranty agency for any unpaid interest that the agency paid as part of the default claim and for which the agency was not previously reimbursed by the Secretary.

(j) *Payments received after the Secretary's payment of a death, disability, or bankruptcy claim.* If the guaranty agency receives any payments from or on behalf of the borrower on or attributable to a loan on which the Secretary previously paid a bankruptcy claim, the guaranty agency shall remit 100 percent of these payments to the Secretary.

(k) *Applicable suspension of the repayment period.* For purposes of this section and 11 U.S.C. 523(a)(8)(B) with respect to loans guaranteed under the FFEL programs, an applicable suspension of the repayment period—

(1) Includes any period, including a period of deferment, during which the lender, at the request of the borrower, does not require the borrower to make payments on the loan;

(2) Begins on the date on which the borrower qualifies for the requested deferment or the lender grants the requested forbearance;

(3) Closes on the later of the date on which—

(i) The condition for which the requested deferment or forbearance was received ends; or

(ii) The lender receives notice of the end of the condition for which the requested deferment or forbearance was received, if the condition ended earlier than represented by the borrower at the time of the request and the borrower did not notify timely the lender of the date on which the condition actually ended; and

(4) Includes the period between the end of the borrower's grace period and the first payment due date established by the lender in the case of a borrower who entered repayment without the knowledge of the lender.

(Authority: 20 U.S.C. 1078, 1078–1, 1078–2, 1078–3, 1082, 1087)

§ 682.403 Federal advances for claim payments.

(a) The Secretary makes an advance to a guaranty agency that has a reinsurance agreement. The advance may be used only to pay guarantee claims. The Secretary makes an advance to—

(1) A State guaranty agency; or

(2) 1 or more private nonprofit guarantee agencies in a State if, during a fiscal year—

(i) The State does not have a guaranty agency program;

(ii) The Secretary consults the chief executive officer of the State and finds it unlikely that the State will have a program for that year; and

(iii) Each private nonprofit guaranty agency—

(A) Agrees to establish at least 1 office in the State with sufficient staff to handle written and telephone inquiries from students, eligible lenders, and other persons in the State;

(B) Agrees to encourage maximum commercial lender participation within the State and to conduct periodic visits to at least the major lenders within the State;

(C) Agrees that the benefit of its loan guarantees will not be denied to students because of their choice of schools or lack of need; and

(D) Certifies that it is not an eligible educational institution and that it does not have any substantial affiliation with an eligible educational institution.

(b) A guaranty agency shall apply to the Secretary in order to receive an initial advance.

(c)(1) An advance may be made to a new guaranty agency for each of five consecutive calendar years. A new agency is an agency that entered into a basic agreement on or after October 12, 1976, or that was not actively carrying on a loan guarantee program on or before October 12, 1976.

(2)(i) A guaranty agency may request that the initial advance be made on a specified date. The Secretary pays subsequent advances on the same day that the initial advance was made for each of the four succeeding calendar years.

(ii) An additional advance may be made to a private nonprofit guaranty agency only if the agency continues to qualify under paragraph (a) of this section.

(d) The Secretary makes an advance on terms and conditions specified in a Federal advances for claim payments agreement between the Secretary and the guaranty agency.

(e) In the case of a private nonprofit guaranty agency, the repayment of advances is determined separately for each State for which the agency has received in advance under this section, in accordance with section 422(c)(4) of the Act.

(f) A guaranty agency shall return advances provided under this section in accordance with the provisions of sections 422 (c) and (d) of the Act.

(Authority: 20 U.S.C. 1072, 1082)

§ 682.404 Federal reinsurance agreement.

(a) *General.* (1) The Secretary may enter into a reinsurance agreement with a guaranty agency that has a basic program agreement. Except as provided in paragraph (b) of this section, under a reinsurance agreement the Secretary reimburses the guaranty agency for 100 percent of its losses on default claim payments to lenders.

(2) For purposes of this section—

(i) *Losses* means the amount of unpaid principal and accrued interest the agency paid on a default claim filed by a lender on a reinsured loan, minus payments made by or on behalf of the borrower after default but before the Secretary reimburses the agency;

(ii) *Preclaims assistance* means collection assistance provided to the lender by the guaranty agency that includes collection activities that are comparable in intensiveness to the level of preclaims assistance performed by the guaranty agency as of October 16, 1990, and involves the initiation by the agency of at least 3 collection activities, including at least 1 letter to the borrower designed to encourage the borrower to begin or resume repayment; and

(iii) *Supplemental preclaims assistance* means collection assistance provided to the lender by the guaranty agency that involves the initiation by the agency of at least two collection activities designed to encourage the borrower to begin or resume payment that is begun on or after the 120th day of delinquency.

(3)(i) If an account has been subject to supplemental preclaims assistance and is not submitted as a default claim by the lender to the guaranty agency by the 150th day after the loan becomes 120 days delinquent, the Secretary will pay the guaranty agency $50.

(ii) If a guaranty agency contracts with an outside entity to perform any supplemental preclaims assistance activity, that entity may not—

(A) Hold or service the loan;

(B) Own, control, or share common ownership with the holder or servicer of the loan; or

(C) Hold a contract with the agency to perform collection services on the loan in the event of default.

(iii) For purposes of paragraph (a)(3)(i) of this section, an "account" includes 1 or more FFEL programs loans that were—

(A) Made to the same borrower;

(B) Held by the same lender;

(C) Guaranteed by the same guaranty agency;

(D) Subject to preclaims assistance by the same agency; and

(E) Covered by the same supplemental preclaims assistance request.

(4) A guaranty agency's loss on a loan that was outstanding when a reinsurance agreement was executed is covered by the reinsurance agreement only if the default on the loan occurs after the effective date of the agreement.

(5) If a lender has requested preclaims assistance as described in paragraph (a)(2)(ii) of this section, the agency shall notify the school for attendance at which the borrower received the loan of the lender's request by providing the school with a copy of that request, or by other means.

(b) *Reinsurance rate.* (1) If the total of reinsurance claims paid by the Secretary to a guaranty agency during any fiscal year reaches 5 percent of the amount of loans in repayment at the end of the preceding fiscal year, the Secretary's reinsurance payment on a default claim subsequently paid by the guaranty agency during that fiscal year equals 90 percent of its losses.

(2) If the total of reinsurance claims paid during a fiscal year by the Secretary to a guaranty agency reaches 9 percent of the amount of loans in repayment at the end of the preceding fiscal year, the Secretary's reinsurance payment on a default claim subsequently paid by the guaranty agency during that fiscal year is 80 percent of its losses.

(3) For purposes of this section, the total of reinsurance claims paid by the Secretary to a guaranty agency during any fiscal year does not include amounts paid on claims by the guaranty agency—

(i) On loans considered in default under § 682.412(e);

(ii) Under a policy established by the agency that is consistent with § 682.509(a)(1); or

(iii) That were filed by lenders at the direction of the Secretary.

(4) Notwithstanding paragraphs (b) (1) and (2) of this section, for a guaranty agency that entered into a basic program agreement under section 428(b) of the Act after September 30, 1976, or was not actively carrying on a loan guarantee program covered by a basic program agreement on October 1, 1976, the Secretary may pay 100 percent of its losses during five consecutive fiscal years beginning with the first year of its operation.

(5) For purposes of this section, *amount of loans in repayment* means—

(i) The sum of—

(A) The original principal amount of all loans guaranteed by the agency; and

(B) The original principal amount of any loans on which the guarantee was transferred to the agency from another agency;

(ii) Minus the original principal amount of all loans on which—

(A) The loan guarantee was canceled;

(B) The loan guarantee was transferred to another agency;

(C) The borrower has not yet reached the repayment period;

(D) Payment in full has been made by the borrower;

(E) The borrower was in deferment status at the time repayment was scheduled to begin and remains in deferment status;

(F) Reinsurance coverage has been lost and cannot be regained; and

(G) The agency paid claims, excluding the amount of those claims—

(*1*) Paid under § 682.412(e);

(*2*) Paid under a policy established by the agency that is consistent with § 682.509(a)(1); or

(*3*) Paid at the direction of the Secretary.

(c) *Submission of reinsurance rate base data.* The guaranty agency shall submit to the Secretary the quarterly report required by the Secretary for the previous quarter ending September 30 containing complete and accurate data in order for the Secretary to calculate the amount of loans in repayment at the end of the preceding fiscal year. The Secretary does not pay a reinsurance claim to the guaranty agency after the date the guarterly report is due until the quaranty agency submits a complete and accurate report.

(d) *Reinsurance fee.* (1) Except for loans made under § 682.209(e), (f) and (h), a guaranty agency shall pay to the Secretary during each fiscal year in quarterly installments a reinsurance fee equal to—

(i) 0.25 percent of the total principal amount of the Stafford, SLS, and PLUS loans on which guarantees were issued by that agency during that fiscal year; or

(ii) 0.5 percent of the total principal amount of the Stafford, SLS, and PLUS loans on which guarantees were issued by that agency during that fiscal year if the agency's reinsurance claims paid reach the amount described in paragraph (b)(1) of this section at any time during that fiscal year.

(2) The agency that is the original guarantor of a loan shall pay the reinsurance fee to the Secretary even if the guaranty agency transfers its guarantee obligation on the loan to another guaranty agency.

(3) The guaranty agency shall pay the reinsurance fee required by paragraph (d)(1) of this section due the Secretary for each calendar quarter ending March 31, June 30, September 30, and December 31, within 90 days after the end of the applicable quarter or within 30 days after receiving written notice from the Secretary that the fees are due, whichever is earlier.

(e) *Initiation or extension of agreements.* In deciding whether to enter into or extend a reinsurance agreement, or, if an agreement has been terminated, whether to enter into a new agreement, the Secretary considers the adequacy of—

(1) Efforts by the guaranty agency and the lenders to which it provides guarantees to collect outstanding loans as required by § 682.410(b) (6) or (7), and § 682.411;

(2) Efforts by the guaranty agency to make FFEL loans available to all eligible borrowers; and

(3) Other relevant aspects of the guaranty agency's program operations.

(f) *Application of borrower payments.* Payments made to a guaranty agency by a borrower may, at the agency's option, be applied first to the payment of reinsured interest owed or to defray the agency's collection costs on the loan. The borrower's payments may be applied to other charges, such as late charges, only after the repayment of all principal and interest.

(g) *Federal share of borrower payments.* (1) If a borrower makes payments on a loan after the Secretary has paid a reinsurance claim on that loan, the agency shall pay to the Secretary the Secretary's equitable share of those payments.

(2) For purposes of this section, *the Secretary's equitable share* means that portion of borrower payments that remains after the agency has deducted—

(i) An amount equal to the complement of the reinsurance percentage that was in effect when the reinsurance payment was made by the Secretary; and

(ii) 30 percent of borrower payments.

(3) Unless the Secretary approves otherwise, the guaranty agency shall pay to the Secretary the Secretary's equitable share of borrower payments within 45 days of its receipt of the payments.

(h) *Nondiscrimination.* (1) A guaranty agency may not engage in any pattern or practice that results in a denial of a borrower's access to FFEL loans because of the borrower's race, sex, color, religion, national origin, age, handicapped status, income, attendance at a particular school within any State served by the guaranty agency, length of the borrower's educational program, or the borrower's academic year in school.

(2) For purposes of this section a guaranty agency is deemed to be serving a State if it guarantees a loan that is—

(i) Made by a lender located in a State not served by the agency;

(ii) Made to a borrower who is a resident of a State not served by the agency; and

(iii) Made for attendance at a school located in the State.

(i) *Other terms.* The reinsurance agreement contains other terms and conditions that the Secretary finds necessary to—

(1) Promote the purposes of the FFEL programs and to protect the United States from unreasonable risks of loss;

(2) Ensure proper and efficient administration of the loan guarantee program; and

(3) Ensure that due diligence will be exercised in the collection of loans.

(Authority: 20 U.S.C. 1078, 1078–1, 1078–2, 1078–3, 1082)

§ 682.405 [Reserved]

§ 682.406 Conditions of reinsurance coverage.

(a) A guaranty agency is entitled to reinsurance payments on a loan only if—

(1) The lender exercised due diligence in making, disbursing, and servicing the loan as prescribed by the rules of the agency;

(2) With respect to the reinsurance payment on the portion of a loan represented by a single disbursement of loan proceeds—

(i) The check for the disbursement was cashed within 120 days after disbursement; or

(ii) The proceeds of the disbursement made by electronic funds transfer in accordance with § 682.207(b)(1)(ii)(B) have been released from the restricted account maintained by the school within 120 days after disbursement;

(3) The lender provided an accurate collection history and an accurate payment history to the guaranty agency with the default claim filed on the loan showing that the lender exercised due diligence in collecting the loan through collection efforts meeting the requirements of § 682.411, including collection efforts against each endorser;

(4) The loan was in default before the agency paid a default claim filed thereon;

(5) The lender filed a default claim thereon with the guaranty agency within 90 days of default;

(6) The lender resubmitted a properly documented default claim to the guaranty agency not later than 60 days from the date the agency had returned that claim due solely to inadequate documentation, except that interest accruing beyond the 30th day after the date the guaranty agency returned the claim is not reinsured unless the lender files a claim for loss on the loan with the guarantor together with all required documentation, prior to the 30th day;

(7) The lender satisfied all conditions of guarantee coverage set by the agency, unless the agency reinstated guarantee coverage on the loan following the lender's failure to satisfy such a condition pursuant to written policies and procedures established by the agency;

(8) The agency paid or returned to the lender for additional documentation a default claim thereon filed by the lender within 90 days of the date the lender filed the claim or, if applicable, the additional documentation, except that interest accruing beyond the 60th day after the date the lender originally filed the claim is not reinsured;

(9) The agency submitted a request for the payment on a form required by the Secretary no later than 45 days following payment of a default claim to the lender, which must take place no earlier than 90 days following default in the case of a loan payable in monthly installments, or no earlier than 30 days following default, in the case of a loan payable in less frequent installments;

(10) The loan was legally enforceable by the lender when the agency paid a claim on the loan to the lender;

(11) The agency exercised due diligence in collection of the loan in accordance with § 682.410(b)(6) or (7);

(12) The agency and lender complied with all other Federal requirements with respect to the loan including the payment of origination fees; and

(13) The agency assigns the loan to the Secretary, if so directed, in accordance with the requirements of § 682.409.

(b) Notwithstanding paragraph (a) of this section, the Secretary may waive his right to refuse to make or require repayment of a reinsurance payment if, in the Secretary's judgment, the best interests of the United States so require. The Secretary's waiver policy for violations of paragraph (a)(3) or (a)(5) of this section is set forth in Appendix D to this part.

(Authority: 20 U.S.C. 1078, 1078–1, 1078–2, 1078–3, 1082)

§ 682.407 Administrative cost allowance for guaranty agencies.

(a)(1) The Secretary pays an administrative cost allowance to a guaranty agency having a basic program agreement.

(2) The administrative cost allowance paid to a guaranty agency for any fiscal year equals 1 percent of the total principal amount of loans, other than Consolidation loans, guaranteed by the agency during that fiscal year.

(b)(1) To receive an administrative cost allowance payment, the guaranty agency shall submit an application to the Secretary by January 1 of the fiscal year for which it is requesting the allowance.

(2) In addition to other information and assurances that the Secretary may reasonably require, the application must contain—

(i) Information showing the agency's ability to collect loans and provide preclaim assistance to its lenders, including descriptions of staff size and activities in these areas;

(ii) An estimate of the costs to be incurred in that fiscal year that will be eligible for payments under this section;

(iii) Assurances that the agency will use sufficient administrative and fiscal procedures, including an independent audit conducted in accordance with § 682.410(b)(1), to ensure that administrative cost allowances are used in accordance with the provisions of this section;

(iv) A report of the most recent audit conducted in accordance with § 682.410(b)(1) and submitted in a format and containing information required by the Secretary;

(v) Assurances that the guaranty agency will furnish any further information, including estimates, that the Secretary may reasonably require to carry out the provisions of this section;

(vi) An estimate of the total amount of new FFEL program loans, other than Consolidation loans, expected to be guaranteed during the fiscal year; and

(vii) Assurances that the agency's program meets and will continue to meet all the requirements contained in § 682.401(b).

(3) The application for an administrative cost allowance by a guaranty agency and the Secretary's payment of that allowance establishes an agreement between the Secretary and the guaranty agency with respect to the assurances contained in the application.

(c)(1) A guaranty agency may use the administrative cost allowance to meet only administrative costs related to the FFEL programs.

(2) A guaranty agency may not use the administrative cost allowance to meet costs—

(i) For which the agency has been or will be reimbursed from the 30 percent retention of collections permitted under § 682.404(g)(2)(ii); or

(ii) For which the agency has been or will be reimbursed from a source other than the payment made under this section.

(d) The Secretary pays an administrative cost allowance on a loan only to the guaranty agency that

originally guaranteed the loan, even if the guaranty agency transfers its guarantee obligation on the loan to another guaranty agency.

(Authority: 20 U.S.C. 1078, 1078–1, 1078–2, 1078–3, 1082)

§ 682.408 Loan disbursement through an escrow agent.

(a) *General.* (1) A guaranty agency or an eligible lender may act as an escrow agent for the purpose of receiving Stafford, SLS, and PLUS loan proceeds disbursed by an eligible lender other than a school, State lender, or a State agency or instrumentality, and transmitting those proceeds to the borrower's school if the lender and the escrow agent have entered into a written agreement for this purpose.

(2) The agreement must provide that—

(i) The lender may make payments into an escrow account that is administered by the escrow agent in accordance with the requirements of paragraph (c) of this section and § 682.207(b)(1)(iv);

(ii) The lender shall promptly notify the borrower's school when funds are escrowed for the borrower; and

(iii) The escrow agent is authorized to—

(A) Transmit the proceeds according to the note evidencing the loan;

(B) Commingle the proceeds of the loans paid to it pursuant to an escrow agreement;

(C) Invest the loan proceeds only in obligations of the Federal Government or obligations that are insured or guaranteed by the Federal Government; and

(D) Retain for its own use interest or other earnings on those investments.

(b) *Disbursement by the lender.* Subject to § 682.207(b)(1)(iii), the lender may disburse the loan proceeds to the escrow agent using any method agreed to by the escrow agent and the lender.

(c) *Transmittal of FFEL loan proceeds by the escrow agent.* (1) The escrow agent shall transmit Stafford and SLS loan proceeds received from a lender under this section to a school in accordance with the requirements of § 682.207(b)(1) (ii) and (iv) not later than 21 days after the agent receives the funds from the lender.

(2) The escrow agent shall transmit PLUS loan proceeds received from a lender under this section to a borrower in accordance with the requirements of § 682.207(b)(1) (ii) and (iv) not later than 21 days after the agent receives the funds from the lender.

(d) *Return of untransmitted proceeds.* The escrow agent shall return any untransmitted proceeds of a loan to the lender within 15 working days after receiving information indicating that the student has not enrolled, or has ceased to be enrolled on at least a half-time basis, for the period of enrollment for which the loan was intended.

(Authority: 20 U.S.C. 1078, 1082)

§ 682.409 Mandatory assignment by guaranty agencies of defaulted loans to the Secretary.

(a) If the Secretary determines that action is necessary to protect the Federal fiscal interest, the Secretary may direct a guaranty agency to assign to the Secretary any loan held by the agency on which the agency seeks, or has received, payment under § 682.402(d), § 682.402(i), or § 682.404. In making this determination, the Secretary considers all relevant information available to the Secretary, including any information and documentation submitted by the agency. The Secretary may identify particular loans to be assigned or may require assignment of particular categories of loans that share characteristics that the Secretary determines make those loans appropriate for assignment.

(b)(1) A guaranty agency that assigns a defaulted loan to the Secretary under this section thereby releases all rights and title to that loan. The Secretary does not pay the guaranty agency any compensation for a loan assigned under this section.

(2) The guaranty agency does not share in any amounts received by the Secretary on a loan assigned under this section, regardless of the reinsurance percentage paid on the loan or the agency's previous collection costs.

(c)(1) A guaranty agency shall assign a loan to the Secretary under this section at the time, in the manner, and with the information and documentation that the Secretary requires. The agency shall submit this information and documentation in the form (e.g., computer tape) and in the format specified by the Secretary.

(2) The guaranty agency shall execute an assignment to the United States of America of all right, title, and interest in the promissory note or judgment evidencing a loan assigned under this section.

(3) If the agency does not provide the required information and documentation in the form and format required by the Secretary, the Secretary may, at his option—

(i) Allow the agency to revise the agency's submission to include the required information and documentation in the specified form and format;

(ii) In the case of an improperly formatted computer tape, reformat the tape and assess the cost of the activity against the agency;

(iii) Reorganize the material submitted and assess the cost of that activity against the agency; or

(iv) Obtain from other agency records and add to the agency's submission any information from the original submission, and assess the cost of that activity against the agency.

(4) For each loan assigned, the agency shall submit to the Secretary the following documents associated for each loan, assembled in the order listed below:

(i) The promissory note.

(ii) Any documentation of a judgment entered on the loan.

(iii) A written assignment of the loan or judgment, unless this assignment is affixed to the promissory note.

(iv) The loan application.

(v) A payment history for the loan, as described in § 682.414(a)(1)(ii)(C).

(vi) A collection history for the loan, as described in § 682.414(a)(1)(ii)(D).

(5) The agency may submit certified copies of required documents in lieu of originals if no originals exist.

(d)(1) If the Secretary determines that the agency has not submitted a document or record required by paragraph (c) of this section, and the Secretary decides to allow the agency an additional opportunity to submit the omitted document under paragraph (c)(3)(i) of this section, the Secretary notifies the agency and provides a reasonable period of time for the agency to submit the omitted record or document.

(2) If the omitted document is not submitted within the time specified by the Secretary, the Secretary determines whether that omission impairs the Secretary's ability to collect the loan.

(3) If the Secretary determines that the ability to collect the loan has been impaired under paragraph (d)(2) of this section, the Secretary assesses the agency the amount paid to the agency under the reinsurance agreement and accrued interest at the rate applicable to the borrower under § 682.410(b)(3).

(4) The Secretary reassigns to the agency that portion of the loan determined to be unenforceable by the Department.

(Authority: 20 U.S.C. 1078, 1078–1, 1078–2, 1078–3, 1082)

§ 682.410 Fiscal, administrative, and enforcement requirements.

(a) *Fiscal requirements*—(1) *Reserve fund assets.* The guaranty agency shall establish and maintain a reserve fund to be used solely for the FFEL program to

which the guaranty agency shall credit—

(i) Federal advances obtained and matching funds required under section 422(a) of the Act;

(ii) Funds appropriated by a State for the agency's loan guarantee program;

(iii) Federal advances obtained under section 422(c) of the Act;

(iv) Funds received by the guaranty agency as loan insurance premiums;

(v) Administrative cost allowances received by the guaranty agency under § 682.407;

(vi) Funds received by the guaranty agency for the agency's loan guarantee program from gift, grant, or other sources;

(vii) Funds collected on FFEL loans;

(viii) Death, disability, bankruptcy, and reinsurance payments received from the Secretary; and

(ix) Investment earnings on the reserve fund.

(2) *Uses of reserve fund assets.* Except as provided in paragraphs (a)(3)–(a)(5) of this section, a guaranty agency may use the assets of the reserve fund established under paragraph (a)(1) of this section only to—

(i) Pay default claims;

(ii) Pay death, disability, and bankruptcy claims;

(iii) Refund overpayments of insurance premiums;

(iv) Pay to the Secretary the Secretary's equitable share of borrower payments;

(v) Repay advances and other funds owed to the Secretary; and

(vi) Make payments to lenders that participate in the loan referral service under section 428(e) of the Act.

(3) *Special rule for use of certain reserve fund assets.* (i) Except as provided in paragraph (a)(4) of this section, a guaranty agency also may use funds received as insurance premiums, administrative cost allowances, amounts collected on FFEL loans, interest or investment earnings, and receipts described in paragraph (a)(1)(vi) of this section only for payments necessary to perform functions directly related to the guaranty agency's agreement with the Secretary and for the proper administration of the guaranty agency's FFEL loan guarantee activities.

(ii) The guaranty agency shall use funds received as Federal advances under section 422(c) of the Act, and interest or other earnings on those advances, only to pay default claims.

(iii) The guaranty agency shall account separately for the funds described in paragraph (a)(3)(i) of this section.

(4) The guaranty agency may invest the assets of the reserve fund described in paragraph (a)(1) of this section only in low-risk securities, such as obligations issued or guaranteed by the United States or a State and shall exercise the level of care in that investment required of a fiduciary charged with the duty of investing the money of others.

(5) If the guaranty agency uses any funds required to be credited to the reserve fund under paragraph (a)(1) of this section to develop or purchase an asset of any kind—

(i) If the agency subsequently sells or otherwise derives revenue from uses of the asset that are unrelated to FFEL program guarantee activities, the agency promptly shall deposit into the reserve fund described in paragraph (a)(1) of this section a percentage of the sale proceeds or revenue equal to the percentage of the original development cost or purchase price of the asset paid with the reserve fund monies; and

(ii) If the agency subsequently converts the asset, in whole or in part, to a use unrelated to its FFEL loan guarantee activities, the agency promptly shall deposit into the reserve fund described in paragraph (a)(1) of this section a percentage of the fair market value or, in the case of a temporary conversion, the rental value of the portion of the asset employed for the unrelated use, equal to the percentage of the original development cost or purchase price paid with the reserve fund monies.

(b) *Administrative requirements*—(1) *Independent audits.* The guaranty agency shall arrange for an independent financial and compliance audit of the agency's FFEL program as follows:

(i) With regard to a guaranty agency that is an agency of a State government, an audit must be conducted in accordance with 31 U.S.C. 7502 and 34 CFR part 80, appendix G.

(ii) With regard to a guaranty agency that is a nonprofit organization, an audit must be conducted in accordance with OMB Circular A–133, Audits of Institutions of Higher Education and Other Nonprofit Organizations and 34 CFR 74.61(h)(3). If a nonprofit guaranty agency meets the criteria in Circular A–133 to have a program specific audit, and chooses that option, the program specific audit must meet the following requirements:

(A) The audit must examine the agency's compliance with the Act, applicable regulations, and agreements entered into under this part.

(B) The audit must examine the agency's financial management of its FFEL program activities.

(C) The audit must be conducted in accordance with the standards for audits issued by the United States General Accounting Office's (GAO) Government Auditing Standards. Procedures for audits are contained in an audit guide developed by, and available from, the Office of the Inspector General of the Department.

(D) The audit must be conducted annually and must be submitted to the Secretary within six months of the end of the audit period. The first audit must cover the agency's activities for a period that includes July 23, 1992, unless the agency is currently submitting audits on a biennial basis, and the second year of its biennial cycle starts on or before July 23, 1992. Under these circumstances, the agency shall submit a biennial audit that includes July 23, 1992 and submit its next audit as an annual audit.

(2) *Collection charges.* Whether or not provided for in the borrower's promissory note, the guaranty agency shall charge a borrower an amount equal to reasonable costs incurred by the agency in collecting a loan on which the agency has paid a default or bankruptcy claim. These costs may include, but are not limited to, all attorney's fees, collection agency charges, and court costs. The amount charged a borrower shall equal the lesser of—

(i) The amount that would be charged for the costs of collection under the formula in 34 CFR 30.60; or

(ii) The amount the same borrower would be charged for the cost of collection if the loan was held by the U.S. Department of Education.

(3) *Interest charged by guaranty agencies.* The guaranty agency shall charge the borrower interest on the amount owed by the borrower after the capitalization required under paragraph (b)(4) of this section has occurred at a rate that is the greater of—

(i) The rate established by the terms of the borrower's original promissory note;

(ii) In the case of a loan for which a judgment has been obtained, the rate provided for by State law.

(4) *Capitalization of unpaid interest.* The guaranty agency shall capitalize any unpaid interest due the lender from the borrower at the time the agency pays a default claim to the lender.

(5) *Credit bureau reports.* (i) After the completion of the procedures in paragraph (b)(5)(ii) of this section, the guaranty agency shall, after it has paid a default claim, report promptly, but not less than sixty days after completion of the procedures in paragraph (b)(6)(iii) of this section, and on a regular basis, to all national credit bureaus—

(A) The total amount of loans made to the borrower and the remaining balance of those loans;

(B) The date of default;
(C) Information concerning collection of the loan, including the repayment status of the loan;
(D) Any changes or corrections in the information reported by the agency that result from information received after the initial report; and
(E) The date the loan is fully repaid by or on behalf of the borrower or discharged by reason of the borrower's death, bankruptcy, or total and permanent disability.

(ii) The guaranty agency, promptly after it pays a default claim on a loan but before it reports the default to a credit bureau or assesses collection costs against a borrower, shall provide the borrower with—
(A) Written notice that meets the requirements of paragraph (b)(5)(vi) of this section regarding the proposed actions;
(B) An opportunity to inspect and copy agency records pertaining to the loan obligation;
(C) An opportunity for an administrative review of the legal enforceability or past-due status of the loan obligation; and
(D) An opportunity to enter into a repayment agreement on terms satisfactory to the agency.

(iii) The procedures set forth in 34 CFR 30.20–30.33 (administrative offset) satisfy the requirements of paragraph (b)(5)(ii) of this section.

(iv)(A) In response to a request submitted by a borrower, after the deadlines established under agency rules, for access to records, an administrative review, or for an opportunity to enter into a repayment agreement, the agency shall provide the requested relief but may continue reporting the debt to credit bureaus until it determines that the borrower has demonstrated that the loan obligation is not legally enforceable or that alternative repayment arrangements satisfactory to the agency have been made with the borrower.

(B) The deadline established by the agency for requesting administrative review under paragraph (b)(5)(ii)(C) of this section must allow the borrower at least 60 days from the date the notice described in paragraph (b)(5)(ii)(A) of this section is sent to request that review.

(v) An agency may not permit an employee, official, or agent to conduct the administrative review required under this paragraph if that individual is—
(A) Employed in an organizational component of the agency or its agent that is charged with collection of loan obligations; or
(B) Compensated on the basis of collections on loan obligations.

(vi) The notice sent by the agency under paragraph (b)(5)(ii)(A) of this section must—
(A) Advise the borrower that the agency has paid a default claim filed by the lender and has taken assignment of the loan;
(B) Identify the lender that made the loan and the school for attendance at which the loan was made;
(C) State the outstanding principal, accrued interest, and any other charges then owing on the loan;
(D) Demand that the borrower immediately begin repayment of the loan;
(E) Explain the rate of interest that will accrue on the loan, that all costs incurred to collect the loan will be charged to the borrower, the authority for assessing these costs, and the manner in which the agency will calculate the amount of these costs;
(F) Notify the borrower that the agency will report the default to all national credit bureaus to the detriment of the borrower's credit rating;
(G) Explain the opportunities available to the borrower under agency rules to request access to the agency's records on the loan, to request an administrative review of the legal enforceability or past-due status of the loan, and to reach an agreement on repayment terms satisfactory to the agency to prevent the agency from reporting the loan as defaulted to credit bureaus and provide deadlines and method for requesting this relief;
(H) Unless the agency uses a separate notice to advise the borrower regarding other proposed enforcement actions, describe specifically any other enforcement action, such as offset against State income tax refund or wage garnishment that the agency intends to use to collect the debt, and explain the procedures available to the borrower prior to those other enforcement actions for access to records, for an administrative review, or for agreement to alternative repayment terms;
(I) Describe the grounds on which the borrower may object that the loan obligation as stated in the notice is not a legally enforceable debt owed by the borrower;
(J) Describe any appeal rights available to the borrower from an adverse decision on administrative review of the loan obligation;
(K) Describe any right to judicial review of an adverse decision by the agency regarding the legal enforceability or past-due status of the loan obligation; and
(L) Describe the collection actions that the agency may take in the future if those presently proposed do not result in repayment of the loan obligation, including the filing of a lawsuit against the borrower by the agency and assignment of the loan to the Secretary for collection by offset against Federal income tax refunds or the filing of a lawsuit against the borrower by the Federal Government.

(6) *Collection efforts on defaulted loans.* (i) The guaranty agency shall engage in at least the collection activities described in paragraphs (b)(6)(iii)–(xii) of this section on a loan on which it pays a default claim filed by a lender, except that the agency may engage in the collection activities described in paragraph (b)(7) of this section in lieu of the activities described in paragraphs (b)(6)(iii)–(vi) of this section.

(ii)(A) The periods of time set forth in paragraphs (b)(6)(iii)–(xii) and (b)(7) of this section refer to the number of days that elapse from the date the agency pays a default claim on a loan or on multiple loans for a borrower, or, in the case of a borrower whom the agency locates through the use of skip-tracing under paragraph (b)(6)(xii)(A) of this section, the number of days that elapse from the date the agency obtains the borrower's correct address. These periods of time do not include any periods during which the agency is engaged in activities related to administrative wage garnishment, or is receiving a payment through garnishment at least once every 60 days, or during which the agency is engaged in an administrative review of the borrower's indebtedness on the loan pursuant to a request by the borrower under paragraph (b)(5)(iv) of this section. References to the "borrower" in this paragraph and paragraph (b)(7) of this section include all endorsers on a loan.

(B) The agency may institute a civil suit against the borrower earlier than the first day of the period described in paragraph (b)(6)(vii) of this section. Upon instituting suit, the agency is not required thereafter to follow the procedures in paragraphs (b)(6)(iii) or (b)(7) of this section.

(C) Upon receipt of a payment from a borrower during a period described in paragraphs (b)(6)(iii) or (iv) of this section, the agency is not required to follow the specific collection efforts described in paragraphs (b)(6)(iii)–(vii) of this section but shall diligently attempt to collect the loan for 60-day following receipt of the payment. If the agency receives no payments during the 60-day period, the agency shall resume

its use of the collection efforts described in paragraphs (b)(6)(iv)–(ix) of this section, treating the first day after the end of the 60-day period as the first day of the period described in paragraph (b)(6)(iv) of this section.

(iii) 1–45 days: During this period, the agency shall—

(A) Send to the borrower the written notice described in paragraph (b)(5)(ii) of this section; and

(B) Diligently attempt to contact the borrower by telephone, as defined in § 682.411(1) (with references to "the lender" understood to mean "the agency"), to demand payment of the loan.

(iv) 46–180 days: During this period the agency shall—

(A) Engage in at least two diligent attempts to contact the borrower by telephone, as defined in § 682.411(1) (with references to "the lender" understood to mean "the agency") to demand repayment of the loan; and

(B) Send at least three written notices to the borrower forcefully demanding that the borrower immediately begin repayment of the loan and informing the borrower that the default has been reported to all national credit bureaus (if that is the case) and that the borrower's credit rating may thereby have been damaged. The final notice also must indicate that it is the final notice the borrower will receive before the agency will take more forceful action, including the possibility of instituting a civil suit, to compel repayment of the loan.

(v) At no point during the periods described in paragraphs (b)(6) (iii) and (iv) of this section may the agency permit the occurrence of a gap in collection activity of more than 60 days.

(vi) For purposes of paragraph (b)(6)(v) of this section, the term *gap in collection activity* means, with respect to a loan, any period—

(A) Beginning on the date that is the day after—

(*1*) The date the agency paid a default claim to the lender thereon;

(*2*) The day on which the agency receives the correct address for a borrower who has made no payment in the preceding 60 days; or

(*3*) The day on which the agency completes a collection activity as defined in § 682.411(k) (1) through (3) (with references to "the lender" therein understood to mean "the agency"); and

(B) Ending on the date of the earliest of—

(*1*) The day on which the agency receives the first subsequent payment;

(*2*) The day on which the agency begins the first subsequent collection activity as defined in § 682.411(k) (1) through (3) (with references to the "lender" understood to mean "the agency"); or

(*3*) The last day of the period described in paragraph (b)(6)(iv) of this section.

(vii) 181–545 days:

(A) Except as provided in paragraphs (b)(6)(vii) (B), (C), and (D) of this section during this period, but not sooner than 30 days after sending the notice described in paragraph (b)(5)(vi) of this section, the agency shall institute a civil suit against the borrower for repayment of the loan.

(B) Except as provided in paragraph (b)(6)(vii)(C) of this section, in the case of a loan that was assigned to the Secretary prior to the 545th day and returned to the agency less than 180 days prior to the 545th day, the agency has 180 days from the date it receives the returned loan to institute the civil suit.

(C) Except as provided in paragraph (b)(6)(vii)(D) of this section, in the case of a loan not assigned to the Secretary, during this period, but not sooner than 30 days after sending the final notice described in paragraph (b)(6) (iv) of this section, the agency shall institute a civil suit against the borrower by the 225th day unless that loan is subsequently assigned to the Secretary by the deadline for the next available opportunity to collect by Internal Revenue Service (IRS) tax refund offset, or a payment is received from the borrower fewer than 120 days before the deadline for the next available opportunity to collect by IRS tax refund offset.

(D) The agency need not file suit if the agency determines and documents in the borrower's file that—

(*1*) The cost of litigation would exceed the likely recovery if litigation was begun; or

(*2*) The borrower does not have the means to satisfy a judgment on the debt or a substantial portion there of.

(viii)(A) If as a result of a determination made pursuant to paragraph (B)(6)(vii)(D)(*2*) of this section the agency does not institute a civil suit against the borrower for repayment of the loan, the agency shall conduct diligent semi-annual inquiries to determine if the borrower has since acquired the means to satisfy a judgment on the debt or a substantial portion thereof.

(B) If the agency determines that the borrower has acquired the means to satisfy at least a substantial portion of the debt and that the cost of litigation would not exceed the amount likely to be obtained if litigation were begun, then, if subsequent collection efforts are not successful, the agency, no later than 60 days after the determination, shall institute a civil suit against the borrower for repayment of the loan.

(C) The guaranty agency shall document in the borrower's file determinations made pursuant to this paragraph.

(ix)(A) The agency shall attempt diligently to enforce a judgment obtained against a borrower on a loan and shall ensure that the judgment is renewed as permitted by applicable law. If, despite diligent attempts, the agency cannot recover the full amount of the judgment because the borrower lacks sufficient assets or income attachable under applicable law to fully satisfy the judgment, the agency shall conduct diligent semi-annual inquiries to determine if the borrower has since acquired sufficient attachable assets or income to satisfy the remainder of the judgment.

(B) If the agency determines that the borrower has acquired sufficient attachable assets or income to satisfy the remainder of the judgment and that the cost of enforcing the judgment would not exceed the likely recovery, the agency, not later than 60 days thereafter, shall notify the borrower in writing of its intention to resume enforcement efforts on the judgment unless the borrower makes payment in full of all outstanding amounts.

(C) If the borrower does not make payment in full within 30 days of the date the agency sends the notice described in paragraph (b)(6)(ix)(B) of this section, the agency, within 30 days thereafter, shall proceed to enforce the remainder of the judgment.

(x) The agency may discontinue conducting the semi-annual inquiries concerning a borrower's means required by paragraphs (b)(6) (viii) and (ix) of this section only in accordance with criteria and procedures approved by the Secretary.

(xi) Notwithstanding paragraphs (b)(6)(vii)–(x) of this section, the agency shall file a civil suit against the borrower for repayment of the loan, and shall enforce a judgment obtained thereon unless the agency—

(A) Determines and documents in the borrower's file that the cost of litigation would exceed the judgment amount likely to be obtained if litigation were begun, or, in the case of a proceeding to enforce a judgment, that the cost of such a proceeding would exceed the likely recovery from the debtor; or

(B) Previously has discontinued semi-annual inquiries on the debt in accordance with paragraph (b)(6)(x) of this section.

(xii) Not later than 10 days after its receipt of information indicating that it

does not know the current address of a borrower on a loan on which the agency has neither declined to sue under paragraph (b)(6)(vii)(D) of this section nor discontinued semi-annual inquiries under paragraph (b)(6)(x) of this section, or the 60th day after its payment of a default claim on the loan, whichever is later, the agency shall attempt diligently to locate the borrower through the use of all available skip-tracing techniques, including, but not limited to, any skip-tracing assistance available from the IRS, credit bureaus, and State motor vehicle departments.

(7) *Alternative collection procedures for defaulted loans.* (i) A guaranty agency may engage in the following collection activities in lieu of the activities described in paragraphs (b)(6)(iii)–(vi) of this section. The regulations in paragraphs (b)(6)(ii) (A) and (B) of this section apply to the periods of time set forth in paragraphs (b)(7)(iii)–(v) of this section.

(ii) Upon receipt of a payment from a borrower, the agency is not required to follow the specific collection efforts described in paragraphs (b)(7)(iii)–(vi) of this section but shall diligently attempt to collect the loan for 60 days following receipt of the payment. If the agency receives no payments during the 60-day period, the agency shall resume its use of the collection efforts described in paragraphs (b)(7)(iii)–(vi) of this section, treating the first day after the end of the 60-day period as the first day of the period described in paragraph (b)(7)(iv) of this section.

(iii) 1–30 days: During this period the agency shall send to the borrower the written notice described in paragraph (b)(5)(ii) of this section.

(iv)(A) 31–180 days: During this period the guaranty agency shall attempt diligently to collect the loan using such collection tools and activities as it deems appropriate, provided, however, that the agency must make at least one diligent effort to contact the borrower by telephone, as defined in § 682.411(l) (with references to "the lender" understood to mean "the agency"), and send at least two forceful collection letters to the borrower.

(B) By the end of this period or the 30th day after the Secretary's return of the loan to the agency upon completion of the first Federal tax refund offset process available for that loan, whichever is later, the agency shall refer the loan to a collection contractor in accordance with paragraph (b)(7)(iv)(C) of this section.

(C) The collection contractor to whom the agency refers a loan under paragraph (b)(7)(iv)(B) of this section must—

(*1*) Be compensated for its services on all FFEL loans referred by the agency solely on a contingency fee basis;

(*2*) Be one of at least two collection contractors simultaneously providing collection services to the agency on FFEL loans under a competitive system that the agency has established and that includes the periodic assessment by the agency of the performance of the competing contractors and periodic adjustments in the volume of loans referred by the agency to each competing contractor based on those assessments; and

(*3*) Not receive referral of more than 70 percent of the agency's referred loans in any calendar year.

(v) Notwithstanding the deadline for instituting a civil suit set forth in paragraph (b)(6)(vii) of this section, an agency that uses the procedures in paragraphs (b)(7)(i)–(iv) of this section shall institute a civil suit required by that paragraph prior to the earliest of—

(A) The 90th day following the collection contractor's return of the loan to the agency; or

(B) The 365th day following the later of the agency's referral of the loan to the collection contractor, or the contractor's receipt of a payment on the loan.

(8) *Special conditions for agency payment of a claim.* (i) A guaranty agency may adopt a policy under which it pays a claim to a lender on a loan under the conditions described in § 682.509(a)(1).

(ii) Upon the payment of a claim under a policy described in paragraph (b)(8)(i) of this section, the guaranty agency shall—

(A) Perform the loan servicing functions required of a lender under § 682.208, except that the agency is not required to follow the credit bureau reporting requirements of that section;

(B) Perform the functions of the lender during the repayment period of the loan, as required under § 682.209;

(C) If the borrower is delinquent in repaying the loan at the time the agency pays a claim thereon to the lender or becomes delinquent while the agency holds the loan, exercise due diligence in accordance with § 682.411 in attempting to collect the loan from the borrower and any endorser or co-maker; and

(D) After the date of default on the loan, if any, comply with paragraph (b)(6)(i) of this section with respect to collection activities on the loan, with the date of default treated as the claim payment date for purposes of those paragraphs.

(9) *Preemption of State law.* The provisions of paragraphs (b) (2), (5), (6), and (7) of this section preempt any State law, including State statutes, regulations, or rules, that would conflict with or hinder satisfaction of the requirements of these provisions.

(c) *Enforcement requirements.* A guaranty agency shall take such measures and establish such controls as are necessary to ensure its vigorous enforcement of all Federal, State, and guaranty agency requirements, including agreements, applicable to its loan guarantee program, including, at a minimum, the following:

(1) Conducting comprehensive biennial on-site program reviews, using statistically valid techniques to calculate liabilities to the Secretary that each review indicates may exist, of at least—

(i)(A) Each participating lender whose dollar volume of FFEL loans made or held by the lender and guaranteed by the agency in the preceding year—

(*1*) Equaled or exceeded two percent of the total of all loans guaranteed in that year by the agency;

(*2*) Was one of the ten largest lenders whose loans were guaranteed in that year by the agency; or

(*3*) Equaled or exceeded $10 million in the most recent fiscal year;

(B) Each lender described in section 435(d)(1)(D) or (J) of the Act that is located in any State in which the agency is the principal guarantor as defined in § 682.800(d), and, at the option of each guaranty agency, the Student Loan Marketing Association; and

(C) Each participating school, located in a State for which the guaranty agency is the principal guaranty agency, that has a cohort default rate, as defined in 34 CFR 668.15, for either of the two immediately preceding fiscal years, as defined in § 668.15, that exceeds 20 percent, unless the school is under a mandate from the Secretary under § 668.15 to take specific default reduction measures or if the total dollar amount of loans entering repayment in each fiscal year on which the default rate over 20 percent is based does not exceed $100,000; or

(ii) The schools and lenders selected by the agency as an alternative to the reviews required by paragraphs (c)(1)(A)–(C) of this section if the Secretary approves the agency's proposed alternative selection methodology.

(2) Demanding prompt repayment by the responsible parties to lenders, borrowers, the agency, or the Secretary, as appropriate, of all funds found in those reviews to be owed by the participants with regard to loans guaranteed by the agency, whether or not the agency holds the loans, and monitoring the implementation by participants of corrective actions,

including these repayments, required by the agency as a result of those reviews.

(3) Referring to the Secretary for further enforcement action any case in which repayment of funds to the Secretary is not made in full within 60 days of the date of the agency's written demand to the school, lender, or other party for payment, together with all supporting documentation, any correspondence, and any other documentation submitted by that party regarding the repayment.

(4) Adopting procedures for identifying fraudulent loan applications.

(5) Undertaking or arranging with State or local law enforcement agencies for the prompt and thorough investigation of all allegations and indications of criminal or other programmatic misconduct by its program participants, including violations of Federal law or regulations.

(6) Promptly referring to appropriate State and local regulatory agencies and to nationally recognized accrediting agencies and associations for investigation information received by the guaranty agency that may affect the retention or renewal of the license or accreditation of a program participant.

(7) Promptly reporting all of the allegations and indications of misconduct having a substantial basis in fact, and the scope, progress, and results of the agency's investigations thereof to the Secretary.

(8) Referring appropriate cases to State or local authorities for criminal prosecution or civil litigation.

(9) Promptly notifying the Secretary of—

(i) Any action it takes affecting the FFEL program eligibility of a participating lender or school;

(ii) Information it receives regarding an action affecting the FFEL program eligibility of a participating lender or school taken by a nationally recognized accrediting agency, association, or a State licensing agency;

(iii) Any judicial or administrative proceeding relating to the enforceability of FFEL loans guaranteed by the agency or in which tuition obligations of a school's students are directly at issue, other than a proceeding relating to a single borrower or student; and

(iv) Any petition for relief in bankruptcy, application for receivership, or corporate dissolution proceeding brought by or against a school or lender participating in its loan guarantee program.

(10) Cooperating with all program reviews, investigations, and audits conducted by the Secretary relating to the agency's loan guarantee program.

(11) Taking prompt action to protect the rights of borrowers and the Federal fiscal interest respecting loans that the agency has guaranteed when the agency learns that a participating school or holder of loans is experiencing problems that threaten the solvency of the school or holder, including—

(i) Conducting on-site program reviews;

(ii) Providing training and technical assistance, if appropriate;

(iii) Filing a proof of claim with a bankruptcy court for recovery of any funds due the agency and any refunds due to borrowers on FFEL loans that it has guaranteed when the agency learns that a school has filed a bankruptcy petition;

(iv) Promptly notifying the Secretary that the agency has determined that a school or holder of loans is experiencing potential solvency problems; and

(v) Promptly notifying the Secretary of the results of any actions taken by the agency to protect Federal funds involving such a school or holder.

(Authority: 20 U.S.C. 1078, 1078–1, 1078–2, 1078–3, 1080a, 1082, 1091a; 1099)

§ 682.411 Due diligence by lenders in the collection of guaranty agency loans.

(a) *General.* In the event of delinquency on a FFEL programs loan, the lender shall engage in at least the collection efforts described in paragraphs (c)–(1) of this section, except that in the case of a loan made to a borrower who is incarcerated or to a borrower residing outside a State, Mexico, or Canada, the lender may send a forceful collection letter in lieu of each telephone effort required by this section.

(b) *Delinquency.* For purposes of this section, delinquency on a loan begins on the first day after the due date of the first missed payment which is not later made. The due date of the first payment is established by the lender but must occur no later than 45 days following the end of the grace period, or, if the lender first learns after the fact that the borrower has entered the repayment period, no later than 75 days after the day the lender so learns. If a payment is made late, the first day of delinquency is the day after the due date of the next missed payment which is not later made. A payment that is within five dollars of the amount normally required to advance the due date may nevertheless advance the due date if the lender's procedures allow for that advancement.

(c) *1–10 days delinquent:* Except in the case where a loan is brought into this period by a payment on the loan, expiration of an authorized deferment or forbearance period, or the lender's receipt from the drawee of a dishonored check submitted as a payment on the loan. the lender during this period shall send at least one written notice or collection letter to the borrower informing the borrower of the delinquency and urging the borrower to make payments sufficient to eliminate the delinquency.

(d) *11–180 days delinquent (11–240 days delinquent for a loan repayable in installments less frequent than monthly):* (1) Unless exempted under paragraph (d)(4) of this section, during this period the lender shall engage in at least four diligent efforts to contact the borrower by telephone and send at least four collection letters urging the borrower to make the required payments on the loan. At least one of the diligent efforts to contact the borrower by telephone must occur before and another one must occur after the 90th day of delinquency.

(2) At least two of the collection letters required under paragraph (d)(1) of this section must warn the borrower that if the loan is not paid, the lender will assign the loan to the guaranty agency that, in turn, will report the default to all national credit bureaus, and that the agency may bring suit against the borrower to compel repayment of the loan

(3) Following the lender's receipt of a payment on the loan or a correct address for the borrower, the lender's receipt from the drawee of a dishonored check received as a payment on the loan, the lender's receipt of a correct telephone number for the borrower, or the expiration of an authorized deferment or forbearance period, the lender is required to engage in only—

(i) Two diligent efforts to contact the borrower by telephone during this period, if the loan is less than 91 days delinquent (121 days delinquent for a loan repayable in installments less frequent than monthly) upon receipt of the payment, correct address, or returned check, or expiration of the deferment or forbearance; or

(ii) One diligent effort to contact the borrower by telephone if the loan is 91–120 days delinquent (121–180 days delinquent for a loan repayable in installments less frequent than monthly) upon receipt of the payment, correct address, or returned check, or expiration of the deferment of forbearance.

(4) A lender need not attempt to contact by telephone any borrower—

(i) Who is incarcerated;

(ii) Who is residing outside of a State, Mexico or Canada;

(iii) Whose telephone number is unknown;

(iv) Who is more than 120 days delinquent (180 days delinquent for a loan repayable in installments less frequent than monthly) following the lender's receipt of—

(A) A payment on the loan;

(B) A correct address for the borrower;

(C) A dishonored check received from the drawee as a payment on the loan; or

(D) The expiration of an authorized deferment or forbearance.

(5) At no point during this period may the lender permit the occurrence of a gap in collection activity, as defined in paragraph (i) of this section, of more than 45 days (60 days in the case of a transfer).

(e) *Final demand.* On or after the 151st day of delinquency, (the 211th day for loans payable in less frequent installments than monthly) the lender shall send a final demand letter to the borrower requiring repayment of the loan in full and notifying the borrower that a default will be reported to a national credit bureau. The lender shall allow the borrower at least 30 days after the date the letter is mailed to respond to the final demand letter and to bring the loan out of default before filing a default claim on the loan.

(f) *Collection procedures when borrower's telephone number is not available.* Upon completion of a diligent but unsuccessful effort to ascertain the correct telephone number of a borrower as required by paragraph (f)(1) of this section, the lender is excused from any further efforts to contact the borrower by telephone during the delinquency period in which the unsuccessful effort was made, unless the borrower's number is obtained before the 120th day of delinquency (the 150th day for loans payable repayable in installments less frequent than monthly).

(g) *Skip-tracing.* (1) Unless the letter specified under paragraph (e) of this section has already been sent, within 10 days of its receipt of information indicating that it does not know the borrower's current address, the lender shall begin to diligently attempt to locate the borrower through the use of normal commercial skip-tracing techniques. These efforts must include, but are not limited to, making a diligent effort to contact each endorser, relative, reference, and individual and entity identified in the borrower's loan file. For this purpose, a lender's contact with a school official who might reasonably be expected to know the borrower's address may be with someone other than the financial aid administrator identified on the loan application. These efforts must be completed by the date of default with no gap of more than 45 days between attempts to contact those individuals or entities.

(2) Upon receipt of information indicating that it does not know the borrower's current address, the lender shall discontinue the collection efforts described in paragraphs (c)–(e) of this section.

(3) If the lender is unable to ascertain the borrower's current address despite its performance of the activities described in paragraph (g)(1) of this section, the lender is excused thereafter from performance of the collection activities described in paragraphs (c)–(e) and (k) of this section unless it receives communication indicating the borrower's address before the 151st day of delinquency (the 211th day for loans payable in less frequent installments than monthly).

(4) The activities specified by paragraphs (l)(1)(A) or (B) of this section (with references to "the borrower" understood to mean endorser, reference, relative, individual or entity as appropriate) meet the requirement that the lender make a diligent effort to contact each individual identified in the borrower's loan file.

(h) *Preclaims assistance.* The lender shall request preclaims assistance from the agency that guaranteed the loan within 10 days before or after the date established by the agency that assistance is first available from the agency.

(i) *Gap in collection activity.* For purposes of this section, the term "gap in collection activity" means, with respect to a loan, any period—

(1) Beginning on the date that is the day after—

(i) The due date of a payment unless the lender does not know the borrower's address on that date;

(ii) The day on which the lender receives a payment on a loan that remains delinquent notwithstanding the payment;

(iii) The day on which the lender receives the correct address for a delinquent borrower;

(iv) The day on which the lender completes a collection activity;

(v) The day on which the lender receives a dishonored check submitted as a payment on the loan;

(vi) The expiration of an authorized deferment or forbearance period on a delinquent loan; or

(vii) The day the lender receives information indicating it does not know the borrower's current address; and

(2) Ending on the date of the earliest of—

(i) The day on which the lender receives the first subsequent payment or completed deferment request or forbearance agreement;

(ii) The day on which the lender begins the first subsequent collection activity; or

(iii) Default.

(j) *Transfer.* For purposes of this section, the term "transfer" with respect to a loan means any action, including, but not limited to, the sale of the loan, that results in a change in the system used to monitor or conduct collection activity on a loan from one system to another.

(k) *Collection activity.* For purposes of this section, the term "collection activity" with respect to a loan means—

(1) Mailing or otherwise transmitting to the borrower at an address that the lender reasonably believes to be the borrower's current address a collection letter or final demand letter that satisfies the timing and content requirements of paragraphs (c), (d), or (e) of this section;

(2) Making an attempt to contact the borrower by telephone to urge the borrower to begin or resume repayment;

(3) Conducting skip-tracing efforts, in accordance with paragraph (g) of this section, to locate a borrower whose correct address is unknown to the lender;

(4) Mailing or otherwise transmitting to the guaranty agency a request for preclaims assistance available from the agency on the loan at the time the request is transmitted; or

(5) Any telephone discussion or personal contact with the borrower so long as the borrower is apprised of the account's past-due status.

(l) *"Diligent effort" for telephone contact.* (1) For purposes of this section, the term "diligent effort" with respect to telephone contact means—

(i) A successful effort to contact the borrower by telephone;

(ii) At least two unsuccessful attempts to contact the borrower by telephone at a number that the lender reasonably believes to be the borrower's correct telephone number; or

(iii) An unsuccessful effort to ascertain the correct telephone number of a borrower, including, but not limited to, a directory assistance inquiry as to the borrower's telephone number, and a diligent effort to contact each reference, relative, and individual identified in the most recent loan application for that borrower held by the lender. The lender may contact a school official other than the financial aid administrator who reasonably may be expected to know the borrower's address.

(2) If the lender is unable to ascertain the borrower's correct telephone number despite its performance of the activities described in paragraph (l)(1)(iii) of this section, the lender is excused thereafter from attempting to

contact the borrower by telephone unless it receives a communication indicating the borrower's current address before the 120th day of delinquency (the 150th day for loans repayable in installments less frequent than monthly).

(3) The activities specified by paragraphs (l)(1)(i) or (ii) of this section (with references to "the borrower" understood to mean endorser, reference, relative or individual as appropriate), meet the requirement that the lender make a diligent effort to contact each endorser or each reference, relative or individual identified on the borrower's most recent loan application.

(m) *Due diligence for endorsers.* (1) During the delinquency period the lender shall—

(i) Make a diligent effort to contact the endorser by telephone; and

(ii) Send the endorser on the loan two letters advising the endorser of the delinquent status of the loan and urging the endorser to make the required payments on the loan with at least one letter containing the information described in paragraph (d)(2) of this section (with references to "the borrower" understood to mean the endorser).

(2) On or after the 151st day of delinquency, (the 211th day for loans payable in less frequent installments than monthly) the lender shall send a final demand letter to the endorser requiring repayment of the loan in full and notifying the endorser that a default will be reported to a national credit bureau. The lender shall allow the endorser at least 30 days after the date the letter is mailed to respond to the final demand letter and to bring the loan current before filing a default claim on the loan.

(3) Unless the letter specified under paragraph (m)(2) of this section has already been sent, upon receipt of information indicating that it does not know the endorser's current address or telephone number, the lender must diligently attempt to locate the endorser through the use of normal commercial skip-tracing techniques. This effort must include an inquiry to directory assistance.

(n) *Preemption of State law.* The provisions of this section preempt any State law, including State statutes, regulations, or rules, that would conflict with or hinder satisfaction of the requirements or frustrate the purposes of this section.

(Authority: 20 U.S.C. 1078, 1078–1, 1078–2, 1078–3, 1080a, 1082, 1087–1)

§ 682.412 Consequences of the failure of a borrower or student to establish eligibility.

(a) The lender shall immediately send to the borrower a final demand letter meeting the requirements of § 682.411(e) when it learns and can substantiate that the borrower or the student on whose behalf a parent has borrowed, without the lender or school's knowledge at the time the loan was made, provided false or erroneous information or took actions that caused the student or borrower—

(1) To be ineligible for all or a portion of a loan made under this part;

(2) To receive a Stafford loan subject to payment of Federal interest benefits as provided under § 682.301 for which he or she was ineligible; or

(3) To receive loan proceeds for a period of enrollment from which he or she has withdrawn or been expelled prior to the first day of classes or during which he or she failed to attend school and has not paid those funds to the school or repaid them to the lender.

(b) The lender shall neither bill the Secretary for nor be entitled to interest benefits on a loan after it learns that one of the conditions described in paragraph (a) of this section exists with respect to the loan.

(c) In the final demand letter transmitted under paragraph (a) of this section, the lender shall demand that within 30 days the borrower repay in full the principal amount of the ineligible portion of the loan, accrued interest thereon, and all special allowance paid by the Secretary thereon up through the most recently ended quarter.

(d) If the borrower repays the amounts described in paragraph (c) of this section within the 30-day period, the lender shall—

(1) On its next quarterly interest billing submitted under § 682.305, refund to the Secretary the interest benefits and special allowance repaid by the borrower and all other interest benefits and special allowance previously paid by the Secretary on the ineligible portion of the loan; and

(2) Treat that payment of the principal amount of the ineligible portion of the loan as a prepayment of principal.

(e) If a borrower fails to comply with the terms of a final demand letter described in paragraph (a) of this section, the lender shall treat the entire loan as in default, and—

(1) With its next quarterly interest billing submitted under § 682.305, refund to the Secretary the amount of the interest benefits received from the Secretary on the ineligible portion of the loan, whether or not repaid by the borrower; and

(2) Within the time specified in § 682.406(a)(5), file a default claim thereon with the guaranty agency for the entire unpaid balance of principal and accrued interest.

(Authority: 20 U.S.C. 1077, 1078, 1078–1, 1078–2, 1078–3, 1082, 1087–1)

§ 682.413 Remedial actions.

(a) The Secretary requires a lender to repay interest benefits and special allowance received on a loan guaranteed by a guaranty agency—

(1) For any period beginning on the date of a failure by the lender, with respect to the loan, to comply with any of the requirements set forth in §§ 682.406(a)(1)–(a)(6), (a)(9), and (a)(12);

(2) For any period beginning on the date of the lender's failure, with respect to the loan, to meet a condition of guarantee coverage established by the guaranty agency, to the date, if any, on which the guaranty agency reinstated the guarantee coverage pursuant to policies and procedures established by the agency;

(3) For any period in which the lender, with respect to the loan, violates the requirements of Subpart C of this part; and

(4) For any period beginning on the day after the Secretary's obligation to pay special allowance on the loan terminates under § 682.302(d).

(b) The Secretary requires a guaranty agency to repay reinsurance payments received on a loan if the lender or the agency failed to meet the requirements of § 682.406(a).

(c) In addition to requiring repayment of reinsurance payments pursuant to paragraph (b) of this section, the Secretary may take one or more of the following remedial actions against a guaranty agency that makes an incomplete or incorrect statement in connection with any agreement entered into under this part or violates any applicable Federal requirement:

(1) Require the agency to return payments made to the agency.

(2) Withhold payments to the agency.

(3) Limit the terms and conditions of the agency's continued participation in the FFEL programs.

(4) Suspend or terminate agreements with the agency.

(5) Impose a fine on the agency.

(6) Require repayment from the agency of interest, special allowance, and reinsurance paid on Consolidation loan amounts attributed to Consolidation loans that violate § 682.206(f)(1).

(7) Require repayment from the agency of any related payments that the Secretary became obligated to make to

others as a result of the incomplete or incorrect statement or violation of applicable Federal requirement.

(d)(1) The Secretary follows the procedures described in 34 CFR part 668, subpart G, applicable to fine proceedings against schools, in imposing a fine against a lender or guaranty agency. References to "the institution" in those regulations shall be understood to mean the lender or guaranty agency, as applicable, for this purpose.

(2) The Secretary also follows the provisions of section 432(g) of the Act in imposing a fine against a guaranty agency or a lender.

(e)(1) The Secretary's decision to require repayment of funds, withhold funds, or to limit, suspend, or terminate a lender or agency from participation in the FFEL programs does not become final until the Secretary provides the lender or agency with written notice of the intended action and an opportunity to be heard thereon, at a time and in a manner the Secretary determines to be appropriate to the resolution of the issues on which the lender or guaranty agency requests an opportunity to be heard.

(2)(i) The Secretary may withhold payments from an agency or suspend an agreement with an agency prior to giving notice and an opportunity to be heard if the Secretary finds that emergency action is necessary to prevent substantial harm to Federal interests.

(ii) The Secretary follows the notice and show cause procedures described in § 682.704 applicable to emergency actions against lenders in taking an emergency action against a guaranty agency.

(3) The Secretary follows the procedures in 34 CFR 30.20–30.32 in collecting a debt by offset against payments otherwise due a guaranty agency or lender.

(f) Notwithstanding paragraphs (a)–(e) of this section, the Secretary may waive the right to require repayment of funds by a lender or agency if in the Secretary's judgment the best interests of the United States so require. The Secretary's waiver policy for violations of § 682.406(a)(3) or (a)(5) is set forth in appendix D to this part.

(g) The Secretary's final decision to require repayment of funds or to take other remedial action, other than a fine, against a lender or guaranty agency under this section is conclusive and binding on the lender or agency.

Note: A decision by the Secretary under this section is subject to judicial review under 5 U.S.C. 706 and 41 U.S.C. 321–322.

(Authority: 20 U.S.C. 1078, 1078–1, 1078–2, 1078–3, 1082, 1087–1, 1097)

§ 682.414 Records, reports, and inspection requirements for guaranty agency programs.

(a) *Records.* (1)(i) The guaranty agency shall maintain current, complete, and accurate records of each loan that it holds, including, but not limited to, the records described in paragraph (a)(1)(ii) of this section. The records must be maintained in a system that allows ready identification of each loan's current status, updated at least once every 10 business days.

(ii) The agency shall maintain—

(A) All documentation supporting the claim filed by the lender;

(B) Notices of changes in a borrower's address;

(C) A payment history showing the date and amount of each payment received from or on behalf of the borrower by the guaranty agency, and the amount of each payment that was attributed to principal, accrued interest, and collection costs and other charges, such as late charges;

(D) A collection history showing the date and subject of each communication between the agency and the borrower or endorser relating to collection of a defaulted loan, each communication between the agency and a credit bureau regarding the loan, each effort to locate a borrower whose address was unknown at any time, and each request by the lender for preclaims and supplemental preclaims assistance on the loan;

(E) Documentation regarding any wage garnishment actions initiated by the agency on the loan;

(F) Documentation of any matters relating to the collection of the loan by tax-refund offset; and

(G) Any additional records that are necessary to document its right to receive or retain payments made by the Secretary under this part and the accuracy of reports it submits to the Secretary.

(2) The guaranty agency shall retain records for each loan for at least five years after the loan is paid in full or has been determined to be uncollectible in accordance with the agency's write-off procedures. For the purposes of this section, the term "paid in full" includes loans paid by the Secretary due to the borrower's death or permanent and total disability, or discharge of the loan in bankruptcy.

(3)(i) The guaranty agency shall require a participating lender to maintain current, complete, and accurate records of each loan that it holds, including, but not limited to, the records described in paragraph (a)(3)(ii) of this section. The records must be maintained in a system that allows ready identification of each loan's current status.

(ii) The lender shall keep—

(A) A copy of the loan application;

(B) A copy of the signed promissory note, including the repayment instrument;

(C) The repayment schedule;

(D) A record of each disbursement of loan proceeds;

(E) Notices of changes in a borrower's address and status as at least a half-time student;

(F) Evidence of the borrower's eligibility for a deferment;

(G) The documents required for the exercise of forbearance;

(H) Documentation of the assignment of the loan;

(I) A payment history showing the date and amount of each payment received from or on behalf of the borrower, and the amount of each payment that was attributed to principal, interest, late charges, and other costs;

(J) A collection history showing the date and subject of each communication between the lender and the borrower or endorser relating to collection of a delinquent loan, each communication other than regular reports by the lender showing that an account is current, between the lender and a credit bureau regarding the loan, each effort to locate a borrower whose address is unknown at any time, and each request by the lender for preclaims assistance on the loan; and

(K) Any additional records that are necessary to document the validity of a claim against the guarantee or the accuracy of reports submitted under this part.

(iii) A lender shall retain the records required for each loan for not less than five years following the date the loan is repaid in full by the borrower or the lender is reimbursed on a claim. However, in particular cases the Secretary or the guaranty agency may require the retention of records beyond this minimum period.

(4) (i) A guaranty agency or lender may store the records specified in paragraphs (a)(3)(ii)(C)–(K) of this section on microfilm, optical disk, or other machine readable format.

(ii) A lender or guaranty agency holding a promissory note shall retain the original note until the loan is paid in full or assigned to the Secretary. When a loan is paid in full by the borrower, the lender or guaranty agency shall either return the original note to the borrower or notify the borrower under an alternate procedure that is

acceptable under State law that the loan is paid in full, and retain a copy for the prescribed period.

(iii) Either the lender or guaranty agency shall retain the original loan application and, until the loan is fully repaid, the promissory note.

(b) *Reports.* A guaranty agency shall accurately complete and submit to the Secretary the following reports:

(1) A report concerning the status of the agency's reserve fund and the operation of the agency's loan guarantee program at the time and in the manner that the Secretary may reasonably require. The Secretary does not pay the agency any funds, the amount of which are determined by reference to data in the report, until a complete and accurate report is received.

(2) Annually, for each State in which it operates, a report of the total guaranteed loan volume, default volume, and default rate for each of the following categories of originating lenders on all loans guaranteed after December 31, 1980:

(i) Schools.

(ii) State or private nonprofit lenders.

(iii) Commercial financial institutions (banks, savings and loan associations, and credit unions).

(iv) All other types of lenders.

(3) By July 1 of each year, a report on—

(i) Its eligibility criteria for schools and lenders;

(ii) Its procedures for the limitation, suspension, and termination of schools and lenders;

(iii) Any actions taken in the preceding 12 months to limit, suspend, or terminate the participation of a school or lender in the agency's program; and

(iv) The steps the agency has taken to ensure its compliance with § 682.410(c), including the identity of any law enforcement agency with which the agency has made arrangements for that purpose.

(4) Information consisting of those extracts from its computer data base, and supplied in the medium and the format, prescribed in the Stafford, SLS, and PLUS Loan Tape Dump Procedures (ED Forms 1070 and 1071).

(5) Any other information concerning its loan insurance program requested by the Secretary.

(c) *Inspection requirements.* Upon request, a guarantee agency or its agent shall cooperate with an independent auditor, the Secretary, the Department's Office of the Inspector General, and the Comptroller General of the United States, or their authorized representatives, in the conduct of audits, investigations, and program reviews authorized by law. This cooperation must include—

(1) Providing timely access, for examination and copying, to the records (including computerized records) required by the applicable regulations and to any other pertinent books, documents, papers, computer programs and records; and

(2) Providing reasonable access to the agency's personnel associated with the agency's administration of its loan insurance program for the purpose of obtaining relevant information. In providing reasonable access, the agency shall not—

(i) Refuse to supply any relevant information;

(ii) Refuse to permit interviews with those personnel without the presence of agency representatives; and

(iii) Refuse to permit interviews with those personnel unless they are recorded by the agency.

(3) A guaranty agency shall require in its agreement with a lender or in its published rules or procedures that the lender or its agent give the Secretary or the Secretary's designee and the guaranty agency access to the lender's records for inspection and copying in order to verify the accuracy of the information provided by the lender pursuant to § 682.401(b) (19) and (20), and the right of the lender to receive or retain payments made under this part, or to permit the Secretary or the agency to enforce any right acquired by the Secretary or the agency under this part.

(Authority: 20 U.S.C. 1078, 1078–1, 1078–2, 1078–3, 1082, 1087–1)

Subpart E—Federal Guaranteed Student Loan Programs

§ 682.500 Circumstances under which loans may be guaranteed by the Secretary.

(a) The Secretary may guarantee all—

(1) FISL, Federal SLS, and Federal PLUS loans made by lenders located in a State in which no State or private nonprofit guaranty agency has in effect an agreement with the Secretary under § 682.401 to serve as guarantor in that State;

(2) Federal Consolidation loans made by the Student Loan Marketing Association and Federal Consolidation loans made by any other lender that has applied for and been denied guarantee coverage on Consolidation loans by the guaranty agency that guarantees the largest dollar volume of FFEL loans made by the lender; and

(3) FISL, Federal SLS, Federal PLUS, and Federal Consolidation loans made by lenders located in a State in which a guaranty agency program is operating but is not reasonably accessible to students who meet the agency's residency requirements.

(b) The Secretary may guarantee FISL, Federal SLS, Federal PLUS and Federal Consolidation loans made by a lender located in a State where a guaranty agency operates a program that is reasonably accessible to students who meet the residency requirements of that program only for—

(1) A student who does not meet the agency's residency requirements;

(2) A lender who is not able to obtain a guarantee from the guaranty agency for at least 80 percent of the loans the lender intends to make over a 12-month period because of the agency's residency requirements;

(3) With the approval of the guaranty agency, a student who has previously received from the same lender a FISL loan that has not been repaid; or

(4) All students at a school located in the State if the Secretary finds that—

(i) No single guaranty agency program is reasonably accessible to students at that school as compared to students at other schools during a comparable period of time; and

(ii) Guaranteeing loans made in the State to students attending that school would significantly increase the access of students at that school to FFEL Program loans. The Secretary may guarantee loans made to those students by a lender in that State if—

(A) The guaranty agency does not recognize the school as being eligible, but the school is eligible under the FISL program; or

(B) A majority of the persons enrolled at the school meet the conditions of student eligibility for FISL loans but are not recognized as eligible under the guaranty agency program.

(c) For purposes of paragraph (b) of this section, a lender is considered to be located in the same State as a school if the lender—

(1) Has an origination relationship with the school;

(2) Has a majority of its voting stock held by the school; or

(3) Has common ownership or management with the school and more than 50 percent of the loans made by that lender are made to students at that school.

(d) As a condition for guaranteeing loans under the Federal FFEL programs, the Secretary may require the lender to submit evidence of circumstances that would justify loan guarantees under the provisions of this section.

(e) With regard to a school lender that has entered into an agreement with the Secretary under § 682.600, the Secretary denies loan guarantees on the basis of this section only if the Secretary first

determines that all eligible students at that school who make a conscientious effort to obtain a loan from another lender will find a loan to be reasonably available. For purposes of this paragraph, the determination of loan availability is based on studies and surveys that the Secretary considers satisfactory.

(Authority: 20 U.S.C. 1071, 1073, 1078–1, 1078–2, 1078–3, 1082)

§ 682.501 Extent of Federal guarantee under the Federal GSL programs.

(a) *General.* Except as provided in paragraph (b) of this section, the Secretary's guarantee liability on any Federal GSL loan is 100 percent of the unpaid principal balance and, to the extent permitted under § 682.512, accrued interest.

(b) *Special provisions for State lenders.* (1) Except as described in paragraph (b)(2) of this section, the Secretary's guarantee liability is less than 100 percent under the following conditions:

(i) If the total of default claims under the Federal GSL programs paid by the Secretary to a State lender during any fiscal year reaches five percent of the amount of the Federal GSL loans in repayment at the end of the preceding fiscal year, the Secretary's guarantee liability on a claim subsequently paid during that fiscal year is 90 percent of the amount of the unpaid principal balance plus accrued interest.

(ii) If the total of default claims under the Federal GSL programs paid by the Secretary to a State lender during any fiscal year reaches nine percent of the amount of the Federal GSL loans in repayment at the end of the preceding fiscal year, the Secretary's guarantee liability on a claim subsequently paid during that fiscal year is 80 percent of the amount of the unpaid principal balance plus accrued interest.

(iii) For purposes of this paragraph, the total default claims paid by the Secretary during any fiscal year do not include paid claims filed by the lender under the provisions of § 682.412(e) or § 682.509.

(2) The potential reduction in guarantee liability does not apply to a State lender during the first Federal fiscal year of its operation as a Federal GSL Program lender and during each of the four succeeding fiscal years.

(3) For the purposes of this section, the term "amount of the Federal GSL loans in repayment" means the original principal amount of all loans guaranteed by the Secretary less—

(i) The original principal amount of loans on which—

(A) Under the FISL program, the borrower has not yet reached the repayment period;

(B) Payment in full has been made by the borrower;

(C) The borrower was in deferment status at the time repayment of principal was scheduled to begin and remains in deferment status; or

(D) The Secretary has paid a claim filed under section 437 of the Act; and

(ii) The amount paid by the Secretary for default claims on loans, exclusive of paid claims filed by the lender under § 682.412(e) or § 682.509.

(4) For the purposes of this paragraph, payments by the Secretary on a loan that the original lender assigned to a subsequent holder are considered payments made to the original lender.

(5) State lenders shall consolidate Federal GSL loans for the purpose of calculating the amount of the Secretary's guarantee liability under this section.

(Authority: 20 U.S.C. 1077, 1078–1, 1078–2, 1078–3, 1082)

§ 682.502 The application to be a lender.

(a) To be considered for participation in the Federal GSL programs, a lender shall submit an application to the Secretary.

(b) In determining whether to enter into a guarantee agreement with an applicant, and, if so, what the terms of the agreement will be, the Secretary considers—

(1) Whether the applicant meets the definition of an "eligible lender" in section 435(d) of the Act and the definition of "lender" in § 682.200;

(2) Whether the applicant is capable of complying with the regulations in this part as they apply to lenders;

(3) Whether the applicant is capable of implementing adequate procedures for making, servicing, and collecting loans;

(4) Whether the applicant has had prior experience with a similar Federal, State, or private nonprofit student loan program, and the amount and percentage of loans that are currently delinquent or in default under that program;

(5) The financial resources of the applicant; and

(6) In the case of a school that is seeking approval as a lender, its accreditation status.

(c) The Secretary may require an applicant to submit sufficient materials with its application so that the Secretary may fairly evaluate it in accordance with the criteria in this section.

(d)(1) If the Secretary decides not to approve the application for a guarantee agreement, the Secretary's response includes the reason for the decision.

(2) The Secretary provides the lender an opportunity for the lender to meet with a designated Department official if the lender wishes to appeal the Secretary's decision.

(3) However, the Secretary need not explain the reasons for the denial or grant the lender an opportunity to appeal if the lender submits its application within six months of a previous denial.

(Authority: 30 U.S.C. 1078–1, 1078–2, 1078–3, 1079, 1082)

§ 682.503 The guarantee agreement.

(a)(1) To participate in the Federal GSL programs, a lender must have a guarantee agreement with the Secretary. The Secretary does not guarantee a loan unless it is covered by such an agreement.

(2) In general, under a guarantee agreement the lender agrees to comply with all laws, regulations, and other requirements applicable to its participation as a lender in the Federal GSL programs. In return, the Secretary agrees to guarantee each eligible Federal GSL loan held by the lender against the borrower's default, death, total and permanent disability, or bankruptcy.

(3) The Secretary may include in an agreement a limit on the duration of the agreement and the number or amount of Federal GSL loans the lender may make or hold.

(b)(1) Except as otherwise approved by the Secretary, a guarantee agreement with a school lender limits the Federal GSL loans made by that school lender that will be covered by the Federal guarantee to those loans made to students, or to parents borrowing on behalf of students, who are—

(i) In attendance at that school;

(ii) In attendance at other schools under the same ownership as that school; or

(iii) Employees or dependents of employees, or whose parents are employees, of that school lender or other schools under the same ownership, under circumstances the Secretary considers appropriate for loan guarantees.

(2) The Secretary may on a school-by-school basis impose limits under paragraph (b)(1)(iii) of this section on a school lender that makes loans to students or to parents of students in attendance at other schools under the same ownership, or to employees, or to dependents or parents of employees, of those other schools.

(Authority: 20 U.S.C. 1078–1, 1078–2, 1078–3, 1079, 1082)

§ 682.504 Issuance of Federal loan guarantees.

(a) A lender having a guarantee agreement shall submit an application to the Secretary for a Federal loan guarantee on each intended loan that the lender determines to be eligible for a guarantee. The application must be on a form prescribed by the Secretary. The Secretary notifies the lender whether the loan will be guaranteed and of the amount of the guarantee. No disbursement on a loan made prior to the Secretary's approval of that loan is covered by the guarantee.

(b) The Secretary issues a guarantee on a Federal GSL loan in reliance on the implied representations of the lender that all requirements for the initial eligibility of the loan for guarantee coverage have been met. As described in § 682.513, the continuance of the guarantee is conditioned upon compliance by all holders of the loan with the regulations in this part.

(Authority: 20 U.S.C., 1078–1, 1078–2, 1078–3, 1079, 1082)

§ 682.505 Insurance premium.

(a) *General.* The Secretary charges the lender an insurance premium for each Federal GSL Program loan that is guaranteed, except that no insurance premium is charged on a Federal Consolidation loan, or on a Federal SLS or Federal PLUS loan made under § 682.209(f).

(b) *Rate.* The rate of the insurance premium is one-fourth of one percent per year of the loan principal, excluding interest or other charges that may have been added to the principal.

FISL loans—insurance premium calculation. (1) The insurance premium for FISL loans is calculated by—

(i) Counting the number of months beginning with the month following the month in which each disbursement on the loan is to be made and ending 12 months after the borrower's anticipated graduation from the school for attendance at which the loan is sought;

(ii) Dividing one-fourth of one percent of the principal amount of the loan by 12; and

(iii) Multiplying the result obtained in paragraph (c)(1)(i) of this section by that obtained in paragraph (c)(1)(ii) of this section.

(2) If the lender disburses the loan in multiple installments, the insurance premium is calculated for each disbursement from the month following the month that the disbursement is made.

(d) *PLUS and SLS Loans—insurance premium calculation.* The insurance premium for a Federal PLUS or SLS loan is calculated by—

(1) Using the projected repayment period as a base;

(2) Amortizing the loan in equal monthly installments over the repayment period;

(3) Determining one-fourth of one percent of each monthly declining principal balance; and

(4) Computing the total of monthly amounts calculated under paragraph (d)(3) of this section.

(e) *Collection from lenders.* (1) The Secretary may bill the lender for the insurance premium or may require the lender to pay the insurance premium to the Secretary at the time of disbursement of the loan. At the Secretary's discretion, the Secretary may alternatively collect the insurance premium by offsetting it against amounts payable by the Secretary to the lender.

(2) The Secretary's guarantee on a loan ceases to be effective if the lender fails to pay the insurance premium within 60 days of the date payment is due. However, the Secretary may excuse late payment of an insurance premium and reinstate the guarantee coverage on a loan if the Secretary is satisfied that at the time the premium is paid—

(i) The loan is not in default and the borrower is not delinquent in making installment payments; or

(ii) The loan is in default, or the borrower is delinquent, under circumstances where the borrower has entered the repayment period without the lender's knowledge.

Collection from borrowers. The lender may pass along the cost of the insurance premium to the borrower. If it does so, the insurance premium must be deducted from each disbursement of the loan in an amount proportionate to that disbursement's contribution to the premium amount.

(g) *Refund provisions.* The insurance premium is not refundable by the Secretary and need not be refunded by the lender to the borrower, even if the borrower prepays, defaults, dies, becomes totally and permanently disabled, or files a petition in bankruptcy.

(Authority: 20 U.S.C. 1077, 1078–1, 1078–2, 1078–3, 1079, 1082)

§ 682.506 Limitations on maximum loan amounts.

(a) The Secretary does not guarantee a FISL, Federal SLS, or Federal PLUS loan in an amount that would—

(1) Result in an annual loan amount in excess of the student's estimated cost of attendance for the period of enrollment for which the loan is intended less—

(i) The student's estimated financial assistance; and

(ii) The student's expected family contribution for that period, in the case of a FISL loan; or

(2) Result in an annual or aggregate loan amount in excess of the permissible annual and aggregate loan limits described in § 682.204.

(b) The Secretary does not guarantee a Federal Consolidation loan in an amount greater than that required to discharge loans eligible for consolidation under § 682.100(a)(4).

(Authority: 20 U.S.C. 1075, 1077, 1078–1, 1078–2, 1079, 1082, 1089)

§ 682.507 Due diligence in collecting a loan.

(a) *General.* (1) Except as provided in paragraph (a)(4) of this section, a lender shall exercise due diligence in the collection of a loan with respect to both a borrower and an authorized endorser. In order to exercise due diligence, a lender shall implement the procedures described in this section if a borrower fails to make an installment payment when due.

(2) If two borrowers are liable for repayment of a Federal PLUS loan as co-makers, the lender shall follow these procedures with respect to both borrowers.

(3) For purposes of this section, the borrower's delinquency begins on the day after the due date of an installment payment not paid when due, except that if the borrower entered the repayment period without the lender's knowledge, the delinquency begins 30 days after the day the lender receives notice that the borrower has entered the repayment period.

(4) In lieu of the procedures described in this section, a lender may use the due diligence procedures in § 682.411 in collecting a Federal GSL loan.

(b) *Initial delinquency.* If a borrower is delinquent in making a payment, the lender shall remind the borrower within 10 working days of the date the payment was due by means of a letter, notice, telephone call, or personal contact. If payments do not begin or resume, the lender shall attempt to contact the borrower—

(1) At last six more times at regular intervals during the remainder of the six-month period that started on the date of delinquency for loans repayable in monthly installments; or

(2) At least eight more times during the remainder of the eight-month period that started on the date of delinquency for loans repayable in installments less frequent than monthly.

(c) *Skip-tracing assistance.* (1) If a lender does not know the borrower's

current address, the lender promptly shall attempt to locate the borrower through normal commercial collection activities, including contacting all individuals and entities named in the borrower's loan application. If these efforts are unsuccessful, the lender promptly shall attempt to learn the borrower's current address through use of the Department's skip-tracing assistance.

(2) If the lender does not know the borrower's address when a borrower is first delinquent in making a payment, but subsequently obtains the borrower's address prior to the date on which the loan goes into default, the lender shall attempt to contact the borrower in accordance with paragraph (b) of this section, with the first contact occurring within 15 days of the date the lender obtained knowledge of the borrower's address, and shall attempt to contact the borrower at least once during each succeeding 30-day period until default.

(d) *Preclaims assistance.* When the borrower is 60 days delinquent in making a payment, the lender shall request preclaims assistance from the Department of Education. This preclaims assistance consists of sending a series of letters to the borrower, urging the borrower to contact the lender and begin or resume payments.

(e) *Final demand letter.* A lender shall send a final demand letter to the borrower at least 30 days before the lender files a default claim. The lender shall allow the borrower at least 30 days to respond to the final demand letter. However, a lender need not send a final demand letter to a borrower whose address is unknown to the lender.

(f) *Litigation.* (1) If a loan is in default and the lender determines that the borrower or an endorser has the ability to repay the loan, the lender may bring suit against the borrower or the endorser to recover the amount of the unpaid principal and interest, together with reasonable attorneys' fees, late charges, and court costs.

(2) Prior to bringing suit the lender shall—

(i) Obtain the Secretary's approval; and

(ii) Notify the borrower or endorser in writing that it has received the Secretary's approval to bring suit on the loan, and that unless the borrower or endorser makes payments sufficient to bring the account out of default the lender will seek a judgment under which the borrower or endorser will be liable for payment of late charges, attorneys' fees, collection agency charges, court costs, and other reasonable collection costs in addition to the unpaid principal and interest on the loan. The lender shall mail the notice to the borrower or endorser by certified mail, return receipt requested.

(3) The lender may bring suit if the borrower or endorser does not make payments sufficient to bring the account out of default within 10 days following the date of delivery of the notice described in paragraph (f)(2)(ii) of this section to the borrower or endorser indicated on the receipt.

(4) A lender may first apply the proceeds of any judgment against its attorneys' fees, court costs, collection agency charges, and other reasonable collection costs, whether or not the judgment provides for these fees and costs.

(Authority: 20 U.S.C. 1078–1, 1078–2, 1078–3, 1079, 1080, 1081, 1082, 1085)

§ 682.508 Assignment of a loan.

(a) *General.* A Federal GSL loan may not be assigned except to another eligible lender. For the purpose of this paragraph, "assigned" means any kind of transfer of an interest in the loan, including a pledge of such an interest as security.

(b)(1) *Procedure.* If the assignment of a FISL Program loan is to result in a change in the identity of the party to whom the borrower must send subsequent payments, the assignor and the assignee of the loan shall, no later than 45 days from the date the assignee acquires a legally enforceable right to receive payment from the borrower on the assigned loan, provide separate notices to the borrower of—

(i) The assignment;

(ii) The identity of the assignee;

(iii) The name and address of the party to whom subsequent payments must be sent; and

(iv) The telephone numbers of both the assignor and the assignee.

(2) The assignor and assignee shall provide the notice required by paragraph (b)(1) of this section separately. Each notice must indicate that a corresponding notice will be sent by the other party to the assignment.

(c) *The Secretary's approval.* The approval of the Secretary is required prior to the assignment of a note to an eligible lender that has not entered into a contract of insurance with the Secretary under § 682.503.

(d) *Warranty.* (1) Nothing in this section precludes the buyer of a loan from obtaining a warranty from the seller covering certain future reductions by the Secretary in computing the amount of guaranteed loss, if any, on a claim filed on the loan.

(2) The warranty may cover only reductions that are attributable to an act or failure to act of the seller or other previous holder.

(3) The warranty may not cover matters the buyer is responsible for under the regulations in this part.

(Authority: 20 U.S.C. 1078–1, 1078–2, 1078–3, 1079, 1080, 1082)

§ 682.509 Special conditions for filing a claim.

(a) A lender shall cease collection activity on a loan and file a claim with the Secretary within the time specified in § 682.511(e)(3), if—

(1) In the case of a loan that was not made or originated by the school, the lender learns that while the student was enrolled at the school the school terminated its teaching activities for that student during the academic period covered by the loan; or

(2) The Secretary directs that the claim be filed.

(b) A lender may not as a result of a claim filed with the Secretary under this section report a borrower's loan as in default to any credit bureau or other third party.

(Authority: 20 U.S.C. 1078–1, 1078–2, 1078–3, 1079, 1080, 1082)

§ 682.510 Determination of the borrower's death, total and permanent disability, or bankruptcy.

(a) The procedures in § 682.402(a)–(d) for determining whether a borrower has died, become totally and permanently disabled, or filed a bankruptcy petition apply to the Federal GSL programs.

(b) For purposes of this section, references to the "guaranty agency" in § 682.402(d)(5) shall be understood to refer to the Secretary.

(Authority: 20 U.S.C. 1078–1, 1078–2, 1078–3, 1082, 1087)

§ 682.511 Procedures for filing a claim.

(a) *Filing a claim application.* (1) A lender may file a claim against the Secretary's guarantee on a Federal GSL loan for any of the following reasons:

(i) The loan is in default, as defined in § 682.200.

(ii) Any of the conditions exist for filing a claim without collection efforts, as set forth in § 682.412(e)(2) or § 682.509.

(iii) The borrower has died, become totally and permanently disabled, or filed a bankruptcy petition, as determined by the lender in accordance with § 682.510.

(2) If a Federal PLUS loan was obtained by two eligible parents as co-makers, the reason for filing a claim must hold true for both parents.

(3) A lender may file a claim against the Secretary's guarantee only on a form provided by the Secretary. The lender

shall attach to the claim all documents required by the Secretary. If the lender fails to do so, the Secretary denies the claim.

(b) *Documentation required for claims.* (1) The Secretary requires a lender to submit the following documentation with all claims:

(i) The original promissory note.

(ii) The loan application.

(iii) The repayment instrument.

(iv) A payment history, as described in § 682.414(a)(3)(ii)(I).

(v) A collection history, as described in § 682.414(a)(3)(ii)(J).

(vi) A copy of the final demand letter if required by § 682.507(e).

(vii) The original or a copy of all correspondence addressed to, from, or on behalf of the borrower that is relevant to the loan, whether that correspondence involved the original lender, a subsequent holder, or a servicing agent.

(viii) If applicable, evidence of the lender's requests to the Department for skip-tracing assistance under § 682.507(c) and for preclaims assistance under § 682.507(d).

(ix) Any additional documentation that the Secretary determines is relevant to a claim.

(2) The documentation requirements for death, total and permanent disability, or bankruptcy claims in § 682.402(e)(1) apply to the Federal GSL programs. For purposes of this section, references to the "guaranty agency" in § 682.402(e)(1) mean the Secretary.

(c) *Assignment of note.* The Secretary's payment of a claim is contingent upon receipt from the lender of an assignment to the United States of America of all rights, title, and interest of the lender in the note underlying the claim.

(d) *Bankruptcy subsequent to default.* If the lender files a default claim on a loan and subsequently receives a notice of the first meeting of creditors in the proceeding of the borrower in bankruptcy, the lender shall promptly forward that notice to the Department of Education. Under these circumstances the lender shall not file a proof of claim with the bankruptcy court.

(e) *Claim filing deadlines.* To obtain payment of a claim, a lender shall comply with the following deadlines:

(1) *Default claims.* Unless the lender has already filed suit against the borrower in accordance with § 682.507(f), it shall file a default claim on a loan with the Secretary within 90 days after a default has occurred on the loan. For a claim filed by a lender pursuant to § 682.412(e)(2), as directed in § 682.208(f)(2), the lender shall file a claim within 90 days following transmission of the final demand letter sent pursuant to § 682.411(e) if the borrower failed to comply with the terms of the letter within 30 days of the transmission.

(2) *Death, total and permanent disability, or bankruptcy claims.* The claim filing deadlines in § 682.402(e)(2) apply to the Federal GSL programs. For purposes of this section, references to the "guaranty agency" in § 682.402(e)(2) mean the Secretary.

(3) *Special condition claims.* In the case of a special condition claim filed pursuant to § 682.509, the lender shall file a claim with the Secretary within 45 days of the date the lender determines that the conditions set forth in § 682.509(a)(1) exist, or the date the Secretary directs that the claim be filed pursuant to § 682.509(a)(2).

(Authority: 20 U.S.C. 1078–1, 1078–2, 1078–3, 1080, 1082, 1087)

§ 682.512 Determination of amount payable on a claim.

(a) *Default claims.* (1) *Amount payable.* The amount of loss to be paid on a default claim depends upon the date the Secretary received the application for a guarantee commitment on the loan. If the application was received—

(i) Prior to July 1, 1972, or from August 19, 1972 through February 28, 1973, the amount payable on a valid claim is equal to the unpaid balance of the original principal loan amount disbursed; or

(ii) From July 1 through August 18, 1972, or after February 28, 1973, the amount payable on a valid claim is equal to the unpaid balance of the principal and interest in accordance with paragraph (a)(2) of this section. The unpaid principal amount of the loan may include capitalized interest to the extent authorized by § 682.202(b).

(2) *Payment of interest.* If the guarantee covers unpaid interest, the payment of a valid claim covers the unpaid interest that accrues during the following periods:

(i) During the period before the claim is filed, not to exceed the period provided for in § 682.511(e) for filing the claim.

(ii) During a period not to exceed 30 days following the return of the claim to the lender by the Secretary for additional documentation necessary for the claim to be approved by the Secretary.

(iii) During the period, after the claim is filed, that is required by the Secretary to approve the claim and to authorize payment or to return the claim to the lender for additional documentation.

(3) *Recovery of outstanding debts.* The Secretary may reduce the amount of loss due to the lender on a claim by the amount the Secretary determines is owed to the Secretary by the lender.

(b) *Death, total and permanent disability, or bankruptcy claims.* (1) In the case of a death or disability claim, the amount to be paid on a valid claim—

(i) Is equal to the unpaid balance of the original principal loan amount disbursed if the loan was disbursed prior to December 15, 1968; or

(ii) Is calculated in accordance with § 682.402(f)(2) and (f)(3) if the loan was disbursed after December 14, 1968.

(2) In the case of a bankruptcy claim, the amount of loss is calculated in accordance with § 682.402(f)(2) and (f)(3).

(3) For purposes of this section, references to the "guaranty agency" in § 682.402(f)(3) mean the Secretary.

(c) *Special rules for a loan acquired by assignment.* If a claim is filed by a lender that obtained a loan by assignment, that lender is not entitled to any payment under this section greater than that to which a previous holder would have been entitled. For example, the Secretary deducts from the claim any amounts that are attributable to payments made by the borrower to a prior holder of the loan before the borrower received proper notice of the assignment of the loan.

(Authority: 20 U.S.C. 1078–1, 1078–2, 1078–3, 1080, 1082, 1087)

§ 682.513 Factors affecting coverage of a loan under the loan guarantee.

(a)(1) In determining whether to approve for payment a claim against the Secretary's guarantee, the Secretary considers matters affecting the enforceability of the loan obligation and whether the loan was made and administered in accordance with the Act and applicable regulations.

(2) The Secretary deducts from a claim any amount that is not a legally enforceable obligation of the borrower, except to the extent that the defense of infancy applies.

(3) Except as provided in § 682.509, the Secretary does not pay a claim unless—

(i) All holders of the loan have complied with the requirements of this part, including, but not limited to, those concerning due diligence in the making, servicing, and collecting of a loan;

(ii) The current holder has complied with the deadlines for filing a claim established in § 682.511(e); and

(iii) The current holder complies with the requirements for submitting

documents with a claim as established in § 682.511(b).

(b) Except as provided in § 682.509, the Secretary does not pay a death, disability, or bankruptcy claim for a loan after a default claim for that loan has been disapproved by the Secretary or if it would not be payable as a default claim by the Secretary.

(c) The Secretary's determination of the amount of loss payable on a default claim under this part, once final, is conclusive and binding on the lender that filed the claim.

Note: A determination of the Secretary under this section is subject to judicial review under 5 U.S.C. 706 and 41 U.S.C. 321–322.

(Authority: 20 U.S.C. 1078–1, 1078–2, 1078–3, 1079, 1080, 1082)

§ 682.514 Procedures for receipt or retention of payments where the lender has violated program requirements for Federal GSL loans.

(a) The Secretary may waive the right to recover or refuse to make an interest benefits, special allowance, or claim payment, or may permit a lender to cure certain defects in a specified manner if, in the Secretary's judgment, the best interests of the United States so require.

(b) To receive payment on a default claim or to resume eligibility to receive interest benefits and special allowance on a loan as to which a lender has committed a violation of the requirements of this part regarding due diligence in collection or timely filing of claims, the lender shall meet the conditions described in appendix C to this part.

(Authority: 20 U.S.C. 1078–1, 1078–2, 1078–3, 1080, 1082)

§ 682.515 Records, reports, and inspection requirements for Federal GSL program lenders.

(a) *Records.* (1) A lender shall maintain current, complete, and accurate records of each loan that it holds, including, but not limited to, the records described in § 682.414(a)(3)(ii). The records must be maintained in a system that allows ready identification of each loan's current status.

(2) A lender shall retain the records required for each loan for not less than five years following the date the loan is repaid in full by the borrower or the lender is reimbursed on a claim. However, in particular cases the Secretary may require the retention of records beyond this minimum period.

(3)(i) The lender may store the records specified in § 682.414(a)(3)(ii)(C)–(K) on microfilm, optical disk, or other machine readable format.

(ii) The holder of the promissory note shall retain the original note and repayment instrument until the loan is fully repaid. At that time the holder shall return the original note and repayment instrument to the borrower and retain copies for the prescribed period.

(iii) The lender shall retain the original or a copy of the loan application.

(b) *Reports.* A lender shall submit reports to the Secretary at the time and in the manner that the Secretary reasonably may require.

(c) *Inspections.* Upon request, a lender or its agent shall cooperate with the Secretary, the Department's Office of the Inspector General, and the Comptroller General of the United States, or their authorized representatives, in the conduct of audits, investigations, and program reviews. This cooperation must include—

(1) Providing timely access for examination and copying to the records (including computerized records) required by applicable regulations and to any other pertinent books, documents, papers, computer programs, and records; and

(2) Providing reasonable access to lender personnel associated with the lender's administration of the Title IV, HEA programs for the purpose of obtaining relevant information. In providing reasonable access, the institution may not—

(i) Refuse to supply any relevant information;

(ii) Refuse to permit interviews with those personnel that do not include the presence of representatives of the lender's management; and

(iii) Refuse to permit personnel interviews with those personnel that are not recorded by the lender.

(Authority: 20 U.S.C. 1077, 1078–1, 1078–2, 1078–3, 1079, 1080, 1082)

Subpart F—Requirements, Standards, and Payments for Participating Schools

§ 682.600 Agreement between an eligible school and the Secretary for participation in the FFEL programs.

(a) *General.* Participation of a school in the FFEL programs means that the school's students are eligible to receive FFEL loans. To participate in the FFEL programs, a school must—

(1) Demonstrate to the satisfaction of the Secretary that it meets the elements of basic eligibility as defined in 34 CFR part 600 through certification by the Secretary; and

(2) Enter into a written program participation agreement with the Secretary that is signed by the Chief Executive Officer of the school on a form approved by the Secretary.

(b) *Program participation agreement.* The school, in the program participation agreement, shall promise to comply with the applicable provisions of—

(1) The Act and the regulations in this part;

(2) The Student Assistance General Provisions, 34 CFR part 668; and

(3) The Institutional Eligibility regulations, 34 CFR part 600.

(c) *Appeal of denial or limitations.* (1) If the Secretary denies a request for an agreement or approves only limited participation in the FFEL programs by a school, the Secretary's response includes the reason for the decision. The Secretary also provides the school with an opportunity to meet with a designated Department official to appeal that decision.

(2) However, the Secretary does not grant an opportunity for appeal or give reasons for denying the participation or approving only the limited participation of a school if the school submits its request within six months of a previous denial or limited approval.

(d) *Foreign schools.* A foreign school is required to comply with the provisions of the regulations except to the extent that the Secretary states in these regulations or in other official publications or documents that those schools do not have to so comply.

(Authority: 20 U.S.C. 1077, 1078, 1078–1, 1078–2, 1078–3, 1082, 1094)

§ 682.601 Rules for a school that makes or originates loans.

(a) *General.* To make or originate loans under the FFEL programs—

(1) The school shall employ full-time at least one person whose responsibilities are limited to the administration of financial aid programs for students attending the school;

(2) The school may not be a correspondence school;

(3) The school may not make or originate loans that would be outstanding to or on behalf of more than 50 percent of the undergraduates in attendance at that school on at least a half-time basis unless the Secretary waives this rule pursuant to paragraph (c) of this section;

(4) The school shall inform any undergraduate student who has not previously obtained a loan that was made or originated by the school and who seeks to obtain such a loan that he or she must first make a good faith effort to obtain a loan from a commercial lender; and

(5)(i) The school may not make or originate a loan for an academic period to a student described in paragraph

(a)(4) of this section until the student provides the school with evidence under paragraph (b) of this section of denial of a loan by a commercial lender for the same academic period.

(ii) In determining whether a school has complied with the requirement set paragraph (a)(5)(i) of this section, the Secretary may take into consideration any patterns reflected by the letters of denial or the students' sworn statements referred to in paragraph (b) of this section that indicate that the school has not given sufficient counseling to students to seek loans from a commercial lender first. An example of an unacceptable pattern would be if all denials of loans to a school's students were made by a small number of lenders.

(b) *Establishing a loan denial by a commercial lender.* (1) To verify that a borrower has sought and been denied a loan from a commercial lender pursuant to paragraph (a)(4) of this section, the school shall obtain from the borrower—

(i) A written statement from a commercial lender indicating that the lender denied the borrower a loan for that academic period; or

(ii) The borrower's sworn statement, indicating both the refusal of a loan by a commercial lender and the lender's refusal to provide a written statement of the denial.

(2) If the borrower's statement is used to establish the denial of a loan, the statement must include—

(i) The name and address of the lender that denied the loan;

(ii) The approximate date on which the loan was denied;

(iii) The name and telephone number of the official who communicated the denial to the borrower; and

(iv) The borrower's signature.

(3) If the school determines that the denial of a loan to an eligible borrower by a commercial lender is based upon the lender's refusal to lend more than a part of the amount requested by the borrower, the school may either—

(i) Make or originate a loan to the borrower for the entire amount; or

(ii) Supplement the loan that the commercial lender is willing to make with a second loan to the borrower.

(c) *Waiver of the 50 percent lending limit.* A school may request the Secretary to waive the 50 percent lending limit described in paragraph (a)(3) of this section if adherence to that limit would create a substantial hardship for the school's present or prospective students. The Secretary determines whether to grant the school a waiver after considering, among other factors—

(1) The extent to which the school provides and expects to continue providing educational opportunities to economically disadvantaged students, as measured by the percentage of those students enrolled at the school who—

(i) Are in families that fall within the "low-income family" category used by the Bureau of the Census;

(ii) Would not be able to enroll or continue their enrollment at that school without Stafford, SLS, or PLUS loans made or originated by the school; and

(iii) Would not be able to obtain a comparable education at another school;

(2) The extent to which the school offers educational programs that—

(i) Are unique in the geographical area the school serves; and

(ii) Would not be available to some students if the school adhered to the 50 percent lending limit; and

(3) The quality of the school's—

(i) Management of student financial assistance programs; and

(ii) Conformance with sound business practices.

(Authority: 20 U.S.C. 1077, 1078, 1078–1, 1078–2, 1078–3, 1082, 1085)

§ 682.602 Correspondence school schedule requirements.

(a) A school offering a course of study by correspondence shall establish a schedule for submission of lessons by its students and provide it to a prospective student prior to the student's enrollment.

(b) The school shall include in its schedule—

(1) A due date for each lesson in the course;

(2) A description of the options, if any, available to the student for altering the sequence of lesson submissions from the sequence in which they are otherwise required to be submitted;

(3) The date by which the course is to be completed; and

(4) The date by which any resident training must begin, the location of any residential training, and the period of time within which that resident training must be completed.

(c) The school's schedule must conform to the requirements in the definition of "vocational school" in 34 CFR part 600.

(Authority: 20 U.S.C. 1077, 1078, 1078–1, 1078–2, 1078–3, 1085)

§ 682.603 Certification by a participating school in connection with a loan application.

(a) A school shall certify that the information it provides in connection with a loan application about the borrower and, in the case of a parent borrower, the student for whom the loan is intended, is complete and accurate. Except as provided in 34 CFR part 668, subpart E, a school may rely in good faith upon statements made on the application by the student.

(b) The information to be provided by the school about the borrower making application for the loan pertains to—

(1) The borrower's eligibility for a loan, as determined in accordance with § 682.201 and § 682.401(b) (1) and (2);

(2) The student's estimated cost of attendance for the period for which the loan is sought;

(3) The student's estimated financial assistance for the period for which the loan is sought;

(4) For a Stafford loan, the student's eligibility for interest benefits, based on information provided by the student upon which the school can rely and as determined in accordance with § 682.301;

(5) For a Stafford or SLS loan, the schedule for disbursement of the loan proceeds; and

(6) The student's SLS loan amount.

(c) Pursuant to 34 CFR 668.15(i), except for a student who has previously borrowed an SLS loan for a program of study at the school and who seeks an SLS loan to complete the program of study at the school, a school may not certify an SLS loan application for an undergraduate student after the school receives notice from the Secretary that its fiscal year default rate is 30 percent or more.

(d) A school may not certify a Stafford, PLUS, or SLS loan application, or combination of loan applications, for a loan amount that—

(1) The school has reason to know would result in the borrower exceeding the annual or maximum loan amounts in § 682.204; or

(2) Exceeds the student's estimated cost of attendance, less—

(i) The student's estimated financial assistance for that period; and

(ii) In the case of a Stafford loan that is eligible for interest benefits, the borrower's expected family contribution for that period.

(e) A school may refuse to certify a Stafford, SLS, or PLUS loan application or may reduce the borrower's determination of need for the loan if the reason for that action is documented and provided to the student in writing, provided—

(1) The determination is made on a case-by-case basis;

(2) The documentation supporting the determination is retained in the student's file; and

(3) The school does not engage in any pattern or practice that results in a denial of a borrower's access to FFEL

loans because of the borrower's race, sex, color, religion, national origin, age, handicapped status, income, or selection of a particular lender or guaranty agency.

(f)(1) The minimum period of enrollment for which a school may certify a loan application is—

(i) At a school that measures academic progress in credit hours and uses a semester, trimester, or quarter system, a single academic term (e.g., a semester or quarter); or

(ii) At a school that measures academic progress in clock hours, or measures academic progress in credit hours but does not use a semester, trimester, or quarter system, the lesser of—

(A) The length of the student's program at the school; or

(B) The academic year as defined by the school in accordance with 34 CFR 668.2. (See paragraphs (b) and (c) of the definition of "Academic year.")

(2) The maximum period for which a school may certify a loan application is generally an academic year, as defined by 34 CFR 668.2, except that a guaranty agency may allow schools to use a longer period of time, not to exceed 12 months, corresponding to the period to which the agency applies the annual loan limits under § 682.401(b)(2)(ii).

(g) A school may not assess the borrower a fee for the completion or certification of any FFEL loan application.

(Authority: 20 U.S.C. 1077, 1078, 1078–1, 1078–2, 1082, 1085, 1094)

§ 682.604 Processing the borrower's loan proceeds and counseling borrowers.

(a) *Purpose.* This section establishes rules governing a school's processing of a borrower's Stafford, PLUS, or SLS loan proceeds, and for counseling borrowers. The school shall also comply with any rules for processing a loan contained in 34 CFR part 668.

(b) *General.* (1) Except as provided in § 682.207(b)(1)(v)(C)(*1*), the proceeds of a Stafford, SLS or PLUS loan disbursed using electronic transfer of funds must be sent directly to the school by the lender.

(2)(i) Except in the case of a late disbursement under paragraph (e) of this section or as provided in paragraph (b)(2)(iii) or (iv) of this section, a school may release the proceeds of any disbursement of a loan only to a student whom the school determines, after the school receives those proceeds from the lender, continuously has maintained eligibility in accordance with the provisions of § 682.201, from the beginning of the loan period certified by the school on the student's loan application.

(ii) In the event a student delays attending school for a period of time, the school may consider that student to have maintained eligibility for the loan from the first day of the period of enrollment. However, the school must comply with the requirement of paragraph (d)(3) of this section.

(iii) If, after the proceeds of the first disbursement are transmitted to the student, the student becomes ineligible due solely to the school's loss of eligibility to participate in the Title IV programs, the school may transmit the proceeds of the second or subsequent disbursement to the borrower as permitted by 34 CFR part 668.

(iv) If, prior to the transmittal of the proceeds of a disbursement to the student, the student temporarily ceases to be enrolled on at least a half-time basis, the school may transmit the proceeds of that disbursement and any subsequent disbursement to the student if the school subsequently determines and documents in the student's file—

(A) That the student has resumed enrollment on at least a half-time basis;

(B) The student's revised cost of attendance; and

(C) That the student continues to qualify for the entire amount of the loan, notwithstanding any reduction in the student's cost of attendance caused by the student's temporary cessation of enrollment on at least a half-time basis.

(c) *Processing of the loan proceeds by the school.* (1) Except as provided in paragraph (c)(3) of this section, if a school receives a borrower's loan proceeds, it shall hold the funds until the student has registered for classes for the period of enrollment for which the loan is intended and then follow the procedures in paragraph (c) (2) of this section.

(2)(i) Except as provided in § 682.207(b)(1)(v)(C)(*1*), after the student has registered, if the loan proceeds are disbursed by means of a check that requires the endorsement of the student only, the school shall deliver the check to the student, subject to paragraph (d)(2) of this section, within 45 days of the school's receipt of the check.

(ii) If the loan proceeds are disbursed by means of a check that requires the endorsement of both the student and the school, the school shall—

(A) In the case of the initial disbursement on a loan, endorse the check on its own behalf, and, after the student has registered, deliver it to the student subject to paragraph (d)(2) of this section, within 45 days of the school's receipt of the check; or

(B) Obtain the student borrower's endorsement on the check, endorse the check on its own behalf and, after the student has registered, credit the student's account, in accordance with paragraph (d)(1) of this section, and deliver the remaining loan proceeds to the student, subject to paragraph (d)(2) of this section, within 45 days of receipt.

(3) If the loan proceeds are disbursed by electronic funds transfer to an account of the school on behalf of a borrower in accordance with § 682.207(b)(1)(ii)(B), the school shall, not more than 30 days prior to the first day of classes of the period of enrollment for which the loan is intended, obtain the student's or parent borrower's written authorization for the release of the initial and any subsequent disbursement of each FFEL program loan to be made, and after the student has registered either—

(i) Deliver the proceeds to the student borrower subject to paragraph (d)(2) of this section not later than 45 days after the school's receipt of the funds; or

(ii) Credit the student's account in accordance with paragraph (d)(1) of this section, notify the student or parent borrower in writing that it has so credited that account, and deliver to the student or parent borrower the remaining loan proceeds, subject to paragraph (d)(2) of this section not later than 45 days after the school's receipt of the funds.

(4) A school may not credit a student's account or release the proceeds of a loan to a student who is on a leave of absence, as described in § 682.605(c).

(5) A school may not release the first installment of a Stafford or SLS loan for endorsement to a student who is enrolled in the first year of an undergraduate program of study and who has not previously received a Stafford or SLS loan until 30 days after the first day of the student's program of study.

(d) *Applying the loan proceeds.* (1)(i) For purposes of paragraphs (c)(2)(ii)(B) and (c)(3)(ii) of this section, a school may not credit a registered student's account earlier than three weeks before the first day of classes of the period of enrollment for which the loan is intended.

(ii)(A) The school may credit a registered student's account with only those loan proceeds covering costs of attendance owed to the school by the student for which substantially all of the school's students incurring those costs have been billed.

(B) The school, as a fiduciary for the benefit of the guaranty agency, the

Secretary, and the student, may hold any additional loan proceeds that the student requests in writing that the school retain in order to assist the student in managing his or her loan funds for the remainder of the academic year. The school shall deposit these funds in a designated trust account and may not commingle them with other funds or use them for any other purpose.

(2)(i) For purposes of paragraphs (c)(2)(i), (c)(2)(ii), and (c)(3) of this section, an institution may not deliver loan proceeds to a registered student earlier than 10 days before the first day of classes of the period of enrollment for which the loan is intended.

(ii) Notwithstanding the 45-day deadlines set forth in paragraph (c)(2) of this section, in the case of a second or subsequent disbursement on a loan disbursed in more than one installment, the school may hold the loan proceeds until the beginning of the next scheduled semester, trimester, quarter, or similar division in the academic period within the period of enrollment for which the loan is intended, or in the case of a school that does not use semesters, trimesters, quarters, or similar divisions, until the beginning of the second half of the period of enrollment for which the loan was intended, whereupon the school shall transmit the loan proceeds to the student and, if applicable, the student's account within 30 days thereafter.

(3) If a student does not register for the period of enrollment for which the loan was made, or does not begin attendance on a delayed basis as provided in § 682.604(b)(2)(ii), the school shall return the proceeds to the lender no later than 30 days after the first day of that period of enrollment.

(4) If a registered student withdraws or is expelled prior to the first day of classes of the period of enrollment for which the loan is made or fails to attend school during that period, or if the school is unable for any other reason to document that the student attended school during that period, the school within 30 days of the period described in § 682.607(c) shall notify the lender of the student's withdrawal, expulsion, or failure to attend school, if applicable, and return to the lender—

(i) Any loan proceeds credited directly by the school to the student's account; and

(ii) The amount of payments made directly by the student to the school, to the extent that they do not exceed the amount of any loan proceeds delivered by the school to the student.

(e) *Processing a late disbursement.* (1) For the purpose of this paragraph, a disbursement is late if the school receives the borrower's loan proceeds either—

(i) After the end of the period of enrollment for which the loan was made; or

(ii) Before the end of the period of enrollment for which the loan was made but after the student ceased to be enrolled at the school on at least a half-time basis.

(2) A school shall follow the procedures described in paragraphs (e)(3)–(4) of this section in processing a late disbursement, except that, notwithstanding those provisions, a school may not—

(i) Deliver the proceeds of a late disbursement to a student borrower whose last recorded day of attendance is earlier than the 30th day of the period of enrollment for which the loan is intended if the loan was subject to delayed delivery under § 682.604(c)(5)(i); or

(ii) Deliver the proceeds of a late second or subsequent disbursement of a Stafford or SLS loan to a borrower who has ceased to be enrolled on at least a half-time basis unless the borrower has graduated or successfully completed the period of enrollment for which the loan was intended.

(iii) Deliver to a borrower any portion of the proceeds of a late disbursement that under 34 CFR Part 668 is considered to be awarded for a payment period in which the student was not enrolled on at least a half-time basis at the school.

(3) If a lender makes a disbursement after the earlier of the dates set forth in paragraph (e)(1) of this section and the lender or guaranty agency has informed the school that it prohibits a late disbursement as permitted by § 682.207(d)(2), the school shall return the loan proceeds to the lender within 30 days after its determination that one of the conditions described in paragraph (e)(1) of this section exists. The school shall send a notice to the lender with the loan proceeds informing the lender as to which of the conditions described in paragraph (e)(1) of this section exists.

(4) If a disbursement is received by the school within 60 days after the earlier of the dates described in paragraph (e)(1) of this section, if the lender or guaranty agency has not informed the school that it prohibits a late disbursement as permitted by § 682.207(d)(2)(i), and if the total amount of the disbursement and all prior disbursements on the loan do not exceed that portion of the student's documented educational charges for the period of enrollment completed by the student before the earlier of the dates described in paragraph (e)(1) of this section, the school shall deliver the borrower's loan proceeds to the borrower in accordance with this section. If the total amount of the late disbursement and all prior disbursements is greater than that portion of the borrower's documented educational charges, the school shall—

(i) Return the borrower's loan proceeds to the lender with a notice certifying—

(A) The beginning and ending dates of the period during which the borrower was enrolled at the school as an eligible student during the loan period; and

(B) The borrower's correct financial need for the loan for that period of enrollment; and

(ii) Advise the borrower that the lender may redisburse funds for the borrower's documented educational charges incurred before the earlier of the dates described in paragraph (e)(1) of this section.

(f) *Initial counseling.* (1) Except in the case of a correspondence school or for a student enrolled in a study-abroad program approved for credit at the home institution, a school shall conduct counseling with each Stafford and SLS borrower either in person or by videotape presentation. In each case, the school shall conduct this counseling prior to its release of the first disbursement of the proceeds of the first Stafford or SLS loan made to the borrower for attendance at the school and shall ensure that an individual with expertise in the Title IV programs is reasonably available shortly after the counseling to answer the borrower's questions regarding those programs. In the case of a correspondence school or a student enrolled in a study-abroad program that the school approves for credit, the school shall provide the borrower with written counseling materials by mail prior to releasing those proceeds.

(2) In conducting the initial counseling, the school must—

(i) Emphasize to the borrower the seriousness and importance of the repayment obligation the borrower is assuming;

(ii) Describe in forceful terms the likely consequences of default, including adverse credit reports and litigation; and

(iii) In the case of a borrower of a Stafford or SLS loan (other than a loan made or originated by the school), emphasize that the borrower is obligated to repay the full amount of the loan even if the borrower does not complete the program, is unable to obtain employment upon completion, or is otherwise dissatisfied with or does not

receive the educational or other services that the borrower purchased from the school.

(3) Additional matters that the Secretary recommends that a school include in the initial counseling session or materials are set forth in appendix D to 34 CFR part 668.

(g) *Exit counseling.* (1) A school shall conduct in-person exit counseling with each Stafford and SLS borrower shortly before the borrower ceases at least half-time study at the school, except that—

(i) In the case of a correspondence school, the school shall provide the borrower with written counseling materials by mail within 30 days after the borrower completes the program; and

(ii) If the borrower withdraws from school without the school's prior knowledge or fails to attend an exit counseling session as scheduled, the school shall mail written counseling material to the borrower at the borrower's last known address within 30 days after learning that the borrower has withdrawn from school or failed to attend the scheduled session.

(2) In conducting the exit counseling, the school shall—

(i) Provide the borrower with general information with respect to the average indebtedness of the students who have obtained Stafford or SLS Program loans for attendance at that school;

(ii) Inform the student as to the average anticipated monthly repayment for those students based on that average indebtedness;

(iii) Review for the borrower available repayment options (e.g., loan consolidation, refinancing);

(iv) Suggest to the borrower debt-management strategies that the school determines would best assist repayment by the borrower;

(v) Include the matters described in paragraph (f)(2) of this section; and

(vi) Review with the borrower the conditions under which the borrower may defer repayment of a loan for service under the Peace Corps Act, Domestic Volunteer Service Act of 1973, or for comparable full-time service as a volunteer with a tax-exempt organization.

(3) Additional matters that the Secretary recommends that a school include in the exit counseling session or materials are set forth in appendix D to 34 CFR part 668.

(4) The school shall maintain in the student borrower's file documents substantiating the school's compliance with paragraphs (f)–(g) of this section as to that borrower.

(h) *Treatment of excess loan proceeds.* Except in the case of a student attending a foreign school, if, before the delivery of any Stafford or SLS loan disbursement, the school learns that the borrower will receive or has received financial aid for the period of enrollment for which the loan was made that exceeds the amount of assistance for which the student is eligible, the school shall reduce or eliminate the overaward by either—

(1) Using the student's SLS, PLUS, nonsubsidized Stafford, or State-sponsored or private loan to cover the expected family contribution, if not already done;

(2)(i) Returning the entire undelivered disbursement to the lender or escrow agent; and

(ii) Providing the lender with a written statement—

(A) Describing the reason for the return of the funds, if any;

(B) Setting forth the student's revised financial need; and

(C) Directing the lender to re-disburse a revised amount and, if necessary, revise subsequent disbursements to eliminate the overaward; or

(3) Returning to the lender only the portion of the disbursement for which the student is ineligible and providing the lender with a written statement explaining the return of the funds.

(Authority: 20 U.S.C. 1077, 1078, 1078–1, 1082, 1085, 1092, 1094)

§ 682.605 Determining the date of a student's withdrawal.

(a) *Purpose.* This section establishes rules for how a school shall determine the withdrawal date for a student to whom or on whose behalf a loan has been made under this part for the purpose of reporting to the lender the date that the student has withdrawn from the school and for determining when a refund must be paid under § 682.607.

(b) *The withdrawal date.* (1) Except as provided in paragraphs (b)(2) and (b)(3) of this section, the student's withdrawal date is the earlier of—

(i) The date the student notifies the school of the student's withdrawal or the date of withdrawal specified by the student, whichever is later; or

(ii) The date of withdrawal as determined by the school. The school must determine the student's date of withdrawal no later than—

(A) 45 days after the expiration date of the academic term in which the student was enrolled for a school that uses academic terms (e.g., semester, trimester, or quarter), except that 30 days after the first day of the next scheduled term may be used in the case of a summer break; or

(B) 25 days after a student's last date of attendance for a school that measures academic progress either in clock hours or credit hours but does not use a semester, trimester, or quarter system.

(2) If the student has not returned to school at the expiration of a leave of absence approved under paragraph (c) of this section, the student's withdrawal date is the first day of the leave of absence.

(3) If the student is enrolled in a program of study by correspondence, the student's withdrawal date is the date of the last lesson submitted if the student fails to submit the next scheduled lesson in accordance with the schedule of lessons established under § 682.602. However, if the student establishes in writing, within 60 days of the date of the last lesson submitted, a desire to continue in the program and an understanding that the required lessons must be submitted on time, the school may restore that student to in-school status for purposes of the loan made under this part. The school may not grant the student more than one restoration to in-school status on this basis.

(4) For the purpose of a school's reporting to a lender, a student's withdrawal date is the month, day, and year of the withdrawal date determined under paragraphs (b)(1)–(b)(3) of this section.

(c) *Leaves of absence.* A student who has been absent from school and has been granted a leave of absence by a school in accordance with this paragraph is not considered to have withdrawn from school for purposes of paragraph (a) of this section. In any 12-month period, a school may grant no more than a single leave of absence to a student, provided that—

(1) The student has made a written request to be granted a leave of absence;

(2) The leave of absence involves no additional charges by the school to the student; and

(3) The leave of absence does not exceed—

(i) 60 days; or

(ii) 6 months under either of the following circumstances:

(A) The school is not a correspondence school and the school's next period of enrollment after the start of the leave of absence would begin more than 60 days after the first day of the leave of absence.

(B) The leave of absence is requested because of the student's medically determinable condition, in which case the student must provide the school with a written recommendation from a physician for a leave of absence longer than 60 days.

(Authority: 20 U.S.C. 1077, 1078, 1078–1, 1078–2, 1082, 1094)

§ 682.606 Refund policy.

(a) *General.* (1) A school shall have a fair and equitable refund policy under which the school shall make a refund of unearned tuition, fees, room and board, and other charges to a student who received a Stafford or SLS Program loan, or whose parent received a PLUS Program loan on behalf of the student, if the student—

(i) Does not register for a period of enrollment for which the loan was intended; or

(ii) Withdraws or otherwise fails to complete a period of enrollment for which the loan was made.

(2) The school shall provide a written statement containing its refund policy, together with examples of the application of this policy, to a prospective student before the student's enrollment and shall make its policy known to currently enrolled students. The school shall include in its statement the procedures that a student must follow to obtain a refund, but the school shall pay to the lender the portion of a refund allocable to the student's Stafford, SLS, or PLUS program loans under 34 CFR part 668 whether or not the student follows those procedures. If the school changes its refund policy, it shall ensure that all students are made aware of the new policy.

(b) *Fair and equitable refund policy.* A school's refund policy is fair and equitable if—

(1) That policy provides for a refund of at least the larger of the amount provided under—

(i) The requirements of applicable State law; or

(ii)(A) The specific refund standards established by the school's nationally recognized accrediting agency and approved by the Secretary; or

(B) If no such standards exist, the specific refund policy standards contained in appendix A to this part or the refund policy standards set by another association of institutions of postsecondary education and approved by the Secretary; and

(2) Within 60 days after the school's receipt of notice from the Secretary that its cohort default rate, as defined in 34 CFR part 668, exceeded 30 percent for any fiscal year after 1986, and continuing until the Secretary notifies the school that its rate was equal to or less than 30 percent for a subsequent fiscal year, the school's policy conforms with the *pro rata* refund calculation described in paragraph (c) of this section or the requirements of paragraph (b)(1) of this section, whichever results in the larger refund amount. However, the provisions of paragraph (b)(2) of this section do not apply to the school's refund policy for any student whose last recorded day of attendance is after the earlier of—

(i) The halfway point (in time) for the student's program of study; or

(ii) Six months after the beginning of the student's program.

(c)(1) *Pro rata refund,* as used in this section, means a refund by the school of not less than that portion of the tuition, fees, room and board, and other charges assessed the student by the school equal to the portion of the period of enrollment for which the student has been charged that remains on the last recorded day of attendance by the student, rounded downward to the nearest 10 percent but never less than 10 percent, of that period, less any unpaid charges owed by the student for the period of enrollment for which the student has been charged, and less—

(i) A reasonable administrative fee not to exceed the lesser of $100 or 5 percent of tuition, fees, room and board, and other charges assessed the student; and

(ii) Charges authorized by paragraph (c)(5) of this section.

(2) For purposes of paragraph (c)(1) of this section, in the case of a program that is measured in credit hours, "the portion of the period of enrollment for which the student has been charged that remains" is determined by dividing the total number of weeks that make up the period of enrollment for which the student has been charged into the number of weeks remaining in that period as of the last recorded day of attendance by the student.

(3) For purposes of paragraph (c)(1) of this section, in the case of a program that is measured in clock hours, "the portion of the period of enrollment for which the student has been charged that remains" is determined by dividing the total clock hours comprising the period of enrollment for which the student has been charged into the number of clock hours remaining to be completed by the student in that period as of the last recorded day of attendance by the student.

(4) For purposes of paragraph (c)(1) of this section, in the case of a correspondence program, "the portion of the period of enrollment for which the student has been charged that remains" is determined by dividing the total number of lessons comprising the period of enrollment for which the student has been charged into the total number of those lessons not submitted by the student.

(5) A school may require that equipment issued to the student by the school that the school could reissue to another student be returned by a student once the school determines that the student has withdrawn if the school makes a written request for the return that is received by the student within 10 days of the date of that determination. If the school notified the student in writing before enrollment that return of the specific equipment involved would be required if the student withdrew, the school may deduct from the refund owed under this section the documented cost to the school of that equipment if the student fails to return it within 10 days of the date of the student's receipt of the request from the school. However, the school may not delay its payment of a refund to a lender under § 682.607 by reason of this process.

(Authority: 20 U.S.C. 1078, 1078–1, 1078–2, 1082, 1094)

§ 682.607 Payment of a refund to a lender.

(a) *General.* By applying for a FFEL loan, a borrower authorizes the school to pay directly to the lender that portion of a refund from the school that is allocable to the loan. A school—

(1) Shall pay that portion of the student's refund that is allocable to a FFEL loan to—

(i) The original lender; or

(ii) A subsequent holder, if the loan has been transferred and the school knows the new holder's identity; and

(2) Shall provide simultaneous written notice to the borrower if the school pays a refund to a lender on behalf of that student.

(b) *Allocation of refund.* In determining the portion of a student's refund for an academic period that is allocable to a FFEL loan received by the borrower for that academic period, the school shall follow the procedures established in 34 CFR part 668 for allocating a refund that is payable.

(c) *Timely payment.* A school shall pay a refund that is due—

(1) Within 60 days after the student's withdrawal as determined under § 682.605(b)(1)–(3); or

(2) In the case of a student who does not return to school at the expiration of an approved leave of absence under § 682.605(c), within 30 days after the last day of that leave of absence.

(Authority: 20 U.S.C. 1077, 1078, 1078–1, 1078–2, 1082, 1094)

§ 682.608 Termination of a school's lending eligibility.

(a) *General.* The Secretary may terminate a school's eligibility to make loans under this part if the school reaches the 15 percent limit on loan

defaults described in paragraph (b) of this section.

(b) *The 15 percent limit.* (1) The Secretary may terminate a school's eligibility to make loans if at the end of each of the 2 most recent consecutive Federal fiscal years for which data are available, the total amount of loans described in paragraph (b)(1)(i) of this section is equal to or greater than 15 percent of the total amount of loans described in paragraph (b)(1)(ii) of this section as follows:

(i) The original principal amount of all loans the school has ever made that went into default during that period.

(ii) The original principal amount of all loans the school has ever made, including loans in deferment status that—

(A) Were in repayment status at the beginning of that period; or

(B) Entered repayment status during that period.

(2) In making the determination under this section, the Secretary considers the status of all FFEL loans made by the school whether the loans are held by the school or by a subsequent holder.

(c) *Exception based on hardship.* The Secretary does not terminate a school's lending eligibility under paragraphs (a) and (b) of this section if the Secretary determines that the termination would result in a hardship for the school or its students. The Secretary makes this determination if the school shows that—

(1) Termination is not justified in light of recent improvements the school has made in its collection capabilities that will reduce the school's loan default rate significantly within the next year. Examples of these improvements include—

(i) Adopting more efficient collection procedures; or

(ii) Employing increased collection staff; or

(2) Termination would cause a substantial hardship to the school's current or prospective students or their parents based on—

(i) The extent to which the school provides, and expects to continue to provide educational opportunities to economically disadvantaged students as measured by the percentage of students enrolled at the school who—

(A) Are in families that fall within the "low-income family" category used by the Bureau of the Census;

(B) Would not be able to enroll or continue their enrollment at that school without a loan from the school; and

(C) Would not be able to obtain a comparable education at another school;

(ii) The extent to which the school offers educational programs that—

(A) Are unique in the geographical area that the school serves; and

(B) Would not be available to some students if they or their parents could not obtain loans from the school; and

(iii) The quality of improvements the school has made in its—

(A) Management of student financial assistance programs; and

(B) Conformance with sound business practices.

(d) *Termination procedures.* (1) The Secretary notifies the school of the proposed termination of its lending eligibility and provides an opportunity for a hearing before the Secretary terminates the school under this section.

(2) The Secretary or his designee begins a termination action by sending a notice to the school. The notice is sent by certified mail with return receipt requested. The notice—

(i) Informs the school of the intent to terminate the school's lending eligibility because of the school's default experience;

(ii) Specifies the proposed date the termination becomes effective; and

(iii) Informs the school that it has 15 days to—

(A) Submit any written material it wants considered in determining whether its lending eligibility should be terminated under paragraphs (a) and (b) of this section, including written material in support of a hardship exception under paragraph (c) of this section; or

(B) Request an oral hearing to show why the school's lending eligibility should not be terminated.

(3) If the school does not request an oral hearing but submits written material, the Secretary or the designated official considers that material and notifies the school as to whether the termination action will be taken.

(4) The Secretary or the designated official (presiding officer) schedules the date and place of a hearing for a school that has requested an oral hearing. The date of the hearing is at least 15 days from the date of receipt of the request. A presiding officer—

(i) Conducts the hearing;

(ii) Considers all written material presented before the hearing and any other material presented during the hearing; and

(iii) Determines if termination of the school's lending eligibility is warranted.

(5) The decision of the designated official is subject to review by the Secretary.

(e) *Effects of termination.* A school that has its lending eligibility terminated under this section may not—

(1) Make further loans under this part until it has entered into a new guarantee agreement with the Secretary; or

(2) Enter into a new guarantee agreement with the Secretary until at least one year after the school's lending eligibility has been terminated under this section.

(f) *Schools under the same ownership.* If a school makes loans to students or parents of students in attendance at other schools under the same ownership, the Secretary may make the determination required by this section by—

(1) Treating all of the schools as one school; or

(2) Treating each school on an individual basis.

(Authority: 20 U.S.C. 1077, 1078, 1078–1, 1078–2, 1082, 1085)

§ 682.609 Remedial actions.

(a) The Secretary may require a school to repay funds paid to other program participants by the Secretary. The Secretary also may require a school to purchase from the holder of a FFEL loan that portion of the loan that is unenforceable, that the borrower was ineligible to receive, or for which the borrower was ineligible to receive interest benefits contrary to the school's certification, and to make arrangements acceptable to the Secretary for reimbursement of the amounts the Secretary will be obligated to pay to program participants respecting that loan in the future. The repayment of funds and purchase of loans may be required if the Secretary determines that the payment to program participants, the unenforceability of the loan, or the disbursement of loan amounts for which the borrower was ineligible or for which the borrower was ineligible for interest benefits, resulted in whole or in part from—

(1) The school's violation of a Federal statute or regulation; or

(2) The school's negligent or willful false certification.

(b) In requiring a school to repay funds to the Secretary or to another party or to purchase loans from a holder in connection with an audit or program review, the Secretary follows the procedures described in 34 CFR part 668, subpart H.

(c) Notwithstanding paragraph (a) of this section, the Secretary may waive the right to require repayment of funds or repurchase of loans by a school if, in the Secretary's judgment, the best interest of the United States so requires.

(d) The Secretary may impose a fine or take an emergency action against a school or limit, suspend, or terminate a school's participation in the FFEL programs, in accordance with 34 CFR part 668, subpart G.

(e) A school shall comply with any emergency action, limitation, suspension, or termination imposed by

a guaranty agency in accordance with the agency's standards and procedures. A school shall repay funds to the Secretary or other party or purchase loans from a holder if a guaranty agency determines that the school improperly received or retained the funds in violation of a Federal law or regulation or a guaranty agency rule or regulation.

(Authority: 20 U.S.C. 1077, 1078 , 1078–1, 1078–2, 1082, 1094)

§ 682.610 Administrative and fiscal requirements for participating schools.

(a) *General.* Each school shall—

(1) Establish and maintain proper administrative and fiscal procedures and all necessary records as set forth in the regulations in this part and in 34 CFR part 668 in order to—

(i) Protect the rights of student and parent borrowers;

(ii) Protect the United States from unreasonable risk of loss; and

(iii) Comply with specific requirements in those regulations; and

(2) Submit all reports required by this part and 34 CFR part 668 to the Secretary.

(b) *Loan record requirements.* In addition to records required by 34 CFR part 668, for each Stafford, SLS, and PLUS loan received under this part by or on behalf of its students, a school shall maintain a copy of the loan application or data electronically submitted to the lender which can, upon request, produce a hard copy record of—

(1) The name of the lender;

(2) The address of the lender;

(3) The amount of the loan and the period of enrollment for which the loan was intended;

(4) The data used to construct an individual student budget or the school's itemized standard budget used in calculating the student's estimated cost of attendance;

(5) The sources and amounts of financial assistance available to the student that the school used in determining the student's estimated financial assistance for the loan period in accordance with § 682.200;

(6) The amount of the student's tuition and fees paid for the loan period and the date the student paid the tuition and fees;

(7) The amount and basis of its calculation of any refund paid to or on behalf of a student;

(8) In the case of a Stafford loan for which the borrower applies for interest benefits under § 682.301, the data used to determine the student's expected family contribution and the corresponding certification by the school to the lender;

(9) In the case of a Stafford or SLS loan—

(i) The date the school received each loan disbursement and the amount of that disbursement;

(ii) The date the school endorsed each loan check;

(iii) The date or dates of transmittal of the loan proceeds by the school to the student; and

(iv) For loans delivered by electronic funds transfer, a copy of the student's written authorization required under § 682.604(c)(3) to transfer the initial and subsequent disbursements of each FFEL program loan;

(10) The student's job placement, if known; and

(11) Any other matter for which a record would be required for the school to be able to document its compliance with applicable requirements with respect to the loan.

(c) *Student status confirmation reports.* A school shall—

(1) Upon receipt of a student status confirmation report form from the Secretary or a similar student status confirmation report form from any guaranty agency, complete and return that report within 30 days of receipt to the Secretary or the guaranty agency, as appropriate; and

(2) Unless it expects to submit its next student status confirmation report to the Secretary or the guaranty agency within the next 60 days, notify the guaranty agency or lender within 30 days—

(i) If it discovers that a Stafford, SLS, or PLUS loan has been made to or on behalf of a student who enrolled at that school, but who has ceased to be enrolled on at least a half-time basis;

(ii) If it discovers that a Stafford, SLS, or PLUS loan has been made to or on behalf of a student who has been accepted for enrollment at that school, but who failed to enroll on at least a half-time basis for the period for which the loan was intended; or

(iii) If it discovers that a Stafford, SLS, or PLUS loan has been made to or on behalf of a full-time student who has ceased to be enrolled on a full-time basis.

(d) *Record retention requirements.* Unless otherwise directed by the Secretary, the school or its successors—

(1)(i) Shall keep all records required under the regulations in this part for five years following the last day of the borrower's attendance at the school;

(2) Shall keep for five years after completion copies of reports and other forms used by the school relating to the Stafford, SLS, or PLUS programs;

(3) Shall keep all records involved in any loan, claim, or expenditure questioned by a Federal audit until resolution of any audit questions.

(4) Shall provide in the event of the school's closure, termination, suspension, or change in ownership resulting in a change of control as described in 34 CFR part 600 for the retention of the records and reports required by the regulations in this part and for access by the Secretary or the Secretary's authorized representatives to those records and reports for inspection and copying; and

(5) May keep records and copies of reports on microfilm, optical disk, or in other machine readable format.

(e) *Inspection requirements.* Upon request, a school or its agent shall cooperate with an independent auditor, the Secretary, any guaranty agency, the Department's Office of the Inspector General, and the Comptroller General of the United States; or their authorized representatives, in the conduct of audits, investigations, and program reviews authorized by law. This cooperation must include—

(1) Providing timely access for examination and copying to the records (including computerized records) required by the applicable regulations and to any other pertinent books, documents, papers, computer programs, and records; and

(2) Providing reasonable access to institutional personnel associated with the institution's administration of the Title IV, HEA programs for the purpose of obtaining relevant information. In providing reasonable access, the institution may not—

(i) Refuse to supply any relevant information;

(ii) Refuse to permit interviews with those personnel without the presence of representatives of the institution's management; and

(iii) Refuse to permit interviews with those personnel unless they are recorded by the institution.

(f) *Information sharing.* (1) Upon request of the Secretary, a lender, or a guaranty agency, a school promptly shall provide a lender or guaranty agency with any information the school has respecting the last known address, surname, employer, and employer address of a borrower who attends or has attended the school.

(2) If the school discovers that a student who is enrolled and who has received a Stafford or SLS loan has changed his or her permanent address, the school shall notify the holder of the loan within 30 days thereafter, either directly or through the guaranty agency

(Authority: 20 U.S.C. 1078, 1078–1, 1078–2 1082, 1094)

Subpart G—Limitation, Suspension, or Termination of Lender Eligibility and Disqualification of Lenders and Schools

§ 682.700 Purpose and scope.

(a) This subpart governs the limitation, suspension, or termination by the Secretary of the eligibility of an otherwise eligible lender to participate in the FFEL programs. The regulations in this subpart apply to a lender that violates any statutory provision governing the FFEL programs or any regulations, special arrangements, agreements, or limitations prescribed under those programs. These regulations apply to lenders that participate only in a guaranty agency program as well as to lenders that participate in the Federal FFEL programs. These regulations also govern the Secretary's disqualification of a lender or school from participation in the FFEL programs under sections 432 (h)(2) and (h)(3) of the Act.

(b) This subpart does not apply—

(1) To a determination that an organization fails to meet the definition of "eligible lender" in section 435(d)(1) of the Act or the definition of "lender" in § 682.200, for any reason other than a violation of the prohibitions set forth in section 435(d)(5) of the Act;

(2) To a school's loss of lending eligibility under § 682.608; or

(3) To an administrative action by the Department of Education based on any alleged violation of—

(i) The Family Educational Rights and Privacy Act of 1974 (section 438 of the General Education Provisions Act), which is governed by 34 CFR part 99;

(ii) Title VI of the Civil Rights Act of 1964, which is governed by 34 CFR parts 100 and 101;

(iii) Section 504 of the Rehabilitation Act of 1973 (relating to discrimination on the basis of handicap), which is governed by 34 CFR part 104; or

(iv) Title IX of the Education Amendments of 1972 (relating to sex discrimination), which is governed by 34 CFR part 106.

(c) This subpart does not supplant any rights or remedies that the Secretary may have against participating lenders or schools under other authorities.

(Authority: 20 U.S.C. 1080, 1082, 1085, 1094)

§ 682.701 Definitions of terms used in this subpart.

The following definitions apply to terms used in this subpart:

Designated Departmental Official: An official of the Department of Education to whom the Secretary has delegated the responsibility for initiating and pursuing disqualification or limitation, suspension, or termination proceedings.

Disqualification: The removal of a lender's or school's eligibility for an indefinite period of time by the Secretary on review of limitation, suspension, or termination action taken against the lender or school by a guaranty agency.

Limitation: The continuation of a lender's eligibility subject to compliance with special conditions established by agreement with the Secretary or a guaranty agency or imposed as the result of a limitation or termination proceeding.

Suspension: The removal of a lender's eligibility for a specified period of time or until the lender fulfills certain requirements.

Termination: The removal of a lender's eligibility for an indefinite period of time—

(a) By a guaranty agency; or

(b) By the Secretary, based on an action taken by the Secretary, or a designated Departmental official under § 682.706.

(Authority: 20 U.S.C. 1080, 1082, 1085, 1094)

§ 682.702 Effect on participation.

(a) Limitation, suspension, or termination proceedings by the Secretary do not affect a lender's responsibilities or rights to benefits and claim payments that are based on the lender's prior participation in the program, except as provided in paragraph (c) of this section and in § 682.709.

(b) A limitation imposes on a lender—

(1) A limit on the number or total amount of loans that a lender may make, purchase, or hold under the FFEL programs;

(2) A limit on the number or total amount of loans a lender may make to, or on behalf of, students at a particular school under the FFEL programs; or

(3) Other reasonable requirements or conditions, including those described in § 682.709.

(c) After the date the termination of a lender's eligibility becomes effective, the Secretary does not guarantee new loans made by that lender or pay interest benefits, special allowance, or reinsurance on new loans guaranteed by a guaranty agency after that date. The Secretary may also prohibit the lender from making further disbursements on a loan for which a guarantee commitment has already been issued.

(Authority: 20 U.S.C. 1080, 1082, 1085, 1094)

§ 682.703 Informal compliance procedure.

(a) The Secretary may use the informal compliance procedure in paragraph (b) of this section if the Secretary receives a complaint or other reliable information indicating that a lender may be in violation of applicable laws, regulations, special arrangements, agreements, or limitations.

(b) Under the informal compliance procedure, the Secretary gives the lender a reasonable opportunity to—

(1) Respond to the complaint or information; and

(2) Show that the violation has been corrected or submit an acceptable plan for correcting the violation and preventing its recurrence.

(c) The Secretary does not delay limitation, suspension, or termination procedures during the informal compliance procedure if—

(1) The delay would harm the FFEL programs; or

(2) The informal compliance procedure will not result in correction of the alleged violation.

(Authority: 20 U.S.C. 1080, 1082, 1085, 1094)

§ 682.704 Emergency action.

(a) The Secretary, or a designated Departmental official, may take emergency action to stop the issuance of guarantee commitments by the Secretary and guarantee agencies and to withhold payment of interest benefits and special allowance to a lender if the Secretary—

(1) Receives reliable information that the lender is in violation of applicable laws, regulations, special arrangements, agreements, or limitations.

(2) Determines that immediate action is necessary to prevent the likelihood of substantial losses by the Federal Government, parent borrowers, or students; and

(3) Determines that the likelihood of loss exceeds the importance of following the procedures for limitation, suspension, or termination.

(b) The Secretary begins an emergency action by notifying the lender, by certified mail, return receipt requested, of the action and the basis for the action.

(c) The date the action becomes effective is the date the notice is mailed to the lender.

(d)(1) An emergency action does not exceed 30 days unless a limitation, suspension, or termination proceeding is begun before that time expires.

(2) If a limitation, suspension, or termination proceeding is begun before the expiration of the 30-day period—

(i) The emergency action may be extended until completion of the proceeding, including any appeal to the Secretary; and

(ii) Upon the written request of the lender, the Secretary may provide the lender with an opportunity to demonstrate that the emergency action is unwarranted.

(Authority: 20 U.S.C. 1080, 1082, 1085, 1094)

§ 682.705 Suspension proceedings.

(a) *Scope.* (1) A suspension by the Secretary removes a lender's eligibility under the FFEL programs, and the Secretary does not guarantee or reinsure a new loan made by the lender during a period not to exceed 60 days from the date the suspension becomes effective, unless—

(i) The lender and the Secretary agree to an extension of the suspension period, if the lender has not requested a hearing; or

(ii) The Secretary begins a limitation or a termination proceeding.

(2) If the Secretary begins a limitation or a termination proceeding before the suspension period ends, the Secretary may extend the suspension period until the completion of that proceeding, including any appeal to the Secretary.

(b) *Notice.* (1) The Secretary, or a designated Departmental official, begins a suspension proceeding by sending the lender a notice by certified mail with return receipt requested.

(2) The notice—

(i) Informs the lender of the Secretary's intent to suspend the lender's eligibility for a period not to exceed 60 days;

(ii) Describes the consequences of a suspension;

(iii) Identifies the alleged violations on which the proposed suspension is based;

(iv) States the proposed date the suspension becomes effective, which is at least 20 days after the date of mailing of the notice;

(v) Informs the lender that the suspension will not take effect on the proposed date if the Secretary receives at least five days prior to that date a request for an oral hearing or written material showing why the suspension should not take effect; and

(vi) Asks the lender to correct voluntarily any alleged violations.

(c) *Hearing.* (1) If the lender does not request an oral hearing but submits written material, the Secretary, or a designated Departmental official, considers the material and—

(i) Dismisses the proposed suspension; or

(ii) Determines that the proposed suspension should be implemented and notifies the lender of the effective date of the suspension.

(2) If the lender requests an oral hearing within the time specified in paragraph (b)(2)(v) of this section, the Secretary schedules the date and place of the hearing. The date is at least 15 days after receipt of the request from the lender. No proposed suspension takes effect until a hearing is held.

(3) The oral hearing is conducted by a presiding officer who—

(i) Ensures that a written record of the hearing is made;

(ii) Considers relevant written material presented before the hearing and other relevant evidence presented during the hearing; and

(iii) Issues a decision based on findings of fact and conclusions of law that may suspend the lender's eligibility only if the presiding officer is persuaded that the suspension is warranted by the evidence.

(4) The formal rules of evidence do not apply, and no discovery, as provided in the Federal Rules of Civil Procedure, is required.

(5) The presiding officer shall base findings of fact only on evidence considered at or before the hearing and matters given official notice.

(6) The initial decision of the presiding officer is mailed to the lender.

(7) The Secretary automatically reviews the initial decision of the presiding officer. The Secretary notifies the lender of the Secretary's decision by mail.

(8) A suspension takes effect on either a date that is at least 20 days after the date the notice of a decision imposing the suspension is mailed to the lender, or on the proposed effective date stated in the notice sent under paragraph (b) of this section, whichever is later.

(Authority: 20 U.S.C. 1080, 1082, 1085, 1094)

§ 682.706 Limitation or termination proceedings.

(a) *Notice.* (1) The Secretary, or a designated Departmental official, begins a limitation or termination proceeding, whether a suspension proceeding has begun, by sending the lender a notice by certified mail with return receipt requested.

(2) The notice—

(i) Informs the lender of the Secretary's intent to limit or terminate the lender's eligibility;

(ii) Describes the consequences of a limitation or termination;

(iii) Identifies the alleged violations on which the proposed limitation or termination is based;

(iv) States the limits which may be imposed, in the case of a limitation proceeding;

(v) States the proposed date the limitation or termination becomes effective, which is at least 20 days after the date of mailing of the notice;

(vi) Informs the lender that the limitation or termination will not take effect on the proposed date if the Secretary receives, at least five days prior to that date, a request for an oral hearing or written material showing why the limitation or termination should not take effect;

(vii) Asks the lender to correct voluntarily any alleged violations; and

(viii) Notifies the lender that the Secretary may collect any amount owed by means of offset against amounts owed to the lender by the Department and other Federal agencies.

(b) *Hearing.* (1) If the lender does not request an oral hearing but submits written material, the Secretary, or a designated Departmental official, considers the material and—

(i) Dismisses the proposed limitation or termination; or

(ii) Notifies the lender of the date the limitation or termination becomes effective.

(2) If the lender requests a hearing within the time specified in paragraph (a)(2)(vi) of this section, the Secretary schedules the date and place of the hearing. The date is at least 15 days after receipt of the request from the lender. No proposed limitation or termination takes effect until a hearing is held.

(3) The hearing is conducted by a presiding officer who—

(i) Ensures that a written record of the hearing is made;

(ii) Considers relevant written material presented before the hearing and other relevant evidence presented during the hearing; and

(iii) Issues an initial decision, based on findings of fact and conclusions of law, that may limit or terminate the lender's eligibility if the presiding officer is persuaded that the limitation or termination is warranted by the evidence.

(4) The formal rules of evidence do not apply, and no discovery, as provided in the Federal Rules of Civil Procedure, is required.

(5) The presiding officer shall base findings of fact only on evidence presented at or before the hearing and matters given official notice.

(6) If a termination action is brought against a lender and the presiding officer concludes that a limitation is more appropriate, the presiding officer may issue a decision imposing one or more limitations on a lender rather than terminating the lender's eligibility.

(7) The initial decision of the presiding officer is mailed to the lender.

(8) Any time schedule specified in this section may be shortened with the approval of the presiding officer and the consent of the lender and the Secretary or designated Department official.

(9) The presiding officer's initial decision automatically becomes the Secretary's final decision 20 days after it is issued and received by both parties unless the lender or designated

Department official appeals the decision to the Secretary within this period.

(c) Notwithstanding the other provisions of this section, if a lender or a lender's owner or officer is convicted of or pled *nolo contendere* or guilty to a crime involving the unlawful acquisition, use, or expenditure of FFEL funds, that conviction or guilty plea is automatic grounds for terminating the lender's eligibility to participate in the FFEL programs.

(Authority: 20 U.S.C. 1080, 1082, 1085, 1094)

§ 682.707 Appeals in a limitation or termination proceeding.

(a) If the lender of designated Departmental official appeals the initial decision of the presiding officer in accordance with § 682.706(b)(9)—

(1) An appeal is made to the Secretary by submitting to the Secretary and the opposing party within 15 days of the date of the appealing party's receipt of the presiding officer's decision, a brief or other written material explaining why the decision of the presiding officer should be overturned or modified; and

(2) The opposing party shall submit its brief or other written material to the Secretary and the appealing party within 15 days of its receipt of the brief or written material of the appealing party.

(b) The Secretary issues a final decision affirming, modifying, or reversing the initial decision, including a statement of the reasons for the Secretary's decision.

(c) Any party submitting material to the Secretary shall provide a copy to each party that participates in the hearing.

(d) If the presiding officer's initial decision would limit or terminate the lender's eligibility, it does not take effect pending the appeal unless the Secretary determines that a stay of the date it becomes effective would seriously and adversely affect the FFEL programs or student or parent borrowers.

(Authority: 20 U.S.C. 1080, 1082, 1085, 1094)

§ 682.708 Evidence of mailing and receipt dates.

(a) All mailing dates and receipt dates referred to in this subpart must be substantiated by the original receipts from the U.S. Postal Service.

(b) If a lender refuses to accept a notice mailed under this subpart, the Secretary considers the notice as being received on the date that the lender refuses to accept the notice.

(Authority: 20 U.S.C. 1080, 1082, 1085, 1094)

§ 682.709 Reimbursements, refunds, and offsets.

(a) As part of a limitation or termination proceeding, the Secretary, or a designated Departmental official, may require a lender to take reasonable corrective action to remedy a violation of applicable laws, regulations, special arrangements, agreements, or limitations.

(b) The corrective action may include payment to the Secretary or recipients designated by the Secretary of any funds, and any interest thereon, that the lender improperly received, withheld, disbursed, or caused to be disbursed.

(c) If a final decision requires a lender to reimburse or make any payment to the Secretary, the Secretary may, without further notice or opportunity for a hearing, proceed to offset or arrange for another Federal agency to offset the amount due against any interest benefits, special allowance, or other payments due to the lender.

(Authority: 20 U.S.C. 1080, 1082, 1094)

§ 682.710 Removal of limitation.

(a) A lender may request removal of a limitation imposed by the Secretary in accordance with the regulations in this subpart at any time more than 12 months after the date the limitation becomes effective.

(b) The request must be in writing and must show that the lender has corrected any violations on which the limitation was based.

(c) Within 60 days after receiving the request, the Secretary—

(1) Grants the request;

(2) Denies the request; or

(3) Grants the request subject to other limitations.

(d)(1) If the Secretary denies the request or establishes other limitations, the lender, upon request, is given an opportunity to show why all limitations should be removed.

(2) A lender may continue to participate in the FFEL programs, subject to any limitation imposed by the Secretary under paragraph (c)(3) of this section, pending a decision by the Secretary on a request under paragraph (d)(1) of this section.

(Authority: 20 U.S.C. 1080, 1082, 1085, 1094)

§ 682.711 Reinstatement after termination.

(a) A lender whose eligibility has been terminated by the Secretary in accordance with the regulations in this subpart may request reinstatement of its eligibility at any time more than 18 months after the date the termination becomes effective.

(b) The request must be in writing and must show that—

(1) The lender has corrected any violations on which the termination was based; and

(2) The lender meets all requirements for eligibility.

(c) A school lender whose eligibility as a participating school has been terminated under 34 CFR part 668 may not be considered for reinstatement as a lender until it is reinstated as a participating school. However, the school may request reinstatement as both a school and a lender at the same time.

(d) Within 60 days after receiving a request for reinstatement, the Secretary—

(1) Grants the request;

(2) Denies the request; or

(3) Grants the request subject to limitations.

(e)(1) If the Secretary denies the lender's request or allows reinstatement subject to limitations, the lender, upon request, is given an opportunity to show why its eligibility should be reinstated and all limitations removed.

(2) A lender whose eligibility to participate in the FFEL programs is reinstated subject to limitations imposed by the Secretary pursuant to paragraph (d)(3) of this section, may participate in those programs, subject to those limitations, pending a decision by the Secretary on a request under paragraph (e)(1) of this section.

(Authority: 20 U.S.C. 1080, 1082, 1085, 1094)

§ 682.712 Disqualification review of limitation, suspension, and termination actions taken by guarantee agencies against lenders.

(a) The Secretary reviews a limitation, suspension, or termination action taken by a guaranty agency against a lender participating in the FFEL programs to determine if national disqualification is appropriate. Upon completion of the Secretary's review, the Secretary notifies the guaranty agency and the lender of the Secretary's decision by mail.

(b) The Secretary disqualifies a lender from participation in the FFEL programs if—

(1) The lender waives review by the Secretary; or

(2) The Secretary conducts the review and determines that the limitation, suspension, or termination was imposed in accordance with section 428(b)(1)(U) of the Act.

(c)(1) Disqualification by the Secretary continues until the Secretary is satisfied that—

(i) The lender has corrected the failure that led to the limitation, suspension, or termination; and

(ii) There are reasonable assurances that the lender will comply with the

requirements of the FFEL programs in the future.

(2) Revocation of disqualification by the Secretary does not remove any limitation, suspension, or termination imposed by the agency whose action resulted in the disqualification.

(d) A guaranty agency shall refer a limitation, suspension, or termination action that it takes against a lender to the Secretary within 30 days of its final decision to limit, suspend, or terminate the lender's eligibility to participate in the agency's program.

(e) The Secretary reviews an agency's limitation, suspension, or termination of a lender's eligibility only when the guaranty agency's action is final, e.g. the lender is not entitled to any further appeals within the guaranty agency. A subsequent court challenge to an agency's action does not by itself affect the timing of the Secretary's review.

(f) The guaranty agency's notice to the Secretary regarding a termination action must include a certified copy of the administrative record compiled by the agency with regard to the action. The record must include certified copies of the following documents:

(1) The guaranty agency's letter initiating the action.

(2) The lender's response.

(3) The transcript of the agency's hearing.

(4) The decision of the agency's hearing officer.

(5) The decision of the agency on appeal from the hearing officer's decision, if any.

(6) The regulations and written procedures of the agency under which the action was taken.

(7) The audit or lender review report or documented basis that led to the action.

(8) All other documents relevant to the action.

(g) The guaranty agency's referral notice to the Secretary regarding a limitation or suspension action must include—

(1) The documents described in paragraph (f) of this section; and

(2) Documents describing and substantiating the existence of one or more of the circumstances described in paragraph (j) of this section.

(h)(1) Within 60 days of the Secretary's receipt of a referral notice described in paragraph (f) or (g) of this section, the Secretary makes an initial assessment, based on the agency's record, as to whether the agency's action appears to comply with section 428(b)(1)(U) of the Act.

(2) In the case of a referral notice described in paragraph (g) of this section, the Secretary also determines whether one or more of the circumstances described in paragraph (j) of this section exist.

(3) If the Secretary concludes that the agency's action appears to comply with section 428(b)(1)(U) of the Act and, if applicable, one or more of the circumstances described in paragraph (j) of this section exist, the Secretary notifies the lender that the Secretary will review the guaranty agency's action to determine whether to disqualify the lender from further participation in the FFEL programs and affords the lender an opportunity—

(i) To waive the review and be disqualified immediately; or

(ii) To request a review.

(i) The Secretary's review of the guaranty agency's action is limited to whether the agency action was taken in accordance with procedures that were substantially the same as procedures applicable to the limitation, suspension, or termination of eligibility of a lender under the FISL Program (34 CFR part 682, subpart G).

(j) In the case of an action by an agency that limits or suspends a lender's eligibility to participate in the agency's program, the agency shall provide the Secretary with a referral as described in paragraph (g) of this section only if—

(1) The lender has not corrected the violation. A violation is corrected if, among other things, the lender has satisfied fully all liabilities incurred by the lender as a result of the violation, including its liability to the Secretary, or the lender has arranged to satisfy those liabilities in a manner acceptable to the parties to whom the liabilities are owed;

(2) The lender has not provided satisfactory assurances to the agency of future compliance with program requirements; or

(3) The guaranty agency determines that special circumstances warrant disqualification of the lender from the FFEL programs for a significant period, notwithstanding the agency's decision not to terminate the lender's eligibility to participate in the agency's program.

(Authority: 20 U.S.C. 1082)

§ 682.713 Disqualification review of limitation, suspension, and termination actions taken by guarantee agencies against a school.

(a) The Secretary reviews a limitation, suspension, or termination action taken by a guaranty agency against a school participating in the FFEL programs to determine if national disqualification is appropriate. Upon completion of the Secretary's review, the Secretary notifies the guaranty agency and the school of his decision by mail.

(b) The Secretary disqualifies a school from participation in the FFEL programs if—

(1) The school waives review by the Secretary; or

(2) The Secretary conducts the review and determines that the limitation, suspension, or termination was imposed in accordance with section 428(b)(1)(T) of the Act.

(c)(1) Disqualification by the Secretary continues until the Secretary is satisfied that—

(i) The school has corrected the failure that led to the limitation, suspension, or termination; and

(ii) There are reasonable assurances that the school will comply with the requirements of the FFEL programs in the future.

(2) Revocation of disqualification by the Secretary does not remove any limitation, suspension, or termination imposed by the agency whose action resulted in the disqualification.

(d) A guaranty agency shall refer a limitation, suspension, or termination action that it takes against a school to the Secretary within 30 days of its final decision to limit, suspend, or terminate the school's eligibility to participate in the agency's program.

(e) The Secretary reviews an agency's limitation, suspension, or termination of a school's eligibility only when the guaranty agency's action is final, i.e., the institution is not entitled to any further appeals within the guaranty agency. A subsequent court challenge to an agency's action does not by itself affect the timing of the Secretary's review.

(f) The guaranty agency's notice to the Secretary regarding a termination action must include a certified copy of the administrative record compiled by the agency with regard to the action. The record must include certified copies of the following documents:

(1) The guaranty agency's letter initiating the action.

(2) The school's response.

(3) The transcript of the agency's hearing.

(4) The decision of the agency's hearing officer.

(5) The decision of the agency on appeal from the hearing officer's decision, if any.

(6) The regulations and written procedures of the agency under which the action was taken.

(7) The audit or program review report or documented basis that led to the action.

(8) All other documents relevant to the action.

(g) The guaranty agency's referral notice to the Secretary regarding a limitation or suspension action must include—

(1) The documents described in paragraph (f) of this section; and

(2) Documents describing and substantiating the existence of one or more of the circumstances described in paragraph (j) of this section.

(h)(1) Within 60 days of the Secretary's receipt of a referral notice described in paragraph (f) or (g) of this section, the Secretary makes an initial assessment, based on the agency's record, as to whether the agency's action appears to comply with section 428(b)(1)(T) of the Act.

(2) In the case of a referral notice described in paragraph (g) of this section, the Secretary also determines whether one or more of the circumstances described in paragraph (j) of this section exist.

(3) If the Secretary concludes that the agency's action appears to comply with section 428(b)(1)(T) of the Act, and, if applicable, one or more of the circumstances described in paragraph (j) of this section exist, the Secretary notifies the school that the Secretary will review the guaranty agency's action to determine whether to disqualify the school from further participation in the FFEL programs and gives the school an opportunity within 30 days from the date the notice is mailed—

(i) To waive the review and be disqualified immediately; or

(ii) To request a review.

(i) The Secretary's review of the guaranty agency's action is limited to—

(1) A review of the written record of the agency's proceedings; and

(2) Whether the agency action was taken in accordance with procedures that were substantially the same as procedures established by the Secretary in 34 CFR part 668, subpart G.

(j) In the case of an action by an agency that limits or suspends a school's eligibility to participate in the agency's program, the agency shall provide the Secretary with a referral as described in paragraph (g) of this section only if—

(1) The school has not corrected the violation. A violation is corrected if, among other things, the school has fully satisfied all liabilities incurred by the school as a result of the violation, including its liability to the Secretary, or the school has arranged to satisfy those liabilities in a manner acceptable to the parties to whom the liabilities are owed;

(2) The school has not provided assurances satisfactory to the agency of future compliance with program requirements; or

(3) The guaranty agency determines that special circumstances warrant disqualification of the school from the FFEL programs for a significant period, notwithstanding the agency's decision not to terminate the school's eligibility to participate in the agency's program.

Subpart H—Special Allowance Payments on Loans Made or Purchased With Proceeds of Tax-Exempt Obligations

§ 682.800 Special allowance payments for loans financed by proceeds of tax-exempt obligations.

(a) The Secretary pays a special allowance on a loan that was made or acquired with the proceeds of an obligation exempt from taxation under section 103 of the Internal Revenue Code of 1986 and is held by or on behalf of an Authority if—

(1) For loans financed by an obligation issued after December 31, 1980 and before November 16, 1986, the Secretary approved—

(i) The Plan for Doing Business of the Authority that issued the obligation; and

(ii) The justification of need for the obligation if the obligation was issued after August 14, 1983; or

(2) The Plan for Doing Business of the Authority that issued the obligations has been approved by the Governor of the State from which the Authority received or will seek an allocation under section 103(n) of the Internal Revenue Code of 1986 after consultation with the principal guaranty agency for the State.

(b) The Secretary pays a special allowance—

(1) For loans described in paragraph (a)(1) of this section from the latest of—

(i) The date the Secretary approved the Plan for Doing Business of the Authority;

(ii) The date the Secretary approved the justification of need for the obligation, if issued after August 14, 1983; or

(iii) The date the loan was made or acquired by or on behalf of the Authority with proceeds of a tax-exempt obligation.

(2) For a loan described in paragraph (a)(2) of this section, from the latest of—

(i) The date the Governor approved the Plan for Doing Business of the Authority;

(ii) The date the loan was made or acquired by or on behalf of the Authority with proceeds of a tax-exempt obligation; or

(iii) November 16, 1986, if the loan was made or acquired with the proceeds of a tax-exempt obligation issued before that date by an Authority that did not receive before that date approval from the Secretary for its Plan for Doing Business, and, if applicable, its justification of need.

(c) The Authority shall submit a copy of the Plan for Doing Business to the Secretary under paragraph (a)(2) of this section within 60 days after receiving the Governor's approval.

(d) As used in this paragraph, the term *principal guaranty agency* means—

(1) The guaranty agency in the State with which the Secretary has signed a Basic Program Agreement under § 682.401; or

(2) If the Secretary has signed agreements with more than one agency in the State, the agency that has issued the majority of loan guarantees for students who are attending school in the State during the most recently ended Federal fiscal year.

(Authority: 20 U.S.C. 1077, 1078, 1078–1, 1078–2, 1078–3, 1082, 1087–1)

§ 682.801 Provisions required in Plan.

Each Plan submitted for the approval of the Governor must contain provisions necessary to ensure that—

(a) If an Authority acts as a secondary market for student loans, it shall exclude no eligible lender in the service area from participation in its program, and shall permit all eligible lenders to participate in its program on the same terms and conditions;

(b) No director, officer, or staff member of the Authority who receives compensation from the Authority may own stock in, or receive compensation of any kind from, any agency or organization that contracts to service and collect the loans in which the Authority has a legal or equitable interest;

(c) The Authority shall not pay transfer fees in excess of the costs of transferring a loan portfolio or a portion of it from the lender to the Authority;

(d) The Authority shall, within the limits of funds available and subject to applicable State and Federal law, make loans to, or purchase loans made to, all eligible borrowers who are residents of or who seek loans for a student to attend a school within the service area of the Authority; and

(e) The Authority has a plan under which the Authority shall pursue both the recruitment of new lenders to participate in a continuing program of benefits to students under the FFEL, SLS, and PLUS programs and the maintenance of existing lender commitments to the program; and

(Authority: 20 U.S.C. 1082, 1087–1)

§ 682.802 Submission of Plan for approval—required documentation.

An Authority shall submit with or include in each Plan submitted for the approval of the Governor the following:

(a) If the Authority is a secondary market, a description of the procedures used to inform eligible lenders of the program of the Authority, samples of announcements to lenders regarding the program, and a listing of the types of lenders and numbers of each type so informed.

(b) If the Authority contracts with an agent to service or collect loans in which the Authority has a legal or equitable interest, a sample of the form signed by all directors, officers, and staff of the Authority who receive compensation from the Authority certifying that these persons do not own stock in or receive compensation of any kind from that agent and a list of the persons who have signed the form.

(c) If the Authority is a secondary market, a schedule of the amount of loan transfer fees paid or to be paid by the Authority to parties from whom it purchases loans and, if the amount of the loan transfer fee is based on an estimate, an explanation of how that estimated amount was determined.

(d) A copy of any Federal or State law that the Authority believes limits its ability to make or purchase loans made to any eligible borrowers who are residents of, or who obtained loans for a student to attend a school located within, its service area.

(e) A copy of the plan under which the Authority pursues both the recruitment of new lenders to participate in a continuing program of benefits to students under each of the FFEL programs and the maintenance of existing lender commitments to the programs.

(f) A copy of the most recent independent audit of the Authority performed in accordance with the audit standards found in § 682.830.

(g) A copy of any survey instrument or written inquiry form to be used to solicit from schools, lenders, and secondary markets information by which the Authority measures unmet need for student loan credit.

(h) A certification that the Authority is in compliance with section 438(d)(2) of the Act (regarding patterns or practices resulting in denial of access to student loan credit for certain borrowers).

(Authority: 20 U.S.C. 1082, 1087–1)

§ 682.803 Amendments to Plan for Doing Business.

(a) After a Plan is approved, an Authority shall submit to the Governor or the Secretary amendments to the Plan or such documentation as may be needed to reflect accurately the policy and practice of the Authority within 30 days of the date that—

(1) An Authority amends any provision of a Plan that had previously been approved by that Governor or the Secretary; or

(2) Any documentation or representation previously submitted pursuant to § 682.802 is revised or rendered inaccurate in any material aspect.

(b) An Authority shall promptly amend its Plan to comply with changes in applicable statutes and regulations.

(Authority: 20 U.S.C. 1082, 1087–1)

§ 682.804 Failure to comply with Plan for Doing Business.

(a) If the Secretary finds that an Authority has failed to comply with any requirement of its Plan or of this subpart, the Secretary takes actions necessary to protect the interests of the United States. These actions may include the following:

(1) Withholding payment of special allowances.

(2) Suspending or revoking approval of the Plan.

(3) Determining that loans made or purchased with the proceeds of a tax-exempt obligation by the Authority or any entity acting for the Authority after the date of suspension or revocation are ineligible for payments of special allowances.

(4) Requiring reimbursement from the Authority of special allowances paid on loans made or purchased by the Authority or any entity acting for the Authority.

(b) The Secretary's decision to require repayment of funds by an Authority, to withhold payments of special allowance, or to suspend or revoke approval of a Plan does not become final until the Secretary provides the Authority with written notice of the intended action and an opportunity to be heard thereon. However, the Secretary may withhold payments or suspend approval of the Plan prior to giving notice and opportunity to be heard if the Secretary finds that emergency action necessary to prevent substantial harm to Federal interests.

(c) Once final, the Secretary's decision to require a repayment of funds or to take other remedial action against an Authority under this section is conclusive and binding on the Authority.

(Authority: 20 U.S.C. 1082, 1087–1)

§ 682.805 Sanctions for material misrepresentation.

(a) If at any time the Secretary determines that the submission for approval of a tax-exempt obligation or a Plan for Doing Business contains or contained a material misrepresentation, the Secretary may to the extent provided in paragraph (b) of this section—

(1) Require reimbursement from the Authority of special allowance payments to the Authority or to any other party on loans made or purchased with the proceeds of the issue with respect to which the misrepresentation was made; and

(2) Determine to be ineligible for special allowance payments any loans to be made or purchased by the Authority or any entity acting for the Authority with the unexpended proceeds of the issue with respect to which the misrepresentation was made.

(b) If an Authority uses funds from sources other than a tax-exempt obligation to retire an issue with respect to which the Secretary has determined that a material misrepresentation was made, the Secretary takes the adverse actions described in paragraph (a) of this section only with regard to those special allowance payments which accrued earlier than ninety days before that issue was retired.

(c) The Secretary's decision to require repayment of funds by an Authority, to withhold payments of special allowance, or to take any of the actions in § 682.804 does not become final until the Secretary provides the Authority with written notice of the intended action and an opportunity to be heard thereon. However, the Secretary may withhold payments or suspend approval of the Plan prior to giving notice and opportunity to be heard if the Secretary finds such emergency action necessary to prevent substantial harm to Federal interests.

(d) Once final, the Secretary's decision to require repayment of funds or to take other remedial action against an Authority under this section is conclusive and binding on the Authority.

(Authority: 20 U.S.C. 1082, 1087–1)

§§ 682.806–682.829 [Reserved]

§ 682.830 Audit standards.

(a) An Authority that is a governmental entity must be audited regarding its lending and loan purchasing program for compliance with its Plan and the provisions of § 682.801 in accordance with 31 U.S.C. 7502 and 34 CFR part 80, appendix G.

(b) An Authority that is a nonprofit organization must undergo an audit of its lending and loan purchasing program for compliance with its Plan and the provisions of § 682.801—

(1) Conducted in accordance with OMB Circular A–133 and any supplementary compliance guidelines issued by OMB and the Secretary; or

(2) If the Authority qualifies to submit a program-specific audit under criteria in OMB Circular A–133 and chooses to have such an audit performed, conducted in accordance with standards issued by the General Accounting Office (GAO) publication, *Government Auditing Standards*, and by the Office of Inspector General of the Department contained in the applicable audit guide.

(c) The audit must be conducted annually and the audit report must be submitted within 30 days of the completion of the audit report but no later than six months after the close of the audit period.

(d) Audits must be submitted to the regional office of the Office of Inspector General of the Department, to the Governor who approved the Plan of the Authority, and to the principal guaranty agency consulted by the Governor in approving that Plan.

(Authority: 20 U.S.C. 1082, 1087–1)

§§ 682.831–682.839 [Reserved]

§ 682.840 Prohibition against discrimination as a condition for receiving special allowance payments.

(a) For an Authority to receive special allowance payments on loans made or acquired with the proceeds of a tax-exempt obligation, the Authority or its agent may not engage in any pattern or practice that results in a denial of a borrower's access to loans under the FFEL programs because of the borrower's race, sex, color, religion, national origin, age, handicapped status, income, attendance at a particular institution within the area served by the Authority, length of the borrower's education program, or the borrower's academic year in school.

(b) The Secretary considers an Authority that makes or acquires loans guaranteed by an agency or organization that discriminates on one or more grounds listed in paragraph (a) of this section to have adopted a practice of denying access to loans on that ground unless the Authority makes provision for loan guarantees from other sources necessary to serve the borrowers excluded by that discriminatory policy.

(Authority: 20 U.S.C. 1082, 1087–1)

Appendix A—Standards for Acceptable Refund Policies by Participating Schools

For purposes of § 682.606(b), the Secretary considers guidelines VI, VII, and VIII of the following document to be acceptable elements of a fair and equitable school refund policy. The document, which is reproduced in its entirety for the convenience of the reader, was developed by the National Association of College and University Business Officers. The document does not affect a school's obligation to comply with other Department of Education regulations.

Policy Guidelines for Refund of Student Charges

(I) The governing board of the institution should review and approve the schedule of all institutional charges and refund policies applicable to students. The pricing of services and refund policies have important consequences to students, parents, the institution, and society; as such, pricing and refund policies should receive board attention and approval.

(II) Institutions should seek consumer views in the process of establishing and amending charge and refund structures. Decisions regarding institutional funds are ultimately the sole responsibility of the institution's legally designated fund custodians. However, consumer concerns do affect decision making, and involving consumers in decision making related to charges and refunds is a desirable approach for assessing student needs and creating public awareness of institutional requirements.

(III) Institutions should publish a current schedule of all student charges, a statement of the purpose for such charges, and related refund policies, and have them readily available free of charge to current and prospective students. Students and parents have a right to know what charges they will be expected to pay and what will or will not be refunded. They also have a right to know what services accompany payment to the charges. Informational materials published free for students and prospective students are ideal for this purpose.

(IV) Institutions should clearly designate all optional charges as "optional" in all published schedules and related materials. Clearly, charges that are mandatory and charges that are optional must be plainly differentiated in all printed materials. Also, the institution should state clearly in its schedule if a charge is optional for some students but required for others. Statements accompanying the schedule may include institutional endorsements of the optional program or service.

(V) Institutions should clearly identify charges and deposits that are nonrefundable as "nonrefundable" on all published schedules. Institutions determine on an individual basis which of their charges are refundable or non-refundable. In general, admissions fees, application fees, laboratory fees, facility and student activity fees, and other similar charges are not refundable. These fees are generally charged to cover the cost of activities such as processing applications and other student information, reserving academic positions, and establishing the limits of institutional programs and services, reserving housing space, and otherwise setting the fixed costs of the institution for the coming academic periods.

Institutions determine on an individual basis which of their deposits are refundable or nonrefundable. Some deposits will be nonrefundable or will be credited to a student's account (e.g., tuition deposits). Others are refundable according to the terms of the deposit agreement (e.g., deposits for breakage).

(VI) Institutions should refund housing rental charges, less a deposit, so long as written notification of cancellation is made prior to a well-publicized date that provides reasonable opportunity to make the space available to other students. Written notification on or before the beginning of the term of the contract is necessary to ensure utilization of housing units. During the term of the contract, room charges are generally not refundable. However, based on the program offered, space availability, debt service requirements, State and local laws, and other individual circumstances, institutions may provide for some more flexible refund guideline for housing.

(VII) Institutions should refund board charges in full, less a deposit, if written notification of cancellation is made prior to a well-publicized date that falls on or before the beginning of the term of the contract. Subsequent board charges should be refunded on a pro rata basis less a withdrawal fee. It is reasonable to make a refund for those goods and services not consumed. The withdrawal charge should reflect that portion of an institution's costs that are fixed for the term of the contract.

(VIII) The institutional tuition refund policy for an academic period should include the following minimum guidelines:

A. The institution should refund 100 percent of the tuition charges, less a deposit fee, if written notification of cancellation is made prior to a well-publicized date that falls on or before the first day of classes.

B. The institution should refund at least 25 percent of the tuition charge if written notification of withdrawal is made during the first 25 percent of the academic period. It is reasonable to refund tuition charges on a sliding scale if a student withdraws from his or her program prior to the end of the first 25 percent of the academic period unless State law imposes a more restrictive refund policy.

(IX) The institution should assess no penalty charges where the institution, as opposed to the student, is in error. The institution has assessed charges in error. Penalty charges, such as those involving late registration fees, change of schedule fees, late payment fees, should not be assessed if it is determined that the student is not responsible for the action causing the charge to be levied.

(X) Institutions should advise students that any notifications of withdrawal or cancellation and requests for refund must be in writing and addressed to the designated institution officer. A student's written notification of withdrawal or cancellation and request for a refund provides an accurate record of transactions and also ensures that such request will be processed on a timely basis. Acceptance of oral requests is an undesirable practice.

(XI) Institutions should pay or credit refunds due on a timely basis. The definition of "timely basis" should include the time required to process a formal student request for refund, to process a check if required, and to allow for mail delivery, when necessary. If an institution has a policy that a refund of an inconsequential amount will not be made, this policy should be published in part of all materials related to refund policies.

(XII) Institutions should publicize, as a part of their dissemination of information on

charges and refunds, that an appeal process exists for students or parents who feel that individual circumstances warrant exceptions from published policy. The informational materials should include the name, title, and address of the official responsible. Although charges and refund policies should reflect extensive consideration of student and institutional needs, it will not be possible to encompass in these structures the variety of personal circumstances that may exist or develop. Institutions are required to provide a system of due process to their students, and charges and refund policies are legitimately a part of that process. Students and parents should be informed regularly of procedures for requesting information concerning exceptions to published policies.

Appendix B—Student Status Confirmation Report

This appendix sets forth the model format and data elements for guarantee agencies to use in implementing a manual or automated Student Status Confirmation Report system as required by § 682.401(b)(18).

Student Status Confirmation Report

DATE: MM/DD/YY *GUARANTOR/INSTITUTION CODE:* (must accommodate eight numeric characters)

GUARANTOR/INSTITUTION NAME:

SOCIAL SECURITY NUMBER NAME PERMANENT ADDRESS
CORRECTION CORRECTION CORRECTION
**STATUS EFFECTIVE DATE ANTICIPATED GRADUATION DATE*
CORRECTION

*The valid enrollment status codes are as follows:
F=Full-time
H=Half-time or more but less than full-time.
L=Less than half-time. This code is used to specify students enrolled less than half-time.
X=Never attended the institution. This code is to specify those individuals on whose behalf a Stafford, SLS, or PLUS loan was made who enrolled in school but never attended classes.
Z=No record found. A thorough search of the institution's enrolled records revealed no information for this individual.
D=Deceased
A=Approved leave of absence
G=Graduated
W=Withdrawn

COMPLETED BY:
NAME
TITLE
TELEPHONE NUMBER
CERTIFICATION DATE

The following definitions apply to the SSCR data elements.

Data element	Definition
Date: MM/DD/YY	Date report is run and considered to be issued to school.
Social security number.	Valid 9-digit SSN assigned by Social Security Administration to student borrower or student on whose behalf a PLUS loan was borrowed.
Name	Last name, first name and middle initial of student borrower or student on whose behalf a PLUS loan was borrowed.
Address	Last known permanent address of student.
Anticipated graduation date.	Date recorded on agency's system. Please note any corrections to this date.
Effective date	Effective date of status reported, as follows: Full-time status, no record found and never attended—the report certification date. Half-time status—(1) the date the student dropped below full-time, or (2) if half-time status is the original enrollment status, the report certification date. Less than half-time status—the date the student dropped below half-time. Leave of absence—the date the student began a leave of absence approved in accordance with § 682.605(c). Graduated—the date the student completed the course requirements (not the date of the presentation of the diploma). Withdrawn—the date the student officially withdrew as determined by the school in accordance with § 682.605(b).
Certification date	The date the institution completed the SSCR.
Other information	Please note any corrections to SSN, name, or permanent address of which you are aware. Please note the effective date of this information to avoid replacing newer information with old.

Appendix C—Procedures for Curing Violations of the Due Diligence in Collection and Timely Filing of Claims Requirements Applicable to FISLP and Federal PLUS Program Loans and for Repayment of Interest and Special Allowance Overbillings [Bulletin L–77a]

Note: The following is a reprint of Bulletin L–77a, issued on January 7, 1983, with minor modifications made to reflect changes in the program regulations since that date. All references to "the date of this bulletin" refer to that date. All references made to the Federal Insured Student Loan Program (FISLP) shall be understood to include the Federal PLUS Program. The bulletin includes references to the 120- and 180-day default periods that used to apply to FFELP and PLUS Program loans. Public Law 99–272 established new default periods of 180 and 240 days (as set out in 34 CFR 682.200 of these regulations) for all new loans and many existing ones. Although the discussion in this Appendix C refers to the 120- and 180-day default periods, it is equally applicable to the new 180- and 240-day default periods.

Introduction

This bulletin prescribes procedures for lenders to use (1) to cure violations of the requirements for due diligence in collection ("due diligence") and timely filing of claims under the Federal Insured Student Loan Program (FISLP), and (2) to repay interest and special allowance overbillings made on loans evidencing such violations. See 34 CFR 682.507, 682.511.[1] These procedures allow for the reinstatement of a lender's eligibility for interest and special allowance and claim payments on loans evidencing such violations, under specified circumstances. These procedures apply to loans for which the first day of the 120-day or 180-day default period occurred on or after October 21, 1979 (the effective date of the September 17, 1979 regulations), whether or not the loans have previously been submitted as claims to the Secretary.

The due diligence and timely filing requirements governing the FISLP were established in response to requests from some lenders for more detailed regulatory guidance on the proper handling of FISLP loans. Despite the promulgation of these provisions, a number of lenders have failed to exercise the requisite care in their treatment of these loans, thereby increasing the risk of default thereon and, in many cases, prejudicing the Secretary's ability to collect from the borrowers. At the time the current due diligence and timely filing rules were issued, the Secretary anticipated that violations of these rules would be so infrequent as to permit requests for cures to be handled individually. However, the unexpectedly high incidence of violations of these rules has made continued case-by-case treatment of all cure requests administratively unmanageable. After carefully considering the views of lenders and other program participants, the Secretary has decided to exercise his authority under 20 U.S.C. 1082(a)(5), (6), and institute uniform procedures by which lenders with loans involving violations of the due diligence or timely filing requirements may cure these violations.

Due Diligence

Collection activity is required to begin immediately upon delinquency by the borrower in honoring the repayment obligation. This holds true whether or not the borrower received a repayment schedule or signed a repayment agreement. Under 34 CFR 682.200, default on a FISLP loan occurs when a borrower fails to make a payment when due, provided this failure persists for 120 days for loans payable in monthly installments, or for 180 days for loans payable in less frequent installments. If, however, the lender has added the optional provision to the promissory note requiring the borrower to execute a repayment agreement not later than 120 days prior to the expiration of the grace period, the loan entered repayment prior to September 4, 1985 (see 50 FR 35970), the lender sends the agreement to the borrower 150 days or more before the end of the grace period, and the agreement is not executed before the end of the grace period, default occurs at that time. One exception to this rule is as follows: If the holder of the loan is not the lender that made the loan, the holder may choose to forego enforcement of the optional 120-day provision in the note.

The 120/180 day default period applies regardless of whether payments were missed consecutively or intermittently. For example,

if the borrower, on a loan payable in monthly installments, makes his January 1st payment on time, his February 1st payment two months late (April 1st), his March 1st payment three months late (June 1st), and makes no further payments, the default period begins on February 1st, with the first delinquency, and ends on August 1st, when the April 1st payment becomes 120 days past due. The lender must treat the payment made on April 1st as the February 1st payment, since the February 1st payment had not been made prior to that time. Similarly, the lender must treat the payment made on June 1st as the March 1st payment, since the March payment had not been made prior to that time.

Note: Lenders are strongly encouraged to exercise forbearance, *prior* to default, for the benefit of borrowers who have missed payments intermittently but have otherwise indicated willingness to repay their loans. See 34 CFR 682.211. The forebearance process helps to reduce the incidence of default, and serves to emphasize for the borrower the importance of compliance with the repayment obligation.

Timely Filing

The 90-day filing period applicable to FISLP default claims is set forth in 34 CFR 682.511(e) (1) and (3). The 90-day filing period begins at the end of the 120/180 day default period. The lender must file a default claim on a loan in default by the end of the filing period, unless the borrower brings the account current before the end of the filing period. In such a case, the lender may choose not to file a claim on the loan at that time.

In addition, for any loan less than 210 days delinquent on the date of this bulletin, the lender need not file a claim on that loan before the 210th day of delinquency (120-day default period plus 90-day filing period) if the borrower brings the account less than 120 days delinquent before such 210th day. Thus, in the above example, if the borrower makes the April 1st payment on August 2nd, the 90-day filing period continues to run from August 1st, unless the loan was less than 210 days delinquent on the date of this bulletin. If the loan was less than 210 days delinquent on the date of this bulletin, then the August 2nd payment makes the loan 91 days delinquent, and the lender may, but need not file a default claim on the loan at that time. If, however, that loan again becomes 120 days delinquent, the lender must file a default claim within 90 days thereafter (unless the loan is again brought to less than 120 days delinquent prior to the end of that 90 day period). In other words, for any loan less than 210 days delinquent on the date of this bulletin, the Secretary will permit a lender to treat payments made during the filing period as "curing" the default if such payments are sufficient to make the loan less than 120 days delinquent.

If a lender fails to comply with either the due diligence or timely filing requirements, the affected loan ceases to be insured; that is, the lender loses its right to receive interest benefits, special allowance and claim payments thereon. Some examples of violations of the due diligence requirements are set out in section I.C. below.

I. Cure Procedures

A. Definitions

The following definitions apply to terms used throughout Section I of this bulletin.

Full payment means payment by the borrower, or another person (other than the lender) on the borrower's behalf, in an amount at least as great as the monthly payment amount required under the existing terms of the loan, exclusive of any forbearance agreement in force at the time of the default. (For example, if the original repayment schedule or agreement called for payments of $30 per month, but a forbearance agreement was in effect at the time of default that allowed the borrower to pay $15 per month for a specified time, and the borrower defaulted in making the reduced payments, a "full payment" would be $30, or two $15 payments in accordance with original repayment schedule or agreement.)

Reinstatement with respect to insurance coverage means the reinstatement of the lender's right to receive default, death, disability, or bankruptcy claim payments for the unpaid principal balance of the loan and for unpaid interest accruing on the loan after the date of reinstatement. Upon reinstatement of insurance, the borrower regains the right to receive forbearance or deferments, as appropriate. For purposes of this bulletin, "reinstatement" with respect to insurance on a loan does not include reinstatement of the lender's right to receive interest and special allowance payments on that loan. Reinstatement of the lender's right to receive interest and special allowance payments is addressed in section I.B.1, below.

B. General

1. Resumption of Interest and Special Allowance Billing on Loans Involving Due Diligence or Timely Filing Violations. For any loan on which a cure is attempted under this bulletin, the lender may resume billing for interest and special allowance on the loan only for periods following the earlier of (1) its receipt of the equivalent of three full payments thereon, after the date of this bulletin or the date of the violation, whichever is later, or (2) receipt by the borrower of an authorized deferment, after reinstatement of insurance coverage.

2. Reservation of the Secretary's Right to Strict Enforcement. While this bulletin allows cures to be attempted for particular violations in specified ways, the Secretary retains the option of refusing to permit or recognize cures in cases where, in the Secretary's judgment, a lender has committed an excessive number of severe violations of the due diligence or timely filing rules, and in cases where the best interests of the program otherwise require strict enforcement of these requirements. More generally, this bulletin states the Secretary's general policy and is not intended to limit in any way the authority and discretion afforded the Secretary by statute or regulations.

3. Applicability of the Cure Procedures to Particular Classes of Loans. The cure procedures outlined in this bulletin apply only to a loan for which the first day of the 120/180 day default period that ended with default by the borrower occurred on or after October 21, 1979, and which involve violations *only* of the due diligence and/or timely filing requirements.

The cure procedures applicable to loans involving due diligence violations also apply to loans involving violations of both the timely filing and due diligence requirements.

4. Excusal of Certain Due Diligence Violations. A lender whose claim was previously denied *solely* for violation of the timely filing rule, and who is permitted to cure that violation under the procedures set out in this bulletin, will not be required to utilize the procedures for curing due diligence violations, or to repay interest and special allowance improperly received from the Secretary as a result of a due diligence violation for periods prior to the timely filing violation. This applies even if, upon submission of the "cured" claim, the Secretary discovers that evidence of due diligence violations appeared in the file of the previously rejected claim.

The Secretary will also excuse a due diligence violation by a lender if the account was brought current by the borrower (or another, other than the lender, on the borrower's behalf) prior to the 120th/180th day of the delinquency period during which the violation occurred.

5. Treatment of Accrued Interest on "Cured" Claims—a. Due Diligence Violations. For any default claim involving "cured" violations of the due diligence rules, the Secretary will not reimburse the lender for any unpaid interest accruing after the first day of the 120/180 day period that culminated in default, and prior to the date of reinstatement of insurance coverage.

For any loan involving "cured" due diligence violations, the lender may capitalize unpaid interest accruing on the loan from the commencement of the 120/180 day default period to the date of the reinstatement of insurance coverage. See sections I.C. and D. below. However, if the lender later files a claim on that loan, the lender must deduct this capitalized interest from the amount of the claim. This deduction must be reflected in column 15 on the ED Form 1207, Lender's Application for Insurance Claim on Federal Insured Student Loan, filed with the claim evidencing the cure.

b. Timely Filing Violations. For any default claim involving "cured" violations of the timely filing rules, the Secretary will not reimburse the lender for unpaid interest accruing after the end of the 120/180 day default period that culminated in default, and prior to the date of reinstatement of insurance coverage.

For any default claim involving a "cured" timely filing violation, if insurance coverage is later reinstated, the lender may capitalize unpaid interest accruing on the loan from the commencement of the original 120/180 day default period to the date of the reinstatement of insurance coverage. See sections I.C. and D. below. However, if the lender later files a claim, on that loan, the lender must deduct this capitalized interest from the amount of the claim, except that the lender need not deduct from the claim unpaid interest that accrued on the loan

during the original 120/180 day default period. This deduction must be reflected in Column 15 of the ED Form 1207, Lender's Application for Insurance Claim on Federal Insured Student Loan, filed with the claim evidencing the cure.

Some timely filing cures will not reinstate insurance coverage. For treatment of accrued interest in such cases, see Section I.D.1.c.

6. Documents to be Submitted with "Cured" Claims. The Secretary requests that any lender submitting a claim on a loan involving "cured" violations identify the claim as such with a note in the claim file stapled to the new ED Form 1207.

For all "cured" claims, the lender must submit:

- For loans on which a claim was previously rejected, all documents sent by the regional office with the original claim (when the claim was rejected and returned to the lender), including without limitation, the original ED Form 1207 and all documents showing the reason(s) for the original rejection;
- All documents ordinarily required in connection with the submission of a default claim, including, without limitation, the promissory note, which must bear a valid assignment to the United States of America;
- A new ED Form 1207; and
- All documents showing that the lender has complied with the applicable cure procedures and requirements.

C. Cures for Violations of the Due Diligence in Collection Requirements (34 CFR 682.507)

A violation of the due diligence in collection rules occurs when a lender fails to meet requirements found in 34 CFR 682.507. For example, a violation occurs if the lender fails to:

- Remind the borrower of the date a missed payment was due within 15 days of delinquency;
- Attempt to contact the borrower and any endorser at least 3 times at regular intervals during the rest of the 120/180 day default period;
- Request preclaims assistance from the Department of Education;
- Request skip-tracing assistance from the Secretary, if required, or
- Send a final demand letter to the borrower exercising the option to accelerate the due date for the outstanding balance of the loan, unless the lender does not know the borrower's address as of the 90th day of delinquency.

1. Reinstatement of Insurance Coverage. In the case of a due diligence violation, the lender may utilize either of the two procedures described below for obtaining reinstatement of insurance coverage on the loan. After the date of this bulletin, or after the date of the violation, whichever is later:

(a) The lender obtains a new repayment agreement signed by the borrower which complies with the ten and fifteen year repayment limitations set out in 34 CFR 682.209(a)(7); or

(b) The lender obtains 3 full payments. If the borrower later defaults, the lender must submit evidence of these payments (e.g., copies of the checks) with the claim.

2. Borrower's Deemed Current As of Date of Cure. On the date the lender receives a signed copy of the new repayment agreement, or receives the third (curing) payment, insurance coverage on the loan is reinstated, and the borrower shall be deemed by the lender to be current in repaying the loan and entitled to all rights and benefits available to FISLP borrowers. If the borrower later becomes delinquent in repayment, the lender shall follow the collection procedures set out in 34 CFR 682.507, and the timely filing requirements set out in 34 CFR 682.511.

D. Cures for Violations of the Timely Filing Requirements (34 CFR 682.511)

1. Default Claims.—a. Reinstatement of Insurance Coverage. In order to obtain reinstatement of insurance coverage on a loan in the case of a timely filing violation, the lender must first locate the borrower after the date of this bulletin, or after the date of the violation, whichever is later (see section I.D.1.d. for description of acceptable evidence of location). Then, the lender must send to the borrower, at the address at which the borrower was located, (i) a new repayment agreement, to be signed by the borrower, which complies with the ten and fifteen year repayment limitations set out in 34 CFR 682.209(a)(7), along with (ii) a collection letter indicating in strong terms the seriousness of the borrower's delinquency and its potential effect on his or her credit rating if repayment is not commenced or resumed.

If, within 30 days after the lender sends these items, the borrower fails to make a full payment or to sign and return the new repayment agreement, the lender shall, within 5 working days thereafter, send the borrower a copy of the attached "48 hour" collection letter, on the lender's letterhead. (See attachment A.)

b. Borrower Deemed Current Under Certain Circumstances. If, within 45 days after the lender sends the new repayment agreement to the borrower for signature, the borrower makes a full payment or signs and returns the new repayment agreement, insurance coverage on the loan is reinstated. The borrower shall be deemed by the lender to be current in repaying the loan and entitled to all rights and benefits available to FISLP borrowers. If the borrower later becomes delinquent in repayment, the lender shall follow the collection steps in 34 CFR 682.507 and the timely filing requirements in 34 CFR 682.511.

c. Borrower Deemed in Default Under Certain Circumstances. If the borrower does not make a full payment, or sign and return the new repayment agreement, within 45 days after the lender sends the new repayment agreement, the lender shall deem the borrower to be in default. The lender shall then file a default claim on the loan accompanied by acceptable evidence of location (see I.D.1.d below), within 30 days after the end of such 45-day period. Although insurance coverage is not reinstated on loans involving these circumstances, the Secretary will honor default claims submitted in accordance with this paragraph on the outstanding principal balance of such loans, and on unpaid interest accruing on the loan during the 120/180 day default period.

d. Acceptable Evidence of Location. Only the following documentation is acceptable as evidence that the lender has located the borrower:

(i) Postal receipt signed by the borrower not more than 25 days prior to the date on which the lender sent the new repayment agreement, indicating acceptance of correspondence from the lender by the borrower at the address shown on the receipt; *or*

(ii) A completed "Certification of Borrower Location" form (Attachment B).

2. Death, Disability, and Bankruptcy Claims. Lenders may immediately resubmit any death or disability claim which was rejected solely for failure to meet the 60 day timely filing requirements (see 34 CFR 685.511(e)(2)). However, the Secretary will not pay any such claim if, before the date the lender determined that the borrower died or was totally and permanently disabled, the lender had violated the due diligence or timely filing requirements applicable to default claims with respect to that loan. Interest that accrued on the loan after the expiration of the 60-day filing period remains uninsured by the Secretary, and the lender must repay all interest and special allowance received on the loan for periods after the expiration of the 60-day filing period.

The Secretary has determined that, in the vast majority of cases, the failure of a lender to comply with the timely filing requirement applicable to *bankruptcy* claims causes irreparable harm to the Secretary's ability to contest the discharge of the loan by the court, or to otherwise collect from the borrower. Therefore, the Secretary has decided not to permit cures for violations of the timely filing requirement applicable to bankruptcy claims, except when the lender can demonstrate that the bankruptcy action has concluded and that the loan has not been discharged in bankruptcy. In that case, the lender shall treat the loan as in default. The Secretary will honor a default claim later filed on such a loan only if the lender has met the cure requirements in section I.C. above for due diligence violations.

II. Repayment of Interest and Special Allowance on Loans Evidencing Violations of the Due Diligence or Timely Filing Requirements

A. General Rule

It has always been the Secretary's interpretation of the FISLP statute and regulations that a lender's right to receive interest and special allowance payments on a FISLP loan terminates immediately following the lender's violation of the due diligence or timely filing requirements. This applies whether or not the lender has filed a claim on the loan. In other words, lenders may receive interest and special allowance only on loans which are insured by the Secretary. Since these violations result in the termination of insurance, they also result in the termination of FISLP benefits.

B. Cessation of Billing on Loans Evidencing Violations of the Due Diligence or Timely Filing Requirements

Any lender currently billing the Secretary for interest and special allowance on a loan that the lender knows involves a due diligence or timely filing violation must cease doing so immediately. However, lenders are not required at this time to review their loan portfolios for due diligence and timely filing violations.

C. Determination of Amounts of Interest and Special Allowance That Must Be Repaid

1. Due Diligence Violations. In the case of due diligence violations, it is often difficult to ascertain the precise date on which a violation occurred. For the administrative ease of the Secretary and lenders, the Secretary has decided to waive his right to recoup interest and special allowance payments made to a lender for periods between the date of a due diligence violation and the end of the 120/180 day default period. However, any lender that has received interest or special allowance payments from the Secretary for periods after the end of the 120/180 day default period on a loan that the lender *knows* involves a due diligence violation must promptly repay those amounts.

2. Timely Filing Violations. In the case of timely filing violations, the lender loses its right to receive interest and special allowance payments as of the expiration of the applicable timely filing period. Therefore, any lender that has received interest or special allowance payments from the Secretary for periods following the end of the applicable timely filing period on a loan that the lender knows involves a timely filing violation must repay those amounts.

3. Situations in Which a Lender May Have Received Interest Benefits for Periods During Which a Loan was Uninsured. Because most due diligence violations, and timely filing violations, occur after termination of the grace period, interest payments are ordinarily not affected by such violations. However, there are three types of situations in which a lender may have received interest payments from the Secretary to which it was not entitled due to a due diligence or timely filing violation.

a. Promissory notes that include a requirement that the borrower sign a repayment agreement no later than 120 days prior to the expiration of the grace period. In such cases, a due diligence violation may occur during the grace period, when the lender may otherwise have been eligible to receive interest benefits. However, the lender need not repay that interest to the Secretary. See II.C.1. above.

b. Deferment Periods. A due diligence violation may occur prior to a deferment period when the lender would otherwise have been eligible to receive interest benefits.

c. Loans Made Prior to December 15, 1968. A loan disbursed prior to December 15, 1968, and which qualified for payment of Federal interest benefits at the time the loan was disbursed, qualifies for payment of a 3 percent interest subsidy on the unpaid principal balance during the entire repayment period, provided the loan remains insured. In the case of such a loan, a due diligence or timely filing violation terminates the lender's eligibility for the 3 percent payments.

D. Procedures for Repayment of Federal Interest Benefits and Special Allowance Received by a Lender for Periods During Which a Loan Was Uninsured

A lender must make the repayments of interest and/or special allowance discussed in II.C. above, by way of an adjustment during the two quarters immediately following the discovery of the violation. These adjustments must be reported on the normal Lender's Interest and Special Allowance Request and Report (ED Form 799). Lenders are requested not to send a check with the adjustment; the overpaid amount will be deducted by the Secretary from the lender's next regular interest and special allowance payment. For five years after any loan for which an adjustment is made is repaid in full, the lender shall retain a record of the basis for the adjustment showing the amount(s) of the overbilling(s), and the date it used for cessation of interest or special allowance eligibility in calculating the overbilled amount. See 34 CFR 682.515(a)(2).

Appendix D—Policy for Waiving the Secretary's Right To Recover or Refuse To Pay, Interest Benefits, Special Allowance, and Reinsurance on Stafford, PLUS, Supplemental Loans for Students, and Consolidation Program Loans Involving Lenders' Violations of Federal Regulations Pertaining to Due Diligence in Collection or Timely Filing of Claims [Bulletin 88–G–138].

Note: The following is a reprint of Bulletin 88–G–138, issued on March 11, 1988, with modifications made to reflect changes in the program regulations. For a loan that has lost reinsurance prior to December 1, 1992, this policy applies only through November 30, 1995. For a loan that loses reinsurance on or after December 1, 1992, this policy applies until three years after the default claim filing deadline.

Introduction

This letter sets forth the circumstances under which the Secretary, pursuant to sections 432(a) (5) and (6) of the Higher Education Act of 1965 and 34 CFR §§ 682.406(b) and 682.413(f), will waive certain of his rights and claims with respect to Stafford Loans, PLUS, Supplemental Loans for Students (SLS), and Consolidation Program loans made under a guaranty agency program that involve violations of Federal regulations pertaining to due diligence in collection or timely filing. (These programs are collectively referred to in this letter as the FFEL Programs.) This policy applies to due diligence violations on loans for which the first day of delinquency occurred on or after March 10, 1987 (the effective date of the November 10, 1986 due diligence regulations) and to timely filing violations occurring on or after December 26, 1986, whether or not the affected loans have been submitted as claims to the guaranty agency.

The Secretary has been implementing a variety of regulatory and administrative actions to minimize defaults in the FFEL Programs. As a part of this effort, the Secretary published final regulations on November 10, 1986 requiring lenders and guaranty agencies to undertake specific due diligence activities to collect delinquent and defaulted loans, and establishing deadlines for the filing of claims by lenders with guaranty agencies. In recognition of the time required for agencies and lenders to modify their internal procedures, the Secretary delayed for four months the date by which lenders were required to comply with the new due diligence requirements. Thus, § 682.411 of the regulations, which established minimum due diligence procedures that a lender must follow in order for a guaranty agency to receive reinsurance on a loan, became effective for loans for which the first day of delinquency occurred on or after March 10, 1987. The regulations make clear that compliance with these minimum requirements, and with the new timely filing deadlines, is a condition for an agency's receiving or retaining reinsurance payments made by the Secretary on a loan. See 34 CFR 682.406(a)(2), (a)(4), 682.413(b)(1). The regulations also specify that a lender must comply with § 682.411 and with the applicable filing deadline, as a condition for its right to receive or retain interest benefits and special allowance on a loan for certain periods. *See* 34 CFR 682.300(b)(2)(vi), 682.413(a)(1).

The Department has received inquiries regarding the procedures by which a lender may "cure" a violation of § 682.411 regarding diligent loan collection, or of the 45-day deadline for the filing of default claims found in § 682.406(a)(4), in order to reinstate the agency's right to reinsurance, and the lender's right to interest benefits and special allowance. Preliminarily, please note that, absent an exercise of the Secretary's waiver authority, a guaranty agency may not receive or retain reinsurance payments on a loan on which the lender has violated the Federal due diligence or timely filing requirements, even if the lender has followed a cure procedure established by the agency. Under §§ 682.406(b) and 682.413(f), the Secretary—not the guaranty agency—decides whether to reinstate reinsurance coverage on a loan involving such a violation, or any other violation of Federal regulations. A lender's violation of a guaranty agency's requirement that affects the agency's guarantee coverage also affects reinsurance coverage. See §§ 682.406(a)(5); and 682.413(b). As §§ 682.406(a)(6) and 682.413(b) make clear, a guaranty agency's cure procedures are relevant to reinsurance coverage only insofar as they allow for cure of violations of requirements established by the *agency* affecting the loan insurance it provides to lenders. In addition, all such requirements must be submitted to the Secretary for review and approval, under 34 CFR 682.401(d).

References throughout this letter to "due diligence and timely filing" rules, requirements, and violations should be understood to mean only the Federal rules cited above, unless the context clearly requires otherwise.

A. Scope

This letter outlines the Secretary's waiver policy regarding certain violations of Federal due diligence or timely filing requirements on a loan insured by a guaranty agency. Unless your agency receives notification to the contrary, or the lender's violation involves fraud or other intentional misconduct, you may treat as reinsured any otherwise reinsured loan involving such a violation that has been cured in accordance with this letter.

B. Duty of a Guaranty Agency to Enforce Its Standards

As noted above, a lender's violation of a guaranty agency's requirement that affects the agency's guarantee coverage also affects reinsurance coverage. Thus, as a general rule, an agency that fails to enforce such a requirement and pays a default claim involving a violation is not eligible to receive reinsurance on the underlying loan. However, in light of the waiver policy outlined below, which provides more stringent cure procedures for violations occurring on or after May 1, 1988 than for pre-May 1, 1988 violations, some guarantee agencies with more stringent policies than the policy outlined below for the pre-May 1 violations have indicated that they wish to relax their own policies for violations of agency rules during that period. While the Secretary does not encourage any agency to do so, the Secretary will permit an agency to take either of the following approaches to its enforcement of its own due diligence and timely filing rules for violations occurring before May 1, 1988.

(1) The agency may continue to enforce its rules, even if they result in the denial of guarantee coverage by the agency on otherwise reinsurable loans; *or*

(2) The agency may decline to enforce its rules as to any loan that would be reinsured under the retrospective waiver policy outlined below. In other words, for violations of a guaranty agency's due diligence and timely filing rules occurring before May 1, 1988, a guaranty agency is authorized, but not required, to retroactively revise its own due diligence and timely filing standards to treat as guaranteed any loan amount that is reinsured under the retrospective enforcement policy outlined in section I.C.1., below. However, for any violation of an agency's due diligence or timely filing rules occurring on or after May 1, 1988, the agency must resume enforcing those rules in accordance with their terms, in order to receive reinsurance payments on the underlying loan. For these post-April 30 violations, and for any other violation of an agency's rule affecting its guarantee coverage,

the Secretary will treat as reinsured all loans on which the agency has engaged in, and documented, a case-by-case exercise of reasonable discretion allowing for guarantee coverage to be continued or reinstated notwithstanding the violation. But any agency that otherwise fails, or refuses, to enforce such a rule does so without the benefit of reinsurance coverage on the affected loans, and the lenders continue to be ineligible for interest benefits and special allowance thereon.

C. Due Diligence

Under 34 CFR 682.200, default on a FFEL Program loan occurs when a borrower fails to make a payment when due, provided this failure persists for 180 days for loans payable in monthly installments, or for 240 days for loans payable in less frequent installments. The 180/240-day default period applies regardless of whether payments were missed consecutively or intermittently. For example, if the borrower, on a loan payable in monthly installments, makes his January 1st payment on time, his February 1st payment two months late (April 1st), his March 1st payment three months late (June 1st), and makes no further payments, the delinquency period begins on February 2nd, with the first delinquency, and default occurs on September 29th, when the April payment becomes 180 days past due. The lender must treat the payment made on April 1st as the February 1st payment, since the February 1st payment had not been made prior to that time. Similarly, the lender must treat the payment made on June 1st as the March 1st payment, since the March payment had not been made prior to that time.

Note: Lenders are strongly encouraged to exercise forbearance, prior to default, for the benefit of borrowers who have missed payments intermittently but have otherwise indicated willingness to repay their loans. See 34 CFR 682.211. The forbearance process helps to reduce the incidence of default, and serves to emphasize for the borrower the importance of compliance with the repayment obligation.

D. Timely Filing

The 90-day filing period applicable to FFEL Program default claims is set forth in 34 CFR 682.406(a)(5). The 90-day filing period begins at the end of the 180/240-day default period. The lender ordinarily must file a default claim on a loan in default by the end of the filing period. However, the lender may, but need not, file a claim on that loan before the 270th day of delinquency (180-day default period plus 90-day filing period) if the borrower brings the account less than 180 days delinquent before such 270th day. Thus, in the above example, if the borrower makes the April 1st payment on September 30th, that payment makes the loan 151 days delinquent, and the lender may, but need not, file a default claim on the loan at that time. If, however, the loan again becomes 180 days delinquent, the lender must file a default claim within 90 days thereafter (unless the loan is again brought to less than 180 days delinquent prior to the end of that 90-day period). In other words, the Secretary will permit a lender to treat payments made during the filing period as curing the default if such payments are sufficient to make the loan less than 180 days delinquent.

Section I of this letter outlines the Secretary's waiver policy for due diligence and timely filing violations. As noted above, to the extent that it results in the imposition of a lesser sanction than that available to the Secretary by statute or regulation, this policy reflects the exercise of the Secretary's authority to waive the Secretary's rights and claims in this area. Section II discusses the issue of the due date of the first payment on a loan, and the application of the waiver policy to that issue. Section III provides guidance on several issues related to due diligence and timely filing as to which clarification has been requested by some program participants.

I. Waiver Policy

A. Definitions

The following definitions apply to terms used throughout this letter:

Full payment means payment by the borrower, or another person (other than the lender) on the borrower's behalf, in an amount at least as great as the monthly payment amount required under the existing terms of the loan, exclusive of any forbearance agreement in force at the time of the default. (For example, if the original repayment schedule or agreement called for payments of $50 per month, but a forbearance agreement was in effect at the time of default that allowed the borrower to pay $25 per month for a specified time, and the borrower defaulted in making the reduced payments, a "full payment" would be $50, or two $25 payments in accordance with the original repayment schedule or agreement.) In the case of a payment made by cash, money order, or other means that do not identify the payor that is received by a lender after the date of this letter, that payment may constitute a "full payment" only if a senior officer of the lender or servicing agent certifies that the payment was not made by or on behalf of the lender or servicing agent.

Reinstatement with respect to reinsurance coverage means the reinstatement of the guaranty agency's right to receive reinsurance payments on the loan after the date of reinstatement. Upon reinstatement of reinsurance, the borrower regains the right to receive forbearance or deferments, as appropriate. "Reinstatement" with respect to reinsurance on a loan also includes reinstatement of the lender's right to receive interest and special allowance payments on that loan.

"Gap" in collection activity on a loan means:

(a) The period between the initial delinquency and the first collection activity;
(b) The period between collection activities (a request for preclaims assistance is considered a collection activity);
(c) The period between the last collection activity and default; or
(d) The period between the date a lender discovers a borrower has "skipped" and the lender's first skip-tracing activity.

Note: the concept of "gap" is used herein simply as one measure of collection activity. For loans subject to the FFEL and PLUS programs regulations published on November 10, 1986, not all gaps are violations of the due diligence rules.

Violation with respect to the due diligence requirements in § 682.411 means the failure to timely complete a required diligent phone contact effort, the failure to timely send a required letter (including a request for preclaims assistance), or the failure to timely engage in a required skip-tracing activity. If during the deliquency period, a gap of more than 45 days occurs (more than 60 days for loans with a transfer), the lender must satisfy the requirement outlined in I.D.1. for reinsurance to be reinstated. The day after the 45-day gap (or 60 for loans with a transfer) will be considered the date that the violation occurred.

Transfer means any action, including, but not limited to, the sale of the loan, that results in a change in the system used to monitor or conduct collection activity on a loan from one system to another.

B. General

1. Resumption of Interest and Special Allowance Billing on Loans Involving Due Diligence or Timely Filing Violations. For any loan on which a cure is required under this letter in order for the agency to receive any reinsurance payment, the lender may resume billing for interest and special allowance on the loan only for periods following its completion of the required cure procedure.

2. Reservation of the Secretary's Right to Strict Enforcement. While this letter describes the Secretary's general waiver policy, the Secretary retains the option of refusing to permit or recognize cures, or of insisting on strict enforcement of the remedies established by statute or regulation, in cases where, in the Secretary's judgment, a lender has committed an excessive number of severe violations of due diligence or timely filing rules, and in cases where the best interests of the United States otherwise require such strict enforcement. More generally, this bulletin states the Secretary's general policy and is not intended to limit in any way the authority and discretion afforded the Secretary by statute or regulation.

3. Interest, Special Allowance, and Reinsurance Repayment Required as a Condition for Exercise of the Secretary's Waiver Authority. The Secretary's waiver of the right to recover or refuse to pay reinsurance, interest benefits, or special allowance payments, and recognition of cures for due diligence and timely filing violations, are conditioned on the following:

(1) The guaranty agency and lender shall ensure that the lender repays all interest benefits and special allowance received on loans involving violations occurring prior to May 1, 1988, for which the lender is ineligible under the waiver policy for the "retrospective period" described in section I.C.1., below, or under the waiver policy for timely filing violations described in section I.E.1., below, by an adjustment to one of the next three quarterly billings for interest benefits and special allowance submitted by the lender in a timely manner after May 1, 1988. The guaranty agency's responsibility in this regard is satisfied by receipt of a

certification from the lender that this repayment has been made in full.

(2) The guaranty agency, on or before October 1, 1988, shall repay all reinsurance received on loans involving violations occurring prior to May 1, 1988, for which the agency is ineligible under the waiver policy for the "retrospective period" described in section I.C.1., below, or under the waiver policy for timely filing violations described in section I.E.1., below. Pending completion of the repayment described above, a lender or guaranty agency may submit billings to the Secretary on loans that are eligible for reinsurance under the waiver policy in this letter until it learns that repayment in full will not be made, or until the deadline for a repayment has passed without it being made, whichever is earlier. Of course, a lender or guaranty agency is prohibited from billing the Secretary for program payments on any loan amount that is not eligible for reinsurance under the waiver policy outlined in this letter. In addition to the repayments required above, any amounts received in the future in violation of this prohibition must immediately be repaid to the Secretary.

4. Applicability of the Waiver Policy to Particular Classes of Loans. The policy outlined in this letter applies only to a loan for which the first day of the 180/240-day default period that ended with default by the borrower occurred on or after March 10, 1987, or, in the case of a timely filing violation, December 26, 1986, and that involves violations only of the due diligence and/or timely filing requirements. For a loan that has lost reinsurance prior to December 1, 1992, this policy applies only through November 30, 1995. For a loan that loses reinsurance on or after December 1, 1992, this policy applies until three years after the default claim filing deadline.

5. Excuse of Certain Due Diligence Violations. Except as noted in section II, below, if a loan has due diligence violations but was later cured and brought current, those violations will not be considered in determining whether a loan was serviced in accordance with 34 CFR 682.411. In that case, the Secretary will only examine the due diligence performed in the 180 days of delinquency immediately before default. However, an examination of the activity that occurred with respect to the account before it began the 180-day delinquency period may be necessary to verify the repayment status of the loan at the beginning of the delinquency period.

6. Excuse of Timely Filing Violations Due to Performance of a Guaranty Agency's Cure Procedures. If, prior to May 1, 1988, and prior to the filing deadline, a lender commenced the performance of collection activities specifically required by the guaranty agency to cure a due diligence violation on a loan, the Secretary will excuse the lender's timely filing violation if the lender completes the additional activities within the time period permitted by the guaranty agency, and files a default claim on the loan not more than 45 days after completing the additional activities.

7. Treatment of Accrued Interest on "Cured" Claims. For any loan involving any violation of the due diligence or timely filing rules for which a "cure" is required under section I.C. or I.E., below, for the agency to receive a reinsurance payment, the Secretary will not reimburse the guaranty agency for any unpaid interest accruing after the date of the earliest unexcused violation occurring after the last payment received before the cure is accomplished, and prior to the date of reinstatement of reinsurance coverage. The lender may capitalize unpaid interest accruing on the loan from the date of the earliest unexcused violation to the date of the reinstatement of reinsurance coverage. However, if the agency later files a claim for reinsurance on that loan, the agency must deduct this capitalized interest from the amount of the claim. Some cures will not reinstate coverage. For treatment of accrued interest in such cases, see Section I.E.1.c., below.

C. Waiver Policy for Violations of the Federal Due Diligence in Collection Requirements (34 CFR 682.411

A violation of the due diligence in collection rules occurs when a lender fails to meet the requirements found in 34 CFR 682.411. However, if a lender makes all required calls and sends all required letters during any of the delinquency periods described in that section, the lender is considered to be in compliance with that section for that period, even if the letters were sent before the calls were made.

The special provisions for transfers set forth below apply whenever the violation(s) and, if applicable, the gap, were due to a transfer, as defined in section I.A., above.

1. Retrospective Period. For one or more due diligence violations occurring during the period March 10, 1987–April 30, 1988—

a. There will be no reduction or recovery by the Secretary of payments to the lender or guaranty agency if no gap of 46 days or more (61 days or more for a transfer) exists.

b. If a gap of 46–60 days (61–75 days for a transfer) exists, principal will be reinsured, but accrued interest, interest benefits, and special allowance otherwise payable by the Secretary for the delinquency period are limited to amounts accruing through the date of default.

c. If a gap of 61 days or more (76 days or more for a transfer) exists, the borrower must be located after the gap, either by the agency or the lender, in order for reinsurance on the loan to be reinstated. (*See* section I.E.1.d., below, for a description of acceptable evidence of location.) In addition, if the loan is held by the lender or after March 15, 1988, the lender must follow the steps described in section I.E.1., or receive a full payment or a new signed repayment agreement, in order for the loan to again be eligible for reinsurance. The lender must repay all interest benefits and special allowance received for the period beginning with its earliest unexcused violation, occurring after the last payment received before the cure is accomplished, and ending with the date, if any, that reinsurance on the loan is reinstated.

2. Prospective Period. For due diligence violations occurring on or after May 1, 1988——

a. There will be no reduction or recovery by the Secretary of payments to the lender or guaranty agency if there is no violation of Federal requirements of 6 days or more (21 days or more for a transfer.)

b. If there exists not more than 2 violations of 6 days or more each (21 days or more for a transfer), and no gap of 46 days or more (61 days or more for a transfer) exists, principal will be reinsured, but accrued interest, interest benefits, and special allowance otherwise payable by the Secretary for the delinquency period will be limited to amounts accruing through the date of default.

However, the lender must complete all required activities before the claim filing deadline, except that a preclaims assistance request must be made before the 240th day of delinquency. If the lender fails to make this request by the 240th day, the Secretary will not pay any accrued interest, interest benefits, and special allowance for the most recent 180 days prior to default. If the lender fails to complete any other required activity before the claim filing deadline, accrued interest, interest benefits, and special allowance otherwise payable by the Secretary for the delinquency period will be limited to amounts accruing through the 90th day before default.

c. If there exists 3 violations of 6 days or more each (21 days or more for a transfer) and no gap of 46 days or more (61 days or more for a transfer), the lender must satisfy the requirements outlined in I.E.1., or receive a full payment or a new signed repayment agreement in order for reinsurance on the loan to be reinstated. The Secretary does not pay any interest benefits or special allowance for the period beginning with the lender's earliest unexcused violation occurring after the last payment received before the cure is accomplished, and ending with the date, if any, that reinsurance on the loan is reinstated.

d. If there exists more than three violations of 6 days or more each (21 days or more for a transfer) of any type, or a gap of 46 days (61 days for a transfer) or more and at least one violation, the lender must satisfy the requirement outlined in section I.D.1., for reinsurance on the loan to be reinstated. The Secretary does not pay any interest benefits or special allowance for the period beginning with the lender's earliest unexcused violation occurring after the last payment received before the cure is accomplished, and ending with the date, if any, that reinsurance on the loan is reinstated.

D. Reinstatement of Reinsurance Coverage for Certain Egregious Due Diligence Violations

1. Cures. In the case of a loan involving violations described in section I.C.2.d., above, the lender may utilize either of the two procedures described below for obtaining reinstatement of reinsurance coverage on the loan.

a. After the violations occur, the lender obtains a new repayment agreement signed by the borrower. The repayment agreement must comply with the ten-year repayment limitations set out in 34 CFR 682.209(a)(7); or

b. After the violations occur, the lender obtains one full payment. If the borrower later defaults, the guaranty agency must obtain evidence of this payment (e.g., a copy of the check) from the lender.

2. *Borrower Deemed Current as of Date of Cure.* On the date the lender receives a new signed repayment agreement or the curing payment under section I.D.1., above, reinsurance coverage on the loan is reinstated, and the borrower shall be deemed by the lender to be current in repaying the loan and entitled to all rights and benefits available to borrowers who are not in default. The lender shall then follow the collection and timely filing requirements applicable to the loan.

E. Cures for Timely Filing Violations and Certain Due Diligence Violations

1. *Default Claims—a. Reinstatement of Insurance Coverage.* Except as noted in section I.B.6., in order to obtain reinstatement of reinsurance coverage on a loan in the case of a timely filing violation, a due diligence violation described in section I.C.2.c., or a due diligence violation described in section I.C.1.c. where the lender holds the loan on or after March 15, 1988, the lender must first locate the borrower after the gap, or after the date of the last violation, as applicable. (See section I.E.1.d. for description of acceptable evidence of location.) Within 15 days thereafter, the lender must send to the borrower, at the address at which the borrower was located, (i) a new repayment agreement, to be signed by the borrower, that complies with the ten-year repayment limitations set out in 34 CFR 682.209(a)(7), along with (ii) a collection letter indicating in strong terms the seriousness of the borrower's delinquency and its potential effect on his or her credit rating if repayment is not commenced or resumed.

If, within 15 days after the lender sends these items, the borrower fails to make a full payment or to sign and return the new repayment agreement, the lender shall, within 5 days thereafter, diligently attempt to contact the borrower by telephone. Within 5–10 days after completing these efforts, the lender shall again diligently attempt to contact the borrower by telephone. Finally, within 5–10 days after completing these efforts, the lender shall send a forceful collection letter indicating that the entire unpaid balance of the loan is due and payable, and that, unless the borrower immediately contacts the lender to arrange repayment, the lender will be filing a default claim with the guaranty agency.

b. Borrower Deemed Current Under Certain Circumstances. If, at any time on or before the 30th day after the lender completes the additional collection efforts described in section I.E.1.a., above, or the 180th day of delinquency, whichever is later, the lender receives a full payment or a new signed repayment agreement, reinsurance coverage on the loan is reinstated on the date the lender receives the full payment or new agreement. The borrower shall be deemed by the lender to be current in repaying the loan and entitled to all rights and benefits available to borrowers who are not in default.

In the case of a timely filing violation on a loan for which the borrower is deemed current under this paragraph, the lender is ineligible to receive interest benefits and special allowance accruing from the date of the violation to the date of reinstatement of reinsurance coverage on the loan.

c. Borrower Deemed in Default Under Certain Circumstances. If the borrower does not make a full payment, or sign and return the new repayment agreement, on or before the 30th day after the lender completes the additional collection efforts described in section I.E.1.a., above, or the 180th day of delinquency, whichever is later, the lender shall deem the borrower to be in default. The lender shall then file a default claim on the loan, accompanied by acceptable evidence of location (see section I.E.1.d., below), within 30 days after the end of such 30-day period. Reinsurance coverage, and therefore the lender's right to receive interest benefits and special allowance, is not reinstated on a loan involving these circumstances. However, the Secretary will honor reinsurance claims submitted in accordance with this paragraph on the outstanding principal balance of such loans, on unpaid interest as provided in section I.B.7., above, and for reimbursement of eligible supplemental preclaims assistance costs.

In the case of a timely filing violation on a loan for which the borrower is deemed in default under this paragraph, the lender is ineligible to receive interest benefits and special allowance accruing from the date of the violation.

d. Acceptable Evidence of Location. Only the following documentation is acceptable as evidence that the lender has located the borrower:

(1) A postal receipt signed by the borrower not more than 15 days prior to the date on which the lender sent the new repayment agreement, indicating acceptance of correspondence from the lender by the borrower at the address shown on the receipt; or

(2) Documentation submitted by the lender showing—

(i) The name, identification number, and address of the lender;

(ii) The name and Social Security number of the borrower; and

(iii) A signed certification by an employee or agent of the lender, that—

(A) On a specified date, he or she spoke with or received written communication (attached to the certification) from the borrower on the loan underlying the default claim, or a parent, spouse, sibling, roommate, or neighbor of the borrower;

(B) The address and, if available, telephone number of the borrower were provided to the lender in the telephone or written communication; and

(C) In the case of a borrower whose address or telephone number was provided to the lender by someone other than the borrower, the new repayment agreement and the letter sent by the lender pursuant to section I.E.1.a., above, had not been returned undelivered as of 20 days after the date those items were sent, for due diligence violations described in section I.C.1.c. where the lender holds the loan on the date of this letter, and as of the date the lender filed a default claim on the cured loan, for all other violations.

2. Death, Disability, and Bankruptcy Claims. The Secretary will honor a death or disability claim on an otherwise eligible loan notwithstanding the lender's failure to meet the 60-day timely filing requirement (see 34 CFR 682.402(e)(2)(i)). However, the Secretary will not reimburse the guaranty agency if, before the date the lender determined that the borrower died or was totally and permanently disabled, the lender had violated the Federal due diligence or timely filing requirements applicable to that loan, except in accordance with the waiver policy described above. Interest that accrued on the loan after the expiration of the 60-day filing period remains ineligible for reimbursement by the Secretary, and the lender must repay all interest and special allowance received on the loan for periods after the expiration of the 60-day filing period.

The Secretary had determined that, in the vast majority of cases, the failure of a lender to comply with the timely filing requirement applicable to bankruptcy claims (§ 682.402(e)(2)(ii)) causes irreparable harm to the guaranty agency's ability to contest the discharge of the loan by the court, or to otherwise collect from the borrower. Therefore, the Secretary has decided not to excuse violations of the timely filing requirement applicable to bankruptcy claims, except when the lender can demonstrate that the bankruptcy action has concluded and that the loan has not been discharged in bankruptcy, or, if previously discharged, has been the subject of a reversal of the discharge. In that case, the lender shall treat the loan as in default. The Secretary will not reimburse the guaranty agency for interest accruing beyond the filing deadline for the bankruptcy claim.

II. Due Date of First Payment

Section 682.411(b) refers to the "due date of the first missed payment not later made" as one way to determine the first day of delinquency on a loan. Section 682.209(a)(3) states that, generally, the repayment period on a FFEL programs loan begins some number of months after the month in which the borrower ceases at least half-time study. Where the borrower enters the repayment period with the lender's knowledge, the first payment due date may be set by the lender, provided it falls within a reasonable time after the first day of the month in which the repayment period begins. In this situation, the Secretary generally permits a lender to allow the borrower up to 45 days from the first day of repayment to make the first payment.

In cases where the lender learns that the borrower has entered the repayment period after the fact, current § 682.411 treats the 30th day after the lender receives this information as the first day of delinquency. In the course of discussion with lenders, the Secretary has learned that many lenders have not been using the 30th day after receipt of notice that the repayment period has begun ("the notice") as the first payment due date. In recognition of this apparently widespread practice, the Secretary has decided that, both retrospectively and prospectively, a lender should be allowed to establish a first payment due date within 60 days after receipt of the notice, to capitalize interest accruing up to the first payment due date, and to exercise forbearance with respect to

the period during which the borrower was in the repayment period but made no payment. In effect, this means that, if the lender sends the borrower a coupon book, billing notice, or other correspondence establishing a new first payment due date, on or before the 60th day after receipt of the notice, the lender is deemed to have exercised forbearance up to the new first payment due date. The new first payment due date must fall no later than 75 days after receipt of the notice. In keeping with the 5-day tolerance permitted under section I.C.2.a., for the "prospective period", a lender that sends the above-described material on or before the 65th day after receipt of the notice will be held harmless. However, a lender that does so on the 66th day will have failed by more than 5 days to send both of the collection letters required by § 682.411(c) to be sent within the first 20 days of delinquency, and will thus have committed *two* violations of more than five days of that rule.

If the lender fails to send the material establishing a new first payment due date on or before the 65th day after receipt of the notice, it may thereafter send material establishing a new first payment due date falling not more than 45 days after the materials are sent, and will be deemed to have exercised forbearance up to the new first payment due date. However, all violations and gaps occurring prior to the date on which the material is sent are subject to the waiver policies described in section I for violations falling in either the retrospective or prospective periods. This is an exception to the general policy set forth in section I.B.5., above, that only violations occurring during the most recent 180 days of the delinquency period on a loan are relevant to the Secretary's examination of due diligence.

III. Questions and Answers

The waiver policy outlined in this letter was developed after extensive discussion and consultation with participating lenders and guarantee agencies. In the course of these discussions, lenders and agencies raised a number of questions regarding the due diligence rules as applied to various circumstances. The Secretary's responses to these questions are set forth below.

Q: Section 682.411 of the program regulations requires the lender to make "diligent efforts to contact the borrower by telephone" during each 30-day period of delinquency beginning after the 30th day of delinquency. What must a lender do to comply with this requirement?

A: Generally speaking, one actual telephone contact with the borrower, or two attempts to make such contact on different days and at different times, will satisfy the "diligent efforts" requirement for any of the 30-day delinquency periods described in the rule. However, the "diligent efforts" requirement is intended to be a flexible one, requiring the lender to act on information it receives in the course of attempting telephone contact regarding the borrower's actual telephone number, the best time to call to reach the borrower, etc. For instance, if the lender is told during its second telephone contact attempt that the borrower can be reached at another number or at a different time of day, the lender must then attempt to reach the borrower by telephone at that number or that time of day.

Q: What must a lender do when it receives conflicting information regarding the date a borrower ceased at least half-time study?

A: A lender must promptly attempt to reconcile conflicting information regarding a borrower's in-school status by making inquiries of appropriate parties, including the borrower's school. Pending reconciliation, the lender may rely on the most recent credible information it has.

Q: If a loan is transferred from one lender to another, is the transferee held responsible for information regarding the borrower's status that is received by the transferor but is not passed on to the transferee?

A: No. A lender is responsible only for information received by its agents and employees. However, if the transferee has reason to believe that the transferor has received additional information regarding the loan, the transferee must make a reasonable inquiry of the transferor as to the nature and substance of that information.

Q: What are a lender's due diligence responsibilities where a check received on a loan is dishonored by the bank on which it was drawn?

A: Upon receiving notice that a check has been dishonored, the lender shall treat the payment as having never been made for purposes of determining the number of days delinquent that the borrower is at that time. The lender must then begin (or resume) attempting collection on the loan in accordance with § 682.411, commencing with the first 30-day delinquency period described in § 682.411 that begins after the 30-day delinquency period in which the notice of dishonor is received. The same result obtains when the lender successfully obtains a delinquent borrower's correct address through skip-tracing, or when a delinquent borrower leaves deferment or forbearance status.

Part III

Department of Education

34 CFR Part 12
Disposal and Utilization of Surplus Federal Real Property for Educational Purposes; Final Rule

DEPARTMENT OF EDUCATION

34 CFR Part 12

RIN 1880–AA27

Disposal and Utilization of Surplus Federal Real Property for Educational Purposes

AGENCY: Department of Education.

ACTION: Final regulations.

SUMMARY: The Secretary amends the regulations governing the Disposal and Utilization of Surplus Federal Real Property for Educational Purposes. These amendments are needed to clarify certain provisions in the current regulations. These regulations increase the accountability of recipients of surplus Federal real property to the United States in their use of that property and clarify the requirements of the program.

EFFECTIVE DATE: These regulations take effect either 45 days after publication in the **Federal Register** or later if the Congress takes certain adjournments. If you want to know the effective date of these regulations, call or write the Department of Education contact person. A document announcing the effective date will be published in the **Federal Register**.

FOR FURTHER INFORMATION CONTACT: David B. Hakola, U.S. Department of Education, Office of the Administrator for Management Services, (room 3005, MS 4532), 400 Maryland Avenue, SW., Washington, DC 20202–4532. Tel. (202) 401–0500. Deaf and hearing impaired individuals may call the Federal Dual Party Relay Service at 1–800–877–8339 (in the Washington, DC 202 area code, telephone 708–9300) between 8 a.m. and 7 p.m., Eastern time.

SUPPLEMENTARY INFORMATION: The Disposal and Utilization of Surplus Federal Real Property for Educational Purposes regulations are authorized by the Federal Property and Administrative Services Act of 1949, as amended, 63 Stat. 377 (40 U.S.C. 471 *et seq.*) (Act). The Secretary is authorized to request the Administrator of the General Services Administration (GSA) to assign surplus Federal real property to the Secretary for sale or lease to eligible entities for educational purposes. As a credit against the fair market sale or lease value of the property, the transferee or lessee may be granted up to a 100% public benefit allowance (PBA) based upon the type of educational organization it is and the proposed educational use of the surplus Federal real property. Property is conveyed as either off-site or on-site surplus Federal real property. Off-site property is property capable of being removed from the land (e.g., improvements, small buildings, etc.) and does not include the underlying land. In contrast, on-site property generally consists of a parcel of land which is conveyed together with fixtures and other improvements thereon. The conveyance instrument used by the Secretary contains conditions, restrictions, reservations, and covenants with which the transferee or lessee must comply in order to retain title or possession of the surplus Federal real property. The Act directs the Secretary of Education to enforce compliance with the terms and conditions contained in the conveyance instrument and to take corrective action in the case of noncompliance. For on-site property, the Secretary's oversight responsibility may last up to 30 years, while for off-site property it lasts for the useful economic life of the property.

On October 31, 1990 the Secretary published a notice of proposed rulemaking (NPRM) for this program in the **Federal Register** (55 FR 45971). A discussion of the major issues was addressed in the NPRM at 55 FR 45972.

Since publication of the NPRM, the only changes to the regulations were to correct editorial and technical errors in the PBA table in appendix A. These are discussed in the following section.

Analysis of Comments and Changes

In the NPRM the Secretary invited comments on the proposed regulations. The only substantive comment the Secretary received suggested a change in eligibility to include American Indian tribes. The Secretary is not legally authorized to make this change under 40 U.S.C. 484(k)(1)(A). However, the Secretary has reviewed the regulations since publication of the NPRM and has made changes as follows:

Discussion: Departmental review of the NPRM resulted in editorial and technical revisions to correct errors in the organizational allowances section of Appendix A (Public Benefit Allowance for Transfer of Surplus Federal Real Property for Educational Purposes).

Changes: The 10% allowance given for accreditation for elementary or high schools has been deleted to remove the impression of preferential treatment between public and nonprofit schools within the same category. The percent allowed for inadequacy of existing school plant facilities is to remain unchanged from the current regulations.

Executive Order 12291

These regulations have been reviewed in accordance with Executive Order 12291. They are not classified as major because they do not meet the criteria for major regulations established in the order.

Assessment of Educational Impact

In the NPRM, the Secretary requested comments on whether the proposed regulations would require transmission of information that is being gathered by or is available from any other agency or authority of the United States.

Based on the response to the proposed rules and on its own review, the Department has determined that the regulations in this document do not require transmission of information that is being gathered by or is available from any other agency or authority of the United States.

List of Subjects in 34 CFR Part 12

Disposal and utilization of surplus real property, Education, Education Department, Federal buildings and facilities, Government property, Property reporting and recordkeeping requirements, Surplus government property.

(Catalog of Federal Domestic Assistance Number 84.145 Federal Real Property Assistance Program)

Editorial Note. This document was received at the Office of the Federal Register on December 10, 1992.

Dated: August 2, 1991.

Lamar Alexander,

Secretary of Education.

The Secretary amends title 34 of the Code of Federal Regulations by revising part 12 to read as follows:

PART 12—DISPOSAL AND UTILIZATION OF SURPLUS FEDERAL REAL PROPERTY FOR EDUCATIONAL PURPOSES

Subpart A—General

Sec.
12.1 What is the scope of this part?
12.2 What definitions apply?
12.3 What other regulations apply to this program?

Subpart B—Distribution of Surplus Federal Real Property

12.4 How does the Secretary provide notice of availability of surplus Federal real property?
12.5 Who may apply for surplus Federal real property?
12.6 What must an application for surplus Federal real property contain?
12.7 How is surplus Federal real property disposed of when there is more than one applicant?
12.8 What transfer or lease instruments does the Secretary use?
12.9 What warranties does the Secretary give?

12.10 How is a Public Benefit Allowance (PBA) calculated?

Subpart C—Conditions Applicable to Transfers or Leases

12.11 What statutory provisions and Executive Orders apply to transfers of surplus Federal real property?
12.12 What are the terms and conditions of transfers or leases of surplus Federal real property?
12.13 When is use of the transferred surplus Federal real property by entities other than the transferee or lessee permissible?

Subpart D—Enforcement

12.14 What are the sanctions for noncompliance with a term or condition of a transfer or lease of surplus Federal real property?

Subpart E—Abrogation

12.15 What are the procedures for securing an abrogation of the conditions and restrictions contained in the conveyance instrument?

Appendix A to Part 12—Public Benefit Allowance for Transfer of Surplus Federal Real Property for Educational Purposes

Authority: 40 U.S.C. 471–488; 20 U.S.C. 3401 *et seq.*; 42 U.S.C. 2000d (1) *et seq.*; 20 U.S.C. 1681 *et seq.*; 29 U.S.C. 794 *et seq.*; 42 U.S.C. 4332.

Subpart A—General

§ 12.1 What is the scope of this part?

This part is applicable to surplus Federal real property located within any State that is appropriate for assignment to, or that has been assigned to, the Secretary by the Administrator for transfer for educational purposes, as provided for in section 203(k) of the Federal Property and Administrative Services Act of 1949, as amended, 63 Stat. 377 (40 U.S.C. 471 *et seq.*).

(Authority: 40 U.S.C. 484(k))

§ 12.2 What definitions apply?

(a) *Definitions in the Act.* The following terms used in this part are defined in section 472 of the Act:

Administrator
Surplus property

(b) *Definitions in the Education Department General Administrative Regulations (EDGAR).* The following terms used in this part are defined in 34 CFR 77.1:

Department
Secretary
State

(c) *Other Definitions:* The following definitions also apply to this part:

Abrogation means the procedure the Secretary may use to release the transferee of surplus Federal real property from the covenants, conditions, reservations, and restrictions contained in the conveyance instrument before the term of the instrument expires.

Act means the Federal Property and Administrative Services Act of 1949, as amended, 63 Stat. 377 (40 U.S.C. 471 *et seq.*).

Applicant means an eligible entity as described in §12.5 that formally applies to be a transferee or lessee of surplus Federal real property, using a public benefit allowance (PBA) under the Act.

Lessee, except as used in §12.14(a)(5), means an entity that is given temporary possession, but not title, to surplus Federal real property by the Secretary for educational purposes.

Nonprofit institution means any institution, organization, or association, whether incorporated or unincorporated—

(1) The net earnings of which do not inure or may not lawfully inure to the benefit of any private shareholder or individual; and

(2) That has been determined by the Internal Revenue Service to be tax-exempt under section 501(c)(3) of title 26.

Off-site property means surplus buildings and improvements—including any related personal property—that are capable of being removed from the underlying land and that are transferred by the Secretary without transferring the underlying real property.

On-site property means surplus Federal real property, including any related personal property—other than off-site property.

Period of restriction means that period during which the surplus Federal real property transferred for educational purposes must be used by the transferee or lessee in accordance with covenants, conditions, and any other restrictions contained in the conveyance instrument.

Program and plan of use means the educational activities to be conducted by the transferee or lessee using the surplus Federal real property, as described in the application for that property.

Public benefit allowance ("PBA") means the credit, calculated in accordance with Appendix A to this part, given to a transferee or lessee which is applied against the fair market value of the surplus Federal real property at the time of the transfer or lease of such property in exchange for the proposed educational use of the property by the transferee or lessee.

Related personal property means any personal property—

(1) That is located on and is an integral part of, or incidental to the operation of, the surplus Federal real property; or

(2) That is determined by the Administrator to be otherwise related to the surplus Federal real property.

Surplus Federal real property means the property assigned or suitable for assignment to the Secretary by the Administrator for disposal under the Act.

Transfer means to sell and convey title to surplus Federal real property for educational purposes as described in this part.

Transferee means that entity which has purchased and acquired title to the surplus Federal real property for educational purposes pursuant to section 203(k) of the Act.

(Authority: 40 U.S.C. 472 and 20 U.S.C. 3401 *et seq.*)

§ 12.3 What other regulations apply to this program?

The following regulations apply to this program:

(a) 34 CFR Parts 100, 104, and 106.
(b) 41 CFR Part 101–47.
(c) 34 CFR Part 85.

(Authority: 40 U.S.C. 484(k); 42 U.S.C. 2000d–1 *et seq.*; 29 U.S.C. 794 *et seq.*; 20 U.S.C. 1681 *et seq.*; Executive Order 12549; and 20 U.S.C. 3474)

Subpart B—Distribution of Surplus Federal Real Property

§ 12.4 How does the Secretary provide notice of availability of surplus Federal real property?

The Secretary notifies potential applicants of the availability of surplus Federal real property for transfer for educational uses in accordance with 41 CFR 101–47.308–4.

(Authority: 40 U.S.C. 484(k)(1))

§ 12.5 Who may apply for surplus Federal real property?

The following entities may apply for surplus Federal real property:

(a) A State.
(b) A political subdivision or instrumentality of a State.
(c) A tax-supported institution.
(d) A nonprofit institution.
(e) Any combination of these entities.

(Authority: 40 U.S.C. 484(k)(1)(A))

§ 12.6 What must an application for surplus Federal real property contain?

An application for surplus Federal real property must—

(a) Contain a program and plan of use;

(b) Contain a certification from the applicant that the proposed program is not in conflict with State or local zoning restrictions, building codes, or similar limitations;

(c) Demonstrate that the proposed program and plan of use of the surplus

Federal real property is for a purpose that the applicant is authorized to carry out;

(d) Demonstrate that the applicant is able, willing, and authorized to assume immediate custody, use, care, and maintenance of the surplus Federal real property;

(e) Demonstrate that the applicant is able, willing, and authorized to pay the administrative expenses incident to the transfer or lease;

(f) Demonstrate that the applicant has the necessary funds, or the ability to obtain those funds immediately upon transfer or lease, to carry out the proposed program and plan of use for the surplus Federal real property;

(g) Demonstrate that the applicant has an immediate need and ability to use all of the surplus Federal real property for which it is applying;

(h) Demonstrate that the surplus Federal real property is needed for educational purposes at the time of application and that it is so needed for the duration of the period of restriction;

(i) Demonstrate that the surplus Federal real property is suitable or adaptable to the proposed program and plan of use; and

(j) Provide information requested by the Secretary in the notice of availability, including information of the effect of the proposed program and plan of use on the environment.

(Authority: 40 U.S.C. 484(k))

(Approved by the Office of Management and Budget under control number 1880–0524)

§ 12.7 How is surplus Federal real property disposed of when there is more than one applicant?

(a) If there is more than one applicant for the same surplus Federal real property, the Secretary transfers or leases the property to the applicant whose proposed program and plan of use the Secretary determines provides the greatest public benefit, using the criteria contained in appendix A to this part that broadly address the weight given to each type of entity applying and its proposed program and plan of use. (See example in § 12.10(d)).

(b) If, after applying the criteria described in paragraph (a) of this section, two or more applicants are rated equally, the Secretary transfers or leases the property to one of the applicants after—

(1) Determining the need for each applicant's proposed educational use at the site of the surplus Federal real property;

(2) Considering the quality of each applicant's proposed program and plan of use; and

(3) Considering each applicant's ability to carry out its proposed program and plan of use.

(c) If the Secretary determines that the surplus Federal real property is capable of serving more than one applicant, the Secretary may apportion it to fit the needs of as many applicants as is practicable.

(d)(1) The Secretary generally transfers surplus Federal real property to a selected applicant that meets the requirements of this part.

(2) Alternatively, the Secretary may lease surplus Federal real property to a selected applicant that meets the requirements of this part if the Secretary determines that a lease will promote the most effective use of the property consistent with the purposes of this part or if having a lease is otherwise in the best interest of the United States, as determined by the Secretary.

(Authority: 40 U.S.C. 484(k))

§ 12.8 What transfer or lease instruments does the Secretary use?

(a) The Secretary transfers or leases surplus Federal real property using transfer or lease instruments that the Secretary prescribes.

(b) The transfer or lease instrument contains the applicable terms and conditions described in this part and any other terms and conditions the Secretary or Administrator determines are appropriate or necessary.

(Authority: 40 U.S.C. 484(c))

§ 12.9 What warranties does the Secretary give?

The Secretary transfers or leases surplus Federal real property on an "as is, where is," basis without warranty of any kind.

(Authority: 40 U.S.C. 484(k)(1))

§ 12.10 How is a Public Benefit Allowance (PBA) calculated?

(a) The Secretary calculates a PBA in accordance with the provisions of appendix A to this part taking into account the nature of the applicant, and the need for, impact of, and type of program and plan of use for the property, as described in that appendix.

(b) The following are illustrative examples of how a PBA would be calculated and applied under Appendix A:

(1) Entity A is a specialized school that has had a building destroyed by fire, and that has existing facilities determined by the Secretary to be between 26 and 50% inadequate. It is proposing to use the surplus Federal real property to add a new physical education program. Entity A would receive a basic PBA of 70%, a 10% hardship organization allowance, a 20% allowance for inadequacy of existing school plant facilities, and a 10% utilization allowance for introduction of new instructional programs. Entity A would have a total PBA of 110%. If Entity A is awarded the surplus Federal real property, it would not be required to pay any cash for the surplus Federal real property, since the total PBA exceeds 100%.

(2) Entity B proposes to use the surplus Federal real property for nature walks. Because this qualifies as an outdoor educational program, Entity B would receive a basic PBA of 40%. If Entity B is awarded the surplus Federal real property, it would be required to pay 60% of the fair market value of the surplus Federal real property in cash at the time of the transfer.

(3) Entity C is an accredited university, has an ROTC unit, and proposes to use the surplus Federal real property for a school health clinic and for special education of the physically handicapped. Entity C would receive a basic PBA of 50% (as a college or university), a 20% accreditation organization allowance (accredited college or university), a 10% public service training organization allowance (ROTC), a 10% student health and welfare utilization allowance (school health clinic), and a 10% service to the handicapped utilization allowance (education of the physically handicapped). Entity C would have a total PBA of 100%. If Entity C is awarded the surplus Federal real property, it would not be required to pay any cash for the surplus Federal real property, since the total PBA is 100%.

(4) Entities A, B, and C all submit applications for the same surplus Federal real property. Unless the Secretary decides to apportion it, the Secretary transfers or leases the surplus Federal real property to Entity A, since its proposed program and plan of use has the highest total PBA.

(Authority: 40 U.S.C. 484(k)(1)(c))

Subpart C—Conditions Applicable to Transfers or Leases

§ 12.11 What statutory provisions and Executive Orders apply to transfers of surplus Federal real property?

The Secretary directs the transferee or lessee to comply with applicable provisions of the following statutes and Executive Orders prior to, or immediately upon, transfer or lease, as applicable:

(a) National Environmental Policy Act of 1969, 42 U.S.C. 4332.

(b) National Historic Preservation Act of 1966, 16 U.S.C. 470.

(c) National Flood Insurance Act of 1968, 42 U.S.C. 4001 *et seq.*

(d) Floodplain Management, Exec. Order No. 11988, 42 FR 26951 (May 25, 1977).

(e) Protection of Wetlands, Exec. Order No. 11990, 42 FR 26961 (May 25, 1977).

(f) Title VI of the Civil Rights Act of 1964, 42 U.S.C. 2000(d)(1) *et seq.*

(g) Title IX of the Education Amendments of 1972, 20 U.S.C. 1681 *et seq.*

(h) Section 504 of the Rehabilitation Act of 1973, 29 U.S.C. 794 *et seq.*

(i) Age Discrimination Act of 1975, 42 U.S.C. 1601 *et seq.*

(j) Any other applicable Federal or State laws and Executive Orders.

(Authority: 40 U.S.C. 484(k))

(Approved by the Office of Management and Budget under control number 1880–0524)

§ 12.12 What are the terms and conditions of transfers or leases of surplus Federal real property?

(a) *General terms and conditions for transfers and leases.* The following general terms and conditions apply to transfers and leases of surplus Federal real property under this part:

(1) For the period provided in the transfer or lease instrument, the transferee or lessee shall use all of the surplus Federal real property it receives solely and continuously for its approved program and plan of use, in accordance with the Act and these regulations, except that—

(i) The transferee or lessee has twelve (12) months from the date of transfer to place this surplus Federal real property into use, if the Secretary did not, at the time of transfer, approve in writing construction of major new facilities or major renovation of the property;

(ii) The transferee or lessee has thirty-six (36) months from the date of transfer to place the surplus Federal real property into use, if the transferee or lessee proposes construction of major new facilities or major renovation of the property and the Secretary approves it in writing at the time of transfer; and

(iii) The Secretary may permit use of the surplus Federal real property at any time during the period of restriction by an entity other than the transferee or lessee in accordance with § 12.13.

(2) The transferee or lessee may not modify its approved program and plan of use without the prior written consent of the Secretary.

(3) The transferee or lessee may not sell, lease or sublease, rent, mortgage, encumber, or otherwise dispose of all or a portion of the surplus Federal real property or any interest therein without the prior written consent of the Secretary.

(4) A transferee or lessee shall pay all administrative costs incidental to the transfer or lease including, but not limited to—

(i) Transfer taxes;

(ii) Surveys;

(iii) Appraisals;

(iv) Inventory costs;

(v) Legal fees;

(vi) Title search;

(vii) Certificate or abstract expenses;

(viii) Decontamination costs;

(ix) Moving costs;

(x) Recordation expenses;

(xi) Other closing costs; and

(xii) Service charges, if any, provided for by an agreement between the Secretary and the applicable State agency for Federal Property Assistance.

(5) The transferee or lessee shall protect the residual financial interest of the United States in the surplus Federal real property by insurance or such other means as the Secretary directs.

(6) The transferee or lessee shall file with the Secretary reports on its maintenance and use of the surplus Federal real property and any other reports required by the Secretary in accordance with the transfer or lease instrument.

(7) Any other term or condition that the Secretary determines appropriate or necessary.

(b) *Additional terms and conditions for on-site transfers.* The terms and conditions in the transfer, including those in paragraph (a) of this section, apply for a period not to exceed thirty (30) years.

(c) *Additional terms and conditions for off-site transfers.* (1) The terms and conditions in the transfer, including those in paragraph (a) of this section, apply for a period equivalent to the estimated economic life of the property conveyed for a transfer of off-site surplus Federal real property.

(2) In addition to the terms and conditions contained in paragraph (c) of this section, the Secretary may also require the transferee of off-site surplus Federal real property—

(i) To post performance bonds;

(ii) To post performance guarantee deposits; or

(iii) To give such other assurances as may be required by the Secretary or the holding agency to ensure adequate site clearance.

(d) *Additional terms and conditions for leases.* In addition to the terms and conditions contained in paragraph (a) of this section, the Secretary requires, for leases of surplus Federal real property, that all terms and conditions apply to the initial lease agreement, and any renewal periods, unless specifically excluded in writing by the Secretary.

(Authority: 40 U.S.C. 484(k)(1))

(Approved by the Office of Management and Budget under control number 1880–0524)

§ 12.13 When is use of the transferred surplus Federal real property by entities other than the transferee or lessee permissible?

(a) *By eligible entities.* A transferee or lessee may permit the use of all or a portion of the surplus Federal real property by another eligible entity as described in § 12.5, only upon those terms and conditions the Secretary determines appropriate if—

(1) The Secretary determines that the proposed use would not substantially limit the program and plan of use by the transferee or lessee and that the use will not unduly burden the Department;

(2) The Secretary's written consent is obtained by the transferee or lessee in advance; and

(3) The Secretary approves the use instrument in advance and in writing.

(b) *By ineligible entities.* A transferee or lessee may permit the use of a portion of the surplus Federal real property by an ineligible entity, one not described in § 12.5, only upon those terms and conditions the Secretary determines appropriate if—

(1) In accordance with paragraph (a) of this section, the Secretary makes the required determination and approves both the use and the use instrument;

(2) The use is confined to a portion of the surplus Federal real property;

(3) The use does not interfere with the approved program and plan of use for which the surplus Federal real property was conveyed; and

(4) Any rental fees or other compensation for use are either remitted directly to the Secretary or are applied to purposes expressly approved in writing in advance by the Secretary.

(Authority: 40 U.S.C. 484(k)(4))

Subpart D—Enforcement

§ 12.14 What are the sanctions for noncompliance with a term or condition of a transfer or lease of surplus Federal real property?

(a) *General sanctions for noncompliance.* The Secretary imposes any or all of the following sanctions, as applicable, to all transfers or leases of surplus Federal real property:

(1) If all or a portion of, or any interest in, the transferred or leased surplus Federal real property is not used or is sold, leased or subleased, encumbered, disposed of, or used for purposes other than those in the approved program and plan of use, without the prior written consent of the Secretary, the Secretary may require that—

(i) All revenues and the reasonable value of other benefits received by the transferee or lessee directly or indirectly from that use, as determined by the Secretary, be held in trust by the transferee or lessee for the United States subject to the direction and control of the Secretary;

(ii) Title or possession to the transferred or leased surplus Federal real property and the right to immediate possession revert to the United States;

(iii) The surplus Federal real property be transferred or leased to another eligible entity as the Secretary directs;

(iv) The transferee or lessee abrogate the conditions and restrictions in the transfer or lease instrument in accordance with the provisions of § 12.15;

(v) The transferee or lessee place the surplus Federal real property into immediate use for an approved purpose and extend the period of restriction in the transfer or lease instrument for a term equivalent to the period during which the property was not fully and solely used for an approved use; or

(vi) The transferee or lessee comply with any combination of the sanctions described in paragraph (a)(1) or (a)(3) of this section.

(2) If title or possession reverts to the United States for noncompliance or is voluntarily reconveyed, the Secretary may require the transferee or lessee—

(i) To reimburse the United States for the decrease in value of the transferred or leased surplus Federal real property not due to—

(A) Reasonable wear and tear;

(B) Acts of God; or

(C) Reasonable alterations made by the transferee or lessee to adapt the surplus Federal real property to the approved program and plan of use for which it was transferred or leased;

(ii) To reimburse the United States for any costs incurred in reverting title or possession;

(iii) To forfeit any cash payments made by the transferee or lessee against the purchase or lease price of surplus Federal real property transferred;

(iv) To take any other action directed by the Secretary; or

(v) To comply with any combination of the provisions of paragraph (a)(3) of this section.

(3) If the transferee or lessee does not put the surplus Federal real property into use within the applicable time limitation in § 12.12(a), the Secretary may require the transferee or lessee to make cash payments to the Secretary equivalent to the current fair market rental value of the surplus Federal real property for each month during which the program and plan of use has not been implemented.

(Authority: 40 U.S.C. 484(k)(4))

(4) If the Secretary determines that a lessee of a transferee or a sublessee of a lessee is not complying with a term or condition of the lease, or if the lessee voluntarily surrenders the premises, the Secretary may require termination of the lease.

(Authority: 40 U.S.C. 484(k)(4)(A))

(b) *Additional sanction for noncompliance with off-site transfer.* In addition to the sanctions in paragraph (a) of this section, if the Secretary determines that a transferee is not complying with a term or condition of a transfer of off-site surplus Federal real property, the Secretary may require that the unearned PBA become immediately due and payable in cash to the United States.

(Authority: 40 U.S.C. 484(k)(4)(A))

Subpart E—Abrogation

§ 12.15 What are the procedures for securing an abrogation of the conditions and restrictions contained in the conveyance instrument?

(a) The Secretary may, in the Secretary's sole discretion, abrogate the conditions and restrictions in the transfer or lease instrument if—

(1) The transferee or lessee submits to the Secretary a written request that the Secretary abrogate the conditions and restrictions in the conveyance instrument as to all or any portion of the surplus Federal real property;

(2) The Secretary determines that the proposed abrogation is in the best interests of the United States;

(3) The Secretary determines the terms and conditions under which the Secretary will consent to the proposed abrogation; and

(4) The Secretary transmits the abrogation to the Administrator and there is no disapproval by the Administrator within thirty (30) days after notice to the Administrator.

(b) The Secretary abrogates the conditions and restrictions in the transfer or lease instrument upon a cash payment to the Secretary based on the formula contained in the transfer or lease instrument and any other terms and conditions the Secretary deems appropriate to protect the interest of the United States.

(Authority: 40 U.S.C. 484(k)(4)(A)(iii))

APPENDIX A TO PART 12.—PUBLIC BENEFIT ALLOWANCE FOR TRANSFER OF SURPLUS FEDERAL REAL PROPERTY FOR EDUCATIONAL PURPOSES [1]

Classification	Percent allowed												
	Basic public benefit allowance	Organization allowances							Utilization allowances				Maximum public benefit allowance [4]
		Accreditation	Federal impact	Public service training	Hardship	Inadequacy of existing school plant facilities			Introduction of new instructional programs	Student health and welfare	Research	Service to handicapped	
						10–25%	26–50%	51–100%					
Elementary or high schools	70		10	10	10	10	20	30	10	10	10	10	100
Colleges or Universities	50	20		10	10	10	20	30	10	10	10	10	100
Specialized schools	70			10	10	10	20	30	10	10	10	10	100
Public libraries or educational museums	[2] 100												[2] 100
School outdoor education	40								10	[3] 10	10		70
Central administrative and/or service centers	80												80
Non-profit educational research organizations	50	20		10					10	10		10	100

[1] This Appendix applies to transfers of both on-site and off-site surplus property.
[2] Applicable when this is the primary use to be made of the property. The public benefit allowance for the overall program is applicable when such facilities are conveyed as a minor component of other facilities.
[3] This 10% may include an approvable recreation program which will be accessible to the public and entirely compatible with, but subordinate to, the educational program.
[4] This column establishes the maximum discount from the fair market value for payment due from the transferee at the time of the transfer. This column does not apply for purposes of ranking applicants to determine to which applicant the property will be transferred. Competitive rankings are based on the absolute total of public benefit allowance points and are not limited to the 100% ceiling.

Description of Terms Used in This Appendix

"Elementary or High School" means an elementary school (including a kindergarten), high school, junior high school, junior-senior high school or elementary or secondary school system, that provides elementary or secondary education as determined under State law. However, it does not include a nursery school even though it may operate as part of a school system.

"College or University" means a non-profit or public university or college, including a junior college, that provides postsecondary education.

"Specialized School" means a vocational school, area trade school, school for the blind, or similar school.

"Public Library" means a public library or public library service system, not a school library or library operated by non-profit, private organizations or institutions that may be open to the general public. School libraries receive the public benefit allowance in the appropriate school classification.

"Educational Museum" means a museum that conducts courses on a continuing, not *ad hoc*, basis for students who receive credits from accredited postsecondary education institutions or school systems.

"School Outdoor Education" means a separate facility for outdoor education as distinguished from components of a basic school. Components of a school such as playgrounds and athletic fields receive the basic allowance applicable for that type of school. The outdoor education must be located reasonably near the school system and may be open to and used by the general public, but only if the educational program for which the property is conveyed is given priority of use. This category does not include components of the school such as playgrounds and athletic fields, that are utilized during the normal school year, and are available to all students.

"Central Administrative and/or Service Center" means administrative office space, equipment storage areas, and similar facilities.

Description of Allowances

"Basic Public Benefit Allowance" means an allowance that is earned by an applicant that satisfies the requirements of § 12.10 of this part.

Organization Allowance

"Accreditation" means an allowance that is earned by any postsecondary educational institution, including a vocational or trade school, that is accredited by an accrediting agency recognized by the Secretary under 34 CFR part 602.

"Federal Impact" means an allowance that is earned by any local educational agency (LEA) qualifying for Federal financial assistance as the result of the impact of certain Federal activities upon a community, such as the following under Public Law 81–874 and Public Law 81–815: to any LEA charged by law with responsibility for education of children who reside on, or whose parents are employed on, Federal property, or both; to any LEA to which the Federal Government has caused a substantial and continuing financial burden as the result of the acquisition of a certain amount of Federal property since 1938; or to any LEA that urgently needs minimum school facilities due to a substantial increase in school membership as the result of new or increased Federal activities.

"Public Services Training" means an allowance that is earned if the applicant has cadet or ROTC units or other personnel training contracts for the Federal or State governments. This is given to a school system only if the particular school receiving the property furnishes that training.

"Hardship" means an allowance earned by an applicant that has suffered a significant facility loss because of fire, storm, flood, other disaster, or condemnation. This allowance is also earned if unusual conditions exist such as isolation or economic factors that require special consideration.

"Inadequacies of Existing Facilities" means an allowance that is earned on a percentage basis depending on the degree of inadequacy considering both public and nonpublic facilities. Overall plant requirements are determined based on the relationship between the maximum enrollment accommodated in the present facilities, excluding double and night sessions and the anticipated enrollment if the facilities are transferred. Inadequacies may be computed for a component school unit such as a school farm, athletic field, facility for home economics, round-out school site, cafeteria, auditorium, teacherages, faculty housing, etc., only if the component is required to meet State standards. In that event, the State Department of Education will be required to provide a certification of the need. Component school unit inadequacies may only be related to a particular school and not to the entire school system.

Utilization Allowances

"Introduction of New Instructional Programs" means an allowance that is earned if the proposed use of the property indicates that new programs will be added at a particular school. Examples of these new programs include those for vocational education, physical education, libraries, and similar programs.

"Student Health and Welfare" means an allowance that is earned if the proposed program and plan of use of the property provides for cafeteria, clinic, infirmary, bus loading shelters, or other uses providing for the well-being and health of students and eliminating safety and health hazards.

"Research" means an allowance that is earned if the proposed use of the property will be predominantly for research by faculty or graduate students under school auspices, or other primary educational research.

"Service to Handicapped" means an allowance that is earned if the proposed program and plan of use for the property will be for special education for the physically or mentally handicapped.

[CGD 90-051]

RIN 2115-AD61

Double Hull Standards for Vessels Carrying Oil in Bulk

AGENCY: Coast Guard, DOT.

ACTION: Interim Final Rule; reopening of comment period.

SUMMARY: The Coast Guard is reopening the public comment period for this rulemaking which was published on August 12, 1992 (57 FR 36222). This action is being taken to provide the public the opportunity to further comment on: (1) Existing double hull vessel design requirements; and (2) double hull requirements for non-traditional tank vessels carrying oil in bulk.

DATES: Comments must be received on or before February 26, 1993.

ADDRESSES: Comments may be mailed to the Executive Secretary, Marine Safety Council, (G-LRA-2/3406) [CGD 90-051]; U.S. Coast Guard Headquarters, 2100 Second Street, SW., Washington, DC 20593-0001, or may be delivered to room 3406 at the above address between 8 a.m. and 3 p.m., Monday through Friday, except Federal holidays. The telephone number is (202) 267-1477. The Executive Secretary maintains the public docket for this rulemaking. Comments will become part of this docket and will be available for inspection or copying at room 3406, U.S. Coast Guard Headquarters.

FOR FURTHER INFORMATION CONTACT: Mr. Robert M. Gauvin, Project Manager, Merchant Vessel Inspection and Documentation Division (G-MVI-2), telephone (202) 267-1181.

SUPPLEMENTARY INFORMATION:

Request for Comments

The Coast Guard encourages interested persons to submit written data, views, or arguments. Persons submitting comments should include their name, address, identify this rulemaking (CGD 90-051), the specific section of the proposal or related documents to which each comment applies, and give a reason for each comment. Persons wanting acknowledgment of receipt of comments should enclose a stamped, self-addressed postcard or envelope.

The Coast Guard will consider all comments currently in the public docket, including comments received after the initial comment period was closed, and all additional comments received during this comment period. The proposal may be changed in view of the comments.

The Coast Guard plans no public hearing. However, persons may request a public hearing by writing to the Marine Safety Council at the address under "ADDRESSES." If it is determined that the opportunity to make oral presentations will aid this rulemaking, the Coast Guard will hold a public hearing at a time and place announced by a later notice in the **Federal Register**.

Background and Discussion

Section 4115 of the Oil Pollution Act of 1990 (Pub. L. 101-380) (OPA 90) added section 3703a to title 46 U.S. Code. Section 3703a(a) requires a double hull to be fitted on a vessel carrying oil in bulk as cargo or cargo residue. A vessel that is constructed or undergoes a major conversion under a contract placed on or after June 30, 1990, must have a double hull fitted at the time of construction or major conversion. An existing vessel that is constructed or that undergoes a major conversion under an earlier contract must be fitted with a double hull in accordance with a timetable in 46 U.S.C. 3703a(c)(3), which commences in 1995.

Section 3703a does not provide technical standards for a double hull. The Interim Final Rule (IFR) provided the shipping and shipbuilding industries with standards in order to meet the double hull requirement.

On September 21, 1990, the Coast Guard issued Navigation and Vessel Inspection Circular (NVIC) No. 2-90. This NVIC provides policy guidance on double hull construction for a vessel undergoing construction or major conversion under a contract awarded prior to the effective date of this rule. A vessel which is built to plans that have been approved in accordance with NVIC 2-90 under a contract awarded before the effective date of this rule, September 11, 1992, will satisfy the double hull requirements in the IFR. NVIC 2-90 may not be used for a vessel which undergoes construction or major conversion under a contract awarded on or after the effective date of the IFR, September 11, 1992.

On December 5, 1990, the Coast Guard published a notice of proposed rulemaking (55 FR 50192) to implement the double hull requirements of OPA 90. This proposal included standards to define the double hulls that OPA 90 requires to be fitted on all tank vessels built or converted under contracts awarded on or after June 30, 1990. OPA 90 requires tank vessels built or converted under earlier contracts to be retrofitted with double hulls according to a timetable that begins in 1995 and ends in 2015. The notice of proposed rulemaking requested comments from the public for a period which closed on April 1, 1991.

On September 6, 1991, the Coast Guard reopened the comment period for the notice of proposed rulemaking (56 FR 44051) until October 7, 1991, due to two subsequent events which had major impact upon the Coast Guard's proposal for rulemaking. These were the publishing of the National Academy of Science's study, "Tanker Spills: Prevention by Design," on February 25, 1991, and the 31st Session of the International Maritime Organization's (IMO) Marine Environment Protection Committee's (MEPC) approval of a draft Regulation 13F (MEPC 31/MP.11, Annex 2) as an amendment to Annex I of MARPOL 73/78 on July 5, 1991. The draft was then circulated to IMO's member states for consideration. Regulation 13F proposed the international standards for new construction or major conversion of vessels to double hull design. Also approved at MEPC 31, was a draft of Regulation 13G (MEPC 31/WP.11, Annex 3, paragraph 2), which proposed requirements for double hull construction or equivalence for existing vessels.

On March 6, 1992, the MEPC adopted Regulations 13F and 13G to Annex I of MARPOL 73/78 at its 32nd Session. The United States reserved its position during the adoption of Regulations 13F and 13G, due to differences with OPA 90 regarding the applicability of double hull requirements to certain categories of vessels and the allowance of the mid-deck concept as an alternative to the double hull. To assist the public in understanding the differences between the adopted international rules and the IFR, the adopted international regulations were reprinted as an appendix in the preamble of the IFR.

On April 2, 1992, the Coast Guard issued NVIC 4-92. This NVIC provides policy guidance on intact and damage stability for the construction of new tank vessels.

On August 12, 1992, the Coast Guard published the IFR on double hull standards for vessels carrying oil in bulk. This rule provided the marine industry with standards, not provided in OPA 90, for new vessels to meet the double hull requirements. The effective date of the IFR was September 11, 1992. The comment period for the IFR closed on October 13, 1992.

As a result of comments received between August 12 and October 13, the Coast Guard is reopening the comment period to allow the public to further comment on the effect double hull standards have on existing double hulled vessels, as discussed in paragraph 15 of the IFR (57 FR 36226). Paragraph 15 states that the Coast Guard concurred with comments that existing double hulled tank vessels be permitted to continue operating even if such vessels do not meet the dimensions adopted in the IFR for new tank vessels. Therefore, the Coast Guard incorporated § 157.10d(c)(1)(iii), (c)(2)(iii), and (d)(3) providing these existing vessels with double hull dimensions consistent with their existing construction. These are double hulled vessels and barges that were built before June 30, 1990, that carry oil in bulk under existing industry design standards. The Coast Guard is specifically interested in knowing how many existing double hull vessels will be effected by the vessel design standards in § 157.10d(c)(1)(iii), (c)(2)(iii), and (d)(3).

As a note, the Coast Guard wishes to again clarify that the IFR also applies to dry or break bulk cargo, or passenger vessels, which carry oil as a secondary cargo. Subject to the exemptions in 46 U.S.C. 3702, the Oil Pollution Act of 1990 applies double hull requirements to a tank vessel, as defined in 46 U.S.C. 2101(39). Section 2101(39) provides that a tank vessel is a vessel constructed or adapted to carry, or that carries, oil or hazardous materials in bulk as cargo or cargo residue, and is a vessel of the United States; operates on the navigable waters of the United States; or transfers oil or hazardous material in a port or place subject to the jurisdiction of the United States. Section 2101(39) includes a vessel that carries any quantity of oil in bulk as cargo, including tank barge, a tanker as defined in 47 U.S.C. 2101(38), and a vessel certified as a cargo or passenger vessel that carries limited quantities of oil in bulk.

On November 4, 1992, the Coast Guard Authorization Act of 1992, was signed into law as title V of Public Law 102–587. Section 5209 of the Coast Guard Authorization Act, titled "Tank Vessel Definition Clarification," referred to offshore supply vessel, fish tender vessel, fishing vessel and tank vessel, as defined in 46 U.S.C. 2101 and provides that offshore supply vessels are not included within the definition of "tank vessels." Additionally, fishing or fish tender vessels of not more than 750 gross tons that make transfers without charge to another vessel owned by the same person are also excluded from the definition of "tank vessels."

Dated: November 29, 1992.

A. E. Henn,

Rear Admiral, U.S. Coast Guard Chief, Office of Marine Safety, Security and Environmental Protection.

Part V

Department of Education

34 CFR Part 206

Special Educational Programs for Students Whose Families Are Engaged in Migrant and Other Seasonal Farmwork; Final Regulations

DEPARTMENT OF EDUCATION

34 CFR Part 206

RIN 1810–AA68

Special Educational Programs for Students Whose Families Are Engaged in Migrant and Other Seasonal Farmwork—High School Equivalency Program and College Assistance Migrant Program

AGENCY: Department of Education.

ACTION: Final regulations.

SUMMARY: The Secretary amends the regulations governing the High School Equivalency Program (HEP) and the College Assistance Migrant Program (CAMP). These regulations implement statutory changes enacted in the Higher Education Amendments of 1992 and make other technical revisions to the existing regulations. These programs support AMERICA 2000, the President's strategy for moving the Nation toward the National Education Goals. Specifically, National Education Goal 5 calls for Americans to possess the knowledge and skills necessary to compete in a global economy and exercise the rights and responsibilities of citizenship. These programs advance this goal by helping migrant youth, through their participation in HEP and CAMP projects, to obtain the skills and competencies needed for their success in and beyond the secondary school level.

EFFECTIVE DATE: These regulations take effect either 45 days after publication in the Federal Register or later if the Congress takes certain adjournments. If you want to know the effective date of these regulations, call or write the Department of Education contact person. A document announcing the effective date will be published in the Federal Register.

FOR FURTHER INFORMATION CONTACT: Lorraine Wise, Office of Migrant Education, Department of Education, 400 Maryland Avenue, SW, room 2149, Mail Stop 6135, Washington, DC 20202. Telephone: (202) 401–0744. Deaf and hearing impaired individuals may call (202) 401–1985 for TDD services.

SUPPLEMENTARY INFORMATION: These regulations implement changes to HEP and CAMP required by section 405 of the Higher Education Amendments of 1992 (Pub. L. 102–325), enacted July 23, 1992, and make other technical revisions to the existing regulations. There are no substantive changes made in these final regulations other than those required by the statute. Significant statutory changes include the following:

Expansion of Program Eligibility

The minimum age for participation in HEP has been lowered from 17 to 16 years of age (§ 206.3(b)). Eligible participants in both the HEP and CAMP now include persons who have participated (in the case of HEP, within the preceding two years) or are eligible to participate in programs funded under 34 CFR part 201 (Chapter 1–Migrant Education Program) or 20 CFR part 633 (Employment and Training Administration, Department of Labor—Migrant and Seasonal Farmworker Programs (§ 206.3(a)). Definitions of terms that concern eligibility on the basis of these two programs are incorporated into these regulations in § 206.5(d).

Expansion of Program Services

Grantees under CAMP now may not use more than 10 percent of their funding for follow-up services to participants who have completed their first year of college (§ 206.11).

Increase in the Project Period for Awards

The maximum project period for HEP and CAMP awards has been increased from three to five years (§ 206.20(b)).

Other Technical Revisions

These regulations also make other technical revisions to the existing regulations. They clarify, as does the statute, that only a migrant or seasonal farmworker or a farmworker's child can qualify for eligibility (§ 206.3(a)). In addition, 34 CFR parts 81, 82, 85, and 86 of the Education Department General Administrative Regulations (EDGAR), which apply on their own terms to this program, have been added as applicable regulations. Furthermore, 34 CFR part 78 has been deleted as no longer applicable (§ 206.4).

Waiver of Proposed Rulemaking

In accordance with section 431(b)(2)(A) of the General Education Provisions Act (20 U.S.C. 1232(b)(2)(A)) and the Administrative Procedure Act, 5 U.S.C. 553, it is the practice of the Secretary to offer interested parties the opportunity to comment on proposed regulations. However, these regulations incorporate only statutory changes and other technical revisions and public comment would have no effect on these changes. Therefore, the Secretary has determined that publication of a proposed rule is unnecessary and contrary to the public interest under 5 U.S.C. 553(b)(B).

Executive Order 12291

These regulations have been reviewed in accordance with Executive Order 12291. They are not classified as major because they do not meet the criteria for major regulations established in the order.

Paperwork Reduction Act of 1980

These regulations have been examined under the Paperwork Reduction Act of 1980 and have been found to contain no information collection requirements.

Intergovernmental Review

This program is subject to the requirements of Executive Order 12372 and the regulations in 34 CFR part 79. The objective of the Executive order is to foster an intergovernmental partnership and a strengthened federalism by relying on processes developed by State and local governments for coordination and review of proposed Federal financial assistance.

In accordance with the order, this document is intended to provide early notification of the Department's specific plans and actions for this program.

Assessment of Educational Impact

The Department has determined that the regulations in this document do not require transmission of information that is being gathered by or is available from any other agency or authority of the United States.

List of Subjects in 34 CFR Part 206

Colleges and universities, Education, Education of the disadvantaged, Grant programs—education, Migrant labor.

(Catalog of Federal Domestic Assistance Numbers: 84.141 Migrant Education—High School Equivalency Program; and 84.149 Migrant Education—College Assistance Migrant Program)

Dated: November 30, 1992.

Lamar Alexander,

Secretary of Education.

The Secretary amends part 206 of title 34 of the Code of Federal Regulations as follows:

PART 206—SPECIAL EDUCATIONAL PROGRAMS FOR STUDENTS WHOSE FAMILIES ARE ENGAGED IN MIGRANT AND OTHER SEASONAL FARMWORK—HIGH SCHOOL EQUIVALENCY AND COLLEGE ASSISTANCE MIGRANT PROGRAM

1. The authority citation for part 206 is revised to read as follows:

Authority: 20 U.S.C. 1070d–2, unless otherwise noted.

§ 206.1 [Amended]

2. In § 206.1, paragraphs (a) and (b) are amended by removing "students—who are engaged, or whose families are engaged, in migrant and other seasonal farmwork—" and adding, in its place, "persons who are eligible under § 206.3".

3. Section 206.3 is amended by revising paragraphs (a), (b), introductory text, and (c), to read as follows:

§ 206.3 Who is eligible to participate in a project?

(a) *General.* To be eligible to participate in a HEP or a CAMP project—

(1) A person, or his or her parent, must have spent a minimum of 75 days during the past 24 months as a migrant or seasonal farmworker; or

(2) The person must have participated (with respect to HEP within the last 24 months), or be eligible to participate, in programs under 34 CFR part 201 (Chapter 1–Migrant Education Program) or 20 CFR part 633 (Employment and Training Administration, Department of Labor—Migrant and Seasonal Farmworker Programs).

(b) *Special HEP qualifications.* To be eligible to participate in a HEP project, a person also must—

* * * * *

(3) Be 16 years of age or over, or beyond the age of compulsory school attendance in the State in which he or she resides; and

* * * * *

(c) *Special CAMP qualifications.* To be eligible to participate in a CAMP project, a person also must—

* * * * *

4. Section 206.4 is amended by revising paragraph (a) to read as follows:

§ 206.4 What regulations apply to these programs?

* * * * *

(a) The Education Department General Administrative Regulations (EDGAR) as follows:

(1) 34 CFR Part 74 (Administration of Grants to Institutions of Higher Education, Hospitals, and Nonprofit Organizations).

(2) 34 CFR Part 75 (Direct Grant Programs).

(3) 34 CFR Part 77 (Definitions that Apply to Department Regulations).

(4) 34 CFR Part 79 (Intergovernmental Review of Department of Education Programs and Activities).

(5) 34 CFR Part 81 (General Educational Provisions Act—Enforcement).

(6) 34 CFR Part 82 (New Restrictions on Lobbying).

(7) 34 CFR Part 85 (Governmentwide Debarment and Suspension (Nonprocurement) and Governmentwide Requirements for Drug-Free Workplace (Grants)).

(8) 34 CFR Part 86 (Drug-Free Schools and Campuses).

(b) The regulations in this Part 206.

* * * * *

5. Section 206.5 is amended by adding paragraph (d) to read as follows:

§ 206.5 What definitions apply to these programs?

* * * * *

(d) *Other definitions.* For purposes of determining program eligibility under § 206.3(a)(2), the definitions in 34 CFR 201.3 (Chapter 1—Migrant Education Program) and 20 CFR 633.104 (Employment and Training Administration, Department of Labor—Migrant and Seasonal Farmworker Programs) apply.

6. Section 206.10 is amended by revising paragraphs (b)(1)(i) and (b)(2)(i) to read as follows:

§ 206.10 What types of services may be provided?

* * * * *

(b) * * *

(1) * * *

(i) Recruitment services to reach persons who are eligible under § 206.3 (a) and (b).

* * * * *

(2) * * *

(i) Outreach and recruitment services to reach persons who are eligible under § 206.3 (a) and (c).

* * * * *

7. A new § 206.11 is added to subpart B to read as follows:

§ 206.11 What types of CAMP services must be provided?

(a) In addition to the services provided in § 206.10(b)(2), CAMP projects must provide follow-up services for project participants after they have completed their first year of college.

(b) Follow-up services may include—

(1) Monitoring and reporting the academic progress of students who participated in the project during their first year of college and their subsequent years in college; and

(2) Referring these students to on- or off-campus providers of counseling services, academic assistance, or financial aid.

(c) Grantees may not use more than 10 percent of funds awarded to them for follow-up services.

(Authority: 20 U.S.C. 1070d-2(c))

§ 206.20 [Amended]

8. Section 206.20(b)(1) is amended by removing the word "three", and adding, in its place, the word "five".

Part VI

Department of the Interior

Office of Surface Mining Reclamation and Enforcement

30 CFR Parts 840 and 842

Surface Coal Mining and Reclamation Operations; Initial and Permanent Regulatory Programs; Abandoned Sites; Proposed Rule

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

30 CFR Parts 840 and 842

RIN 1029-AB60

Surface Coal Mining and Reclamation Operations; Initial and Permanent Regulatory Programs; Abandoned Sites

AGENCY: Office and Surface Mining Reclamation and Enforcement, Interior.

ACTION: Proposed rule.

SUMMARY: The Office of Surface Mining Reclamation and Enforcement (OSM) of the U.S. Department of the Interior proposes to amend its regulations governing the inspection of surface coal mining and reclamation operations to change the minimum inspection frequency for minesites defined as "abandoned sites" under the existing regulations. An abandoned site is an incompletely reclaimed surface coal mining and reclamation operation where mining and reclamation activities have permanently ceased. In most instances the operators of these sites have filed for bankruptcy or can not be located and either will not or can not comply with corrective measures ordered in State or Federal enforcement actions which mine inspectors have issued to compel abatement of violations of environmental performance standards or to compel completion of reclamation obligations. These proposed revisions would enable regulatory authorities to eliminate a significant number of ineffective inspections which waste inspection resources and thus, would allow the regulatory authorities to redirect those resources to operations where inspection and enforcement would achieve intended results.

DATES: *Written Comments:* OSM will accept written comments on the proposed rule until 5 p.m. Eastern time on January 19, 1993.

Public Hearings: Upon request, OSM will hold a public hearing on the proposed rule in Washington, DC on January 19, 1993. Upon request, OSM will also hold public hearings in the States of California, Georgia, Idaho, Massachusetts, Michigan, North Carolina, Oregon, Rhode Island, South Dakota, Tennessee, and Washington at times and dates to be announced prior to the hearings. OSM will accept requests for public hearings until 5 p.m. on January 19, 1993. Individuals wishing to attend, but not testify at the hearing should contact the person identified under **FOR FURTHER INFORMATION CONTACT** beforehand to verify that the hearing will be held.

ADDRESSES: *Written Comments:* Hand deliver to the Office of Surface Mining Reclamation and Enforcement, Administrative Record, room 660, 800 North Capitol St. NW., Washington, DC; or mail to the Office of Surface Mining Reclamation and Enforcement, Administrative Record, room 660, 1951 Constitution Avenue NW., Washington, DC 20240.

Public Hearings: Department of the Interior Auditorium, 18th and C Streets NW., Washington, DC. The addresses for any hearings scheduled in the States of California, Georgia, Idaho, Massachusetts, Michigan, North Carolina, Oregon, Rhode Island, South Dakota, Tennessee, and Washington will be announced prior to the hearings.

Request for public hearings: Submit orally or in writing to the person and address specified under **FOR FURTHER INFORMATION CONTACT.**

FOR FURTHER INFORMATION CONTACT: Daniel Stocker, Office of Surface Mining Reclamation and Enforcement, 1951 Constitution Avenue NW., Washington, DC 20240: Telephone: 202–208–2550 (Commercial or FTS).

SUPPLEMENTARY INFORMATION:

I. Public Comment Procedures
II. Background
III. Discussion of Proposed Rule
IV. Procedural Matters

I. Public Comment Procedures

Written Comments

Written comments submitted on the proposed rule should be specific, should be confined to issues pertinent to the proposed rule, and should explain the reason for any recommended change. Where practicable, commenters should submit three copies of their comments (see **ADDRESSES**). Comments received after the close of the comment period or delivered to addresses other than those listed above (see **DATES**) may not be considered or included in the Administrative Record for the final rule.

Public Hearings

OSM will hold public hearings on the proposed rule on request only. The time, date, and address scheduled for the hearing in Washington, DC are (see **DATES** and **ADDRESSES**). The times, dates, and addresses for any hearings at other locations have not yet been scheduled, but will be announced in the **Federal Register** at least 7 days prior to any hearings which are held at those locations.

Any person interested in attending or participating at a hearing at a particular location should inform Mr. Stocker (see **FOR FURTHER INFORMATION CONTACT**) either orally or in writing of the desired hearing location by 5 p.m. Eastern time January 19, 1993. If no one has contacted Mr. Stocker to express an interest in participating in a hearing a given location by that date, no hearing will be held. If only one person expresses an interest, a public meeting rather than a hearing may be held and the results will be included in the Administrative Record.

If a hearing is held, it will continue until all persons wishing to testify have been heard. To assist the transcriber and ensure an accurate record, OSM requests that persons who testify at a hearing provide the transcriber a copy of their testimony. To assist OSM in preparing appropriate questions, OSM also requests that persons who plan to testify submit an advance copy of their testimony to OSM at the address previously specified for submission of written comments (see **ADDRESSES**).

II. Background

Section 517(c) of the Surface Mining Control and Reclamation Act of 1977 (the Act) states that the regulatory authority shall inspect on an irregular basis averaging not less than one partial inspection per month and one complete inspection per quarter each surface coal mining and reclamation operation covered by a permit. To implement this requirement, OSM first promulgated rules at 30 CFR 840.11 for State regulatory authorities and at 30 CFR 842.11 for OSM where it is the regulatory authority in a State. 44 FR 15455 (March 13, 1979). These rules required regulatory authorities to inspect each surface coal mining and reclamation operation on an average of not less than one partial inspection per month and not less than one complete inspection per calendar quarter.

These rules were revised on August 16, 1982. 47 FR 35620. Among other things, the 1982 rules defined "inactive" operations as a distinct category of surface coal mining and reclamation operations and reduced the partial inspection frequency requirement for those operations to "as necessary to ensure effective enforcement" of the regulatory program. The rules were again revised in 1988. (53 FR 24872, June 30, 1988). This time the rules defined an "abandoned site" as a distinct category of surface coal mining and reclamation operations and enabled regulatory authorities to reduce the inspection frequency at these sites and to refrain from issuing additional

enforcement actions at abandoned sites under certain conditions. The definition of "abandoned site" specifies that before a site can be considered abandoned it must first meet certain criteria which ensure that the regulatory authority has or is in the process of taking all enforcement action available to it under the applicable regulatory program to compel abatement of violations and completion of reclamation. Sites meeting the definition could then, instead of twelve times per year, be inspected "as necessary to monitor for changes of environmental conditions or operational status at the site."

The 1988 final rule was subsequently challenged in Federal District Court. On August 30, 1990, the United States District Court for the District of Columbia issued an order in the case of *National Wildlife Federation, et al.*, v. *Manuel Lujan, Jr., et al.*, 31 Env't Rep. Cas. (BNR) 2034, 2042 (D.D.C. 1990) (*NWF* v. *Lujan*). Although the district court remanded the rule to the Secretary to be withdrawn or revised on the basis that the Secretary's arguments supporting the rule at that time were inconsistent with expressed requirements of the Act, it conceded that the rule was practical, that it comported with common sense, and that it is not wise to spend a lot of time and effort inspecting abandoned sites every month when nothing changes. However, to implement the court's order, OSM suspended those parts of the 1988 rule that related to inspection frequency at abandoned sites. The definition of "abandoned site" at 30 CFR 840.11(g) and 842.11(e) and the provision at 30 CFR 843.22 allowing regulatory authorities to refrain from issuing additional enforcement actions at abandoned sites were unaffected by the court order and remain intact (56 FR 25036, June 3, 1991).

Since the district court's decision does not stand in the way of the Secretary proceeding with an alternative rulemaking on the subject of inspection frequency at abandoned sites, OSM is proposing this rule today which it believes is consistent with both the Act and the district court's opinion in *NWF* v. *Lujan*, which struck down the previous rule. See *NWF* v. *Lujan*, Civ. Action Nos. 89–0136, 88–3345 & 88–2416, U.S. App. Ct. (DC Cir., December 10, 1991), mem. op. at 10. The proposed rule does not apply to operations "covered by [a] permit," and thus is not subject to section 517(c) of SMCRA.

In promulgating the 1988 rule on abandoned sites, OSM concluded then, as it does now, that repeated inspections of abandoned sites at the frequency required under the existing rules are an ineffective expenditure of resources and that fewer inspections would not result in increased harm to the environment or reduce in any way the likelihood of ultimate compliance at abandoned sites. The time inspectors spend at abandoned sites detracts from the time they can spend at other sites working with operators to abate present violations and prevent future violations, thus improving the overall quality and effectiveness of inspection programs under the Act.

Enforcement actions issued as a result of inspections at abandoned sites have historically proven to be ineffective at the inspector level to compel abatement of violations or to achieve reclamation. Moreover, inspectors normally have cited all significant violations prior to a site being considered abandoned under the current definition. The persons responsible for abating these violations typically are financially insolvent or cannot be located. In such instances, even when diligent efforts are made to enforce the Act, no one is available to abate violations or to perform or pay for the needed reclamation. Continuing regular partial and complete inspection of these sites serves no useful purpose and wastes finite inspection resources. To illustrate the extent of this waste, OSM has in the past conducted approximately 2,900 inspections each year on an average of 236 abandoned sites in Tennessee. This effort comprises approximately 32 percent of the inspections in that State; however, few of these inspections resulted in abatement of the violations or completion of reclamation.

OSM experience has shown that environmental conditions at most abandoned sites will not significantly degrade beyond that which has been observed during prior inspections and violations of substantive performance standards do not necessarily deteriorate to imminent danger or harm situations. While these sites do not comply with the Act, many, due to their age or because they were partially reclaimed prior to abandonment, become reasonably well stabilized through natural settlement and natural plant succession. During one period where approximately 6,000 inspections were conducted at abandoned sites in Tennessee, OSM inspectors observed no condition which posed an imminent danger to the public health or safety or an imminent environmental harm to land, air, or water resources.

While the stated goal of section 517 of the Act is to "enforce the requirements of and carry out the purposes of [the] Act," inspecting abandoned sites as frequently as sites covered by a permit does nothing to achieve, but on the contrary frustrates, this goal. Among the mechanisms provided by the Act to achieve the stated goals of section 517(c) are penalties under section 518, performance bonds under section 509 and 519, citizen suits under section 520, and enforcement under section 521. Each of these mechanisms implicitly has as its underlying premise the existence of a person against whom an action can be taken, or of a bond that can provide the funds to abate violations and secure reclamation. If no such person can be found after diligent effort, or the regulatory authority otherwise is taking appropriate action to ensure that abatement occurs, and any permit has been revoked and any bond is being forfeited, issuance of multiple notices of violation and cessation orders generated by the fixed inspection frequency requirement and the subsequent assessment of the uncollectible penalties are not productive tools to "enforce the requirements of and carry out [the] purposes of the Act." Under these circumstances, inspections of abandoned sites performed at a minimum frequency less than that for other sites based on the particular characteristics of the site are a far more reasonable and realistic alternative.

Section 201(c)(2) of the Act, 30 U.S.C. 1211(c)(2), requires the Secretary of the Interior to publish and promulgate such rules and regulations as may be necessary to carry out its purposes and provisions. Since regular partial and complete inspections of abandoned sites are a counterproductive use of limited inspection and enforcement resources, and since fewer inspections of such sites are not likely to result in increased environmental harm or otherwise secure compliance with the Act, this rule is a necessary and reasonable implementation of the purposes and provisions of the Act.

III. Discussion of Proposed Rule

Since the revisions being proposed for State regulatory authorities at 840.11 are identical to those being proposed at 842.11 where OSM is the regulatory authority, they will be combined for ease of discussion.

Section 840.11(g)(4)(i)/842.11(e)(4)(i)

These sections are being revised to require that before a site could be classified as abandoned, the permit must be expired or must be revoked. Under the existing rules, a site may be classified as abandoned if permit revocation proceedings have been initiated and are being diligently pursued. OSM now believes that before

a site should be able to qualify under the definition of "abandoned site," and therefore be subject to a reduction in inspection frequency, the permit covering the surface coal mining and reclamation operation should no longer be in effect. A person who has not or will not respond to enforcement actions issued by the regulatory authority and who can not or will not meet his obligations to abate violations or complete reclamation should not be entitled any opportunity to resume surface coal mining operations under the permit.

Section 840.11(g)(4)(ii)/842.11(e)(ii)

To qualify under the definition of "abandoned site," the existing rules require that the regulatory authority has initiated and is diligently pursuing forfeiture of, or has forfeited, the performance bond. These sections are being revised by adding the phrase "any available" before the phrase "performance bond." This change is minor and is intended to recognize that there are some sites that are or were permitted, but a performance bond was never required or no longer exists. The absence of a performance bond has no bearing on whether a site should be classified as abandoned for inspection purposes.

Sections 840.11(h)(1)/842.11(f)(1)

These proposed sections would establish a minimum inspection frequency for abandoned sites of not less than one complete inspection per calendar year. This will enable regulatory authorities to tailor an appropriate inspection frequency for abandoned sites based on the environmental or public health and safety conditions at each site. It would also take into consideration the diversity in terrain, climate, and other unique physical conditions among the various States which may affect the degree of stability or the potential for adverse impacts at such sites. Under these proposed rules, the inspection frequency for abandoned sites may, depending on the nature of the site, vary from one to twelve or more. After an appropriate frequency is selected, regulatory authorities may increase or decrease that frequency as new information becomes available indicating changes in the characteristics of a site.

While enforcement at the inspector level is no longer effective at abandoned sites, the regulatory authority will be required under the definition of "abandoned site" to pursue additional enforcement steps of permit blocking, alternative enforcement, and bond forfeiture. Generally, alternative enforcement beyond the inspector level is the only potentially viable means to achieve reclamation, even if abandoned sites should deteriorate. Where the regulatory authority is taking all appropriate enforcement actions available to it, nothing more can be done through repeated inspections to reclaim a site or abate violations than is already occurring. Thus, while a fixed inspection frequency like that required for active sites under the existing rules might cause the regulatory authority to be informed of a problem at an abandoned site more quickly, it will not provide a new remedy. Accordingly, OSM believes that the inspection frequency proposed under this rule strikes a reasonable balance between the fixed frequency required for active and inactive sites and the need to occasionally, but not less than once per year, inspect abandoned sites to monitor environmental conditions or changes in operational status of a site. Public comments are requested on the appropriateness of, and the need for, a minimum standard of one complete inspection per year for abandoned sites.

Section 840.11(h)(2)/842.11(f)(2)

These proposed sections would enable the regulatory authority to reduce the inspection frequency under paragraph (h)(1) and (f)(1) above if, based on no less than three consecutive complete annual inspections conducted during a three year period before or after the effective date of this rule, the regulatory authority finds in writing that the abandoned site satisfies two criteria. The first criterion is that no conditions or structures exist at the site which could create an imminent danger to the health or safety of the public or an imminent harm to the environment. The second criterion is that the site has become reasonably stable through natural settlement or revegetation processes. Through years of experience, OSM has found that there exists a class of abandoned sites that have become so stable or are so well buffered from any potential to cause an off-site threat to public health and safety or to the environment as to make further inspections completely unnecessary or necessary on only a two or more year cycle. If, after further reducing the inspection frequency under these sections, information becomes available to the regulatory authority that either criterion no longer applies, the site would need to revert to the appropriate inspection frequency required under paragraphs (h)(1) and (f)(1). Public comments are specifically requested with respect to this approach for reevaluating and possibly reducing the inspection frequency at abandoned sites meeting the criteria under this paragraph and with respect to those persons or class of persons that would be adversely affected by the adoption of this provision further reducing the inspection frequency at abandoned sites.

IV. Procedural Matters

Effect in Federal Program States and on Indian Lands

Proposed § 842.11 would apply through cross-referencing in those States with Federal programs. The programs with Federal programs are California, Georgia, Idaho, Massachusetts, Michigan, North Carolina, Oregon, Rhode Island, South Dakota, Tennessee, and Washington. The Federal programs for these States appear at 30 CFR parts 905, 910, 912, 921, 922, 933, 937, 939, 941, 942, and 947 respectively. The proposed rules would also apply through cross-referencing to Indian lands under Federal programs as provided in 30 CFR part 750. Comments are specifically solicited as to whether unique conditions exist in any of these States or on Indian lands which should be reflected as changes to the national rules or as specific amendments to any or all of the Federal programs or the Indian lands program.

Executive Order 12778 on Civil Justice Reform

This proposed rule has been reviewed under the applicable standards of section 2(b)(2) of Executive Order 12778, Civil Justice Reform (56 FR 55195). In general, the requirements of section 2(b)(2) of Executive Order 12778 are covered by the preamble discussion of this proposed rule. Additional remarks follow concerning individual elements of the Executive Order:

A. What is the preemptive effect, if any, to be given to the regulation?

The rule if adopted would not preempt State law or regulation.

States would not be required to adopt similar provisions and could continue to inspect abandoned sites at the current frequency if they so choose.

B. What is the effect on existing Federal law or regulation, if any, including all provisions repealed or modified.

The proposed rule modifies the implementation of the Surface Mining Control and Reclamation Act (SMCRA) as described herein, and is not intended to modify the implementation of any other Federal statute. The preceding discussion of this rule specifies the Federal regulatory provisions that are affected by this proposed rule.

C. Does the rule provides a clear and certain legal standard for affected conduct rather than a general standard, while promoting simplification and burden reduction?

The standards established by this rule are as clear and certain as practicable, given the complexity of the topics covered and the mandates of SMCRA.

D. What is the retroactive effect, if any, to be given to the regulation?

The change to abandoned sites inspection frequency would be prospective only. The basis for determining whether the inspection frequency may be further reduced to less than one complete inspection per year would be three complete inspections conducted over a three year period, all or part of which may be prior to the effective date of the rule.

E. Are administrative proceedings required before parties may file suit in court? Which proceedings apply? Is the exhaustion of administrative remedies required?

No administrative proceedings are required before parties may file suit in court challenging the provisions of this rule under section 526(a) of SMCRA, 30 U.S.C. 1276(a).

Prior to the filing of a suit under 30 U.S.C. 1270(b) with regard to any alleged governmental failure to perform a nondiscretionary duty under SMCRA in connection with a matter arising under the proposed rule, the administrative procedures specified in 30 U.S.C. 1270(b)(2) and 30 CFR 700.13 must occur. This statement is not intended to concede that such a suit would be proper following the promulgation of a final rule and does not waive any defense to such a suit.

F. Does the rule define key terms, either explicitly or by reference to other regulations or statutes that explicitly define those items.

Terms which are important to the understanding of this rule are set forth in 30 CFR 700.5 and 701.5.

G. Does the rule address other important issues affecting clarity and general draftsmanship of regulations set forth by the Attorney General, with the concurrence of the Director of the Office of Management and Budget, that are determined to be in accordance with the purposes of the Executive Order?

As of August 10, 1992, the Attorney General and the Director of the Office of Management and Budget have not issued any guidance on this requirement.

Federal Paperwork Reduction Act

The collections of information contained in this rule have been submitted to the Office of Management and Budget for approval as required by 44 U.S.C. 3501 *et seq.* The collection of this information will not be required until it has been approved by the Office of Management and Budget.

Public reporting burden for this collection of information is estimated to average 622,560 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send Comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing the burden, to the Information Collection Clearance Officer, Office of Surface Mining Reclamation and Enforcement, 1951 Constitution Avenue, NW., room 640 N.C., Washington, DC 20240; and the Office of Management and Budget, Paperwork Reduction Project 1029–0051, Washington, DC 20503.

Public comments are specifically requested regarding the reduction of the information collection burden for each State regulatory authority based on the proposed reduction in the inspection frequency for abandoned sites, as defined in this proposed rule.

Executive Order 12291 and Regulatory Flexibility Act

The Department of the Interior has determined that this document is not a major rule under the criteria of Executive Orders 12291 (February 17, 1981) and has determined that it will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.* The rules do not distinguish between small and large entities. This determination is based on the findings that the regulatory additions proposed by the rule would serve to reduce the costs potentially incurred by OSM and State regulatory authorities in making routine inspections of abandoned sites. Therefore, the rule should not add to the cost of operating a mine in compliance with an approved regulatory program.

National Environmental Policy Act

OSM has prepared a draft environmental assessment (EA) of the proposed rule and has made a tentative finding that it would not significantly affect the quality of the human environment under section 102(2)(C) of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4332(2)(C). The draft EA is on file in the OSM Administrative Record at the address previously specified (see **ADDRESSES**). A final EA will be completed and a final findings made on the significance of any resulting impacts prior to the promulgation of a final rule.

Author

The authors of this rule are Daniel Stocker and Frederick W. Fox, Branch of Inspection and Enforcement, Office of Surface Mining Reclamation and Enforcement, 1951 Constitution Avenue NW., Washington, DC 20240; Telephone 202–208–2550 (Commercial or FTS).

List of Subjects

30 CFR Part 840

Intergovernmental relations, Reporting and recordkeeping requirements, Surface mining, Underground mining.

30 CFR Part 842

Law enforcement, Surface mining, Underground mining.

Accordingly, it is proposed that 30 CFR parts 840 and 842 be amended as set forth below:

Dated: October 9, 1992.

Richard Roldan,

Deputy Assistant Secretary—Land and Minerals Management.

PART 840—STATE REGULATORY AUTHORITY—INSPECTION AND ENFORCEMENT

1. The authority citation for part 840 continues to read as follows:

Authority: Pub. L. 95–87, 30 U.S.C. 1201 *et seq.*, and Pub. L. 100–34, unless otherwise noted.

2. Section 840.11 is amended by revising paragraphs (g) (4) and (h) to read as follows:

§ 840.11 Inspections by State Regulatory Authority.

* * * * *

(g) * * *

(4) Where the site is, or was, permitted and bonded:

(i) The permit has either expired or been revoked; and

(ii) The regulatory authority has initiated and is diligently pursuing forfeiture of, or has forfeited, any available performance bond.

(h) (1) In lieu of the inspection frequency established in paragraphs (a) and (b) of this section, the regulatory authority shall inspect each abandoned site at a rate of no less than one complete inspection per calendar year.

(2) The inspection frequency under paragraph (h)(1) of this section may be reduced if, based on no less than three consecutive annual complete inspections conducted during a three year period before or after the effective

date of this rule, the regulatory authority finds in writing that:

(i) No conditions or structures exist at the site which could create an imminent danger to the health or safety of the public, or that could reasonably be expected to cause significant environmental harm to land, air or water resources; and

(ii) The site is reasonably stable based on the extent of reclamation prior to abandonment, the physical characteristics of the site, or on the extent of settlement or revegetation that has naturally occurred through time.

PART 842—FEDERAL INSPECTIONS AND MONITORING

1. The authority citation for part 842 continues to read as follows:

Authority: Pub. L. 95–87, 30 U.S.C. 1201 *et seq.*, and Pub. L. 100–34, unless otherwise noted.

2. Section 842.11 is amended by revising paragraphs (e)(4) and (f) to read as follows:

§ 842.11 Federal inspections and monitoring.

* * * * *

(e) * * *

(4) Where the site is, or was, permitted or bonded:

(i) The permit has either expired or been revoked; and

(ii) The Office has initiated and is diligently pursuing forfeiture of, or has forfeited, any available performance bond.

(f)(1) In lieu of the inspection frequency established in paragraphs (c) of this section, the Office shall inspect each abandoned site at a rate of no less than one complete inspection per calendar year.

(2) The inspection frequency under paragraph (f)(1) of this section may be reduced if, based on no less than three consecutive complete annual inspections conducted during a three year period before or after the effective date of this rule, the Office finds in writing that:

(i) No conditions or structures exist at the site which could create an imminent danger to the health or safety of the public, or that could be reasonably expected to cause significant environmental harm to land, air or water resources; and

(ii) The site is reasonably stable based on the extent of reclamation prior to abandonment, the physical characteristics of the site, or on the extent of settlement or revegetation that has naturally occurred through time.

Food and Drug Administration

21 CFR Part 310

Ophthalmic Drug Products for Over-the-Counter Human Use; Final Rule

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Part 310

[Docket No. 80N–145A]

RIN 0905–AA06

Ophthalmic Drug Products for Over-the-Counter Human Use; Ophthalmic Anti-Infective Drug Products for Over-the-Counter Human Use

AGENCY: Food and Drug Administration, HHS.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is issuing a final rule establishing that yellow mercuric oxide and certain other ophthalmic anti-infective active ingredients are not generally recognized as safe and effective or are misbranded for over-the-counter (OTC) use. (OTC ophthalmic anti-infectives are drugs applied to the eyelid to treat infections whose symptoms are manifested only in the eyelid.) This final rule evaluates data on yellow mercuric oxide and information concerning OTC availability of ophthalmic anti-infective drug products that were pending review when an earlier final rule on OTC ophthalmic drug products was issued. Also, this final rule lists in a regulation all OTC ophthalmic anti-infective ingredients that have been found to be not generally recognized as safe and effective or are misbranded. This final rule is part of the ongoing review of OTC drug products conducted by FDA.

EFFECTIVE DATE: June 18, 1993.

FOR FURTHER INFORMATION CONTACT: William E. Gilbertson, Center for Drug Evaluation and Research (HFD–810), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–295–8000.

SUPPLEMENTARY INFORMATION:

I. Background

In the **Federal Register** of May 6, 1980 (45 FR 30002), FDA published an advance notice of proposed rulemaking to establish a monograph for OTC ophthalmic drug products together with the recommendations of the Advisory Review Panel on OTC Ophthalmic Drug Products (the Panel), which was the advisory review panel responsible for evaluating data on the active ingredients in this drug class. The agency stated it was concerned that, because the symptoms of minor and serious eye infections are often similar, there may be potential for serious harm to the eye if professional treatment is delayed. The agency, therefore, tentatively determined that the benefits to be derived from OTC use of ophthalmic anti-infectives do not outweigh the risks and proposed to classify these ingredients in Category II (not generally recognized as safe and effective). (See 45 FR 30002.)

The agency's tentative final monograph on OTC ophthalmic drug products was published in the **Federal Register** of June 28, 1983 (48 FR 29788). All ophthalmic anti-infective active ingredients reviewed by the Panel, including yellow mercuric oxide, were classified as Category II (48 FR 29788 at 29796). Subsequently, the agency received new data and information concerning the appropriateness of ophthalmic anti-infective drug products for OTC use and the safety and effectiveness of yellow mercuric oxide as an OTC ophthalmic anti-infective active ingredient (Refs. 1 and 2).

The data concerning yellow mercuric oxide and information concerning the appropriateness of ophthalmic anti-infective drug products for OTC use remained under review at the time of the publication of the agency's final rule on OTC ophthalmic drug products in the **Federal Register** of March 4, 1988. (See 53 FR 6997 and 7076.) The agency's evaluation of those data completes the rulemaking on OTC ophthalmic drug products.

In the advance notice of proposed rulemaking for OTC ophthalmic drug products (45 FR 30002), the agency stated that the conditions excluded from the monograph (Category II) should be eliminated from OTC drug products effective 6 months after the date of publication of the final monograph in the **Federal Register**, regardless of whether further testing is undertaken to justify their future use. The agency also stated that conditions included in the monograph (Category I) should be effective 30 days after the date of publication of the final monograph in the **Federal Register**. In the tentative final monograph, the agency extended this 30-day period to 12 months because of the need to provide a reasonable period of time for relabeling and reformulation of products covered by the monograph (48 FR 29788 at 29789).

In the case of OTC ophthalmic anti-infective drug products, no active ingredient has been determined to be generally recognized as safe and effective for this use. Accordingly, no conditions are being established for this subclass of ingredients in the final monograph for OTC ophthalmic drug products (21 CFR part 349). Thus, there is no need for a 12-month period for relabeling and reformulation of these products. As stated in the advance notice of proposed rulemaking, these conditions should be eliminated from OTC drug products effective 6 months after the date of publication of this final rule. Therefore, on or after June 18, 1993, no OTC drug products containing ophthalmic anti-infective active ingredients that are subject to this final rule may be initially introduced or initially delivered for introduction into interstate commerce unless they are the subject of an approved application.

II. The Agency's Conclusions on the Comments

1. Two comments objected to the agency's reclassification of ophthalmic anti-infective ingredients from Category III to Category II in the tentative final monograph (48 FR 29788 at 29796). The comments contended that the agency's action reversed the Panel's recommendation without the support of factual evidence in the record. The comments also asserted that the agency failed to explain why the labeling warnings recommended by the Panel for this class of drug products were not considered sufficient to ensure safe use on an OTC basis. One of the comments indicated that the reclassification was not warranted because of the long history of safe use of OTC ophthalmic anti-infective drug products, as shown in the submissions made to the Panel. This comment stated that the agency's concerns could be handled by appropriate labeling and suggested the following indications for OTC ophthalmic anti-infectives:

(a) "For the relief of discomfort of styes."

(b) "For the treatment of irritation and minor infection of eyelids."

(c) "Soothes surrounding area."

The other comment contended that the agency—in stating that "symptoms of minor and serious infections are often similar" (48 FR 29788 at 29790)—failed to identify such similar "infections" and "symptoms" and did not distinguish the differences between the symptoms of eye infection and eyelid infection. The comment identified stye and blepharitis as two minor eyelid infections that are self-limiting and not threatening to sight and which, therefore, are amenable to

OTC treatment without the intervention of a physician. The comment argued that any potential problem there may be in delaying treatment of eye infections could reasonably be prevented by a cautionary warning in the labeling for such products stating that if relief is not obtained within 7 days, the consumer should consult a physician. The comment included affidavits from six experts in the field of ophthalmology in support of these statements (Ref. 1).

These experts made the following statements in their affidavits: A stye is an infection of the eyelid and not of the cornea or any other part of the eye. The symptoms of stye infection include a feeling of fullness, swelling of the eyelid, burning, itching, crusting, irritation to the eyelid, and the stye itself, but do not include "red eye." Stye infections do not result in a decrease in vision. Blepharitis is an inflammation (chronic bacterial infection, usually staphylococcal) of the eyelid (lash follicles and meibomian glands). Symptoms include redness of the lid with some swelling and tenderness. Blepharitis does not cause "red eye" and does not affect vision. According to these experts, infections such as stye and blepharitis are self-limiting and not threatening to sight, and their symptoms are easily perceived by consumers such that self-medication with an OTC anti-infective drug product for at least 7 days would not pose any significant risk. One of the experts stated that if symptoms persist or intensify after a few days, the patient should seek medical advice. These experts felt that consumers could easily differentiate between minor eyelid infections and serious eye infections because serious eye infections invariably bring about red eye, pain, and a decrease in vision.

The comment added that the agency's proposed action would increase the cost of medical care because consumers would have to visit a physician before obtaining any treatment for stye or blepharitis. The comment suggested that it would be more appropriate for the agency not to allow the sale of OTC preparations for infections of the eye (the globe area) while permitting, with appropriate warnings, the OTC sale of effective drugs for the treatment of minor infections of the eyelid, such as stye and blepharitis. One of the experts felt it would be valuable to consumers to have available a safe and effective nonantibiotic OTC preparation for the early treatment of stye and blepharitis. This expert stated that frequent use of antibiotics leads to antibiotic resistance, and whenever a nonantibiotic preparation can be used in place of an antibiotic, it should be recommended.

Another comment stated that in the absence of any facts to support its proposal to restrict all ophthalmic anti infective drugs to prescription status, or any reasoned discussion for this position, FDA's proposal is arbitrary and capricious.

In the advance notice of proposed rulemaking (45 FR 30002), the agency stated its initial determination that ophthalmic anti-infectives should be classified in Category II in the tentative final monograph and invited specific comment. Only one comment was received, and that comment did not raise any of the issues offered by the current comments. (See 48 FR 29788 at 29790, paragraph 4.) Therefore, the agency did not find it necessary to present a detailed discussion in the tentative final monograph.

The agency points out that the Panel identified stye, blepharitis, and conjunctivitis as ophthalmic disorders that might be amenable to OTC treatment. However, the Panel also recognized that of the three conditions, self-treatment of conjunctivitis carries the greater risk, because stye and blepharitis are usually self-limiting and complications are rare. The Panel also stated that, while conjunctivitis is usually a self-limiting disorder, if the condition is severe and not responsive to medication, secondary corneal infections and ulcerations may occur (45 FR 30002 at 30012).

The agency has additional concerns, principally related to the similarity between the symptoms of conjunctivitis and those of very serious conditions of the eye, such as uveitis or the presence of a foreign body in the eye. For example, the Panel listed the symptoms of conjunctivitis as a "redness, discharge and the feeling of sand in the eye" (45 FR 30012). These symptoms are very similar to the symptoms of uveitis, which the Panel identified as "a redness of the eye primarily encircling the cornea" (45 FR 30011), or the symptoms of a foreign body imbedded in the cornea, which the Panel characterized as "redness of the eye and sensation of foreign matter in the eye" (45 FR 30010). The Panel recognized both uveitis and a foreign body embedded in the cornea as serious disorders not amenable to OTC treatment. Thus, the agency concludes that OTC treatment is inappropriate for conjunctivitis because its symptoms are similar to those of more serious disorders.

The agency believes that some consumers could distinguish the symptoms of minor eyelid conditions that are manifested only in the eyelid—such as blepharitis and stye—from those of serious eye infections. Nevertheless, the agency concludes that such eyelid conditions may not be amenable to OTC drug treatment with an ophthalmic anti-infective ingredient because consumers may not be able to accurately diagnose infectious blepharitis that could be treated with an ophthalmic anti-infective and stye occurs below the eyelid surface and would not be expected to be effectively treated by a topical anti-infective drug. In addition, no OTC drug product has been found to be safe and effective for ophthalmic anti-infective use.

The term blepharitis refers to an inflammation of the eyelid that may be caused by localized hypersensitivity factors, bacterial infections, skin conditions such as seborrheic dermatitis, or possibly combinations of these conditions. Signs and symptoms such as redness, swelling, burning, itching, crusting, and irritation of the eyelid are not specific for bacterial infections of the eyelid. One comment maintained that consumers could readily differentiate between infectious and noninfectious blepharitis. However, because the signs and symptoms of blepharitis are frequently the same no matter what the cause, it is unlikely that most consumers could make such a distinction. Even health professionals frequently have trouble doing so. For example, the principal investigator of one of the clinical studies submitted in support of yellow mercuric oxide as an OTC ophthalmic anti-infective (Ref. 2) was unable to make this distinction more than 50 percent of the time. Of the 150 subjects randomized into a study, only 79 actually had bacterial colony counts high enough to meet the entrance criteria. The remainder did not have bacterial colony counts high enough to meet the entrance criteria and probably did not have infectious blepharitis. (See comment 3.) If the blepharitis results from a nonbacterial cause, there should be no need for and no expected benefit from using an anti-infective drug.

In addition, a stye or hordeolum is a localized, purulent inflammatory infection of the sebaceous or sweat glands in the eyelids, usually caused by staphylococci. Basically, it is a pustule or abscess within the lumen of the gland. The majority of styes are naturally self-limiting and resolve without treatment. The application of a topical anti-infective ingredient to an existing stye, as to an abscess elsewhere in the body, would be expected to have little, if any, effect on the clinical course of the abscess.

(2) Comment No. LET003, Docket No. 80N–0145, Dockets Management Branch.

2. One comment objected to what it perceived as an agency requirement that the mechanism of action of yellow mercuric oxide be demonstrated before it can be generally recognized as effective. Based on an agency statement made in a **Federal Register** notice concerning the status of diphenhydramine as an OTC antitussive drug product (44 FR 51512 and 51517), the comment stated that it is not an absolute requirement that a "precise mechanism of action of a drug" be shown for the drug to be considered effective.

The agency agrees with the comment that it is not an absolute requirement to show the precise mechanism of action of a drug. A presumed mechanism based on some evidence is needed, but the specific mechanism is often not known and would not be required in this case for approval. However, as the comment points out, 21 CFR 330.10(a)(4)(ii) states that, "Effectiveness means a reasonable expectation that, in a significant proportion of the target population, the pharmacological effect of the drug * * * will provide clinically significant relief of the type claimed." In order to determine that a drug provides such relief, information about the pharmacological effect of the drug must be known, and it must be possible to identify a specific target population that matches the claim. If the product claims to "clear scaling (or redness) of the eyelids," then the study population must have scaling (or redness). It would be necessary in the clinical trials to show that the scales (or redness) were cleared. If the product claims to "clear minor eyelid infections," then the population under study must have "minor eyelid infections," and it would be necessary to show that the drug product has cleared the infecting organism. For example, the mere presence of a bacterial organism such as *Staphylococcus epidermidis* on the eyelids is not equivalent to an infection. The role of *S. epidermidis* is not clearly established in blepharitis. (See comment 3.) In addition, there are many forms of blepharitis, including seborrheic blepharitis, which do not have an infective component.

3. One comment submitted three clinical studies in support of the safety and effectiveness of yellow mercuric oxide as an ophthalmic anti-infective ingredient for OTC use in the treatment of styes, blepharitis, and simple eyelid infections (Refs. 1 through 4).

The agency has evaluated these three studies and determined that they are inadequate to support monograph status for yellow mercuric oxide as an OTC ophthalmic anti-infective ingredient for the treatment of minor external eyelid infections, such as stye or blepharitis. The agency has also determined that two additional, independent, well-controlled studies are necessary to establish that yellow mercuric oxide is generally recognized as a safe and effective ophthalmic anti-infective ingredient. In addition, adequate data supporting the ability of consumers to differentiate between infectious and noninfectious blepharitis are necessary to ensure that ophthalmic anti-infective drug products can be used properly on an OTC basis.

The clinical data submitted by the comment included three studies: one by Kastl (Refs. 1 and 2), one by Hyndiuk and Burd (Refs. 1 and 2), and one by Yamamoto (Refs. 3 and 4). In the clinical studies by Kastl and by Hyndiuk and Burd, subjects with a clinical diagnosis of minor external eyelid infections received a random, double-masked treatment with either the test drug containing 1 percent yellow mercuric oxide with 2.5 percent boric acid as a stabilizer in an ophthalmic ointment base or a placebo ointment containing 2.5 percent boric acid in an ophthalmic ointment base. The ointments were applied twice daily for 7 days. The subjects in the studies recorded side effects on a diary card. The microbiological evaluation of cultures from swabs of the affected eyelids was a criterion for the inclusion of subjects in both of these clinical studies as well as for the determination of the success or failure of the treatment.

In the clinical study by Kastl (Refs. 1 and 2), a slit lamp examination was performed on each subject to confirm whether the subject had a stye or blepharitis prior to entry into the program. Specimens for laboratory cultures were taken from affected eyelids on day 0 and then on days 4 and 7 of the treatment. Ten subjects had positive cultures of *Staphylococcus aureus* (*S. aureus*) and all other subjects had cultures of *S. epidermidis*. Of 66 subjects completing the course of treatment, 37 used the test drug and 29 used the placebo. The comment claims that 89 percent of the test subjects showed improvement by the seventh day of treatment as compared with 57 percent of the subjects who used the placebo ointment.

In the study by Hyndiuk and Burd (Refs. 1 and 2), specimens from the affected eyelids were cultured on day 0 and then again on days 3 and 7 of the treatment. The prevalent organism isolated was *S. epidermidis*, with only one subject having a *S. aureus* infection. Of 41 subjects completing the 7 days of treatment, 20 were given the active medication and 21 the placebo. The data summary states that the use of active medication resulted in a significant decrease in the numbers of bacteria by day 3, and these low counts were maintained through day 7; whereas, the placebo group showed no significant difference in bacterial counts between days 0, 3, and 7.

The subjects in this study were also assessed for the clinical symptoms of redness, scaling, and swelling of the eyelid on days 1, 3, and 7, and their symptoms were recorded daily on a diary card. For the clinical evaluation of symptoms, the degree of blepharitis was graded on a scale from 0 to 4+ (0 = no blepharitis; 1+ = erythema; 2+ = erythema and exudation fibrinous scaling; 3+ = erythema, exudation or fibrinous scaling, and edema; 4+ = erythema, exudation or fibrinous scaling, edema, and ulceration) and recorded on a subject record form. The comment contended that for the group receiving active medication, the clinical data show a decrease in the severity of the lid disease of 87 percent (17/20) by day 3, and 95 percent (19/20) by day 7; whereas, the group receiving placebo showed a 52 percent (11/21) improvement by day 3, and 64 percent (14/22) improvement by day 7.

The study by Yamamoto (Refs. 3 and 4) involved 34 subjects with acute simple conjunctivitis, blepharitis, or stye and greater than 20 colony forming units of organisms with pathogenic potential counted on initial culture. The subjects received a random, double-blind treatment with either the test drug containing 1 percent yellow mercuric oxide, cod liver oil, zinc sulfate, and boric acid in a special ophthalmic base or with the ophthalmic base alone. The subjects were initially examined with a slit lamp biomicroscope, and their visual acuities were measured. They were also assessed for the clinical symptoms of lid or conjunctival inflammation, redness, and discomfort. The subjects were instructed to use the ointments three times daily and to maintain a daily record of their symptoms during the course of the study. Return visits were scheduled for the third and seventh days of treatment. Microbial cultures of the affected eyes were taken before starting treatment. After each of the scheduled visits, the subjects' clinical progress, tolerance of the medication, and the bacterial colony counts were assessed and tabulated. The results of the study were reported to

demonstrate that, at day three, the mean bacterial colony count of the treatment group decreased significantly when compared with the decrease of the mean bacterial colony count of the placebo group. The subjective improvement ratings made by the physician and the subject were consistently higher for the treatment group, but the differences were not statistically significant.

The agency determined that these studies were not designed to provide adequate information on the effectiveness of yellow mercuric oxide for relieving the symptoms associated with stye or blepharitis. The studies did not differentiate between subjects with stye or blepharitis. The agency considers stye and blepharitis as different disorders that should be analyzed separately to support the effectiveness of this ingredient.

In addition, the studies depended largely on the analysis of microbiological findings to support the effectiveness of yellow mercuric oxide. However, the agency does not consider microbiological parameters as adequate to use as the primary support of the effectiveness of an anti-infective agent; data demonstrating a corresponding improvement in key symptoms or in the condition of the subject are also needed. The principal basis for demonstrating effectiveness should be the percentage of subjects clinically cured. In the case of an OTC drug with a 7-day limit on use, degrees of improvement without cure are not sufficient evidence of effectiveness, because the subject must discontinue use at the end of the treatment period. Microbiological analyses are necessary to establish that the correct subject population was studied, but are secondary analyses.

Further, the agency questions the role of the two most frequently found microorganisms (*S. epidermidis* and other coagulase-negative staphylococci) in the occurrence of blepharitis and stye. Some of the articles submitted by the comment (Ref. 5) to support the role of *S. epidermidis* in blepharitis questioned the pathogenicity of the organism. Lowy and Hammer (Ref. 6) state that, ordinarily, *S. epidermidis* is an organism with low virulence, and that breaks in the host defense caused by surgery, catheter placement, prosthesis insertion, or immunosuppression are usually a prerequisite for infections. Dougherty and McCulley (Ref. 7) state that it is questionable whether coagulase-negative staphylococci such as *S. epidermidis* play a significant role in blepharitis. The authors added that the role is not obvious, because these species are isolated in such high frequency from all groups and normal persons. Dougherty and McCulley concluded that bacteria do not have a primary role in the pathogenesis of most chronic blepharitides.

The comment also cited: (1) An article by Valenton and Okumoto (Ref. 8) that shows that cell-free filtrates of *S. epidermidis* when injected subconjunctivally will cause an inflammatory response and (2) an article by Kahn, Hoover, and Ide (Ref. 9) that includes two case reports which implicate *S. epidermidis* as the cause of blepharitis in immunosuppressed subjects. The comment also noted the high incidence of *S. epidermidis* in postsurgical ophthalmitis and implied that because *S. epidermidis* can cause disease when the normal defense mechanisms are bypassed, it can also cause disease in an uncompromised host. Seal, Barrett, and McGill (Ref. 10) state that although both *S. aureus* and *S. epidermidis* were isolated from subjects with blepharitis, the significance of the *S. epidermidis* is doubtful because it was present at a higher percentage in the controls than in the subjects (50 percent isolated from controls versus 34 percent isolated from subjects). Additionally, in the Hyndiuk and Burd study (Refs. 1 and 2), several of the subjects in the placebo group were improved even though their colony counts increased. This is additional evidence against the hypothesis that *S. epidermidis* is a major cause of blepharitis. The agency concludes that *S. epidermidis*, the predominant organism cultured in the three clinical studies, has an uncertain role in the disease process associated with blepharitis or stye.

The agency also found methodological problems with these studies: (1) The way colony counts were evaluated in one study, (2) how "noncompliant" subjects and the statistical analysis used were evaluated in another study, and (3) the use of an inappropriate placebo and subject selection criteria in another study. The agency's detailed comments on the data are on file in the Dockets Management Branch (address above) (Ref. 11).

The comment subsequently provided additional information and data (Ref. 5) that included the following: (1) A statistical reanalysis separating the stye and blepharitis subjects in the three clinical studies, (2) subject record forms for the Kastl study (Refs. 1 and 2) from which clinical assessments were collected and used in the statistical reanalysis of these data, and a description of how the clinical signs of blepharitis were assessed in this study, (3) a description of the statistical analysis used in the Hyndiuk and Burd study (Refs. 1 and 2) and the lid culture methods used in this study, and (4) a discussion of the pathogenicity of *S. epidermidis* and the safety of yellow mercuric oxide for use on minor eyelid infections.

Although the comment's reanalysis of the Hyndiuk and Burd study (Ref. 5) demonstrated a statistically significant difference between yellow mercuric oxide and the placebo and the agency's analysis of the adjusted colony counts from day 3 and day 7 demonstrate a statistically significant difference between yellow mercuric oxide and the placebo, the agency's analysis of the adjusted clinical scores for day 3 and day 7 showed no statistically significant difference between yellow mercuric oxide and the placebo. As stated above, the agency does not consider microbiological parameters as adequate to use as the primary support of the effectiveness of an anti-infective agent; clinical data demonstrating a corresponding improvement in key symptoms or in the condition of the subject are also needed.

For the Kastl blepharitis study (Refs. 1, 2, and 5), the day 3 and day 7 adjusted colony counts from blepharitis subjects show no statistically significant difference between yellow mercuric oxide and the placebo. However, the day 3 and day 7 adjusted clinical scores from the blepharitis subjects demonstrate a statistically significant difference between yellow mercuric oxide and the placebo.

For the Yamamoto blepharitis study (Refs. 3, 4, and 5), the day 3 and day 7 unadjusted colony count data were analyzed by the investigator, who found no statistically significant difference between yellow mercuric oxide and the placebo. In the reanalysis of the data (Ref. 5), all the colony counts were changed from 600 to 9,000 without explanation, and the reanalysis of these revised day 3 and day 7 unadjusted colony counts shows a statistically significant difference between yellow mercuric oxide and the placebo. However, the agency's analysis of the day 3 and day 7 colony counts adjusted to the initial colony counts shows no statistically significant difference between yellow mercuric oxide and the placebo. The relevance of these differences between statistically significant clinical scores and colony counts is discussed above.

The agency summarized the blepharitis and stye subjects' microbiological and clinical data from the Kastl and Yamamoto studies (Refs. 1 through 4) according to how many treatments failed, how many subjects

improved, and how many subjects were cured. Analysis of the summarized data using a Wilcoxon Rank Sum test for the microbiological data and the Fisher's Exact test for the clinical data demonstrated that neither of these studies showed a statistically significant difference between yellow mercuric oxide and the placebo.

The submitted reanalysis of the combined stye subjects from the Yamamoto and Kastl studies (Ref. 5) demonstrated no statistically significant difference between treatment with yellow mercuric oxide and the placebo. No details were provided by the comment. The agency analyzed the stye results that were summarized according to failure, improvement, or cure and found that the Yamamoto study clearly shows that sties are as well treated by the placebo as the yellow mercuric oxide, each curing two of four subjects. Also, the Kastl study demonstrated that the placebo was significantly better than the yellow mercuric oxide for the treatment of sties. Yellow mercuric oxide had a failure rate of 21 percent, and the placebo failure rate was 0 percent ($p < .02$). There were no stye subjects in the Hyndiuk and Burd study.

Although none of the three clinical studies submitted shows a significant difference in the clinical cure rates, two of the three demonstrated a significant decrease in the number of *S. epidermidis* cultured from the affected eyelids. However, as discussed above, the clinical significance of this accomplishment is questionable. The agency's detailed comments on the data are on file in the Dockets Management Branch (address above) (Ref. 12).

The comment further reanalyzed the three clinical studies conducted by Hyndiuk and Burd, Kastl, and Yamamoto to substantiate the effectiveness of yellow mercuric oxide for the treatment of blepharitis (Ref. 13). The agency has evaluated the comment's reanalysis of the data and determined that it does not address basic design flaws in the studies as discussed below. Although the comment's proposed method of reanalysis, the modified Wilcoxon test, may be appropriate for the analysis of some specific portions of the data, the agency finds the reanalysis inadequate because the design of these studies is flawed for many reasons. The studies did not separately randomize for different ophthalmic disorders (i.e., stye and blepharitis in the Hyndiuk and Burd and the Kastl studies; stye, blepharitis, and conjunctivitis in Yamamoto's study).

Also, the agency considers it important that subjects selected for clinical studies of effectiveness reflect the population expected to use the drug product. In the three studies submitted by the comment, the inclusion criteria relied on subjects being selected on the basis of medical judgment and the results of laboratory testing. Subjects were excluded if they did not meet specifically identified initial microbial counts (110 colonies in the Hyndiuk and Burd study (Refs. 1 and 2), 50 colonies in the Kastl study (Refs. 1 and 2), and 20 colonies in the Yamamoto study (Refs. 3 and 4)). The microbiological testing criteria were not related to symptoms that can be described in the product's labeling and that a consumer could use to self-diagnose an eyelid condition that would be amenable to treatment with an OTC ophthalmic anti-infective drug product. The results of microbiological tests would not be available to consumers without additional medical advice. Therefore, the subjects in these studies do not correspond to the consumer population that would be expected to use the drug based on the product's OTC labeling.

The degree of blinding may have been incomplete. It is not clear that the placebo and test drugs were identical in appearance. Based on the appearance of samples of placebo used in the clinical studies that were submitted to the agency, an observer would have little difficulty in categorizing the placebo and test drug into two different groups and could easily identify the placebo by comparing the test drug against the currently marketed product.

The dosing of test drug in the Kastl and Yamamoto studies does not match the proposed directions for use. In both of these studies, subjects used the medication three times a day. The labeling of the marketed product directs consumers to apply the product two times a day.

The studies did not include eyelid scrubs as part of the required regimen for the subjects in the studies. As discussed in the reports of the Hyndiuk and Burd and Yamamoto studies, "staphylococcal blepharitis is a chronic condition with periods of exacerbation and remission. It is usually kept under control by a regimen of eyelid hygiene with application of an antibacterial ointment for episodes of exacerbation. Hygiene consists of cleansing the eyelid margins with diluted solution of a mild shampoo. Hot compresses and lid message are sometimes recommended as adjunct." It is the agency's view that a placebo ointment, prescribed in the absence of a regimen of eyelid hygiene, may be expected to adversely affect the condition. In this case, therefore, the placebo may have a negative effect and the active ingredient would be perceived to have a beneficial effect by comparison, even though there was no true beneficial effect. In addition, the studies did not include followup examinations after the subjects stopped the medication to check for "rebounds or exacerbations" of the infection.

The data sets upon which the analyses were performed are not properly and/or specifically identified. The inclusion and exclusion criteria used to determine the data sets in previous analyses are open to question. The agency disagrees with the data sets the comment used for analysis. The data set from the Hyndiuk and Burd study is in question for the following reasons: (1) The original report states that there were 59 subjects. The second revision of the report states that there were 58 subjects. (2) Subjects who stopped using the test product because of an adverse reaction should not have been excluded from the study results. Subjects 37, 38, and 56, each in the active treatment group, were excluded due to adverse reactions. These subjects should have been counted as treatment failures. (3) Subjects should not have been excluded due to noncompliance if the reason for noncompliance was an adverse reaction to the study medication. The subjects in this study who were excluded due to noncompliance reported reasons for noncompliance and, in most cases, these were adverse reactions. This included subjects in both the active group: 5 (burning after the first application), 19 (developed "red eyes" after the first application), 24 (omitted dose on each day because of blurred vision), 59 (ointment caused tearing and blurred vision); and in the placebo group: 17 (subject felt the product was not working) and 43 (omitted two doses because the subject did not want his vision to be blurred). (4) One of the subjects in the active group was listed as "lost to followup" but was known to have discontinued the medication due to an adverse reaction. Although it is true that subject 48 was hospitalized during the study period and did not return for the followup visit on day 7, the investigator was aware that the subject had stopped the test drug on day 4 because of severe burning. This subject should have been included as a treatment failure. (5) Subjects using corticosteroids (known to be effective in treating inflammation) should have been excluded from the analysis but were not (e.g., subject 13). (6) The 7-day followup did not always occur on day-7. Subject 11 had a pretreatment visit on March 29, 1982 and a day-7 visit on April 9, 1982,

which was 11 days afterward. Subject 57 had a pretreatment visit on November 16, 1982 and is recorded as having a day-7 followup on November 18, 1982, which was 2 days afterward. (7) The pretreatment visit date (March 8, 1982) and the culture date (March 9, 1982) do not match for subject 4. (8) Subject 45 was reported as a "no show" for the day-3 visit; however, the subject did report for a day-3 culture. (9) Subject 49 was entered into the study on September 21, 1982 as an 80-year-old white female and then re-entered on September 29, 1982 as an 80-year-old black female. (10) The study used multiple evaluators without identifying the evaluators. For example, as noted by the handwriting on the case report forms for subject 35, one individual evaluated the subject on days 1 and 3 and a second individual evaluated the subject on day 7. Only one evaluator is identified on the case report form. (11) The investigator did not identify how discrepancies between eyes would be handled and did not handle them consistently. Specific examples of such inconsistencies are on file in the Dockets Management Branch (address above) (Ref. 14).

The data set from the Kastl study is in question for the following reasons: (1) The copy of the case report form for subject 99 submitted to the agency on July 8, 1988 has a blank space for the eyelid examination on day 7. Another copy of the same case report form submitted June 26, 1984 has an evaluation recorded in this space. It is unclear why these case report forms are different. (2) The case evaluation forms are frequently not signed by the examining physician (e.g., subjects 90, 93, 95, 96, 97, 98, etc.). The investigator frequently did not sign the case report forms and, in multiple cases, the investigator's signature was signed by another individual (e.g., subjects 20, 22, 40, 46, 55, etc.). (3) Different evaluation scores have been written on top of previous evaluation scores so that it is not possible to tell which is the correct value. For example, the day-3 evaluation for subject 103 has a "1+" and a "2+" written on top of one another. Subject 104 has a "+" and a "0" written on top of one another. Subject 127 has a "1+" and a "0" written on top of one another. Subject 128 has a "1+" and a "2+" written on top of one another. (4) There were multiple evaluators involved using different evaluation systems. Some evaluations listed 0+, +, 2+ blepharitis; others listed 1+, 2+ scaling; while others listed just blepharitis. The comparability of these different evaluators is unclear. (5) The subject diary cards were inconsistently filled out. Although the diary cards had clear instructions, the instructions were rarely followed. (6) Colony counts were summed and recorded as the total number of colonies excluding diphtheroids. The appropriateness of combining all organisms except diphtheroids to produce a single number of colonies is questionable. It is unclear why diphtheroids were the only organisms disregarded. (7) Some subjects with low colony counts were discontinued at the day-3 visit, while others were permitted to complete the study. This inconsistency in discontinuing subjects is questionable, particularly because the investigator listed only 79 of the original 150 subjects as eligible for analysis.

The data set for the Yamamoto study is in question for the following reasons: (1) The colony counts are not always correctly recorded in the data set. For example, subject 76 had a day-3 culture with 55 colonies of staphylococcus and the data set lists 50 colonies. Also, subject 19 had a day-3 culture with 198 colonies of staphylococci and 3 colonies of streptococci. The data set lists 101 colonies. (2) It is not clear how the physician's evaluation score was completed. It appears that the evaluation was made by subtracting the day-7 score from the day-1 score. If this was the case, the evaluations for subjects 31, 41, and 42 are in error. (3) The culturing technique permitted cultures from both the conjunctiva and the eyelids. It is therefore difficult to determine the actual source of the organisms. (4) Colony counts were summed and recorded as the total number of colonies excluding diphtheroids. The appropriateness of combining all organisms except diphtheroids to produce a single number of colonies is questionable. It is unclear why diphtheroids were the only organisms disregarded. (5) The submitted copy of the case report forms was not of sufficient quality to read many of the evaluations.

The culture method used in this study was not sufficiently quantitative to permit reliance on numerical colony counts. An inflamed eyelid with a eyelid culture identified as "too numerous to count" bacteria is suggestive of blepharitis. If the inflammation in that eyelid is noted to resolve, and a followup eyelid culture fails to yield viable bacteria, then that eyelid would be "cured." In situations between these extremes, classifications of infection and cure may be questioned. The fact that each study identified a different lower limit of normal is indicative of variability and a lack of standard agreement.

As stated above, a causal role for *S. epidermidis* has not been resolved. The role of any other organisms in blepharitis has also not been established. There are multiple examples in these studies of subjects getting clinically worse when the colony count of *S. epidermidis* decreases, of subjects getting clinically worse when the colony count increases, of subjects getting clinically better when the colony count decreases, and of subjects getting clinically better when the colony count increases. The agency's detailed comments on the data are on file in the Dockets Management Branch (address above)(Ref. 14).

The agency concludes that any additional re-analyses of these clinical studies should not be conducted. The design flaws are considered too substantial to consider these clinical studies as adequate and well-controlled.

4. One comment presented the results of an in vitro study (Ref. 1) as a comparison of the efficacy of 1 percent yellow mercuric oxide ointment with that of several ophthalmic ointments commonly prescribed for eye infections.

The agency has reviewed the in vitro study and determined that it is inadequate to support the effectiveness of yellow mercuric oxide as an ophthalmic anti-infective. The ointments used in this study contained erythromycin, bacitracin, 10 percent sulfacetamide, and a combination of bacitracin, neomycin, and polymyxin. The efficacy of the products was determined by using a "zone of inhibition test" where antibacterial activity of the test drugs was determined by the diameter of the bacteria-free zone that each product created when placed on a culture plate streaked with *S. aureus*. The results of the in vitro effectiveness test indicated that the 1-percent yellow mercuric oxide ointment had an antimicrobial effect against the strains of *S. aureus* tested. However, the test was not adequately designed or standardized to make a valid comparison of the different active drug products used. Further, while the agency considers the results of the in vitro study as a useful indicator of activity, the results cannot be directly related to the relief of the symptoms of minor eyelid infection. The agency's detailed comments on the data are on file in the Dockets Management Branch (address above) (Ref. 2).

5. One comment submitted the results of two 21-day rabbit eye safety studies (Ref. 1) to support the safety of the use of yellow mercuric oxide as an ophthalmic anti-infective.

In the first study, six new Zealand white rabbits had 0.1 milliliter (mL) per day of the test ointment administered in the lower eyelid of one eye, while two rabbits, as negative controls, received no treatment. The data included a table of initial and weekly bodyweights of the test animals and the amount of mercury in the blood of the animals at the time of sacrifice. The agency finds this study inadequate because it did not include eye irritation scores and thus does not support the safety of yellow mercuric oxide.

In the second study, 30 New Zealand white rabbits were separated into groups of 10. Group I received 0.1 mL of the 1-percent yellow mercuric oxide ointment once daily; Group II received 0.1 mL of the 1-percent yellow mercuric oxide ointment twice daily; and Group III, the control group, received 0.1 mL physiological saline twice daily. The data consisted of daily ocular irritation scores, weekly bodyweights, and the initial and terminal determination of "urinalytical," hematological, and blood chemistry values for the 30 rabbits. The agency finds this study was properly designed and the data indicate that yellow mercuric oxide does not cause serious ocular damage.

However, the agency has also reviewed statements made by the Panel and the submitted clinical data (Refs. 2 through 5) and determined that the available human safety data are inadequate to support the safety of yellow mercuric oxide. The Panel concluded that there was insufficient evidence to determine the safety of this ingredient because of the sensitizing properties of mercuric salts (45 FR 30002 at 30031). Included in the Panel's review were a report of irritation (in the literature) and a practicing ophthalmologist's report of serious problems resulting from the use of yellow mercuric oxide ointment. Data from the submitted clinical studies suggest that a number of subjects may have developed adverse effects from yellow mercuric oxide. Among the compliant subjects in the Kastl study (Refs. 2 and 3), more subjects in the active drug group (53 percent) reported side effects, such as itching, burning, tearing, redness, or gritty feeling, than did subjects in the placebo group (31 percent). In the Hyndiuk and Burd study (Refs. 2 and 3), 10 percent of the subjects using active medication (3 of 30) dropped out of the study because of side effects to the medication (at least two side effects were considered to be allergic reactions). None of the 29 subjects using the placebo dropped out of this study because of a side effect. However, approximately the same number of subjects using the active medication as those using the placebo reported side effects in the study (10 and 9, respectively). No data on adverse reactions were provided in the Yamamoto study (Refs. 4 and 5). It is difficult to draw any firm conclusions from these data, but they suggest that the incidence of side effects resulting from the use of 1 percent yellow mercuric oxide ointment may not be insignificant. Because the submitted data were not sufficient to draw any firm conclusions, it is necessary to submit additional human safety data.

III. The Agency's Final Conclusions on OTC Ophthalmic Anti-Infective Drug Products

The agency has determined that no ophthalmic anti-infective active ingredient has been found to be generally recognized as safe and effective and not misbranded for any use in OTC ophthalmic drug products. The agency reiterates its position that no medication should be used in or near the eye unless it has been shown to be safe and effective for its intended use. The agency concludes: (1) Not all minor eyelid conditions are caused by bacteria, (2) the comments have not provided data to demonstrate that the consumer can differentiate between bacterial and nonbacterial conditions, (3) treatment with an anti-infective ointment would not be expected to hasten the resolution of a stye, and (4) data are inadequate to demonstrate that yellow mercuric oxide is safe and effective for the treatment of styes or blepharitis. Therefore, based on available data, the agency has determined that yellow mercuric oxide is not an appropriate anti-infective ingredient for the OTC treatment of minor eyelid infections. The agency is not including yellow mercuric oxide, or any other anti-infective ingredient, in the monograph for OTC ophthalmic drug products.

Therefore, any ingredient that is labeled, represented, or promoted for OTC use as an ophthalmic anti-infective is considered nonmonograph and misbranded under section 502 of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 352) and is a new drug within the meaning of section 201(p) of the act (21 U.S.C. 321(p)), for which an approved application or abbreviated application under section 505 of the act (21 U.S.C 355) and part 314 of the regulations (21 CFR part 314) is required for marketing. In appropriate circumstances, a citizen petition to amend the monograph (21 CFR part 349) may be submitted in support of ingredients for use as ophthalmic anti-infectives under 21 CFR 10.30 in lieu of an application. Any OTC drug product containing yellow mercuric oxide or any other ingredient for use as an ophthalmic anti-infective active

ingredient initially introduced or initially delivered for introduction into interstate commerce or repackaged or relabeled after the effective date of this final rule is not in compliance with the regulation and is subject to regulatory action.

The agency has examined the economic consequences of this final rule in conjunction with other rules resulting from the OTC drug review. In a notice published in the **Federal Register** of February 8, 1983 (48 FR 5806), the agency announced the availability of an assessment of these economic impacts. The assessment determined that the combined impacts of all the rules resulting from the OTC drug review do not constitute a major rule according to the criteria established by Executive Order 12291. The agency therefore concludes that no one of these rules, including this final rule for OTC ophthalmic anti-infective drug products, is a major rule.

The economic assessment also concluded that the overall OTC drug review was not likely to have a significant economic impact on a substantial number of small entities as defined in the Regulatory Flexibility Act (Pub. L. 96–354). That assessment included a discretionary regulatory flexibility analysis in the event that an individual rule might impose an unusual or disproportionate impact on small entities. However, this particular rulemaking for OTC ophthalmic anti-infective drug products is not expected to pose such an impact on small businesses. This final rule only affects the status of OTC ophthalmic anti-infective drug products. There are a limited number of OTC ophthalmic drug products that contain anti-infective ingredients. The Panel reviewed a limited number of OTC ophthalmic drug products that contained the anti-infective ingredients boric acid, mild silver protein, or yellow mercuric oxide. The agency checked a number of sources and found only one manufacturer of an OTC mild silver protein ophthalmic drug product and one manufacturer of an OTC yellow mercuric oxide ophthalmic drug product. The agency has also checked with a number of manufacturers and been informed that they no longer market ophthalmic drug products containing boric acid or yellow mercuric oxide (Ref. 1). Therefore, the agency certifies that this final rule will not have a significant economic impact on a substantial number of small entities.

The agency has determined under 21 CFR 25.24(c)(6) that this action is of a type that does not individually or cumulatively have a significant effect on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

Reference

(1) Memoranda of telephone conversations between K. Freeman, FDA, and various drug company representatives, in OTC Vol. 101FM, Docket No. 80N–145A, Dockets Management Branch.

In its final conclusions on OTC ophthalmic drug products (53 FR 7076 at 7089), the agency listed the ophthalmic ingredients that it considered to be monograph and stated that, with the exception of anti-infective drug products, all other ophthalmic active ingredients are considered nonmonograph ingredients. At that time, none of these nonmonograph ingredients was listed in a regulation. Since then, the agency has established 21 CFR 310.545 in which it listed certain active ingredients that are not generally recognized as safe and effective for certain OTC drug uses. The agency is adding § 310.545(a)(21), covering the nonmonograph ophthalmic active ingredients considered as part of the rulemaking for OTC ophthalmic drug products. These ingredients were listed in a summary of ingredient categories in the tentative final monograph (48 FR 29788 at 29796). The date of nonmonograph status for all of the ingredients in the list in § 310.545(a)(21), except ophthalmic anti-infective ingredients, was March 6, 1989. The date of nonmonograph status of yellow mercuric oxide and other ophthalmic anti-infective active ingredients is June 18, 1993.

Therefore, the agency is amending 21 CFR 310.545 by adding new paragraph (a)(21), by revising the introductory text of paragraph (d), and by adding new paragraphs (d)(7) and (d)(8) to establish that yellow mercuric oxide and certain other active ingredients are not generally recognized as safe and effective or are misbranded for OTC use as an ophthalmic anti-infective.

List of Subjects in 21 CFR Part 310

Administrative practice and procedure, Drugs, Labeling, Medical devices, Reporting and recordkeeping requirements.

Therefore, under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Commissioner of Food and Drugs, 21 CFR part 310 is amended as follows:

PART 310—NEW DRUGS

1. The authority citation for 21 CFR part 310 continues to read as follows:

Authority: Secs. 201, 301, 501, 502, 503, 505, 506, 507, 512–516, 520, 601(a), 701, 704, 705, 706 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 321, 331, 351, 352, 353, 355, 356, 357, 360b–360f, 360j, 361(a), 371, 374, 375, 376); secs. 215, 301, 302(a), 351, 354–360F of the Public Health Service Act (42 U.S.C. 216, 241, 242(a), 262, 263b–263n).

2. Section 310.545 is amended by adding new paragraph (a)(21), by revising the introductory text of paragraph (d), and by adding new paragraphs (d)(7) and (d)(8), to read as follows:

§ 310.545 Drug products containing certain active ingredients offered over-the-counter (OTC) for certain uses.

(a) * * *

(21) *Ophthalmic drug products.*

(i) *Ophthalmic anesthetic drug products.*

Antipyrine

Piperocaine hydrochloride

(ii) *Ophthalmic anti-infective drug products.*

Boric acid

Mild silver protein

Yellow mercuric oxide

(iii) *Ophthalmic astringent drug products.*

Infusion of rose petals

(iv) *Ophthalmic demulcent drug products.*

Polyethylene glycol 6000

(v) *Ophthalmic vasoconstrictor drug products.*

Phenylephrine hydrochloride (less than 0.08 percent)

* * * * *

(d) Any OTC drug product that is not in compliance with this section is subject to regulatory action if initially introduced or initially delivered for introduction into interstate commerce after the dates specified in paragraphs (d)(1) through (d)(8) of this section.

* * * * *

(7) March 6, 1989, for products subject to paragraph (a)(21) of this section, except those that contain ophthalmic anti-infective ingredients listed in paragraph (a)(21)(ii).

(8) June 18, 1993, for products subject to paragraph (a)(21)(ii) of this section that contain ophthalmic anti-infective active ingredients.

Dated: September 29, 1992.

Michael R. Taylor,

Deputy Commissioner for Policy.

Part VIII

Department of Health and Human Services

Food and Drug Administration

21 CFR Part 310

External Analgesic Drug Products for Over-the-Counter Human Use; Diaper Rash Labeling Claims; Final Rule

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Part 310

[Docket No. 78N-301D]

RIN 0905-AA06

External Analgesic Drug Products for Over-the-Counter Human Use; Diaper Rash Labeling Claims

AGENCY: Food and Drug Administration, HHS.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is issuing a final rule establishing that any over-the-counter (OTC) external analgesic drug product for use in the treatment and/or prevention of diaper rash is not generally recognized as safe and effective and is misbranded. FDA is issuing this final rule after considering public comments on the agency's notice of proposed rulemaking, and all new data and information on external analgesic drug products for use in the treatment and/or prevention of diaper rash that have come to the agency's attention. This final rule is part of the ongoing review of OTC drug products conducted by FDA.

EFFECTIVE DATE: June 18, 1993.

FOR FURTHER INFORMATION CONTACT: William E. Gilbertson, Center for Drug Evaluation and Research (HFD-810), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-295-8000.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of September 7, 1982 (47 FR 39412), FDA published, under § 330.10(a)(6) (21 CFR 330.10(a)(6)), an advance notice of proposed rulemaking and reopened the administrative record for the rulemaking for OTC external analgesic drug products, to allow for consideration of a statement on OTC drug products for the treatment of diaper rash prepared by the Advisory Review Panel on OTC Miscellaneous External Drug Products (the Panel), which was the advisory review panel responsible for evaluating data on the active ingredients used for the treatment of diaper rash. Interested persons were invited to submit comments by December 6, 1982. Reply comments in response to comments filed in the initial comment period could be submitted by January 5, 1983.

In the **Federal Register** of December 28, 1982 (47 FR 57738), in response to a request for an extension of time, the comment period and reply comment period for OTC external analgesic drug products were extended to February 4, 1983, and to March 7, 1983, respectively.

In accordance with § 330.10(a)(10), the data and information considered by the Panel, after deletion of a small amount of trade secret information, were placed on public display in the Dockets Management Branch (HFA-305), Food and Drug Administration, rm. 1-23, 12420 Parklawn Dr., Rockville, MD 20857.

The agency's notice of proposed rulemaking for OTC external analgesic drug products for the treatment and/or prevention of diaper rash was published in the **Federal Register** of June 20, 1990 (55 FR 25234). Interested persons were invited to file by December 17, 1990, written comments, objections, or requests for oral hearing before the Commissioner of Food and Drugs regarding the proposal. Interested persons were invited to file comments on the agency's economic impact determination by December 17, 1990. New data could have been submitted until June 20, 1991 and comments on the new data until August 20, 1991. Final agency action occurs with the publication of this final rule on OTC external analgesic drug products for the treatment and/or prevention of diaper rash.

In response to the notice of proposed rulemaking for OTC external analgesic drug products for the treatment and/or prevention of diaper rash, one manufacturer submitted two comments. Neither comment discussed active ingredients or labeling claims that would be pertinent to external analgesic diaper rash drug products. Both comments were also submitted to the three other rulemakings that include OTC diaper rash ingredients: OTC topical antifungal, topical antimicrobial, and skin protectant drug products. The comments addressed skin protectant active ingredients and labeling claims and will be discussed in the final monograph for OTC skin protectant drug products for the treatment and/or prevention of diaper rash. Copies of the comments received are on public display in the Dockets Management Branch (address above).

In the notice of proposed rulemaking for OTC external analgesic drug products, published in the **Federal Register** of February 8, 1983 (48 FR 5852 at 5868 and 5869), the agency stated that drug products containing external analgesic active ingredients, which are intended for the relief of pain and/or itching or for the relief of minor aches and pains, should not be used on children under 2 years of age except as recommended by a physician. The agency discussed the possibility of cutaneous absorption due to occlusion of the skin, as from a diaper, and mentioned that analgesic drugs can be corrosive to infants' skin under occlusion (48 FR 5864). The agency added that children at the age of 2 years are just beginning to learn to communicate verbally in expressing their symptoms to a parent, whereas children below the age of 2 years (a major portion of the target population for diaper rash drug products) are more passive and less able to express and localize symptoms to a parent.

The agency reiterated these views in the notice of proposed rulemaking for OTC external analgesic drug products for the treatment and/or prevention of diaper rash and concluded that external analgesic active ingredients should not be present in OTC diaper rash drug products (55 FR 25234 at 25236 and 25237). No comments were submitted in opposition to the agency's proposal.

In the **Federal Register** of August 25, 1992 (57 FR 38568 at 38573), the agency published a notice of proposed rulemaking stating that certain ingredients in OTC drug products are not generally recognized as safe and effective or are misbranded. The ingredients listed in this proposal included any external analgesic ingredients labeled with claims or directions for use in the treatment and/or prevention of diaper rash. No comments were received on this diaper rash portion of the proposal.

Based on the above, the agency concludes that no OTC external analgesic drug product labeled for the treatment and/or prevention of diaper rash is generally recognized as safe and effective. Accordingly, the agency is declaring that OTC drug products labeled for use in the treatment and/or prevention of diaper rash should not be formulated to contain any external analgesic active ingredients.

The agency emphasizes that this final rule for OTC external analgesic drug products, as it relates to OTC diaper rash drug products, does not apply to: (1) Active ingredients included in the external analgesic final monograph, to be published in a future issue of the **Federal Register**, that are Category I antipruritics for claims other than diaper rash; and (2) active ingredients included in both the external analgesic and skin protectant rulemakings where the ingredient is a Category I skin protectant making allowable diaper rash skin protectant claims, e.g., sodium bicarbonate.

Any OTC external analgesic drug product bearing any claims or directions

for use of the product for the treatment and/or prevention of diaper rash may not continue to be initially introduced or delivered for introduction into interstate commerce unless it is the subject of an approved application or abbreviated application (hereinafter called application). The agency is amending 21 CFR part 310 by adding to subpart E, new § 310.545(a)(10)(iv) (21 CFR 310.545(a)(10)(iv)) to include any external analgesic drug products labeled for use in the treatment and/or prevention of diaper rash. Any claims or directions for using an OTC external analgesic drug product in the treatment and/or prevention of diaper rash should be eliminated from OTC drug products by June 18, 1993, regardless of whether further testing is undertaken to justify future use. Thereafter, any OTC drug product containing any external analgesic active ingredient and labeled or intended for use in the treatment and/or prevention of diaper rash will be considered nonmonograph and misbranded under section 502 of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 352) and a new drug under section 201(p) of the act (21 U.S.C. 321(p)) for which an approved application under section 505 of the act (21 U.S.C. 355) and 21 CFR part 314 of the regulations is required for marketing. Therefore, on or after June 18, 1993, no OTC drug product containing any external analgesic active ingredient labeled or intended for use in the treatment and/or prevention of diaper rash may be initially introduced or initially delivered for introduction into interstate commerce unless it is the subject of an approved application. Further, any OTC drug product containing any active ingredient subject to this final rule that is repackaged or relabeled after the effective date of this final rule must be in compliance with the final rule regardless of the date the product was initially introduced or initially delivered for introduction into interstate commerce. Manufacturers are urged to comply voluntarily with this final rule at the earliest possible date.

The agency points out that publication of this final rule does not preclude a manufacturer's testing an external analgesic ingredient for diaper rash uses. New, relevant data can be submitted to the agency at a later date as the subject of an application that may provide for prescription or OTC marketing status. (See 21 CFR part 314.) As an alternative, where there are adequate data establishing general recognition of safety and effectiveness for these uses such data may be submitted in an appropriate citizen petition to amend the final monograph for OTC external analgesic drug products. (See 21 CFR 10.30.) However, marketing of products containing external analgesic active ingredients and bearing diaper rash claims or directions for use may not begin or continue while the data are being evaluated by the agency.

No comments were received in response to the agency's request for specific comment on the economic impact of this rulemaking (55 FR 25234 at 25237). The agency concludes that there is no basis for the continued marketing of any OTC external analgesic drug products with claims or directions for use in the treatment and/or prevention of diaper rash. As a result of this final rule, manufacturers will need to relabel some external analgesic drug products to delete these claims and/or directions for use prior to promulgation of the final monograph for OTC external analgesic drug products and/or reformulate and relabel some OTC skin protectant drug products prior to promulgation of the final monograph for OTC skin protectant drug products for the treatment and/or prevention of diaper rash, where such products contain both an external analgesic and a skin protectant active ingredient. The final rule for OTC skin protectant drug products for the treatment and/or prevention of diaper rash will be published in a future issue of the **Federal Register**.

Early finalization of the nonmonograph status of external analgesic active ingredients having diaper rash claims will benefit both consumers and manufacturers. Consumers will benefit from the early removal from the marketplace of product claims for which safety and effectiveness have not been established. This will result in a direct economic savings to consumers. Manufacturers of diaper rash drug products will benefit from being able to continue to market products containing other ingredients that have been proposed by the agency as being generally recognized as safe and effective, without manufacturers incurring additional expense of clinical testing to support these claims. (See proposed § 347.10, 48 FR 6820 at 6832 (February 15, 1983), and § 347.10, 55 FR 25204 at 25232.) In addition, external analgesic active ingredients will remain available for other claims that have been proposed by the agency as being generally recognized as safe and effective, without manufacturers incurring additional expense of clinical testing to support these claims. (See proposed § 348.50(b), 48 FR 5852 at 5868.) As noted above, some product reformulation and/or relabeling may be needed. The agency is aware of a limited number of diaper rash drug products that contain external analgesic active ingredients. Based on the above, the agency certifies that this final rule will not have a significant economic impact on a substantial number of small entities.

The agency has determined under 21 CFR 25.24(c)(6) that this action is of a type that does not individually or cumulatively have a significant effect on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

List of Subjects in 21 CFR Part 310

Administrative practice and procedure, Drugs, Labeling, Medical devices, Reporting and recordkeeping requirements.

Therefore, under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Commissioner of Food and Drugs, 21 CFR part 310 is amended as follows:

PART 310—NEW DRUGS

1. The authority citation for 21 CFR part 310 continues to read as follows:

Authority: Secs. 201, 301, 501, 502, 503, 505, 506, 507, 512–516, 520, 601(a), 701, 704, 705, 706 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 321, 331, 351, 352, 353, 355, 356, 357, 360b–360f, 360j, 361(a), 371, 374, 375, 376); secs. 215, 301, 302(a), 351, 354–360F of the Public Health Service Act (42 U.S.C. 216, 241, 242(a), 262, 263b–263n).

2. Section 310.545 is amended by adding new paragraph (a)(10)(iv), by revising the introductory text of paragraph (d), and by adding new paragraph (d)(9), to read as follows:

§ 310.545 Drug products containing certain active ingredients offered over-the-counter (OTC) for certain uses.

(a) * * *

(10) * * *

(iv) *Diaper rash drug products.*

Any ingredient(s) labeled with claims or directions for use in the treatment and/or prevention of diaper rash.

* * * * *

(d) Any OTC drug product that is not in compliance with this section is subject to regulatory action if initially introduced or initially delivered for introduction into interstate commerce after the dates specified in paragraphs (d)(1) through (d)(9) of this section.

* * * * *

(9) June 18, 1993, for products subject to paragraph (a)(10)(iv) of this section.

Dated: October 9, 1992.

Michael R. Taylor,

Deputy Commissioner for Policy.

[Docket No. 80N-476D]

RIN 0905-AA06

Topical Antifungal Drug Products for Over-the-Counter Human Use; Diaper Rash Labeling Claims

AGENCY: Food and Drug Administration, HHS.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is issuing a final rule establishing that any over-the-counter (OTC) topical antifungal drug product for use in the treatment and/or prevention of diaper rash is not generally recognized as safe and effective and is misbranded. FDA is issuing this final rule after considering public comments on the agency's notice of proposed rulemaking, and all new data and information on topical antifungal drug products for use in the treatment and/or prevention of diaper rash that have come to the agency's attention. This final rule is part of the ongoing review of OTC drug products conducted by FDA.

EFFECTIVE DATE: June 18, 1993.

FOR FURTHER INFORMATION CONTACT: William E. Gilbertson, Center for Drug Evaluation and Research (HFD-810), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-295-8000.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of September 7, 1982 (47 FR 39464), FDA published, under § 330.10(a)(6) (21 CFR 330.10(a)(6)), an advance notice of proposed rulemaking and reopened the administrative record for the rulemaking for OTC topical antifungal drug products, to allow for consideration of a statement on OTC drug products for the treatment of diaper rash prepared by the Advisory Review Panel on OTC Miscellaneous External Drug Products (the Panel), which was the advisory review panel responsible for evaluating data on the active ingredients used for the treatment of diaper rash. Interested persons were invited to submit comments by December 6, 1982. Reply comments in response to comments filed in the initial comment period could be submitted by January 5, 1983.

In the **Federal Register** of December 28, 1982 (47 FR 57738), in response to a request for an extension of time, the comment period and reply comment period for OTC topical antifungal drug products were extended to February 4, 1983, and to March 7, 1983, respectively.

In accordance with § 330.10(a)(10), the data and information considered by the Panel, after deletion of a small amount of trade secret information, were placed on public display in the Dockets Management Branch (HFA-305), Food and Drug Administration, rm. 1-23, 12420 Parklawn Dr., Rockville, MD 20857.

The agency's notice of proposed rulemaking for OTC topical antifungal drug products for the treatment and/or prevention of diaper rash was published in the **Federal Register** of June 20, 1990 (55 FR 25240). Interested persons were invited to file by December 17, 1990, written comments, objections, or requests for oral hearing before the Commissioner of Food and Drugs regarding the proposal. Interested persons were invited to file comments on the agency's economic impact determination by December 17, 1990. New data could have been submitted until June 20, 1991 and comments on the new data until August 20, 1991. Final agency action occurs with the publication of this final rule on OTC topical antifungal drug products for the treatment and/or prevention of diaper rash.

In response to the notice of proposed rulemaking for OTC topical antifungal drug products for the treatment and/or prevention of diaper rash, two manufacturers and one manufacturers' association submitted comments. Only one comment discussed active ingredients or labeling claims that would be pertinent to antifungal diaper rash drug products; however, that comment was subsequently withdrawn. The other two comments were also submitted to the three other rulemakings that include OTC diaper rash ingredients: OTC external analgesic, topical antimicrobial, and skin protectant drug products. The comments addressed skin protectant active ingredients and labeling claims and will be discussed in the final monograph for OTC skin protectant drug products for the treatment and/or prevention of diaper rash. Copies of the comments received are on public display in the Dockets Management Branch (address above).

In the notice of proposed rulemaking for OTC topical antifungal drug products for the treatment and/or prevention of diaper rash, the agency stated that topical antifungal active ingredients should not be included in OTC diaper rash drug products because a fungus infection associated with diaper rash in infants and young children (the target population for these products) would not be amenable to proper diagnosis and treatment without the aid of a physician (55 FR 25240 at 25241). No comments were received in opposition to the agency's proposal.

In the **Federal Register** of August 25, 1992 (57 FR 38568 at 38574), the agency published a notice of proposed rulemaking stating that certain ingredients in OTC drug products are not generally recognized as safe and effective or are misbranded. The ingredients listed in this proposal included any topical antifungal ingredients labeled with claims or directions for use in the treatment and/or prevention of diaper rash. No comments were received on this diaper rash portion of the proposal.

Based on the above, the agency concludes that no OTC topical antifungal drug product labeled for the treatment and/or prevention of diaper rash is generally recognized as safe and effective. Accordingly, the agency is declaring that OTC drug products labeled for the treatment and/or prevention of diaper rash should not be formulated to contain any topical antifungal active ingredients.

The agency emphasizes that this final rule for topical antifungal drug products, as it relates to OTC diaper rash drug products, does not apply to active ingredients included in the topical antifungal final monograph, to be published in a future issue of the **Federal Register**, that are Category I for claims other than diaper rash.

Any OTC topical antifungal drug product bearing any claims or directions for use of the product for the treatment and/or prevention of diaper rash may not continue to be initially introduced or delivered for introduction into interstate commerce unless it is the subject of an approved application or abbreviated application (hereinafter called application). The agency is amending 21 CFR part 310 by adding to subpart E, § 310.545(a)(22) (21 CFR 310.545(a)(22)) to include any topical antifungal drug products labeled for use in the treatment and/or prevention of diaper rash. Any claims or directions for using an OTC topical antifungal drug product in the treatment and/or prevention of diaper rash should be eliminated from OTC drug products by June 18, 1993, regardless of whether further testing is undertaken to justify future use. Thereafter, any OTC drug product containing any topical antifungal active ingredient and labeled or intended for use in the treatment and/or prevention of diaper rash will be considered nonmonograph and

misbranded under section 502 of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 352) and a new drug under section 201(p) of the act (21 U.S.C. 321(p)) for which an approved application under section 505 of the act (21 U.S.C. 355) and 21 CFR part 314 of the regulations is required for marketing. Therefore, on or after June 18, 1993, no OTC drug product containing any topical antifungal active ingredient labeled or intended for use in the treatment and/or prevention of diaper rash may be initially introduced or initially delivered for introduction into interstate commerce unless it is the subject of an approved application. Further, any OTC drug product containing any active ingredient subject to this final rule that is repackaged or relabeled after the effective date of this final rule must be in compliance with the final rule regardless of the date the product was initially introduced or initially delivered for introduction into interstate commerce. Manufacturers are urged to comply voluntarily with this final rule at the earliest possible date.

The agency points out that publication of this final rule does not preclude a manufacturer's testing a topical antifungal ingredient for diaper rash uses. New, relevant data can be submitted to the agency at a later date as the subject of an application that may provide for prescription or OTC marketing status. (See 21 CFR part 314.) As an alternative, where there are adequate data establishing general recognition of safety and effectiveness for these uses such data may be submitted in an appropriate citizen petition to amend the final monograph for OTC topical antifungal drug products. (See 21 CFR 10.30.) However, marketing of products containing topical antifungal active ingredients and bearing diaper rash claims or directions for use may not begin or continue while the data are being evaluated by the agency.

No comments were received in response to the agency's request for specific comment on the economic impact of this rulemaking (55 FR 25240 at 25244). The agency concludes that there is no basis for the continued marketing of any OTC topical antifungal drug products with claims or directions for use in the treatment and/or prevention of diaper rash. As a result of this final rule, manufacturers will need to relabel some topical antifungal drug products to delete these claims and/or directions for use prior to promulgation of the final monograph for OTC topical antifungal drug products and/or reformulate and relabel some OTC skin protectant drug products prior to promulgation of the final monograph for OTC skin protectant drug products for the treatment and/or prevention of diaper rash, where such products contain both a topical antifungal and a skin protectant active ingredient. The final rule for OTC skin protectant drug products for the treatment and/or prevention of diaper rash will be published in a future issue of the **Federal Register**.

Early finalization of the nonmonograph status of topical antifungal active ingredients having diaper rash claims will benefit both consumers and manufacturers. Consumers will benefit from the early removal from the marketplace of product claims for which safety and effectiveness have not been established. This will result in a direct economic savings to consumers. Manufacturers of diaper rash drug products will benefit from being able to continue to market products containing other ingredients that have been proposed by the agency as being generally recognized as safe and effective, without manufacturers incurring additional expense of clinical testing to support these claims. (See proposed § 347.10, 48 FR 6820 at 6832, February 15, 1983; and § 347.10, 55 FR 25204 at 25232, June 20, 1990.) In addition, topical antifungal active ingredients will remain available for other claims that have been proposed by the agency as being generally recognized as safe and effective, without manufacturers incurring additional expense of clinical testing to support these claims. (See proposed § 333.210; 54 FR 51136 at 51161, December 12, 1989.) As noted above, some product reformulation and/or relabeling may be needed. The agency is aware of only a few diaper rash drug products that contain an antifungal ingredient. Based on the above, the agency certifies that this final rule will not have a significant economic impact on a substantial number of small entities.

The agency has determined under 21 CFR 25.24(c)(6) that this action is of a type that does not individually or cumulatively have a significant effect on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

List of Subjects in 21 CFR Part 310

Administrative practice and procedure, Drugs, Labeling, Medical devices, Reporting and recordkeeping requirements.

Therefore, under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Commissioner of Food and Drugs, 21 CFR part 310 is amended as follows:

PART 310—NEW DRUGS

1. The authority citation for 21 CFR part 310 continues to read as follows:

Authority: Secs. 201, 301, 501, 502, 503, 505, 506, 507, 512–516, 520, 601(a), 701, 704, 705, 706 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 321, 331, 351, 352, 353, 355, 356, 357, 360b–360f, 360j, 361(a), 371, 374, 375, 376); secs. 215, 301, 302(a), 351, 354–360F of the Public Health Service Act (42 U.S.C. 216, 241, 242(a), 262, 263b–263n).

2. Section 310.545 is amended by adding new paragraph (a)(22), by revising the introductory text of paragraph (d), and by adding new paragraph (d)(10), to read as follows:

§ 310.545 Drug products containing certain active ingredients offered over-the-counter (OTC) for certain uses.

(a) * * *

(22) *Topical antifungal drug products.* (i) *Diaper rash drug products.* Any ingredient(s) labeled with claims or directions for use in the treatment and/or prevention of diaper rash.

(ii) [Reserved]

* * * * *

(d) Any OTC drug product that is not in compliance with this section is subject to regulatory action if initially introduced or initially delivered for introduction into interstate commerce after the dates specified in paragraphs (d)(1) through (d)(10) of this section.

* * * * *

(10) June 18, 1993, for products subject to paragraph (a)(22)(i) of this section.

Dated: October 9, 1992.

Michael R. Taylor,

Deputy Commissioner for Policy.

Department of Health and Human Services

Office of the Secretary

Grants to Indian Tribal Organizations for Supportive and Nutritional Services for Older Indians; Notice

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the Secretary

[Program Announcement 13655.911]

Grants to Indian Tribal Organizations for Supportive and Nutritional Services for Older Indians

AGENCY: Administration on Aging (AoA), OS.

ACTION: Announcement of availability of funds and opportunity to apply under the Older Americans Act, Title VI, Grants for Native Americans, Part A—Indian Program.

SUMMARY: The Administration on Aging will accept applications for funding in Fiscal Year 1993 under the Older Americans Act, title VI, Grants for Native Americans, part A—Indian Program, from all current title VI, part A grantees, current grantees who wish to leave a consortium and apply as a new grantee, and eligible federally recognized Indian tribal organizations that are not now participating in title VI. Successful applications from new grantees will be funded if funds permit.

DATES: February 16, 1993.

ADDRESSES: See Appendix A.

FOR FURTHER INFORMATION CONTACT: M. Yvonne Jackson, Ph.D., Office for American Indian, Alaskan Native, and Native Hawaiian Programs, Administration on Aging, Department of Health and Human Services, Wilbur J. Cohen Federal Building, room 4752, 330 Independence Avenue, SW., Washington, DC 20201, telephone (202) 619–2957.

SUPPLEMENTARY INFORMATION:

1. Background and Program Purpose

The Administration on Aging (AoA) is responsible for administering title VI, part A of the Older Americans Act, which provides for grants to Indian tribal organizations representing federally recognized Tribes for the provision of nutritional and supportive services to Indian elders.

The 1978 Amendments to the Older Americans Act created title VI, Grants for Indian Tribal Organizations. The purpose of this title is to promote the delivery of supportive and nutritional services for Indian elders that are comparable to services provided under title III of the Older Americans Act. (Title III of the Older Americans Act, entitled "Grants for State and Community Programs on Aging" is the nationwide program of supportive and nutritional services which serves persons over age 60 of all ethnic groups.)

In the Older Americans Act Amendments of 1987, the name of title VI was changed to Grants for Native Americans, and part B—Native Hawaiian Programs—was added.

Nutritional services and information and referral services are required by the Act. Nutritional services include congregate meals and home-delivered meals. Supportive services include information and referral, transportion, chore services, and other supportive services which contribute to the welfare of older Native Americans.

2. Eligibility of an Indian Tribal Organization or Indian Tribe to Receive a Grant

To be eligible to receive a grant, a tribal organization or Indian tribe must meet the application requirements contained in sections 612(a) and 612(b) of the Act, which are: "(1) The tribal organization represents at least 50 individuals who are 60 years of age or older; and (2) the tribal organization demonstrates the ability to deliver supportive services, including nutritional services." For purposes of title VI, part A, the terms "Indian tribe" and "tribal organization" have the same meaning as in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b).

This announcement concerns all federally recognized Indian tribal organizations, those currently participating in title VI, part A individually or as members of a consortium and those that are not currently participating in title VI, part A.

3. Available Funds

Available funds will be awarded to tribal organizations applying under this announcement based on a formula which considers the number of eligible applicant tribal organizations, and the number of elders over age 60 in each tribal organization's proposed title VI service area. The amounts awarded include funds for both direct and indirect costs. Therefore, since funds are limited by a Tribe's annual allotment, Tribal grantees must carefully plan their programs and consider all costs. No additional funds will be available.

Applications from current grantees who are a part of a consortium and wish to leave the consortium will be treated as new grant applications. Successful new grant applications for both current grantees who are leaving a consortium and tribal organizations who are not current grantees will be funded pending availability of additional funds.

Information on grant levels in Fiscal Year 1991 is given below as a guide to possible funding levels for Tribes representing the following documented numbers of Indian elders over age 60:

Population range (number of older Indians age 60 years and over, represented by the tribal organization)	Amounts of awards in FY 1991
50 to 100	$45,682
101 to 200	53,693
201 to 300	62,115
301 to 400	70,537
401 to 500	78,959
501 +	87,381

4. Application Process

Applicants should submit applications, describing their proposed plans for nutritional and supportive services for older Indians for project period April 1, 1993–March 31, 1996, as described in section 5 below, "Content of the Application."

A three year project period was chosen in order to reduce the paperwork burden on the grantees. It is the intent of this agency to conduct on site monitoring at least once during the three year project period.

The Program Performance and Financial Status reports, due on a semi-annual basis, will be reviewed for compliance with the program regulations. Failure to submit the required reports during the project period may result in loss of future funds and possibly termination of the grant within the project period.

Ninety days prior to the end of each budget period within the three year project period grantees will be notified of the funding level for the subsequent year by the Regional Office.

One original signed by the principal official of the Tribe and two copies of the application including all attachments, must be submitted to the Administration on Aging, Grants Management Division, Margaret Tolson, Director, 330 Independence Avenue, SW., Washington, DC 20201.

5. Content of the Application

The application must meet the criteria in sections 614(a) and (b) of the Act, and title 45 of the Code of Federal Regulations, § 1326.19. The application may be presented in any format selected by the tribal organization. Contact the AoA Regional Office in your geographic area if you have questions concerning the content of the application. The application must include the following information.

A. Objectives and Need for Assistance

This section must include objectives, expressed in measurable terms, which

are related to the needs of the service population.

B. Results or Benefits Expected

The application should describe the results or benefits expected from each service proposed.

C. Approach

(1) Description and Method of Delivery of Each Service

(a) Nutrition. Nutrition services are required. There should be a description of the methods, facilities, and staff to be used in preparing, serving, and delivering meals, and the estimated number of persons to be served. The nutrition services provided, either directly or by way of a grant or contract, must be substantially in compliance with the provisions of part C, title III, which include:

1. Provide at least one hot or other appropriate meal a day, 5 or more days a week in a congregate setting, and any additional meals which the recipient of a grant may elect to provide, each of which assures a minimum of one-third of the daily recommended dietary allowance as established by the Food and Nutrition Board of the National Academy of Sciences—National Research Council.

2. Provide at least one home delivered hot, cold, frozen, dried, canned, or supplemental food (with a satisfactory storage life) meal per day, 5 or more days a week, and any additional meals which the recipient of a grant may elect to provide, each of which assures a minimum of one-third of the daily recommended dietary allowance as established by the Food and Nutrition Board of the National Academy of Sciences—National Research Council.

If no title VI, part A funds are to be used for nutrition services, the application must state how such services are provided in other ways, and how they are financed.

(b) Information and Referral. Information and referral services are required. They must be available for older Indians living in the title VI part A service area and there should be a description of what information and referral services will be provided and how they will be provided. The estimated number of individuals to be served should be stated. If no title VI, part A funds are to be used for information and referral services, the application must state how such services are provided in other ways, and how they are financed.

(c) Other Supportive Services. The application must describe any other supportive services to be provided wholly or partly by title VI, part A funds. The description should include what supportive services will be provided and how they will be provided. The approximate number of persons to be served by each service should be stated.

Legal assistance and ombudsman services may be provided, but are not required. However, if provided, they should be reported as "Supportive Services."

If a tribal organization elects to provide legal services, it must substantially comply with the requirements in title 45 of the Code of Federal Regulations § 1321.71, and all legal assistance providers must comply fully with the requirements in § 1321.71(d) through § 1321.71(k).

Transportation of persons to nutrition sites or other places is to be considered as a "Supportive Service."

(d) Coordination with title III. The application should provide a description of how title VI and title III resources are to be coordinated within the title VI service area, including information and referral services.

(2) Evaluation Criteria

The application must discuss the criteria to be used to evaluate the results and successes of the program, based on the objective indicated in Item A above. It will also explain the methodology that will be used to determine if the needs identified and discussed are being met and if the results and benefits identified in Item B above are being achieved.

D. Geographic Location

The application must include both a narrative description of the title VI, part A service area, and a map with the service area identified. The area to be served by title VI, part A must have clear geographic boundaries. There is no prohibition, however, on its overlapping with areas served by title III.

E. Additional Information

(1) Older Indians in the Title VI, Part A Service Area

The law requires that a tribal organization must represent at least 50 persons aged 60 years or over in order to be eligible for title VI funding. Therefore, the number of persons aged 60 or over living in the proposed title VI service area must be stated in the application. The tribal organization may develop its own population statistics, with certification from the Bureau of Indian Affairs, in order to establish eligibility. The amount of the grant is based on this number of persons aged 60 years or over.

As a separate matter, the regulations allow a Tribe to define, based on its own criteria, who the Tribe will consider to be an "older Indian" for purposes of eligibility to receive title VI services. If a Tribe selects a different definition of "older Indian" for service delivery, the application must state the age selected, and the number of Indians under age 60 eligible to be served. If more than one Tribe is included in the application, this information must be stated separately for each Tribe. All Tribes in a consortium must use the same age for "older Indian."

(2) Resolution

The tribal organization representing a federally recognized Tribe must submit a copy of the Tribal council resolution authorizing participation in title VI, part A. If the tribal organization represents a consortium of more than one Tribe, a resolution is required from each participating Tribe, specifically authorizing representation by the trial organization for the purpose of title VI, part A of the Older Americans Act.

(3) Program Assurances

Title VI, part A Program Assurances must be included in the application. The title VI, part A Program Assurances are those provisions identified in section 614(a) of the Older Americans Act, and in title 45 of the Code of Federal Regulations § 1326.19(d), issued August 31, 1988 (see Appendix B). The tribal organization must state that it agrees to abide by all the provisions for the entire project period being applied for April 1, 1993–March 31, 1996.

Copies of the title III and title VI current law and regulations, and of part 92, may be obtained from the Regional Program Director for the Administration on Aging. (See appendix A)

(4) Certification Forms

Certifications are required of the applicant regarding (a) lobbying; (b) debarment, suspension, and other responsibility matters; and (c) drug-free workplace requirements. Please note that a duly authorized representative of the applicant organization must attest to the applicant's compliance with these certifications.

(5) Identifying Information

Applications must identify both the principal official of the tribal organization, and the proposed title VI program director: Name, Title, Address including Zip Code, Telephone number, and, if available, the FAX Number. The tribal organization's EIN (Employer Identification Number) must also be included.

If the applicant tribal organization is a consortium, the applicant must list the federally recognized tribes which are included. A copy of each tribal resolution must be enclosed.

6. Closi0g Date for Application

To be eligible for consideration, applications must be received or postmarked on or before February 18, 1993. (Applicants are cautioned to request a legibly dated U.S. Postal Service postmark, or to obtain a legibly dated receipt from a commercial carrier or the U.S. Postal Service. Private metered postmarks are not acceptable as proof of timely mailing.)

7. Action on Applications

Awards will be made by the Commissioner on Aging. Funding decisions will be announced as soon as possible.

Catalog of Federal Domestic Assistance Program #93.655 Grants to Indian Tribes and Native Hawaiians. This Program Announcement is not subject to E.O. 12372.

Dated: December 11, 1992.

Joyce T. Berry,

U.S. Commissioner on Aging.

Appendix B

Older Americans Act—Section 614(a)—No grant may be made under this part unless the eligible tribal organization submits an application to the Commissioner which meets such criteria as the Commissioner may by regulation prescribe. Each such application shall—

(1) Provide that the eligible tribal organization will evaluate the need for supportive and nutrition services among older Indians to be represented by the tribal organizations;

(2) Provide for the use of such methods of administration as are necessary for the proper and efficient administration of the program to be assisted;

(3) Provide that the tribal organization will make such reports in such form and containing such information, as the Commissioner may reasonably require, and comply with such requirements as the Commissioner may impose to assure the correctness of such reports;

(4) Provide for periodic evaluation of activities and projects carried out under the application;

(5) Establish objectives consistent with the purposes of this part toward which activities under the application will be directed, identify obstacles to the attainment of such objectives, and indicate the manner in which the tribal organization proposes to overcome such obstacles;

(6) Provide for establishing and maintaining information and referral services to assure that older Indians to be served by the assistance made available under this part will have reasonably convenient access to such services;

(7) Provide a preference for Indians aged 60 and older for full or part-time staff positions whenever feasible;

(8) Provide assistance that either directly or by way of grant or contact with appropriate entities nutrition services will be delivered to older Indians represented by the tribal organization substantially in compliance with the provisions of part C of title III, except that in any case in which the need for nutritional services for older Indians represented by the tribal organization is already met from other sources, the tribal organization may use the funds otherwise required to be expended under this clause for supportive services;

(9) Contain assurance that the provision of sections 307(a)(14)(A) (i) and (iii), 307(a)(14)(B), and 307(a)(14)(C) will be complied with whenever the application contains provisions for the acquisition, alteration, or renovation of facilities to serve as multipurpose senior centers;

(10) Provide that any legal or ombudsman services made available to older Indians represented by the tribal organization will be substantially in compliance with the provisions of title III relating to the furnishing of similar services; and

(11) Provide satisfactory assurance that fiscal control and fund accounting procedures will be adopted as may be necessary to assure proper disbursement of, and accounting for, Federal funds paid under this part to the tribal organization, including any funds paid by the tribal organization to a recipient of a grant or contract.

45 CFR 1326.19. The application shall provide for:

(d) Assurances as prescribed by the Commissioner that:

(1) A tribal organization represents at least 50 individuals who have attained 60 years of age or older;

(2) A tribal organization shall comply with all applicable State and local license and safety requirements for the provision of those services;

(3) If a substantial number of the older Indians residing in the service area are of limited English-speaking ability, the tribal organization shall utilize the services of workers who are fluent in the language spoken by a predominant number of older Indians;

(4) Procedures to ensure that all services under this part are provided without use of any means tests;

(5) A tribal organization shall comply with all requirements set forth in § 1326.7 through § 1326.17; and

(6) The services provided under this part will be coordinated, where applicable, with services provided under title III of the Act.

BILLING CODE 4130-01-M

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICE
Certification Regarding Drug-Free Workplace Requirements
Grantees Other Than Individuals

By signing and/or submitting this application or grant agreement, the grantee is providing the certification set out below.

This certification is required by regulations implementing the Drug-Free Workplace Act of 1988, 45 CFR Part 76, Subpart F. The regulations, published in the May 25, 1990 Federal Register, require certification by grantees that they will maintain a drug-free workplace. The certification set out below is a material representation of fact upon which reliance will be placed when the Department of Health and Human Services (HHS) determines to award the grant. If it is later determined that the grantee knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, HHS, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act. False certification or violation of the certification shall be grounds for suspension of payments, suspension or termination of grants, or government wide suspension or debarment.

Workplaces under grants, for grantees other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.

Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios.)

If the workplace identified to HHS changes during the performance of the grant, the grantee shall inform the agency of the change(s), if it previously identified the workplaces in question (see above).

Definitions of terms in the Nonprocurement Suspension and Debarment common rule and Drug-Free Workplace common rule apply to this certification. Grantees' attention is called, in particular, to the following definitions from these rules:

"Controlled substance" means a controlled substance in Schedules I through V of the Controlled Substances Act (21 US^C 812) and as further defined by regulation (21 CFR 1308.11 through 1308.15).

"Conviction" means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any

judicial body charged with the responsibility to determine violations of the Federal or State criminal drug statutes;

"Criminal drug statute" means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance;

"Employee" means the employee of a grantee directly engaged in the performance of work under a grant, including (i) All "direct charge" employees; (ii) all "indirect charge" employees unless their impact or involvement is insignificant to the performance of the grant; and, (iii) temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the grantee's payroll. This definition does not include workers not on the payroll of the grantee (e.g., volunteers, even if used to meet a matching requirement; consultants or independent contractors not on the grantee's payroll' or employees of subrecipients or subcontractors in covered workplaces).

The grantee certifies that it will or will continue to provide a drug-free workplace by:

(a) Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance is prohibited n the grantee's workplace and specifying the actions that will be taken against employees for violation of such prohibition;

(b) Establishing an ongoing drug-free awareness program to inform employees about:

(1) The dangers of drug abuse in the workplace; (2) The grantee's policy of maintaining a drug-free workplace; (3) Any available drug counseling, rehabilitation, and employee assistance programs, and,(4) The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace;

(c) Making it a requirement that each employee to be engaged in the performance of the grant be given a copy of the statement required by paragraph (a);

(d) Notifying the employee in the statement required by paragraph (a) that, as a condition of employment under the grant, the employee will:

(1) Abide by the terms of the statement; and, (2) Notify the employer in writing of his or her conviction for a violation or a criminal drug statute occurring in the workplace no later than five calendar days after such conviction;

(e) Notifying the agency in writing, within ten calendar days after receiving notice under subparagraph (d)(2) from an employee or otherwise receiving actual notice of such conviction. Employers of convicted employees must provide notice, including position title, of every grant officer or other designee on whose grant activity the convicted employee was working unless the Federal agency has designated a central point for the receipt of such notices. Notice shall include the identification number(s) of each affected grant;

(f) Taking one of the following actions, within 30 calendar days of receiving notice under subparagraph (d)(2), with respect

to any employee who is so convicted:

(1) Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended; or,

(2) Requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency;

(g) Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs (a), (b), (c), (d), (e) and (f).

The grantee may insert in the space provided below the site(s) for the performance of work done in connection with the specific grant (Use attachments, if needed):

Place of Performance (Street address, City, County, State, ZIP Code)_____

Check___if there are workplaces on file that are not identified here.

Sections 76.630(c) and (d)(2) and 76.635(a)(1) and (b) provide that a Federal agency may designate a central receipt point for STATE-WIDE AND STATE AGENCY-WIDE certifications, and for notification of criminal drug convictions. For the Department of Health and Human services, the, central receipt point is: Division of Grants Management and Oversight, Office of Management and Acquisition, Department of Health and Human Services, Room 517-D, 200 Independence Avenue, S.W., Washington, D.C. 20201.

DGMO Form #2 Revised May 1990

CERTIFICATION REGARDING DEBARMENT, SUSPENSION, AND OTHER RESPONSIBILITY MATTERS - PRIMARY COVERED TRANSACTIONS

By signing and submitting this proposal, the applicant, defined as the primary participant in accordance with 45 CFR Part 76, certifies to the best of its knowledge and belief that its principals involved:

(a) are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department of agency;

(b) have not within a 3-year period preceding this proposal been convicted of or had a civil judgement rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

(c) are not presently indicted or otherwise criminally or civilly charged by a government entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (1) (b) of this certification; and

(d) have not within a 3-year period preceding this application/proposal had one or more public transactions (Federal, State, or local) terminated for cause or default.

The inability of a person to provide the certification required above will not necessarily result in denial of participation for this covered transaction: If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the Department of Health and Human Services" (HHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

The prospective primary participant agrees that by submitting this proposal, it will include the clause entitled "Certification Regarding Debarment, Suspension, Ineligibility, and Voluntary Exclusion - Lower Tier Covered Transactions", provided below, without modification in all lower tier covered transactions and

in all solicitations for lower tier covered actions.

CERTIFICATION REGARDING DEBARMENT, SUSPENSION, INELIGIBILITY AND VOLUNTARY EXCLUSIONS - LOWER TIER COVERED TRANSACTIONS (To Be Supplied to lower Tier Participants)

By signing and submitting this lower tier proposal, the prospective lower tier participant, as defined in 45 CFR Part 76, certifies to the best of its knowledge and belief that it and its principals:

(a) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any Federal department or agency.

(b) Where the prospective lower tier participant is unable to certify to any of the above, such prospective participant shall attach an explanation to this proposal.

The prospective lower tier participant further agrees by submitting this proposal that it will include this clause entitled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusions - Lower Tier Covered Transactions" without modification in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

Certification Regarding Lobbying

Certification for Contracts, Grants, Loans, and Cooperative Agreements

The undersigned certifies, to the best of his or her knowledge and belief, that:

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

(3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all recipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

Part XI

Environmental Protection Agency

40 CFR Part 122

National Pollutant Discharge Elimination System; Storm Water Discharges; Permit Issuance and Permit Compliance Deadlines for Phase I Discharges; Final Rule

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 122

[FRL-4546-8]

National Pollutant Discharge Elimination System; Storm Water Discharges; Permit Issuance and Permit Compliance Deadlines for Phase I Storm Water Discharges

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is issuing a final rule which specifies deadlines for the issuance of NPDES permits for storm water discharges associated with industrial activity and discharges from municipal separate storm sewer systems serving a population of 100,000 or more, and deadlines by which dischargers shall comply with the terms of their permits. EPA is taking this action in compliance with the mandate of the court in *Natural Resources Defense Council* v. *EPA*, 966 F.2d 1292 (9th Cir. 1992). This action also clarifies that application requirements and deadlines for certain discharges which EPA had previously exempted from the scope of the NPDES storm water regulations are reserved pending further rulemaking. These include discharges from construction sites disturbing less than 5 acres of land and discharges exempt under 40 CFR 122.26(b)(14)(xi) because of a lack of exposure of industrial activity to storm water. This action is also taken in response to the Ninth Circuit decision.

EFFECTIVE DATE: This rule is effective on December 18, 1992. Pursuant to 40 CFR 23.2, EPA is also declaring this rule to be final for purposes of judicial review on the same date.

ADDRESSES: The public record for today's rule may be found at EPA Headquarters, NPDES Permits Division, NE 220, U.S. Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460. Appointments to review the record may be made by calling Nancy Cunningham at (202) 260–9535. A reasonable fee may be charged for copying.

  B. Paperwork Reduction Act
  C. Regulatory Flexibility Act
V. Administrative Procedure Act Requirements

I. Authority

Today's rule is promulgated under the authority of sections 301, 308, 402, and 501 of the Clean Water Act, 33 U.S.C. 1311, 1318, 1342, 1361.

II. Background

A. Water Quality Act of 1987

The Water Quality Act (WQA) of 1987 added section 402(p) to the Clean Water Act (CWA) to establish a comprehensive two phased approach for EPA to address storm water discharges. Section 402(p)(1) provides that EPA or States cannot require a permit under the National Pollutant Discharge Elimination System (NPDES) for certain storm water discharges until October 1, 1994,[1] except for storm water discharges listed under section 402(p)(2). Section 402(p)(2) lists five types of storm water discharges which are covered under "Phase I" of the program and are required to apply for a permit prior to October 1, 1994:

(A) A discharge with respect to which a permit has been issued prior to February 4, 1987;

(B) A discharge associated with industrial activity;

(C) A discharge from a municipal separate storm sewer system serving a population of 250,000 or more;

(D) A discharge from a municipal separate storm sewer system serving a population of 100,000 or more, but less than 250,000; or

(E) A discharge for which the Administrator or the State, as the case may be, determines that the storm water discharge contributes to a violation of a water quality standard or is a significant contributor of pollutants to the waters of the United States.

The WQA clarified and amended the requirements for permits for storm water discharges in the new CWA section 402(p)(3). The Act clarified that permits for discharges associated with industrial activity must meet all of the applicable provisions of section 402 and section 301 including all applicable technology-based requirements such as the Best Available Technology Economically Achievable (BAT) (see section 304(b)(2)) or the Best Conventional Technology (BCT) (see section 304(b)(4)). Permits for discharges from municipal separate storm sewer systems must meet a new statutory standard requiring controls to reduce the discharge of pollutants to the maximum extent practicable (MEP). As with all point source discharges under the CWA, storm water discharges are subject to applicable water quality-based standards.

Section 402(p)(4) established deadlines to implement the permit program for: Storm water discharges associated with industrial activity; discharges from large municipal separate storm sewer systems (systems serving a population of 250,000 or more); and discharges from medium municipal separate storm sewer systems (systems serving a population of 100,000 or more but less than 250,000). Congress instructed EPA to issue regulations specifying NPDES permit application requirements by February 4, 1989. Congress also required that permit applications for such discharges were to be submitted no later than February 4, 1990 for industrial and large municipal systems, and no later than February 4, 1992 for medium municipal systems. EPA or the State is to issue or deny all permits one year after each of these respective deadlines, and facilities must comply with all permit conditions within three years of permit issuance.

All other storm water discharges fall under Phase II of the program (see section 402(p)(1)), and neither EPA nor a State may require an NPDES permit for such sources until October 1, 1994, unless a permit for the discharge was issued prior to the date of enactment of the WQA (i.e., February 4, 1987), or the discharge is determined to be a significant contributor of pollutants to waters of the United States or is contributing to a violation of water quality standards.

B. November 16, 1990 Rules

EPA promulgated permit application regulations for the storm water discharges identified under section 402(p)(2) (B), (C), and (D) of the CWA, including storm water discharges associated with industrial activity, on November 16, 1990 (55 FR 47990). The regulations defined which discharges are "associated with industrial activity" and thus are subject to permitting under Phase I. EPA included facilities in ten different major industrial categories (40 CFR 122.26(b)(14)(i)–(x)). One of the

[1] As originally adopted, section 402(p)(1) specified that the "moratorium" on permitting of these storm water sources, which EPA refers to as "Phase II" sources, would expire on October 1, 1992. Section 312 of the Water Resource Development Act of 1992, which was signed by the President on October 31, 1992, extended the moratorium to October 1, 1994.

categories included discharges from construction sites larger than 5 acres (40 CFR 122.26(b)(14)(x)). Under the regulations, facilities in these categories were presumed to discharge storm water associated with industrial activity and were required to submit permit applications. EPA also established an eleventh category of industrial facilities in "light" industries (40 CFR 122.26(b)(14)(xi)). For these discharges, by contrast, EPA presumed that there would be no storm water discharge associated with industrial activity, and did not require permit applications unless there was actual exposure of industrial pollutants to storm water at the facility.

The November 16, 1990 regulations also addressed requirements, including deadlines, for two sets of application procedures for those storm water discharges which EPA classified as associated with industrial activity: Individual permit applications and group applications. In addition, the notice recognized a third set of application procedures for storm water discharges associated with industrial activity: those associated with general permits. (EPA has since issued a series of general permits which cover most discharges associated with industrial activities, including construction, in States, at Federal facilities, and on Indian lands, where EPA is the NPDES permitting authority. 57 FR 41176, 57 FR 41236 (Sept. 9, 1992); 57 FR 44412, 57 FR 44438 (Sept. 25, 1992).

The requirements for individual applications for storm water discharges associated with industrial activity are set forth at 40 CFR 122.26(c)(1). Generally, the applicant must provide comprehensive facility specific narrative information and quantitative analytical data based on samples collected on site during storm events. Under § 122.26(e)(1) of the November 16, 1990 rule, individual applications were to have been submitted by November 18, 1991.

The group application process allows for facilities with similar operations and storm water discharges to join together and file a single two part permit application. Part 1 of a group application identifies the facilities within the group and includes qualitative information describing the facilities. Part 1 of the group application was to be submitted to EPA no later than March 18, 1991. The regulation provides that EPA has a 60 day period after receipt to review the Part 1 applications and notify the groups as to whether they have been approved or denied as a properly constituted "group" for purposes of this alternative application process. Part 2 of the group application contains detailed information, including sampling data, on roughly ten percent of the facilities in the group. Under the November 16, 1990 regulations, Part 2 applications were to be submitted no later than 12 months after the date of approval of the Part 1 application.

The November 16, 1990 regulations also established a two part application process for discharges from municipal separate storm sewer systems serving a population of 100,000 or more. The regulations list 220 cities and counties that are defined as having municipal separate storm sewer systems serving a population of 100,000 or more and allow for case-by-case designations of other municipal separate storm sewers to be part of these systems (55 FR 48073, 48074). The regulations provide that Part 1 applications for discharges from large municipal separate storm sewer systems (systems serving a population of 250,000 or more) were due November 18, 1991. Part 2 applications for discharges from large systems were due on November 16, 1992. Part 1 applications for discharges from medium municipal separate storm sewer systems (systems serving a population of 100,000 or more, but less than 250,000) were due on May 18, 1992. Part 2 applications for discharges from medium systems are due on May 17, 1993.

C. Later Deadline Extensions

In light of substantial concerns raised by the regulated community regarding the complexity of the new storm water regulations, the difficulty in determining whether particular facilities were subject to the new rules, and administrative problems in developing group applications, EPA granted a series of extensions to the permit application deadlines for discharges associated with industrial activity. Initially, the deadline for submitting Part 1 of the group application was extended from March 18, 1991 to September 30, 1991 (56 FR 12098 (March 21, 1991)). Later, EPA also extended the deadline for submitting an individual permit application for storm water discharges associated with industrial activity from November 18, 1991 to October 1, 1992 (56 FR 56548, (November 5, 1991)). EPA also extended the deadline for a facility that is rejected as a member of a group application to submit an individual permit application no later than 12 months after the date of receipt of the notice of rejection or October 1, 1992, whichever comes first. (56 FR 56549, (November 5, 1991)). Finally, EPA extended the deadline for Part 2 of group applications for storm water discharges associated with industrial activity to October 1, 1992 (57 FR 11524, (April 2, 1992)). With these extensions, October 1, 1992 was established as the single outside date for any discharge associated with industrial activity to submit either an individual or group application, or to be covered by a promulgated general permit.

Congress has also acted to grant certain extensions to the application deadlines for discharges associated with industrial activity. In March, 1991, Congress adopted section 307 of the Dire Emergency Supplemental Appropriations * * * Act of 1991, which effectively ratified the extension of the Part 1 group application deadline. In December 1991, the President signed the Intermodal Surface Transportation Efficiency Act (or Transportation Act) of 1991 into law. Section 1068 of the Transportation Act addresses NPDES permit application deadlines for storm water discharges associated with industrial activity from facilities that are owned or operated by municipalities. EPA has since codified portions of section 1068 into its rules (57 FR 11524 (Apr. 2, 1992)).

D. Ninth Circuit Decision in NRDC v. EPA

On June 4, 1992, the United States Court of Appeals for the Ninth Circuit issued an opinion granting in part a petition for review of EPA's 1990 storm water regulation implementing Section 402(p) of the Clean Water Act ("CWA"). *Natural Resources Defense Council* v. *EPA*, 966 F.2d 1292 (9th Cir. 1992). The Court upheld several provisions of the regulations, including the definition of "municipal separate storm sewer system," the standards for municipal storm water controls, the scope of the permit exemption for oil and gas operations, and EPA's decision not to provide public comment on Part 1 group industrial permit applications.

The Court did, however, strike down the exemptions from the definition of storm water discharges "associated with industrial activity" for construction sites smaller than 5 acres and for "light" industries and remanded both for further proceedings. With respect to the light industry category, the Court noted that the statutory term "associated with industrial activity" was very broad and concluded that Congress intended only to exempt discharges from non-industrial parts of facilities such as parking lots. The Court rejected EPA's argument that industrial pollutant levels in storm water would be minimal at light industrial facilities, finding nothing in the record to support that

conclusion. The Court thus found the exemption to be arbitrary and capricious. 966 F.2d at 1304–05. As for construction sites, the Court noted that EPA had proposed to exempt only sites smaller than 1 acre. In the final rule, the exemption was increased to 5 acres, based on the Agency's determination that smaller sites would not have levels of activity that were like other industrial activities. The Court ruled, however, that there was nothing in the record "that construction sites on less than five acres are non-industrial in nature." 966 F.2d at 1306. The Court rejected EPA's argument that the 5 acre cutoff constituted a *de minimis* exemption, finding the record lacked information to suggest whether smaller discharges would be *de minimis*. *Id.*

The Court also declared EPA's extension of the statutory deadlines for storm water permit applications to be unlawful, but declined to strike down the deadlines as NRDC had requested. The Court did, however, order EPA to promulgate additional rules specifying dates for permit approval or denial and for permit compliance, as contemplated by the statute. The Court also stated its expectation that EPA would abide by the Court's holding that EPA has no authority to grant further extensions to the statutory deadlines for permit applications. 966 F.2d at 1300.

III. Summary of Today's Rule

A. Deadlines for Phase I Permit Issuance and Compliance

In response to the mandate of the Ninth Circuit, EPA is today issuing rules to specify dates by which Phase I storm water permits are to be issued or denied by EPA or authorized States and to specify the dates by which the discharger shall comply with the permit. Section 402(p)(4) provided that EPA/States were to issue or deny permits by February 4, 1991 for discharges associated with industrial activity or discharges from large municipal separate storm sewer systems, and by February 4, 1993 for discharges from medium municipal separate storm sewer systems. These dates represent one year after the statutory permit application deadline and two years after the deadline for promulgation of permit application regulations. However, as discussed above, EPA was unable to promulgate its regulations by the statutory deadline, and therefore established permit application deadlines which are somewhat later than those specified in the statute. EPA believes that the Court did not expect EPA or authorized States to issue or deny permits prior to receipt of complete permit applications. Therefore, today's rule specifies that permits are to be issued or denied by one year after the regulatory deadline for submitting complete permit applications, i.e., October 1, 1993 for most discharges associated with industrial activity, May 17, 1994 for discharges associated with industrial activity from municipalities with a population less than 250,000 who participated in a group application, November 18, 1993 for discharges from large municipal systems, and May 17, 1994 for discharges from medium municipal systems. For applications for new discharges, existing discharges at facilities which fail to submit a complete permit application by the deadline, EPA or the State shall issue or deny the permit within one year after the actual receipt of the permit application.[2] This one year time frame is consistent with the intent of Congress reflected in section 402(p)(4) that permits be issued or denied one year after the permit application deadline.

Section 402(p)(4) also specifies that permits for Phase I sources shall provide for compliance as expeditiously as practicable, but in no event later than three years after the date of issuance of the permit. Pursuant to the Court's mandate, today's rule codifies this provision in the regulations at 40 CFR 122.42(d) for subsequent inclusion in all initial storm water permits for Phase I sources.

EPA recognizes that the decision of the Ninth Circuit in *Natural Resources Defense Council* v. *EPA*, 966 F.2d 1292, 1299–1300 (9th Cir. 1992) holds the following with respect to EPA's authority to give any further extensions to the permit application deadlines for these storm water discharges: "EPA does not have the authority to ignore unambiguous deadlines set by Congress * * *. EPA does not have the authority to predicate future rules or deadlines in disagreement with this opinion. We presume that the EPA will duly perform its statutory duties. (citations omitted)". EPA will fully comply with the mandate of the Court with respect to permit application deadlines for Phase I storm water discharges, as currently defined.

B. Requirements for "Light Industries" and "Small" Construction Sites

In its opinion, the Ninth Circuit invalidated EPA's exemptions for construction sites less than five acres and for light industry categories where there is no exposure of industrial activity to storm water, and remanded them to the Agency for further proceedings. Members of the regulated community have raised questions regarding whether the Court's action effectively rewrites the regulations, making small construction sites and light industries with no exposure of industrial activity to storm water subject to the current application requirements for discharges associated with industrial activity.

EPA does not believe that the Court's opinion had the effect of automatically subjecting small construction sites and light industries to the existing application requirements and deadlines for storm water discharges associated with industrial activity. The Court's opinion is quite clear that the two exemptions were remanded to EPA for further rulemaking proceedings. 966 F.2d at 1304, 1305, 1310. Thus, EPA believes that the agency must undergo further notice and comment rulemaking to clarify the status of these facilities under the storm water program. Therefore, EPA believes that a specific change to the current definition of "storm water discharge associated with industrial activity" in response to the Court's opinion is unnecessary, and could in fact be confusing to the regulated community. Instead, requirements for discharges from small construction sites and light industries with no exposure are reserved pending the further rulemaking. Such facilities need not submit permit applications until the EPA conducts further rulemaking. If EPA decides to propose that some or all of these discharges are "associated with industrial activity," EPA will propose new application deadlines consistent with the intent of Section 402(p)(4) and the opinion of the Ninth Circuit.

EPA notes that the Court's key concern was that EPA lacked any adequate factual basis in the rulemaking record to distinguish small construction sites from larger construction sites, and to distinguish the discharges from "light" industry facilities without exposure from discharges from facilities in heavy industries or light industries with exposure. EPA solicits comments and any specific factual information to assist it in developing a new proposal to address the light industry and small construction site categories.

IV. Regulatory Requirements

A. Executive Order 12291

Under Executive Order 12291, EPA must determine whether this regulation constitutes a "major rule", requiring a regulatory impact analysis. This rule

[2] All of the relevant storm water permit application and permit issuance deadlines are listed in Appendix A at the end of this notice.

imposes no new regulatory requirements; the requirement to submit an NPDES permit application was contained in the November 16, 1990 rule. This rule merely codifies existing statutory deadlines for NPDES storm water permit issuance and compliance. Thus, the rule meets none of the criteria of a "major rule" under E.O. 12291. This rule has been submitted to the Office of Management and Budget for review.

B. Paperwork Reduction Act

The requirements of this rule impose no new information collection requirements; the information collection requirements associated with the NPDES storm water permit program already have been assigned OMB control number 2040–0086. Thus, an Information Collection Request for this rule is unnecessary and was not prepared.

C. Regulatory Flexibility Act

This rule imposes no new regulatory requirements, but rather codifies existing statutory deadlines for NPDES storm water permit issuance and compliance. Thus, I certify that this rule will not have a significant impact on a substantial number of small entities.

V. Administrative Procedure Act Requirements

Today's rule is being issued without prior notice and comment. The deadlines for storm water permit issuance and compliance constitute interpretive rules for which notice and comment are not required. 5 U.S.C. 553(b)(A). Alternatively, there is good cause for issuing today's rule without notice and comment, because prior notice is unnecessary. 5 U.S.C. 553(b)(B). Today's rule makes no substantive change to the statutory requirements and deadlines for storm water permit issuance and compliance, but merely codifies the deadline scheme specified in the statute. For these same reasons, there is good cause to make today's rule immediately effective.

Dated: December 11, 1992.

William K. Reilly,

Administrator.

APPENDIX A TO THE PREAMBLE—NPDES STORM WATER PERMIT APPLICATION AND ISSUANCE DEADLINES

Type of application/type of discharge	Permit application deadline		Permit issuance deadline
Industrial			
• Individual:			
Existing facilities	October 1, 1992		October 1, 1993.
Facilities rejected from a group application	October 1, 1992		October 1, 1993.
New facilities	180 days prior to commencement of industrial activity which may cause a storm water discharge.		One year after receipt of complete permit application.
New construction facilities	90 days prior to commencement of construction		One year after receipt of complete permit application.
• Group:	Part 1	Part 2	
All industrial activities except those owned or operated by a municipality with a population of less than 250,000.	September 30, 1991	October 1, 1992	October 1, 1993.
Industrial activities owned or operated by a municipality with a population of less than 250,000.	May 18, 1992	May 17, 1993	May 17, 1994.
Municipal	Part 1	Part 2	
• Large Municipal Systems	November 18, 1991	November 16, 1992	November 16, 1993.
• Medium Municipal Systems	May 18, 1992	May 17, 1993	May 17, 1994.

For all initial storm water permits, the permittee must comply with all permit conditions no later than 3 years after the date of permit issuance.

For the reasons set forth in the preamble, title 40, chapter I, of the Code of Federal Regulations is amended as follows:

PART 122—EPA ADMINISTERED PERMIT PROGRAMS: THE NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM

1. The authority citation for part 122 continues to read as follows:

Authority: The Clean Water Act, 33 U.S.C. 1251 *et seq.*

2. Section 122.26 is amended by adding paragraph (e)(7) to read as follows:

§ 122.26 Storm water discharges (applicable to State NPDES programs, see § 123.25).

* * * * *

(e) * * *

(7) The Director shall issue or deny permits for discharges composed entirely of storm water under this section in accordance with the following schedule:

(i)(A) Except as provided in paragraph (e)(7)(i)(B) of this section, the Director shall issue or deny permits for storm water discharges associated with industrial activity no later than October 1, 1993, or, for new sources or existing sources which fail to submit a complete permit application by October 1, 1992, one year after receipt of a complete permit application;

(B) For any municipality with a population of less than 250,000 which submits a timely Part I group application under paragraph (e)(2)(i)(B) of this section, the Director shall issue or deny permits for storm water discharges associated with industrial activity no later than May 17, 1994, or, for any such municipality which fails to submit a complete Part II group permit application by May 17, 1993, one year after receipt of a complete permit application;

(ii) The Director shall issue or deny permits for large municipal separate storm sewer systems no later than November 16, 1993, or, for new sources or existing sources which fail to submit a complete permit application by November 16, 1992, one year after

receipt of a complete permit application;

(iii) The Director shall issue or deny permits for medium municipal separate storm sewer systems no later than May 17, 1994, or, for new sources or existing sources which fail to submit a complete permit application by May 17, 1993, one year after receipt of a complete permit application.

* * * * *

3. Section 122.42 is amended by adding paragraph (d) to read as follows:

§ 122.42 Additional conditions applicable to specified categories of NPDES permits (applicable to State NPDES programs, see § 123.25).

* * * * *

(d) *Storm water discharges.* The initial permits for discharges composed entirely of storm water issued pursuant to § 122.26(e)(7) of this part shall require compliance with the conditions of the permit as expeditiously as practicable, but in no event later than three years after the date of issuance of the permit.

Federal Register Document Drafting Handbook

A Handbook for Regulation Drafters

This handbook is designed to help Federal agencies prepare documents for publication in the Federal Register. The updated requirements in the handbook reflect recent changes in regulatory development procedures, document format, and printing technology.

Price $5.50

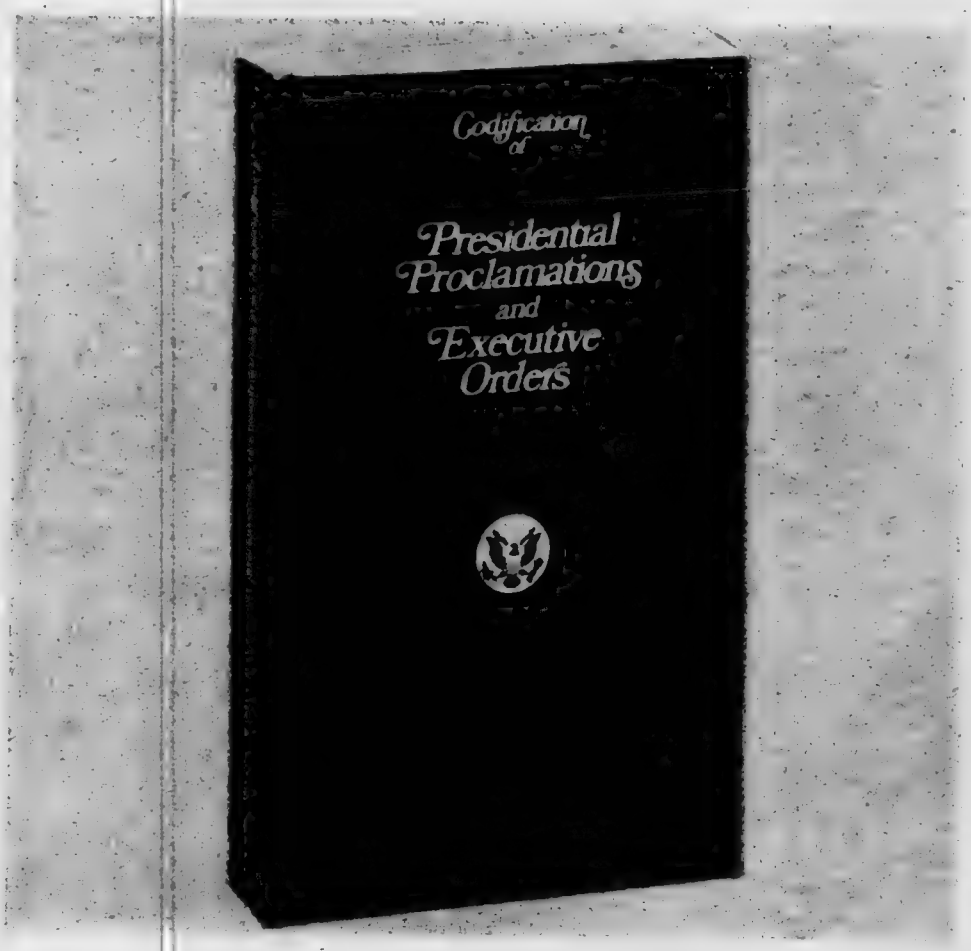
4. **Mail To:** New Orders, Superintendent of Documents, P.O. Box 371954, Pittsburgh, PA 15250–7954

.... Order now ! . . . .



For those of you who must keep informed about **Presidential Proclamations and Executive Orders**, there is a convenient reference source that will make researching these documents much easier.

Arranged by subject matter, this edition of the *Codification* contains proclamations and Executive orders that were issued or amended during the period April 13, 1945, through January 20, 1989, and which have a continuing effect on the public. For those documents that have been affected by other proclamations or Executive orders, the codified text presents the amended version. Therefore, a reader can use the *Codification* to determine the latest text of a document without having to "reconstruct" it through extensive research.

Special features include a comprehensive index and a table listing each proclamation and Executive order issued during the 1945–1989 period—along with any amendments—an indication of its current status, and, where applicable, its location in this volume.

Published by the Office of the Federal Register, National Archives and Records Administration

Published by the Office of the Federal Register, National Archives and Records Administration

Mail order to:
New Orders, Superintendent of Documents
P.O. Box 371954, Pittsburgh, PA 15250–7954

Would you like to know...

if any changes have been made to the Code of Federal Regulations or what documents have been published in the Federal Register without reading the Federal Register every day? If so, you may wish to subscribe to the *LSA (List of CFR Sections Affected)*, the *Federal Register Index*, or both.

LSA • List of CFR Sections Affected

The LSA (List of CFR Sections Affected) is designed to lead users of the Code of Federal Regulations to amendatory actions published in the Federal Register. The LSA is issued monthly in cumulative form. Entries indicate the nature of the changes—such as revised, removed, or corrected.
$21.00 per year

Federal Register Index

The index, covering the contents of the daily Federal Register, is issued monthly in cumulative form. Entries are carried primarily under the names of the issuing agencies. Significant subjects are carried as cross-references.
$19.00 per year.

A finding aid is included in each publication which lists Federal Register page numbers with the date of publication in the Federal Register.

Note to FR Subscribers:
FR Indexes and the LSA (List of CFR Sections Affected) are mailed automatically to regular FR subscribers.

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The seal of the National Archives and Records Administration authenticates this issue of the **Federal Register** as the official serial publication established under the Federal Register Act. 44 U.S.C. 1507 provides that the contents of the **Federal Register** shall be judicially noticed.

The **Federal Register** is published in paper, 24x microfiche format and magnetic tape. The annual subscription price for the **Federal Register** paper edition is $375, or $415 for a combined **Federal Register**, Federal Register Index and List of CFR Sections Affected (LSA) subscription; the microfiche edition of the **Federal Register** including the Federal Register Index and LSA is $353; and magnetic tape is $37,500. Six month subscriptions are available for one-half the annual rate. The charge for individual copies in paper form is $4.50 for each issue, or $4.50 for each group of pages as actually bound; or $1.50 for each issue in microfiche form; or $175.00 per magnetic tape. All prices include regular domestic postage and handling. International customers please add 25% for foreign handling. Remit check or money order, made payable to the Superintendent of Documents, or charge to your GPO Deposit Account, VISA or MasterCard. Mail to: New Orders, Superintendent of Documents, P.O. Box 371954, Pittsburgh, PA 15250–7954.

There are no restrictions on the republication of material appearing in the **Federal Register**.

How To Cite This Publication: Use the volume number and the page number. Example: 57 FR 12345.

Rules and Regulations

Federal Register
Vol. 57, No. 245
Monday, December 21, 1992

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Airspace Docket No. 91-AEA-20]

Establishment of Transition Area; Myerstown, PA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action establishes a 700 foot Transition Area at Myerstown, PA, to support the development of a new standard instrument approach procedure (SIAP) to the Decks Airport, Myerstown, PA. This action establishes additional controlled airspace to provide greater segregation between aircraft operating under instrument flight rules from other aircraft operating in visual weather conditions.

EFFECTIVE DATE: 0901 u.t.c. February 4, 1993.

FOR FURTHER INFORMATION CONTACT: Mr. Curtis L. Brewington, Designated Airspace Specialist, System Management Branch, AEA-530, FAA Eastern Region, Fitzgerald Federal Building #111, John F. Kennedy International Airport, Jamaica, New York 11430; telephone: (718) 553-0857.

SUPPLEMENTARY INFORMATION:

History

On June 9, 1992, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) to establish a 700 foot Transition Area at Myerstown, PA (57 FR 34530). The amendment would establish that amount of controlled airspace deemed necessary by the FAA to contain aircraft operating under instrument flight rules in controlled airspace.

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. Except for editorial changes, this amendment is the same as that proposed in the notice. The coordinates for this airspace docket are based on North American Datum 83. Transition Areas are published in Section 71.181 of FAA Order 7400.7A dated November 2, 1992, and effective November 27, 1992, which is incorporated by reference in 14 CFR 71.1. The Transition Area listed in this document will be published subsequently in the Order.

The Rule

This amendment to part 71 of the Federal Aviation Regulations establishes a 700 foot Transition Area at Myerstown, PA, due to the development of a new SIAP to the Decks Airport, Myerstown, PA.

The FAA has determined that the regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Aviation safety, Incorporation by reference, Transition areas.

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—[AMENDED]

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. App. 1348(a), 1354(a), 1510; E.O. 10854; 24 FR 9565, 3 CFR, 1959-1963 Comp., p. 389; 49 U.S.C. 106(g); 14 CFR 11.69.

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.7A, Compilation of Regulations, dated November 2, 1992, and effective November 27, 1992, is amended as follows:

Section 71.181 Designation of Transition Area

* * * * *

AEA PA TA Myerstown, PA [New]
Decks Airport (lat. 40°21'08" N., long. 76°19'51" W.)

That airspace extending upward from 700 feet above the surface within a 6.3-mile radius of the Decks Airport.

* * * * *

Issued in Jamaica, New York, on December 1, 1992.

Gary W. Tucker,
Manager, Air Traffic Division.

BILLING CODE 4910-13-M

CONSUMER PRODUCT SAFETY COMMISSION

16 CFR Part 1211

Final Rules: Requirements for Automatic Residential Garage Door Operators: Amendment and Certification and Recordkeeping Requirements

AGENCY: Consumer Product Safety Commission.

ACTION: Final rule.

SUMMARY: The Consumer Product Safety Improvement Act of 1990 provided that, as of January 1, 1991, each automatic residential garage door opener manufactured on or after that date for sale in the United States shall conform to the entrapment protection requirements of the Underwriters Laboratories, Inc. Standards for Safety—UL 325, third edition, as revised May 4, 1988. Congress stated that these requirements are to be considered a consumer product safety rule issued by the Commission under section 9 of the Consumer Product Safety Act.

Congress further required that as of January 1, 1993, residential garage door openers manufactured on or after that date for sale in this country must comply with additional entrapment protection requirements developed by UL. In this final rule, the Commission is codifying the additional entrapment protection provisions of the revised UL 325 standard.

On March 18, 1992, the Commission issued proposed rules containing certification and recordkeeping requirements for residential garage door operators. This document issues those certification and recordkeeping requirements in final.

DATES: Congress required that the revised entrapment protection requirements stated at subpart A of this rule will apply to automatic residential garage door openers manufactured on or after January 1, 1993 for sale in the United States. The certification and recordkeeping rules at subparts B and C will become effective for automatic residential garage door openers manufactured on or after January 21, 1993. The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of January 21, 1993.

FOR FURTHER INFORMATION CONTACT: Mike Bogumill, Office of Compliance and Enforcement, Consumer Product Safety Commission, Washington, DC 20207; telephone (301) 504–0400.

SUPPLEMENTARY INFORMATION: This document amends existing automatic residential garage door entrapment protection requirements and specifies certification and recordkeeping requirements. The three aspects of this document are discussed below.

I. Amended Entrapment Protection Requirements

A. Background

Section 203 of the Consumer Product Safety Improvement Act of 1990 (the "Improvement Act") stated that the entrapment protection requirements of the Underwriters Laboratories, Inc. ("UL") Standards for Safety—UL 325, third edition, as revised May 4, 1988, shall be considered to be a consumer product safety rule issued by the Consumer Product Safety Commission under section 9 of the Consumer Product Safety Act. [Consumer Product Safety Improvement Act of 1990, Public Law No. 101–608, 203(a), (b), 104 Stat. 3110. Congress provided that automatic residential garage door openers [1] manufactured on or after January 1, 1991 must conform to the 1988 version of the UL 325 entrapment protection requirements. *Id.* 203(b)(1). This standard required that an automatic garage door opener shall reverse within two seconds of contacting a two inch (50.8–mm) test object whose top inch is resilient. In addition, the standard required that the door reopen if the bottom limit switch is not activated within thirty seconds after the control is pressed to start the closing cycle. There are termed inherent entrapment protection measures.

The Commission codified these entrapment protection requirements on June 19, 1991. 56 FR 28050.

Congress also provided that additional entrapment protection requirements issued by UL in the future could become effective as mandatory safety standards. Accordingly, section 203 required that all automatic residential garage door openers manufactured on or after January 1, 1993 for sale in the United States must conform to the additional entrapment protection requirements of UL 325 that are effective on or before January 1, 1992. Improvement Act, section 203(b)(2)(A).

UL has revised the entrapment protection provisions of UL 325. Thus, these provisions will become effective as a mandatory Commission standard and will apply to openers manufactured on or after January 1, 1993. For the convenience of those subject to these requirements, the Commission is codifying the provisions.

Congress also provided that if UL purposes further revisions to UL 325, UL must notify the Commission and the proposed revision shall be incorporated in the consumer product safety rule (unless the Commission notifies UL within 30 days that the revision does not carry out the purposes of the Congressionally mandated requirements). *Id.* section 203(c).

Congress also mandated certain labeling requirements that went into effect on January 1, 1991. These requirements are unchanged under the revised standard. A manufacturer selling or offering for sale in the United States an automatic residential garage door opener on or after that date must clearly identify on any container of the system and on the system the month or week and year the system was manufactured and its conformance with the requirements of subsection (b) [UL 325 entrapment protection provisions]. *Id.* section 203(d). These labeling requirements are satisfied by display of the UL logo or listing mark, and compliance with the date marking requirements of UL 325 on the container and the system. *Id.*

B. The Standard

This notice sets forth the entrapment protection provisions of the most recent revision of UL 325 which Congress mandated as a standard of the Commission. The provisions recounted here are only excerpts from the UL standard for safety—UL 325—for door, drapery, gate, louver, and window operators and systems. This UL standard contains many provisions not stated in this notice because Congress only mandated issuance of the entrapment protection provisions as a Commission regulation. Thus, those provisions of the UL standard that relate to entrapment protection are codified as a Commission regulation.

UL's changes to its 1988 standard, whose entrapment protection provisions were codified as a Commission rule at 16 CFR Part 1211, are fairly extensive. Thus, in codifying the new standard, the Commission is revising and renumbering the sections of the standard previously codified.

Although the revised standard contains many detailed technical requirements, in essence it requires that residential garage door operators contain either an external entrapment protection device, or have a constant contact control button, in addition to the inherent entrapment protection that was required by the earlier standard.

An overview of the revised standard follows.

Section 1211.1 provides that the standard applies to all residential garage door operators manufactured on or after January 1, 1993 for sale in the United States.

Section 1211.2 supplies the following definition of "residential garage door operator": a vehicular door operator which (1) serves a residential building of one to four single family units; (2) is rated 600 volts or less; and (3) is intended to be employed in ordinary locations in accordance with the current National Electrical Code, NFPA 70. This definition includes UL's change in its 1988 definition so that the definition is specifically limited to operators that serve residential buildings with one to four family units. This definition is consistent with the Commission's earlier interpretation that the term excludes garage door operators in apartment building garages.

Section 1211.3 provides an explanation of the units of measurement referred to in the standard.

Section 1211.4 sets out the general requirements for protection against entrapment. Like the previous standard, it provides that an automatically-reset protective device, if used, must not result in a risk of injury to persons. It also provides that electronic or solid-state circuits intended to reduce the risk of injury must comply with the Standard for Safety-Related Controls Employing Solid-State Devices, UL 991.

[1] Congress used the term "garage door opener"; however, the UL standard uses the term "garage door operator." This notice uses the terms interchangeably.

This UL standard and other standards referenced in the rule are available from UL or may be examined at the offices of the Federal Register or at CPSC.

Section 1211.5 sets forth test parameters that should be used in investigating circuits as required by section 1211.4(c).

Section 1211.6 states the general entrapment protection requirements for residential garage door operators. The operator must have inherent entrapment protection that complies with section 1211.7. In addition, the operator must either (1) require constant pressure on a control to lower the door, reverse direction and open the door when constant pressure on a control is removed before the operator reaches its lower limit, and permit a portable transmitter, if supplied, to only function to cause the operator to open the door; or (2) have the means to attach an external entrapment protection device that complies with the specific requirements of this standard. Specific requirements for a switch or relay are also described in section 1211.6.

Section 1211.7 describes the inherent entrapment requirements of the standard. A downward moving operator must initiate reversal of the door within two seconds of contact with a one-inch high solid object. After it reverses the door, the operator must return the door to and stop at its utmost position (unless a control is actuated or an inherent entrapment circuit senses an obstruction). This section specifies tests for compliance with these requirements.

Section 1211.8 requires that an external entrapment protection device must consist of either (1) a photoelectric sensor that causes an operator closing a door to reverse the door's direction and prevents the operator from closing an open door; (2) an edge sensor on the edge of the door that causes an operator closing a door to reverse the door's direction; or (3) another device that provides equivalent entrapment protection.

Section 1211.9 requires that means to manually detach the operator from the door be provided, be colored red, and be easily distinguishable from the rest of the operator.

Section 1211.10 specifies requirements for all entrapment protection devices. It also provides several tests for specific aspects of the devices. These are a current protection test, a splash test, an ultraviolet light exposure test, and a resistance to impact test.

Section 1211.11 contains requirements for photoelectric sensors. These include a normal operation test, a sensitivity test, and an ambient light test.

Section 1211.12 provides requirements for edge sensors. These are a normal operation test, an endurance test, an elastomeric material conditioning test, and a puncture resistance test.

Section 1211.13 requires that an instruction manual must accompany a residential garage door operator and specifies installation instructions and user instructions that must appear in the manual.

Section 1211.14 requires that a residential garage door operator be provided with a label for field installation. The label contains a possible risk and consequence statement, avoidance statements, and instructions.

Section 1211.15 requires permanent marking of the garage door operator. The marking must consist of (1) the manufacturer's name, trademark, or other descriptive marking by which the organization responsible for the product may be identified; (2) the catalog number or the equivalent; (3) the voltage, frequency, and input in amperes or watts; and (4) the date or other dating period of manufacture not exceeding any three consecutive months (the date may be abbreviated or in an established or otherwise accepted code). If the manufacturer produces or assembles the operator at more than one factory, the marking must identify the particular factory.

This section further provides that the carton and instruction manual for an operator must be marked with the word "WARNING" and a statement indicating that the operator should only be used with the appropriate door. The operator also must be marked to warn that the door's reversal should be tested after adjusting the force or limits of travel. The section also has certain marking requirements for accessories that are intended for installation with garage door operators.

Section 1211.16 restates the labeling requirement established by Congress which requires a manufacturer to identify, on the container of a residential garage door opener and on the system itself, the month or week and the year the system was manufactured and that it conforms with the requirements of this standard. Congress provided that UL marking would satisfy this statutory labeling requirement. These statutory labeling requirements are unchanged from the previous standard.

C. Preemption

Generally, section 26 of the CPSA governs preemption of consumer product safety standards. 15 U.S.C. 2075. That section provides that whenever a consumer product safety standard under this Act is in effect and applies to a risk of injury associated with a consumer product, no State or political subdivision of a State shall have any authority either to establish or to continue in effect any provision of a safety standard or regulation which prescribes any requirements as to the performance, composition, contents, design, finish, construction, packaging, or labeling of such product which are designed to deal with the same risk of injury associated with such consumer product, unless such requirements are identical to the requirements of the Federal standard.

[15 U.S.C. 2075(a).]

However, in the Improvement Act, Congress issued a special preemption provision pertaining to automatic residential garage door operators. Subsection 203(f) of that Act provides that, with respect to the congressionally required entrapment protection provisions, only those provisions of laws of States or political subdivisions which relate to the labeling of automatic residential garage door openers and those provisions which do not provide at least the equivalent degree of protection from the risk of injury associated with automatic residential garage door openers as the consumer product safety rule provides shall be subject to the preemption provisions of section 26(a) of the CPSA, 15 U.S.C. 2075. *Id.* 203(f). Thus, state law provisions governing, for example, repair and servicing requirements, would not be preempted. *See* H.R. Rep. No. 914, 101st Cong., 2d Sess. 20 (1990).

II. The Certification Rule.

A. Certification Under the CPSA

Section 14(a)(1) of the Consumer Product Safety Act ("CPSA"), 15 U.S.C. 2063(a)(1), requires manufacturers (including importers) and private labelers of a product subject to a consumer product safety standard to issue a certificate which states that the product conforms to all applicable consumer product safety standards, specifies the applicable standard, states the name of the manufacturer or private labeler issuing the certificate, and includes the date and place of manufacture. The certificate must accompany the product or be furnished to any distributor or retailer to whom the product is delivered. Section 14(a) also requires that the certificate be based

on a test of each product or upon a reasonable testing program. 15 U.S.C. 2063(a). Section 14(c) of the CPSA authorizes the Commission to issue rules requiring a product to bear a label containing information similar to that required by section 14(a) for certificates.

The failure to issue a certificate of compliance or the issuance of a certificate which is false or misleading in any material respect violates section 19(a)(6) of the CPSA, *id.* section 2068(a)(6), and may subject the firm to civil and criminal penalties as provided in sections 20 and 21 of the CPSA. *Id.* sections 2069 and 2070.

Thus, the CPSA in conjunction with the Improvement Act currently require that garage door operators manufactured on or after January 1, 1991 certify that they comply with the entrapment protection provisions of UL 325, now codified as a Commission rule, 56 FR 28050. While certification is currently required by section 14(a) of the CPSA, presently, the specific wording and form of the certification may be determined by the manufacturer.

B. The Certification Rule

The Commission issued a proposed certification regulation to specify the certification label that manufacturers, importers, and private labelers will use in the future in certifying that their products comply with the applicable safety standard. 53 FR 9395. The Commission received one comment on the proposed rule, which is discussed below, and is now issuing the rule in final form.

As stated above, section 203(d) of the Improvement Act requires certain labeling on the operator system and its container. (Unlike section 14 of the CPSA, section 203(d) does not specifically discuss the responsibility of private labelers to label operators or containers.) Section 203(d) also states that display of the UL logo or listing mark and compliance with the date marking requirements of UL 325 satisfies the labeling requirements of section 203(d). Accordingly, those manufacturers that have obtained UL certification of their operators may allow the UL logo or listing mark to serve as the "certificate of compliance" required by this certification rule. Those manufacturers that have not obtained UL certification for their operators will be required to issue satisfactory certificates of compliance in the form of permanent labels attached to each operator and its container. Thus, the Commission is not mandating the UL logo or listing mark as a certification label, but will allow them to serve as a certification label since Congress provided that the UL logo or listing mark would satisfy the statutory labeling requirement it prescribed in section 203 of the Improvement Act.

This rule provides guidance to manufacturers concerning the certification required by section 14 of the CPSA, and it describes the certification label that would be required of non-UL listed automatic residential garage door operators upon the effective date of the rule.

C. Comment on the Proposed Rule

The comment received in response to the proposed rule stated that testing laboratories other then UL may use the UL 325 standard to test the safety of garage door operators. The commenter stated the Commission should not make the UL logo or listing mark mandatory.

The Commission recognizes that other organizations may test to the UL 325 standard and would apply their listing mark to indicate conformance with the safety standard. As stated above, the Commission is not mandating the UL logo or listing mark. Rather, it is providing, as Congress did, that the UL logo or listing mark will satisfy labeling requirements. Because Congress provided that display of the UL logo or listing mark would satisfy the statutory labeling requirements of section 203 of the Improvement Act, the Commission is allowing the UL logo or listing mark to serve as a certification label that would satisfy section 14 of the CPSA. Under the certification rule, other listing marks are not prohibited. However, operators that display other listing marks must also have the CPSC certification label specified by the rule. The rationale for this is that the basis for specifying a certification rule is to have conformity. Consumers and CPSC investigators know to look for the specified CPSC label. The certification rule provides the exception for products with the UL logo or listing mark because Congress stated that these symbols would satisfy its statutory labeling requirement. Not allowing this exception for a certification label would only increase confusion.

D. Summary of Certification Provisions

Section 1211.20 of the certification rule explains the purpose, scope, and application of the rule. It restates the requirement of 14(a) of the CPSA that manufacturers (defined to include importers and, for purposes of testing only, assemblers) and/or private labelers must either test each individual operator or devise "reasonable testing programs."

Section 1211.21 provides that the specific labeling requirement of the certification rule will become effective for garage door operators manufactured on or after the effective date which will be 30 days from the date of publication.

Section 1211.22 provides definitions for terms used in the certification rule.

Section 1211.23 provides guidance for establishing a reasonable testing program. A "reasonable testing program" is defined in the rule as one which provides reasonable assurance that the certified operators comply with the standard. The rule allows manufacturers and importers to develop their own reasonable testing programs.

The Commission believes that it is unnecessary to specify the testing program for the manufacturers. An operators's ability to meet the performance requirements is controlled by the operator's design, materials, and method of production. The Commission will test for compliance with the standard by using procedures based on the requirements contained in 16 CFR 1211 subpart A as revised for 1993. A manufacturer's tests may include tests prescribed in 16 CFR 1211 subpart A or other reasonable test procedures that can be demonstrated to provide an equivalent measure of entrapment protection.

Although no particular testing program is specified, the rule describes general principles that should be followed in a "reasonable testing program." For certification testing, the operators should be grouped into "production lots." Production lots are defined as a quantity of operators from which certain operators are selected for testing prior to certifying the lot. All operators in a production lot should be essentially identical in those design, construction, and material features which relate to the ability of an operator to comply with the standard. Sample operators are then selected from the production lot for testing in accordance with the reasonable testing program.

If the production lot has been properly limited as to number and design of operators, it should be possible for a manufacturer to test samples from the lot for certification and not to test again as long as the operators in the production lot are essentially identical to the operators tested for certification in all respects relating to the ability of the operator to meet the requirements of the standard. After a lot has been established, if there are any changes in the specifications for the operator which could affect the operator's performance in relation to the requirements of the standard, the manufacturer should establish a new production lot for testing. Similarly, if there are changes in parts, suppliers of

parts, or production methods which could affect the ability of the operator to comply with the standard, the manufacturer should establish a new production lot for testing. Furthermore, if the testing program shows that an operator does not comply with a requirement of the standard, no operator in the production lot should be certified as complying until all non-complying operators in the lot have been identified and destroyed or altered by repair, redesign, or use of different materials or components to the extent necessary to make the operators conform to the standard.

It should be noted that the obligation to issue a certificate of compliance based on a reasonable testing program is in addition to, and not in place of, the obligation to manufacture, import, distribute, or private label only operators which meet the requirements of the standard.

Consequently, if the Commission tests operators in accordance with the standard and obtains failing results, the Commission may begin enforcement action for violation of section 19(a)(1) of the CPSA, even though the manufacturer or importer of the operator may have issued a certificate of compliance and may have based that certificate on a reasenable testing program which meets the requirements of the regulation below.

Section 22 of the CPSA authorizes the Commission to enjoin any person from violating section 19, and to seize any product which does not comply with an applicable standard. 15 U.S.C. 2071(a)(1). In addition, sections 20 and 21 of the CPSA authorize the Commission to seek civil or criminal penalties for violation of the CPSA in appropriate cases. *Id.* sections 2069 and 2070.

Section 1211.24 of the certification rule requires manufacturers (including importers) and/or private labelers of non-UL listed automatic residential garage door operators manufactured after December 31, 1992, to affix to the operators permanent labels which shall be considered a "certificate" of compliance, as that term is used in section 14(a) of the CPSA. Section 14(a) directs manufacturers and private labelers—if the product bears a private label—to certify that a product conforms to the garage door operator safety rule. *Id.* sec. 2063(a)(1). Even though section 203(d) of the Improvement Act requires only manufacturers to label operator systems and containers in a certain way, the Commission believes that, since the authority for the certification rule rests in section 14 of the CPSA, the rule should apply to private labelers in a manner consistent with the terms of section 14 of the CPSA.

As mentioned above, section 203(d) of the Improvement Act states that display of the UL logo or listing mark, and compliance with the date marking requirements of UL 325, on the operator and its container satisfies the labeling requirements of the garage door safety rule. In view of that provision, the Commission believes that the UL logo or listing mark on the operator and compliance with the date marking requirements of UL 325 (as will be codified at 16 CFR 1211.15), should also satisfy the certificate of compliance/permanent label aspect of the proposed certification rule. Any operator that bears the UL logo or listing mark will not be required to display the separate certification label described below. However, manufacturers and private labelers of UL listed operators may choose to use the certification label on the operator and its container if they wish.

The certification label required on non-UL listed operators (and their containers) must include the following information: (1) The statement: "Meets CPSC _____(insert 1993 or later year of applicable standard) garage door operator entrapment protection requirements," and (2) identification of the production lot. The standard as revised, to be codified at 16 CFR 1211.15, requires the manufacturer's name, the system date code, and the factory location (where more than one factory is used to produce the operator). All of this information may be placed on the same label.

The certification label should be visible and legible to the ultimate consumer. It should be a permanent part of the operator and should remain affixed for the life of the operator. It is expected, however, that the permanent label on the operator will not be immediately visible to the consumer at the time of sale because of packaging or other marketing practices. In that event, a second label stating "Meets CPSC _____(insert 1993 or later year of applicable standard) garage door operator entrapment protection requirements," along with the month or week and year of manufacture as required by § 1211.16, is required on the container, or if the container is not visible, on the promotional material used with the sale of the operators.

Section 1211.25 of the rule provides that importers of operators should issue certification labels, but may rely on the foreign manufacturers' tests to support the certification if the records of the tests are maintained in the United States and the importer is a resident of the U.S. or has a resident agent in the U.S. Requirements that manufacturer's records of the type described above must be maintained in the U.S. and the importer must reside, or maintain a resident agent, in this country are necessary to enable the Commission investigators to inspect the records and monitor compliance with the standard. Importers who certify are responsible for inspecting the test records to determine that all testing has been performed properly, that the records of the tests are accurate and complete, and that the tests provide reliable assurance that all operators imported comply with the standard.

III. The Recordkeeping Rule

The Commission issued a proposed recordkeeping rule on March 18, 1992, and received no comments on it. The Commission is now issuing the rule in final form.

The recordkeeping rule requires that manufactures (including importers) of automatic residential garage door operators subject to the standard maintain written records demonstrating that compliance certificates are based on tests of each operator or a reasonable testing program.

Private labelers of the operators should maintain records which allow them to identify the manufacturer of each operator and relate each operator to a particular manufacturing date code and production lot.

No specific format is prescribed for the records, but the records should contain sufficient information to show the nature of a firm's testing procedures, including the basis for, and identity of, the production lot. The records should also show whether the operators (which are being marketed and certified to comply with the standard) are essentially identical, in every respect that relates to compliance with the standard, to the operators that were tested for conformance with the standard. The records should also indicate exactly which operators or production lots of operators are being certified as a result of a specified test or series of tests. Records should describe the type of tests conducted (in sufficient detail that they may be replicated), the production interval selected, the sampling scheme and the pass/reject criteria. Records of testing results should include the date and location of testing, the identity of passing and failing units, the nature of failure(s) and specific reasons for failure. The records should state the specific actions taken to address any failure and the additional actions taken to assure that corrective actions had the intended effect.

The records must be maintained a minimum of three years from the date of certification of each operator or the last operator in each production lot. This is because the Commission staff estimates that some operators can reasonably be expected to remain in inventory and not reach consumers for a period of three years, and the staff is particularly interested in being able to check the records concerning any operators held in inventory.

In addition to aiding the Commission's enforcement of the standard and the certification rule, these records could be helpful to a manufacturer in limiting the scope of a possible recall order under section 15 of the CPSA. See 15 U.S.C. 2064. The Commission is authorized under section 15 to order a manufacturer of a product which is found, after opportunity for a hearing, to present a "substantial product hazard" to elect one of the following remedies: repair the defective product, replace the product with a non-defective product, or refund the purchase price of the product. "Substantial product hazard" is defined in section 15 to mean a failure to comply with an applicable consumer product safety rule, or a product defect, if either creates a substantial risk of injury to the public.) Records of the date and location of manufacture, dates of changes in specifications, parts, suppliers, or manufacturing procedures, and the dates and results of quality control or recertification testing are examples of the types of information which could serve to identify the period of time during which non-complying or defective operators were manufactured. In the absence of such information, the entire production of a particular type of operator could be subject to a recall order.

The recordkeeping requirements of the rule are issued under the authority of section 16(b) of the CPSA, which authorizes requirements for the establishment and maintenance of records that are necessary to implement the act or to determine compliance with regulations issued under the act. 15 U.S.C. 2065(b). The Commission believes the records required by the proposed rule are necessary to monitor compliance with the garage door operator standard.

Section 16(b) further provides that these records must be made available for inspection by duly designated agents of the Commission upon request. *Id.*

IV. Anticipated Impact of the Rules

A. The Revised Standard

Because Congress mandated the revised UL entrapment protection provisions, the Commission has not made findings concerning the impact of the revised standard.

B. The Certification Rule

The stock of garage door operators in use is estimated to be at least 27 million units (with an average life expectancy of 15 years), of which 19 million were manufactured since 1982, the year the UL voluntary standard was revised to include entrapment protection provisions. In a 1991 industry survey, the Commission staff found that 14 firms manufactured or imported garage door operators, of which 12 are listed as complying with UL 325. Four of these 12 firms account for over 70 percent of the garage door operator market. In 1990, shipments were estimated at up to 2.5 million units with retail revenues of $552 million.

Industry representatives estimated that increases in per unit labeling costs for firms marketing non-UL operators will range from as low as $.10–.25 (when labeling is phased into the production process), to as high as $1.10 (when labeling requires the over-stickering of inventory). Thus, the annual cost for non-UL listed firms will be at least $2,500. These costs are based on an estimate that 99% of all operators are UL-listed and on 1990 levels of production (about 2.48 million UL-listed and 25,000 non UL-listed operators).

It is anticipated that manufacturers of garage door operators will pass any increases in costs resulting from the proposed certification rule directly to the consumer. An estimate of the per unit retail price impact of certification labeling on non-UL listed residential garage door operators would range from $.22 to as high as $2.42. This represents a total annual cost of at least $5,500 based on recent annual sales.

C. The Recordkeeping Rule

The majority of firms manufacturing garage door operators are listed as complying with the UL 325 standard, and these firms have recordkeeping activities related to the UL requirements. The recordkeeping rule will have minimal additional impact on variable costs for these firms. There are no data on the per unit recordkeeping costs for non-UL listed operators. However, since the certification and recordkeeping rule for walk-behind mowers issued in 1979 closely parallels the rules for garage door operators, a rough approximation can be derived by using the per unit retail price impact of the recordkeeping rule estimated for walk-behind mowers. In May 1977, Stanford Research Institute predicted the per unit retail price impact of that recordkeeping to be $.50 ($1.08 in 1990 dollars). Based on 1990 unit sales of about 25,000 non-UL listed operators, this represents a total annual cost to consumers of about $27,000 for the non-UL listed operators.

V. Regulatory Flexibility Certification

Under the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, agencies are generally required to prepare proposed and final regulatory flexibility analyses describing the impact of the rule on small businesses and other small entities, unless the head of the agency certifies that the rule will not, if promulgated, have a significant effect on a substantial number of small entities.

The Commission staff analyzed the potential effect the proposed certification and recordkeeping rules could have on industry and concluded that the cost to industry is not anticipated to be large. Potential effects on small firms would not be disproportionate to the effects on larger firms. Thus, in the notice of proposed rulemaking, the Commission certified that no significant adverse impact on a substantial number of entities would result from the proposed rules. This remains unchanged.

No regulatory flexibility analysis is required for the revised entrapment protection provisions since they became effective by Congressional mandate.

VI. Environmental Considerations

The Commission's rules at 16 CFR part 1021 provide that product certification or labeling rules normally have no potential for affecting the environment. 16 CFR 1021.5(b)(2). The Commission found that the proposed certification and recordkeeping rules would have no significant effect on the human environment and that no environmental review was necessary. This remains unchanged.

No environmental analysis is required for the revised entrapment protection provisions since they became effective by Congressional mandate.

VII. Effective Dates

As explained above, Congress provided that the revised entrapment protection requirements of UL 325 would become effective as a Commission rule and that residential garage door operators manufactured on or after January 1, 1993 must conform to these additional requirements. Thus,

these entrapment protection requirements will become effective on that date.

Under section 14(a) of the CPSA, residential garage door operators must certify that they comply with the Commission standard applicable to those operators. The specific labeling requirements of this certification rule will become effective on January 21, 1993 for operators manufactured on or after that date. The recordkeeping rule will become effective on January 21, 1993 for operators manufactured on or after that date.

List of Subjects in 16 CFR Part 1211

Consumer protection, labeling, packaging and containers, reporting and recordkeeping requirements.

For the reasons set forth in the preamble, the Consumer Product Safety Commission is amending title 16, chapter II, by revising part 1211 as follows:

1. The authority citation for part 1211 is revised to read as follows:

Authority: Sec. 203, Pub. L. 101–608, 104 Stat. 3110; Secs. 14 and 16, 15 U.S.C. 2063 and 2065.

2. The existing text of part 1211 is designated as Subpart A—The Standard and is revised to read as follows:

PART 1211—SAFETY STANDARD FOR AUTOMATIC RESIDENTIAL GARAGE DOOR OPERATORS

Subpart A—The Standard

Sec.

1211.1 Effective date.
1211.2 Definition.
1211.3 Units of measurement.
1211.4 General requirements for protection against risk of injury.
1211.5 General testing parameters.
1211.6 General entrapment protection requirements.
1211.7 Inherent entrapment protection requirements.
1211.8 External entrapment protection requirements.
1211.9 Additional entrapment protection requirements.
1211.10 Requirements for all entrapment protection devices.
1211.11 Requirements for photoelectric sensors.
1211.12 Requirements for edge sensors.
1211.13 Instruction manual.
1211.14 Field-installed labels.
1211.15 UL marking requirement.
1211.16 Statutory labeling requirement.

Subpart A—The Standard

§ 1211.1 Effective date.

This standard applies to all residential garage door operators manufactured on or after January 1, 1993 for sale in the United States.

§ 1211.2 Definition.

As used in this part 1211:

"Residential garage door operator" means a vehicular door operator which:

(a) Serves a residential building of one to four single family units;

(b) Is rated 600 volts or less; and

(c) Is intended to be employed in ordinary locations in accordance with the National Electrical Code, NFPA 70, 1993 edition. This incorporation by reference was approved by the Director of the Federal Register in accordance with U.S.C. 552(a) and 1 CFR part 51. Copies may be obtained from the National Fire Protection Association, 1 Batterymarch Park, Quincy, Mass. 02269–9101, tel. 1–800–344–3555. Copies may be inspected at the Consumer Product Safety Commission, Office of the Secretary, 5401 Westbard Avenue, Bethesda, Maryland or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

§ 1211.3 Units of measurement.

If a value for measurement as given in these requirements is followed by an equivalent value in other units, in parentheses, the second value may be only approximate. The first stated value is the requirement.

§ 1211.4 General requirements for protection against risk of injury.

(a) If an automatically reset protective device is employed, automatic restarting of a motor shall not result in a risk of injury to persons.

(b) A residential garage door operator is considered to comply with the requirement in paragraph (a) of this section if some means is provided to prevent the motor from restarting when the protector closes.

(c) An electronic or solid-state circuit that performs a back-up, limiting, or other function intended to reduce the risk of fire, electric shock, or injury to persons, including entrapment protection circuits, shall comply with the requirements in the Standard for Tests for Safety-Related Controls Employing Solid-State Devices, UL 991, 1st ed., dated July 19, 1991, including environmental and stress tests appropriate to the intended usage of the end-product. This incorporation by reference was approved by the Director of the Federal Register in accordance with U.S.C. 552(a) and 1 CFR part 51. Copies may be obtained from Underwriters Laboratories, Inc., 333 Pfingsten Road, Northbrook, Ill.60062–2096. Copies may be inspected at the Consumer Product Safety Commission, Office of the Secretary, 5401 Westbard Avenue, Bethesda, Maryland or at the Office of the Federal Register, 800 North Capitol Street, NW, suite 700, Washington, DC.

§ 1211.5 General testing parameters.

(a) The following test parameters are to be used in the investigation of the circuit covered by § 1211.4(c) for compliance with the Standard for Tests for Safety-Related Controls Employing Solid-State Devices, UL 991, 1st ed., dated July 19, 1991, as incorporated by reference in paragraph (b)(3) of this section:

(1) Electrical supervision of critical components is acceptable if it results in an operator being inoperative with respect to downward movement of the door.

(2) A field strength of 3 volts per meter is to be used for the Radiated EMI Test.

(3) The Composite Operational and Cycling Test is to be used for 14 days at temperature extremes of minus 35° Celsius (minus 31°F) and 70° C (158°F).

(4) Exposure Class H5 is to be used for the Humidity Test.

(5) A vibration level of 5g is to be used for the Vibration Test.

(6) If a Computational Investigation is conducted, λ_p shall not be greater than 6 failures/10^6 hours for the entire system. For external entrapment protection devices that are sold separately, λ_p shall not be greater than 0 failures/10^6 hours. The Operational Test is to be conducted for 14 days.

(7) If the Demonstrated Method test is conducted, the multiplier is to be based on the continuous usage level, and a minimum of 24 units for a minimum of 24 hours per unit are to be tested.

(8) The Endurance test is to be conducted concurrently with the Operational test. The control shall perform its intended function while being conditioned for fourteen days in an ambient air temperature of 60° C (140° F), or 10° C (18° F) greater than the operating temperature of the control, whichever is higher. During the test, the control is to be operated in a manner representing the opening and closing of the door at a rate of one open-close operation per minute.

(b) In the evaluation of entrapment protection circuits used in residential garage door operators, the critical condition flow chart shown in figure 1 shall be used:

(1) To conduct a failure-mode and effect analysis (FMEA);

(2) In investigating the performance during the Environmental Stress Tests; and

(3) During the Power Cycling Tests in accordance with the Standard for Tests for Safety-Related Controls Employing

Solid-State Devices, UL 991, 1st ed., dated July 19, 1991. This incorporation by reference was approved by the Director of the Federal Register in accordance with U.S.C. 552(a) and 1 CFR Part 51. Copies may be obtained from Underwriters Laboratories, Inc., 333 Pfingsten Road, Northbrook, IL 60062–2096. Copies may be inspected at the Consumer Product Safety Commission, Office of the Secretary, 5402 Westbard Avenue, Bethesda, Maryland or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

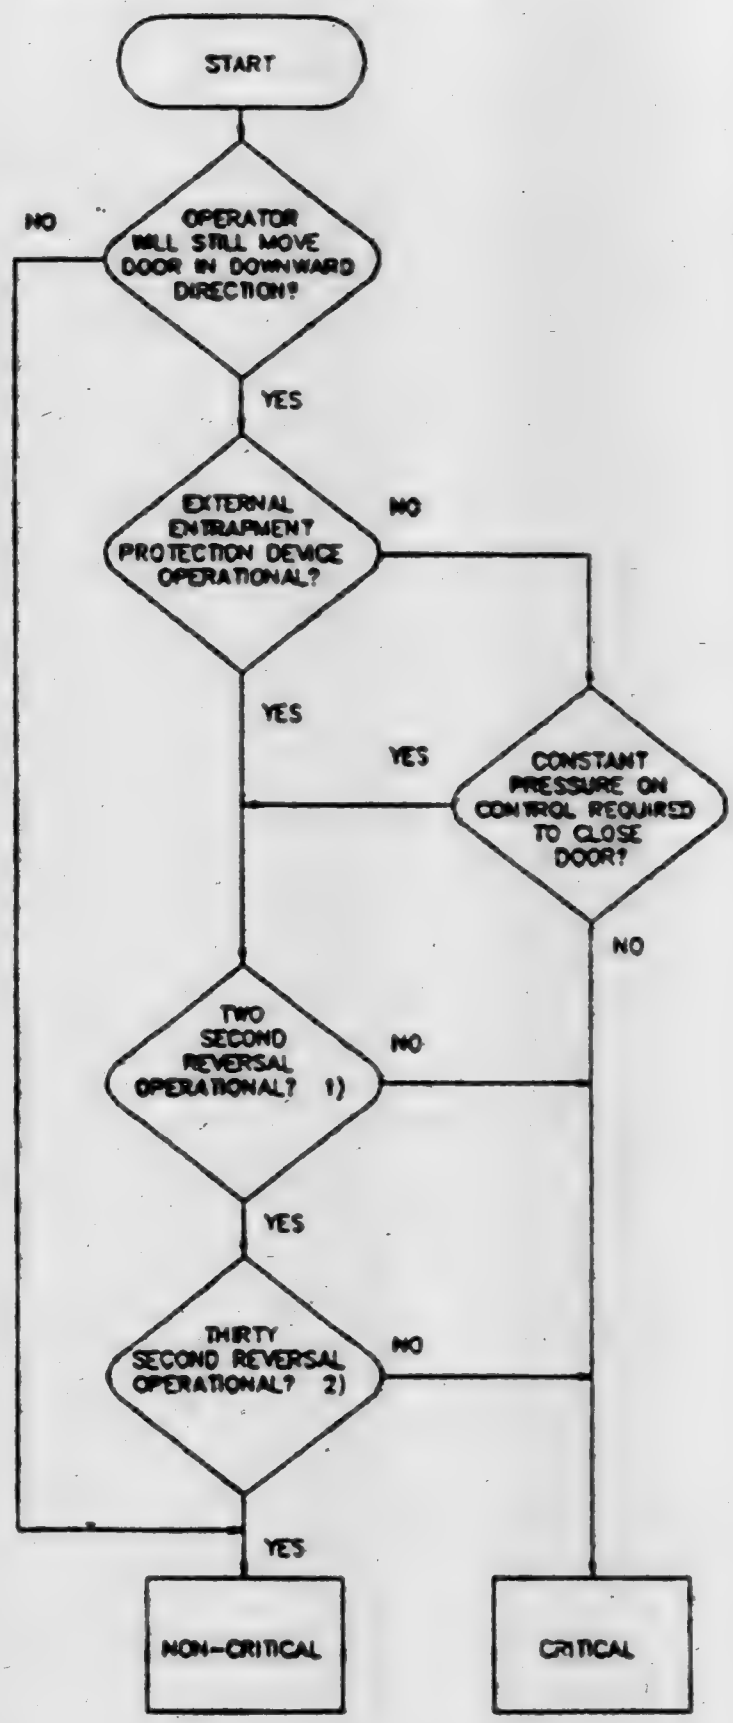
§ 1211.6 General entrapment protection requirements.

(a) A residential garage door operator system shall be provided with inherent entrapment protection that complies with the requirements as specified in § 1211.7.

BILLING CODE 6355-01-M

Figure 1

CRITICAL CONDITION FLOW CHART ENTRAPMENT PROTECTION DEVICES AND FUNCTIONS



BILLING CODE 6355-01-C

(b) In addition to the inherent entrapment protection as required by paragraph (a) of this section, a residential garage door operator shall comply with one of the following:

(1) Shall be constructed to:

(i) Require constant pressure on a control to lower the door,

(ii) Reverse direction and open the door to the upmost position if constant pressure on a control is removed prior to operator reaching its lower limit, and

(iii) Permit a portable transmitter, if provided, to only function to cause the operator to open the door.

(2) Shall be provided with a means for connection of an external entrapment protection device as described in §§ 1211.8, 1211.10, 1211.11, and 1211.12.

(c) A mechanical switch or a relay used in an entrapment protection circuit shall withstand 100,000 cycles of operation controlling a load no less severe (voltage, current, power factor, inrush, and the like) than it controls in the operator, and shall function normally upon completion of the test.

(d) If failure of a switch or relay (open or short) described in paragraph (c) of this section results in loss of any entrapment protection required by §§ 1211.7(a), 1211.7(f), or 1211.8(a), the door operator shall result in one of the following conditions:

(1) The door operator becoming inoperative by the end of the open or close operation, or

(2) The door moving to and staying within 1 foot (305 mm) of the uppermost position.

(e) During the closing cycle, the system providing compliance with § 1211.7(a) and 1211.7(f) shall function regardless of a short or open anywhere in the low-voltage external wiring to the control, external entrapment devices, or any other external component.

§ 1211.7 Inherent entrapment protection requirements.

(a) Except for the first 1 foot (305 mm) of travel as measured over the path of the moving door operating member, both with and without any external entrapment protection device functional, a downward moving residential garage door operator shall initiate reversal of the door within 2 seconds of contact with the obstruction as specified in paragraph (b) of this section. After reversing the door, the door operator shall return the door to and stop at the full upmost position, unless a control is actuated or an inherent entrapment circuit senses an obstruction to stop the door during its upward travel. Compliance with this paragraph shall be tested in accordance with paragraphs (b) through (g) of this section.

(b) For the tests described in paragraph (a) of this section, a solid object is to be placed on the floor of the test installation and at various heights under the edge of the door and located in line with the driving point of the operator. When tested on the floor, the object shall be 1 inch (25.4 mm) high. In the test installation, the bottom edge of the door under the driving force of the operator is to be against the floor when the door is fully closed.

(c) An operator is to be tested for compliance with paragraph (a) of this section for 50 open-and-close cycles of operation while the operator is connected to the type of residential garage door with which it is intended to be used or with the doors specified in paragraph (e) of this section. The force adjustment on the operator is to be at the maximum setting or at the setting that represents the most severe operating condition. Any accessories that could have an effect on the intended operation of entrapment protection functions that are intended for use with the operator, are to be attached and the test is to be repeated for one additional cycle.

(d) The operator is to be adjusted (limit and force) according to instructions provided with the operator. The operator is to be tested for 10 additional obstruction cycles using the solid object described in paragraph (b) of this section at these settings.

(e) If an operator is intended to be used with more than one type of door, one sample of the operator is to be tested on a sectional door with a curved track and one sample is to be tested on a one-piece door with jamb hardware and no track. If the Operator is not intended for use on either or both of these types of doors, a one-piece door with track hardware or a one-piece door with pivot hardware, as appropriate, may be used for the tests. See the marking requirements at § 1211.15 of this subpart.

(f) An operator shall initiate reversal of the door and shall return the door to and stop the door at the full upmost position, unless a control is actuated or an inherent entrapment protection circuit senses an obstruction to stop the door during its upward travel, if the lower limiting device is not actuated in 30 seconds or less following the initiation of the close cycle. If the door is stopped manually during its descent, the 30 seconds may be measured from the resumption of the close cycle.

(g) To determine whether an operator complies with the requirement in paragraph (f) of this section, an operator is to be subjected to 10 open-and-close cycles of operation while connected to the door or doors specified in paragraphs (c) and (e) of this section. The cycles of operation while connected to the door or doors need not be consecutive; that is, there may be any number of motor cooling-off periods during the test. The means provided to comply with the requirement in paragraph (a) of this section and § 1211.8(a) are to be inoperative or defeated during the test. An obstructing object is to be provided so that the door cannot activate a lower limiting device.

§ 1211.8 External entrapment protection requirements.

(a) An external entrapment protection device provided with or as an accessory to an operator shall consist of either:

(1) A photoeletric sensor that when activated causes an operator closing a door to reverse direction of the door and prevents an operator from closing an open door,

(2) An edge sensor installed on the edge of the door that when activated causes an operator closing a door to reverse direction of the door and prevents an operator from closing an open door, or

(3) Any other device that provides entrapment protection equivalent to paragraphs (a) (1) or (2) of this section.

(b) With respect to the device mentioned in paragraph (a) of this section, a door operator shall monitor for the presence and correct operation of the device, including the wiring to it, at least once during each close cycle. Should the device not be present or a fault condition occur which precludes the sensing of an obstruction, including an open or short circuit in the wiring that connects the external entrapment protection device to the operator and device's supply source, the operator shall function in one of the following conditions:

(1) A closing door shall open and an open door shall not close more than 1 foot (305 mm) below the upmost position, or

(2) The operator shall function as required by § 1211.6(b)(1).

(c) An external entrapment protection device as mentioned in paragraph (a) of this section shall comply with the applicable requirements specified in §§ 1211.10, 1211.11, and 1211.12 of this subpart.

§ 1211.9 Additional entrapment protection requirements.

(a) A means to manually detach the door operator from the door shall be provided. The means shall be colored red and shall be easily distinguishable

from the rest of the operator. It shall be capable of being adjusted to a height of 6 feet (1.8 m) above the garage floor when the operator is installed according to the instructions specified in § 1211.13(a)(2) of this subpart. The means shall be constructed so that a hand can firmly grip it and detach the operator by applying a maximum of 50 pounds (223 N) of force to the means with the door obstructed in the down position. The obstructing object, as described in § 1211.7(b), is to be located in several different positions. A marking with instructions for detaching the operator shall be provided as required by § 1211.14(i).

(b) Actuation of a control that initiates movement of a door shall stop and may reverse the door on the down cycle. On the up cycle, actuation of a control shall stop the door but not reverse it.

(c) An operator shall be constructed so that adjustment of limit, force or other user controls and connection of external entrapment protection devices can be accomplished without exposing normally enclosed live parts or wiring.

§ 1211.10 Requirements for all entrapment protection devices.

(a) *General requirements.* (1) An external entrapment protection device shall perform its intended function when tested in accordance with paragraphs (a)(2) through (4) of this section.

(2) The device is to be installed in the intended manner and its terminals connected to circuits of the door operator as indicated by the installation instructions.

(3) The device is to be installed and tested at minimum heights and widths representative of recommended ranges specified in the installation instructions. If not specified, devices are to be tested on a minimum 7 foot (2.1 m) wide door and maximum 20 foot (6.1 m) wide door.

(4) If powered by a separate source of power, the power-input supply terminals are to be connected to supply circuits of rated voltage and frequency.

(5) An external entrapment protection device requiring alignment, such as a photoelectric sensor, shall be provided with a means, such as a visual indicator, to show proper alignment and operation of the device.

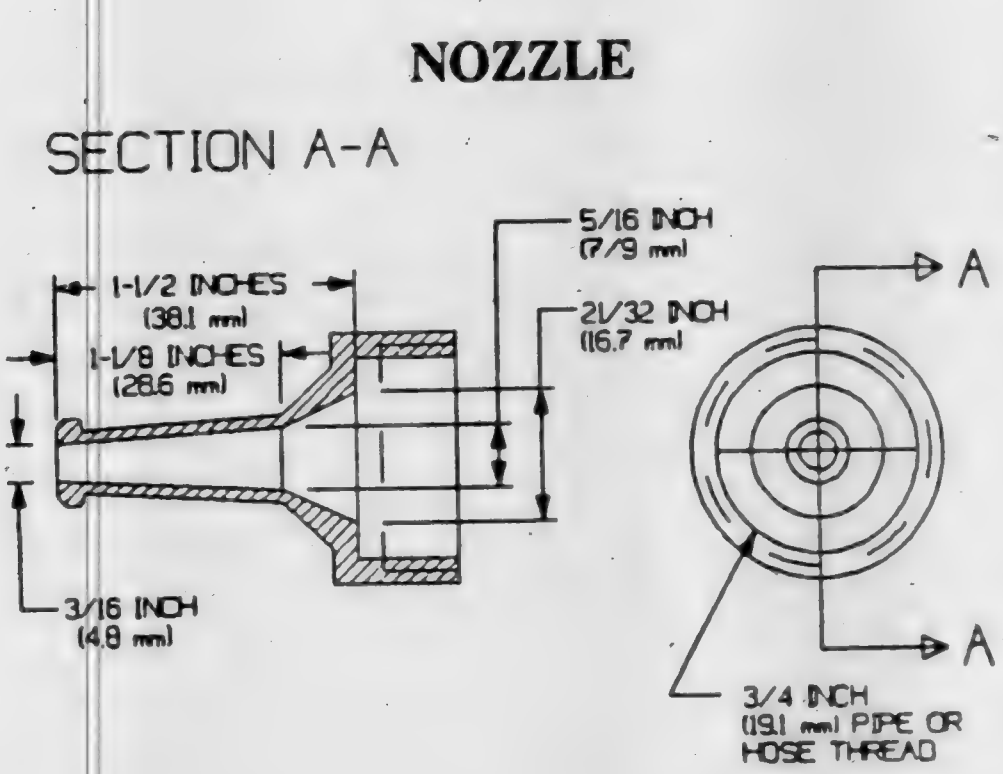
(b) *Current protection test.* (1) There shall be no damage to the entrapment protection circuitry if low voltage field-wiring terminals or leads are shortened or miswired to adjacent terminals.

(2) To determine compliance with paragraph (b)(1) of this section, an external entrapment protection device is to be connected to a door operator or other source of power in the intended manner, after which all connections to low voltage terminals or leads are to be reversed as pairs, reversed individually, or connected to any low voltage lead or adjacent terminal.

(c) *Splash test.* (1) An external entrapment protection device intended to be installed inside a garage 3 feet or less above the floor shall withstand a water exposure as described in paragraph (c)(2) of this section without resulting in a risk of electric shock and shall function as intended. After exposure, the external surface of the device may be dried before determining its functionality.

(2) An external entrapment protection device is to be indirectly sprayed using a hose having the free end fitted with a nozzle as illustrated in figure 2 and connected to a water supply capable of maintaining a flow rate of 5 gallons (19 liters) per minute as measured at the outlet orifice of the nozzle. The water from the hose is to be played, from all sides and at any angle against the floor under the device in such a manner most likely to cause water to splash the enclosure of electric components. However, the nozzle is not to be brought closer than 10 feet (3.05 m) horizontally to the device. The water is to be sprayed for 1 minute.

Figure 2



(d) *Ultraviolet light exposure test.* A polymeric material used as a functional part of a device that is exposed to outdoor weather conditions shall comply with the Ultraviolet Light Exposure Test described in the Standard for Polymeric Materials—Use in Electrical Equipment Evaluations, UL 746C, 3rd ed., dated July 1, 1991. This incorporation by reference was approved by the Director of the Federal Register in accordance with U.S.C. 552(a) and 1 CFR part 51. Copies may be obtained from Underwriters Laboratories, Inc., 333 Pfingsten Road, Northbrook, Ill. 60062–2096. Copies may be inspected at the Consumer Product Safety Commission, Office of the Secretary, 5401 Westbard Avenue, Bethesda, Maryland or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, D.C.

(e) *Resistance to impact test.* (1) An external entrapment protection device employing a polymeric or elastomeric material as a functional part shall be subjected to the impact test specified in paragraph (e)(2) of this section. After being subjected to this test:

(i) There shall be no cracking or breaking of the part, and

(ii) The part shall operate as intended.

(2) Samples of the external entrapment protection device are to be subjected to the Impact Test described in the Standard for Polymeric Materials—Use in Electrical Equipment Evaluations, UL 746C, 3rd ed., dated July 1, 1991, as incorporated by reference in paragraph (d) of this section. The external entrapment protection device is to be subjected to 5 foot-pound (6.8 J) impacts. Three samples are to be tested, each sample being subjected to three impacts at different points.

(3) Each of three additional samples of a device exposed to outdoor weather when the door is the closed position are to be cooled to a temperature of minus 31.0 ± 3.6° F (minus 35.0 ± 2.0° C) and maintained at this temperature for 3 hours. Three samples of a device employed inside the garage are to be cooled to a temperature of 32.0° F (0.0° C) and maintained at this temperature for 3 hours. While the sample is still cold, the samples are to be subjected to the impact test described in paragraph (e)(1) of this section.

§ 1211.11 Requirements for photoelectric sensors.

(a) *Normal operation test.* (1) When installed as described in § 1211.10(a)(1)–(4), a photoelectric sensor shall sense an obstruction as described in paragraph (a)(2) of this section that is to be placed on the floor at three points over the width of the door opening, at distances of 1 foot (305 mm) from each end and the midpoint.

(2) The obstruction noted in paragraph (a)(1) of this section shall consist of a white vertical surface 6 inches (152 mm) high by 12 inches (305 mm) long. The obstruction is to be centered under the door perpendicular to the plane of the door when in the closed position. See figure 3.

BILLING CODE 6355–01–M

Figure 3

STATIONARY OBSTRUCTION

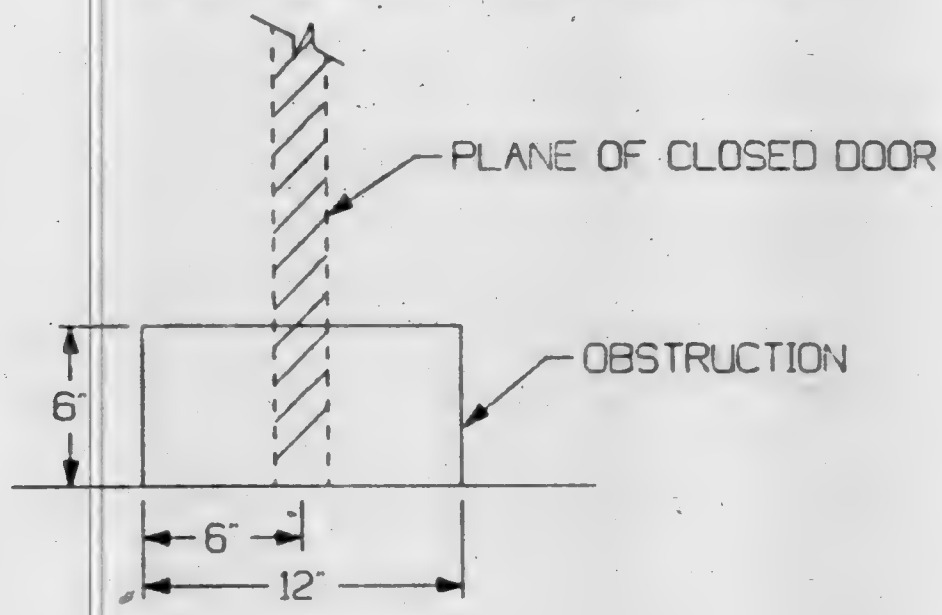


Figure 4

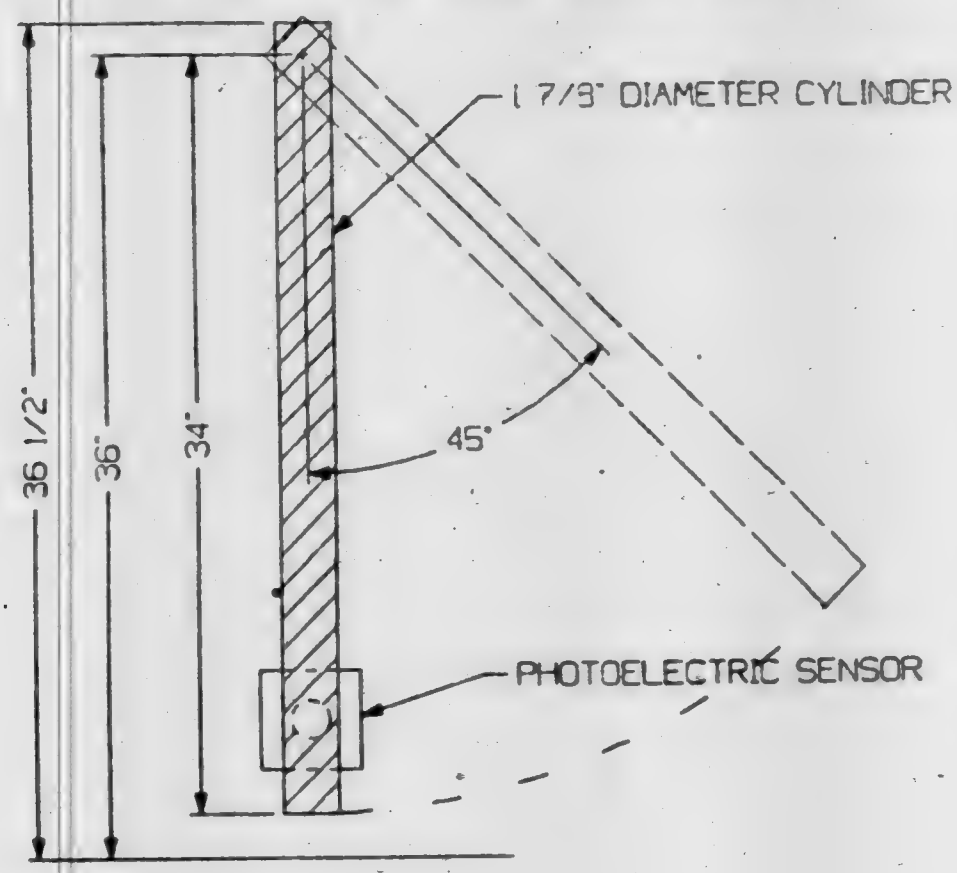
MOVING OBSTRUCTION



BILLING CODE 6355-01-C

(b) *Sensitivity test.* (1) When installed as described in § 1211.10(a)(1)–(4), a photoelectric sensor shall sense the presence of a moving object when tested according to paragraph (b)(2) of this section.

(2) The moving object is to consist of a 1⅞ inch (47.6 mm) diameter cylindrical rod, 34½ inches (876 mm) long, with the axis point being 34 inches (864 mm) from the end. The axis point is to be fixed at a point centered directly above the beam of the photoelectric sensor 36 inches (914 mm) above the floor. The photoelectric sensor is to be mounted at the highest position as recommended by the manufacturer. The rod is to be swung as a pendulum through the photoelectric sensor's beam from a position 45 degrees from the plane of the door when in the closed position. See figure 4.

(3) The test described in paragraph (b)(2) of this section is to be conducted at three points over the width of the door opening, at distances of 1 foot (305 mm) from each end and the midpoint.

(c) *Ambient light test.* (1) A photoelectric sensor shall operate as specified in § 1211.8 (a) and (b) when subjected to ambient light impinging at an angle of 15 to 20 degrees from the axis of the beam when tested according to paragraph (c)(2) and, if appropriate, paragraph (c)(3) of this section.

(2) To determine compliance with paragraph (c)(1) of this section, a 500 watt, 3600K Photo Floodlamp, type DXC RFL–2, is to be energized from a 120-volt, 60-hertz source.

BILLING CODE 6355–01–M

Figure 5

AMBIENT LIGHT TEST

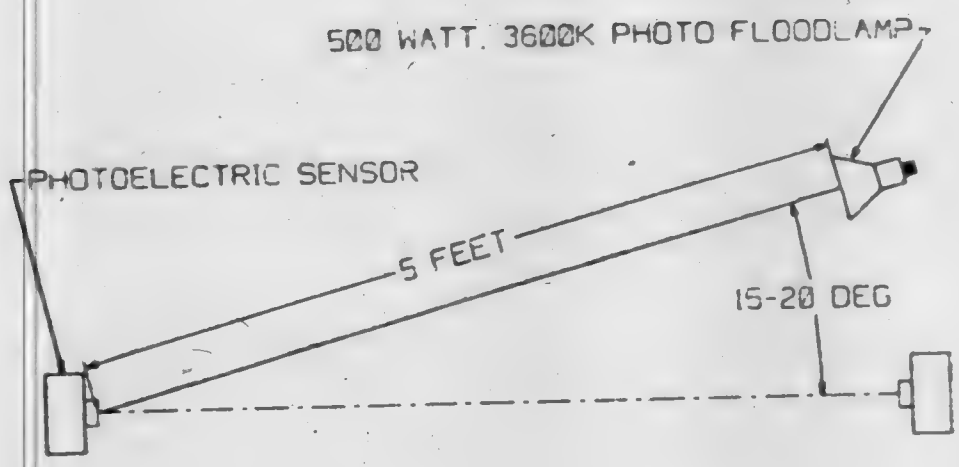


Figure 6

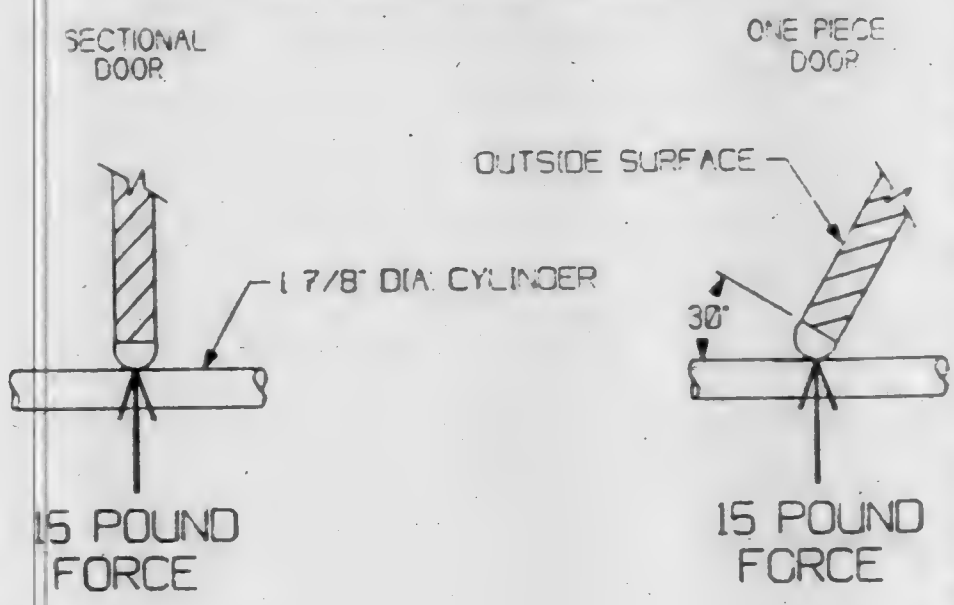
EDGE SENSOR NORMAL OPERATION TEST



BILLING CODE 6560-01-C

The lamp is to be positioned 5 feet from the front of the receiver and aimed directly at the sensor at an angle of 15 to 20 degrees from the axis of the beam. See figure 5.

(3) If the photoelectric sensor uses a reflector, this test is to be repeated with the lamp aimed at the reflector.

§ 1211.12 Requirements for edge sensors.

(a) *Normal operation test.* (1) When installed on a representative door edge, an edge sensor shall actuate upon the application of a 15 pounds (66.7 N) or less force in the direction of the application. For an edge sensor intended to be used on a sectional door, the force is to be applied by the longitudinal edge of a 1⅞ inch (47.6 mm) diameter cylinder placed across the switch so that the axis is perpendicular to the plane of the door. For an edge sensor intended to be used on a one piece door, the force is to be applied so that the axis is at an angle 30 degrees from the direction perpendicular to the plane of the door. See figure 6.

(2) With respect to the test of paragraph (a)(1) of this section, the test is to be repeated at various representative points of the edge sensor across the width of the door.

(3) Exception: The edge sensor need not be sensitive to actuation two inches (50.4 mm) or less from each end of the intended width of the door opening.

(b) *Endurance test.* An edge sensor system and associated components shall withstand 30,000 cycles of mechanical operation without failure. For this test, the edge sensor is to be cycled by the repetitive application of the force as described in paragraph (a)(1) of this section. The force is to be applied to the same location for the entire test. For an edge sensor system employing integral electric contact strips, this test shall be conducted with the contacts connected to a load no less severe than it controls in the operator. For the last 50 cycles of operation, the sensor shall function as intended when connected to an operator.

(c) *Elastomeric material conditioning test.* (1) An elastomeric material used as a functional part of an edge sensor shall function as intended when subjected to:

(i) Accelerated Aging Test of Gaskets, stated in paragraph (c)(3) of this section, and

(ii) Puncture Resistance Test, stated in paragraph (d) of this section.

(2) An elastomeric material used for a functional part that is exposed to outdoor weather conditions when the door is in the closed position shall have physical properties as specified in Table 1 after being conditioned in accordance with the Ultraviolet Light Exposure Test described in the Standard for Polymeric Materials—Use in Electrical Equipment Evaluations, UL 746C, 3rd ed., dated July 1, 1991. This incorporation by reference was approved by the Director of the Federal Register in accordance with U.S.C. 552(a) and 1 CFR Part 51. Copies may be obtained from Underwriters Laboratories, Inc., 333 Pfingsten Road, Northbrook, IL 60062-2096.

BILLING CODE 6355-01-M

Table 1

PHYSICAL PROPERTIES OF GASKET-ACCELERATED AGING TEST

	Before Accelerated Aging	After Accelerated Aging
Recovery -- Maximum set when 2-inch (50.8-mm) gauge marks are stretched to 5 inches (127 mm), held for 2 minutes, and measured 2 minutes after release	1/2 inch (12.7 mm)	
Elongation -- Minimum increase in distance between 2-inch gauge marks at break	250 percent [2 to 7 inches (50.8—178.8 mm)]	65 percent of original
Tensile Strength -- Minimum force at breaking point	850 pounds per square inch (59 mPa)	75 percent of original

BILLING CODE 6560-01-C

Copies may be inspected at the Consumer Product Safety Commission, Office of the Secretary, 5401 Westbard Avenue, Bethesda, Maryland or at the Office of the Federal Register, 800 North Capitol Street NW., suite 700, Washington, DC.

(3) Rubber compounds forming gaskets that are depended upon for protection from rain shall have physical properties as specified in Table 1, before and after conditioning for 168 hours in an air-circulating oven at 70° C (158° F).

(d) *Puncture resistance test.* (1) After being subjected to the test described in paragraph (d)(2) of this section, an elastomeric material that is a functional part of an edge sensor shall:

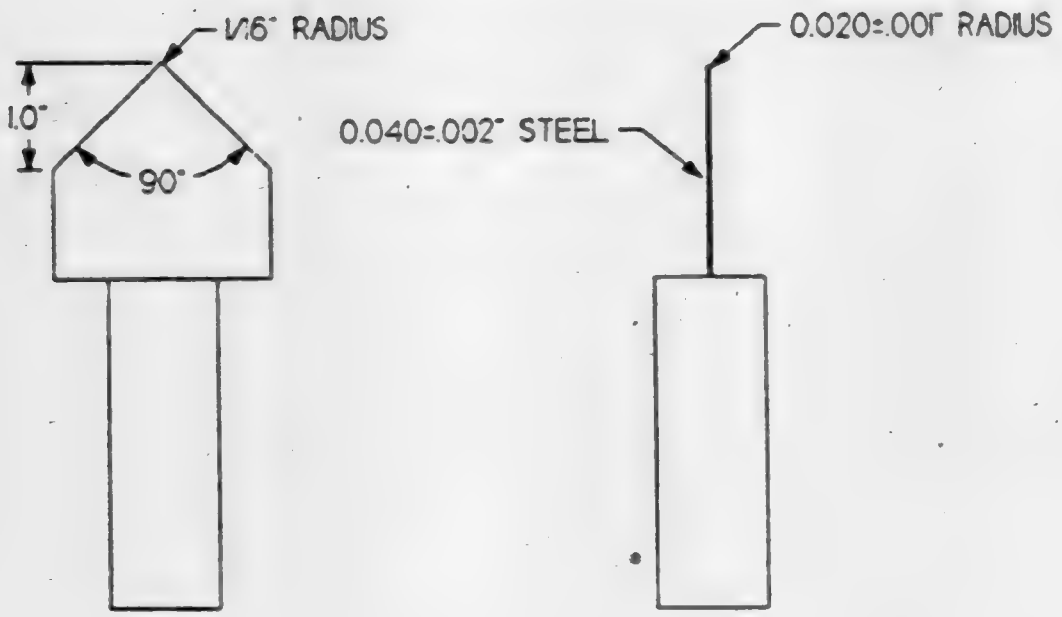
(i) Not be damaged in a manner that would adversely affect the intended operation of the edge sensor, and

(ii) Maintain enclosure integrity if it serves to reduce the likelihood of contamination of electrical contacts.

(2) A sample of the edge sensor is to be installed in the intended manner on a representative door edge. The probe described in figure 7 is to be applied with a 20 pound-force (89N) to any point on the sensor that is 3 inches or less above the floor is to be applied in the direction specified in the Edge Sensor Normal Operation Test, figure 6. The test is to be repeated on three locations on each surface of the sensor being tested.

Figure 7

PUNCTURE PROBE



§ 1211.13 Instruction manual.

(a) *General.* (1) A residential garage door operator shall be provided with an instruction manual. The instruction manual shall give complete instructions for the installation, operation, and user maintenance of the operator.

(2) Instructions that clearly detail installation and adjustment procedures required to effect proper operation of the safety means provided shall be provided with each door operator.

(3) A residential garage door or door operator shall be provided with complete and specific instructions for the correct adjustment of the control mechanism and the need for periodic checking and, if needed, adjustment of the control mechanism so as to maintain satisfactory operation of the door.

(4) The instruction manual shall include the important instructions specified in paragraphs (b)(1) and (2) of this section. All required text shall be legible and contrast with the background. Upper case letters of required text shall be no less that 5/64 inch (2.0 mm) high and lower case letters shall be no less than 1/16 inch (1.6 mm) high. Heading such as "Important Installation Instructions," Important Safety Instructions," "Save These Instructions" and the words "Warning—To reduce the risk of severe injury or death to persons": shall be in letters no less than 3/16 inch (4.8 mm) high.

(5) The instructions listed in paragraphs 1211.13(b)(1) and (2) shall be in the exact words specified or shall be in equally definitive terminology to those specified. No substitutes shall be used for the word "Warning." The items may be numbered. The first and last items specified in paragraph (b)(2) of this section shall be first and last respectively. Other important and precautionary items considered appropriate by the manufacturer may be inserted.

(6) The instructions listed in paragraph (b) (1) of this section shall be located immediately prior to the installation instructions. The instructions listed in paragraph (b) (2) of this section shall be located immediately prior to user operation and maintenance instructions. In each case, the instructions shall be separate in format from other detailed instructions related to installation, operation and maintenance of the operator. All instructions, except installation

instructions, shall be a permanent part of the manual(s).

(b) *Specific required instructions.* (1) The Installation Instructions shall include the following instructions:

Important Installation Instructions

Warning—To reduce the risk of severe injury or death:

1. Read and follow all Installation Instructions.

2. Install only a properly balanced garage door. An improperly balanced door could cause severe injury. Have a qualified service person make repairs to cables, spring assemblies and other hardware before installing opener.

3. Remove all ropes and remove or make inoperative all locks connected to the garage door before installing opener.

4. If possible, install door opener 7 feet or more above the floor. Mount the emergency release 6 feet above the floor.

5. Do not connect opener to source of power until instructed to do so.

6. Locate control button: (a) within sight of door, (b) at a minimum height of 5 feet so small children cannot reach it, and (c) away from all moving parts of the door.

7. Install Entrapment Warning Label next to the control button in a prominent location. Install the Emergency Release Marking. Attach the marking on or next to the emergency release.

8. After installing opener, the door must reverse when it contacts a 1½ inch high object (or a 2 by 4 board laid flat) on the floor.

(2) The User Instructions shall include the following instructions:

Important Safety Instructions

Warning—To reduce the risk of severe injury or death:

1. Read and Follow all Instructions.

2. Never let children operate, or play with door controls. Keep the remote control away from children.

3. Always keep the moving door in sight and away from people and objects until it is completely closed. No One Should Cross the Path of the Moving Door.

4. Test door opener monthly. The garage door MUST reverse on contact with a 1 inch object (or a 2 by 4 board laid flat) on the floor. After adjusting either the force or the limit of travel, retest the door opener. Failure to adjust the opener properly may cause severe injury or death.

5. If possible, use the emergency release only when the door is closed. Use caution when using this release with the door open. Weak or broken springs may allow the door to fall rapidly, causing injury or death.

6. Keep Garage Doors Properly Balanced. See owner's manual. An improperly balanced door could cause severe injury or death. Have a qualified service person make repairs to cables, spring assemblies and other hardware.

7. Save These Instructions.

§ 1211.14 Field-installed labels.

(a) A residential garage door operator shall be provided with labels for field installation and constructed as specified in paragraphs (c) through (i) of this section. The labels shall be acceptable for permanent installation. The instruction manual shall specify where the labels are to be located.

(b) If labels secured by adhesive are used, the instruction shall specify that an additional mechanical means shall be used to secure the labels to surfaces to which the adhesive will not adhere.

(c) A residential garage door operator shall be provided with a cautionary label intended for permanent installation to identify the possible risk of entrapment. The instruction manual shall direct that the label be affixed near the wall-mounted control button.

(d) The label required in accordance with paragraph (c) of this section shall be in a vertical layout with three panels:

(1) A signal word panel,

(2) A pictorial panel, and

(3) A message panel, with adjacent panels delineated from each other by a horizontal black line. The entire label shall be surrounded by a black border and shall measure at least 5 inches (127 mm) wide by 6¼ inches (159 mm) long overall.

(e) The signal word panel as specified in paragraph (d) of this section shall contain the word "WARNING," in uppercase letters, preceded by a safety alert symbol consisting of an orange exclamation mark on a black solid equilateral triangle background with the point of the triangle oriented upward. The word "WARNING" and the safety alert symbol shall be centered on one line and shall be in black letters at least 7/16 inch (11.1 mm) high on an orange background.

(f) The pictorial panel as specified in paragraph (d) of this section shall be positioned between the signal word panel and the message panel. The pictorial shall be black on a white background and shall clearly depict a child running toward or under a garage door. A red prohibition symbol (slash, oriented from the upper left to the lower right, through a circle) shall be superimposed over, and totally surround, the pictorial. The pictorial shall have an overall diameter of 1-7⅛ inch (47.6 mm) minimum.

(g) The message panel as specified in paragraph (d) of this section shall include the following text or an equivalent wording:

(1) Possible Risk and Consequence Statement—"A child may become trapped under an automatic garage door resulting in severe injury or death."

(2) Avoidance Statements—

(i) "Do not allow children to walk or run under a closing door."

(ii) "Do not allow children to operate door operator controls."

(iii) "Always keep a closing door within sight."

(iv) "If a person is trapped under the door, push the control button or use the emergency release."

(3) Instructions—

(i) "Test Door Operator Monthly: Use a 1½ inch thick object placed on the floor under the closing door. If the door does not reverse upon contact, adjust, repair, or replace the operator."

(ii) Additional instructions on not removing or painting over the label, mounting the label adjacent to the wall control, and mounting the wall control out of children's reach shall be provided. These additional instruction shall be in less prominent lettering than those in paragraph (g)(3)(i) of this section.

(h) The lettering of the message panel described in paragraph (g) of this section shall be black on a white background and shall be sans serif letters in combinations of upper case and lower case letters. The upper case letters of the Possible Risk and Consequence Statements and Avoidance Statements shall be ⅛ inch (3.18 mm) high minimum. The lettering of the Possible Risk and Consequence Statement shall be in italics, underlined, bold, or the like, and shall be double spaced from the Avoidance Statements. All other instructions shall be in letters less prominent than the Possible Risk and Consequence Statements and shall be separated with at least a single space between individual instructions.

(i) A residential garage door operator shall be provided with a cautionary marking attached to or adjacent at all times to the means provided to detach the operator from the garage door. The marking shall include the following statement or the equivalent: "If the door becomes obstructed, detach door from operator as follows: (The method to detach the operator shall be shown on the marking.)"

§ 1211.15 UL marking requirements.

(a) Unless specifically excepted, marking required in this standard shall be permanent. Ink-printed and stenciled markings, decalcomania labels, and pressure sensitive labels are among the types of marking that are considered acceptable if they are acceptably applied and are of good quality.

(b) Except as provided below, a garage door operator shall be plainly marked, at a location where the marking will be readily visible—after installation, in the case of a permanently connected appliance—with:

(1) The manufacturer's name, trademark, or other descriptive marking by which the organization responsible for the product may be identified—hereinafter referred to as the manufacturer's name;

(2) The catalog number or the equivalent;

(3) The voltage, frequency, and input in amperes or watts; and

(4) The date or other dating period of manufacture not exceeding any three consecutive months.

(c) The ampere rating shall be included unless the full-load power factor is 80 percent or more, or, for a cord-connected operator, unless the rating is 50 watts or less. The number of phases shall be indicated if an operator is for use on a polyphase circuit. The date code repetition cycle shall not be less than 20 years.

(d) Exception No. 1: The manufacturer's identification may be in a traceable code if the operator is identified by the brand or trademark owned by a private labeler.

(e) Exception No. 2: The date of manufacture may be abbreviated or in an established or otherwise accepted code.

(f) If a manufacturer produces or assembles operators at more than one factory, each finished operator shall have a distinctive marking, which may be in code, to identify it as the product of a particular factory.

(g) The carton and the instruction manual for an operator shall be marked with the word "WARNING" and the following or the equivalent: "To reduce the risk of injury to persons—Use this operator only with (a) _____door(s)."

(h) A residential garage door operator shall be marked with the word "WARNING" and the following or equivalent, "Risk of entrapment. After adjusting either the force or limits of travel adjustments, insure that the door reverses on a 1½ inch (or a 2 by 4 board laid flat) high obstruction on the floor."

(i) A separately supplied accessory, including external entrapment protection device, intended for installation with an appliance or appliances shall be marked with the manufacturer's name and catalog or model number and the type of appliance or appliances with which it is intended to be used—such as a residential garage door operator. Additionally, installation instructions, accompanying specifications sheet, or packaging of the accessory shall identify the appliance or appliances with which it is intended to be used by specifying the manufacturer's name and catalog or model number or by any other positive means to serve the identification purpose.

(j) An appliance provided with terminals or connectors for connection of a separately supplied accessory, such as an external entrapment protection device, shall be marked to identify the accessory intended to be connected to the terminals or connectors. The accessory identification shall be by manufacturer's name and catalog or model number or other means to allow for the identification of accessories intended for use with the appliance.

(k) With reference to paragraph (k) of this section, instructions for installing a separately supplied accessory shall be provided. A statement shall be included in the instructions warning the user that the appliance must be disconnected from the source of supply before attempting the installation of the accessory.

§ 1211.16 Statutory labeling requirement.

(a) A manufacturer selling or offering for sale in the United States an automatic residential garage door operator manufactured on or after January 1, 1991, shall clearly identify on any container of the system and on the system the month or week and year the system was manufactured and its conformance with the requirements of this part.

(b) The display of the UL logo or listing mark, and compliance with the date marking requirements of UL–325 now stated in § 1211.5 of this subpart, on both the container and the system, shall satisfy the requirements of this subpart.

3. Part 1211 is amended by adding new Subpart B, consisting of §§ 1211.20 through 1211.25, and new subpart C, consisting of §§ 1211.30 and 1211.31 to read as follows:

Subpart B—Certification

Sec.

1211.20 Purpose, scope, and application.
1211.21 Effective date.
1211.22 Definitions.
1211.23 Certification testing.
1211.24 Product certification and labeling by manufacturers.
1211.25 Product certification and labeling by importers.

Subpart C—Recordkeeping

1211.30 Effective date.
1211.31 Recordkeeping requirements.

Subpart B—Certification

§ 1211.20 Purpose, scope, and application.

(a) *Purpose.* Section 14(a) of the Consumer Product Safety Act, 15 U.S.C. 2063(a), requires every manufacturer (including importers) and private labeler of a product which is subject to a consumer product safety standard to issue a certificate that the product conforms to the applicable standard, and to base that certificate either on a test of each product or on a "reasonable testing program." The purpose of this subpart is to establish requirements that manufacturers and importers of automatic residential garage door operators subject to the Safety Standard for Automatic Residential Garage Door Operators (16 CFR Part 1211, Subpart A), shall issue certificates of compliance in the form specified.

(b) *Scope and application.* The provisions of this subpart apply to all residential garage door operators which are subject to the requirements of the Safety Standard for Automatic Residential Garage Door Operators that take effect on January 1, 1993 or later.

§ 1211.21 Effective date.

Under the Consumer Product Safety Act, automatic residential garage door operators must certify that they comply with requirements of subpart A of this part. This certification requirement is currently in effect. The specific labeling requirement of the certification rule in this subpart will become effective for any automatic residential garage door operator manufactured on or after January 21, 1993.

§ 1211.22 Definitions.

The following definitions shall apply to this subpart:

(a) *Private labeler* means an owner of a brand or trademark which is used on an operator subject to the standard and which is not the brand or trademark of the manufacturer of the operator, provided the owner of the brand or trademark caused or authorized the operator to be so labeled and the brand or trademark of the manufacturer of such operator does not appear on the label.

(b) *Production lot* means a quantity of garage door operators from which certain operators are selected for testing prior to certifying the lot. All garage door operators in a lot must be essentially identical in those design, construction, and material features which relate to the ability of an operator to comply with the standard.

(c) *Reasonable testing program* means any test or series of tests which are identical or equivalent to, or more stringent than, the tests defined in the standard and which are performed on one or more garage door operators of the production lot for the purpose of determining whether there is reasonable assurance that the operators in that lot comply with the requirements of the standard.

§ 1211.23 Certification testing.

(a) *General.* Manufacturers and importers shall either test each individual garage door operator (or have it tested) or shall rely upon a reasonable testing program to demonstrate compliance with the requirements of the standard.

(b) *Reasonable testing program.* This paragraph provides guidance for establishing a reasonable testing program.

(1) A reasonable testing program for automatic residential garage door operators is one that provides reasonable assurance that the operators comply with the standard. Manufacturers and importers may define their own testing programs. Such reasonable testing programs may, at the option of manufacturers and importers, be conducted by an independent third party qualified to perform such testing programs.

(2) To conduct a reasonable testing program, the garage door operators should be divided into production lots. Sample operators from each production lot should be tested in accordance with the reasonable testing program so that there is a reasonable assurance that if the operators selected for testing meet the standard, all operators in the lot will meet the standard. Where there is a change in parts, suppliers of parts, or production methods that could affect the ability of the operator to comply with the requirements of the standard, the manufacturer should establish a new production lot for testing.

(3) The Commission will test for compliance with the standard by using the test procedures contained in the standard. However, a manufacturer's reasonable testing program may include either tests prescribed in the standard or any other reasonable test procedures.

(4) If the reasonable testing program shows that an operator does not comply with one or more requirements of the standard, no operator in the production lot can be certified as complying until all non-complying operators in the lot have been identified and destroyed or altered by repair, redesign, or use of a different material or components to the extent necessary to make them conform to the standard. The sale or offering for sale of garage door operators that do not comply with the standard is a prohibited act and a violation of section 19(a) of the CPSA (15 U.S.C. 2068(a)), regardless of whether the operator has been validly certified.

§ 1211.24 Product certification and labeling by manufacturers.

(a) *Form of permanent label of certification.* Manufacturers (including importers) shall issue certificates of compliance for automatic residential garage door operators manufactured after the effective date of the standard in the form of a permanent label which can reasonable be expected to remain on the operator during the entire period the operator is capable of being used. Such labeling shall be deemed to be a "certificate" of compliance as that term is used in section 14 of the CPSA, 15 U.S.C. 2063.

(b) *Exception for UL listed operators.* The certification labeling requirement of paragraph (a) of this section shall be satisfied by display of the Underwriters Laboratories, Inc. (UL) logo or listing mark, and compliance with the date marking requirements of UL Standard for Safety 325, on both the operator system and its container. Operators displaying the UL logo or listing mark and complying with the UL standard are exempt from the requirements of paragraphs (c) and (d) of this section.

(c) *Contents of certification label.* The certification labels required by this section shall clearly and legibly contain the following information:

(1) The statement "Meets CPSC _____(insert 1993 or later date of applicable standard) garage door operator entrapment protection requirements."

(2) An identification of the production lot.

(d) *Placement of the label.* The label required by this section must be affixed to the operator. If the label is not immediately visible to the ultimate purchaser of the garage door operator prior to purchase because of packaging or other marketing practices, a second label that states: "Meets CPSC _____ (insert 1993 or later date of applicable standard) garage door operator entrapment protection requirements," along with the month or week and year of manufacture must appear on the container or, if the container is not visible, on the promotional material used with the sale of the operator.

§ 1211.25 Product certification and labeling by importers.

(a) *General.* The importer of any automatic residential garage door operator subject to the standard in subpart A of this part must issue the certificate of compliance required by section 14(a) of the CPSA and § 1211.24 of this subpart. If testing of each operator, or a reasonable testing program, meeting the requirements of this subpart has been performed by or for the foreign manufacturer of the product, the importer may rely in good faith on such tests to support the certificate of compliance provided the importer is a resident of the United States or has a resident agent in the United States and the records of such tests required by § 1211.31 of subpart C of this part are maintained in the United States.

(b) *Responsibility of importer.* If the importer relies on tests by the foreign manufacturer to support the certificate of compliance, the importer bears the responsibility for examining the records supplied by the manufacturer to determine that the records of such tests appear to comply with § 1211.31 of subpart C of this part.

Subpart C—Recordkeeping

§ 1211.30 Effective date.

The recordkeeping requirements in this subpart shall become effective on January 21, 1993, and shall apply to automatic residential garage door operators manufactured on or after that date.

§ 1211.31 Recordkeeping requirements.

(a) *General.* Every person issuing certificates of compliance for automatic residential garage door operators subject to the standard set forth in subpart A of this part shall maintain written records which show that the certificates are based on a test of each operator or on a reasonable testing program. The records shall be maintained for a period of at least three years from the date of certification of each operator or the last operator in each production lot. These records shall be available to any designated officer or employee of the Commission upon request in accordance with section 16(b) of the CPSA, 15 U.S.C. 2065(b).

(b) *Content of records.* Records shall identify the operators tested and the production lot and describe the tests the operators were subjected to in sufficient detail so the tests may be replicated. Records shall also provide the results of the tests including the precise nature of any failures, and specific actions taken to address any failures.

(c) *Format for records.* The records required to be maintained by this section may be in any appropriate form or format that clearly provides the required information.

Dated: December 10, 1992.

Sadye E. Dunn,

Secretary, Consumer Product Safety Commission.

[FR Doc. 92–30529 Filed 12–18–92; 8:45 am]

BILLING CODE 6355–01–M

DELAWARE RIVER BASIN COMMISSION

18 CFR Part 401

Amendments to Administrative Manual—Rules of Practice and Procedure

AGENCY: Delaware River Basin Commission.

ACTION: Final rule.

SUMMARY: At its December 9, 1992 business meeting, the Delaware River Basin Commission amended its Administrative Manual—Rules of Practice and Procedure relating to water quality standards and policies to protect existing water quality in certain waters of the Basin.

By the same action, the Commission amended its Comprehensive Plan, Water Code of the Delaware River Basin and Administrative Manual—Part III Water Quality Regulations. Supplementary background information and a summary of the amendments to the Comprehensive Plan, Water Code and Water Quality Regulations are published elsewhere in this issue of the **Federal Register**. Those amendments set forth an overall framework for providing special water quality protection measures in waters deemed by the Commission to have exceptionally high scenic, recreational, ecological and/or water supply values. The amendments also classify specific stream reaches as Special Protection Waters.

The amendments to the Rules of Practice and Procedure revise certain point source pollution control policies and requirements. They reduce the threshold for point source discharges deemed not to have a substantial effect on the water resources of the Basin and not required to be submitted to the Commission under section 3.8 of the Compact from a daily average rate of 50,000 gallons to 10,000 gallons in the drainage area to Special Protection Waters:

EFFECTIVE DATE: December 9, 1992.

ADDRESSES: Copies of the Commission's Administrative Manual—Rules of Practice and Procedure are available from the Delaware River Basin Commission, P.O. Box 7360, West, Trenton, New Jersey 08628.

FOR FURTHER INFORMATION CONTACT: Susan M. Weisman, Commission Secretary, Delaware River Basin Commission: Telephone (609) 883–9500 X203.

SUPPLEMENTARY INFORMATION: The Commission held public hearings on the proposed amendments on May 5, 1992; May 6, 1992 and May 15, 1992 as noticed in the March 18, 1992 and April 15, 1992 issues of the **Federal Register** (Vol. 57, No. 53 and Vol. 57, No. 73). Based upon testimony received and considerable deliberation, the Commission has amended its Administrative Manual—Rules of Practice and Procedure.

List of Subjects in 18 CFR Part 401

Administrative practice and procedure, Environmental impact statements, Freedom of information, Water pollution control, Water resources.

18 CFR part 401 is amended as follows:

SUBCHAPTER A—ADMINISTRATIVE MANUAL

PART 401—RULES OF PRACTICE AND PROCEDURE

1. The authority citation for part 401 continues to read as follows:

Authority: Delaware River Basin Compact, 75 Stat. 688.

2. Section 401.35(a) (4) and (5) are revised to read as follows:

§ 401.35 Classification of projects for review under section 3.8 of the Compact.

(a) * * *

(4) The construction of new municipal sewage treatment facilities or alteration or addition to existing municipal sewage treatment facilities when the design capacity of such facilities is less than a daily average rate of 10,000 gallons per day in the drainage area to Outstanding Basin Waters and Significant Resource Waters or less than 50,000 gallons per day elsewhere in the Basin; and all local sewage collector systems and improvements discharging into authorized trunk sewage systems.

(5) The construction of new facilities or alteration or addition to existing facilities for the direct discharge to surface or ground waters of industrial wastewater having design capacity of less than 10,000 gallons per day in the drainage area to Outstanding Basin Waters and Significant Resource Waters or less than 50,000 gallons per day elsewhere in the Basin; except where such wastewater contains toxic concentrations of waste materials.

* * * * *

Delaware River Basin Compact, 75 Stat. 688.

Dated: December 14, 1992.

Susan M. Weisman,

Secretary.

BILLING CODE 6360-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Part 184

[Docket Nos. 88G–0428 and 91G–0268]

Direct Food Substances Affirmed as Generally Recognized as Safe; Urease Enzyme Derived From Lactobacillus Fermentum

AGENCY: Food and Drug Administration, HHS.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending its regulations to affirm as generally recognized as safe (GRAS) the use of urease enzyme preparation derived from *Lactobacillus fermentum* in the alcoholic beverage wine. This action is in response to two petitions filed by Takeda Chemical Industries, Ltd., 12–10 Nihonbashi, 2-Chome, Chuo-ku, Tokyo 103, Japan.

DATES: Effective January 21, 1993. The Director of the Office of the Federal Register approves the incorporation by reference in accordance with 5 U.S.C. 552(a) and 1 CFR part 51 of a certain publication in new § 184.1924(b), effective January 21, 1993.

FOR FURTHER INFORMATION CONTACT: Vincent Zenger, Center for Food Safety and Applied Nutrition (HFS–206), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202–254–9523.

SUPPLEMENTARY INFORMATION:

I. Background

In accordance with the procedures described in § 170.35 (21 CFR 170.35), Takeda Chemical Industries, Ltd., 12–10 Nihonbashi, 2-Chome, Chuo-ku, Tokyo 103, Japan, submitted two petitions (GRASP 8G0342 and GRASP 0G0358) requesting that the urease enzyme preparation derived from *Lactobacillus fermentum* be affirmed as GRAS for use in the alcoholic beverages sake and wine, respectively, to prevent the formation of ethyl carbamate.

To avoid confusion between urease, the enzyme, and urease, the enzyme preparation (in which urease is the principal active component, but which also contains other components derived from the production organism or the fermentation media), this document will use the term "urease" to refer to the former and "urease enzyme preparation" to refer to the latter.

FDA published a notice of filing of GRASP 8G0342 in the **Federal Register** of January 26, 1989 (54 FR 3854) and gave interested parties an opportunity to

submit comments to the Dockets Management Branch (HFA–305), Food and Drug Administration, rm. 1–23, 12420 Parklawn Dr., Rockville, MD 20857. (The docket number for this notice has been changed from 88F–0428 to 88G–0428.) FDA received no comments in response to that notice.

FDA published a notice of filing of GRASP 0G0358 in the **Federal Register** of July 31, 1991 (56 FR 36162) and interested persons were given until September 30, 1991, to submit comments. FDA received seven comments in response to that notice. All seven comments, from members of the wine industry and academia, supported the action requested in the petition. All comments stated that urease added to wine has been shown to reduce the concentration of urea, which is a precursor to ethyl carbamate.

The term "wine" as defined by the Bureau of Alcohol, Tobacco, and Firearms in 27 CFR 2.5 and 4.10 includes alcoholic beverages made in the manner of wine from agricultural products other than grapes and containing not less than 7 percent and not more than 24 percent alcohol by volume. This definition includes the alcoholic beverage sake (Ref. 1). Therefore, the agency has concluded that affirmation as GRAS of the use of the urease enzyme preparation from *L. fermentum* in wine, as defined in 27 CFR 2.5 and 4.10, would be responsive to both petitions. In addition, in this document, references to the use of urease enzyme preparation in wine include the use of urease enzyme preparation in sake.

II. Standards for Gras Affirmation

Pursuant to § 170.30 (21 CFR 170.30), general recognition of safety may be based only on the views of experts qualified by scientific training and experience to evaluate the safety of food substances. The basis of such views may be either: (1) Scientific procedures, or (2) in the case of a substance used in food prior to January 1, 1958, through experience based on common use in food (§ 170.30(a)). General recognition of safety based upon scientific procedures requires the same quantity and quality of scientific evidence as is required to obtain approval of a food additive and ordinarily is to be based upon published studies, which may be corroborated by unpublished studies and other data and information (§ 170.30(b)). General recognition of safety through experience based on common use in food prior to January 1, 1958, may be determined without the quantity or quality of scientific procedures required for approval of a food additive, but ordinarily is to be based upon generally available data and information concerning the pre-1958 history of use of the food ingredient (§ 170.30(c)(1)).

In its petitions, Takeda Chemical Industries, Ltd., relies on scientific procedures, primarily published scientific papers and books, to demonstrate the safety and identity of the urease enzyme preparation and the production strain from which it was derived. Takeda Chemical Industries, Ltd., provided published and unpublished information documenting that urease derived from nontoxicogenic, nonpathogenic *L. fermentum* is safe and suitable for use in preventing the formation of ethyl carbamate in wine.

In evaluating these petitions, the agency reviewed information concerning: (1) The safety of the production organism, (2) the safety of the urease enzyme preparation, (3) the production and purification of the urease enzyme preparation, (4) the natural occurrence or presence of the *L. fermentum* organism in many foods, and (5) the residual levels of the urease enzyme preparation in wine.

III. Identity, Specifications, and Technical Effect

Urease is the accepted name for the enzyme that facilitates the hydrolysis of urea to ammonia and carbon dioxide. It is a metalloenzyme containing nickel (Refs. 2 and 3). Urease produced from *L. fermentum* is optimally active at acidic pH and belongs to a group of ureases collectively called "acid ureases." (Ref. 4) According to the Nomenclature Committee of the International Union of Biochemistry, urease has the following designation: Urease, E.C. 3.5.1.5. (Ref. 5). The Chemical Abstracts Service (CAS) Registry Number for urease is 9002–13–5. The agency finds that the petitioned preparation meets the general and additional requirements for enzyme preparations found in the "Food Chemicals Codex," 3d ed. (1981), which is incorporated by reference in new § 184.1924(b).

The function of urease in wine is to prevent the formation of ethyl carbamate. Ethyl carbamate is known to be mutagenic and carcinogenic in experimental animals (Ref. 6). Urea, a natural byproduct of fermentation, is believed to be the major precursor of ethyl carbamate in alcoholic beverages, including wine (Refs. 7 and 8). Urease facilitates the hydrolysis of urea found in wine to ammonia and carbon dioxide. The petitioner presented published information that the urease enzyme preparation performs its intended technical effect in wine (Refs. 7 and 9 through 17).

IV. Production and Purification of Urease Preparation

The petitioner presented evidence that the production organism satisfies the definition for *L. fermentum* in "Bergey's Manual of Systematic Bacteriology" (Ref. 18). The production process for urease enzyme preparation from *L. fermentum* is described in GRASP 8G0342 (the sake petition) and is summarized below.

A pure culture of *L. fermentum* is aseptically grown in fermenters in a medium containing dextrose, casein digest, meat extract, yeast extract, sodium chloride, sodium acetate, and manganese sulfate. The fermentation is conducted statically at 36 to 38 °C without aeration because the strain is a facultative anaerobe. Cell growth is monitored by measuring the optical density at 590 nanometers. The culture is periodically checked microscopically for the presence of foreign microorganisms. After 36 to 48 hours, the culture broth is circulated through a ceramic filter. The concentrated cell suspension is washed with water, and again concentrated to approximately 1/30 of the original volume. If necessary, the cells are disrupted by hyper-homogenization. Food-grade ethyl alcohol is then added to the slurry to make its concentration 50 percent by volume. The slurry is mixed for several hours to assure that all cells are killed. The ethyl alcohol is then evaporated under vacuum, and the suspension is dried to powder either by spray drying or lyophilization. The enzyme preparation consists of killed whole cells of the *L. fermentum* organism containing the urease enzyme.

V. Safety Information

Takeda Chemical Industries, Ltd., provided published information demonstrating that *L. fermentum*, the urease-producing organism, is commonly found in many kinds of foods such as dairy products (including yogurt), sour-dough, sausages, and pickled vegetables (Refs. 18 through 22). For example, in "dosa" a fermented food indigenous to India, *L. fermentum* is one of the predominant bacteria responsible for souring and leavening of the batter (Ref. 19). *L. fermentum* has also been isolated from malt whiskey distillery fermentations (Ref. 20). *Lactobacillus* species (including *L. fermentum*) also have a long history of use in meat (Ref. 21) and are the subject of a prior sanction by the United States Department of Agriculture (Ref. 22). Consumers of these products have been

exposed to cells of *L. fermentum* and accompanying urease for many years, with no reports of adverse effects.

The petitions also contain published information that shows that the microorganism, *L. fermentum*, is a normal inhabitant of the gastrointestinal tract of humans (Ref. 23) as well as rats (Ref. 4). The petitioner has also provided published evidence that the source organism is not a pathogenic microbe for humans (Ref. 24). "Bergey's Manual of Systematic Bacteriology," which describes the pathogenicity of the *Lactobacillus* species, contains no reference to pathogenicity of *L. fermentum* (Ref. 18). In addition, in its sake petition, Takeda Chemical Industries, Ltd., submitted a search of the literature from 1977 to 1987 made via TOXLINE, a computer data base of toxicological references produced by the National Library of Medicine, for references to *L. fermentum* and pathogenicity, pathogen formation, toxicology, toxins, and disease or infection. The search did not identify a single report that *L. fermentum* is the etiological agent of a disease in man or animals. The sake petition also contains the results of a manual literature search for references to the pathogenicity of *L. fermentum* in Chemical Abstracts from 1947 to 1981. No references to pathogenicity of *L. fermentum* were found in that search.

Further, the petitioner provided unpublished, corroborative studies of the safety of the organism and urease enzyme preparation. In one study, viable cells of *L. fermentum* were administered at maximum dosage levels (250×10^8 cells/kilogram (kg)) to male mice and rats; the study showed that the production organism is nonpathogenic.

In addition, a 4-week subacute oral toxicity study of crude urease powder (2,000 milligrams (mg)/kg body weight) was performed in rats. Gross and microscopic pathological examination revealed no adverse effects from treatment with the urease powder preparation. The petitioner also provided a bacterial mutagenicity study on crude acid urease powder and in vivo tests of mutagenicity of crude acid urease powder with *Drosophila* somatic systems. There was no evidence of mutagenicity of the urease enzyme preparation in any of these studies. Finally, it is generally considered that no *Lactobacillus* species produces antibiotic substances (Ref. 18). Tests for antibiotic activity of the culture broth of *L. fermentum* were negative.

VI. Proposed Use in Food and Exposure Estimate

The amounts of urease enzyme preparation used will vary based on the catalytic activity of the enzyme in any one batch of enzyme preparation. Estimates of enzyme use level and intake are usually based on the Total Organic Solids (TOS) content of the enzyme preparation (Ref. 25). Urease derived from *L. fermentum* is proposed for use as an inhibitor of ethyl carbamate formation in wine at a maximum use level of 88 mg, expressed as TOS per liter of wine. According to information presented in the petitions, wine treated with the urease enzyme preparation is filtered prior to final packaging. The filtration process removes most of the urease enzyme preparation and other proteinaceous material from the wine. Based on current information on wine consumption and on the maximum proposed use level of the urease preparation in wine, the estimated daily intake (EDI) of urease preparation from *L. fermentum* expressed as TOS at the 90th percentile is 20 mg/person/day. This is equivalent to 0.3 mg TOS/kg body weight/day for a 60 kg person. (For comparison, the 90th percentile EDI for the TOS of *Lactobacillus*, including *L. fermentum*, from yogurt consumption is 490 mg/person/day equivalent to 8 mg/kg body weight/day).

Moreover, based on data obtained in the corroborative 4-week rat feeding study, which showed no adverse effects of treatment with 200 mg/kg body weight of urease enzyme preparation (the highest dose tested), the acceptable daily intake (ADI) of urease TOS from *L. fermentum* is 2 mg/kg body weight/day. This is well above the 90th percentile EDI from wine consumption of 0.3 mg/kg body weight/day.

VII. Conclusions

The agency has evaluated the information in the petitions along with other available information and finds that urease enzyme preparation from *L. fermentum* is effective for reducing levels of urea, a precursor of the animal carcinogen ethyl carbamate, in the alcoholic beverage wine. The agency concludes, based on the evaluation of published information, corroborated by unpublished data and information, that the use of the urease enzyme preparation from *L. fermentum* in wine is GRAS. Therefore, the agency is affirming that the use of urease enzyme preparation from *L. fermentum* in wine, as defined in 27 CFR 2.5 and 4.10, is GRAS under current good manufacturing practice conditions (§ 184.1(b)(1)). However, the agency is specifying the technical effect and the food use in wine in the regulation to make clear that the affirmation of the GRAS status of this material is based on the evaluation of this limited use.

VIII. Environmental Effects

The agency has carefully considered the potential environmental effects of this action. FDA has concluded that the action will not have a significant impact on the human environment, and that an environmental impact statement is not required. The agency's findings of no significant impact and the evidence supporting these findings, contained in environmental assessments, may be seen in the Dockets Management Branch (address above) between 9 a.m. and 4 p.m., Monday through Friday.

IX. Economic Effects

FDA has examined the economic implications of the final rule affirming the GRAS status of urease enzyme derived from *L. fermentum* for use in wine, as required by Executive Orders 12291 on Federal regulations, Executive Order 12612 on federalism, and the Regulatory Flexibility Act. The agency finds that this final rule is not a major rule as defined by Executive Order 12291. Since no current activity is prohibited by this final rule, the compliance cost to firms is zero. Because no increase in the health risks faced by consumers will result from this final rule, total costs are also zero. Potential benefits include the wider use of this enzyme because of reduced uncertainty concerning its GRAS status, and any resources saved by eliminating the need to prepare further petitions to affirm the GRAS status of this enzyme for this use. FDA finds that there is no substantial federalism issue which would require an analysis under Executive Order 12612. Finally, in accordance with the Regulatory Flexibility Act (Pub. L. 96–354), FDA has also determined that this final rule will not have a significant adverse impact on a substantial number of small businesses.

List of Subjects in 21 CFR Part 184

Food ingredients, Incorporation by reference.

Therefore, under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Commissioner of Food and Drugs and redelegated to the Director, Center for Food Safety and Applied Nutrition, 21 CFR part 184 is amended as follows:

PART 184—DIRECT FOOD SUBSTANCES AFFIRMED AS GENERALLY RECOGNIZED AS SAFE

1. The authority citation for 21 CFR part 184 continues to read as follows:

Authority: Secs. 201, 402, 409, 701 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 321, 342, 348, 371).

2. New § 184.1924 is added to read as follows:

§ 184.1924 Urease enzyme preparation from Lactobacillus fermentum.

(a) This enzyme preparation is derived from the nonpathogenic, nontoxicogenic bacterium *Lactobacillus fermentum*. It contains the enzyme urease (CAS Reg. No. 9002–13–5), which facilitates the hydrolysis of urea to ammonia and carbon dioxide. It is produced by a pure culture fermentation process and by using materials that are generally recognized as safe (GRAS) or are food additives that have been approved for this use by the Food and Drug Administration (FDA).

(b) The ingredient meets the general and additional requirements for enzyme preparations in the "Food Chemicals Codex," 3d ed. (1981), pp. 107–110, which is incorporated by reference in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies are available from the National Academy Press, 2101 Constitution Ave. NW., Washington, DC 20418, or available for inspection at the Office of the Federal Register, 800 North Capitol St. NW., suite 700, Washington, DC.

(c) In accordance with § 184.1(b)(1), the ingredient is used in food with no limitation other than current good manufacturing practice. The affirmation of this ingredient as GRAS as a direct human food ingredient is based upon the following current good manufacturing practice conditions of use:

(1) The ingredient is used in wine, as defined in 27 CFR 2.5 and 4.10, as an enzyme as defined in § 170.3(o)(9) of this chapter to convert urea to ammonia and carbon dioxide.

(2) The ingredient is used in food at levels not to exceed current good manufacturing practice. Current good manufacturing practice is limited to use of this ingredient in wine to inhibit formation of ethyl carbamate.

Dated: December 7, 1992.

Fred R. Shank,

Director, Center for Food Safety and Applied Nutrition.

Limitations on Percentage Depletion in the Case of Oil and Gas Wells; Correction

AGENCY: Internal Revenue Service, Treasury.

ACTION: Correction to final regulations.

SUMMARY: This document contains corrections to the final regulations (T.D. 8437), which were published Wednesday, September 23, 1992, (57 FR 43897). The amendments to final regulations clarify the circumstances under which percentage depletion is available in the case of oil and gas wells.

EFFECTIVE DATE: September 23, 1992.

FOR FURTHER INFORMATION CONTACT: Brenda M. Stewart, 202–622–3120 (not a toll-free call).

SUPPLEMENTARY INFORMATION:

Background

The final regulations that are the subject of these corrections clarify the circumstances under which percentage depletion is available in the case of oil and gas wells under section 613A.

Need for Correction

As published, the final regulations contain errors which may prove to be misleading and are in need of clarification.

Correction of Publication

Accordingly, the publication of the final regulations (T.D. 8437), which was the subject of FR Doc. 92–23097, is corrected as follows:

Paragraph 1. On page 43897, columns 1 and 2, the portion of the preamble, entitled "Paperwork Reduction Act" is corrected to read as follows:

Paperwork Reduction Act

The collection of information requirement contained in this final regulation has been reviewed and approved by the Office of Management and Budget in accordance with the Paperwork Reduction Act of 1980 (44 U.S.C. 3504(h)) under control number 1545–1251. The estimated burden per recordkeeper varies from 1 minute to 3 minutes, depending on individual circumstances, with an estimated average of 2 minutes.

These estimates are an approximation of the average time expected to be necessary to collect information. They are based on such information as is available to the Internal Revenue Service. Individual recordkeepers may require more time or less time, depending on their particular circumstances.

Comments concerning the accuracy of this burden estimate and suggestions for reducing this burden should be directed to the Internal Revenue Service, Attn: IRS Reports Clearance Officer T:FP, Washington, DC 20224, and to the Office of Management and Budget, Attn: Desk Officer for the Department of the Treasury, Office of Information and Regulatory Affairs, Washington, DC 20503.

Par. 2. On page 43899, column 1, in the preamble under the heading "Special Analyses", line 10, the language "regulations, and, therefore, an initial" is corrected to read "regulations, and, therefore a final".

Par. 3. On page 43901, column 3, in § 1.613A–3, paragraph (e)(7), *Example 1*, line 3, the language "1990, the partnership acquired a producing" is corrected to "1992, the partnership acquired a producing".

Par. 4. On page 43901, column 3, in § 1.613A–3, paragraph (e)(7), *Example 3*, line 2, the language "*Example 1* with the exception that in 1990 C" is corrected to read "*Example 1* with the exception that in 1992 C".

Par. 5. On page 43902, column 1, in § 1.613a–3, paragraph (e)(7), *Example 5*, line 1, the language "*Example 5*. On January 1, 1993, G has an" is corrected to read "*Example 5*. On January 1, 1990, G has an".

Par. 6. On page 43902, column 1, in § 1.613A–3, paragraph (e)(7), *Example 5*, line 5, the language "1993 G sells G's partnership interest to I for" is corrected to read "1990 G sells G's partnership interest to I for".

Par. 7. On page 43902, column 1, in § 1.613A–3, paragraph (e)(7), *Example 6*, line 3, the language "property. On January 1, 1993, the" is corrected to read "property. On January 1, 1990, the".

Par. 8. On page 43902, column 1, in § 1.613A–3, paragraph (e)(7), *Example 6*, line 5, the language "was zero. On January 1, 1993, L is admitted as" is corrected to read "was zero. On January 1, 1990, L is admitted as".

Par. 9. On page 43902, column 1, in § 1.613A–3, paragraph (e)(7), *Example 7*, line 3, the language "1993, the partnership acquired an unproven" is corrected to read "1991, the partnership acquired an unproven".

Par. 10. On page 43902, column 1, in § 1.613A–3, paragraph (e)(7), *Example 7*, line 9, the language "partnership capital. For the 1993 taxable year," is corrected to read "partnership capital. For the 1991 taxable year,".

Par. 11. On page 43902, column 1, in § 1.613–A, paragraph (e)(7), *Example 7*, line 12, the language "Accordingly, at the end of the 1993 taxable" is corrected to read "Accordingly, at the end of the 1991 taxable".

Par. 12. On page 43902, column 1, in § 1.613A–3, paragraph (e)(7), *Example 6*, line 15, the language "$75x. On January 1, 1994, Q is admitted as an" is corrected to read "$75x. On January 1, 1992, Q is admitted as an".

Par 13. On page 43903, column 1, in § 1.613A–3, paragraph (h)(2)(v), *Example 5*, line 13, the language "allocated to E under the DE partnership" is corrected to read "allocated to D under the DE partnership".

Par. 14. On page 43903, column 1, in § 1.613A–3, paragraph (h)(2)(v), *Example 6*, line 4, the language "Under § 1.613–7(n)(4), the contribution is not" is corrected to read "Under § 1.613A–7(n)(4), the contribution is not".

Dale D. Goode,

Federal Register Liaison Officer, Assistant Chief Counsel (Corporate).

26 CFR Part 1 and 602

[T.D. 8454]

RIN 1545–AP58

Adjusted Current Earnings

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final regulations.

SUMMARY: This document contains final regulations relating to the alternative minimum tax (AMT) for corporations. The Tax Reform Act of 1986, the Technical and Miscellaneous Revenue Act of 1988, the Revenue Reconciliation Act of 1989 and the Revenue Reconciliation Act of 1990 all made changes to the applicable law. These regulations affect corporate taxpayers and provide them with guidance necessary to determine their alternative minimum tax.

DATES: These regulations are effective for taxable years beginning after December 31, 1989. However, the paragraphs relating to the LIFO recapture adjustment, § 1.56(g)–1(f)(3), are effective for taxable years beginning after December 18, 1992, although a taxpayer may choose to apply that paragraph for all taxable years beginning after December 31, 1989.

FOR FURTHER INFORMATION CONTACT: Nicholas G. Bogos of the Office of the Assistant Chief Counsel (Income Tax and Accounting) (202) 622–4960 (not a toll-free call).

SUPPLEMENTARY INFORMATION:

Paperwork Reduction Act

The collection of information requirement contained in these final regulations have been reviewed and approved by the Office of Management and Budget in accordance with the Paperwork Reduction Act of 1980 (44 U.S.C. 3504(h)) under control number 1545–1233. The estimated annual burden per respondent varies from one-half hour to one and one-half hours, depending on individual circumstances, with an estimated average of one hour. These estimates are an approximation of the average time expected to be necessary for a collection of information. They are based upon such information as is available to the

Internal Revenue Service. Individual respondents may require greater or less time, depending on their particular circumstances.

Comments concerning the accuracy of this burden estimate and suggestions for reducing this burden should be directed to the Internal Revenue Service, Attn: IRS Reports Clearance Officer TR:P, Washington, DC 20224, and to the Office of Management and Budget, Attn: Desk Officer for the Department of the Treasury, Office of Information and Regulatory Affairs, Washington, DC 20503.

Background

This document contains final regulations amending the Income Tax Regulations (26 CFR part 1) under section 56 of the Internal Revenue Code of 1986 (Code). The amendments will conform the regulations to section 701 of the Tax Reform Act of 1986 (Pub. L. 99–514; 100 Stat. 2320), sections 1007 and 6079 of the Technical and Miscellaneous Revenue Act of 1988 (Pub. L. 100–647, 102 Stat. 3342), sections 7205 and 7611 of the Revenue Reconciliation Act of 1989 (Pub. L. 101–239, 103 Stat. 2106), and sections 11301 and 11531 of the Revenue Reconciliation Act of 1990 (Pub. L. 101–508).

On March 15, 1991, the Internal Revenue Service published in the **Federal Register** a Notice of Proposed Rulemaking (56 FR 11122) regarding the computation of adjusted current earnings (ACE). The Service received four written comments. No public hearing was requested and none was held. The amendments to the regulations contained in this document are adopted after consideration of the written comments.

Comments on Proposed Regulations

A. LIFO Recapture Adjustment: § 1.56(g)–1(f)(3)

Section 56(g)(4)(D)(iii) of the Code requires taxpayers to compute adjusted current earnings (ACE) with the adjustments in section 312(n)(4). Section 312(n)(4) requires taxpayers to increase or decrease their earnings and profits by the increase or decrease in their LIFO (last-in, first-out) reserve during the taxable year.

The proposed regulations provide that ACE is increased or decreased by the increase or decrease in the LIFO recapture amount as of the close of the taxable year. The proposed regulations also provide that ACE is not decreased to the extent of any decrease in the LIFO recapture amount below the baseline LIFO recapture amount. Further, increases in the LIFO recapture amount will increase ACE only to the extent of any increase above the baseline LIFO recapture amount. The baseline LIFO recapture amount is defined in the proposed regulations as the excess, if any, of the taxpayer's beginning FIFO inventory amount for the first taxable year beginning after December 31, 1989, over the taxpayer's beginning LIFO inventory amount for the first taxable year beginning after December 31, 1989.

Commentators asked whether a taxpayer with more than one category of LIFO inventory computes a single LIFO recapture amount or a separate LIFO recapture amount for each grouping or pool of LIFO inventory. If each grouping or pool had its own LIFO recapture amount, the proposed regulations' baseline LIFO recapture limitation could result in a positive ACE adjustment for a taxpayer that experienced a $100 increase in one pool's LIFO recapture amount in the same year that another pool's LIFO recapture amount decreased by $200. The final regulations clarify that a taxpayer (*i.e.*, a corporation) computes a single LIFO recapture amount for all of its assets that are accounted for under LIFO.

Commentators also suggested that: (1) A partner in a partnership that uses LIFO should be permitted to include its share of any change in the partnership's LIFO recapture amount in its LIFO recapture adjustment, and (2) corporations that file a consolidated return should be permitted to compute a single LIFO recapture adjustment for the consolidated group. Implementing these suggestions without eliminating the proposed regulations' baseline LIFO recapture limitation, however, would be unduly complex.

Therefore, for purposes of computing ACE, the final regulations do not limit the LIFO recapture adjustment by the baseline LIFO recapture amount. Thus, the full amount of any increase or decrease in the LIFO recapture amount will increase or decrease the taxpayer's ACE for the taxable year regardless of whether the increase or decrease is below the taxpayer's beginning LIFO recapture amount for the first taxable year beginning after December 31, 1989. This change significantly simplifies the computation of the ACE LIFO recapture adjustment.

The removal of the baseline LIFO recapture limitation also allows a consolidated group to net all changes in its members' LIFO recapture amounts in determining the group's ACE LIFO recapture adjustment. Thus, increases or decreases in a member's LIFO recapture amount below that member's beginning LIFO recapture amount for the first taxable year beginning after December 31, 1989, are taken into account in determining the group's LIFO recapture adjustment. This treatment furthers the single entity view of the consolidated group by treating the group the same as a single corporation with several divisions or multiple groupings or pools of LIFO inventory. Similarly, a corporate partner takes into account its proportionate share of the partnership's LIFO inventory assets for the partnership taxable year that ends within or with the corporation's taxable year.

Some commentators requested that the final regulations provide guidance on the ACE LIFO recapture implications of a transfer of LIFO inventory in an exchange qualifying under section 351 or section 721. For example, they expressed concern that in the absence of further regulatory guidance, a new company formed in a section 351 transaction would potentially experience a large and unwarranted ACE LIFO recapture adjustment due solely to the interaction of that adjustment with the rules governing exchanges under section 351. In response to these comments, the final regulations provide a special adjustment, only for purposes of computing ACE, to the LIFO recapture adjustments of both the transferor and the transferee in the case of an exchange under section 351 or 721.

These changes to paragraph (f)(3) of § 1.56(g)–1 from the proposed regulations are effective for taxable years beginning after December 18, 1992. However, a taxpayer may choose to apply the final regulations for all taxable years beginning after December 31, 1989.

One commentator was concerned about the interaction of transfers of LIFO inventory subject to the deferred intercompany transaction rules of § 1.1502–13 with the ACE LIFO adjustment. Issues relating to these transfers arise only in the context of consolidated groups and are not addressed in these final regulations. The Service expects to address the treatment of deferred intercompany transactions in forthcoming proposed regulations on the AMT and consolidated groups.

B. Election to Use Regular Tax Inventories for Alternative Minimum Tax: § 1.56(g)–1(r)

Section 1.56 (g)–1(r) of the proposed regulations provides that taxpayers may elect to use their regular tax inventory amounts to compute pre-adjustment alternative minimum taxable income ("AMIT") and ACE, including the ACE

LIFO adjustment of § 1.56(g)–1(f)(3). The election eliminates the need to compute separate inventory amounts for pre-adjustment AMTI and ACE. Taxpayers making the election, however, determine each adjustment under sections 56 and 58 and each tax preference item under section 57 without reduction for that portion of the adjustment or preference that would have been capitalized in inventory but for the election.

Some commentators questioned whether only LIFO taxpayers could make the election under § 1.56(g)–1(r). The final regulations make it clear that the election is available to any taxpayer that properly follows the procedures required to make the election.

Some commentators were unsure about which taxpayers could make a prospective election, and which could make only a retroactive election. The final regulations clarify that taxpayers that have computed their AMT and ACE inventories for all prior taxable years using the elective method may make a prospective election. Additionally, taxpayers that have not used the elective method to compute their AMT and ACE inventories, if any, in prior taxable years may make a prospective election if their tax liability in all open prior taxable years would not have changed had the elective method been used in all prior taxable years. The regulations require all other taxpayers who wish to make the election to make a retroactive election.

One commentator suggested that the Service allow taxpayers to elect to use pre-adjustment AMTI inventories for ACE (while using regular tax inventories only for regular tax). The commentator argued that taxpayers that have already set up accounting systems to compute their pre-adjustment AMTI inventories should not be required to use their regular tax inventories for AMT purposes in order to avoid having to compute ACE inventories. The final regulations thus provide an election to use pre-adjustment AMTI inventories for ACE, using rules similar to those for electing to use regular tax inventories for pre-adjustment AMTI and ACE. Taxpayers who make this election will continue to use regular tax inventories for regular tax purposes only.

Finally, one commentator thought that taxpayers subject to the Coordinated Examination Program (CEP) should be allowed to make retroactive elections without amending their prior year returns for open years. While the Service appreciates the unique scope of CEP examinations, the Service feels that all taxpayers under examination should be able to make the simplified inventory election in the same manner. The final regulations therefore include procedures for taxpayers to follow if their return for any year for which they want to make the simplified inventory election is under examination and they otherwise would be required to file amended returns to make the election. In all cases, however, it is the taxpayer's responsibility to make a timely election, either by filing an amended return or by proposing an examination adjustment.

C. Adjustment for Alternative Tax Energy Preference Deduction: § 1.56(g)–1(s)

Section 1.56(g)–1(s) of the proposed regulations provides taxpayers with guidance on adjustments they must make for ACE if the taxpayer claims a deduction under section 56(h) (the alternative tax energy preference deduction). The proposed regulations require taxpayers to adjust basis by the portion of the deduction allowed under section 56(h) that is attributable to adjustments under section 56(g)(4). The purpose of the basis adjustment is to ensure that no double benefit is allowed by reason of the section 56(h) deduction. Commentators expressed concern that any precise method of adjusting basis would be complex and difficult to administer.

On October 24, 1992, the President signed H.R. 776 (Pub. L. 102–486), which repealed section 56(h) effective for taxable years beginning after December 31, 1992. Thus, the deduction under section 56(h) is allowed only for taxable years beginning after December 31, 1990, and before January 1, 1993. Because of the short time period for which section 56(h) is effective, § 1.56(g)–1(s) of the proposed regulations is being finalized without change.

D. Other Matters

A clarification has been made to § 1.56(g)–1(d)(2)(ii)(B) of the regulations to conform the example at the end of the text to the rule provided in the regulation.

Special Analyses

It has been determined that these regulations are not major rules as defined in Executive Order 12291. Therefore, a Regulatory Impact Analysis is not required. It has also been determined that section 553(b) of the Administrative Procedure Act (5 U.S.C. chapter 5) and the Regulatory Flexibility Act (5 U.S.C. chapter 6) do not apply to these regulations, and, therefore, a final Regulatory Flexibility Analysis is not required. Pursuant to section 7805(f) of the Internal Revenue Code, the notice of proposed rulemaking for the regulations was submitted to the Chief Counsel for Advocacy of the Small Business Administration for comment on their impact on small business.

Drafting Information

The principal author of these regulations is Nicholas G. Bogos of the Office of Assistant Chief Counsel (Income Tax and Accounting), Internal Revenue Service. Other personnel from the Service and the Treasury, however, assisted in developing these regulations, on matters of both substance and style.

List of Subjects

26 CFR 1.56–0 Through 1.58–9

Income taxes, Reporting and recordkeeping requirements.

26 CFR Part 602

Reporting and recordkeeping requirements.

Adoption of Amendments to the Regulations

Accordingly, 26 CFR parts 1 and 602 are amended as follows:

PART 1—INCOME TAXES; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Paragraph 1. The authority citation for part 1 continues to read in part:

Authority: 26 U.S.C. 7805 * * * Section 1.56(g)–1 also issued under section 7611(g)(3) of the Omnibus Budget Reconciliation Act of 1989 (Pub. L. 101–239, 103 Stat. 2373) * * *

Par. 2. In section 1.56(g)–0, the entry for § 1.56(g)–1 is amended as follows:

1. Paragraphs (a)(7), (r) and (s) are added;
2. Paragraphs (f)(3) and (m) are revised;
3. The additions and revisions read as follows:

§ 1.56(g)–0 Table of contents.

(a) * * *
(7) Application to foreign corporations.
* * * * * *
(f) Certain other earnings and profits adjustments.
* * * * * *
(3) LIFO recapture adjustment.
(i) In general.
(ii) Beginning LIFO and FIFO inventory.
(iii) Definitions.
(A) LIFO recapture amount.
(1) Definition.
(2) Assets included.
(B) FIFO method.
(C) LIFO method.
(D) Inventory amounts.
(iv) Exchanges under sections 351 and 721.
(v) Examples.
(vi) Effective date.
* * * * * *

(m) Adjusted current earnings of a foreign corporation.
(1) In general.
(2) Definitions.
(i) Effectively connected pre-adjustment alternative minimum taxable income.
(ii) Effectively connected adjusted current earnings.
(3) Rules to determine effectively connected pre-adjustment alternative minimum taxable income and effectively connected adjusted current earnings.
(4) Certain exempt amounts.
* * * * *
(r) Elections to use simplified inventory methods to compute alternative minimum tax.
(1) In general.
(2) Effect of election.
(i) Inventories.
(ii) Modifications required.
(A) In general.
(B) Negative modifications allowed.
(iii) LIFO recapture adjustment.
(3) Time and manner of making election.
(i) Prospective election.
(ii) Retroactive election.
(iii) Taxpayers under examination.
(A) In general.
(*1*) Year of change under examination.
(*2*) Other open years under examination.
(B) Statement required.
(C) Year of change.
(D) Treatment of additional tax liability.
(iv) Election as method of accounting.
(v) Untimely election to use simplified inventory method.
(4) Example.
(5) Election to use alternative minimum tax inventories to compute adjusted current earnings.
(s) Adjustment for alternative tax energy preference deduction.
(1) In general.
(2) Example.

Par. 3. Section 1.56(g)–1 is amended as follows:

1. The text of paragraph (a)(6)(i) is revised.

2. Paragraph (a)(7) is added.

3. The text of paragraph (d)(2)(ii)(B) is revised.

4. The text of paragraphs (f)(3) and (m) are added.

5. Paragraphs (r) and (s) are added.

6. The additions and revisions read as follows:

§ 1.56(g)–1 Adjusted current earnings.

(a) * * *

(6) * * *

(i) * * * Pre-adjustment alternative minimum taxable income is the alternative minimum taxable income of the taxpayer for the taxable year, determined under section 55(b)(2), but without the adjustment for adjusted current earnings under section 56(g) and this section, without the alternative tax net operating loss deduction under section 56(a)(4), and without the alternative tax energy preference deduction under section 56(h).

* * * * *

(7) *Application to foreign corporations.* See paragraph (m) of this section for rules relating to the application of this section to foreign corporations.

* * * * *

(d) * * *

(2) * * *

(ii) * * *

(B) * * * For example, assume that a section 936 corporation earns $100 of income in its current taxable year, $10 of which is not eligible for the credit under section 936. If the section 936 corporation makes a distribution of $50 during that year, $5 of that distribution ($10 of income not eligible for the section 936 credit divided by $100 of income, times $50 distributed) is deemed to be attributable to earnings of the paying corporation that are subject to federal income tax.

* * * * *

(f) * * *

(3) *LIFO recapture adjustment*—(i) *In general.* Adjusted current earnings are generally increased or decreased by the increase or decrease in the taxpayer's LIFO recapture amount (as defined in paragraph (f)(3)(iii)(A) of this section) as of the close of each taxable year.

(ii) *Beginning LIFO and FIFO inventory.* For purposes of computing the increase or decrease in the LIFO recapture amount, the beginning LIFO and FIFO inventory amounts for the first taxable year beginning after December 31, 1989, are—

(A) The ending LIFO inventory amount used in computing pre-adjustment alternative minimum taxable income for the last year beginning before January 1, 1990; and

(B) The ending FIFO inventory amount for the last year beginning before January 1, 1990, computed with the adjustments described in section 56 (other than the adjustment described in section 56(g)) and section 58, the items of tax preference described in section 57 and using the methods used in computing pre-adjustment alternative minimum taxable income.

(iii) *Definitions*—(A) *LIFO recapture amount*—(*1*) *Definition.* The taxpayer's LIFO recapture amount is the excess, if any, of—

(*i*) the inventory amount of its assets under the FIFO method, computed using the rules of this section; over

(*ii*) the inventory amount of its assets under the LIFO method, computed using the rules of this section.

(*2*) *Assets included.* Only the assets for which the taxpayer uses the LIFO method to compute pre-adjustment alternative minimum taxable income are taken into account in determining the LIFO recapture amount.

(B) *FIFO Method.* For purposes of this paragraph, the LIFO method is the first in, first out method described in section 471, determined by using—

(*1*) The retail method if that is the method the taxpayer uses in computing pre-adjustment alternative minimum taxable income; or

(*2*) The lower of cost or market method for all other taxpayers.

(C) *LIFO method.* The LIFO method is the last in, first out method authorized by section 472.

(D) *Inventory amounts.* Except as otherwise provided, inventory amounts are computed using the methods used in computing pre-adjustment alternative minimum taxable income. To the extent inventory is treated as produced or acquired during taxable years beginning after December 31, 1989, the inventory amount is determined with the adjustments described in sections 56 and 58 and the items of tax preference described in section 57. Thus, for example, the amount of depreciation to be capitalized under section 263A with respect to inventory produced in taxable years beginning after December 31, 1989, is based on the depreciation allowed under the rules of paragraph (b) of this section. See paragraph (a)(5) of this section.

(iv) *Exchanges under sections 351 and 721.* For purposes of this section, any decrease in a transferor's LIFO recapture amount that occurs as a result of a transfer of inventories in an exchange to which section 351 or section 721 applies cannot be used to decrease the adjusted current earnings of the transferor. A decrease that is disallowed under the preceding sentence is instead carried over to reduce any LIFO recapture adjustment that the transferee (or its corporate partners, if section 721 applies) would otherwise make (in the absence of this paragraph (f)(3)(iv)) solely by reason of its carryover basis in inventories received in the section 351 or section 721 exchange. Nothing in this paragraph (f)(3)(iv), however, alters the computation of the LIFO recapture amount of the transferor or transferee as of the close of any taxable year.

(v) *Examples.* The following examples illustrate the provisions of this paragraph (f)(3).

Example 1. M Corporation, a calendar-year taxpayer, uses the LIFO method of accounting for its inventory for purposes of computing pre-adjustment alternative minimum taxable income. M's ending LIFO inventory for all of its pools for purposes of

computing pre-adjustment alternative minimum taxable income on December 31, 1989, is $300. M computes a $500 FIFO inventory amount on that date, after applying the provisions of section 263A along with the adjustments and preferences required in computing pre-adjustment alternative minimum taxable income. M's FIFO and LIFO ending inventory amounts at the close of its taxable years, its LIFO reserves, and its adjustment under this paragraph (f)(3), are as follows:

	1989	1990	1991	1992
Ending inventory:				
A. FIFO	[1] $500	$360	$560	$600
B. LIFO	[2] 300	180	320	440
LIFO recapture amount:				
A–B	200	180	240	160
Change in LIFO recapture amount and adjustment under paragraph (f)(3)	.....	(20)	60	(80)

[1] Beginning FIFO inventory amount under paragraph (f)(3)(ii).
[2] Beginning LIFO inventory amount under paragraph (f)(3)(ii).

Example 2. (A) X Corporation, a calendar-year taxpayer, uses the LIFO method for purposes of computing pre-adjustment alternative minimum taxable income. X's LIFO recapture amount is $300 as of December 31, 1992, and is $200 as of December 31, 1993. Immediately prior to calculating its LIFO recapture amount as of December 31, 1993, X transfers inventory with an adjusted current earnings (ACE) basis of $500 to Y Corporation in an exchange to which section 351 applies. X determines that the $100 decrease in its LIFO recapture amount occurred as a result of its transfer of inventories to Y in the section 351 exchange. Thus, under paragraph (f)(3)(iv) of this section, X cannot decrease its adjusted current earnings by that amount. In computing its 1994 LIFO recapture adjustment, X will use $200 as its LIFO recapture amount as of December 31, 1993, even though it was not entitled to reduce adjusted current earnings by the $100 decrease in its LIFO recapture amount in 1993.

(B) For purposes of computing its ACE, Y takes a $500 carryover basis in the inventories received from X. If Y, a newly formed calendar-year taxpayer, engages in no other inventory transactions in 1993 and adopts the LIFO inventory method on its 1993 tax return, it will have a LIFO recapture amount of $0 as of December 31, 1993 (because its FIFO inventory amount and its LIFO inventory amount are both $500). Assume that at December 31, 1994, Y has a LIFO recapture amount of $200 ($1,000 FIFO inventory amount–$800 LIFO inventory amount). Under paragraph (f)(3)(i) of this section, Y computes a LIFO recapture adjustment for 1994 of $200 ($200–$0). If any portion of Y's $200 LIFO recapture adjustment occurs solely by reason of its carryover basis in the inventories it received from X, Y reduces its $200 LIFO recapture adjustment by that portion under paragraph (f)(3)(iv). In any event, however, Y will use its $200 LIFO recapture amount as of December 31, 1994, in computing its 1995 LIFO recapture adjustment.

(vi) *Effective date.* Paragraph (f)(3) is effective for taxable years beginning after December 18, 1992. A taxpayer may choose to apply this paragraph, however, to all taxable years beginning after December 31, 1989.

* * * * *

(m) *Adjusted current earnings of a foreign corporation*—(1) *In general.* The alternative minimum taxable income of a foreign corporation is increased by 75 percent of the excess of—

(i) Its effectively connected adjusted current earnings for the taxable year; over

(ii) Its effectively connected pre-adjustment alternative minimum taxable income for the taxable year.

(2) *Definitions*—(i) *Effectively connected pre-adjustment alternative minimum taxable income.* Effectively connected pre-adjustment alternative minimum taxable income is the effectively connected taxable income of the foreign corporation for the taxable year, determined with the adjustments under sections 56 and 58 (except for the adjustment for adjusted current earnings, the alternative tax net operating loss and the alternative tax energy preference deduction) and increased by the tax preference items of section 57, but taking into account only items of income of the foreign corporation that are effectively connected (or treated as effectively connected) with the conduct of a trade or business in the United States, and any expense, loss or deduction that is properly allocated and apportioned to that income.

(ii) *Effectively connected adjusted current earnings.* Effectively connected adjusted current earnings is the effectively connected pre-adjustment alternative minimum taxable income of the foreign corporation for the taxable year, adjusted under section 56(g) and this section, but taking into account only items of income of the foreign corporation that are effectively connected (or treated as effectively connected) with the conduct of a trade or business in the United States, and any expense, loss or deduction that is properly allocated and apportioned to that income.

(3) *Rules to determine effectively connected pre-adjustment alternative minimum taxable income and effectively connected adjusted current earnings.* The principles of section 864(c) (and the regulations thereunder) and any other applicable provision of the Internal Revenue Code apply to determine whether items of income of the foreign corporation are effectively connected (or treated as effectively connected) with the conduct of a trade or business in the United States, and whether any expense, loss or deduction is properly allocated and apportioned to that income.

(4) *Certain exempt amounts.* Effectively connected adjusted current earnings and effectively connected pre-adjustment alternative minimum taxable income do not include any item of income, or any expense, loss or deduction that is properly allocated and apportioned to income that is exempt from United States taxation under section 883 or an applicable income tax treaty. See section 894.

* * * * *

(r) *Elections to use simplified inventory methods to compute alternative minimum tax*—(1) *In general.* If a taxpayer makes an election under this paragraph (r) (and does not make the election in paragraph (r)(5) of this section), the rules of paragraph (r)(2) of this section apply in computing the taxpayer's pre-adjustment alternative minimum taxable income and adjusted current earnings.

(2) *Effect of election*—(i) *Inventories.* The taxpayer's inventory amounts as determined for purposes of computing taxable income are used for purposes of computing pre-adjustment alternative minimum taxable income and adjusted current earnings. Subject to the further modification described in paragraph (r)(2)(ii) of this section, the taxpayer's cost of sales as determined for purposes of computing taxable income is also used for purposes of computing pre-adjustment alternative minimum taxable income and adjusted current earnings.

(ii) *Modifications required*—(A) *In general.* If a taxpayer makes an election under this paragraph (r), pre-adjustment alternative minimum taxable income and adjusted current earnings are computed with the modifications described in this paragraph. The items of adjustment under sections 56 and 58 and the items of tax preference under section 57 are computed without regard to the portion of those adjustments and preferences which, but for the election described in this paragraph, would have been capitalized in ending inventory. For example, pre-adjustment alternative minimum taxable income is increased by the excess of the depreciation allowable for the taxable year under section 168 for purposes of computing taxable income (determined without regard to section 263A) over the depreciation allowable for the taxable year under section 56(a)(1) and section 57 for purposes of computing pre-adjustment alternative minimum taxable income (determined without regard to section 263A). Similarly, adjusted current earnings is further increased by the excess of the depreciation allowable for the taxable year under section 56(a)(1) and section 57 for purposes of computing pre-adjustment alternative minimum taxable income (determined without regard to section 263A) over the depreciation allowable for the taxable year under section 56(g)(4)(A) for purposes of computing adjusted current earnings (determined without regard to section 263A). Thus, the modifications described in the preceding sentence do not duplicate amounts that are taken into account in computing pre-adjustment alternative minimum taxable income. See paragraph (a)(6)(ii) of this section.

(B) *Negative modifications allowed.* An election under this paragraph (r) does not affect the taxpayer's ability to make negative adjustments. Thus, if an election is made under this paragraph (r) and the amount of any adjustment under section 56 or 58, determined after modification under paragraph (r)(2)(ii)(A) of this section, is a negative amount, then this amount reduces pre-adjustment alternative minimum taxable income or adjusted current earnings. However, no negative adjustment under this paragraph (r)(2)(ii)(B) is allowed for the items of tax preference under section 57.

(iii) *LIFO recapture adjustment.* If a taxpayer makes an election under this paragraph (r) and uses the LIFO method for some assets, for purposes of computing the LIFO recapture adjustment under paragraph (f)(3) of this section for taxable years beginning after December 31, 1989—

(A) The LIFO inventory amount as determined for purposes of computing taxable income is used in lieu of the LIFO inventory amount as determined under paragraph (f)(3)(iii) of this section;

(B) The FIFO inventory amount is computed without regard to the adjustments under sections 56 (including the adjustments of section 56(g)(4)) and 58 and the items of tax preference of section 57: and

(C) The beginning LIFO and FIFO inventory amounts under paragraph (f)(3)(ii) of this section are the ending LIFO inventory amount as determined for purposes of computing taxable income and the ending FIFO inventory amount computed without regard to the adjustments under sections 56 (including the adjustments of sections 56(g)(4)) and 58 and the items of tax preference of section 57 for the last taxable year beginning before January 1, 1990.

(3) *Time and manner of making election*—(i) *Prospective election.* (A) A prospective election under this paragraph (r) may be made by any taxpayer—

(*1*) That has computed pre-adjustment alternative minimum taxable income and adjusted current earnings for all prior taxable years in accordance with the method described in this paragraph (r); or

(*2*) That has not computed pre-adjustment alternative minimum taxable income and adjusted current earnings for all prior tax years in accordance with the method described in this paragraph (r), but for which the use of the method described in this paragraph (r) for all prior taxable years would not have changed the taxpayer's tax liability (as shown on returns filed as of the date the election is made) for any prior taxable year for which the period of limitations under section 6501(a) has not expired (as of the date the election is made).

(B) A prospective election under this paragraph (r) may only be made by attaching a statement to the taxpayer's timely filed (including extensions) original Federal income tax return for any taxable year that is no later than its first taxable year to which this paragraph (r) applies and in which the taxpayer's tentative minimum tax (computed under the provisions of this paragraph (r)) exceeds its regular tax. However, in the case of a taxpayer described in paragraph (r)(3)(i)(A)(*1*) of this section that had tentative minimum tax in excess of its regular tax for any prior taxable year, the election may only be made by attaching a statement to its timely filed (including extensions) original Federal income tax return for the first taxable year ending after December 18, 1992. The statement must—

(*1*) Give the name, address and employer identification number of the taxpayer; and

(*2*) Identify the election as made under this paragraph (r).

(C) The determination of whether a taxpayer is described in paragraph (r)(3)(i)(A)(*2*) of this section is to be made as of the time the taxpayer makes a prospective election in accordance with the procedures in paragraph (r)(3)(i)(B) of this section.

(D) Any taxpayer described in paragraph (r)(3)(i)(A)(*2*) of this section that makes a prospective election will be deemed to have used the method described in this paragraph (r) in computing pre-adjustment alternative minimum taxable income and adjusted current earnings for all prior taxable years.

(ii) *Retroactive election*—(A) A retroactive election under this paragraph (r) may be made by any taxpayer not described in paragraph (r)(3)(i)(A) (*1*) or (*2*) of this section. Except as provided in paragraph (r)(3)(iii) of this section, a retroactive election may only be made by attaching a statement to the taxpayer's amended Federal income tax return for the earliest taxable year for which the period of limitations under section 6501(a) has not expired and which begins after December 31, 1986. The amended return to which the election under this paragraph (r)(3)(ii) is attached must be filed no later than June 21, 1993.

(B) The amended return must contain the statement described in paragraph (r)(3)(i)(B) of this section. In addition, the statement must contain a representation that the taxpayer will modify its pre-adjustment alternative minimum taxable income and adjusted current earnings for all open taxable years in accordance with paragraph (r)(2) of this section. Upon this change in method of accounting, the taxpayer must include the entire adjustment required under section 481(a), if any, in preadjustment alternative minimum taxable income and adjusted current earnings on the amended return for the year of the election. The taxpayer must also reflect the method of accounting described in paragraph (r)(2) of this section on amended returns filed for all taxable years after the year of the election for which returns were originally filed before making the election (and for which the period of limitations under section 6501(a) has not expired).

(C) Provided a taxpayer meets the requirements of this paragraph (r), any change in method of accounting arising as a result of making a retroactive election will be treated as made with the advance consent of the Commissioner.

(D) Any retroactive election under this paragraph (r) that is made without filing amended returns required under this paragraph (r)(3)(ii) shall constitute a change in method of accounting made without the consent of the Commissioner.

(iii) *Taxpayers under examination*—(A) *In general.* A taxpayer that wishes to make a retroactive election under section (r)(3)(ii) of this section may use the procedures in paragraph (r)(3)(iii)(A) (*1*) or (*2*) in lieu of filing an amended return for any taxable year that is under examination by the Internal Revenue Service.

(*1*) *Year of change under examination.* If the year of the change is under examination at the time the taxpayer timely makes the election, the taxpayer may (in lieu of filing an amended return for the year of the change) furnish the written statement described in paragraph (r)(3)(iii)(B) of this section to the revenue agent responsible for examining the taxpayer's return no later than June 21, 1993. It is the taxpayer's responsibility to make a timely election either by furnishing the statement to the revenue agent or by filing amended returns by June 21, 1993.

(*2*) *Other open years under examination.* If any other year for which the taxpayer must modify its pre-adjustment alternative minimum taxable income and adjusted current earnings (see paragraph (r)(3)(ii)(B) of this section) is examined, the taxpayer may (in lieu of filing an amended return) furnish the amount of the conforming adjustment to the revenue agent responsible for examining the taxpayer's return. It is the taxpayer's responsibility to timely modify its pre-adjustment alternative minimum taxable income and adjusted current earnings for each year other than the year of change, either by furnishing the amount of the adjustment to the revenue agent or by filing amended returns.

(B) *Statement required.* The statement required under paragraph (r)(3)(iii)(A)(*1*) of this section must include all of the items required under paragraph (r)(3)(ii)(B) of this section, as well as—

(*1*) The caption "Election to use regular tax inventories for AMT purposes;"

(*2*) A description of the nature and amount of all items that would result in adjustments and that the taxpayer would have reported if the taxpayer had used the method described in this paragraph (r) for all prior taxable years for which the period of limitations under section 6501(a) has not expired and which begin after December 31, 1986; and

(*3*) The following declaration signed by the person authorized to sign the return for the taxpayer: "Under penalties of perjury, I declare that I have examined this written statement, and to the best of my knowledge and belief this written statement is true, correct, and complete."

(C) *Year of change.* The year of change is the earliest taxable year for which the period of limitations under section 6501(a) has not expired at the time the statement is submitted to the appropriate revenue agent and that begins after December 31, 1986. Thus, the adjustments required to be included on the statement must include any adjustment under section 481(a) determined as if the method described in this paragraph (r) had been used in all taxable years prior to the year of change that begin after December 31, 1986.

(D) *Treatment of additional tax liability.* Any additional tax liability that results from the adjustments identified in the written statement described in paragraph (r)(3)(iii)(B) of this section is treated as an additional amount of tax shown on an amended return.

(iv) *Election as method of accounting.* The elections provided in paragraphs (r)(3) (i) and (ii) of this section constitute either adoptions of, or changes in, methods of accounting. These elections, once made, may be revoked only with the consent of the Commissioner in accordance with the rules of section 446(e) and § 1.446–1(e).

(v) *Untimely election to use simplified inventory method.* If a taxpayer makes an election described in this paragraph (r) after the times set forth in paragraph (r)(3) (i) or (ii) of this section, the taxpayer must comply with the requirements of § 1.446–1(e)(3) in order to secure the consent of the Commissioner to change to the method of accounting prescribed in this paragraph (r). The taxpayer generally will be subject to terms and conditions designed to place the taxpayer in a position no more favorable than a taxpayer that timely complied with paragraph (r)(3) (i) and (ii) of this section, whichever is applicable.

(4) *Example.* The following example illustrates the provisions of this paragraph (r).

Example. (i) Corporation L is a calendar year manufacturer of baseball bats and uses the LIFO method of accounting for inventories. During 1987, 1988, and 1989, L's cost of goods sold in computing taxable income was as follows:

	1987	1988	1989
Beginning LIFO inventory	$3,000	$4,000	$5,000
Purchases and other costs	9,000	9,000	9,000
Ending LIFO inventory	(4,000)	(5,000)	(6,000)
Cost of goods sold	8,000	8,000	8,000

(ii) L has no preferences under section 57 during 1987, 1988, and 1989. L's sole adjustment in computing alternative minimum tax during 1987, 1988, and 1989 was the depreciation adjustment under section 56(a)(1). Depreciation determined for both production and non-production assets under section 168 and under section 56(a)(1) during 1987, 1988, and 1989 was as follows:

	1987	1988	1989
Section 168 depreciation	$1,800	$1,800	$1,800
Section 56(a)(1) depreciation	(900)	(900)	(900)
Depreciation difference	900	900	900
Portion of difference capitalized in the increase in inventory	(100)	(100)	(100)
Adjustment required under section 56(a)(1)	800	800	800

(iii) In computing taxable income, a portion of each year's section 168 depreciation attributable to production assets is deducted currently and a portion is capitalized into the increase in ending inventory. For 1987, 1988, and 1989, L computed alternative minimum tax by deducting the cost of goods sold which was reflected in taxable income ($8,000) in accordance with paragraph (r)(2)(i) of this section. For 1987, 1988, and 1989, L also modified its adjustments under sections 56 and 58 and its preferences under section 57 to disregard the portion of any adjustment or preference that was capitalized in inventory. Thus, under section 56(a)(1), L increased alternative minimum taxable income during each year by $900.

(iv) L is eligible to make the election under paragraph (r)(1) of this section in accordance with paragraph (r)(3)(i) of this section (a prospective election).

(v) L must compute its LIFO recapture adjustment for each year by reference to—

(A) The FIFO inventory amount after applying the provisions of section 263A but before applying the adjustments of sections 56 and 58 and the items of preference in section 57; and

(B) The LIFO inventory amount used in computing taxable income.

(5) *Election to use alternative minimum tax inventories to compute adjusted current earnings.* A taxpayer may elect under this paragraph (r)(5) to use the inventory amounts used to compute pre-adjustment alternative minimum taxable income in computing its adjusted current earnings. Rules similar to those of paragraphs (r)(2) and (r)(3) of this section apply for purposes of this election.

(s) *Adjustment for alternative tax energy preference deduction*—(1) *In general.* For purposes of computing adjusted current earnings, any taxpayer claiming a deduction under section 56(h) must properly decrease basis by the portion of the deduction allowed under section 56(h) which is attributable to adjustments under section 56(g)(4). In taxable years following the taxable year in which the section 56(h) deduction is claimed, basis recovery (including amortization, depletion, and gain on sale) must properly take into account this basis reduction.

(2) *Example.* The following example illustrates the provisions of this paragraph (s):

Example. Corporation A, a calendar year taxpayer, incurs $100 of intangible drilling costs on January 1, 1994 and as a result of these intangible drilling costs A claims a deduction under section 56(h) of $40. Assume that $20 of A's deduction under section 56(h) is attributable to the adjustment under paragraph (f)(1) of this section. A must reduce by $20 the amount of intangible drilling costs to be amortized under paragraph (f)(1) of this section in 1995 through 1998 (the balance of the 60-month amortization period).

PART 602—OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT

Par. 4. The authority citation for part 602 continues to read:

Authority: 26 U.S.C. 7805.

§ 602.101 [Amended]

Par. 5. The table in § 602.101(c) is amended by adding the entry "1.56(g)–1 . . . 1545–1233".

Shirley D. Peterson,
Commissioner of Internal Revenue.

Approved October 29, 1992.

Fred T. Goldberg, Jr.,
Assistant Secretary of the Treasury.

LIBRARY OF CONGRESS

Copyright Office

37 CFR Parts 201 and 202

[Docket No. 92-5]

Renewal Copyright Registration

AGENCY: Copyright Office, Library of Congress.

ACTION: Final regulation.

SUMMARY: This notice is issued to advise the public that the Copyright Office of the Library of Congress is amending the regulations governing renewal registration practices and procedures under section 304(a) of the Copyright Act of 1976, title 17 of the United States Code, as amended by the Copyright Amendments Act of 1992, Public Law 102-307, 106 Stat. 264. The Act provides for automatic renewal of copyrights secured between January 1, 1964, and December 31, 1977, if renewal registration is not made during the twenty-eighth year of the original term of copyright. The Act also permits renewal registration during the twenty-eighth year of the first term of copyright or anytime during the renewal term. These final regulations will implement the changes in section 304(a) of the Copyright Act.

EFFECTIVE DATE: December 21, 1992.

FOR FURTHER INFORMATION CONTACT: Dorothy Schrader, General Counsel, Copyright Office, Library of Congress, Washington, DC 20540; Telephone: (202) 707-8380.

SUPPLEMENTARY INFORMATION:

1. Background

Section 304(a) of the Copyright Act of 1976, title 17 of the United States Code, establishes the duration of copyright for works in which copyright already subsisted on January 1, 1978, the effective date of the 1976 Copyright Act. As enacted, the section provided generally that copyright, the first term of which is subsisting on January 1, 1978, endures for 28 years from the date it was originally secured, and that a second term of copyright lasting 47 years, can be secured by certain designated claimants if an acceptable application for renewal is made to the Copyright Office during the last year of the original term of copyright.

2. Automatic Renewal Act

The Copyright Amendments Act of 1992, Public Law 102-307, 106 Stat. 264 (Act of June 26, 1992) (hereafter "Automatic Renewal Act") amends section 304(a) to provide for the automatic renewal of copyright for works originally copyrighted between January 1, 1964, and December 31, 1977. The Automatic Renewal Act also permits renewal registration to be made during the last year of the original term of copyright or at anytime during the renewal term, whether or not original term registration was made. Original term registration can only be made before the expiration of the original twenty-eight year term of copyright. Renewal registration is not a condition of the renewal and extension of the copyright.

If a claim to the renewal term is made within one year before expiration of the original term of copyright and the claim is registered, the renewal term vests in the person or entity entitled to make the renewal claim on the effective date of registration. If no such claim is made and registered, the renewal term vests in the person or entity entitled to claim the renewal term on the last day of the original term of copyright.

The Automatic Renewal Act makes no change in the statutory renewal claimants or in their order of priority.

Renewal registration may be made at anytime during the renewed and extended term whether or not registration was made for the original term of copyright. If no original term registration is made, the Register is authorized to request information with respect to the existence, ownership, or duration of the copyright for the original term.

If renewal registration is made during the last year of the original term, registration vests the legal ownership of the second term in the statutory renewal

claimant who is living on the date of registration. The subsequent death of the author-renewal claimant, for example, during the last year of the original term would have no effect on ownership of the second term.

If renewal registration is made during the last year of the original term of copyright, the certificate of such renewal registration constitutes prima facie evidence as to the validity of the copyright during the renewal term and of the facts stated in the certificate. The evidentiary weight accorded to the certificate of a registration entered during the renewal term is at the discretion of the court.

If a renewal registration is not made within one year before expiration of the original term of copyright, a first-term derivative work prepared under authority of a grant of a transfer or license of copyright may continue to be used under the terms of the grant during the renewal term without infringing the copyright, but no new derivative works may be made under the grant.

Statutory damages and attorney's fees are withheld for unregistered works, that is, if neither original term nor renewal registration is made. All of the remedies are available with respect to infringements occurring after registration is made.

3. Renewal Registration Changes.

The Copyright Office is amending its renewal registration regulation, 37 CFR 202.17, to provide the conditions and requirements for registration of renewal claims during the last year of the original term of copyright or during the renewal term and to provide for the information and deposit material which must be submitted with a renewal registration claim in those cases where no original registration is made.

These regulations make clear that renewal registration is optional for works originally copyrighted between January 1, 1964, and December 31, 1977, but that, although the copyright may be renewed automatically, different legal consequences follow from the fact of registration or the time when registration is made. The regulations generally require timely registration in the last year of the original term in order to vest the renewal copyright by registration. If renewal registration is not made in the last year of the original term, the copyright is renewed automatically by law. In that case, renewal registration may be made at any time during the already renewed term of copyright.

The regulations no longer require original term registration as a pre-condition of renewal registration, although original term registration is encouraged before expiration of the original term. Once the original term expires, it is no longer possible to make original term registration.

If original term registration is not made, the regulations prescribe a new procedure, which is based on a modification of the Universal Copyright Convention Affidavit procedure of the former regulations. The renewal application Form RE must be accompanied by an Addendum and an appropriate deposit of the work in accordance with the requirements of 37 CFR 202.20 and 202.21. The information in the Addendum to Form RE is necessary to establish to the satisfaction of the Examiner that copyright subsists in the original term which is capable of renewal. The deposit copy facilitates the examination of the claim to copyright which is submitted for renewal, and is available for accession by the Library of Congress to its collections for the benefit of the Nation.

Since these final regulations make technical adjustments in registration practices reflecting the Automatic Renewal Act and since the adjustments benefit the public by making renewal registration easier, the regulations are issued in final form and take effect upon publication.

4. The Regulatory Flexibility Act

With respect to the Regulatory Flexibility Act, the Copyright Office takes the position that this Act does not apply to Copyright Office rulemaking. The Copyright Office is a department of the Library of Congress, which is part of the legislative branch. Neither the Library of Congress nor the Copyright Office is an "agency" within the meaning of the Administrative Procedure Act of June 11, 1946, as amended (title 5, of U.S. Code, Subchapter II and Chapter 7). The Regulatory Flexibility Act consequently does not apply to the Copyright Office since that Act affects only those entities of the Federal Government that are agencies as defined in the Administrative Procedure Act.[1]

Alternatively, if it is later determined by a court of competent jurisdiction that the Copyright Office is an "agency" subject to the Regulatory Flexibility Act, the Register of Copyrights has determined and hereby certifies that this regulation will have no significant impact on small businesses.

[1] The Copyright Office was not subject to the Administrative Procedure Act before 1978, and it is now subject to it only in areas specified by section 701(d) of the Copyright Act (i.e. "all" actions taken by the Register of Copyrights under this title (17), except with respect to the making of copies of copyright deposits) (17 U.S.C. 706(b)). The Copyright Act does not make the Office an "agency" as defined in the Administrative Procedure Act. For example, personnel actions taken by the Office are not subject to APA-FOIA requirements.

List of Subjects in 37 CFR Parts 201 and 202

Copyright registration.

Final Rules

In consideration of the foregoing, 37 CFR parts 201 and 202 are amended in the manner set forth below.

PART 201—GENERAL PROVISIONS

1. The authority citation for part 201 continues to read as follows.

Authority: Sec. 702, 90 Stat. 2541, 17 U.S.C. 702; §1A201.7 is also issued under 17 U.S.C. 408, 409, and 410; §1A210.16 is also issued under 17 U.S.C. 116. §1A201.24 is also issued under Public Law 101-650, 104 Stat. 5089, 5134. §1A201.6 is also issued under 17 U.S.C. 708; §1A201.17 is also issued under 17 U.S.C. 111; §1A201.19 is also issued under 17 U.S.C. 115.

2. Section 201.5(b)(2)(iv) is revised to read as follows:

§ 201.5 Corrections and amplifications of copyright registrations; applications for supplementary registration.

* * * * *

(b) * * *

(2) * * *

(iv) Where a basic renewal registration has been made for a work during the last year of the relevant first-term copyright, supplementary registration to correct the renewal claimant or basis of claim or to add a renewal claimant is ordinarily possible only if the application for supplementary registration and fee are received in the Copyright Office within the last year of the relevant first-term copyright. If the error or omission in a basic renewal registration is extremely minor, and does not involve the identity of the renewal claimant or the legal basis of the claim, supplementary registration may be made at any time. In an exceptional case, however, supplementary registration may be made to correct the name of the renewal claimant and the legal basis of the claim at any time if clear, convincing, objective documentation is submitted to the Copyright Office which proves that an inadvertent error was made in failing to designate the correct living statutory renewal claimant in the basic renewal registration.

PART 202—REGISTRATION OF CLAIMS TO COPYRIGHT

3. The authority citation for part 202 continues to read as follows:

Authority: Sec. 702, 90 Stat. 2541, 17 U.S.C. 702; §§1A202.3, 202.19, 202.20, 202.21, and 202.22 are also issued under 17 U.S.C. 407 and 408.

4. Section 202.17 is amended by revising paragraphs (a) through (f) in their entirety and by adding new paragraphs (g) through (h) as follows:

§ 202.17 Renewals.

(a) *General.* This section prescribes rules pertaining to the application for renewal copyright under section 304(a) of title 17 of the United States Code, as amended by Public Law 102-307.

(b) *Definition.* For purposes of this section, the term *posthumous work* means a work that was unpublished on the date of the death of the author and with respect to which no copyright assignment or other contract for exploitation of the work occurred during the author's lifetime.

(c) *Renewal registration optional.* For works originally copyrighted between January 1, 1964 and December 31, 1977 renewal registration is optional and not a condition for securing copyright for the new and extended forty-seven year second term. As provided in Public Law 102-307, 106 Stat. 264 (Act of June 26, 1992), however, renewal of copyright by registration during the last year of the original term and renewal registration during the forty-seven year extended term of a copyright renewed without registration by operation of Public Law 102-307 differ in legal effect. Among other effects, renewal of copyright by registration during the last year of the original term vests the renewal copyright in the statutory renewal claimant(s) living on the date of registration.

(d) *Original term registration.* (1) Registration of a claim to copyright in the original twenty-eight year term is not a pre-condition for making a renewal registration, provided the renewal application is accompanied by an Addendum to Form RE and the deposit copy, phonorecord, or identifying material specified in paragraph (h) of this section.

(2) Original term registration can only be made before the expiration of the original term of copyright in the work.

(e) *Renewal time limits.* (1) For works originally copyrighted between January 1, 1964, and December 31, 1977, claims to renewal copyright may be registered within the last year of the original term, which begins on December 31 of the 27th year of the copyright, and runs through December 31 of the 28th year of the copyright, or at anytime during the extended forty-seven year second term, if the second term is renewed by operation of Public Law 102-307, 106 Stat. 264. The original copyright term for a published work is computed from the date of first publication; the term for a work originally registered in unpublished form is computed from the date of registration in the Copyright Office. To vest the renewal copyright by registration, the required renewal application, fee, and, if original term registration has not been made, the Addendum specified in paragraph (h) of this section must be received in the Copyright Office during the prescribed period before the first term of copyright expires. The Copyright Office has no discretion to extend the renewal time limits for vesting of the renewal copyright by registration.

(2) The provisions of paragraph (e)(1) of this section are subject to the following qualification: In order to vest the renewal copyright by registration in any case where the year date in the notice on copies distributed by authority of the copyright owner is earlier than the year of first publication, claims to renewal copyright must be registered within the last year of the original copyright term, which begins on December 31 of the 27th year from the year contained in the notice, and runs through December 31 of the 28th year from the year contained in the notice.

(3) Whenever a renewal applicant has cause to believe that a formal application for renewal, which is intended to vest the renewal copyright by registration, and any accompanying Addendum relating to subsistence of first-term copyright, if sent to the Copyright Office by mail, might not be received in the Copyright Office before expiration of the time limits provided by 17 U.S.C. 304(a) for vesting of the renewal copyright by registration, he or she may apply for renewal registration by telegraphic, telefacsimile, or similar written communication. An application made by this method will be accepted only if:

(i) The message is received in the Copyright Office within the specified time limits for vesting by registration;

(ii) The applicant adequately identifies the work involved, the date of first publication or original registration, the name and address of the renewal claimant, and the statutory basis of the renewal claim;

(iii) The fee for renewal registration, if not already on deposit, is received in the Copyright Office before the time for renewal registration has expired; and

(iv) A formal application for renewal (Form RE) (or a fax copy) and in the case of works under paragraph (h) of this section, an accompanying Addendum relating to the subsistence of first-term copyright are also received in the Copyright Office before April 1 of the following year.

(f) *Renewal claimants.* (1) Except as otherwise provided by paragraphs (f)(2) and (3) of this section, renewal claims may be registered only in the name(s) of the eligible person(s) falling within one of the following classes of renewal claimants specified in section 304(a) of the copyright law. If the work was a new version of a previous work, renewal may be claimed only in the new matter. If the renewal claim is submitted during the last year of the original term of copyright, the renewal must be made in the name(s) of the statutory claimant(s) entitled to claim the renewal on the date the renewal claim is submitted to the Copyright Office for registration. If the renewal claim is submitted during the forty-seven year renewal term, the renewal claim can only be registered in the name(s) of the statutory claimant(s) entitled to claim the renewal on the last day (December 31st) of the original term of copyright.

(i) In the case of any posthumous work or of any periodical, encyclopedia, or other composite work upon which the copyright was originally secured by the proprietor thereof, the renewal claim may be registered in the name of the proprietor;

(ii) In the case of any work copyrighted by a corporate body (otherwise than as assignees or licensees of the individual author) or by an employer for whom such work is made for hire, the renewal claim may be registered in the name of the proprietor; and

(iii) In the case of any other copyrighted work, including a contribution by an individual author to a periodical or to a cyclopedic or other composite work, the renewal claim may be registered in the name(s) of the following person(s) in descending order of eligibility:

(A) The author of the work, if still living;

(B) The widow, widower, or children of the author, if the author is not living;

(C) The author's executors, if there is a will and neither the author nor any widow, widower, or child of the author is living;

(D) The author's next of kin, in the absence of a will and if neither the author nor any widow, widower, or child of the author is living.

(2) The provisions of paragraph (f)(1) are subject to the following qualification: Notwithstanding the definition of "posthumous work" in paragraph (b) of this section, a renewal claim may be registered in the name of the proprietor of the work, as well as in the name of the appropriate claimant under paragraph (f)(1)(iii), in any case where a contract for exploitation of the work but no copyright assignment in the work has occurred during the author's lifetime. However, registration by the Copyright Office in this case should not be interpreted as evidencing the validity of the claim.

(3) The provisions of paragraphs (f)(1)(iii)(C) and (D) of this section are subject to the following qualifications:

(i) In any case where:

(A) The author has left a will which names no executor;

(B) The author has left a will which names an executor who cannot or will not serve in that capacity; or

(C) The author has left a will which names an executor who has been discharged upon settlement of the estate or removed before the estate has been completely administered, the renewal claim may be registered either in the name of an administrator cum testamento annexo (administrator c.t.a.) or an administrator de bonis non cum testamento annexo (administrator d.b.n.c.t.a.) so appointed by a court of competent jurisdiction.

(ii) In any case described in paragraph (f)(3)(i) of this section, except in the case where the author has left a will without naming an executor and a court appointed administrator c.t.a. or administrator d.b.n.c.t.a. is in existence at the time of renewal registration, the renewal claim also may be registered in the name of the author's next of kin. However, registration by the Copyright Office of the conflicting renewal claims in these cases should not be interpreted as evidencing the validity of either claim.

(g) *Application for renewal registration.* (1) Each application for renewal registration shall be submitted on Form RE. Copies of Form RE, and if applicable, the Addendum to Form RE, are available free upon request to the Public Information Office, United States Copyright Office, Library of Congress, Washington, DC 20559.

(2)(i) An application for renewal registration may be submitted by any eligible statutory renewal claimant as specified in paragraph (f) of this section or by the duty authorized agent of any such claimant.

(ii) An application for renewal registration shall be accompanied by a fee of $20. The application shall contain the information required by the form and its accompanying instructions, and shall include a certification. The certification shall consist of:

(A) A designation of whether the applicant is the renewal claimant, or the duly authorized agent of such claimant (whose identity shall also be given);

(B) The handwritten signature of such claimant or agent, accompanied by the typewritten or printed name of that person;

(C) A declaration that the statements made in the application are correct to the best of that person's knowledge; and

(D) The date of certification.

(iii) In the case of an application for renewal registration of a work for which no original registration was made, the application shall be accompanied by an Addendum and deposit material in accordance with paragraph (h) of this section.

(3) Once a renewal registration has been made, the Copyright Office will not accept a duplicate application for renewal registration on behalf of the same renewal claimant.

(h) *Addendum for an unregistered work.*–(1) *Content.* If original term registration is not timely made for a work, the renewal application Form RE must be accompanied by an Addendum to Form RE which must contain the following information:

(i) The title of the work;

(ii) The name of the author(s);

(iii) The date of first publication of the work;

(iv) The place of first publication of the work;

(v) The citizenship of the author(s) on the date of first publication of the work;

(vi) The domicile of the author(s) on the date of first publication of the work;

(vii) An averment that, at the time of first publication, all the copies of the work published under the authority of the author or other copyright proprietor bore the copyright notice required by the Copyright Act of 1909, title 17 of the United States Code in effect on December 31, 1977, and that United States copyright subsists in the work; and

(viii) For works of United States origin which were subject to the manufacturing provisions of section 16 of the Copyright Act of 1909 as it existed at the time the work was published, the Addendum must also contain information about the country of manufacture and the manufacturing processes.

(2) *Signature.* The Addendum must contain the handwritten signature of the renewal claimant or the duly authorized agent of the renewal claimant. The signature shall (i) be accompanied by the printed typewritten name of the person signing the Addendum and by the date of the signature; and (ii) shall be immediately preceded by the following printed or typewritten statement in accordance with section 1746 of title 28 of the United States Code: I certify under penalty of perjury under the laws of the United States of America that the foregoing is true and correct.

(3) *Deposit requirement for an unregistered work.* In addition to the Addendum to Form RE, an application for renewal registration of a work for which no original term registration is made must be accompanied by one copy or phonorecord or identifying material of the work as first published in accordance with the deposit requirements set out in sections 202.20 and 202.21 of the Copyright Office regulations for basic registration.

(4) *Waiver of the deposit requirement.* In a case where the renewal applicant asserts that it is either physically impossible or otherwise an undue hardship to satisfy the deposit requirements of §§1A202.20 and 202.21, the Copyright Office, at its discretion, may, upon receipt of an acceptable explanation of the inability to submit such copy or identifying material, permit the deposit of the following in the descending order of preference:

(i) A reprint, photocopy, or identifying reproduction of the work as first published; or

(ii)(A) A photocopy of the title page of the work as first published;

(B) A photocopy of the page of the work as first published bearing the copyright notice;

(C) A specification as to the location, relative to each other, of the title and notice pages of the work as first published, if the pages are different; and

(D) A brief description of the copyrightable content of the work, which is sufficient to enable the Copyright Office to examine the work. The Examining Division of the Copyright Office may request deposit of additional descriptive material if the original submission is inadequate.

Dated: November 24, 1992.

40 CFR Part 52

[MT3–5448; FRL–4543–6]

Approval and Promulgation of State Implementation Plans; Montana; Open Burning Regulation Revision

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: In this action, EPA is disapproving revisions to the Montana State Implementation Plan (SIP) that were submitted by the Governor of Montana on April 9, 1991. The revisions were made to the Administrative Rules of Montana (ARM) 16.8.1302 and 16.8.1307 to allow the open burning of creosote-treated railroad ties, which was previously prohibited in ARM 16.8.1302.

EPA is disapproving the revisions because they are in direct conflict with the Montana Clean Air Act as approved in the SIP, which states that it is the policy of the State to "achieve and maintain such levels of air quality as will protect human health and welfare." In addition, the revisions did not meet many provisions of the amended Clean Air Act (CAA). Specifically, the regulation revision did not contain enforceable emissions limitations and a plan for determining compliance with the emissions limitations, nor did the State address the impacts of the relaxation of the open burning regulation on the State's PM–10 nonattainment areas.

Any source for which a permit was issued under the State's revised open burning rules may become subject to EPA enforcement of the previous version of the open burning rule approved in the SIP, which strictly prohibits the open burning of creosote-treated railroad ties.

EFFECTIVE DATE: This rule will become effective on January 21, 1993.

ADDRESSES: Copies of the revision are available for public inspection between 8 a.m. and 4 p.m., Monday through Friday, at the following offices:

Environmental Protection Agency, Region VIII, Air Programs Branch, 999 18th Street, suite 500, Denver, Colorado 80202–2405.

Montana Department of Health and Environmental Services, Air Quality Bureau, Cogswell Building, Helena, Montana 59620.

FOR FURTHER INFORMATION CONTACT: Vicki Stamper, Environmental Protection Agency, Region VIII, Air Programs Branch, 999 18th Street, suite 500, Denver, Colorado 80202–2405, (303) 293–1765.

SUPPLEMENTARY INFORMATION:

A. History

Montana has revised its open burning regulations several times. The original version, which was effective November, 1968, did not specifically prohibit the burning of treated wood. However, the regulation did prohibit the burning of "chicken litter, animal droppings, garbage, dead animals, tires, waste oil, tar paper and similar materials creating dense smoke when burned." This regulation was submitted in the 1972 SIP submittal, which was approved by EPA.

A 1978 version of the open burning regulation strictly prohibited the burning of railroad ties, as follows: "Chicken litter, animal droppings, garbage, dead animals or parts of dead animals, tires, pathogenic wastes, explosives, oil, railroad ties, tar paper, or toxic wastes shall not be disposed of by open burning." This version was also approved by EPA, thus amending the federally-approved Montana SIP to prohibit these open burning activities.

On April 22, 1982, the State submitted a revision to the SIP, which included a revision to the open burning regulation. In this version of the open burning regulation, under ARM 16.8.1302, "Prohibited Open Burning," the State prohibited the burning of "treated lumber and timbers." This regulation was approved by EPA as a SIP revision on July 15, 1982 (47 FR 30762).

B. 1991 Submittal

On April 9, 1991, the Governor of Montana submitted revisions to the SIP. A revision was made to ARM 16.8.1302 to prohibit the burning of treated lumber and timbers, "except creosote-treated railroad ties * * *." Revisions were also made to ARM 16.8.1307 to provide for the permitting of the disposal of railroad ties through open burning. Other revisions were made to ARM 16.8.1307 to include additional provisions for all conditional air quality open burning permits.

The State was notified, on June 12, 1991, that the submittal was administratively and technically complete. In that letter, however, EPA raised several concerns about the toxicity and hazards associated with the burning of creosote-treated wood products and requested further information from the State on how Montana would ensure protection of human health and welfare with the regulation revision. The State indicated that it would not be able to respond to EPA's concerns until a much later date. In order to meet statutory deadlines for processing SIP submittals, EPA decided to continue processing the submittal. EPA determined that the State submittal was in direct conflict with section 75–2–102 of the Montana Clean Air Act, which states that it is the public policy of the State to "achieve and maintain such levels of air quality as will protect human health and welfare," because the submittal did not adequately show how the public health and welfare would be protected during the open burns of creosote-treated railroad ties. Since the Montana Clean Air Act is in the approved SIP, the regulation revision was found to be in direct conflict with the existing SIP.

For additional information, EPA reviewed an open burn permit which the State had issued to Burlington Northern Railroad on June 24, 1991 to burn creosote-treated railroad ties in accordance with its revised open burning regulations. EPA's review found that the conditions of the permit did not clearly define any specific procedures for open burning to reduce emissions. In addition, under subtitle C of the Resource Conservation and Recovery Act (RCRA), material that is disposed of, burned, or treated before being burned is defined as solid waste pursuant to 40 CFR 261.2, and a generator of solid waste must determine if the solid waste meets a determination of hazardous waste, as defined in 40 CFR 261, subparts C and D. The State, however, did not require that the source make a determination of whether the material to be burned constituted hazardous waste. The State did require that railroad ties must not be burned within two miles of any community. However, due to the toxicity and hazards associated with the burning of creosote-treated railroad ties, EPA was concerned that this requirement may not fully ensure adequate protection of human health and welfare.

On September 12, 1991, EPA notified the State that EPA would be proposing to disapprove the SIP revision on the basis that the open burning regulation lacked the specific requirements to adequately ensure the protection of human health and welfare, in direct conflict with the approved SIP. Additional review of the open burn permit issued to Burlington Northern Railroad substantiated EPA's concerns about protection of the public health.

However, EPA also provided the State with further opportunity to submit any additional information which might address EPA's concerns by October 1,

1991. In a letter dated September 30, 1991, the State notified EPA that it was unable to respond to EPA's concerns within the timeframe given. The State indicated that it would continue to examine its options, and would keep EPA informed of any decisions. Therefore, on January 2, 1992, EPA published its proposal to disapprove the revisions to the State's open burning regulations (57 FR 23). Since no comments were received pursuant to the proposed disapproval, EPA is proceeding with its final disapproval.

In addition to the reasons described above, EPA notes that this SIP revision must be disapproved as provided under sections 110(l) and 193 of the CAA. Many areas in the State of Montana are currently designated as nonattainment for the PM–10 national ambient air quality standards (NAAQS) (see 56 FR 56694, 56794, published on November 6, 1991). Further, as provided in section 107(d)(4)(B)(iii) of the CAA, those areas in the State not designated nonattainment for PM–10 are designated as unclassifiable for PM–10.

Section 110(l) of the CAA provides that EPA shall not approve a SIP revision if the revision interferes with any applicable requirements concerning attainment and reasonable further progress, or any other applicable requirement of the CAA. The State of Montana has not adequately addressed the impact of the proposed SIP revision on, among other things, continued maintenance of the PM–10 NAAQS in those areas of the State currently designated unclassifiable for PM–10. Similarly, the State has not adequately addressed the impact of the relaxation on reasonable further progress and timely attainment of the PM–10 NAAQS in those areas in the State currently designated nonattainment for PM–10.

Section 193 of the CAA prohibits the modification in any manner of any control requirement in effect, or required to be adopted by a plan in effect before November 15, 1990, in any area which is nonattainment for any pollutant unless the modification insures equivalent or greater emission reductions of such air pollutant. This provision evinces an antibacksliding principle—a Congressional intent to keep emissions reductions in nonattainment areas at least at their November 15, 1990 levels. The State has not adequately addressed the potential impact of the proposed relaxation on PM–10 nonattainment areas in the State. Moreover, the State has not demonstrated that the relaxation is accompanied with at least equivalent emission reductions of PM–10 in any affected PM–10 nonattainment area in Montana.

Final Action

EPA is disapproving revisions to the open burning regulations in the Montana SIP, submitted by the Governor of Montana on April 9, 1991. The disapproval pertains to those revisions made to ARM 16.8.1302 and 16.8.1307, which allow the open burning of creosote-treated railroad ties.

Nothing in this action should be construed as permitting or allowing or establishing a precedent for any future request for revision to any SIP. Each request for revision to the SIP shall be considered separately in light of specific technical, economic, and environmental factors and in relation to relevant statutory and regulatory requirements.

This action has been classified as a Table 2 action by the Regional Administrator under the procedures published in the Federal Register on January 19, 1989 (54 FR 2214–2225). On January 6, 1989, the Office of Management and Budget waived Table 2 and 3 SIP revisions (54 FR 2222) from the requirements of Section 3 of Executive Order 12291 for a period of two years. EPA has submitted a request for a permanent waiver for Table 2 and 3 SIP revisions. OMB has agreed to continue the temporary waiver until such time as it rules on EPA's request.

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this section must be filed in the United States Court of Appeals for the appropriate circuit by February 19, 1992. Filing a petition for reconsideration by the Administrator of the final rule does not affect the finality of this rule for the purposes of judicial review nor does it extend the time within which a petition for judicial review must be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

List of Subjects in 40 CFR Part 52

Air pollution control, Carbon monoxide, Hydrocarbons, Particulate matter.

Authority: 42 U.S.C. 7401–7671q.

Dated: June 16, 1992.

Jack W. McGraw,

Acting Regional Administrator.

40 CFR part 52, is amended as follows:

PART 52—[AMENDED]

1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401–7671q.

Subpart BB—Montana

2. Section 52.1384 is amended by designating the existing text as paragraph(a) and by adding paragraph (b) to read as follows:

§ 52.1384 Emission control regulation.

* * * * *

(b) The provisions for the open burning of creosote-treated railroad ties in the Administrative Rules of Montana (ARM) 16.8.1302 and 16.8.1307, which were submitted by the Governor on April 9, 1991, are disapproved because:

(1) The regulations do not adequately demonstrate how public health and welfare will be protected, in direct conflict with section 75–2–102 of the Montana Clean Air Act, as approved in the SIP;

(2) The regulations do not satisfy the enforcement imperatives of section 110(a)(2) of the Clean Air Act, which require that a plan contain enforceable emission limitations and a program for determining compliance; and

(3) The revised regulations relax the control of emissions without any accompanying analysis demonstrating that these relaxations will not interfere with attainment and maintenance of the PM–10 national ambient air quality standards, and without any accompanying analysis demonstrating the potential impact on PM–10 nonattainment areas in the State and whether equivalent or greater emission reductions are insured in such areas, per the requirements of sections 110(1) and 193 of the amended Clean Air Act.

BILLING CODE 6560–50–M

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 64

[Docket No. FEMA–7558]

List of Communities Eligible for the Sale of Flood Insurance

AGENCY: Federal Insurance Administration, FEMA.

ACTION: Final rule.

SUMMARY: This rule identifies communities participating in the National Flood Insurance Program (NFIP). These communities have applied to the program and have agreed to enact certain floodplain management measures. The communities' participation in the program authorizes the sale of flood insurance to owners of

property located in the communities listed.

EFFECTIVE DATES: The dates listed in the fourth column of the table.

ADDRESSES: Flood insurance policies for property located in the communities listed can be obtained from any licensed property insurance agent or broker serving the eligible community, or from the NFIP at: Post Office Box 457, Lanham, MD 20706, (800) 638–7418.

FOR FURTHER INFORMATION CONTACT: Frank H. Thomas, Assistant Administrator, Office of Loss Reduction, Federal Insurance Administration, 500 C Street, SW., room 417, Washington, DC 20472, (202) 646–2717.

SUPPLEMENTARY INFORMATION: The NFIP enables property owners to purchase flood insurance which is generally not otherwise available. In return, communities agree to adopt and administer local floodplain management aimed at protecting lives and new construction from future flooding. Since the communities on the attached list have recently entered the NFIP, subsidized flood insurance is now available for property in the community.

In addition, the Director of the Federal Emergency Management Agency has identified the special flood hazard areas in some of these communities by publishing a Flood Hazard Boundary Map (FHBM) or Flood Insurance Rate Map (FIRM). The date of the flood map, if one has been published, is indicated in the fifth column of the table. In the communities listed where a flood map has been published, Section 102 of the Flood Disaster Protection Act of 1973, as amended, 42 U.S.C. 4012(a), requires the purchase of flood insurance as a condition of Federal or federally related financial assistance for acquisition or construction of buildings in the special flood hazard areas shown on the map.

The Director finds that the delayed effective dates would be contrary to the public interest. The Director also finds that notice and public procedure under 5 U.S.C. 553(b) are impracticable and unnecessary.

National Environmental Policy Act

This rule is categorically excluded from the requirements of 44 CFR part 10, Environmental Consideration. No environmental impact assessment has been prepared.

Regulatory Flexibility Act

The Federal Insurance Administrator certifies that this rule will not have a significant economic impact on a substantial number of small entities in accordance with the Regulatory Flexibility Act, 5 U.S.C. 601 et seq., because the rule creates no additional burden, but lists those communities eligible for the sale of flood insurance.

Regulatory Impact Analysis

This rule is not a major rule under Executive Order 11291, Federal Regulation, February 17, 1981, 3 CFR, 1981 Comp., p. 127. No regulatory impact analysis has been prepared.

Paperwork Reduction Act

This rule does not involve any collection of information for purposes of the Paperwork Reduction Act, 44 U.S.C. 3501 et seq.

Executive Order 12612, Federalism

This rule involves no policies that have federalism implications under Executive Order 12612, Federalism, October 26, 1987, 3 CFR, 1987 Comp., p. 252.

Executive Order 12778, Civil Justice Reform

This rule meets the applicable standards of section 2(b)(2) of Executive Order 12778, October 25, 1991, 56 FR 55195, 3 CFR, 1991 Comp., p. 309.

List of Subjects in 44 CFR Part 64

Flood insurance, Floodplains.

Accordingly, 44 CFR part 64 is amended as follows:

PART 64—[AMENDED]

1. The authority citation for part 64 continues to read as follows:

Authority: 42 U.S.C. 4001 *et seq.*, Reorganization Plan No. 3 of 1978, 3 CFR, 1978 Comp., p. 329; E.O. 12127, 44 FR 19367, 3 CFR, 1979 Comp., p. 376.

§ 64.6 [Amended]

2. The tables published under the authority of § 64.6 are amended as follows:

Proposed Rules

Federal Register
Vol. 57, No. 245
Monday, December 21, 1992

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Food and Nutrition Service

7 CFR Parts 271 and 273

[Amendment No. 347]

Food Stamp Program: Technical Amendments Concerning Disabled in Group Homes and Income Exclusion for Plans for Achieving Self-Support (Pub. L. 102–237)

AGENCY: Food and Nutrition Service, USDA.

ACTION: Proposed rule.

SUMMARY: This action proposes to amend Food Stamp Program regulations as a result of certain provisions of the Food, Agriculture, Conservation, and Trade Act Amendments of 1991 (Pub. L. 102–237, December 13, 1991 (105 Stat. 1818)). This rule addresses technical amendments concerning certain disabled persons in group homes and income exclusions for plans for achieving self-support.

DATES: Comments on this proposed rulemaking must be received on or before February 19, 1993, in order to be assured of consideration.

ADDRESSES: Comments should be submitted to Judith M. Seymour, Supervisor, Eligibility and Certification Regulations Section, Certification Policy Branch, Program Development Division, Food Stamp Program, Food and Nutrition Service, USDA, 3101 Park Center Drive, Alexandria, Virginia 22302 or FAX (703) 305–2454. All written comments will be open to public inspection during regular business hours (8:30 a.m. to 5 p.m. Monday through Friday) in room 720 at the above address.

FOR FURTHER INFORMATION CONTACT: Ms. Seymour, at the above address or, by telephone at (703) 305–2496.

SUPPLEMENTARY INFORMATION:

Classification

Executive Order 12291

This proposed rule has been reviewed under Executive Order 12291 and has been classified as non-major because it does not meet any of the three criteria identified under the Executive Order. This action will not have an annual effect on the economy of $100 million or more, nor will it result in major increases in costs or prices for consumers; individual industries; Federal, State, or local government agencies; or geographic regions. Furthermore, it will not have significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Executive Order 12372

The Food Stamp Program is listed in the Catalog of Federal Domestic Assistance under No. 10.551. For the reasons set forth in the final rule and related Notice(s) to 7 CFR part 3105, subpart V (48 FR 29115, June 24, 1983; or 48 FR 54317, December 1, 1983, as appropriate), this Program is excluded from the scope of Executive Order 12372 which requires intergovernmental consultation with State and local officials.

Executive Order 12778

This proposed rule has been reviewed under Executive Order 12778, Civil Justice Reform. This rule is intended to have preemptive effect with respect to any state or local laws, regulations, or policies which conflict with its provisions or which would otherwise impede its full implementation. This rule is not intended to have retroactive effect unless so specified in the **EFFECTIVE DATE** paragraph of this preamble. Prior to any judicial challenge to the provisions of this rule or the application of its provisions all applicable administrative procedures must be exhausted. In the Food Stamp Program the administrative procedures are as follows: (1) for program benefit recipients—state administrative procedures issued pursuant to 7 U.S.C. 2020(e)(10) and 7 CFR 273.15; (2) for State agencies—administrative procedures issued pursuant to 7 U.S.C. 2023 set out at 7 CFR 276.7 (for rules related to non-quality control (QC) liabilities) or Part 284 (for rules related to QC liabilities); (3) for retailers and wholesalers—administrative procedures issued pursuant to 7 U.S.C. 2023 set out at 7 CFR 278.8.

Regulatory Flexibility Act

This proposed rule has also been reviewed with regard to the requirements of the Regulatory Flexibility Act of 1980 (Pub. L. 96–354, 94 Stat. 1164, September 19, 1980). The Administrator of the Food and Nutrition Service (FNS), has certified that this rule would not have a significant economic impact on a substantial number of small entities. The changes would affect food stamp applicants and recipients and State and local agencies which administer the Food Stamp Program.

Paperwork Reduction Act

This proposed rule does not contain reporting or recordkeeping requirements subject to approval by the Office of Management and Budget (OMB).

Background

The Food, Agriculture, Conservation, and Trade Act Amendments of 1991 (Pub. L. 102–237, enacted December 13, 1991) contained several technical amendments to the Mickey Leland Memorial Domestic Hunger Relief Act (Pub. L. 101–624). This proposed rulemaking concerns two of the technical amendments.

Expanded Opportunity for Using Food Stamps To Pay for Meals in Certain Group Homes

Under current regulations, many, but not all, blind or disabled persons living in a group home may be certified for food stamps. In this rule we are proposing to amend the regulations to expand the provisions governing the eligibility of blind or disabled persons living in group homes to include all persons defined as blind or disabled under the Food Stamp Act of 1977, as amended (7 U.S.C. 2012).

Requirements for participation in the Food Stamp Program by blind or disabled residents of certain group homes are defined by sections 3(g) and 3(i) (7 U.S.C. 2012 (g) and (i)) of the Food Stamp Act (the Act). Section 3(g) concerns the purchase of prepared

meals with food stamps, and section 3(i) concerns residents of institutions.

Under section 3(g), food stamps can only be used to purchase prepared meals under certain circumstances. Blind or disabled (as defined in section 3(i) of the Act) residents of certain group homes can use food stamps to pay for meals provided by their group living arrangement facility if the group living arrangement is: (a) A public or nonprofit residential setting that serves no more than 16 residents and (b) is certified by the appropriate agency or agencies of the State under regulations issued at section 1616(e) of the Social Security Act (42 U.S.C. 1382e(e)) or under standards determined by the Secretary of Agriculture to be comparable to standards implemented by appropriate State agencies under section 1616(e) of the Social Security Act.

Under section 3(i) of the Act, persons who are considered to be residents of institutions or boarding houses cannot receive food stamps. However, the Act excludes certain blind or disabled individuals who reside in some types of group homes from consideration as residents of institutions for purposes of food stamp eligibility. Thus, these individuals are eligible to receive food stamps in certain circumstances.

Prior to passage of the Mickey Leland Act (Pub. L. 101–624), a resident of a group living arrangement had to be blind or disabled and receiving benefits under Title II (Federal Old Age, Survivors, and Disability Insurance Benefits, (Social Security)), or Title XVI (Supplemental Security Income for the Aged, Blind, and Disabled) of the Social Security Act (42 U.S.C. 301 et seq.) in order to be eligible for food stamps. The Mickey Leland Act added residents of group living arrangements who are blind or disabled and receiving benefits under Title I (Old Age Assistance), Title X (Aid to the Blind), and Title XIV (Aid to the Permanently and Totally Disabled) of the Social Security Act. This change was incorporated into the regulations at 7 CFR 271.2 (which defines "Eligible foods" and "Group living arrangement") and 7 CFR 273.1(e)(1)(iii) (which contained eligibility rules for residents of institutions) in a December 4, 1991 rulemaking entitled "Miscellaneous Provisions of the Mickey Leland Memorial Domestic Hunger Relief Act and Food Stamp Certification Policy" (56 FR 63592).

However, for other purposes in the Food Stamp Program, there is an additional definition of "blind" or "disabled" in section 3(r)(2)–(7) of the Food Stamp Act (7 U.S.C. 2012(r)(2)–(7)). Some persons who do not receive benefits under Titles I, II, X, XIV, or XVI of the Social Security Act are nonetheless considered disabled for purposes of qualifying for the medical deduction and for the uncapped shelter deduction. Under current food stamp regulations, however, these persons are not eligible to participate in the Food Stamp Program if they live in a group home.

Section 901 of the Food, Agriculture, Conservation, and Trade Act Amendments of 1991 (Pub. L. 102–237) amended section 3(g)(7) and 3(i) of the Act of 1977 to expand eligibility to receive food stamps and to use them to purchase meals provided by certified group living arrangements, to all individuals who meet the Act's definition of "disabled" contained in section 3(r)(2)–(7).

Accordingly, this proposed rule would amend 7 CFR 271.2 to change the definitions of "Eligible foods" and "Group living arrangement" to expand food stamp eligibility to all blind or disabled persons (as defined by the Food Stamp Act) who live in certain group living arrangements and to include meals served to these blind or disabled persons as eligible for purchase with food stamps. In order to implement this change, it is also necessary to amend 7 CFR 273.1(e)(1)(iii) and 273.11(f) so that disabled or blind persons as (defined in 7 CFR 271.2) may apply for and receive food stamps and use their food stamps to pay for meals provided by a group living arrangement.

Exclude Plans for Achieving Self-Support (PASS) From Income

Under 7 CFR 273.9(c) of the food stamp regulations, certain items are excluded from income in determining food stamp eligibility and calculating benefits. These items were expanded by section 903 of Public Law 102–237 and by Public Law 102–265. (Pub. L. 102–265 corrects an oversight in section 903 that omitted blind individuals by expanding the provision in section 903 to the blind.)

One portion of section 903 concerns Plans for Achieving Self-Support (PASS) administered by the Social Security Administration (42 U.S.C. 1382a(b)(4)). The PASS program is designed to help Supplemental Security Income (SSI) recipients become self-supporting. The plans must be approved by the Social Security Administration, and permit an individual to set aside a specified amount of money to be used or deposited into a special account for an approved purpose. Amounts necessary for the fulfillment of the PASS plan are excluded from income and resources under the SSI program.

Under existing regulations, PASS funds are not counted as food stamp resources because the resources of a household member who receives SSI are excluded for food stamp purposes. However, such funds are not excluded from income calculations for food stamp purposes. Section 903 of the Food, Agriculture, Conservation, and Trade Act Amendments of 1991 and Public Law 102–265 changes this. Under the new provision, funds provided for a PASS plan will now be excluded from income for food stamp purposes.

Accordingly, 7 CFR 273.9 is proposed to be amended to exclude PASS funds from income in determining food stamp eligibility and benefits.

Implementation

The provisions extending food stamp eligibility to all blind or disabled persons (as defined by the Food Stamp Act) who live in certain group living arrangements to include meals served to these blind or disabled persons as eligible for purchase with food stamps were effective and had to be implemented no later than February 1, 1992 in accordance with a December 27, 1991 memorandum to all Regional Administrators of the Food and Nutrition Service.

Also in accordance with that memorandum and the provisions of Public Law 102–237, the income exclusion for PASS accounts is effective on the earlier of: (1) December 13, 1991, the date enactment of Pub. L. 102–237, (2) October 1, 1990, for food stamp households for which the State agency knew, or had notice, that a household member had a PASS, or (3) beginning on the date that a fair hearing was requested contesting the denial of an income exclusion for amounts provided for a PASS. State agencies are not required to do file searches for cases relating to PASS households unless the question of an income exclusion for PASS had been raised with the State agency prior to December 13, 1991.

List of Subjects

7 CFR Part 271

Administrative practice and procedures, Food stamps, Grant program-social programs.

7 CFR Part 273

Administrative practice and procedure, Aliens, Claims, Food stamps, Fraud, Grant programs-social programs, Penalties, Reporting and recordkeeping requirements, Social Security, Students.

Accordingly, 7 CFR parts 271 and 273 are proposed to be amended as follows:

1. The authority citation for parts 271 and 273 continues to read as follows:

Authority: 7 U.S.C. 2011–2031.

PART 271—GENERAL INFORMATION AND DEFINITIONS

2. In § 271.2,

a. The definition of "Eligible foods" is amended by revising paragraph (5); and

b. The definition of "Group living arrangement" is amended by revising the second sentence.

The revisions read as follows:

§ 271.2 Definitions.

* * * * *

Eligible foods * * * (5) meals prepared and served by a group living arrangement facility to residents who are blind or disabled as defined in paragraphs (2) through (11) of the definition of "Elderly or disabled member" contained in this section;

* * *

* * * * *

Group living arrangement * * * To be eligible for food stamp benefits, a resident of such a group living arrangement must be blind or disabled as defined in paragraphs (2) through (11) of the definition of "Elderly or disabled member" contained in this section.

* * * * *

PART 273—CERTIFICATION OF ELIGIBLE HOUSEHOLDS

§ 273.1 [Amended]

3. In § 273.1, paragraph (e)(1)(iii) is amended by removing the words "and who receive benefits under title I, title II, title X, title XIV, or title XVI of the Social Security Act" and adding the words "(as defined in paragraphs (2) through (11) of the definition of "Elderly or disabled member," contained in § 271.2)" after "individuals".

4. In § 273.9, a new paragraph (c)(16) is added to read as follows:

§ 273.9 Income and deductions.

* * * * *

(c) *Income exclusions.* * * *

(16) Income of an SSI recipient which has been determined necessary for the fulfillment of a plan for achieving self-support (PASS) which has been approved under sections 1612(b)(4)(A)(iii) or 1612(b)(4)(B)(iv) of the Social Security Act. This income may be spent in accordance with an approved PASS or deposited into a PASS savings account for future use.

* * * * *

5. In § 273.11,

a. The heading of paragraph (f) is revised;

b. The first sentence of paragraph (f)(1) is amended by removing the words, "who receive benefits under title II or title XVI of the Social Security Act"; and

c. Paragraph (f)(3) is amended by removing the words, "who receive benefits under Title II or Title XVI of the Social Security Act".

The revision reads as follows:

§ 273.11 Action on households with special circumstances.

* * * * *

(f) *Residents of a group living arrangement.*

* * * * *

Dated: December 8, 1992.

Phyllis R. Gault,

Acting Administrator.

BILLING CODE 3410–30–M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Part 812

[Docket No. 91N–0404]

Medical Devices; Humanitarian Use Devices

AGENCY: Food and Drug Administration, HHS.

ACTION: Proposed rule.

SUMMARY: The Food and Drug Administration (FDA) is proposing regulations to implement the provisions of the Safe Medical Devices Act of 1990 regarding humanitarian use devices (HUD's). A HUD, i.e., a device which is designed for use in the treatment or diagnosis of a disease or condition that affects fewer than 4,000 individuals in the United States, is exempt from the effectiveness requirements of sections 514 and 515 of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 360d and 360e). In order to implement this exemption, FDA is proposing to amend the investigational device exemption (IDE) regulations. These proposed revisions prescribe the procedures and conditions for obtaining an IDE for a HUD and provide for certain waivers from the IDE regulation for a HUD.

DATES: Written comments by February 19, 1993. The agency is proposing that any final rule based upon this proposal become effective 30 days after publication in the **Federal Register**.

ADDRESSES: Submit written comments to the Dockets Management Branch (HFA–305), Food and Drug Administration, rm. 1–23, 12420 Parklawn Dr., Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Joseph M. Sheehan, Center for Devices and Radiological Health (HFZ–84), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–4874.

SUPPLEMENTARY INFORMATION:

I. Background

On November 28, 1990, the President signed into law the Safe Medical Devices Act of 1990 (the SMDA) (Pub. L. 101–629). In enacting the SMDA, Congress sought to improve the Medical Device Amendments of 1976 (the amendments). The amendments were the first legislation to put in place a comprehensive framework to regulate medical devices and ensure their safety and effectiveness. With regard to diseases and conditions affecting small populations, Congress recognized that the market for devices intended to benefit fewer than 4,000 persons in the United States was limited and that the cost of research and development of these devices makes the recovery of costs by the sponsor unlikely. In the SMDA, Congress enacted an amendment to section 520 of the act (21 U.S.C. 360j) to provide for the needs of these people by creating an incentive for potential sponsors to develop devices for them in the form of a relaxation of the requirements for an investigative study. The purpose of this "humanitarian device exemption" (HDE) is to encourage the development and use of devices intended to benefit patients in the treatment and diagnosis of diseases and conditions that affect fewer than 4,000 individuals in the United States consistent with the protection of the public health and safety and within ethical standards.

Accordingly, section 520(m) of the act (21 U.S.C. 360j(m)) authorizes FDA, by regulation, to exempt a HUD from the effectiveness requirements of sections 514 and 515 of the act. This proposed regulation sets forth the procedures and conditions for the implementation of section 520(m) of the act.

The agency believes that the intent of Congress to facilitate widespread access to HUD's is most effectively implemented by amending the IDE regulations and not by adding a discrete new regulation. The IDE regulations provide the mechanism for institutional review board (IRB) review and approval, patient informed consent, and prohibitions on profit making. Also, the IDE regulations provide flexibility for reviewing various types of investigational studies (e.g., feasibility studies). The proposed regulation would expand somewhat the range of

exemptions envisioned by Congress to include other exemptions offered by the IDE regulations.

Several alternative options were considered and rejected. One option was the revision of the premarket approval (PMA) regulation. If FDA were to follow this course, it would have to create new requirements for IRB review and approval, and patient informed consent would need to be added to the PMA regulation to meet the SMDA provisions. Further, the PMA sponsor would be precluded from making a profit on the device, and the approval for distribution would be limited to a period of 18 months with possible extensions of 18-month increments. All of these constraints are inconsistent with the PMA approval process and its purpose.

A second option was to create a separate regulation for HUD's. However, FDA believes that creation of a new regulation would be unnecessary and duplicative, since a means of implementation separate from IDE procedures would need to be developed for a separate regulation.

FDA is specifically soliciting comments on the advantages or disadvantages of using the IDE regulation as the means to implement section 520(m) of the act, as well as the desirability of using other alternative methods of implementation.

II. Proposed Amendments

A. Scope

Proposed § 812.1(b) (21 CFR 812.1(b)) would expand the scope of the IDE regulations to include provisions for HUD's and would, thus, implement section 520(m) of the act.

B. Applicability

Proposed § 812.2(e) sets forth the circumstances under which the waiver provisions for HUD would be implemented.

This proposed provision would replace current § 812.2(e) (21 CFR 812.2(e)), which is now obsolete. Current § 812.2(e) covers studies on devices formerly regulated as new drugs that had been conducted under an investigational new drug application (IND) before the effective date of the IDE regulations. Because there are now no ongoing device studies under an IND, current § 812.2(e) is no longer applicable. FDA realizes that it is conceivable that there still may be study data collected under the requirements of part 312 (IND regulations) that may be offered in support of a device's commercial distribution. If a sponsor now wishes to use these data to bring a device to market, FDA will evaluate the data on a case-by-case basis in accordance with applicable statutes and regulations.

FDA is proposing to allow humanitarian use status for devices that FDA would classify as "significant risk" devices within the meaning of § 812.3(m), as well as for devices that FDA would classify as "nonsignificant risk" devices. The agency is proposing to do so despite the fact that Congress specifically provided for HDE's for devices that will not expose patients to "an unreasonable or significant risk of illness or injury." (section 520(m)(2)(c) of the act). FDA believes that Congress' purpose in creating HDE's different from the agency's purpose in defining "significant risk devices." This is evidenced by the emphasis that FDA placed in § 812.3 on a "significant risk device" being used in "supporting or sustaining human life" and "for a use of substantial importance is diagnosing * * * or treating disease." These concepts are absent from both the SMDA and its legislative history.

C. Definitions

Proposed § 812.3(d) defines a HUD in accordance with its intended use. The same device may have an approved IDE or be a marketed device for other uses and still be considered a HUD for the purposes of § 812.3(d) if it is also intended for a humanitarian use.

D. Waivers

Proposed § 812.10(d) allows a sponsor of a HUD to request a waiver of certain requirements normally applicable to device investigations. FDA is proposing to amend the IDE regulation to prescribe not only how HUD's may be exempted from the effectiveness requirements of sections 514 and 515 of the act, but also to provide for HUD's with certain waivers from the IDE regulation. By creating waivers specific to HUD's, the agency believes that the safety and integrity of investigational studies of HUD's would be maintained. In addition to the exemptions afforded a sponsor of an approved IDE under § 812.30, a sponsor of a HUD could request that FDA waive other requirements of part 812. All requests for waivers would have to contain information required by proposed §§ 812.20(e) and 812.25(c), and, of course, FDA cannot grant waivers of statutory requirements.

Congress provided that a HUD may be exempted from the effectiveness requirements of sections 514 and 515 of the act only where it is likely to provide some benefit to the individual in the treatment or diagnosis of a rare disease or condition or where it is likely to benefit the individual's quality of life. Because a HUD cannot be fully evaluated in clinical trials due to the limited population, Congress stipulated the conditions under which an exemption may be granted. These conditions are enumerated in proposed § 812.20(e).

E. Applications

Proposed § 812.20(e) sets forth the additional information that the sponsor of an IDE application for a HUD must provide. These requirements would be consistent with Congressional intent concerning HUD's. The evidence needed to document the HUD eligibility is obtainable from numerous sources, i.e., from polls, surveys, medical literature, and data bases. Under the proposal, evidence that the disease or condition affects fewer than 4,000 affected individuals in the United States should be determined as of the time of submission of the application for the HUD. Although proposed § 812.30(e)(1) would allow FDA to withdraw an application's approval if it is found to have been unapprovable under law or regulation, or if an IRB-imposed condition is not met, proposed § 812.30(e)(2) provides that the exemption will not be revoked solely because the prevalence of a disease or condition subsequently exceeds 4,000 individuals in the United States if the applicable requirements of the IDE regulations are otherwise being met. However, the increased prevalence would result in FDA's disapproving an extension request for the HUD and directing the sponsor to comply fully with the IDE regulations. This is proposed in order to add stability and predictability to the HUD process.

Section 812.20(b)(8) of the IDE regulation is not waived for a HUD. This section provides that, if the device is to be sold, the sponsor must include in the application the amount to be charged and an explanation of why the sale does not constitute commercialization of the device. Section 520(m) of the act provides that the sponsor of a HUD may not charge an amount that exceeds the costs of research and development, fabrication, and distribution of the device. The sponsor must address this provision under § 812.20(b)(8) in an application and in a request for extension. The sponsor must make its records pertaining to cost recovery available to FDA for inspection.

FDA believes that Congress provided for cost recovery as an incentive for manufacturers to develop these devices. FDA also believes that reimbursement

by insurance carriers for a HUD would help to fulfill the Congressional intent.

Although FDA is not prepared at this time to accept HUD applications in a computer readable format, the agency intends to have procedures for handling such submissions established in the future. FDA will announce the availability of such procedures when they are established.

F. Investigational Plan

Proposed § 812.25(c)(2) contains a requirement that the investigational plan provide a statement describing the disease or condition that the HUD is intended to be used to treat or diagnose, other demographic characteristics of the patient population, including size and justification of patient population selection, and reference sources.

G. FDA Action on Applications

Proposed § 812.30(d) states that an application for a HUD must be submitted in accordance with §§ 812.20 and 812.25. FDA will notify the sponsor of the duration of the exemption (§ 812.30(d)(2)) and of the sponsor's opportunity to obtain an extension (§ 812.30(d)(3)). These procedures would be in addition to the procedures (§ 812.30(a), (b), and (c)) applicable to any other IDE application.

Under proposed § 812.30(d)(4), FDA enumerates the reasons why it may disapprove an application for a HUD. Proposed § 812.30(e) prescribes the criteria for withdrawal of approval for an IDE application for a HUD granted under proposed §§ 812.10 and 812.30(a). If FDA determines that the application does not meet the requirements of this part, FDA may issue an order of withdrawal of approval. The order would include a statement of reasons for the action.

H. Extensions

Proposed § 812.35(c) describes the conditions under which a sponsor may obtain extensions of exemptions. A request for an exemption extension which would allow the continuation of the investigation would have to contain any relevant new information as to the safety and effectiveness of the HUD or the prevalence of the disease or condition for which the exemption was first approved, in accordance with § 812.35(a) and proposed §§ 812.20(e) and 812.25(c), and must be submitted at least 30 days prior to the expiration of the original or current term of the exemption.

This proposed regulation also implements Congress' mandate (section 520(m)(2) and (m)(3) of the act) that the HUD exemptions be for a period of 18 months initially, with extensions for periods of 18 months each, provided that the requirements of proposed §§ 812.20 (e) and 812.7(b) are met.

I. Confidentiality of Data and Information

Proposed § 812.38(e) prescribes the rules governing confidentiality of data and information in an application for a HUD. For the most part, the rules on confidentiality of data and information in IDE's, generally, would apply to HUD IDE's. However, FDA proposes to publicize both the existence of HUD IDE's and to make available limited information about the IDE so that physicians and patients may benefit from the devices. This proposed disclosure would go beyond what the agency usually releases concerning IDE's and most IND's but is consistent with how the agency releases information concerning treatment IND's and concerning efficacy studies for AIDS drugs. The information that FDA proposes to disclose under § 812.38(e) would include, for example, the identity of the product, disease or condition to be treated, patient inclusion criteria, and the contract person within the sponsoring firm where further information is available.

J. Certification

FDA is proposing to require that each sponsor who submits an application for a HUD certify to the truthfulness and accuracy of the submission.

III. Environmental Impact

The agency has determined under 21 CFR 25.24(a)(8) that this action is of a type that does not individually or cumulatively have a significant effect on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

IV. Economic Impact

The agency concludes that the proposed rule is not a major rule as defined in Executive Order 12291. Further, the agency certifies that the proposed rule, if implemented, will not have a significant economic impact on a substantial number of small entities, as defined in the Regulatory Flexibility Act (Pub. L. 96–353).

The purpose of this proposed rule is to reduce the requirements imposed on sponsors for conducting research and development activities on devices intended for use in diagnosing or treating small populations. This objective was specified in section 14 of the provisions of the SMDA. Congress believed that full application of the current IDE requirements may be hindering the development of devices intended for use in populations of 4,000 patients or fewer. This proposal sets forth the IDE requirements which can be waived by sponsors of HUD's, including certain recordkeeping and reporting requirements normally applied to investigational devices. These waivers will lead to significant cost savings for the sponsor of HUD's. The agency expects to receive HUD waiver requests for about 10 devices per year, on the average.

In sum, the impact of this rule would be to reduce the burdens of sponsors of humanitarian devices. Therefore, the rule would have no adverse impact on industry, and it would not have a significant economic impact on a substantial number of small entities.

V. Paperwork Reduction Act of 1980

This proposed rule contains information collections which are subject to review by the Office of Management and Budget under the Paperwork Reduction Act of 1980. The title, description, and respondents of the information collection are shown below with an estimate of the annual recordkeeping and periodic reporting burden.

Title: Medical Devices; Humanitarian Use Devices.

Description: FDA is proposing regulations to implement the provisions of the SMDA regarding HUD's. A HUD, i.e., a device which is designed for use in the treatment or diagnosis of a disease or condition that affects fewer than 4,000 individuals in the United States, is exempt from the effectiveness requirements of sections 514 and 515 of the act. In order to implement this exemption, FDA is proposing to amend the IDE regulations. These proposed regulations prescribe the procedures and conditions for obtaining an IDE for a HUD and provide for certain waivers from the IDE regulation for a HUD.

Description of Respondents: Businesses or other for profit.

ESTIMATED ANNUAL REPORTING AND RECORDKEEPING BURDEN

	Annual No. of respondents/ recordkeepers	Responses per respondent	Total responses/hours per recordkeeper	Annual hours per response	Annual burden hours
812.20 and 812.25	10	1	10	56	560
812.35	10	1	10	56	560
Total					1,120

VI. Effective Date

FDA proposes that any final rule based on this proposal would become effective 30 days after the date of publication of the final rule in the **Federal Register.**

VII. Request for Comments

Interested persons may, on or before February 19, 1993, submit to the Dockets Management Branch (address above) written comments regarding this proposal. Two copies of any comments are to be submitted, except that individuals may submit one copy. Comments are to be identified with the docket number found in brackets in the heading of this document. Received comments may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

List of Subjects in 21 CFR Part 812

Health records, Medical devices, Medical research, Reporting and recordkeeping requirements.

Therefore, under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Commissioner of Food and Drugs, it is proposed that 21 CFR part 812 be amended as follows:

PART 812—INVESTIGATIONAL DEVICE EXEMPTIONS

1. The authority citation of 21 CFR part 812 is revised to read as follows:

Authority: Secs. 301, 501, 502, 503, 505, 506, 507, 510, 513–516, 518–520, 530–542, 701, 702, 704, 706, 801 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 331, 351, 352, 353, 355, 356, 357, 360, 360c–360f, 360h–360j, 360gg–360ss, 371, 372, 374, 376, 381); secs. 215, 301, 351 of the Public Health Service Act (42 U.S.C. 216, 241, 262).

2. Section 812.1 is amended by redesignating paragraph (b) as paragraph (c) and by adding new paragraph (b) to read as follows:

§ 812.1 Scope.

* * * * *

(b) This part also provides procedures for the use of humanitarian use devices (HUD's) intended to benefit patients in the treatment and diagnosis of diseases or conditions that affect fewer than 4,000 individuals in the United States, and, as such, implements section 520(m) of the act with respect to HUD's.

* * * * *

3. Section 812.2 is amended by revising paragraph (e) to read as follows:

§ 812.2 Applicability.

* * * * *

(e) *Humanitarian use devices.* Use of HUD's is subject to those requirements of this part that have not been waived under § 812.10(b).

4. Section 812.3 is amended by redesignating paragraphs (d) through (s) as paragraph (e) through (t), respectively, and by adding new paragraph (d) to read as follows:

§ 812.3 Definitions.

* * * * *

(d) *Humanitarian use device* (HUD) means a device that is intended for use in the treatment or diagnosis of a disease or condition that affects fewer than 4,000 individuals in the United States and that otherwise meets the requirements in 21 U.S.C. 360j(m)(2). A device may qualify as a HUD whether or not it also qualifies as a "significant risk device." The device may have other uses than humanitarian uses, but a waiver of requirements listed in § 812.10(d)(2) may be obtained only for humanitarian uses.

* * * * *

5. Section 812.10 is amended by adding new paragraph (d) to read as follows:

§ 812.10 Waivers.

* * * * *

(d) *HUD waivers.* A sponsor may request that FDA waive the requirements of those provisions listed in paragraph (d)(2) of this section for HUD's.

(1) Any application submitted under this section for a HUD shall, on its face, be presumed to include a request for a HUD waiver if it includes all the information listed in §§ 812.20 and 812.25 specific to HUD's.

(2) An application for a HUD is exempted from the following provisions of this part:

(i) Section 812.20 (b)(4), (b)(5), (b)(6), and (b)(7).

(ii) Section 812.25 (h), (i), and (j).

(iii) Section 812.35(b).

(iv) Section 812.140 (a)(1), (a)(2), (a)(4), and (a)(5).

(v) Section 812.150 (a)(4), (b)(4), (b)(6), and (b)(9).

6. Section 812.20 is amended by adding new paragraph (e) to read as follows:

§ 812.20 Application.

* * * * *

(e) *Information required for HUD's.* A sponsor of an application for a HUD who wishes a waiver pursuant to the provisions of the Safe Medical Devices Act of 1990 shall submit evidence that:

(1) The device is designed to treat or diagnose a disease or condition that affects fewer than 4,000 individuals in the United States as of the date of submission of the application;

(2) The device would not be available to a person with a rare disease or condition unless the Secretary of Health and Human Services grants such an exemption and there is no comparable device, other than under this exemption, available to treat or diagnose such disease or condition; and

(3) The device will not expose patients to an unreasonable or significant risk of illness or injury and the probable benefit to health from the use of the device outweighs the risk of injury or illness from its use, taking into account the probable risks and benefits of currently available devices or alternative forms of treatment.

7. Section 812.25 is amended by redesignating the existing text of paragraph (c) as paragraph (c)(1) and by adding new paragraph (c)(2) to read as follows:

§ 812.25 Investigational plan.

* * * * *

(c) *Risk analysis.* (1) * * *

(2) For HUD's a statement:

(i) Describing the disease or condition the humanitarian device is intended to be used to treat or diagnose,

(ii) The size and other known demographic characteristics of the patient population affected,

(iii) The source of the information (documentation, with copies of authoritative references), and

(iv) The justification for the patient population selected.

* * * * *

8. Section 812.30 is amended by adding new paragraphs (d) and (e) to read as follows:

§ 812.30 FDA action on applications.

* * * * *

(d) *Application for a HUD.* (1) An application for a HUD must be submitted in accordance with proposed §§ 812.20 and 812.25.

(2) If FDA approves the application, the period of the exemption or approval will be for 18 months.

(3) FDA may, by letter, approve an extension of the investigation more than once by 18-month increments. The investigation may be extended after the expiration of the 5-year period that begins on the effective date of this regulation, as provided for in section 520(m)(5) of the act.

(4) FDA shall approve an application for a HUD unless it makes one or more of the findings set forth in paragraph (b) of this section or one or more of the following findings:

(i) The device does not meet the requirements of section 520(m)(1) of the act for a HUD.

(ii) The device is indicated for an artificially small group or narrow indication that is not medically justified.

(iii) The report of prior investigations of the device is inadequate to support a conclusion that it is reasonably safe to begin or continue the proposed investigational study for a HUD.

(iv) The sponsor's proposed use of the device is not intended solely for an investigational study and is being or is to be sold or otherwise commercially distributed in a manner not justified by the requirements of the investigational study and not permitted by this part.

(e) *Revocation of an application for a HUD.* (1) FDA may withdraw approval of an application for a HUD at any time if the agency makes one or more of the findings in paragraph (b) of this section or one or more of the following findings:

(i) There has been failure to comply with any requirement of section 520(m) of the act, or of any condition of approval imposed by the IRB or FDA.

(ii) The device was ineligible for humanitarian use at the time the application was submitted.

(2) FDA will not withdraw approval of an application for a HUD solely because the prevalence of the disease or condition for which it is intended subsequently exceeds 4,000 people in the United States, but this fact would serve as a basis for disapproving an extension request and for directing the sponsor to comply fully with the requirements of this part.

9. Section 812.35 is amended by adding new paragraph (c) to read as follows:

§ 812.35 Supplemental applications.

* * * * *

(c) *Request for an extension of a HUD investigation.* (1) A sponsor of an application for a HUD may request FDA to approve an extension under this part. A sponsor shall submit three copies of the extension request with supporting documentation in accordance with § 812.35(a). The supplemental application must also include any new information required in §§ 812.20 and 812.25(c).

(2) The extension request shall be submitted in writing at least 30 days prior to the expiration date of the original term of the investigation approval or of the previous extension.

(3) The extension request shall include, in the following order:

(i) The name and address of the sponsor.

(ii) The IDE identification number.

(iii) The name of the device.

(iv) The reason for the extension request, including any changes or modifications anticipated in the study.

(v) A summary of the current investigation, including safety data, adverse reactions and complications, device failures, and patient benefit assessment.

(4) FDA will approve an extension for a period of 18 months if it finds that the IDE status is still applicable under § 812.30(e) but not if prevalence of the disease exceeds 4,000 individuals in the United States as of the time of submission of the extension application.

10. Section 812.38 is amended by adding new paragraph (e) to read as follows:

§ 812.38 Confidentiality of data and information.

* * * * *

(e) *Availability of data and information in HUD applications.* (1) Except as provided in paragraph (e)(2) of this section, FDA will follow paragraphs (a) through (d) of this section in determining the public availability of data and information on IDE applications for HUD's.

(2) Upon final FDA approval of the IDE application for a HUD, FDA will make publicly available such information on the application as the identity of the device, the disease or condition to be treated, patient exclusion criteria, and the name, address, and telephone number of the sponsor's contact person.

11. New § 812.39 is added to subpart B to read as follows:

§ 812.39 Certification.

Any sponsor who submits an application for a HUD shall certify to the truthfulness and accuracy of the submission with the following statement:

I certify that, to the best of my knowledge, the data and information provided in this submission are true and accurate.

Dated: August 21, 1992.

David A. Kessler,

Commissioner of Food and Drugs.

Louis W. Sullivan,

Secretary of Health and Human Services.

Internal Revenue Service

26 CFR Part 1

[CO-049-88]

RIN 1545-AL58

Allocation of Income and Loss to Periods Before and After the Change Date for Purposes of Section 382; Correction

AGENCY: Internal Revenue Service, Treasury.

ACTION: Correction to notice of proposed rulemaking.

SUMMARY: This document contains a correction to proposed regulations (CO-049-88), which were published Thursday, November 19, 1992 (57 FR 54535). The proposed regulations provide rules for allocating net operating loss or taxable income and net capital loss or gain between the period ending on the change date and the period beginning on the day after the change date.

FOR FURTHER INFORMATION CONTACT: Roberta F. Mann, 202-622-7550 (not a toll-free number).

SUPPLEMENTARY INFORMATION:

Background

This notice of proposed rulemaking that is the subject of these corrections relates to section 382 of the Internal Revenue Code.

Need for Correction

As published, the proposed rulemaking contains errors which may prove to be misleading and are in need of clarification.

Correction of Publication

Accordingly, the publication of the proposed regulations (CO–049–88), which was the subject of FR Doc. 92–27742, is corrected as follows:

On page 54539, column 1, in § 1.382–6(f), line 1, the language "*Examples.* The rules of section are" is corrected to read "*Examples.* The rules of this § 1.382–6 are".

Dale D. Goode,

Federal Register Liaison Officer, Assistant Chief Counsel (Corporate).

BILLING CODE 4830–01–M

DEPARTMENT OF THE INTERIOR

National Park Service

36 CFR Part 7

RIN: 1024–AB10

Everglades National Park; Special Regulations

AGENCY: National Park Service, Interior.

ACTION: Proposed rule.

SUMMARY: The proposed rulemaking set forth below completely revises the special regulations for Everglades National Park and accomplishes the following: Deletes obsolete mining and commercial fishing regulations; enables the park to adopt State fishing regulations; clarifies the authority of the Superintendent to closely regulate fishing, boating, and significant wildlife habitat sites; specifically closes accessible marine wilderness areas to the use of motorized vessels; prohibits the use of personal watercraft and hovercraft; prohibits the possession as well as the taking of any marine life (including lobster species, ornamental tropical fish, or conch species) other than shrimp, bait or recreational finfish and shellfish species in the park; addresses the activities of commercial guide fishing within the park; and redefines "commercial fishing" to include the commercial taking of sponges and other non-edible marine life.

This rulemaking will be beneficial in that it will eliminate obsolete regulations, remove expired material from the Code of Federal Regulations pertaining to commercial fishing which is now prohibited, will provide for consistency with State fishing rules, and will ensure protection of park resources.

It should be noted that on August 5, 1986, the National Park Service published an earlier version of this proposal as a proposed regulation in the Federal Register (51 FR 28108).

Due to the six year lapse which has occurred since that publication, and due to several changes which have since been incorporated into these proposed regulations, it is felt that a new publication as a proposed rule is warranted, which will allow for greater public comment.

DATES: Written comments, suggestions, or objections will be accepted until January 21, 1993.

ADDRESSES: Comments should be directed to: Superintendent, Everglades National Park, PO Box 279, Homestead, FL 33030.

FOR FURTHER INFORMATION CONTACT: Ken Morgan, Everglades National Park, PO Box 279, Homestead, FL 33030. Telephone (305) 242–7730.

SUPPLEMENTARY INFORMATION:

Background

The National Park Service is proposing to revise the special regulations of the park in order to, among other things, delete obsolete mining rules found in the special regulations for Everglades National Park.

Provisions of the acts of October 10, 1949 (63 Stat. 733), and July 2, 1958 (72 Stat. 280), which will be referred to as "the acts of 1949 and 1958", allowed mineral owners within Everglades National Park to explore for and develop their mineral properties until October 9, 1967. The acts of 1949 and 1958 also provided that if any production of oil or gas occurred during that period, the right to explore and develop would be extended for all mineral owners for the life of such production. At least four exploratory oil and gas wells were drilled during this period, but no discovery was made and no production occurred. Therefore, the provision allowing these activities expired on October 9, 1967.

The acts of 1949 and 1958 also provided that former mineral owners were entitled to customary royalties from any production of their former mineral properties should the Federal government so authorize anytime before January 1, 1985. The Federal government made no such authorization.

The National Park Service adopted special regulations found at 36 CFR 7.45(a) "* * * to govern the exploration, development, extraction, and removal of oil, gas, and other minerals on lands acquired for Everglades National Park * * *" The suspense dates authorized by the acts of 1949 and 1958 for former mineral owners to explore or develop their properties or to benefit from any production by the Federal government have passed. Since Everglades National Park is not at risk from such mineral development, these regulations are no longer necessary and should be deleted.

The National Park Service is also proposing to revise the paragraph at 7.45(c) on prohibited conveyances within Everglades National Park. Sections prohibiting the use of glades buggies and amphibious wheeled vehicles have been deleted as unnecessary and duplicative. The Service's general regulation found at 36 CFR 4.10 prohibits the use of all motor vehicles off established roads and parking areas. This provision provides Everglades with adequate authority to enforce its prohibition.

This paragraph has been further revised, at proposed 7.45(b), to provide clarification to the existing prohibition on the use of vessels or other conveyances with underwater propellers or jets in the water of any grass or marsh area of the park. The existing provision prohibits such use in the "grass area of glades". This phrase is ambiguous and clarification was determined to be necessary. The park believes this proposed prohibition remains necessary to prevent jet skis and small motor boats from operating in marsh areas. Such operation can be destructive to vegetation and disturbing to wildlife.

Three definitions have been revised and three added, at a new § 7.45(d), (existing section is designated as § 7.45(e)). The definition of "guide fisherman" has been revised to delete the phrase "interpretation of the natural resources" in order to drop the requirement for reporting data from persons who are not fishing. Since the current definition was adopted, a number of persons have begun providing birdwatching and sightseeing service, but do not offer fishing trips within the park. By eliminating them from the requirement of obtaining guide fishing permits, the fishing data from monthly guide reports will remain accurate and reflective purely of fishing effort. The term "commercial fishing" has been revised in order to conform with state law which includes all individuals harvesting marine products and to provide additional protection to the marine resources of the park, including commercially attractive sponges. The term "ornamental tropical fish" has been revised to provide consistency with state laws and to provide a definition more easily understood by persons unfamiliar with latin names. A definition of oysters has been added, as the park wishes to adopt state regulations to provide for the

protection of these marine mollusks. Definitions of "hovercraft" and "personal watercraft" have been added since both these activities are proposed to be prohibited by the special regulations of the park. The use of either hovercraft or personal watercraft over emergent vegetation, shallow grass flats, and mud flats commonly used by feeding shore birds is deemed to be inconsistent with the purpose and values for which the park was established. These types of activity are damaging to vegetation and disturbing to the life cycles of the wildlife this park protects.

Several paragraphs at existing § 7.45(f) concerning commercial fishing activities are proposed for deletion because they regulate an activity which has been eliminated from the park since December 31, 1985. The changes remove obsolete language and delete existing §§ 7.45(f)(5), (7), (8), (10), (12), and (14). A new paragraph, § 7.45(e)(5), prohibits commercial fishing, replacing the existing § 7.45(h).

Several paragraphs regulating recreational fishing are also proposed for revision. One proposed change deletes the existing restriction at § 7.45(f)(6) that cast nets may not exceed 12 feet in diameter. There appears to be no sound ecological or environmental reason to restrict the size of cast nets. The proposed change, at § 7.45(e)(10) would bring this park regulations into conformity with existing State regulation and common fishing practice.

Another proposed revision, at § 7.45(e)(12), will allow the staff of Everglades National Park to enforce more restrictive state bag limits for saltwater species. The State of Florida's Marine Fisheries Commission asked the National Park Service to propose this regulatory change and the Service acknowledges that this change would benefit the marine resource and the public by bringing the park into conformity with state laws.

Pursuant to Chapter 80–162, Laws of Florida, a Saltwater Fisheries Study and Advisory Council was appointed by the Governor to recommend to the State Legislature a comprehensive saltwater fishery conservation and management policy. In keeping with this charge, the Council holds public hearings and drafts rules to govern fishing activities within the fisheries of the State of Florida. To date, rules have been promulgated setting seasons, size limits, and bag limits for various species of saltwater gamefish. However, there is concern among fishermen, the park, and the State over the apparent conflict of bag limits set by the Council and those prescribed in the existing regulations which limits possession to ten (10) fish of one species, excluding bait fish, and not totally more than twenty (20) fish of all species. Specifically, in the cases of such popular and stressed species as snook, tarpon, red drum, bonefish, grouper, snapper, and tarpon, the State of Florida has acted, based on professional fisheries management principles, to restrict possession of these species to limits far lower than the park's ten fish per species limit. The National Park Service does not wish to retain unmodified, a regulation that conflicts with such State regulatory actions, and fails to provide appropriate protection to species under great fishing pressure. The proposed regulation provides a more direct avenue for the National Park Service to assimilate and enforce more restrictive State bag limits.

The taking of both oysters and shrimp for personal consumption are traditional uses of the resources of the salt waters of the park. The state has recently developed regulations to further protect these species throughout the state. The assimilation of these rules, again through the proposed revision at § 7.45(e)(12), would produce conformity with state regulations and provide protection to the resource while still permitting this use which is deemed to be consistent with fishing and marine recreation.

Another proposed change is the addition of a prohibition against possession of marine animals which are already protected from taking. The existing regulation at § 7.45(f)(2) prohibits the taking, but not the possession of seahorses, starfish, spiny lobster, ornamental tropical fish, and nonfood fish as defined by the State of Florida. The park believes that to allow for effective enforcement and protection of the resource, possession must be included in the new paragraph, designated as § 7.45(e)(6). This change also makes this provision consistent with the paragraph which prohibits the taking or possession of fish in excess of established bag limits.

Existing § 7.45(f)(13) allowing for the non-commercial taking of oysters by hand and rake, has been amended by the addition of tongs as an approved method of harvest at a new § 7.45(e)(9). Depending upon local vernacular, rake and tongs are often used interchangeably and in any case, are hand-operated devices posing no threat to the resource.

Three separate paragraphs have been added at § 7.45(c)(1), (e)(1), and (f)(1) to clarify the authority of the Superintendent to more closely regulate three of the most significant and popular visitor uses within the park. Service-wide regulation changes in 1983 (48 FR 30252) established a uniform administrative framework for the exercise of a Superintendent's closure and public use control authority. Fishing and boating are probably the two most popular activities for visitors to the park with the potential to adversely affect the resource. Furthermore, viewing the wading-bird and coastal-bird populations of the Everglades is one of the most popular activities within the park. All three of these uses requires close and attentive management in order to provide the delicate balance of protecting the resources while providing for recreation, enjoyment and educational opportunities for the public. Since bird and wildlife populations migrate throughout the seasons and from year to year, the ability to close or limit access to certain areas is essential to the sound and flexible management of the resource.

Additionally, the Service feels that the use of a flexible closure authority, as specified in the paragraph above, would provide more efficient protection to the American Crocodile, an endangered species. The Service could then easily close or limit access to areas the crocodile migrates to, or open an area the crocodile no longer uses. The current regulations (existing § 7.45(g)(4)), established in February, 1980, (45 FR 10350) totally closed many of the small bays, sounds, and creeks in upper Florida Bay to all public entry in order to provide protection for endangered species, primarily the American Crocodile. Other endangered species which may occasionally inhabit these areas include the Kemp's Riddley sea turtle and West Indian manatee. At the time this "sanctuary" type closure was enacted, the American alligator and Loggerhead sea turtle, were also listed as endangered; the Loggerhead sea turtle is now listed as threatened and the alligator is no longer on either list. When this closure was enacted, commercial net fishing was still permitted and would remain permitted for another six (6) years. In addition to protecting the crocodile, this "sanctuary" type protection was deemed necessary at that time in order to provide strong protection to all endangered species from the possibility of being entangled in the nets of fishermen who might unknowingly enter these areas. Commercial fishing was prohibited in all waters of the park after December 31, 1985, and the need to keep these areas closed in order to provide protection to endangered species from fishing nets has dissipated.

During the printing of the existing regulations in the **Federal Register** (45 FR 10350), the Service recognized that a "sanctuary" for the crocodile was an untested concept and that additional long-term observations and study would need to be conducted to evaluate this level of protection. During the intervening time period, there have been several studies of the crocodile within Everglades National Park which have resulted in publications. These include: F.J. Mazzotti's "The Ecology of *Crocodylus acutus* in Florida" (1983), D.L. Stoneburner and J.A. Kushlan's "Heavy Metal Burdens in American Crocodile eggs from Florida Bay, Florida, USA" (1984), J.A. Kushlan's "Conservation and Management of the American Crocodile" (1988), J.A. Kushlan and F.J. Mazzotti's "Population Biology of the American Crocodile" (1989), and F.J. Mazzotti and L.A. Brandt's "Evaluating the Effects of Ground Water Levels on the Reproductive Success of American Crocodiles in Everglades National Park" (1989). These studies and a further assessment of the crocodile sanctuary are discussed in "A Draft Assessment of Recreational Boating and its Potential Impact on Resources Within the Crocodile Sanctuary of Everglades National Park" (1992), by National Park Service employee Skip Snow.

During this period, the National Park Service has observed the crocodile population expand out of the sanctuary, to other areas such as Flamingo and Cape Sable, which experience high visitor use. During numerous human/crocodile encounters in the part, it appears that nonaggressive human activity has little affect on crocodiles except during the reproductive months from nest preparation to the dispersal of hatchlings. Accordingly, the Service is proposing to delete existing § 7.45(g)(4) which closed specific areas and instead protect the species with proposed §§ 7.45(c)(1) and (f)(1). These proposed paragraphs would provide the Superintendent with a practical method to provide for the protection of this species, by easily closing or limiting access to areas the crocodile migrates to, or by opening an area the crocodile no longer uses.

It is anticipated that the Superintendent will immediately use this authority to close the areas of Snag Bay, Joe Bay, Mud Creek, Mud Bay, East Creek, East Creek Ponds, and Taylor River from March 1 to November 15 of each year, during the stages of nest preparation, nesting, and hatchling dispersal. Currently, those areas are closed to all entry and the proposed regulation would allow for those areas to again be open to public use from mid-November through February. The areas of Little Madeira Bay and the creeks inland from the northern shoreline of Long Sound would be opened year-round. Davis Creek and the mainland shoreline from Terrapin Point eastward to Highway U.S. 1 are expected to remain closed year round. The exact areas and the specific time periods of this closure may be altered to provide the protection necessary for the crocodile. Additionally, some of these previously closed waters would be subject to other limitations, such as "no wake zones" or the prohibition against the use of motors in areas of wilderness designation.

The Service proposes to add a new paragraph at § 7.45(f)(4) which prohibits the use of motorized vessels within the accessible marine wilderness areas. Most of these waters have been closed to motorized vessels based on wilderness designation (established by Pub. L. 95–625) but these closed areas have not been specifically codified. Other areas have enjoyed additional protection by virtue of the regulations designed to protect the crocodile population. While the need to manage closures to protect wildlife requires flexibility, the closure of the marine wilderness areas can, and the Service believes should, be accomplished through a specific regulation. The waters of Mud, Bear, East Fox, Middle Fox, Little Fox, and Gator Lakes, Homestead Canal, Cuthbert, Henry, Little Henry, and Long Lakes, the Lungs Lakes, Alligator Creek form the shoreline of Garfield Bight, all associated small lakes on Cape Sable inland from Lake Ingraham, and all of the creeks and inland lakes north of Long Sound, Joe Bay, and Little Madeira Bay except those ponds and lakes associated with Taylor River have been closed in the past to all vessels or to motorized vessels and are proposed to remain closed to motorized vessels. The waters of Monroe Lake, Oyster Creek, Middle Lake, and Seven Palm Lake were included in the wilderness plan approved in Pub. L. 95–625 but have not been posted as closed to motorized vessels in the past. The National Park Service proposes to close these waters to motorized vessels through these regulations.

The freshwater lakes and ponds immediately adjacent to the park's visitor contact stations and two other ponds have long been closed, by the authority of the Superintendent, to all vessels. This has helped provide the wildlife with a relatively undisturbed habitat at areas where a large number of visitors can readily observe them. Since these areas will not change, the Service wishes to provide these areas with the protection offered by specific regulations. The Service proposes, at § 7.45(f)(2), to prohibit the use of boats at Eco Pond and Mrazek Pond, two locations along the Main Park Road where bird life tends to congregate, and at the ponds around Royal Palm Visitor Center, Parachute Key Visitor Center, and the two lakes at Chekika.

The Service wishes to modify the existing regulation at § 7.45(g)(3) which prohibits motorized vessels from several inland freshwater areas. The proposed regulation, at § 7.45(f)(3), would delete Parachute Key Ponds, Royal Palm Ponds, and Mrazek Pond from this prohibition, since those areas are proposed for inclusion in the paragraph prohibiting all vessel use. Additionally, two small lakes, Tower Lake and Hidden Lake are proposed to be included within this use restriction. Both of these areas are small, easily accessible lakes which are not conducive to frequent use by motorized vessels.

The Service proposes to modify existing regulations limiting the use of motorized vessels on the waters of two small lakes. The present regulations at § 7.45(g)(1) provide the Superintendent with authority to close West Lake and West Lake Pond to the use of all motorized vessels. This regulation also allows the Superintendent to open these two bodies of water to vessels powered by no greater than 5½ horsepower motors. Due to the existence of current industry wide standards, which did not exist at the time the present regulations were drafted, almost all manufacturers build small outboards of 6 horsepower instead of 5½. The Service wishes to revise this paragraph at the proposed § 7.45(f)(6) to allow for the use of motors not to exceed 6 horsepower. This revision still provides for the protection of the resource by preventing motors from being used which are large enough to disturb the fish or bottoms of the lakes. At the same time, this revision would allow for the use of modern motors which meet the intent, but not the definition of the present regulation.

The Service also proposes to modify the existing regulation at § 7.45(f)(1) requiring persons engaged in guide fishing in the park to obtain a park permit. The proposed new paragraph at § 7.45(e)(4) deletes references to obsolete commercial fishing references as well as providing a prohibition against guide fishing without a permit. The Service is also proposing a new § 7.45(e)(12) to limit the number of fish which may be taken by persons engaged in guide fishing within the park. The

Service has received numerous verbal comments by park users complaining that guides frequently keep the allowable bag limit of fish for all of their clients as well as themselves. While the Service does not wish to prevent guides from catching or keeping fish, there does not seem to be any need for guides to keep large numbers of fish on a daily or routine basis for their personal consumption. Further, the Service believes that the primary benefit of a guide within the National Park is to offer a professional service to the visitor, providing the visitor with the opportunity to recreationally enjoy the resources of the park. The Service proposes to allow guides to continue fishing, while at the same time preserving the resource, by limiting the number of fish allowed aboard a guide's vessel to the number of fish legally allowed by the clients on board at the time.

Public Participation

The policy of the Department of Interior is, whenever practicable, to afford the public an opportunity to participate in the rulemaking process. Accordingly, interested persons may submit written comments, suggestions, or objections regarding the proposed special regulation to the address noted at the beginning of this rulemaking.

Drafting Information

The following persons participated in the writing of these regulations: Mark Lewis, Hank Blatt, Rick Dawson and Maureen Finnerty, formerly of Everglades National Park; and Cordell Roy, formerly of Big Cypress National Preserve.

Paperwork Reduction Act

The information collection requirements contained in proposed paragraph (f)(1) have been approved by the Office of Management and Budget under 44 U.S.C. 3501 *et. seq.* and assigned clearance #1024–0026.

Compliance With Other Laws

The Department of the Interior has determined that this document is not a major rule under Executive Order 12291 and certifies that this document will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*)

This conclusion is based on the fact that the deletion of obsolete and duplicative regulations will have no economic effect. The fishing regulation changes would be minimal, with no negative impact on fishing-related industries adjacent to Everglades National Park. Lower bag limits will improve the available stock in park waters, and consistency with State rules will avoid confusion among visitors fishing in park waters.

The Service has determined that this proposed rulemaking will not have a significant effect on the quality of the human environment, health, and safety. However, this proposed rulemaking does have the potential to affect public access to habitat of the American crocodile, and endangered species. In accordance with the procedural requirements of the National Environmental Policy Act (NEPA) and the Departmental regulations in 516 DM 6, (49 FR 21438), an Environmental Assessment concerning recreational access into the current crocodile sanctuary has been prepared and is undergoing public review.

Pursuant to the section 7 requirements of the Endangered Species Act, the National Park Service has consulted with the U.S. Fish and Wildlife Service regarding the proposed changes in the crocodile sanctuary. The U.S. Fish and Wildlife Service has concurred with these proposals.

List of Subjects in 36 CFR Part 7

National Parks; Reporting and record keeping requirements.

For the reasons set out in the preamble, title 36, chapter I, § 7.45 of the Code of Federal Regulations is proposed to be revised as follows:

PART 7—SPECIAL REGULATIONS, AREAS OF THE NATIONAL PARK SYSTEM

1. The authority citation for part 7 continues to read as follows:

Authority: 16 U.S.C. 1, 3, 9a, 462(k).

2. Section 7.45 is revised as follows:

§ 7.45 Everglades National Park.

(a) *Information collection.* The information collection requirements contained in this section have been approved by the Office of Management and Budget under 44 U.S.C. 3501 *et. seq.*, and assigned clearance number 1024–0026. This information is being collected to solicit information necessary for the superintendent to issue permits used to grant administrative benefits. The obligation to respond is required to obtain a benefit.

(b) *Prohibited conveyances.* Only hand-propelled vessels may be operated upon those areas of emergent vegetation commonly called marshes, wetlands, or "the glades". Operation of a motorized vessel in such areas is prohibited.

(c) *Closures.* (1) The Superintendent may close an area to all persons, in accordance with section 1.5 of this chapter. Notice of the closing shall be given by the posting of appropriate signs.

(2) Entering any area closed to public entry is prohibited.

(d) *Definitions.* The following definitions shall apply to this section:

(1) The term *ballyhoo* means a member of the genus *Hemiramphus* (family: Exocoetidae).

(2) The term *cast net* means a type of circular falling net, weighted on its periphery, which is thrown and retrieved by hand.

(3) The term *commercial fishing* means the activity of taking or harvesting or attempting to take or harvest any edible or non-edible form of sea life for the purpose of sale or barter.

(4) The term *dipnet* means a hand-held device for obtaining bait, the netting of which is fastened in a frame.

(5) The term *guide fishing* means the activity, by a person, group of people, firm, or corporation, to provide a service for hire to visitors of the park for the purpose of fishing.

(6) The term *hovercraft* means a vessel or craft which is supported by a fan or turbine generated cushion of air.

(7) The term *minnow* means a fish used for bait from the family Cyprinodontidae, Poeciliidae, or Atherinidae.

(8) The term *mojarra* or *goats* means a member of the family Gerreidae.

(9) The term *mullet* means a member of the family Mugilidae.

(10) The term *ornamental tropical fish* means a fish of minimal sport or food value, usually brightly colored, often used for aquarium purposes and which live in close relationship to coral communities, belonging to the families Syngathidae, Apogonidae, Pomacentridae, Scaridae, Blennidae, Callionymidae, Godiidae, Ostraciidae, or Diodontidae.

(11) The term *oyster* means a mollusk of the suborder Ostreecea.

(12) The term *personal watercraft* means a vessel designed to be powered by a water-jet or an enclosed propeller or impeller system, and where persons ride primarily on or behind the vessel, as opposed to inside; sometimes referred to as "thrill craft".

(13) The term *pilchard* means a member of the herring family (Clupeidae), generally used for bait.

(14) The term *pinfish* means a member of the genus *Lagodon* (family: Sparidae).

(15) The term *shrimp* means a member of the invertebrate family Penaeidae.

(16) The term *spiny lobster* (crawfish) means an invertebrate of the genus *Panulirus*.

(e) *Fishing.* Except as otherwise provided in this section or in § 2.3 of this chapter, fishing is governed by applicable State law, including State licensing requirements.

(1) The Superintendent may close an area to all fishing, in accordance with § 1.5 of this chapter. Notice of the closing of the area shall be given by the posting of appropriate signs.

(2) The following described areas are closed to all fishing.

(i) All waters of T. 58 S., R. 37 E., sections 10 through 15, inclusive, measured from Tallahassee meridian and base, in the vicinity of Royal Palm Visitor Center, except Donut or Hidden Lake and Pine Island Lake.

(ii) All waters in T. 54 S., R. 36 E., sections 19, 30, and 31, and in T. 55 S., R. 36 E., sections 6, 7, 18, 19, and 30, measured from Tallahassee meridian and base, in the vicinity of Shark Valley Loop Road from Tamiami Trail south.

(3) Fishing in any area closed to fishing is prohibited.

(4) A person, firm, or corporation engaged in guide fishing in the waters of the park open for this purpose must possess a guide fishing permit issued by the Superintendent and administered under the terms of § 1.6 of this chapter. Guide fishing without a valid permit is prohibited.

(5) Commercial fishing is prohibited.

(6) Except for taking of finfish, shrimp, bait, crabs, and oysters as provided in this section, the taking, possession, or disturbance of any marine life is prohibited.

(7) The taking, possessing, or disturbance of any ornamental tropical fish is prohibited.

(8) Recreational crabbing for stone or blue crabs may be conducted using attended gear only and no more than five (5) traps per person. Persons using traps must remain within one hundred (100) feet of those traps. Unattended gear or use of more than five (5) traps per person is prohibited.

(9) The taking of oysters from the waters of the park is prohibited, except by hand, rake, or tongs, for personal use.

(10) Shrimp, mullet, and bait fish (minnows, pilchards, pinfish, mojarras, ballyhoo or bait mullet (less than 8 inches in total length) may be taken with hook and line, dipnet (not exceeding 3 feet at its widest point) or by cast net, for use as bait or for personal consumption.

(i) No live bait may be taken for the purpose of sale.

(ii) A dipnet or cast net may not be dragged, trawled, or held suspended in the water.

(iii) Mullet taken for personal consumption must meet bag limits specified in paragraph (e)(12) of this section.

(11) Except as provided in this section, no nets, seines, traps, spears, explosives, or other devices for the trapping, catching, taking, harvesting or killing of any edible or nonedible form of marine life, may be placed, used or possessed within the boundaries of the park, except that closely attended hook and line may be used in recreational fishing activities.

(12) Bag Limits:

(i) No person shall take, harvest, or unnecessarily destroy during any one (1) day, or have in his possession at any time, more than:

(A) Ten (10) fish of any one species, excluding bait fish as stated in paragraph (e)(10) of this section.

(B) Twenty (20) fish total, of all species, excluding bait fish as stated in paragraph (e)(10) of this section.

(ii) State regulations for fish species, oysters, and shrimp that are more restrictive than those provided in this section are hereby adopted and supersede the less restrictive provisions of this section.

(iii) A guide fisherman, as stated in paragraph (e)(4) of this section, while engaged in guiding clients, may not have aboard their vessel a greater number of fish than legally allowed by the number of clients aboard their vessel at the time.

(iv) The Superintendent may designate specific bag limits for any other fish species, or may establish limits more restrictive than state law, when necessary to protect the resource, in accordance with § 1.5 of this chapter.

(v) Violating a provision of this section, a State fishing law assimilated, or Superintendent's order adopted, is prohibited.

(13) All fish which do not meet size or species restrictions or which the person chooses not to keep must be returned carefully and immediately to the water. The intentional disturbing of the fish, other than releasing in an expeditious manner, is prohibited. The tagging, marking, fin clipping, mutilation or other disturbance to a fish, prior to release is prohibited without written authorization from the Superintendent.

(14) Fish may not be fileted while on or adjacent to the waters of the park, except that:

(i) Persons may possess up to four (4) filets per person while eating or preparing the filets for immediate cooking and consumption at designated campsites or on board vessels equipped with cooking facilities.

(ii) Persons may possess a greater number of filets while at the designated fish cleaning facility located at Flamingo.

(15) Nets, gear, and fish or other edible or non-edible forms of sea life that are legally possessed in State waters but are illegally possessed in park waters may be transported through the park only over Indian Key Pass, Sand Fly Pass, Rabbit Key Pass, Chokoloskee Pass and across Chokoloskee Bay along the most direct route to or from Everglades City or Chokoloskee Island en route to or from Fakahatchee Bay.

(i) Boats traveling through these passageways with such nets, gear, fish, or other edible products of the sea must remain in transit unless disabled or unless weather and sea conditions combine to make safe passage obviously impossible, at which time the boats may be anchored to await assistance or better conditions.

(ii) Possession of nets, gear, fish, or other edible products of the sea, not otherwise permitted in this section, in waters not specified in paragraph (e)(15) of this section is prohibited.

(f) *Boating.* (1) The Superintendent may close an area to all vessels or to all motorized vessels, or to all motors greater than a specified horsepower or the Superintendent may impose other restrictions as necessary, in accordance with § 1.5 of this chapter. Notice of the closing of the area shall be given by the posting of appropriate signs.

(2) The following areas are closed to all vessels:

(i) Sections 19, 30, 31, Township 54 South, Range 36 East and sections 6, 7, 18, 19, and 30, Township 55 South, Range 36 East, bordering the Shark Valley Loop Road from the Tamiami Trail south.

(ii) Eco Pond, Mrazek Pond, Royal Palm Ponds except for Hidden Lake, Parachute Key Ponds north of the Main Park Road, and Lake Chekika.

(3) The following inland fresh water areas are closed to the use of motorized vessels: Coot Bay Pond, Nine Mile Pond; Paurotis Pond, Sweetbay Pond, Big Ficus Pond, Sisal Pond, Pine Glade Lake, Long Pine Key Lake, Tower Lake, Hidden Lake, Pine Island Pond, and L–67 canal.

(4) The following coastal waters are designated as wilderness and are closed to the use of motorized vessels: Mud, Bear, East Fox, Middle Fox, Little Fox, and Gator Lakes; Homestead Canal; all associated small lakes on Cape Sable inland from Lake Ingraham; Cuthbert, Henry, Little Henry, Seven Palm,

Middle, Monroe, Long, and the Lungs Lakes; Alligator Creek from the shoreline of Garfield Bight to West Lake; all inland creeks and lakes north of Long Sound, Joe Bay, and Little Madeira Bay except those ponds and lakes associated with Taylor River.

(5) Except to effect a rescue, or unless otherwise officially authorized, no person shall land on keys of Florida Bay except those marked by signs denoting the area open, nor on the mainland shorelines from Terrapin Point eastward to U.S. Highway 1, including the shores of all inland bays and waters and those shorelines contiguous with Long Sound, Little Blackwater Sound, and Blackwater Sound.

(6) West Lake Pond and West Lake shall be closed to all vessels during those periods, determined by the Superintendent, that these areas are being used by feeding birds. At all other times, these areas shall be open only to hand-propelled vessels or to Class A motorboats powered by motors not to exceed 6 horsepower that can be launched by hand. Notice of closing shall be given by the posting of appropriate signs at these areas.

(7) Operating, launching or using a motorized vessel in any area closed to the use of motorized vessels is prohibited, except that vessels with motors are not prohibited if the motor(s) are removed from the transom and gunnels of the vessel and stored so as to be temporarily inoperable.

(8) Launching, operating, or using a vessel in any area closed to vessels is prohibited.

(9) Launching, operating or riding behind a personal watercraft is prohibited in the park.

(10) Launching, operating, or using a hovercraft is prohibited in the park.

(11) Vessels used as living quarters shall not remain in or be operated in the waters of the Park for more than 14 days without a permit issued by the Superintendent. Said permit will prescribe anchorage location, length of stay, sanitary requirements and such other conditions as considered necessary.

Dated: November 19, 1992.

Jennifer A. Salisbury,

Deputy Assistant Secretary for Fish and Wildlife and Parks.

[FR Doc. 92-30916 Filed 12-18-92; 8:45 am]

BILLING CODE 4310-70-M

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Chapter I

[PP Docket No. 92-234; DA 92-1692]

Inquiry into Encryption Technology for Satellite Cable Programming

AGENCY: Federal Communications Commission.

ACTION: Proposed rule; Extension of reply comment deadline.

SUMMARY: This action extends the deadline for filing comments in PP Docket No. 92-234 (57 FR 53307, November 9, 1992), an inquiry into encryption technology for satellite cable programming. The new reply comment deadline is January 22, 1993.

DATES: Comments must be filed on or before December 24, 1992 and reply comments must be filed on or before January 22, 1993.

ADDRESSES: Federal Communications Commission, Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Jonathan D. Levy, Office of Plans and Policy, (202) 653-5940.

SUPPLEMENTARY INFORMATION:

Order Extending Deadline for Filing Reply Comments

Adopted: December 11, 1992;
Released: December 14, 1992.

Comment Date: December 24, 1992.
Reply Comment Date: January 22, 1993.

By the Chief, Office of Plans and Policy.

1. The Commission has received a "Request for Extension of Time for Reply Comments" in the above-captioned proceeding. The Satellite Broadcasting and Communications Association (SBCA) filed this request on November 24, 1992, asking for an extension from January 8, 1993 to January 25, 1993.

2. In support of its request, SBCA states that this proceeding, "addresses an issue of substantial interest to the satellite industry" and suggests that the reply comment interval is "a sufficiently compressed period so as to create a serious burden on the parties to the NOI who wish to review carefully the comments filed and prepare their reply comments diligently." Good cause for an extension having been shown, *It is ordered* that the deadline for reply comments in PP Docket No. 92-234 is extended to January 22, 1993. This additional filing time will enhance the ability of commenters in general, and SBCA in particular, to obtain and analyze pleadings in order to submit reply comments that include comprehensive analyses of the issues raised in the Commission's *Notice of Inquiry* in PP Docket No. 92-234. This action is taken pursuant to section 4(i) of the Communications Act of 1934, as amended, under authority delegated to the Chief, Office of Plans and Policy by § 0.271 of the Commission's Rules, 47 CFR 0.271.

Federal Communications Commission.

Robert Pepper,

Chief, Office of Plans and Policy.

[FR Doc. 92-30872 Filed 12-18-92; 8:45 am]

BILLING CODE 6712-01-M

47 CFR Part 76

[MM Docket No. 92-262; FCC 92-540]

Implementation of Section 3 of the Cable Television Consumer Protection and Competition Act of 1992 (Buy-Through Prohibition)

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: The FCC invites comment on interpretation and implementation of the buy-through prohibition of section 623(b)(8) of the Communications Act of 1934, as amended, 47 U.S.C. 543(b)(8). This notice is prompted by section 3 of the Cable Television Consumer Protection and Competition Act of 1992, which became law on October 5, 1992, adding this prohibition to the Communications Act. This action is intended to implement the 1992 Act.

DATES: Comments must be submitted on or before January 13, 1993, and reply comments on or before January 28, 1993.

ADDRESSES: Federal Communications Commission, Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Barrett L. Brick, Cable Television Branch, Mass Media Bureau, (202) 632-7480.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Notice of Proposed Rulemaking in MM Docket No. 92-262, adopted December 10, 1992 and released on December 11, 1992.

The full text of this Notice of Proposed Rulemaking is available for inspection and copying during normal business hours in the FCC Reference Center (room 239), 1919 M Street NW., Washington, DC. The complete text of this decision may also be purchased from the Commission's copy contractor, Downtown Copy Center, (202) 452-1422.

Summary of Notice of Proposed Rulemaking

1. In this notice of proposed rulemaking, the Commission seeks comment on the appropriate interpretation of the buy-through prohibitions of the Cable Television Consumer Protection and Competition Act of 1992, Public Law No. 102–385, 106 Stat. 1460 (1992) (1992 Cable Act). The 1992 Cable Act prohibit cable operators from requiring subscribers to purchase any tier or service, other than the basic service tier, as a prerequisite for purchasing programming on a per channel or per program basis. Certain exceptions to the prohibition are set forth, and the Commission is granted waiver authority under certain circumstances.

2. In order to fashion effective regulations, the Commission seeks information on the current state of industry capabilities to comply with the statute. The Commission seeks information on how widespread various kinds of channel access-relevant equipment are, and how, if at all, particular equipment relates to other system characteristics.

3. The Commission seeks comment upon the types of equipment which would present technological limitations upon compliance with the statute, other than the lack of addressable converter boxes, particularly in the context of cable systems serving multiple community units of varying addressable capabilities, or varying levels of service.

4. The Commission seeks comment on how to implement that portion of the 1992 Cable Act which prohibits per channel and per program price discrimination between basic service tier subscribers and other subscribers, including how to define such discrimination and to determine its existence. The Commission also seeks comment on how to apply the statute's prohibition of evasions in this area, particularly with regard to retiering practices.

5. The 1992 Cable Act provides cable operators who, by reason of non-addressability or other technological limitation, cannot comply with the buy-through prohibition, a 10-year period to come into compliance. The Commission believes that this exemption encompasses non-addressable systems, and seeks comment upon this interpretation. The 1992 Cable Act also provides that should the limitation be eliminated, however, the exemption ceases. The Commission seeks comment on the nature and scope of modifications that would remove a system from the exemption's scope, including modifications to be made over a long period of time, and whether simple or inexpensive modifications can or should be required.

6. The 1992 Cable Act grants the Commission authority to waive the buy-through prohibitions if enforcement would cause a significant rate increase, and if waiver is in the public interest. The Commission seeks comment on what regulations or guidelines, if any, for evaluating such waiver requests should be promulgated at this time. The Commission also seeks comment upon whether cable systems constructed during the 10-year exception period can or must be required to comply immediately with the buy-through prohibition.

7. Finally, the Commission seeks comment upon how to accomplish the statute's directive to design regulations to reduce administrative burdens and costs of compliance for cable systems serving 1000 or fewer subscribers.

Initial Regulatory Flexibility Analysis

8. *Reason for Action:* This proceeding is being initiated to seek comments on the best way to implement section 3(a) of the Cable Television Consumer Protection and Competition Act of 1992, Public Law 102–385, relating to prohibitions on buy-through marketing practices.

9. *Objective of this Action:* The Commission's goal is to provide notice and opportunity to comment to members of the public regarding efficacious implementation of section 3(a) of the 1992 Cable Act.

10. *Legal Basis:* Authority for this proposed rule making is contained in sections 4(i), 4(j) and 303(r) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), 154(j), and 303(r), and section 3(a) of the Cable Consumer Protection and Competition Act of 1992, Pub. L. 102–385 (1992).

11. *Number and Type of Small Entities Affected by the Proposed Rules:* Approximately 30,000 existing cable systems of all sizes may be affected by the proposals contained in this notice.

12. *Reporting, Recordkeeping, and Other Compliance Requirements Inherent in the Proposed Rules:* The Commission is asking for comment on what information should be reported and maintained in order to ensure compliance with the Act.

13. *Federal Rules that Overlap, Duplicate, or Conflict with the Rules:* None.

14. *Any Significant Alternatives Minimizing the Impact on Small Entities Consistent with Stated Objective of the Action:* None. The proceeding does, however, seek comment on how to minimize compliance burdens, if any, on cable systems serving 1000 or fewer subscribers.

15. This is a non-restricted notice and comment rulemaking proceeding. *Ex parte* presentations are permitted, except during the Sunshine Agenda period, provided they are disclosed as provided in Commission Rules. See generally 47 CFR 1.1202, 1.1203, and 1.1206(a).

16. Pursuant to applicable procedures set forth in §§ 1.415 and 1.419 of the Commission's Rules, 47 CFR 1.415 and 1.419, interested parties may file comments on or before January 13, 1993, and reply comments on or before January 28, 1993. To file formally in this proceeding, you must file an original and four copies of all comments, reply comments, and supporting comments. If you want each Commissioner to receive a personal copy of your comments, you must file an original and nine copies. You should send comments and reply comments to Office of the Secretary, Federal Communications Commission, Washington, DC 20554. Comments and reply comments will be available for public inspection during regular business hours in the FCC Reference Center (room 239) of the Federal Communications Commission, 1919 M Street, NW., Washington, DC 20554.

17. As required by section 603 of the Regulatory Flexibility Act, the FCC has prepared an Initial Regulatory Flexibility Analysis (IRFA) of the expected impact of these proposed policies and rules on small entities. The IRFA is set forth in the Appendix. Written public comments are requested on the IRFA. These comments must be filed in accordance with the same filing deadlines as comments on the rest of the Notice, but they must have a separate and distinct heading designating them as responses to the regulatory flexibility analysis. The Secretary shall cause a copy of the Notice, including the IRFA, to be sent to the Chief Counsel for Advocacy of the Small Business Administration in accordance with section 603(a) of the Regulatory Flexibility Act (Pub. L. No. 96–354, 94 Stat. 1164, 50 U.S.C. 601 *et seq.* (1981)).

18. For further information concerning this proceeding, contact Barrett L. Brick, Cable Television Branch, Video Services Division, Mass Media Bureau (202) 632–7480.

DEPARTMENT OF DEFENSE

48 CFR Parts 219 and 252

Defense Federal Acquisition Regulation Supplement; Joint Ventures

AGENCY: Department of Defense (DOD).

ACTION: Proposed rule; extension of comment period.

SUMMARY: The Defense Acquisition Regulations (DAR) Council published a proposed rule with request for comments on December 1, 1992 (57 FR 56895). The rule proposed amending parts 219 and 252 of the Defense FAR Supplement to incorporate DOD policy on eligibility of joint ventures including small disadvantaged businesses for small disadvantaged business evaluation and award preferences. The original date for receipt of comments expires on December 31, 1992. This document extends the comment period based on numerous requests from the public.

DATES: Comments on the proposed rule should be submitted in writing to the address shown below on or before January 31, 1992, to be considered in the formulation of the final rule.

ADDRESSES: Interested parties should submit written comments to: Defense Acquisition Regulations Council, OUSD(A), 3062 Defense Pentagon, Washington, DC 20301-3062. FAX (703) 697-9845. Please cite DAR Case 91-054 in all correspondence related to this issue.

FOR FURTHER INFORMATION CONTACT: Mrs. Alyce Sullivan, (703) 697-7266.

BILLING CODE 3810-01-M

OFFICE OF MANAGEMENT AND BUDGET

48 CFR Parts 9903, 9905

Office of Federal Procurement Policy; Cost Accounting Standards Board; Application of Cost Accounting Standards Board Regulations to Educational Institutions

AGENCY: Cost Accounting Standards Board, Office of Federal Procurement Policy, OMB.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: The Cost Accounting Standards Board (CASB) invites public comments on proposed amendments to the regulatory provisions contained in chapter 99 of title 48. The proposed amendments would apply to educational institutions receiving a negotiated Federal contract or subcontract award, in excess of $500,000 (excluding contracts awarded for the operation of Federally Funded Research and Development Centers which are already subject to CASB regulations), and require that such educational institutions comply with certain proposed CASB regulations and Cost Accounting Standards (CAS).

DATES: Requests for a copy of the Board's proposed rule and disclosure statement must be in writing and must be received by February 19, 1993. Comments on the proposed rule must be in writing and must be received by March 5, 1993.

Educational institutions that previously requested a copy of the Board's Advance Notice of Proposed Rulemaking (ANPRM) on this subject are already on the Board's mailing list and will automatically receive a copy of this NPRM.

ADDRESSES: Requests for a copy of the proposed rule and disclosure statement, or comments upon their contents, should be addressed to Mr. Rudolph J. Schuhbauer, Project Director, Cost Accounting Standards Board, Office of Federal Procurement Policy, 725 17th Street NW., room 9001, Washington, DC 20503. Attn: CASB Docket No. 91-07.

FOR FURTHER INFORMATION CONTACT: Rudolph J. Schuhbauer, Project Director, Cost Accounting Standards Board (telephone 202-395-3254).

SUPPLEMENTARY INFORMATION:

A. Regulatory Process

The Cost Accounting Standards Board's rules, regulations and Standards are codified at 48 CFR Chapter 99. Section 26(g)(1) of the Office of Federal Procurement Policy Act, 41 U.S.C. § 422(g), requires that the Board, prior to the establishment of any new or revised Cost Accounting Standard, complete a prescribed rulemaking process. The process generally consists of the following four steps:

1. Consult with interested persons concerning the advantages, disadvantages and improvements anticipated in the pricing and administration of Government contracts as a result of the adoption of a proposed Standard.
2. Promulgate an Advance Notice of Proposed Rulemaking.
3. Promulgate a Notice of Proposed Rulemaking.
4. Promulgate a Final Rule.

The proposal being released today represents step three of the four step process.

B. Summary Background and Report

Prior Promulgations: Based on recent information that some institutions of higher education were improperly allocating indirect costs to Federal programs, the Board initiated a case to consider issues related to the application of CAS to educational institutions. On October 8, 1991, the CASB published a Notice in the **Federal Register**, 56 FR 50737, requesting public comments from interested parties concerning a Staff Discussion Paper on the topic of applying CAS to educational institutions. On June 2, 1992, after consideration of the public comments received in response to the Staff Discussion Paper, the CASB published an ANPRM in the **Federal Register**, 57 FR 23189, requesting public comments from interested parties concerning proposed amendments to Chapter 99 of Title 48 that, when issued as a final rule, would require educational institutions to comply with certain specified CASB regulations and Standards.

The Board and the CASB staff express their appreciation for the constructive suggestions and criticisms provided by the commenters, particularly those offered to clarify and improve the proposed language in Parts 9903 and 9905, and the content of the proposed Disclosure Statement.

After consideration of the comments received, the Board continues to believe that the application of selected CAS provisions, as set forth in the NPRM, will improve the cost accounting practices followed by educational institutions when estimating, accumulating and reporting costs deemed allocable to Federal contracts, and that the costs of implementation will be minimal. Costs associated with the initial preparation of a Disclosure

Statement and subsequent efforts to ensure compliance with CAS should be offset by comparable reductions in the administrative costs associated with the establishment of Memorandums of Understandings (MOUs) and related auditors' inquiries as evidenced by the comments received from a major university on this topic. The use of the Disclosure Statement being proposed should reduce the potential for disagreements between the contracting parties regarding the institution's cost accounting practices. Thus, the Board believes the potential benefits to the audit, negotiation and general contract administration processes accruing from the increase in visibility and in uniformity of cost accounting treatment will be substantial and will greatly outweigh any added costs.

Proposed Amendments: A brief description of the proposed amendments follows:

Part 9903, Contract Coverage: In Subpart 9903.2, CAS Program Requirements, existing subparagraph 9903.201–1(b)(10), exempting educational institutions from CAS, is deleted. Subsections 9903.201–1 and 9903–201–2 are amended to identify which Standards shall continue to be applied to contractors other than educational institutions, and a new paragraph (9903.201–2(c)) is added to establish the unique CAS requirements to be applied to educational institutions. Subsection 9903.201–3 is amended to conform the prescribed solicitation notice for use by educational institutions. Subsection 9903.201–4 is amended to establish unique contract clause language for inclusion in contracts awarded to educational institutions. Section 9903.202 is amended to prescribe the Disclosure Statement to be used by educational institutions. In Subpart 9903.3, Section 9903.301 is amended to incorporate cross-references to definitions for certain new and existing terms. Section 9903.304 is amended to clarify applicability to educational institutions.

Part 9905, Cost Accounting Standards For Educational Institutions: A new Part 9905 is added to incorporate four new Cost Accounting Standards to be applied to educational institutions, i.e., one requiring consistency in estimating, accumulating and reporting costs (Section 9903.501), one requiring consistency in allocating costs (Section 9903.502), one requiring contractor identification of specific unallowable costs (Section 9903.505), and one requiring consistency in the selection and use of a cost accounting period (Section 9903.506).

Summary Description of Proposed CAS Coverage: The proposed amendments generally require that a CAS contract clause be incorporated in any negotiated Federal contract or subcontract awarded, in excess of $500,000, to an educational institution. An institution receiving a CAS-covered award will be contractually required to (1) consistently follow its cost accounting practices when estimating (proposed costs), accumulating, and reporting costs under that and any subsequent CAS-covered award(s), (2) consistently allocate costs incurred for the same purpose, (3) identify costs that are not reimbursable as allowable costs, (4) consistently use the same cost accounting period for purposes of estimating, accumulating and reporting costs, and (5) formally disclose, in writing, and consistently follow its disclosed cost accounting practices, when the institution:

(a) receives a CAS-covered contract or subcontract of $25 million, or more, during the current fiscal year,

(b) received more than $25 million of CAS-covered contracts and subcontracts in a prior fiscal year, or

(c) receives a CAS-covered contract or subcontract of $500,000, or more, *and* is listed in Exhibit A of OMB Circular A–21.

Institutions, or a business unit of an institution, receiving a CAS-covered award in excess of $500,000 that did not meet one of the above threshold criteria may be contractually required to (1) consistently follow their established cost accounting practices when estimating (proposed costs), accumulating, and reporting costs under that and any subsequent CAS-covered award(s), (2) consistently allocate costs incurred for the same purpose, and (3) identify costs that are not reimbursable as allowable costs. A Disclosure Statement would only be required if a different business unit of the institution otherwise met the threshold criteria listed above.

The newly proposed higher thresholds for "Modified Coverage" and the proposed inclusion of proposed CAS 9905.505 under "Modified Coverage" is based on a similar CASB proposal, for application to all CAS-covered contractors, that was promulgated in the **Federal Register**, 57 FR 47438 (Oct. 16, 1992).

The proposed contract clauses further provide for price adjustments in the event the institution changes its established or disclosed cost accounting practices, fails to consistently follow established or disclosed cost accounting practices, or fails to comply with applicable Standards. Proposed parts 9903, as amended, and 9905 will apply to educational institutions.

Allan V. Burman,

Administrator for Federal Procurement Policy and Chairman, Cost Accounting Standards Board.

BILLING CODE 6050–28–M

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

[Docket No. 92–187–1]

Availability of List of U.S. Veterinary Biological Product and Establishment Licenses and U.S. Veterinary Biological Product Permits, Issued, Suspended, Revoked, or Terminated

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice.

SUMMARY: This notice pertains to veterinary biological product and establishment licenses and veterinary biological product permits that were issued, suspended, revoked, or terminated by the Animal and Plant Health Inspection Service, during the month of October 1992. These actions have been taken in accordance with the regulations issued pursuant to the Virus-Serum-Toxin Act. The purpose of this notice is to inform interested persons of the availability of a list of these actions and advise interested persons that they may request to be placed on a mailing list to receive the list.

FOR FURTHER INFORMATION CONTACT: Ms. Maxine Kitto, Program Assistant, Veterinary Biologics, Biotechnology, Biologics, and Environmental Protection, APHIS, USDA, room 838, Federal Building, 6505 Belcrest Road, Hyattsville, MD 20782, (301) 436–8245. For copies of the list or to be placed on the mailing list, write to Ms. Kitto at the above address.

SUPPLEMENTARY INFORMATION: The regulations in 9 CFR part 102, "Licenses For Biological Products," require that every person who prepares certain biological products that are subject to the Virus-Serum-Toxin Act (21 U.S.C. 151 *et seq.*) shall hold an unexpired, unsuspended, and unrevoked U.S. Veterinary Biological Product License. The regulations set forth the procedures for applying for a license, the criteria for determining whether a license shall be issued, and the form of the license.

The regulations in 9 CFR part 102 also require that each person who prepares biological products that are subject to the Virus-Serum-Toxin Act (21 U.S.C. 151 *et seq.*) shall hold a U.S. Veterinary Biologics Establishment License. The regulations set forth the procedures for applying for a license, the criteria for determining whether a license shall be issued, and the form of the license.

The regulations in 9 CFR part 104, "Permits for Biological Products," require that each person importing biological products shall hold an unexpired, unsuspended, and unrevoked U.S. Veterinary Biological Product Permit. The regulations set forth the procedures for applying for a permit, the criteria for determining whether a permit shall be issued, and the form of the permit.

The regulations in 9 CFR parts 102 and 105 also contain provisions concerning the suspension, revocation, and termination of U.S. Veterinary Biological Product Licenses, U.S. Veterinary Biologics Establishment Licenses, and U.S. Veterinary Biological Product Permits.

Each month the Veterinary Biologics section of Biotechnology, Biologics and Environmental Protection prepares a list of licenses and permits that have been issued, suspended, revoked, or terminated. This notice announces the availability of the list for the month of October 1992. The monthly list is also mailed on a regular basis to interested persons. To be placed on the mailing list you may call or write the person designated under **FOR FURTHER INFORMATION CONTACT.**

Done in Washington, DC, this 16th day of December 1992.

Lonnie J. King,

Acting Administrator, Animal and Plant Health Inspection Service.

BILLING CODE 3410–34–M

Forest Service

Eastern Region; Illinois, Indiana and Ohio, Michigan, Minnesota, Missouri, New Hampshire and Maine, Pennsylvania, Vermont and New York, West Virginia, and Wisconsin; Legal Notice of Appealable Decisions

AGENCY: Forest Service, USDA.

ACTION: Notice.

SUMMARY: On April 17, 1992, the Eastern Region published a list of newspapers in which decisions would be published in accordance with 36 CFR 217.5(d). The regulation requires that this list be updated twice annually.

The April 17, 1992, Eastern Region list will remain unchanged. As provided in 36 CFR 217.5, such notice shall constitute legal evidence that the agency has given timely and constructive notice of decisions that are subject to administrative appeal. Newspaper publication of notices of decisions is in addition to direct notice to those who have requested notice in writing and to those known to be interested in or affected by a specific decision.

FOR FURTHER INFORMATION CONTACT: Corbin L. Newman, Jr., Regional Appeals Coordinator, Eastern Region, Reuss Federal Plaza, 310 West Wisconsin Avenue, Milwaukee, Wisconsin 53203, Area Code 414–297–3181.

Dated: November 24, 1992.

James R. Jordan,

Deputy Regional Forester Resources.

[FR Doc. 92–30862 Filed 12–18–92; 8:45 am]

BILLING CODE 3410–11–M

Spirit Fire Recovery Project, Willamette National Forest, Lane County, OR

AGENCY: Forest Service, USDA.

ACTION: Notice of intent to prepare environmental impact statement.

SUMMARY: Notice is hereby given that the USDA, Forest Service will prepare an environmental impact statement (EIS) on a proposal to conduct resource recovery projects which include salvage of fire-killed and associated green standing trees, reforestation, fuels reduction, and road construction within the High Spirit fire area. The High Spirit fire burned approximately 140 acres of predominately true-fir and mountain hemlock forest in August of 1992. Within the fire area approximately 100 acres were totally killed and an estimated 40 acres were underburned or partially killed. The Spirit Fire Recovery Project EIS will be consistent with the Willamette National Forest Land and Resource Management Plan (Forest Plan), and tier to the final EIS for spotted owl habitat management recently prepared by the Forest Service.

The legal description of the project area is: Sections 13, 14, 23 and 24, T.21S., R.5E., W.M. The project area is entirely within the 4,970 acre Koch parcel of the Waldo Roadless Area identified in Appendix C of the Forest Plan. This inventoried roadless area is currently modified by recent road construction within the project area. The proposed project will be implemented during fiscal years 1993 and 1994.

DATES: Comments concerning the scope of the analysis should be received in writing by January 30, 1993.

ADDRESSES: Send written comments to Robert L. Barstad, District Ranger, Oakridge Ranger District, 46375 Highway 58, Westfir, Oregon 97492.

FOR FURTHER INFORMATION CONTACT: Direct questions about the proposed actions and EIS to Leon Mork, Acting Plans Assistant, or Al Brown, Project Coordinator, phone: (503) 782–2291.

SUPPLEMENTARY INFORMATION: The resource recovery project will propose the following projects: Salvage of fire-killed and associated green standing trees, reforestation, fuels reduction, and road construction.

The EIS will document decisions on which, if any, of the above proposed projects will be implemented within the 140 acres burned during the High Spirit fire. The proposed project area is located on the Oakridge Ranger District in the Ranger Creek drainage. The fire area is located approximately 15 miles east of the City of Oakridge, Oregon and approximately 60 miles southeast of Eugene, Oregon.

Salvage of fire-killed and harvest of green standing trees may occur on some portion of the fire affected area at an intensity yet to be determined. Implementation of selected activities will occur during fiscal year 1993 and 1994.

The EIS will develop a range of management alternatives for fire recovery in the High Spirit fire area. Approximately 5 acres of the fire area is within a Northern Spotted Owl Habitat Conservation Area (HCA 0–10) as designated by the Final EIS on Management of the Northern Spotted Owl in the National Forests, recently approved. In addition, the Spirit Fire Recovery Project and all proposed connected actions will be in compliance with the same for that affected area. The fire recovery will follow standards and guidelines contained in the Willamette National Forest Land and Resource Management Plan and may modify a limited number of these standards and guidelines which are pertinent to or necessary for fire recovery activities in the fire affected portion of HCA 0–10.

Initial scoping began on September 21, 1992. Preliminary analysis and alternative formulation are currently being conducted. The Forest Service will be seeking additional information, comments and assistance from Federal, State and local agencies and other individuals or organizations who may be interested in or affected by the proposed project. Additional input will be used to help identify significant issues and develop alternatives. This input will be used in preparation of the draft EIS. The scoping process includes:

1. Identification of potential issues;
2. Identification of issues to be analyzed in depth;
3. Elimination of insignificant issues or those which have been covered by a relevant previous environment process;
4. Exploration of additional alternatives based on the issues identified during the scoping process; and
5. Identification of potential environmental effects of the proposed action and alternatives (i.e., direct, indirect, and cumulative effects and connected actions).

The following significant issues have been identified:

1. Roadless Area Development. The construction of permanent or temporary roads to access fire damaged timber would continue to modify the former undeveloped character of the Koch parcel of the Waldo Roadless Area.

2. Reforestation/Plantation Management. Salvage may delay reforestation by reducing shade, damaging natural regeneration, or creating soil disturbance. Reforestation may also be delayed through competition from beargrass and sedge if areas with particularly harsh microclimate conditions and nutrient deficient soils are not immediately planted with seedlings.

3. Soils and Long Term Site Productivity. Salvage may affect soil organic material sources. Removal of trees may also affect material which stabilizes surface erosion. Long-term soil moisture and nutrient reservoirs could be altered.

4. Timber. Delay in salvaging fire-killed timber may allow deterioration processes from insect and fungi activity to occur reducing product value, as well as increasing the potential for reburn of the area.

There are no permits or licenses required to implement any of the proposed activities.

Analysis of the effects of prescriptions for resource recovery will be done in consultation with the U.S. Fish and Wildlife Service (USFWS). The Willamette National Forest will serve as lead agency in this analysis with the Oregon Department of Fish and Wildlife and the USFWS as potential cooperating agencies.

The Willamette National Forest invites written comments and suggestions on the scope of analysis and concerns. It is estimated that a draft EIS will be ready for review in March of 1993. The comment period on the draft EIS will be 45 days from the date the

Environmental Protection Agency publishes the notice of availability in the Federal Register.

The Forest Service believes it is important to give reviewers notice at this early stage of several court rulings related to public participation in the environmental review process. First, reviewers of a draft EIS must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp.* v. *NRDC*, 435 U.S. 519, 553 (1978). Also, environmental objections that could be raised at the draft EIS stage but that are not raised until after completion of the final EIS may be waived or dismissed by the courts. *City of Angoon* v. *Hodel*, 803 F. 2d 1016, 1022 (9th Cir., 1986) and *Wisconsin Heritages, Inc.* v. *Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45-day comment period so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final EIS.

To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the draft EIS should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the draft EIS or the merits of the alternatives formulated and discussed in the statement. (Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.)

The final EIS is scheduled to be completed in June of 1993. In the final EIS, the Forest Service is required to respond to comments and responses received during the comment period that pertain to the environmental consequences discussed in the draft EIS and applicable laws, regulations, and policies considered in making the decision regarding the Spirit Fire Recovery Project. Darrel L. Kenops, Forest Supervisor, is the Responsible Official. As the Responsible Official, he will decide whether to implement the project. The Responsible Official will document the decision and reasons for the decision in the Record of Decision. That decision will be subject to Forest Service Appeal Regulations (36 CFR part 217).

Dated: December 11, 1992.

Robert L. Leonard,

Acting Forest Supervisor.

BILLING CODE 3410-11-M

DEPARTMENT OF COMMERCE

Minority Business Development Agency

Business Development Center Applications: State of Connecticut

AGENCY: Minority Business Development Agency, Commerce.

ACTION: Notice.

SUMMARY: In accordance with Executive Order 11625, the Minority Business Development Agency (MBDA) is soliciting competitive applications under its Minority Business Development Center (MBDC) program to operate an MBDC for approximately a 3-year period, subject to Agency priorities, recipient performance and the availability of funds. The cost of performance for the first Budget period (12 months) is estimated as $188,867 in Federal funds, and a minimum of $33,329 in non-Federal (cost sharing) contributions, from May 1, 1993 to April 30, 1994. Cost-sharing contributions may be in the form of cash contributions, client fees, in-kind contributions or combinations thereof. The MBDC will operate in the Connecticut SMSA geographic service area.

The funding instrument for the MBDC will be a cooperative agreement. Competition is open to individuals, non-profit and for-profit organizations, state and local governments, American Indian tribes and educational institutions.

The MBDC program is designed to provide business development services to the minority business community for the establishment and operation of viable minority businesses. To this end, MBDC funds organizations that can identify and coordinate public and private sector resources on behalf of minority individuals and firms; offer a full range of management and technical assistance; and serve as a conduit of information and assistance regarding minority business.

Applications will be evaluated initially by regional staff on the following criteria: The experience and capabilities of the firm and its staff in addressing the needs of the business community in general and, specifically, the special needs of minority businesses, individuals and organizations (50 points); the resources available to the firm in providing business development services (10 points); the firm's approach (techniques and methodologies) to performing the work requirements included in the application (20 points); and the firm's estimated cost for providing such assistance (20 points). An application must receive at least 70% of the points assigned to any one evaluation criteria category to be considered programmatically acceptable and responsive. The selection of an application for further processing by MBDC will be made by the Director based on a determination of the application most likely to further the purpose of the MBDC Program. The application will then be forwarded to the Department for final processing and approval, if appropriate. The Director will consider past performance of the applicant on previous Federal awards.

MBDCs shall be required to contribute at least 15% of the total project cost through non-Federal contributions. To assist them in this effort, MBDCs may charge client fees for management and technical assistance (M&%TA) rendered. Based on a standard rate of $50 per hour, MBDCs will charge client fees at 20% of the total cost for firms with gross sales of $500,000 or less, and 35% of the total cost for firms with gross sales of over $500,000.

MBDCs performing satisfactorily may continue to operate after the initial competitive year for up to 2 additional budget periods. MBDCs with year-to-date "commendable" and "excellent" performance ratings may continue to be funded for up to 3 or 4 additional budget periods, respectively. Under no circumstances shall an MBDC be funded for more than 5 consecutive budget periods without competition. Periodic reviews culminating in year-to-date quantitative and qualitative evaluations will be conducted to determine if funding for the project should continue. Continued funding will be at the discretion of MBDA based on such factors as an MBDC's performance, the availability of funds and the Agency priorities.

Awards under this program shall be subject to all Federal and Departmental regulations, policies, and procedures applicable to Federal assistance awards.

In accordance with OMB Circular A-129, "Managing Federal Credit Programs," applicants who have an outstanding account receivable with the Federal Government may not be considered for funding until these debts have been paid or arrangements satisfactory to the Department of Commerce are made to pay the debt.

Applicants are subject to Governmentwide Debarment and Suspension (Nonprocurement) requirements as stated in 15 CFR part 26. The departmental Grants Officer may terminate any grant/cooperative agreement in whole or in part at any time before the date of completion whenever it is determined that the MBDC has failed to comply with the conditions of the grant/cooperative agreement. Examples of some of the conditions which can cause termination are failure to meet cost-sharing requirements; unsatisfactory performance of MBDC work requirements; and reporting inaccurate or inflated claims of client assistance or client certification. Such inaccurate or inflated claims may be deemed illegal and punishable by law.

On November 18, 1988, Congress enacted the Drug-Free Workplace Act of 1988 (Public Law 100–690, title V, subtitle D). The statute requires contractors and grantees of Federal agencies to certify that they will provide a drug-free workplace. Pursuant to these requirements, the applicable certification form must be completed by each applicant as a precondition for receiving Federal grant or cooperative agreement awards. False information on the application can be grounds for denying or terminating funding.

"Certification for Contracts, Grants, Loans, and Cooperative Agreements" and SF–LLL, the "Disclosure of Lobbying Activities" (if applicable) is required in accordance with section 319 of Public Law 101–121, which generally prohibits recipients of Federal contracts, grants, and loans from using legislative Branches of the Federal Government in connection with a specific contract, grant or loan.

15 CFR part 28 is applicable and prohibits recipients of Federal contracts, grants, and cooperative agreements from using appropriated funds for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with a specific contract, grant, or cooperative agreement. Form CD–511, "Certifications Regarding Debarment, Suspension and Other Responsibility Matters; Drug-Free Workplace Requirements and Lobbying" and, when applicable, the SF–LLL, "Disclosure of Lobbying Activities," are required.

CLOSING DATE: The closing date for application is January 22, 1993. Applications must be postmarked on or before January 22, 1993.

ADDRESSES: The mailing address for submission is: New York Regional Office, Minority Business Development Agency, Jacob K. Javits Federal Building, rm. 3720, New York, New York 10278.

Area Code/Telephone Number: (212) 264–3262.

FOR FURTHER INFORMATION CONTACT: John F. Iglehart, Regional Director, New York Regional Office.

SUPPLEMENTARY INFORMATION: Anticipated processing time of this award is 120 days. Executive Order 12372 "Intergovernmental Review of Federal Programs" is not applicable to this program. Questions concerning the preceding information, copies of application kits and applicable regulations can be obtained at the above New York address.

(Catalog of Federal Domestic Assistance, 11.800 Minority Business Development)

Dated: December 14, 1992.

John F. Iglehart,

Regional Director, New York Regional Office.

[FR Doc. 92–30881 Filed 12–18–92; 8:45 am]

BILLING CODE 3510–21–M

National Institute of Standards and Technology

[Docket No. 920933–2233]

RIN 0693–AB06

Approval of Federal Information Processing Standard (FIPS) 178, Video Teleconferencing Services at 56 to 1,920 KB/S

AGENCY: National Institute of Standards and Technology (NIST), Commerce.

ACTION: The purpose of this notice is to announce that the Secretary of Commerce (Secretary) has approved a new standard, which will be published as FIPS Publication 178. The specifications for this standard are International Telegraph and Telephone Consultative Committee (CCITT) Recommendations H.320, H.221, H.242, H.261, and H.230.

SUMMARY: On June 26, 1991 (56 FR 29264), a notice was published in the **Federal Register** that video teleconferencing standards were being proposed for Federal use.

The written comments submitted by interested parties and other material available to the Department relevant to these standards were reviewed by NIST and the National Communications System (NCS). On the basis of this review, NIST recommended that the Secretary approve the standard as a Federal Information Processing Standard (FIPS), and prepared a detailed justification document for the Secretary's review in support of that recommendation.

The detailed justification document which was presented to the Secretary, and which includes an analysis of the written comments received, is part of the public record and is available for inspection and copying in the Department's Central Reference and Records Inspection Facility, room 6020, Herbert C. Hoover Building, 14th Street between Pennsylvania and Constitution Avenues, NW. Washington, DC 20230.

This FIPS contains two portions: (1) An announcement portion which provides information concerning the applicability, implementation, and maintenance of the standard and (2) a specifications portion which deals with the technical requirements of the standard. Only the announcement portion of the standard is provided in this notice.

EFFECTIVE DATE: This standard is effective June 1, 1993.

ADDRESSES: Interested parties may purchase copies of this standard, including the technical specifications portions, from the National Technical Information Service (NTIS). Specific ordering information from NTIS for this standard is set out in the Where to Obtain Copies Section of the announcement portion of the standard.

FOR FURTHER INFORMATION CONTACT: Mr. Gary Rekstad, National Communications System, 701 South Court House Road, Arlington, VA 22204–2198, Telephone (703) 692–2124.

Dated: December 11, 1992.

John W. Lyons,

Director.

Federal Information Processing Standards Publication 178

(Date)

Announcing the Standard for Video Teleconferencing Services at 56 to 1,920 KB/S

Federal Information Processing Standards Publications (FIPS PUBS) are issued by the National Institute of Standards and Technology (NIST) after approval by the Secretary of Commerce pursuant to section 111(d) of the Federal Property and Administrative Services Act of 1949 as amended by the Computer Security Act of 1987, Public Law 100–235.

1. Name of Standard. Video Teleconferencing Services at 56 to 1,920 kb/s (FIPS PUB 178).

2. Category. Telecommunications Standards, Video Teleconferencing.

3. Explanation. This standard, by adoption of International Telegraph and Telephone Consultative Committee (CCITT) Recommendations H.320, H.221, H.242, H.261, and H.230, defines the specifications for video teleconferencing and video telephony systems.

This document provides Federal departments and agencies a comprehensive description of the interoperability criteria for audiovisual systems used in video teleconferencing and videophone applications.

4. Approving Authority. Secretary of Commerce.

5. Maintenance Agency. National Communications System, Office of Technology and Standards.

6. Cross Index. The recommendations listed below are adopted and referenced by this standard.

a. CCITT Recommendation H.320, Narrow-band Visual Telephone Systems and Terminal Equipment, 1990.

b. CCITT Recommendation H.221, Frame Structure for a 64 to 1,920 kbit/s Channel in Audiovisual Teleservices, 1990.

c. CCITT Recommendation H.242, System for Establishing Communication Between Audiovisual Terminals Using Digital Channels up to 2 Mbit/s, 1990.

d. CCITT Recommendation H.261, Video Codec for Audiovisual Services at p×64 kbit/s, 1990.

e. CCITT Recommendation H.230, Frame Synchronous Control and Indication Signals for Audiovisual Systems, 1990.

7. Related Documents. a. Federal Information Resources Management Regulations subpart 201–20.303, Standards, and subpart 201–39.1002, Federal Standards.

The standards listed below are for information only.

b. ANSI T1.306–1990, American National Standard for Telecommunications—Digital Processing of Audio Signals—Algorithm and Line Format for Transmission of 7 Khz Audio Signals at 64/56 kbit/s.

c. ANSI T1.314–1991, American National Standard for Telecommunications—Video Coder/Decoder for Audiovisual Services at 56 to 1,536 kbit/s.

d. CCITT Proposed Recommendation AV.253, Audio coding at 24/32 kbit/s.

e. CCITT Recommendation G.711, Pulse Code Modulation (PCM) of Voice Frequencies, (1989).

f. CCITT Recommendation G.722, 7 kHz Audio-coding within 64 kbit/s, (1989).

g. CCITT Recommendation G.725, System Aspects for the Use of the 7 kHz Audio Codec within 64 kbit/s, (1989).

h. Proposed CCITT Recommendation G.728, Speech coding at 16 kbit/s.

i. CCITT Recommendation G.821, Error Performance of an International Digital Connection Forming Part of an Integrated Services Digital Network, (1989).

j. CCITT Recommendation H.200, Framework for Recommendations for Audiovisual Services, (1989).

k. CCITT Recommendation I.464, Multiplexing, Rate Adaption and Support of Existing Interfaces for Restricted 64 kbit/s Transfer Capability, (1989).

l. CCITT Recommendation T.35, Procedure for the Allocation of CCITT Member's Codes, (1989).

m. CCITT Recommendation V.120, Support of an ISDN of Data Terminal Equipment with V-Series Type Interfaces with Provision for Statistical Multiplexing.

n. CCITT Recommendation V.35, Data Transmission at 48 Kilobits Per Second Using 60–108 kHz Group Band Circuits, (1989).

o. Military Standard 188–131, Interoperability and Performance Standard for Video Teleconferencing.

8. Abbreviations and Definitions. The abbreviations and definitions contained in this section are for terms contained in this document, and documents referenced by this document.

TEA	Terminal Equipment Alarm.
TR	Temporal Reference.
TS	Time Slot.
VLC	Variable Length Code.

BAS: Bit-rate Allocation Signal. Bit position within the frame structure of H.221 to transmit, e.g. commands, control and indication signals, capabilities.

C&I: End-to-end signalling between terminals consisting of "control" which causes a state change in the receiver and 'indication' which provides for information as to the functioning of the system, see also H.230.

Data Port: Input/output gate for the user data transmitted within Service Channel or sub-channels according to H.221.

FAS: Frame Alignment Signal. Bit position within the frame structure of H.221 to provide a means to achieve and maintain synchronization between multiple channels, and another system.

Lip Synchronization: Operation to provide feeling that speaking motion of the displayed person is synchronized with the voice the person makes.

In-band Signalling: Signalling via BAS of the H.221 frame structure.

MCU (Multipoint Control Unit): A piece of equipment located in a node of the network or in a terminal which receives several channels from access ports and, according to certain criterions, processes audiovisual signals and distributes them to the connected channels.

MMI: Man-machine interface between user and terminal/system which consists of a physical section (electro-acoustic, electro-optic transducer, keys, * * *) and a logical section

dealing with functional operation states.

Narrow-band: Bit rates ranging from 56 kb/s to 1,920 kb/s. This channel capacity may be provided as a single B/H0/H11/H12 channel or multiple B/H0 channels in ISDN.

Outband Signalling: Signalling via a channel not being part of the B/H0/H11/H12 channel (due to I.400-Series Recommendations of CCITT).

Visual Telephone Services: A group of audiovisual services including videophone defined in F.721 and videoconferencing to be defined in H.200/AV.112.

9. Objectives. The objective of this standard is to improve the Federal acquisition process by providing Federal departments and agencies a comprehensive, authoritative source for video teleconferencing terminals used in video teleconferencing and videophone applications.

10. Applicability. This standard is intended to assure interoperability among Federal video teleconferencing and videophone systems employing video codecs at rates between 56 kb/s and 1,920 kb/s.

This standard shall be used by all Federal departments and agencies in the design and procurement of video teleconferencing and videophone systems. This standard is mandatory only for those audiovisual systems operating at rates between 56 kb/s and 1,920 kb/s. The standard shall be used in the planning, design, and procurement, including lease and purchase, of all new video communications systems that utilize video codecs.

Recommendation H.261 specifies service from 64 kb/s through 1,920 kb/s, and technically equivalent ANSI standard T1. 314–1991 specifies service from 56 kb/s through 1,536 kb/s. To avoid confusion on applications within the Federal Government involving both national and international interoperability, this standard encompasses both ranges of data rates to specify service from 56 kb/s through 1,920 kb/s. It should be noted that most standard data networks in the United States carry data from 56 kb/s to 1,536 kb/s.

In an Integrated Services Digital Network (ISDN), the overall transmission channel may consist of 1 to 6 B (64 kb/s channels, 1 to 4 HO (384 kb/s) channels, an H10 (1,472 kb/s) channel, or an H11 (1,536 kb/s) channel. The framed video signal can also be carried on other switched or dedicated digital transmission facilities, such as 1 to 6 56 kb/s connections, a DS1 connection, or a fractional DS1 connection.

The technical parameters of this document may be exceeded in order to satisfy certain specific requirements, provided that interoperability is maintained. That is, the capability to incorporate features such as additional standard and nonstandard interfaces is not precluded.

Neither this nor any other standard in high technology fields such as telecommunications can be considered complete and ageless. Periodic revisions will be made as required.

The standard is not intended to hasten the obsolescence of equipment currently existing in the Federal inventory; nor is it intended to provide systems engineering or applications guidelines.

11. Specifications. The specifications for this standard are International Telegraph and Telephone Consultative Committee (CCITT) Recommendations H.320, H.221, H242, H.261, and H.230. The following sections specify the requirements for video teleconferencing and videotelephony terminals.

11.1 Overall Description. Specific requirements for different types of video terminals are defined in CCITT Recommendation H.320. All terminals that meet this standard shall follow the specifications of H.320. Two classes of terminals are defined for Federal use. The specifications defined below are a minimum for each class.

Class 1 terminals are for services that are limited to lower data rates, such as provided by a basic rate ISDN. An example is desk-top video telephone. Terminals acquired for Class 1 applications shall be capable of operation at a minimum of p=1 and 2 using QCIF.

Class 2 terminals are for services requiring higher quality than Class 1 such as needed for full video teleconferencing. Terminals acquired for Class 2 applications shall contain the functionality of Class 1 terminals, plus at a minimum, be capable of operation at p=6. All Class 2 terminals shall be capable of operation at Full CIF at rates equal to and above p=2.

Examples of terminal configurations are given below:

—Class 1 terminal operating over 1 or 2 B channels of an ISDN using QCIF.

—A Class 2 terminal capable of operating using 1–6 B channels of an ISDN using full CIF at rates equal or greater to p=2.

—A Class 2 terminal capable of operating using 1 or 2 B channels and an HO channel. The terminal is capable of operation using full CIF.

—A Class 2 terminal capable of operating using 1 or 2 B channels, an HO channel, and an H11 channel. The terminal is capable of operation using full CIF.

11.2 Frame Structure. All terminals that meet this standard shall use all the specifications defined in CCITT Recommendation H.221. The H.221 framing structure multiplexes subchannels for audio, video, data, and telematic transmission, as well as in-channel terminal-to-terminal signalling information, within an overall transmission channel of 56 to 1,920 kb/s.

This standard addresses data channels at nominal bit rates of px64 kb/s, where p is an integer that can range from 1 to 30. For unrestricted networks, such as provided by ISDN, each increment of data rate may actually be 64 kb/s, but in restricted networks each increment may be only 56 kb/s. Equipment that meets this standard shall be capable of operating with unrestricted or restricted networks. Restricted networks are discussed in Annex 2 of H.221.

The recommendations which this standard references were designed primarily for use with an ISDN. In an ISDN, the overall transmission channel may consist of 1 to 6 B (64 kb/s) channels, 1 to 4 HO (384 kb/s) channels, an H10 (1,472 kb/s) channel, or an H11 (1,536 kb/s) channel. The framed signals can also be carried on other switched or dedicated digital transmission facilities, such as 1 to 6 56 kb/s connections, a DS1 connection, or a fractional DS1 connection.

11.3 System for Establishing Communication Between Audiovisual Terminals. All terminals that meet this standard shall use all specifications of CCITT Recommendation H.242 for establishing communication between two audiovisual terminals. H. 242 describes the in-channel terminal-to-terminal communication control procedures. These procedures allow audiovisual terminals with different capabilities to interwork with each other and with existing telephone equipment. These procedures also allow terminals to switch among compatible modes of operation to support additional applications, for example, sending a facsimile or connecting two personal computers.

11.4 Video Codec. All terminals that meet this standard shall be capable of color and near-full motion operation using, at a minimum, the QCIF format defined in CCITT Recommendation H.261. All terminals shall meet all specifications of H.261. An encoder shall be capable of coding at an

minimum average of 6 frames per second. The decoder shall be capable of decoding at least 7.5 frames per second. This is the minimum picture interval and is discussed in H.261, H.221, and H.242. Higher rates can be negotiated using the procedures in H.242.

A terminal is not precluded from using coding algorithms other then H.261, but for every video coding rate the terminal is capable of, the terminal shall be capable of using the H.261 coding algorithm. The purpose of this requirement is to prevent two terminals which are capable of communicating at a high transmission rate such as p=24 having to communicate at p=6 to be interoperable.

Motion Compensation (MC) is optional in the encoder. Motion compensation is required in the decoder, where the reconstruction of the motion is relatively simple. The decoder shall accept one vector per macroblock.

Note: The video coding algorithm described in this standard is a variable-rate algorithm. Video transmission is not fixed at multiples of 56 or 64 kb/s, but instead occupies all bandwidth available for video within an overall audiovisual communications system. "Px64 kb/s" are the nominal transmission rates of the overall system. CCITT Recommendation H.221 provides for operating at multiples of 56 and 64 kb/s.

11.5 Audio Algorithms. This standard does not mandate any audio algorithm, other than those that are mandated in CCITT Recommendation H.320.

Note: CCITT Recommendations H.320 and H.221 reference AV.254. AV.254 was a temporary designation used to reference speech coding work at 16 kb/s. Since the approval of H.320 and H.221, AV.254 has been given the designation G.728. Users of this document are advised that at the time of the writing of this document, G.728 has not yet been approved. The intended use for G.728 is for video teleconferencing terminals operating at a low transmission rate such as the Class 1 terminals specified in this document.

11.6 Frame-Synchronous Control and Indication Signals for Audiovisual Systems. All terminals that meet this standard shall use CCITT Recommendation H.230. H.230 provides additional frame-synchronous control and indication signals such as freeze picture, video loopback, and simple multipoint controls. These control and indication signals are necessary to provide additional functionality and to provide extensibility to future standards.

12. Implementation. The use of this standard by Federal departments and agencies is compulsory and binding for the acquisition of new equipment and services, effective June 1, 1993, except as noted in Section 10.

13 Conflict with Referenced Documents. Where the requirements stated in this standard conflict with any requirements in the referenced specifications, the requirements of this standard shall apply. The nature of the conflict between this standard and the referenced specifications shall be submitted in duplicate to the Director, Computer Systems Laboratory, Technology Building, room B–154, National Institute of Standards and Technology, Gaithersburg, MD 20899.

14. Waivers. Under certain exceptional circumstances, the heads of Federal departments and agencies may approve waivers to Federal Information Processing Standards (FIPS). The head of such an agency may redelegate such authority only to a senior official designated pursuant to section 3506(b) of title 44, U.S. Code. Waivers shall be granted only when:

a. Compliance with a standard would adversely affect the accomplishment of the mission of an operator of a Federal computer system or related telecommunications system, or

b. Cause a major adverse financial impact on the operator which is not offset by Governmentwide savings.

Agency heads may act upon a written waiver request containing the information detailed above. Agency heads may also act without a written waiver request when they determine that conditions for meeting the standard cannot be met. Agency heads may approve waivers only by a written decision which explains the basis on which the agency head made the required finding(s). A copy of each such decision, with procurement sensitive or classified portions clearly identified, shall be sent to: National Institute of Standards and Technology; ATTN: FIPS Waiver Decisions, Technology Building, room B–154; Gaithersburg, MD 20899.

In addition, notice of each waiver granted and each delegation of authority to approve waivers shall be sent promptly to the Committee on Government Operations of the House of Representatives and the Committee on Governmental Affairs of the Senate and shall be published promptly in the **Federal Register**.

When the determination on a waiver applies to the procurement of equipment and/or services, a notice of the waiver determination must be published in the Commerce Business Daily as a part of the notice of solicitation for offers of an acquisition or, if the waiver determination is made after that notice is published, by amendment to such notice.

A copy of the waiver, any supporting documents, the document approving the waiver and any supporting and accompanying documents, with such deletions as the agency is authorized and decides to make under 5 U.S.C. 552(b), shall be part of the procurement documentation and retained by the agency.

15 Where to Obtain Copies. Copies of this publication including CCITT Recommendations H.320, H.221, H.242, H.261, and H.230 are for sale by the National Technical Information Service, U.S. Department of Commerce, Springfield, VA 22161. When ordering, refer to Federal Information Processing Standards Publication 178 (FIPSPUB178), and title. Payment may be made by check, money order, purchase order, credit card, or deposit account.

In addition, CCITT Series H Recommendations are available individually from NTIS. When ordering, specify:

H.221–1990—PB93–979101
H.230–1990—PB93–979102
H.242–1990—PB93–979103
H.261–1990—PB93–979104
H.320–1990—PB93–979105

BILLING CODE 3510–CN–M

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Adjustment of Import Limits for Certain Cotton and Man-Made Fiber Textile Products Produced or Manufactured in Costa Rica

December 15, 1992.

AGENCY: Committee for the Implementation of Textile Agreements (CITA).

ACTION: Issuing a directive to the Commissioner of Customs adjusting limits.

EFFECTIVE DATE: December 16, 1992.

FOR FURTHER INFORMATION CONTACT: Nicole Bivens Collinson, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482–4212. For information on the quota status of these limits, refer to the Quota Status Reports posted on the bulletin boards of each Customs port or call (202) 927–5850. For information on embargoes and quota re-openings, call (202) 482–3715.

SUPPLEMENTARY INFORMATION:

Authority: Executive Order 11651 of March 3, 1972, as amended; section 204 of the

Agricultural Act of 1956, as amended (7 U.S.C. 1854).

The current limit for Categories 347/348 is being increased by application of swing, reducing the limit for Categories 342/642 to account for the increase.

A description of the textile and apparel categories in terms of HTS numbers is available in the CORRELATION: Textile and Apparel Categories with the Harmonized Tariff Schedule of the United States (see **Federal Register** notice 56 FR 60101, published on November 27, 1991). Also see 57 FR 14389, published on April 20, 1992.

The letter to the Commissioner of Customs and the actions taken pursuant to it are not designed to implement all of the provisions of the bilateral agreement, but are designed to assist only in the implementation of certain of its provisions.

Auggie D. Tantillo,

Chairman, Committee for the Implementation of Textile Agreements.

Committee for the Implementation of Textile Agreements

December 15, 1992.

Commissioner of Customs,
Department of the Treasury, Washington, DC 20229.

Dear Commissioner: This directive amends, but does not cancel, the directive issued to you on April 14, 1992, by the Chairman, Committee for the Implementation of Textile Agreements. That directive concerns imports of certain cotton, wool and man-made fiber textile products, produced or manufactured in Costa Rica and exported during the twelve-month period which began on January 1, 1992 and extends through December 31, 1992.

Effective on December 16, 1992, you are directed to amend further the directive dated April 14, 1992, to adjust the limits for the following categories, as provided under the terms of the current bilateral agreement between the Governments of the United States and Costa Rica:

Category	Adjusted twelve-month limit [1]
347/348	1,185,232 dozen.
342/642	166,514 dozen.

[1] The limits have not been adjusted to account for any imports exported after December 31, 1991.

The Committee for the Implementation of Textile Agreements has determined that these actions fall within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,

Auggie D. Tantillo,

Chairman, Committee for the Implementation of Textile Agreements.

[FR Doc. 92-30653 Filed 12-18-92; 8:45 am]
BILLING CODE [illegible]

Announcement of Import Restraint Limits and Guaranteed Access Levels for Certain Cotton, Wool, Man-Made Fiber and Other Vegetable Fiber Textiles and Textile Products Produced or Manufactured in Jamaica

December 15, 1992.

AGENCY: Committee for the Implementation of Textile Agreements (CITA).

ACTION: Issuing a directive to the Commissioner of Customs establishing limits and guaranteed access levels for the new agreement year.

EFFECTIVE DATE: January 1, 1993.

FOR FURTHER INFORMATION CONTACT: Naomi Freeman, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482-4212. For information on the quota status of these limits, refer to the Quota Status Reports posted on the bulletin boards of each Customs port or call (202) 927-5850. For information on embargoes and quota re-openings, call (202) 482-3715.

SUPPLEMENTARY INFORMATION:

Authority: Executive Order 11651 of March 3, 1972, as amended; section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854).

The Governments of the United States and Jamaica have agreed to extend their Bilateral Cotton, Wool, Man-Made Fiber and Other Vegetable Fiber Textile Agreement of August 27, 1986, as amended, for a one-year period beginning on January 1, 1993 and extending through December 31, 1993.

In the letter published below, the Chairman of CITA directs the Commissioner of Customs to establish limits and guaranteed access levels (GALs) for the period January 1, 1993 and through December 31, 1993.

A copy of the agreement is available from the Textiles Division, Bureau of Economic and Business Affairs, U.S. Department of State, (202) 647-3889.

A description of the textile and apparel categories in terms of HTS numbers is available in the CORRELATION: Textile and Apparel Categories with the Harmonized Tariff Schedule of the United States (see **Federal Register** notice 57 FR 54976, published on November 23, 1992).

Requirements for participation in the Special Access Program are available in **Federal Register** notices 51 FR 21208, published on June 11, 1986; 52 FR 6049, published on February 27, 1987; 52 FR 26057, published on July 10, 1987; and 54 FR 50425, published on December 6, 1989.

The letter to the Commissioner of Customs and the actions taken pursuant to it are not designed to implement all of the provisions of the bilateral agreement, but are designed to assist only in the implementation of certain of its provisions.

Auggie D. Tantillo,

Chairman, Committee for the Implementation of Textile Agreements.

Committee for the Implementation of Textile Agreements

December 15, 1992.

Commissioner of Customs,
Department of the Treasury, Washington, DC 20229.

Dear Commissioner: Under the terms of section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854), and the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, as further extended on July 31, 1991; pursuant to the Bilateral Cotton, Wool, Man-Made Fiber and Other Vegetable Fiber Textile Agreement of August 27, 1986, as amended and extended, between the Governments of the United States and Jamaica; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended, you are directed to prohibit, effective on January 1, 1993, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton, wool, man-made fiber and other vegetable fiber textiles and textile products in the following categories, produced or manufactured in Jamaica and exported during the twelve-month period beginning on January 1, 1993 and extending through December 31, 1993, in excess of the following levels of restraint:

Category	Twelve-month restraint limit
331/631	350,000 dozen pairs.
336/636	118,000 dozen.
338/339/638/639	930,066 dozen.
340/640	434,923 dozen of which not more than 368,012 dozen shall be in shirts made from fabrics with two or more colors in the warp and/or the filling in Categories 340-Y/640-Y [1].
341/641	546,130 dozen.
342/642	175,000 dozen.
345/845	134,759 dozen.
347/348/647/648	1,003,890 dozen.
352/652	600,000 dozen.
445/446	49,891 dozen.
447	10,000 dozen.
632	100,000 dozen pairs.

[1] Category 340-Y: only HTS numbers 6205.20.2015, 6205.20.2020, 6205.20.2046, 6205.20.2050 and 6205.20.2060; Category 640-Y: only HTS numbers 6205.30.2010, 6205.30.2020, 6205.30.2050 and 6205.30.2060.

Imports charged to these category limits for the period January 1, 1992 through December 31, 1992 shall be charged against those levels of restraint to the extent of any unfilled balances. In the event the limits established for that period have been exhausted by previous entries, such goods shall be subject to the levels set forth in this directive.

The limits set forth above are subject to adjustment in the future according to the provisions of the current bilateral agreement between the Governments of the United States and Jamaica.

In accordance with the provisions of the Special Access Program, as set forth in 51 FR 21208 (June 11, 1986), 52 FR 26057 (July 10, 1987) and 54 FR 50425 (December 6, 1989), you are directed to establish guaranteed access levels for properly certified cotton, man-made fiber and other vegetable fiber textile products in the following categories which are assembled in Jamaica from fabric formed and cut in the United States and re-exported to the United States from Jamaica during the twelve-month period which begins on January 1, 1993 and extends through December 31, 1993.

Category	Guaranteed Access Level
331/631	1,320,000 dozen pairs.
336/636	125,000 dozen.
338/339/638/639	1,500,000 dozen.
340/640	300,000 dozen.
341/641	375,000 dozen.
342/642	200,000 dozen.
345/845	50,000 dozen.
347/348/647/648	2,000,000 dozen.
352/652	3,250,000 dozen.
447	30,000 dozen.
632	3,300,000 dozen pairs.

Any shipment for entry under the Special Access Program which is not accompanied by a valid and correct certification and Export Declaration in accordance with the provisions of the certification requirements established in the directive of February 19, 1987 shall be denied entry unless the Government of Jamaica authorizes the entry and any charges to the appropriate designated consultation levels or specific limits. Any shipment which is declared for entry under the Special Access Program but found not to qualify shall be denied entry into the United States.

In carrying out the above directions, the Commissioner of Customs should construe entry into the United States for consumption to include entry for consumption into the Commonwealth of Puerto Rico.

The Committee for the Implementation of Textile Agreements has determined that these actions fall within the foreign affairs exception of the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,

Auggie D. Tantillo,

Chairman, Committee for the Implementation of Textile Agreements.

[FR Doc. 92–30854 Filed 12–18–92; 8:45 am]

BILLING CODE 3510-DR-F

DEPARTMENT OF DEFENSE

GENERAL SERVICES ADMINISTRATION

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[OMB Control No. 9000–0054]

Clearance Request for U.S.-Flag Air Carriers Certification

AGENCIES: Department of Defense (DOD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

ACTION: Notice of request for an extension to an existing OMB clearance (9000–0054).

SUMMARY: Under the provisions of the Paperwork Reduction Act of 1980 (44 U.S.C. 35), the Federal Acquisition Regulation (FAR) Secretariat has submitted to the Office of Management and Budget (OMB) a request to review and approve an extension of a currently approved information collection requirement concerning U.S.–Flag Air Carriers Certification.

FOR FURTHER INFORMATION CONTACT: Beverly Fayson, Office of Federal Acquisition Policy, GSA (202) 501–4755.

SUPPLEMENTARY INFORMATION:

A. Purpose

Section 5 of the International Air Transportation Fair Competitive Practices Act of 1974 (49 U.S.C. 1517) (Fly America Act) requires that all Federal agencies and Government contractors and subcontractors use U.S.-flag air carriers for U.S. Government-financed international air transportation of personnel (and their personal effects) or property, to the extent that service by those carriers is available. It requires the Comptroller General of the United States, in the absence of satisfactory proof of the necessity for foreign-flag air transportation, to disallow expenditures from funds, appropriated or otherwise established for the account of the United States, for international air transportation secured aboard a foreign-flag air carrier if a U.S.-flag carrier is available to provide such services. In the event that the contractor selects a carrier other than a U.S.-flag air carrier for international air transportation, the contractor shall include a certification on vouchers involving such transportation. The contracting officer uses the information furnished in the certification to determine whether adequate justification exists for the contractor's use of other than a U.S.-flag air carrier.

B. Annual Reporting Burden

The annual reporting burden is estimated as follows: *Respondents, 150; responses per respondent, 2; total annual responses, 300; preparation hours per response, .25; and total response burden hours, 75.*

OBTAINING COPIES OF PROPOSALS: Requester may obtain copies of OMB applications or justifications from the General Services Administration, FAR Secretariat (VRS), room 4037, Washington, DC 20405, telephone (202) 501–4755. Please cite OMB Control No. 9000–0054, U.S.–Flag Air Certification, in all correspondence.

Dated: December 9, 1992.

Beverly Fayson,

FAR Secretariat.

BILLING CODE 6820-34-M

Office of the Secretary

DOD Advisory Group on Electron Devices; Notice of Advisory Committee Meeting

SUMMARY: Working Group C (Mainly Opto-Electronics) of the DoD Advisory Group on Electron Devices (AGED) announces a closed session meeting.

DATES: The meeting will be held at 0900, Wednesday and Thursday, 13–14 January 1993.

ADDRESSES: The meeting will be held at Eglin Air Force Base, Ft. Walton Beach, FL.

FOR FURTHER INFORMATION CONTACT: Gerald Weiss, AGED Secretariat, 2011 Crystal Drive, suite 307, Arlington, Virginia 22202.

SUPPLEMENTARY INFORMATION: The mission of the Advisory Group is to provide the Under Secretary of Defense for Acquisition, the Director, Defense Advanced Research Projects Agency and the Military Departments with technical advice on the conduct of economical and effective research and development programs in the area of electron devices.

The Working Group C meeting will be limited to review of research and development programs which the Military Departments propose to initiate with industry, universities or in their laboratories. This opto-electronic device area includes such programs as imaging device, infrared detectors and lasers. The review will include details of classified defense programs throughout.

In accordance with section 10(d) of Public Law No. 92–463, as amended (5 U.S.C. App. II 10(d) (1988)), it has been determined that this Advisory Group meeting concerns matters listed in 5 U.S.C. 552b(c)(1) (1988), and that accordingly, this meeting will be closed to the public.

Dated: December 15, 1992.

L.M. Bynum,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

Department of the Army

Army Science Board; Notice of Closed Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), announcement is made of the following Committee Meeting:

Name of Committee: Army Science Board (ASB).

Date of Meeting: 11 January 1993.

Time of Meeting: 0830–1630.

Place: Pentagon.

Agenda: The Army Science Board's Ad Hoc Panel on "Technology for The Future Land Warrior" will meet to analyze data provided by the users and developers and to write the final report on advanced technology for the future land warrior. This meeting will be closed to the public in accordance with section 552b(c) of title 5, U.S.C. specifically subparagraph (4) thereof, and title 5, U.S.C., Appendix 2, subsection 10(d). The proprietary and nonproprietary information to be discussed is so inextricably intertwined so as to preclude opening any portion of the meeting. The ASB Administrative Officer, Sally Warner, may be contacted for further information at (703) 695–0781.

Sally A. Warner,

Administrative Officer, Army Science Board.

BILLING CODE 3710-08-M

DELAWARE RIVER BASIN COMMISSION

Amendments to Comprehensive Plan, Water Code of the Delaware River Basin and Administrative Manual—Part III Water Quality Regulations

AGENCY: Delaware River Basin Commission.

ACTION: Final rule.

SUMMARY: At its December 9, 1992 business meeting, the Delaware River Basin Commission amended its Comprehensive Plan, Water Code and Water Quality Regulations relating to water quality standards and policies to protect existing water quality in certain waters of the Basin. The amendments set forth an overall framework for providing special water quality protection measures in waters deemed by the Commission to have exceptionally high scenic, recreational, ecological and/or water supply values. The amendments also classify specific stream reaches as Special Protection Waters, thus activating the provisions of the Special Protection Waters policies in these reaches. In addition, the amendments define the institutional structure within which the Commission, that state environmental agencies and others will share overall water quality management responsibilities. The amendments also include numerical definitions of Existing Water Quality and the locations of monitoring points which will be used to manage water quality.

By the same action, the Commission amended its Administrative Manual—Rules of Practice and Procedure, revising certain point source pollution control policies and requirements to protect existing water quality in certain Basin waters. Those amendments are published elsewhere in the Rules and Regulations section of this issue of the **Federal Register**. In sum, the amendments reduce the threshold for point source discharges deemed not to have a substantial effect on the water resources of the Basin and not required to be submitted to the Commission under section 3.8 of the Compact from a daily average rate of 50,000 gallons to 10,000 gallons in the drainage area to Special Protection Waters.

EFFECTIVE DATE: December 9, 1992.

ADDRESSES: Copies of the Commission's Water Code of the Delaware River Basin, Administrative Manual—Part III Water Quality Regulations, and the full text of the amendments are available from the Delaware River Basin Commission, P.O. Box 7360, West Trenton, New Jersey 08628.

FOR FURTHER INFORMATION CONTACT: Susan M. Weisman, Commission Secretary, Delaware River Basin Commission: Telephone (609) 883–9500 X203.

SUPPLEMENTARY INFORMATION: The Commission held public hearings on the proposed amendments on May 5, 1992; May 6, 1992 and May 15, 1992 as noticed in the March 18, 1922 and April 15, 1992 issues of the **Federal Register** (Vol. 57, No. 53 and Vol. 57, No. 73). Based upon testimony received and considerable deliberation, the Commission has amended its Comprehensive Plan, Water Code of the Delaware River Basin and

Administrative Manual—Part III Water Quality Regulations.

Delaware River Basin Compact, 75 Stat. 688.

Dated: December 14, 1992.

Susan M. Weisman,

Secretary.

BILLING CODE 6360-01-M

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket Nos. ER90-283-006, et al.]

Cambridge Electric Light Co. et al.; Electric rate, Small Power Production, and Interlocking Directorate Filings

December 14, 1992.

Take notice that the following filings have been made with the Commission:

1. Cambridge Electric Light Co.

[Docket No. ER90-283-006]

Take notice that on November 25, 1992, Cambridge Electric Light Company (Cambridge) tendered for filing a fully executed copy of the Service Agreement between Cambridge and the Town of Belmont, Massachusetts.

Comment date: December 28, 1992, in accordance with Standard Paragraph E at the end of this notice.

2. Cambridge Electric Light Co.

[Docket No. ER93-246-000]

Take notice that on November 25, 1992, Cambridge Electric Light Company tendered for filing its compliance refund report pursuant to the Commission's order issued on December 6, 1990.

Comment date: December 28, 1992, in accordance with Standard Paragraph E at the end of this notice.

3. Washington Water Power Co.

[Docket No. ER93-15-000]

Take notice that on December 4, 1992, Washington Water Power Company (WWP) tendered for filing with the Federal Energy Regulatory Commission pursuant to 18 CFR 35.11 an Amendment to its filing of the Capacity and Energy Sales Agreement between The Washington Water Power Company (WWP) and Northern California Power Agency (NCPA). WWP states that the purposes of the amendment is to make changes requested by Commission staff.

A copy of the filing was made to Northern California Power Agency.

Comment date: December 28, 1992, in accordance with Standard Paragraph E at the end of this notice.

4. Southern California Edison Co.

[Docket No. ER93-269-000]

Take notice that on December 9, 1992, Southern California Edison Company (Edison) tendered for filing the Letter Agreement for Expansion Services rendered by Edison for the City of Pasadena's T.M. Goodrich Receiving Station (Letter Agreement).

On July 24, 1992 Pasadena and Edison executed an amendment which provides for certain new 230-kV facilities added to the T.M. Goodrich Receiving Station by Pasadena to be subject to Edison's written approval and Edison will operate and maintain those new facilities. In conjunction with that amendment, Pasadena has requested Edison to perform certain engineering services for the expansion of Goodrich.

The Letter Agreement contains the services that were performed by Edison and the costs associated with the services.

Copies of this filing were served upon the Public Utilities Commission of the State of California and all interested parties.

Comment date: December 28, 1992, in accordance with Standard Paragraph E at the end of this notice.

5. Public Service Co. of New Hampshire

[Docket No. ER93-230-000]

Take notice that on November 23, 1992, Public Service Company of New Hampshire (PSNH) tendered for filing a Notice of Cancellation of Rate Schedule FERC No. 140 between Connecticut Light and Power Company, Western Massachusetts Electric Company and PSNH.

Comment date: December 28, 1992, in accordance with Standard Paragraph E at the end of this notice.

6. Maine Public Service Co.

[Docket No. ER92-725-000]

Take notice that on December 9, 1992, Maine Public Service Company (Maine Public) tendered an amended filing of a proposed initial rate schedule, originally filed July 14, 1992, pertaining to the short term, non-firm sale of capacity and energy. The rate will be negotiated between Maine Public and the purchaser at the time of the transaction, but not to exceed Maine Public's cost of service for the units available for sale. A Service Agreement will be executed prior to the time of a purchase by a particular utility and submitted to the Commission. An amended filing is being made to include modifications suggested by the Commission Staff.

Additionally, Maine Public has included with the amended filing an executed Service Agreement with Bangor-Hydro-Electric Company.

Maine Public has requested that the rate schedule become effective no later than November 16, 1992, corresponding with the commencement of the initial transaction under said rate schedule, and requests waiver of the Commission's regulations regarding filing.

Comment date: December 28, 1992, in accordance with Standard Paragraph E at the end of this notice.

Standard Paragraphs

E. Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

[FR Doc. 92-30821 Filed 12-18-92; 8:45 am]

BILLING CODE 6717-01-M

[Docket Nos. CP93-102-000, et al.]

Sea Robin Pipeline Co., et al.; Natural Gas Certificate Filings

Take notice that the following filings have been made with the Commission:

1. Sea Robin Pipeline Co.

[Docket No. CP93-102-000]

December 11, 1992.

Take notice that on December 8, 1992, Sea Robin Pipeline Company (Sea Robin), P.O. Box 2563, Birmingham, Alabama 35202-2563, filed in Docket No. CP93-102-000 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon a transportation service under its Rate Schedule X-23 which was authorized in Docket No. CP78-7-000, all as more fully set forth in the application on file with the Commission and open to public inspection.

Sea Robin proposes to abandon a transportation service performed for Natural Gas Pipeline Company of

America (NGPL) pursuant to an agreement dated August 16, 1977, as amended. Sea Robin states that the service currently involves the transportation of up to 3,799 Mcf of gas per day from Block 127, South Marsh Island Area, to a point onshore near Erath, Vermilion Parish, Louisiana. Sea Robin explains that NGPL has notified it that NGPL desires to terminate the agreement effective as of the expiration of the primary term of the agreement, April 22, 1993, and has requested that Sea Robin seek appropriate abandonment authorization. Sea Robin advises that the abandonment would relieve NGPL of demand charges resulting from reserved firm capacity no longer needed. Further, Sea Robin advises that no facilities are to be abandoned.

Comment date: January 4, 1993, in accordance with Standard Paragraph F at the end of this notice.

2. Panhandle Eastern Pipe Line Co.

[Docket No. CP93–99–000]

December 11, 1992.

Take notice that on December 8, 1992, Panhandle Eastern Pipe Line Company (Panhandle), P.O. Box 1642, Houston, Texas 77251–1642, filed in Docket No. CP93–99–000 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon storage and transportation services performed under Panhandle's Rate Schedule E–9 in conjunction with Michigan Consolidated Gas Company (MichCon) and ANR Pipe Line Company (ANR), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Panhandle proposes to abandon the services which were carried out under an agreement between Panhandle, MichCon and ANR.[1] It is stated that Panhandle was authorized in Docket No. CP77–253, *et al.*, to provide storage services for its customers utilizing storage contracts with MichCon and transportation contracts with ANR. These services are no longer needed, because they have been replaced by storage and transportation services authorized by the Commission in Docket No. CP77–253–026. Panhandle asserts that it will cancel Rate Schedule E–9 on receipt of the requested abandonment authorization. It is stated that no customers would lose service as a result of the proposed abandonment. No facilities are proposed to be abandoned.

Comment date: January 4, 1993, in accordance with Standard Paragraph F at the end of this notice.

3. El Paso Natural Gas Co.

[Docket No. CP93–90–000]

December 11, 1992.

Take notice that on December 4, 1992, El Paso Natural Gas Company (El Paso), P.O. Box 1492, El Paso, Texas 79978, filed in Docket No. CP93–90–000 an application pursuant to sections 7(b) and 157.5 of the Natural Gas Act for permission and approval to abandon certain certificated transportation, exchange and sales services, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

El Paso states that the specific services to be abandoned and the rate schedules under which the service was performed are: special Rate Schedule Z–6 sales to the City of Rankin, Texas; exchange with Northern Natural Gas Company (Northern) under Rate Schedule X–10; transportation service for Northern, under Rate Schedule X–11; and an exchange with Northern under Rate Schedule Z–1. El Paso further states that all such rate schedules are contained in its FERC Gas Tariff, Third Revised Volume No. 2. El Paso indicates that El Paso and the parties referenced above have entered into specific letter agreements which terminate the subject gas transportation, gas exchange or gas sales agreements.

El Paso reports that no facilities would be abandoned as a result of the instant proposal to abandon services. El Paso further states that it will continue to operate all of the related facilities to the extent necessary to provide part 284 transportation service.

Comment date: January 4, 1993, in accordance with Standard Paragraph F at the end of the notice.

4. ANR Pipeline Co.

[Docket No. CP93–87–000]

December 11, 1992.

Take notice that on December 2, 1992, ANR Pipeline Company (ANR), 500 Renaissance Center, Detroit, Michigan 48243, filed in Docket No. CP 93–87–000 a prior notice request with the Commission pursuant to section 157.205 of the Commission's Regulations under the Natural Gas Act (NGA) for authorization to operate under section 7 of the NGA the Stag Lake facilities [which ANR constructed under section 311 of the Natural Gas Policy Act of 1978 (NGPA) in Stag Lake, St. Joseph County, Michigan, under the blanket certificate issued in Docket No. CP82–480–000 pursuant to section 7 of the NGA, all as more fully set forth in the request which is open to the public for inspection.

ANR states that the Stag Lake facilities consist of 3.5 miles of 24-inch pipe metering and appurtenant facilities, which ANR built in 1990 and placed in service on February 2, 1990, under section 311 of the NGPA. ANR spent a total of $4,338,000 to construct these facilities for delivering gas to the Consumers Power Company at Stag Lake. ANR now proposes to operate the Stag Lake facilities under authority of section 7 of the NGA. ANR states that it currently delivers approximately 253,500 dekatherms per day of natural gas via the Stag Lake facilities. ANR also states that it does not request sales authority in this proceeding. ANR further states that certification of the Stag Lake facilities would have no impact on ANR's gas supply situation and that deliveries via these facilities would not result in any detriment or disadvantage to ANR's other customers.

Comment date: January 25, 1993, in accordance with Standard Paragraph G at the end of this notice.

5. Sea Robin Pipeline Co.

[Docket No. CP93–103–000]

December 11, 1992.

Take notice that on December 8, 1992, Sea Robin Pipeline Company (Sea Robin), P.O. Box 2563, Birmingham, Alabama 35202–2563, filed in Docket No. CP93–103–000 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon a transportation service under its Rate Schedule X–22 which was authorized in Docket No. CP77–618–000, all as more fully set forth in the application on file with the Commission and open to public inspection.

Sea Robin proposes to abandon a transportation service performed for Natural Gas Pipeline Company of America (NGPL) pursuant to an agreement dated August 16, 1977, as amended. Sea Robin states that it is currently authorized to transport up to 44,271 Mcf of gas per day from the Eugene Island Block 305 Area, to a point onshore near Erath, Vermilion Parish, Louisiana. Sea Robin explains that NGPL has notified it that NGPL desires to terminate the agreement effective as of the expiration of the primary term of the agreement, April 8, 1993, and has requested that Sea Robin seek appropriate abandonment authorization. Sea Robin advises that the abandonment would relieve NGPL of demand charges resulting from reserved firm capacity no

[1] The original agreement was with Michigan Wisconsin Pipe Line Company, predecessor of ANR.

longer needed. Further, Sea Robin advises that no facilities are to be abandoned.

Comment date: January 4, 1993, in accordance with Standard Paragraph F at the end of this notice.

6. ANR Storage Co.

[Docket No. CP93–97–000]

December 14, 1992.

Take notice that on December 7, 1992, ANR Storage Company (ANR Storage), 500 Renaissance Center, Detroit, Michigan 48243, filed in Docket No. CP93–97–000 an application pursuant to section 7(c) of the Natural Gas Act and § 284.221 of the Commission's Regulations for a blanket certificate of public convenience and necessity authorizing the storage of natural gas, as permitted by subpart A of part 284 of the Regulations, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

ANR Storage requests the issuance of the blanket certificate in order to provide storage service on behalf of interstate pipelines and other customers. It is stated that on receipt of the requested part 284 blanket certificate, ANR Storage would terminate its existing part 157 blanket certificate. It is asserted that ANR Storage will comply with the requirements of § 284.221(c) of the Regulations. It is further asserted that no customers of ANR Storage would be affected by the proposed replacement of the part 157 blanket certificate with the part 284 blanket certificate.

Comment date: January 4, 1993, in accordance with Standard Paragraph F at the end of the notice.

Standard Paragraphs

F. Any person desiring to be heard or make any protest with reference to said file with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this filing if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for the applicant to appear or be represented at the hearing.

G. Any person or the Commission's staff may, within 45 days after the issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefore, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to section 7 of the Natural Gas Act.

Lois D. Cashell,

Secretary.

BILLING CODE 6717–01–M

[Docket No. JD93–01654T; Louisiana-16]

State of Louisiana; NGPA Notice of Determination by Jurisdictional Agency Designating Tight Formation

December 15, 1992.

Take notice that on December 11, 1992, the Office of Conservation of the Department of Natural Resources for the State of Louisiana (Louisiana) submitted the above-referenced notice of determination pursuant to § 271.703(c)(3) of the Commission's regulations, that the Lower Haynesville Formation, Reservoir A, underlying parts of the Arkana and North Carterville Fields in Bossier Parish, Louisiana, qualifies as a tight formation under section 107(b) of the Natural Gas Policy Act of 1978. The area of application covers all of sections 1–5 and the north half of sections 9–11 of Township 23 North, Range 12 West.

The notice of determination also contains Louisiana's findings that the referenced part of the Lower Haynesville Formation meets the requirements of the Commission's regulations set forth in 18 CFR part 271.

The application for determination is available for inspection, except for material which is confidential under 18 CFR 275.206, at the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426. Persons objecting to the determination may file a protest, in accordance with 18 CFR 275.203 and 275.204, within 20 days after the date this notice is issued by the Commission.

Lois D. Cashell,

Secretary.

[FR Doc. 92–30917 Filed 12–18–92; 8:45 am]

BILLING CODE 6717–01–M

[Docket No. CP93–106–000]

Arkla Energy Resources; Notice of Request Under Blanket Authorization

December 15, 1992.

Take notice that on December 10, 1992, Arkla Energy Resources, a division of Arkla, Inc., (Arkla), P.O. Box 21734, Shreveport, LA 71151, filed in Docket No. CP93–106–000, a request pursuant to §§ 157.205 and 157.211, 212, and 216 of the Commission's Regulations under the Natural Gas Act, for authority to construct and operate certain facilities and to abandon certain facilities in Louisiana, all as more fully set forth in the request on file with the Commission and open to public inspection.

Arkla specifically proposes to (1) abandon in place its FM–28 Line serving Arkansas Louisiana Gas Company's (ALG's) Gulftown border because the line is corroded and it leaks around the clamps and collars and (2) relocate the meter station from its FM–28 Line to an existing inactive tap on its F–2 Line to continue to delivery to ALG.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a

protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to section 7 of the Natural Gas Act.

Lois D. Cashell,

Secretary.

[FR Doc. 92-30918 Filed 12-18-92; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. ES93-16-000]

Century Power Corp.; Notice of Application

December 11, 1992

Take notice that on December 11, 1992, Century Power Corporation ("Century") filed an application under section 204 of the Federal Power Act seeking authorization to modify the terms of its existing debt obligations with CITIBANK, N.A. ("CITIBANK") which were initially undertaken in connection with Century's guarantee in 1987 of an issue of Variable Rate Demand Pollution Control Bonds in the principal amount of $86,500,000. Century requests authority to revise its payment obligations to CITIBANK, to issue a substitute promissory note evidencing its indebtedness to CITIBANK and to secure its obligations through applicable mortgage amendments.

Century requests expedited action on its application so that an order can be issued as soon as possible but, in no event, later than December 28, 1992.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 or 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before December 21, 1992. Protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

[FR Doc. 92-30822 Filed 12-18-92; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. CP93-101-000]

United Gas Pipe Line Co.; Notice of Request Under Blanket Authorization

December 11, 1992

Take notice that on December 8, 1991, United Gas Pipe Line Company (United), P.O. Box 1478, Houston, Texas 77251-1478, filed in Docket No. CP93-101-000, a request pursuant to §§ 157.205 and 157.211 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205), for authorization to install a 2-inch sales tap and meter station at the existing Baxterville 4-inch line to provide a delivery point to serve Oryx Energy Company (Ornx) in Lamar County, Mississippi under United's blanket certificate issued in Docket No. CP82-430-000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request that is on file with Commission and open to public inspection.

United states that upon execution of an open-access transportation agreement it will be authorized to provide natural gas transportation service to Oryx. United further states that the service provided to Oryx will be interruptible and will therefore have no impact on United's curtailment plan.

United further states that the proposed activities will not affect United's ability to serve its other existing customers.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefore, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to section 7 of the Natural Gas Act.

Office of Fossil Energy

[FE Docket No. 92-152-NG]

TexPar Energy, Inc., Order Granting Blanket Authorization To Import and Export Natural Gas From and to Canada

AGENCY: Office of Fossil Energy, DOE.

ACTION: Notice of order.

SUMMARY: The Office of Fossil Energy of the Department of Energy gives notice that it has issued an order granting TexPar Energy, Inc., blanket authorization to import and/or export up to an aggregate of 200 Bcf of natural gas from and to Canada over a two-year term beginning on the date of the first import or export.

A copy of this order is available for inspection and copying in the Office of Fuels Programs Docket Room, 3F-056, Forrestal Building, 1000 Independence Avenue, SW., Washington, DC 20585, (202) 586-9478. The docket room is open between the hours of 8 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays.

Issued in Washington, D.C., December 15, 1992.

Office of Hearings and Appeals

Cases Filed During the Week of November 20 Through November 27, 1992

During the Week of November 20 through November 27, 1992, the appeals and applications for exception or other relief listed in the appendix to this Notice were filed with the Office of Hearings and Appeals of the Department of Energy.

Under DOE procedural regulations, 10 CFR part 205, any person who will be aggrieved by the DOE action sought in these cases may file written comments on the application within ten days of service of notice, as prescribed in the procedural regulations. For purposes of the regulations, the date of service of notice is deemed to be the date of publication of this Notice or the date of receipt by an aggrieved person of actual notice, whichever occurs first. All such comments shall be filed with the Office of Hearings and Appeals, Department of Energy, Washington, DC 20585.

Dated: December 14, 1992.

Issuance of Decisions and Orders During the Week of November 9 Through November 13, 1992

During the week of November 9 through November 13, 1992 the decisions and orders summarized below were issued with respect to appeals and applications for exception or other relief filed with the Office of Hearings and Appeals of the Department of Energy. The following summary also contains a list of submissions that were dismissed by the Office of Hearings and Appeals.

Appeals

Barton J. Bernstein, 11/13/92, *LFA–0013*

Barton J. Bernstein filed an Appeal from a denial by the Director of the Office of Executive Secretariat, of a request for information that he filed under the Freedom of Information Act (FOIA). In his Appeal, Professor Bernstein challenged the Director's withholding of portions of two letters written in 1950 and 1952 in the possession of the DOE. As the result of an appellate review of the documents, the DOE determined that some of the deleted information could now be declassified and released, while other withheld portions must continue to be withheld as Restricted Data under the Atomic Energy Act of 1954 concerning nuclear weapons design, which are exempt from mandatory disclosure under Exemption 3 of the FOIA. Accordingly, the Appeal was granted in part and denied in part.

James L. Schwab, 11/12/92, *LFA–0245*

James L. Schwab filed an Appeal from a partial denial by the Office of the Inspector General (IG) of a Request for Information submitted pursuant to the Freedom of Information Act. In considering the Appeal, the DOE found that the absence of a descriptive index rendered the requester unable to formulate a meaningful appeal. As a result, the determination was remanded to the IG for preparation of a descriptive index of the withheld documents.

WPC Companies, 11/09/92, *LFA–0241*

The WPC Companies filed an Appeal from a determination issued by the Acting Director of the Information and Administrative Services Division of the Strategic Petroleum Reserve Project Management Office (SPRMO) of the Department of Energy (DOE) in response to its Request for Information submitted under the Freedom of Information Act (FOIA). In considering the Appeal, the DOE determined that SPRMO permissibly invoked the deliberative process privilege of Exemption 5 to withhold an audit report on an SPRMO contractor which was prepared by the management and operations contractor at SPRMO pursuant to its DOE contract. The audit report was prepared to assist in ongoing negotiations over a disputed contract amount. Thus, the DOE determined that the contractor was operating on behalf and at the behest of the Agency and that the audit report was part of the deliberative process. The DOE also determined, however, that SPRMO had not determined whether any non-exempt material could be reasonably segregated and released as required by the FOIA. Accordingly, the Appeal was denied in part, granted in part, and remanded with instruction to either release non-exempt material or issue a new determination in accordance with the guidance in the Decision and Order.

Requests for Exception

Gallup-Silkworth Petroleum Products, 11/09/92, *LEE–0044*

Gallup-Silkworth Petroleum Products filed an Application for Exception from the requirement that it file Form EIA–782B, the "Reseller/Retailers' Monthly Petroleum Product Sales Report." In considering Gallup-Silkworth's request,

the DOE found that the firm was not adversely affected by the reporting requirements in a way that was significantly different from the burden borne by similar reporting firms. Therefore, the DOE denied Gallup-Silkworth's Application for Exception.

Smith Wholesalers, Inc., 11/10/92, *LEE-0040*

Smith Wholesalers, Inc. filed an Application for Exception from the requirement that it file Form EIA-782B, "Reseller/Retailers' Monthly Petroleum Product Sales Report." In considering the request, the DOE found that the firm was not adversely affected by the reporting burden in a way that is significantly different from the burden borne by similar reporting firms. Accordingly, exception relief was denied.

Implementation of Special Refund Procedures

Crescent Refining & Oil Company, Petroleum Fuel Company, 11/12/92 *LEF-0044*

The DOE issued a Decision and Order implementing procedures for the distribution of $288,327, plus accrued interest, obtained from Crescent Refining and Oil Company and Petroleum Fuel Company (Crescent). These funds were remitted by Crescent to the DOE to settle possible pricing violations with respect to specific sales of No. 2-D diesel fuel, fuel oil, and bunker fuel during the period September 1, 1973 through October 31, 1975 to customers listed in a Remedial Order (R.O.) issued to Crescent. The DOE determined that the funds will be distributed in accordance with the DOE's special refund procedures, 10 CFR part 205, subpart V. Applications for Refund will be accepted from the customers named in the R.O. and for the specific transactions covered by the R.O. The specific information to be included in the Applications for Refunds, which must be submitted by June 30, 1993, is included in the Decision.

Refund Applications

Atlantic Richfield Company/Westfield ARCO, 11/13/92 *RF304-3953, RF304-13252*

The DOE issued a Decision and Order concerning two Applications for Refund filed in the Atlantic Richfield Company Subpart V special refund proceeding on behalf of Westfield ARCO and its owner, Mr. Steven P. Stawinski, Jr. Noting that the firm had filed a previous refund claim which was granted and then rescinded, the DOE found that the firm falsely stated that it had filed no other ARCO refund claims. Because of this misrepresentation, the DOE denied the two Applications, with prejudice to a refiling.

Shell Oil Company/The Tennessean Truckstop et al., 11/13/92 *RF315-10214 et al.*

The DOE issued a Decision and Order concerning 5 Applications for Refund in the Shell Oil Company special refund proceeding. Since all were filed after the April 1, 1992 deadline, the claims were denied.

Texaco Inc./Trotti Thompson, Inc., 11/12/92 *RF321-16151*

The DOE issued a Decision and Order denying the Application for Refund filed on behalf of Trotti Thompson, Inc. in the Texaco Inc. special refund processing. Ashland Oil, Inc., the parent company of Trotti Thompson, Inc., had already received the $50,000 maximum refund under the medium-range presumption of injury at the time Trotti Thompson, Inc. application was filed. Consequently, the DOE determined that Trotti Thompson, Inc. is ineligible to receive any refund based on its purchases of Texaco products during the consent order period.

Refund Applications

The Office of Hearings and Appeals issued the following Decisions and Orders concerning refund applications, which are not summarized. Copies of the full texts of the Decisions and Orders are available in the Public Reference Room of the Office of Hearings and Appeals.

Gulf Oil Corporation/Basil Oil Field Service, Inc.	RF300-20673	11/09/92
Gulf Oil Corporation/Lake's Gulf.	RF300-17060	11/10/92

BILLING CODE 6450-01-M

Implementation of Special Refund Procedures

AGENCY: Office of Hearings and Appeals, Department of Energy.

ACTION: Implementation of special refund procedures.

SUMMARY: The Office of Hearings and Appeals (OHA) of the Department of Energy (DOE) announces the procedures for disbursement of $1,786,696.83 in principal, plus accrued interests, in alleged crude oil violation amounts obtained by the DOE under the terms of a consent order entered into with Texas International Company and Texas International Petroleum Corporation (Case No. LEF-0045). The OHA has determined that the funds will be distributed in accordance with the DOE's Modified Statement of Restitutionary Policy Concerning Crude Oil Overcharges, 51 FR 27899 (August 4, 1986).

DATE AND ADDRESS: Applications for Refund must be filed by June 30, 1994, and should be addressed to: Subpart V Crude Oil Overcharge Refunds, Office of Hearings and Appeals, U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585.

FOR FURTHER INFORMATION CONTACT: Thomas O. Mann, Deputy Director, Roger Klurfeld, Assistant Director, Office of Hearings and Appeals, 1000 Independence Avenue, SW., Washington, DC 20585, (202) 586-2094 (Mann); 586-2383 (Klurfeld).

SUPPLEMENTARY INFORMATION: In accordance with 10 CFR 205.282(c),

notice is hereby given of the issuance of the Decision and Order set out below. The Decision sets forth the final procedures that the DOE has formulated to distribute crude oil overcharge funds obtained from Texas International Company and Texas International Petroleum Corporation. The funds are being held in an interest-bearing escrow account pending distribution by the DOE.

The OHA has decided to distribute these funds in accordance with the DOE's Modified Statement of Restitutionary Policy Concerning Crude Oil Overcharges, 51 FR 27899 (August 4, 1986) (the MSRP). Under the MSRP, crude oil overcharge monies are divided among the states, the federal government, and injured purchasers of refined products. Refunds to the states will be distributed in proportion to each state's consumption of petroleum products during the period of price controls. Refunds to eligible purchasers will be based on the number of gallons of petroleum products which they purchased and the extent to which they can demonstrate injury.

Applications for refund must be filed by June 30, 1994, and should be sent to the address set forth in the beginning of this notice. The information which claimants should include in their applications is explained in the Decision, which immediately follows: Any claimant that has already filed a crude oil refund application need not file again.

Dated: December 14, 1992.

George B. Breznay,

Director, Office of Hearings and Appeals.

December 14, 1992.

Decision and Order of the Department of Energy

Implementation of Special Refund Procedures

Name of Firm: Texas International Co.; Texas International Petroleum Corp.
Date of Filing: May 5, 1992
Case Number: LEF–0045

Under the procedural regulations of the Department of Energy (DOE), the Economic Regulatory Administration (ERA) may request that the Office of Hearings and Appeals (OHA) formulate and implement special refund procedures. 10 CFR 205.81. These procedures are used to refund monies to those injured by actual or alleged violations of the DOE price regulations.

I. Background

On September 14, 1984 the DOE entered into a consent order with Texas International Co. (TIC) and its wholly owned subsidiary, Texas International Petroleum Corp. (TIPCO) (hereinafter referred to collectively as the consent order firms). During the period September 1, 1973 through December 31, 1975, TIPCO was engaged in the production and sale of crude oil. The DOE audited the companies' compliance during the period with the Mandatory Petroleum Pricing and Allocation Regulations (the regulations) and issued a Proposed Remedial order (PRO) to the consent order firms requiring refunds for alleged crude oil overcharges. Thereafter, the firms entered into a consent order which resolved the issues raised by the PRO.

On May 5, 1992, the ERA filed a Petition for the Implementation of Special Refund Procedures for alleged crude oil overcharges obtained from the consent order firms. In the present case, the consent order firms have remitted a total of $1,786,696.83 to the DOE in accordance with Consent Order 640C00181. An additional $845,791.35 in interest has accrued on that amount as of October 31, 1992. This Decision and Order sets forth the OHA's plan to distribute these funds.

The general guidelines which the OHA may use to formulate and implement a plan to distribute refunds are set forth in 10 CFR part 205, subpart V. The subpart V process may be used in situation where the DOE cannot readily identify the persons who may have been injured as a result of actual or alleged violations of the regulations or ascertain the amount of the refund each person should receive. For a more detailed discussion of subpart V and the authority of the OHA to fashion procedures to distribute refunds, See Office of Enforcement, 9 DOE ¶ 82,508 (1981). We have considered the ERA's request to implement subpart V procedures with respect to the monies received from TIPCO and TIC, and have determined that such procedures are appropriate in the present case.

On July 28, 1986, the DOE issued a Modified Statement of Restitutionary Policy Concerning Crude Oil Overcharges, 51 Fed. Reg. 27899 (August 4, 1986) (the MSRP). The MSRP was issued as a result of a court-approved Settlement Agreement In re: The Department of Energy Stripper Well Exemption Litigation, 653 F. Supp. 108 (D. Kan. 1986), 6 Fed. Energy Guidelines ¶ 90,509 (1986) (the Stripper Well Settlement Agreement). The MSRP establishes that 40 percent of all crude oil overcharge funds will be refunded to the federal government, another 40 percent to the states, and up to 20 percent may be initially reserved for the payment of claims by injured parties. The MSRP also specifies that any monies remaining after all valid claims by injured purchasers are paid be disbursed to the federal government and the states in equal amounts.

The OHA has utilized the MSRP in all subpart V proceedings involving alleged crude oil violations. See Order Implementing the MSRP, 51 FR 29689 (August 20, 1986). This Order provided a period of 30 days for the filing of comments or objections to our proposed use of the MSRP as the groundwork for evaluating claims in crude oil refund proceedings. Following this period, the OHA issued a Notice evaluating the numerous comments which it received pursuant to the Order Implementing the MSRP. This Notice was published at 52 FR 11737 (April 10, 1987) (the April 10 Notice).

The April 10 Notice contained guidance to assist potential claimants wishing to file refund applications for crude oil monies under the subpart V regulations. Generally, all claimants would be required to (1) document their purchase volumes of petroleum products during the August 19, 1973 through January 27, 19871 crude oil price control period, and (2) prove that they were injured by the alleged crude oil overcharges. We also specified that end-users of petroleum products whose businesses are unrelated to the petroleum industry will be presumed to have been injured by the alleged crude oil overcharges and need not submit any additional proof of injury beyond documentation of their purchase volumes. See City of Columbus, Georgia, 16 DOE ¶ 85,550 (1987). Additionally, we stated that crude oil refunds would be calculated on the basis of a per gallon (or "volumetric") refund amount, which is obtained by dividing the crude oil refund pool by the total consumption of petroleum products in the United States during the crude oil price control period. The OHA has adopted the refund procedures outlined in the April 10 Notice in numerous cases. See, e.g., Shell Oil Co., 17 DOE ¶ 85,204 (1988) (Shell); Mountain Fuel Supply Co., 14 DOE ¶ 85,475 (1986) (Mountain Fuel).

II. The Proposed Decision and Order

On July 8, 1992, OHA issued a Proposed Decision and Order (PD&O) establishing tentative procedures to distribute the alleged crude oil violation amounts obtained from TIPCO. OHA tentatively concluded that the funds in that case should be distributed in accordance with the MSRP and the April 10, 1987 Notice. Pursuant to the MSRP, OHA proposed to initially reserve twenty percent of the alleged crude oil violation amounts for direct restitution to qualified applicants who are able to establish that they were injured by the alleged crude oil violations. The remaining eighty percent of the funds would be distributed to the states and the federal government for indirect restitution. After all valid claims are paid, any remaining funds in the claims reserve also would be divided between the states and the federal government. The federal government's share ultimately would be deposited into the general fund of the Treasury of the United States.

In the PD&O, OHA proposed to require applicants for refunds to document their purchase volumes of petroleum products during the period of price controls and to prove that they were injured by the alleged crude oil overcharges. The PD&O stated that end users of petroleum products whose businesses were unrelated to the petroleum industry could rely upon the end user presumption to establish that they absorbed the alleged crude oil overcharges, and therefore need not submit any further proof of injury to receive a refund. OHA also proposed to calculate refunds on the basis of a volumetric refund amount, as described in the April 10, 1987 Notice. Comments were solicited regarding the tentative distribution process set forth in the PD&O. No comments were received.

III. Refund Claims

We have concluded that the alleged crude oil violation amount of $1,786,696.83 in

principal, plus accrued interest, covered by this Decision shall be distributed in accordance with the procedures described in the PD&O. Accordingly, we will adopt the DOE's standard procedures to distribute the consent order funds. We have chosen to initially reserve twenty percent of these funds, plus accrued interest, for direct refunds to claimants in order to ensure that sufficient funds will be available for injured parties. This reserve figure may later be reduced if circumstances warrant.

The OHA will evaluate crude oil refund claims in a manner to that used in subpart V proceedings to evaluate claims based on alleged refined product overcharges. See Mountain Fuel, 14 DOE at 88,869. Under these procedures, claimants will be required to document their purchase volumes of petroleum products and prove that they were injured as a result of the alleged violations.

We will adopt a presumption that the crude oil overcharges were absorbed, rather than passed on, by applicants which were (1) end-users of petroleum products, (2) unrelated to the petroleum industry, and (3) not subject to the regulations promulgated under the Emergency Petroleum Allocation Act of 1973 (EPAA), 15 U.S.C. 751–760h (1982) In order to receive a refund, end-user claimants need not submit any evidence of injury beyond documentation of their purchase volumes. See Shell 17 DOE at 88,406.

Petroleum retailer, reseller, and refiner applicants must submit detailed evidence of injury, and they may not rely upon the injury presumptions utilized in some refined product refund cases. Id. These applicants may, however, use econometric evidence of the type found in the OHA Report on Stripper Well Overcharges, 6 Fed. Energy Guidelines ¶ 90,507 (1985). See also Petroleum Overcharge Distribution and Restitution Act § 3003(b)(2), 15 U.S.C. 4502(b)(2).

If a claimant has executed and submitted a valid waiver pursuant to one of the escrows established by the Stripper Well Settlement Agreement, it has waived its rights to file an application for subpart V crude oil refund monies. See Mid-America Dairymen v. Herrington, 878 F.2d 1448 (Temp. Emer. Ct. App. 1989), 3 Fed. Energy Guidelines ¶ 26,617 (1989); In re: Department of Energy Stripper Well Exemption Litigation, 707 F. Supp. 1267 (D. Kan. 1983), 3 Fed. Energy Guidelines ¶ 26,613 (1987).

Refunds to eligible claimants who purchased refined petroleum products will be calculated on the basis of a volumetric refund amount derived by dividing the alleged crude oil violation amounts involved in this determination ($2,632,488.18) by the total consumption of petroleum products in the United States during the period of price controls. (2,020,997,335,000 gallons). Mountain Fuel, 14 DOE at 88,868, n.4. This yields a volumetric refund amount of $0.000001302568852719 per gallon.

As has been stated in prior decisions, a crude oil refund applicant will only be required to submit one application for its share of all available crude oil overcharge funds. See, e.g., A. Tarricone, Inc., 15 DOE ¶ 85,495 (1987). A party that has already submitted a claim in any other crude oil refund proceeding implemented by the DOE need not file another claim. The prior application will be deemed to be filed in all crude oil refund proceedings finalized to date. The deadline for filing an Application for Refund from the TIPCO funds is June 30, 1994. It is the policy of the DOE to pay all crude oil refund claims filed before June 30, 1994, at the rate of $.0008 per gallon. While we anticipate that applicants which filed their claims by June 30, 1988, will receive a supplemental refund payment, we will decide in the future whether claimants that filed later applications should receive additional refunds.

IV. Crude Oil Application Requirements

To apply for a crude oil refund, a claimant should submit an Application for Refund containing all of the following information:

(1) Identifying information including the claimant's name, current business address, business address during the refund period, taxpayer identification number, an indication whether the claimant is a corporation, the name, title, and telephone number of a person to contact for any additional information, the name and address of the person who should receive any refund check.[1] If the applicant operated under more than one name or under a different name during the price control period, the applicant should specify these names;

(2) If the applicant's firm is owned by another company, or owns other companies, a list of those companies' names, addresses, and descriptions of their relationship to the applicant's firm;

(3) A brief description of the claimant's business and the manner in which it used the petroleum products listed on its application;

(4) A statement identifying the petroleum products which the applicant purchased during the period August 19, 1973 through January 27, 1981, an annual schedule displaying the number of gallons of each petroleum product purchased during this refund period, and the total number of gallons of all petroleum products claimed on the refund application;

(5) An explanation as to how the applicant obtained the above mentioned purchase volumes, and, if estimates were used, a description of its method of estimation;

(6) A statement that neither the claimant, its parent firm, affiliates, subsidiaries, successors, nor assigns has waived any right it may have to receive a crude oil refund (e.g., by having executed and submitted a valid waiver accompanying a claim to any of the escrow accounts established pursuant to the Stripper Well Settlement Agreement);

(7) A statement that the applicant has not filed any other refund application in the Subpart V crude oil refund proceeding;

(8) If the applicant is not an end-user, was covered by the DOE price regulations, or is related to the petroleum industry, a showing that the applicant was injured by the alleged crude oil overcharges;

(9) If the applicant is a regulated utility or a cooperative, certifications that it will pass on the entirety of any refund received to its customers, will notify its state utility commission, other regulatory agency, or membership body of the receipt of any refund, and a brief description as to how the refund will be passed along;

(10) The statement listed below signed by the individual applicant or a responsible official of the company filing the refund application:

I swear (or affirm) that the information contained in this application and its attachments is true and correct to the best of my knowledge and belief. I understand that anyone who is convicted of providing false information to the federal government may be subject to a fine, a jail sentence, or both, pursuant to 18 U.S.C. 1001. I understand that the information contained in this application is subject to public disclosure. I have enclosed a duplicate of this entire application which will be placed in the OHA Public Reference Room.

All applications should be either typed or printed and clearly labeled "Application for Crude Oil Refund." Each applicant must submit an original and one copy of the application. If the applicant believes that any of the information in its application is confidential and does not wish for this information to be publicly disclosed, it must submit an original application, clearly designated "confidential," containing the confidential information, and two copies of the application with the confidential information deleted. All refund applications should be sent to: Subpart V Crude Oil Overcharge Refunds, Office of Hearings and Appeals, Department of Energy, 1000 Independence Ave., SW., Washington, DC 20585.

The filing deadline is June 30, 1994. Even though an applicant is not required to use any specific form for its crude oil refund application, a suggested form has been prepared by the OHA and may be obtained by sending a written request to the address listed above.

D. Payments to the Federal Government and the States

Under the terms of the MSRP, the remaining eighty percent of the alleged crude oil overcharge amounts subject to this Decision, plus accrued interest, will be disbursed in equal shares to the states and federal government for indirect restitution. Refunds to the states will be in proportion to the consumption of petroleum products in each state during the period of price controls. The share or ratio of the funds which each state will receive is contained in Exhibit H

[1] Under the Privacy Act of 1974, the submission of a social security number by an individual applicant is voluntary. An applicant that does not wish to submit a social security number must submit an employer identification number if one exists. This information will be used in processing refund applications, and is requested pursuant to our authority under the Petroleum Overcharge Distribution and Restitution Act of 1986 and the regulations codified at 10 CFR part 205, subpart V. The information may be shared with other Federal agencies for statistical, auditingor archiving purposes, and with law enforcement agencies when they are investigating a potential violation of civil or criminal law. Unless an applicant claims confidentiality, this information will be available to the public in the Public Reference Room of the Office of Hearings and Appeals.

of the Stripper Well Settlement Agreement, 6 Fed. Energy Guidelines ¶ 90,509 at 90,667. When disbursed, these funds will be subject to the same limitations and reporting requirements as all other crude oil monies received by the states under the Stripper Well Settlement Agreement.

It Is Therefore Ordered That: (1) Applications for Refund from the crude oil monies, remitted to the Department of Energy by Texas International Co. and Texas International Petroleum Corporation pursuant to the Consent Order dated September 14, 1984, may now be filed.

(2) All crude oil refund applications submitted pursuant to Paragraph (1) above must be postmarked no later than June 30, 1994.

(3) The Director of Special Accounts and Payroll, Office of Departmental Accounting and Financial Systems Development, Controller's Office, Department of Energy, shall transfer 40% of the funds in the subaccount denominated "Texas International Petroleum Corporation" (Consent Order No. 640C00181Z) into the subaccount denominated "Crude Tracking-States," Account No. 999DOE003W.

(4) The Director of Special Accounts and Payroll shall transfer 40% of the funds in the subaccount denominated "Texas International Petroleum Corporation" into the subaccount denominated "Crude Tracking-Federal," Account No. 999DOE002W.

(5) The Director of Special Accounts and Payroll shall transfer 20% of the funds in the subaccount denominated "Texas International Petroleum Corporation" into the subaccount denominated "Crude Tracking-Claimants 4," Account No. 999DOE010Z.

Dated: December 14, 1992.

George B. Breznay,

Director, Office of Hearings and Appeals.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-4545-9]

Agency Information Collection Activities Under OMB Review

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collection and its expected cost and burden; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before January 21, 1993.

FOR FURTHER INFORMATION OR TO OBTAIN A COPY OF THIS ICR, CONTACT: Sandy Farmer at EPA, (202) 260-2740.

SUPPLEMENTARY INFORMATION:

Office of Air and Radiation

Title: Pre-Certification and Testing Exemption--Recordkeeping and Reporting Requirements (EPA ICR No. 0095.04; OMB No. 2060-0007). This ICR requests renewal of the existing clearance.

Abstract: To apply for pre-certification or testing exemptions, vehicle, engine and parts manufacturers must provide EPA with information demonstrating that the exempted items will be used primarily in product development, method assessment, market promotion or research. EPA uses the information to guarantee that uncertified or untested vehicles, engines or parts are not used commercially.

Burden Statement: The public reporting burden for this collection of information is estimated to average 4 hours per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

Respondents: Motor vehicle, engine and parts manufacturers.

Estimated Number of Respondents: 155.

Estimated Total Annual Burden on Respondents: 725 hours.

Frequency of Collection: On occasion.

Send comments regarding the burden estimate, or any other aspect of this information collection, including suggestions for reducing the burden, to:

Sandy Farmer, U.S. Environmental Protection Agency, Information Policy Branch (PM-223Y), 401 M Street, SW.,Washington, DC, 20460.

and

Troy Hillier, Office of Management and Budget, Office of Information and Regulatory Affairs, 725 17th Street, NW.,Washington, DC, 20503.

Dated: December 11, 1992.

FEDERAL COMMUNICATIONS COMMISSION

Public Information Collection Requirement Submitted to Office of Management and Budget for Review

December 15, 1992

The Federal Communications Commission has submitted the following information collection requirement to OMB for review and clearance under the Paperwork Reduction Act of 1980 (44 U.S.C. 3507).

Copies of this submission may be purchased from the Commission's copy contractor, Downtown Copy Center, 1990 M Street, NW., Suite 640, Washington, DC 20036, (202) 452-1422. For further information on this submission contact Judy Boley, Federal Communications Commission, (202) 632-7513. Persons wishing to comment on this information collection should contact Jonas Neihardt, Office of Management and Budget, room 3235 NEOB, Washington, DC 20503, (202) 395-4814.

OMB Number: 3060-0289.
Title: Section 76.601, Performance tests.
Action: Revision of a currently approved collection.
Respondents: State or local governments and businesses or other for-profit (including small businesses).
Frequency of Response: Recordkeeping requirement.
Estimated Annual Burden: 10,704 recordkeepers; 26.36 hours average burden per recordkeeper; 285,047 hours total annual burden.
Needs and Uses: Section 76.601 requires every cable system operator to maintain a current listing of the cable television channels which that system delivers to its subscribers. Section 76.601(c) and (d) requires cable systems with over 1,000 subscribers to conduct semi-annual proof of performance tests and triennial proof of performance tests for color testing. On 2/13/92, the Commission adopted a Report and Order, MM Docket No. 91-169, Cable Television Technical and Operational Requirements. On 6/15/92, OMB approved new testing requirements adopted in this proceeding for this rule section. Eight Petitions for Reconsideration/Clarification were filed in this proceeding. On 11/10/92, the Commission adopted a Memorandum of Opinion and Order, MM Docket No. 19-169. On reconsideration, the Commission revised Section 76.601 to reduce the number of test points from six to one for each portion of a system served by a technically integrated microwave hub. This test point can be

counted against the total number of test points required as well. Additionally, the Commission reduced the number of channels required (a minimum of four) for hum testing in 76.601(a) to one and allowed for the use of a single unmodulated carrier for testing which would allow the use of existing testing equipment on the system. The above relaxations would result in an average annual burden reduction of three hours (from 73 to 70 hours) for cable system with over 1,000 subscribers. The data is used by FCC staff in field inspections and franchise authorities to ensure that an acceptable quality signal is being provided to cable subscribers, and to ensure that there are no single leakage problems which could cause interference with over-the-air radio frequencies involving safety-of-life functions (i.e., police, fire, forestry, aeronautical, amateur radio). The list of channels would be used to determine what program services are carried on which class of cable channel.

Federal Communications Commission.

Donna R. Searcy,

Secretary.

[FR Doc. 92-30873 Filed 12-18-92; 8:45 am]

BILLING CODE 6712-01-M

Public Information Collection Requirements Submitted to Office of Management and Budget for Review

December 14, 1992.

The Federal Communications Commission has submitted the following information collection requirements to OMB for review and clearance under the Paperwork Reduction Act of 1980 (44 U.S.C. 3507).

Copies of these submissions may be purchased from the Commission's copy contractor, Downtown Copy Center, 1990 M Street, NW., suite 640, Washington, DC 20036, (202) 452-1422. For further information on these submissions contact Judy Boley, Federal Communications Commission, (202) 632-7513. Persons wishing to comment on these information collections should contact Jonas Neihardt, Office of Management and Budget, room 3235 NEOB, Washington, DC 20503, (202) 395-4814.

OMB Number: 3060-0436

Title: Sections 15.214(d)(3) and 68.200(k), Cordless telephone security coding.

Action: Extension of a currently approved collection.

Respondents: Business or other for-profit.

Frequency of Response: On occasion reporting.

Estimated Annual Burden: 200 responses; 1 hour average burden per response; 200 hours total annual burden.

Needs and Uses: Cordless telephone security features protect the public switched telephone network from unintentional line seizure and telephone dialing. These features prevent unauthorized access to the telephone line, the dialing of calls in response to signals other than those from the owner's handset and the unintentional ringing of a cordless telephone's handset. Use for the cordless telephone security features reduces the harm cause by some cordless telephones to the "911" Emergency Services Telephone System and to the telephone network in general. The rules require that a statement of the means and procedures used to achieve the protection set forth in the technical regulations for security coding of cordless telephones accompany a FCC Form 731, Application for Equipment Authorization. In addition, any FCC Form 730, Registration of Telephone and Data Terminal Equipment, must be accompanied by a statement indicating that the proposed device contains appropriate provision for protection of the public switched network, pursuant to the requirements of § 15.214. The information will be used to determine compliance of the proposed equipment with the Commission's Rules. Following authorization of the equipment for marketing, the information may be used to determine that the operation of the equipment is consistent with the information supplied at the time of grant, and the equipment marketed complies with the terms of the equipment authorization. The information collected is essential to controlling potential interference to the public switched telephone network, and to establishing compliance of an applicant for equipment authorization with the Commission's technical regulations for the subject devices.

OMB Number: 3060-0402.

Title: Application for a New or Modified Microwave Radio Station License Under Part 21.

Form Number: FCC Form 494.

Action: Extension of a currently approved collection.

Respondents: Businesses or other for-profit (including small businesses).

Frequency of Response: On occasion reporting.

Estimated Annual Burden: 10,000 responses; 2 hours average burden per response; 20,000 hours total annual burden.

Needs and Uses: FCC Form 494 is used by telecommunication entities to request authorization to construct and operate a microwave facility. The form is a multipurpose application form used to request Commission authorization for new or modified radio station facilities in the following part 21 services: Point-to-Point Microwave; Local Television Transmission Service; Multipoint Distribution Service; Digital Electronic Message Service; and Fixed Subsidiary Communications Authorization. The form is used to apply for a license for a new radio station; to amend a pending license application; to modify a granted license; and to notify the Commission of certain changes. Several questions on the form require applicants to submit further information in the form of exhibits. Applicants are advised to refer to part 21 of the Commission's Rules before completing the form to determine whether other showings are necessary in addition to those specified in the form. The information collected in the application is used by FCC staff to determine whether the applicant is qualified legally, technically and financially to be licensed to use microwave radio frequencies.

BILLING CODE 6712-01-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

Public Information Collection Requirements Submitted to OMB for Review

ACTION: Notice.

SUMMARY: The Federal Emergency Management Agency (FEMA) has submitted to the Office of Management and Budget the following public information collection requirements for review and clearance in accordance with the Paperwork Reduction Act of 1980, 44 U.S.C. chapter 35.

DATES: Comments on this information collection must be submitted on or before February 19, 1993.

ADDRESSES: Direct comments regarding the burden estimate or any aspect of this information collection, including suggestions for reducing this burden, to: the FEMA Information Collections

Clearance Officer at the address below; and to Gary Waxman, Office of Management and Budget, 3235 New Executive Office Building, Washington, DC 20503, (202) 395–7340, within 60 days of this notice.

FOR FURTHER INFORMATION CONTACT: Copies of the above information collection request and supporting documentation can be obtained by calling or writing Linda Borror, FEMA Information Collections Clearance Officer, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646–2624.

Type: Revision to 3067–0009.

Title: Disaster Assistance Registration.

Abstract: The Disaster Assistance Registration form, FEMA Forms 90–69 (English) and 90–69A (Spanish), is used only in Presidentially declared major disasters or emergencies to register individuals for and refer them to such Federal disaster assistance programs as temporary housing, individual and family grants, and Small Business Administration disaster loans for individuals and businesses. Eligibility for these disaster assistance programs can not be determined without this information collection. The information is collected by FEMA personnel who interview applicants in person or by telephone.

Type of Respondents: Individuals and households, farms, businesses or other for-profit, non-profit institutions, and small businesses or organizations.

Estimate of Total Annual Reporting and Recordkeeping

Burden: 33,750 hours.

Number of Respondents: 135,000.

Estimated Average Burden Time per Response: 15 minutes.

Frequency of Response: Other. Only in Presidentially declared major disasters or emergencies.

Dated: December 7, 1992.

Wesley C. Moore,

Director, Office of Administrative Support.

FEDERAL MARITIME COMMISSION

Agreement(s) Filed

The Federal Maritime Commission hereby gives notice of the filing of the following agreement(s) pursuant to section 5 of the Shipping Act of 1984.

Interested parties may inspect and obtain a copy of each agreement at the Washington, DC Office of the Federal Maritime Commission, 800 North Capitol Street, NW., 9th Floor. Interested parties may submit comments on each agreement to the Secretary, Federal Maritime Commission, Washington, DC 20573, within 10 days after the date of the Federal Register in which this notice appears. The requirements for comments are found in § 572.603 of title 46 of the Code of Federal Regulations. Interested persons should consult this section before communicating with the Commission regarding a pending agreement.

Agreement No.: 224–200165–010.

Title: Maryland Port Administration/ Ceres Corporation, Marine Terminal Leasing Agreement.

Parties: The Maryland Port Administration, Ceres Corporation.

Synopsis: The modification extends the terms of the Agreement for an additional thirty days beginning December 8, 1992.

By Order of the Federal Maritime Commission.

Dated: December 15, 1992.

Joseph C. Polking,

Secretary.

BILLING CODE 6730–01–M

GENERAL SERVICES ADMINISTRATION

Backup Contracting

AGENCY: Federal Supply Service, GSA.

ACTION: Notice.

SUMMARY: This notice invites comments on proposed clauses that will implement a contracting method known as backup contracting. FSS is dedicated to satisfying the needs of its customer agencies in an efficient and economical manner. To do this, FSS is continuously identifying and eliminating internal and external barriers to the delivering of services. Awarding a backup contract in the event the primary contractor fails to perform has been identified as one contracting method that ensures continued supply support for critical items.

DATES: Comments are due in writing on January 21, 1993.

ADDRESSES: Comments should be addressed to Nicholas Economou, FSS Acquisition Management Center (FCO), Crystal Mall Building #4, room 716, Washington, DC 20406.

FOR FURTHER INFORMATION CONTACT: Gail Klopfer, Acquisition Policy and Regulations Division (703–305–6413).

SUPPLEMENTARY INFORMATION:

Background

Under a requirements type contract, it a contractor experiences performance problems, the contracting officer may either extend the delivery schedule, terminate individual orders, or terminate the contract and reprocure. These options often result in lapses of contract coverage. Lack of contract coverage often adversely impacts the safety and security aspects of various Federal programs. When a primary contractor is unable to perform, backup contracts can ensure continued supply support.

Backup contracting may be used in the procurement of essential business and weapons critical items. Backup contracting may also be used in procurements for items that have a history of high and unpredictable demand and items that have a history of poor supplier performance.

When this contracting method is used in FSS the following clauses will apply:

Backup Requirements Contract for

FSC Class: *_____*
Commodity: *_____*
Period: *_____* or date contract is activated, whichever is later, through *_____*
(End of Provision)

Provision for Backup Contracts

Items covered by this solicitation may be awarded to more than one contractor under the conditions set forth in the solicitation Award of Backup Contracts provision (M–FSS–XXX). (End of Provision)

Agreement To Be Considered for Award as Backup Contractor

If the offeror agrees to consideration for award of a backup contract at the prices contained in this offer, check "yes" below. If not, check "no".

_____Yes _____No
(End of Provision)

Award of Backup Contracts: (applicable to items _____)

(a) For the items identified above, additional awards (to be referred to as backup contracts) may also be made to the next low responsible and responsive (acceptable) offeror; provided, the price offered is considered to be fair and reasonable the contractor has checked "yes" to clause, H–FSS–XXX, Agreement To Be Considered for Award as Backup Contractor.

(b) In order to qualify for an award as a "backup" contractor, an offeror must have the production capacity to supply the total estimated requirements for each item to be awarded and be capable of complying with all the terms and conditions of this solicitation.

(c) An offeror awarded a backup contract will be identified as the "backup" contractor. When an item(s) is awarded to a "backup" contractor, the offeror who received the basic award for that item(s) shall be identified as the "primary" contractor.
(End of Clause)

Backup Contracts—Additional Terms and Conditions

The following provisions apply to contracts for items for which both a "primary" and "backup" contractor have received an award. Unless otherwise noted, all other clauses contained in this solicitation apply to both the primary and backup contract.

(a) *Placement of orders*—The "primary" contractor is entitled to all requirements required to be purchased by mandatory users under the contract. The "backup" contractor is entitled to receive orders for contract items that either (1) are not placed with the "primary" contractor in accordance with the applicable Monthly Supply Potential (MSP) clause, which the "primary" contractor has refused under that clause; or (2) result from the "primary" contractor's default on individual orders or the entire contract.

(b) *Status Report of Orders and Shipments*—Reports required by the class at 552.242–70, Status Report of Orders and Shipments, are not required from the "backup" contractor until the calendar month in which it receives the first order.

(c) *First article approval*—For any item awarded to the "backup" contractor requiring first article approval, the number of days indicated in paragraph (b) of the First Article Testing clause for submission of the time for testing or the test report is from receipt of written notification from the Contracting Officer that the Government has requirements requiring delivery under the contract.

(d) *Subcontracting plan requirements*—Reports required by the clause at 52.219–9, Small Business and Small Disadvantaged Business Subcontracting Plan, are not required from the "backup" Contractor or its subcontractor until the first period following receipt of the first order.

(e) *Economic Price Adjustment*—If this contract contains an Economic Price Adjustment (EPA) clause, the terms and conditions of the EPA clause apply equally to the "backup" contractor even though the backup contract has not been activated.

(f) *Default*—The following provisions are in addition to standard Default clause of this contract:

(i) In the event of default in performance of the contract either in whole or in part by the "primary" contractor, the "backup" contractor will be used to fulfill the defaulted requirements. The "primary" contractor will be held liable for any resulting excess costs incurred in procuring the defaulted requirements from the "backup" contractor.

(ii) In the event the "backup" contractor defaults, in whole or in part on any requirements that the "primary" contractor was otherwise obligated to deliver but on which he subsequently defaulted, the "backup" contractor will be liable for reprocurement costs which exceed the backup contract price.
(End of Clause)

Dated: December 8, 1992.

Nicholas M. Economou,

CPPO, Director, FSS Acquisition Management Center (FCO).

BILLING CODE 6820–24–M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Agency for Toxic Substances and Disease Registry

[ATSDR–65]

Quarterly Public Health Assessments Completed and Public Health Assessments To Be Conducted in Response to Requests From the Public

AGENCY: Agency for Toxic Substances and Disease Registry (ATSDR), Public Health Service (PHS), Department of Health and Human Services (HHS).

ACTION: Notice.

SUMMARY: This notice contains the following: 1. A list of sites for which ATSDR has completed a public health assessment, or issued an addendum to a previously completed public health assessment, during the period July-September 1992. This list includes sites that are on, or proposed for inclusion on, the National Priorities List (NPL) and non-NPL sites for which ATSDR has prepared public health assessments in response to requests from the public (petitioned sites). 2. A list of sites for which ATSDR, during the same period, has accepted a request from the public to conduct a public health assessment (petitioned public health assessment). Acceptance for a request for the conduct of a public health assessment is based on a determination by the Agency that there is a reasonable basis for conducting a public health assessment at the site.

FOR FURTHER INFORMATION CONTACT: Robert C. Williams, P.E., DEE, Director, Division of Health Assessment and Consultation, Agency for Toxic Substances and Disease Registry, 1600 Clifton Road, NE., Mailstop E–32, Atlanta, Georgia 30333, telephone (404) 639–0610.

SUPPLEMENTARY INFORMATION: The most recent list of completed public health assessments, public health assessments with addenda, and petitioned public health assessments which were accepted by ATSDR during April-June 1992 was published in the **Federal Register** on September 16, 1992, (57 FR 42757). The quarterly announcement is the responsibility of ATSDR under the regulation, Public Health Assessments and Health Effects Studies of Hazardous Substances Releases and Facilities (42 CFR part 90). This rule sets forth ATSDR's procedures for the conduct of public health assessments under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), as amended by the Superfund Amendments and Reauthorization Act (SARA) (42 U.S.C. 9604(i)), and appeared in the **Federal Register** on February 13, 1990, [55 FR 5136].

Availability

The completed public health assessments are available for public inspection at the Division of Health Assessment and Consultation, Agency for Toxic Substances and Disease Registry, Building 33, Executive Park Drive, Atlanta, Georgia (not a mailing address), between 8 a.m. and 4:30 p.m., Monday through Friday except legal holidays. The completed public health assessments are also available by mail

through the U.S. Department of Commerce, National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, Virginia 22161, or by telephone at (703) 487–4650. There is a charge determined by NTIS for these public health assessments. The NTIS order numbers are listed in parentheses after the site name.

1. Public Health Assessments or Addenda Completed or Issued

Between July 1, 1992 and September 30, 1992, public health assessments or addenda to public health assessments were issued for the sites listed below:

NPL Sites

California: Advanced Micro Devices #915—Sunnyvale—(PB92–217876), Westinghouse (Sunnyvale Plant)—Sunnyvale—(PB93–112571).
Florida: American Creosote Works, Inc. (Pensacola)—Pensacola—(PB92–217868), Anaconda Aluminum/Milgo Electronics—Miami—(PB92–226380), City Industries—Orlando—(PB92–229137), Florida Steel Corporation—Indiantown—(PB92–239342), Sydney Mine Sludge Pond—Valrico—(PB92–239656), Whitehouse Waste Oil Pits—Whitehouse—(PB92–239623).
Michigan: G & H Landfill—Shelby Township—(PB92–239508).
Nebraska: Cornhusker Army Ammunition Plant—Grand Island—(PB93–113231), 10th Street Site—Columbus—(PB92–224526).
New Hampshire: Mottolo Pig Farm—Raymond—(PB92–214915).
Pennsylvania: Delta Quarries/Stotler Landfill—Antis and Logan Townships—(PB92–209451), Dorney Road Site—Mertztown—(PB92–215011).
Utah: Ogden Defense Depot—Ogden—(PB93–113249).
Wisconsin: Algoma Municipal Landfill—Algoma—(PB92–217850), Wausau Groundwater Contamination—Wausau—(PB92–204031).

Petitioned Sites (Non-NPL Sites)

Connecticut: Air Quality—Wallingford—(PB93–112563), Solvents Recovery Services of New England—Southington—(PB92–214907).
Massachusetts: Groton/Gratuity Road—Groton—(PB93–112555).
Pennsylvania: Lackawanna County—(PB92–209469).

2. Petition for Public Health Assessment Accepted

Between July 1, 1992, and September 30, 1992, ATSDR determined that there was a reasonable basis to conduct a public health assessment for the site listed below in response to requests from the public. As of September 30, 1992, ATSDR initiated a public health assessment at this site.

Tennessee: Chattanooga Creek—Chattanooga.

Dated: December 14, 1992.

Walter R. Dowdle,

Acting Administrator, Agency for Toxic Substances and Disease Registry.

[FR Doc. 92–30850 Filed 12–18–92; 8:45 am]
BILLING CODE 4160–70–M

Centers for Disease Control and Prevention

[Program Announcement Number 310]

Public Health Conference Support Cooperative Agreement Program for Human Immunodeficiency Virus (HIV) Prevention

Introduction

The Centers for Disease Control and Prevention (CDC), the Nation's prevention agency, announces the availability of funds in fiscal year (FY) 1993 for the Public Health Conference Support Cooperative Agreement Program related to Human Immunodeficiency Virus (HIV) educational and prevention programs. The Public Health Service (PHS) is committed to achieving the health promotion and disease prevention objectives of Healthy People 2000, a PHS-led national activity to reduce morbidity and mortality and improve the quality of life. This announcement is related to the priority area of HIV Infection. (For ordering a copy of Healthy People 2000, see the section Where to Obtain Additional Information.)

Authority

This program is authorized under Sections 301 [42 U.S.C. 241] and 317 [42 U.S.C. 247b] of the Public Health Service Act, as amended. Program regulations are set forth in 42 CFR part 52, entitled "Grants for Research Projects," as amended.

Eligible Applicants

Eligible applicants include nonprofit and for-profit organizations. Thus, universities, colleges, research institutions, hospitals, public and private organizations, community-based, national, and regional organizations, state and local governments or their bona fide agents or instrumentalities, federally recognized Indian Tribal governments, Indian tribes or organizations, and small, minority- and/or woman-owned businesses are eligible for these cooperative agreements.

Availability of Funds

Approximately $500,000 will be available in FY 1993 to fund approximately 10 to 15 awards. The awards will average $22,000 and will be funded with a 12-month budget and project period. The funding estimate outlined above may vary and is subject to change, based on the availability of funds. Awards will initially be made on a contingency basis as described below under "Purpose." The following are examples of the most frequently encountered costs that may or may not be charged to the cooperative agreement:

A. As approved, funds may be used for direct cost expenditures: salaries, speaker fees, rental of equipment, registration fees, and transportation cost (not to exceed economy class fares) for non-federal employees.

B. Funds may not be used for the purchase of equipment, payments of honoraria, organizational dues, entertainment/personal expenses, cost of travel and payment of a full-time Federal employee, per diem, or expenses other than local mileage for local participants.

C. Funds may not be used for reimbursement of indirect costs.

D. Although the practice of handing out novelty items at meetings is often employed in the private sector to provide participants with souvenirs, Federal funds cannot be used for this purpose.

Purpose

The purpose of the HIV-related conference support cooperative agreement is to provide partial support for non-federal conferences in order to stimulate efforts to prevent the transmission of HIV. CDC will collaborate in conferences that specifically focus on preventing HIV transmission. Because conference support by CDC creates the appearance of CDC co-sponsorship, there will be active participation by CDC in the development and approval of those portions of the agenda supported by CDC funds. In addition, the CDC will reserve the right to approve or reject the content of the full agenda, speaker selection, and site selection. The CDC funds will not be expended for non-approved portions of meetings. Contingency awards will be made allowing usage of only 10% of the total amount to be awarded until a final full agenda is approved by CDC. This will provide funds for costs associated with

preparation of the agenda. The remainder of funds will be released only upon approval of the final full agenda. CDC reserves the right to terminate co-sponsorship if it does not concur with the final agenda.

Program Requirements

The CDC will provide support for conferences that are: (1) Directed to local, state, national, or international personnel contributing to HIV prevention efforts; and (2) focused on the application of research/evaluation findings to intervention efforts or the application of these prevention efforts to groups whose behaviors place them at risk for HIV infection. For topics concerned with CDC issues and areas other than HIV prevention, refer to Program Announcement number 313, "Public Health Conference Support Grant Program," published in the **Federal Register** on December 4, 1992, [57 FR 57464].

The activities related to the development of HIV prevention conference require substantial CDC collaboration and involvement. In conducting activities to achieve the purpose of the program, the recipient shall be responsible for conducting activities under A., below, and CDC will be responsible for conducting activities under B., below:

A. Recipient Activities

1. Manage all activities related to program content (e.g., objectives, topics, attenders, session design, workshops, special exhibits, speakers, fees, agenda composition and printing). Many of these items may be develop in concert with assigned CDC project personnel.

2. Provide draft copies of the agenda and proposed ancillary activities to CDC for approval. Submit copy of final agenda and proposed ancillary activities to CDC for review and approval.

3. Determine and manage all promotional activities (e.g., title, logo, announcements, mailers, press). CDC must review and approve of any materials with reference to CDC involvement or support.

4. Manage all registration processes with participants, invitees, and registrants (e.g., travel, reservations, correspondence, conference materials and handouts, badges, registration procedures).

5. Plan, negotiate, and manage conference site arrangements, including all audio-visual needs.

6. Develop and conduct education and training programs on HIV prevention.

7. Participate in the analysis of data from conference activities that pertain to the impact on HIV prevention.

8. Collaborate with CDC staff in reporting and disseminating results and relevant HIV prevention education and training information to appropriate Federal, state, and local agencies, health care providers, HIV/AIDS prevention/service organizations, and the general public.

B. CDC Activities

1. Provide technical assistance through telephone calls, correspondence and site visits in the areas of program agenda development, implementation, and priority setting related to the cooperative agreement.

2. Provide scientific collaboration for appropriate aspects of the program, including selection of speakers, pertinent scientific information on risk factors for HIV infection, preventive measures, and program strategies for the prevention of HIV infection.

3. Approve draft agendas and the final agenda and proposed ancillary activities prior to release to funds.

4. Assist in the reporting and dissemination of research results and relevant HIV prevention education and training information to appropriate Federal, state, and local agencies, health care providers, the scientific community, and HIV/AIDS prevention and service organizations.

Letter of Intent

Potential applicants must submit a letter of intent (not to exceed one type-written page) that briefly describes the title, location, purpose, and date of the proposed conference and the intended audience (number and profession). This letter should also include the estimated total cost of the conference and the percentage of the total cost being requested from CDC. Letters of intent will be reviewed by program staff for consistency with CDC's health promotion and disease prevention goals and priorities and the purpose of this program. An invitation to submit a final application will be made on the basis of the proposal's relationship to the CDC strategic plan for health promotion and disease prevention and on the availability of funds.

Evaluation Criteria

Letters of intent will be reviewed by program staff for consistency with CDC's HIV prevention goals and priorities and the purpose of this program. An invitation to submit a final application will be made on the basis of the proposal's relationship to the CDC strategic plan for HIV prevention and on the availability of funds. Applications will be reviewed and evaluated according to the following criteria (Total=100 Points):

A. Proposed Program and Technical Approach (50 points)

Evaluation will be based on: 1. The applicant's description of the proposed conference as it relates to HIV prevention and education, including the public health need of the proposed conference and the degree to which the conference can be expected to influence public health practices. The extent of the applicant's collaboration with other agencies serving the intended audience, including local health and education agencies concerned with HIV prevention.

2. The applicant's description of conference objectives in terms of quality and specificity, feasibility of the conference based on the operational plan, and the extent to which evaluation mechanisms for the conference will be able to adequately assess increased knowledge, attitudes, and behaviors of the target attenders.

3. The quality of the proposed agenda in addressing the chosen HIV prevention/education topic.

4. The degree to which all conference activities stricty adhere to the prevention of HIV transmission.

B. Applicant Capability (40 points)

Evaluation will be based on: 1. The adequacy and commitment of institutional resources to administer the program; and

2. The degree to which the applicant has established and used critical linkages with health and education agencies with the mandate for HIV prevention (letters of support from such agencies should demonstrate linkages specific to the conference).

C. The Qualifications of Program Personnel (10 Points)

Evaluation will be based on: 1. The qualifications, experience, and commitment of the principal staff person, and his/her ability to devote adequate time and effort to provide effective leadership;

2. The competence of associate staff persons, discussion leaders, and speakers to accomplish the proposed conference; and

3. The degree to which the application demonstrates the knowledge of all key personnel about the transmission of HIV, as well as nationwide information and education efforts currently underway that may affect, and be affected by, the proposed conference.

D. Budget Justification and Adequacy of Facilities (Not Scored)

The proposed budget will be evaluated on the basis of its reasonableness, concise and clear justification, and consistency with the intended use of cooperative agreement funds. The application will also be reviewed as to the adequacy of existing and proposed facilities and resources for conducting conference activities.

Executive Order 12372 Review

Applications are not subject to review as governed by Executive Order 12372, Intergovernmental Review of Federal Programs.

Public Health System Reporting Requirements

This program is not subject to the Public Health System Reporting Requirements.

Catalog of Federal Domestic Assistance (CFDA) Number

The Catalog of Federal Domestic Assistance Number is 93.118, *Acquired Immunodeficiency Syndrome (AIDS) activities.*

Other Requirements—HIV/AIDS Requirements

Recipients must comply with the document entitled, "Interim Revision of Requirements for Content of AIDS-Related Written Materials, Pictorials, Audiovisuals, Questionnaires, Survey Instruments, and Educational Sessions in Centers for Disease Control Assistance Programs" (June 15, 1992), a copy of which is included in the application kit. In complying with the requirements for a program review panel, recipients are encouraged to use an existing program review panel such as the one created by the state health department's AIDS/HIV prevention program. If the recipient forms its own program review panel, at least one member must be an employee (or a designated representative) of an government health department consisted with the content guidelines. The names of the review panel members must be listed on the Assurance of Compliance Form CDC 0.1113 which is also included in the application kit. The recipient must submit the program review panel's report that indicates all materials have been reviewed and approved.

Letter of Intent and Application Submission and Deadline

The original and two copies of the letter of intent must be submitted by close of business on the below listed due dates in order to be considered in the application cycles. Facsimiles are not acceptable.

Letter of intent due date	Application deadline
February 1, 1993	April 1, 1993.
March 15, 1993	May 14, 1993.

Following submission of a letter of intent, successful applicants will receive a written notification to submit an application for funding. Applications may be submitted *only* after the letter of intent has been reviewed and written invitation from the CDC has been received by the prospective applicant. An invitation to submit an application does not constitute a commitment to fund the applicant. The original and two copies of the application must be submitted on PHS Form 5161–1 and in accordance with the schedule below. The schedule also sets forth the earliest possible award date.

Application deadline	Earliest possible award date	Earliest possible conference date
April 1, 1993.	June 2, 1993	August 1, 1993.
May 14, 1993.	August 13, 1993	October 11, 1993.

Applications must be submitted on or before the deadline date to: Clara M. Jenkins, Grants Management Officer, Grants Management Branch, Procurement and Grants Office, Centers for Disease Control and Prevention (CDC), 255 East Paces Ferry Road, NE., Room 300, Atlanta, Georgia 30305.

1. Deadline

Applications shall be considered as meeting the deadline if they are either:

A. Received on or before the deadline date, or

B. Sent on or before the deadline date and received in time for submission to the independent review group. (Applicants should request a legibly dated U.S. Postal Service postmark or obtain a legibly dated receipt from a commercial carrier or the U.S. Postal Service. Private metered postmarks shall not be acceptable as proof of timely mailing.)

2. Late Applications

Applications for the first cycle that do not meet the criteria in 1.A or 1.B. above are considered late applications and will be placed into consideration for the next cycle. Applications for the second cycle that do not meet the criteria in 1.A or 1.B. above are considered late applications and will be returned to the applicant.

Where To Obtain Additional Information

To receive additional written information call (404) 332–4561. You will be asked to leave your name, address, and phone number, and will need to refer to Announcement Number 310. You will receive a complete program description, information on application procedures, a listing of the relevant Healthy People 2000 HIV objectives and an application package containing the addresses and phone numbers for the contact personnel. Mr. Kevin Moore, Grants Management Specialist, Grants Management Branch, Procurement and Grants Office, Centers for Disease Control and Prevention (CDC), 255 East Paces Ferry Road, NE., Room 300, Atlanta, Georgia 30305, will provide the business management and technical assistance. Programmatic technical assistance may be obtained from Mr. Dave Brownell, Program Analyst, Office of the Associate Director for HIV AIDS, Centers for Disease Control and Prevention (CDC), 1600 Clifton Road, NE., Mailstop E–40, Atlanta, GA 30333, (404) 639–2918. Please refer to Announcement Number 310 when requesting information and when submitting your application in response to the announcement.

Potential applicants may obtain a copy of Healthy People 2000 (Full Report, Stock No. 017–001–00474–0) or Healthy People 2000 (Summary Report, Stock No. 017–001–0473–1) through the Superintendent of Documents, Government Printing Office, Washington, DC 20402–9325 (Telephone 202–783–3238).

Dated: December 14, 1992.

Robert L. Foster,

Acting Associate Director for Management and Operations, Centers for Disease Control and Prevention (CDC).

[FR Doc. 92–30849 Filed 12–18–92; 8:45 am]

BILLING CODE 4160–18–M

Food and Drug Administration

[FDA–225–91–8000]

Memorandum of Understanding Between the Food and Drug Administration and the Centers for Disease Control for Radiation Emergency Response Planning and Radiation Emergency Response Action

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is providing notice of a revised memorandum of

understanding (MOU) between FDA and the Centers for Disease Control. The purpose of the revision is to update and extend a previous MOU describing the responsibilities of each agency in the event of peacetime radiological emergencies. This MOU describes how emergency planning and action will be coordinated with regard to radiological accidents that may have an impact on public health and safety.

DATES: The agreement became effective on September 10, 1992.

FOR FURTHER INFORMATION CONTACT: Donald L. Thompson, Office of Health Physics (HFZ–60), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–2850.

SUPPLEMENTARY INFORMATION: In accordance with 21 CFR 20.108(c), which states that all written agreements and memoranda of understanding between FDA and others shall be published in the **Federal Register**, the agency is publishing notice of this memorandum of understanding.

Dated: December 4, 1992.

Ronald G. Chesemore,

Associate Commissioner for Regulatory Affairs.

Memorandum of Understanding Between the Centers for Disease Control and the Food and Drug Administration for Radiation Emergency Response Planning and Radiation Emergency Response Action

Preamble

Preamble

Over the past decade, the Centers for Disease Control (CDC) and the Food and Drug Administration (FDA) have taken cooperative action to implement the Assistant Secretary for Health's (ASH) May 30, 1979, directive designating CDC as the lead agency within the Public Health Service (PHS) for health management of toxic environmental emergencies. This directive facilitates intramural communications and liaison with outside groups and ensures a prompt coordinated Federal response to environmental emergencies that endanger public health and safety. CDC's lead responsibility encompasses emergencies involving potential exposure to radiation, e.g., the accident at Three Mile Island. In a September 5, 1979, memorandum to the then Acting Commissioner of Food and Drugs, the Assistant Secretary for Health endorsed an active role for the Bureau of Radiological Health of FDA in radiation emergencies because of its specialized expertise for radiation emergency response planning. (In 1984 the Bureau was merged with the Bureau of Medical Devices of FDA and renamed the Center for Devices and Radiological Health.) The CDC and the FDA, in 1980, developed a memorandum of understanding (MOU) to describe the respective responsibilities of each agency with regard to peacetime radiological emergencies and how emergency planning and action will be coordinated.

Purpose and Scope

The purpose of the present memorandum of understanding is to revise and extend the previous MOU to reflect current activities and responsibilities of each agency. This document is concerned with radiological accidents which might have an impact on public health and safety. It does not include nonemergency environmental radiation problems (e.g., the dose reconstruction at the Hanford site).

Authority

FDA and CDC shall continue to act under existing delegations of authority, and no transfer of statutory functions or authority is implied by this MOU.

1. Both CDC and FDA derive authority from the Public Health Service Act (42 U.S.C. 241 *et seq.*), which provides authority for the conduct of health studies and the provision of guidance, assistance, and information on both health matters and for health emergencies. The Secretary of HHS is authorized to provide for cooperative planning to cope with health problems resulting from disasters, for participation in carrying out such planning, and, at the request of state and local authorities, in meeting health emergencies.

2. The FDA is responsible for enforcement of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 321-394), the Radiation Control for Health and Safety Act (21 U.S.C. 360gg-360ss), the Public Health Service Act as it pertains to regulation of biological products (21 U.S.C. 262 *et seq.*), other sections of the PHS Act, and other laws. In fulfilling its responsibility under these laws, FDA protects the public health and safety by, inter alia, preventing the adulteration of or controlling adulterated products such as foods, drugs, cosmetics, medical devices, animal feeds, and human biologicals. It also protects the public from the dangers of electronic product radiation.

3. On December 7, 1979, the President directed the Federal Emergency Management Agency (FEMA) to take the lead in activities associated with the off-site planning and response to all peacetime radiological accidents at nuclear facilities. Because of its leadership role, he further directed FEMA to undertake a series of activities including the development and issuance of updated interagency assignments delineating respective agency capabilities and responsibilities. FEMA outlined such responsibilities in 44 CFR Part 351. Planning and response activities were gradually extended to address sources of potential exposure other than nuclear power facilities, e.g., terrorist nuclear devices, and nuclear powered orbital and space vehicles. In 1988, the Federal Radiological Emergency Response Plan (FRERP) was identified as a component of the President's National Security Emergency Preparedness Policy (E.O. 12656).

FDA Responsibilities

1. *Response Planning*

FDA will be responsive to CDC's request for representation on task forces and coordinating committees relating to the FRERP.

The FDA Regional Offices will each appoint a representative to serve on Regional Advisory Committees, and participate in Federal Radiological Monitoring and Assessment Center activities. (A second representative will be appointed by each PHS Regional Office.)

FDA will coordinate the development of FEMA guidance for HHS responsibilities that clearly fall under FDA's jurisdiction and expertise. Specifically, FDA will maintain the responsibility for the following:

A. Provide guidance to state and local governments on the use of radioprotective substances (e.g., thyroid blocking agents) to include dosage and also projected radiation doses at which such drugs should be used.

B. Provide guidance to State and local governments on protective action guides for foods and animal feeds.

FDA will keep CDC regularly informed, and CDC will be requested to provide, as deemed appropriate, review and comments on the overall PHS perspective on the items mentioned above.

FDA will in cooperation with CDC work with Regional Advisory Committees to provide appropriate technical review and comment in areas of FDA responsibility.

FDA will provide technical assistance to CDC in developing and implementing HHS Radiological Emergency Preparedness Training Programs.

2. *Emergency Response Actions*

When FDA is alerted to a radiation emergency, it will immediately alert CDC.

In accordance with specific state, regional, or national plans, this MOU, and specific requests by CDC, FDA will:

A. As part of the HHS team, participate in the radiological emergency exercises, tests, and responses.

B. Establish appropriate emergency response liaison with the on-site CDC designated coordinator and keep CDC headquarters advised.

C. Provide technical support to State, local and other Federal agencies.

FDA will implement and coordinate its own Emergency Response Procedures as set forth in Chapter 5–10 of the FDA Regulatory Procedures Manual. Radiological emergency responses include such actions as:

A. Environmental monitoring and sampling of milk, foods, and animal feed following a radiological incident.

B. Analysis and interpretation of food and environmental monitoring data.

C. Taking appropriate compliance actions and implementing protective actions for contaminated food and feed under the statutory authority of the Federal Food, Drug, and Cosmetic Act and other Acts administered by FDA.

FDA will provide technical suppport to CDC for the preparation of HHS news releases, for coordination with other agencies, and for informing the public media about health significance of a radiological incident.

FDA will give CDC emergency contact telephone numbers for maintaining close liaison in case an emergency response action becomes necessary and for implementing HHS resources.

CDC Responsibilities

1. *Response Planning*

CDC has the lead role within PHS for planning the HHS role in the FEMA national response to radiation emergencies. This includes the following activities:

A. CDC is responsible for arranging HHS representation on the Federal Radiological Preparedness Coordinating Committee (FRPCC) and designating membership on relevant FRPCC subcomittees (e.g., FDA represents HHS on five task forces).

B. CDC arranges for appropriate PHS representation at meetings of all Regional Advisory Committees (RAC).

C. CDC participates in FEMA activities related to planning for radiation emergencies including coordinating the HHS response to review of FEMA documents relating to radiation emergencies.

D. CDC arranges for consultations between appropriate HHS components and state and local agencies and officials to help them plan for radiation emergencies in their jurisdiction.

E. CDC has the lead role for developing specific PHS response for implementation of the FRERP.

2. *Emergency Response Actions*

CDC has the PHS lead role to coordinate PHS response to radiological emergencies.

When notified of a radiological emergency, CDC:

A. Obtains sufficient information to allow a determination to be made of whether or not an emergency requiring HHS action exists.

B. Alerts all appropriate HHS agencies.

C. Consults with other HHS agencies to determine availability of resources required under the FRERP.

D. Requests mobilization of resources of PHS agencies.

CDC serves as the focal point for communication and coordination of information within PHS and between PHS and other Federal agencies, including designation of an on-site PHS coordinator at the scene of the emergency.

CDC develops and maintains epidemiological surveillance of populations exposed to radiological accidents and emergencies at local, State, and national levels for purposes of disease prevention.

As coordinator for PHS emergency response and liaison with FEMA, CDC consults with other HHS agencies, State and local authorities to:

A. Identify segments of the population which may be at high risk of harm from exposure (e.g., people with predisposing clinical conditions, children, pregnant women, the elderly).

B. Arrange for collection and analysis of appropriate biological specimens.

C. Consult on recommendations for decontamination and prophylactic procedures.

Names and Addresses of Participating Agencies:

Centers for Disease Control, 1600 Clifton Road NE., Atlanta, GA 30333,

Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857.

Liaison Officers:

CDC: Emergency Response Coordinator, Office of the Director, Center for Environmental Health and Injury Control

FDA: Health Physicist, Office of Health Physics, Center for Devices and Radiological Health

Approved and Accepted for the Centers for Disease Control:

Elvin Hilyer

Title: Associate Director for Policy Coordination, Centers for Disease Control

Date: September 10, 1992

Approved and Accepted for the Food and Drug Administration:

Ronald G. Chesemore

Title: Associate Commissioner for Regulatory Affairs, Food and Drug Administration

Date: September 10, 1992.

BILLING CODE 4160-01-F

National Institutes of Health

Notice of Availability of the HHS Report on the Management of Research Costs

Department of Health and Human Services (HHS) Secretary Sullivan has released to the public the report, Management of Research Costs: Indirect Costs, that was prepared under the auspices of the HHS Working Group on the Costs of Research. The Working Group was composed of Dr. Bernadine Healy, Director, National Institutes of Health (NIH); Mr. Arnold Tompkins, Assistant Secretary for Management and Budget, HHS; and Mr. Richard Kusserow, then HHS Inspector General.

Secretary Sullivan formally accepted the report on October 14, 1992, and transmitted it to the Office of Management and Budget (OMB) for consideration within the context of the ongoing study of the costs of research being carried out by OMB and the Office of Science and Technology Policy.

Copies of the report are available to the public. Interested parties should send a telefax to Editorial Experts Inc. on (703) 683-4915. (If a telefax is unavailable, direct requests may be made by telephone on (703) 683-0683.) The telefax should include the requestor's name, address, and telephone number. The report will be sent via regular U.S. mail. There is a limit of one copy per requestor. Previous requests were distributed as of November 25, 1992 (one copy only).

Dated: December 8, 1992.

Bernadine Healy,

Director, NIH.

BILLING CODE 4140-01-M

National Heart, Lung, and Blood Institute; Cancellation of Meeting

Notice is hereby given of the cancellation of the meeting of the National Heart, Lung, and Blood Special Emphasis Panel on Institutional National Research Service Awards (T32), December 17, 1992, 5333 Westbard Avenue, room 550, Bethesda, Maryland, which was published in the **Federal Register** on December 10, 1992. (57 FR 58512).

The meeting was canceled due to complications of other commitments of several members of the Panel and will be rescheduled at a later date.

Dated: December 15, 1992.

Susan K. Feldman,

Committee Management Officer, NIH.

BILLING CODE 4140-01-M

Social Security Administration

Privacy Act of 1974; Report of Altered System of Records

AGENCY: Social Security Administration (SSA), Department of Health and Human Services (HHS).

ACTION: Altered system of records.

SUMMARY: In accordance with the Privacy Act (5 U.S.C. 552a(e)(4)), we are issuing public notice of our intent to alter the system of records entitled "Disability Insurance and Supplemental Security Income Demonstration Projects and Experiments System HHS/SSA/ORSIP, 09-60-0218." The proposed alterations will expand the categories of individuals covered by, and the categories of records maintained in, the system. We also are making other editorial and technical revisions to the system to make it more accurate and up to date. We invite public comments on this publication.

DATES: We filed a report of an altered system of records with the Chairman, Committee on Government Operations of the House of Representatives; the Chairman, Committee on Governmental Affairs of the Senate; and the Administrator, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB) on December 11, 1992. We have requested OMB to waive the 60-day advance notice period for this system. If OMB does not agree to waive the advance notice period, the proposed altered system will become effective on February 11, 1993, unless we receive comments on or before that date which would result in a contrary determination.

ADDRESSES: Interested individuals may comment on this proposal by writing to the SSA Privacy Officer, 3–D–1 Operations Building, 6401 Security Boulevard, Baltimore, Maryland 21235. All comments received will be available for public inspection at that address.

FOR FURTHER INFORMATION CONTACT: Ms. Carol Brenner, Program Analyst, Office of Disability, Social Security Administration, Room 545 Altmeyer Building, 6401 Security Boulevard, Baltimore, Maryland 21235, telephone (410) 965–9181.

SUPPLEMENTARY INFORMATION:

I. Discussion of Proposed Alterations

A. Background

Section 505 of Pub. L. 96–265, as amended, requires SSA to test alternative methods of stimulating the return to work of disabled Social Security beneficiaries and Supplemental Security Income (SSI) recipients and applicants. One such alternative method SSA is testing is Project NetWork.

Project NetWork is a randomized field experiment testing four different service delivery models that are designed to increase opportunities for SSA clients with disabilities to receive the services they need to work. Through the establishment of case management-based systems, Project NetWork will provide access to an entire range of services necessary for a work attempt, including job placement and services on the job. It is a significant effort by SSA to take direct responsibility for helping people with disabilities to enter or reenter the workforce.

Case/referral managers, working in or near SSA field offices (FO), will collaborate with other public and private organizations to arrange for the rehabilitation services and employment for project participants. In two of the models, the case/referral managers are SSA employees. In the remaining two models, the case managers are under contract to SSA and are either State vocational rehabilitation agency counselors or private sector case managers. In addition, a private sector contractor will conduct an evaluation of the project. This contractor's responsibility will include interviewing samples of participants (treatment and control) and nonparticipants in each model.

Social Security Disability Insurance (DI) beneficiaries and individuals who apply for or receive SSI payments on the basis of a disability or blindness and applicants who concurrently apply for DI and SSI benefits/payments on the basis of disability or blindness who live in the FO service areas will be eligible to volunteer for participation in Project NetWork. Volunteers will be randomly assigned to either a treatment group or a control group.

B. Proposed Alterations

We propose to make two major alterations to the DI and SSI Demonstration Projects and Experiments System to provide for Project NetWork and other demonstration projects and experiments that SSA has undertaken and plans to implement and test in the future. Project NetWork is a new demonstration project designed to serve a wider population than this system of records currently covers.

1. Expansion of Categories of Individuals Covered by the System

The system currently covers the following categories of individuals:

- Sample groups of title II DI applicants and DI beneficiaries who are newly awarded or longer term (those on the rolls for 3–5 years) and their auxiliary beneficiaries; persons selected from temporary State DI programs; and the representative payees of these individuals; and
- Title XVI individuals receiving benefits on the basis of disability who are medically determined to be drug addicted or alcoholic, mentally retarded or developmentally disabled, and their representative payees.

In order to provide for Project NetWork as well as for additional projects and experiments that SSA has undertaken and plans to implement and test in the future, we are proposing to expand the categories of individuals covered by the system to include:

- Title II DI beneficiaries (regardless of the length of time they have been on the rolls); and their representative payees; and
- Individuals who apply for or receive title XVI payments on the basis of a disability or blindness (regardless of their disabilities) and their representative payees.

2. Expansion of Categories of Records in the System

The system currently contains various data relating to employment demographics, education, family history, medical and rehabilitation history and other data SSA collects and uses in demonstration projects to encourage disabled SSA clients to work. We are expanding the categories of records maintained to include earnings information subject to the provisions of section 6103 of the Internal Revenue Code (IRC).

II. Collection and Maintenance of Data

Information regarding Project NetWork clients will be obtained by the case/referral managers via interviews, meetings, telephone conversations, and correspondence with the clients, their families and caregivers, service providers, and employers. The Project NetWork data base also will maintain data obtained from other SSA data bases regarding project participants. The contractor performing the project evaluation also will obtain information regarding a sample of project participants and nonparticipants via personal interviews with participants and nonparticipants.

Information collected regarding these individuals will be maintained and retrieved by the Social Security number.

III. Proposed New/Amended Routine Use Disclosure of Data in the System

We are proposing to establish the following routine use of information which will be maintained in the system: *Disclosure may be made to the Internal Revenue Service (IRS), for the purpose of auditing SSA's compliance with the safeguard provisions of the IRC of 1986, as amended.*

This routine use will allow SSA to disclose information from the proposed system to IRS to permit IRS to audit SSA's maintenance of tax return information subject to the Internal Revenue Code (IRC).

Other routine uses in the system also are amended to clarify that SSA disclosures of tax return information will be subject to IRC restrictions.

IV. Effect of the Proposed Alteration on the Rights of Individuals

We are taking every precaution to ensure that the proposed alterations to the system do not have an adverse effect on the privacy or other rights of the individuals covered by the system. Project NetWork and additional demonstration projects and experiments SSA has undertaken and plans to implement and test in the future will be conducted in accordance with the requirements of the Privacy Act. We have guaranteed that no beneficiary or recipient will suffer any disadvantage by his or her participation in Project NetWork. This includes the data collection efforts that are conducted as part of the project. We will inform project participants of the types of information being disclosed, to whom, and for what reasons. Likewise, we will ensure that individuals/organizations to whom personal information is released, understand the rights of the individual and penalties for violating the Privacy

Act requirements. Furthermore, we will not share with the public or any other Federal agencies the information that is collected except to serve SSA's purposes directly related to this project. In light of the above, we do not anticipate any adverse effect of the proposed alterations on the rights of individuals.

V. Editorial and Technical Revisions to the Notice of the System

We have made editorial changes throughout the notice. We also have revised the sections of the notice of the system noted below to make it more accurate and up to date.

System name: Deleted the abbreviations "DI" and "SSI" and replaced "ORSIP" with "ORS" to reflect the acronym of the component (Office of Research and Statistics) that now has responsibility for the system.

System location: Updated the addresses of the components that maintain records and added information reflecting an additional records location.

Authority for maintenance of the system: Included additional legal authorities for maintenance of records in the system.

Purposes: Revised the language in this section to reflect the additional legal authorities for demonstration projects conducted by SSA and the restrictions imposed by the IRC on the disclosure of some types of records added to the system.

Safeguards: Revised this section to reflect the correct citation of the manual which specifies the safeguards SSA employs to protect records in the system.

System manager(s) and addresses: Revised this section to reflect the correct title and address of the system manager.

Notification procedures: Revised the language in this section to reflect the current Agency practice.

Record source categories: Revised this section to reflect the source of the "earning records" (tax return information) that will be maintained in the system.

Dated: December 11, 1992.

Louis D. Enoff,

Principal Deputy Commissioner of Social Security.

09-60-0216

SYSTEM NAME:

Disability Insurance and Supplemental Security Income Demonstration Projects and Experiments System, HHS/SSA/ORS.

SYSTEM LOCATION:

Social Security Administration, Office of System Operations, 6201 Security Boulevard, Baltimore, MD 21235

Social Security Administration, Office of Research and Statistics, 4301 Connecticut Avenue, NW., Washington, DC 20008

Certain SSA field locations: Addresses may be obtained by writing to the system manager at the address below.

Contractor sites: Contractor addresses may be obtained by writing to the system manager at the address below.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

A. Persons in sample groups of Social Security title II applicants, disability insurance (DI) beneficiaries and their auxiliary beneficiaries; persons selected from State temporary DI programs; other persons who are representative payees of these persons and temporarily disabled persons receiving State benefits (nonapplicants) in comparison groups for the vocational rehabilitation (VR) demonstrations.

B. Persons in sample groups of individuals who apply for or receive Social Security title XVI Supplemental Security Income (SSI) payments on the basis of a disability or blindness in general and particularly those who are medically determined to be drug addicted or alcoholic, mentally retarded or developmentally disabled, and representative payees of those individuals.

CATEGORIES OF RECORDS IN THE SYSTEM:

The system maintains records which are used for statistical and research analysis only, as well as other records which will be used to conduct program functions involving the demonstrations and experiments. Tax return information, the disclosure of which would violate section 6103 of the Internal Revenue Code (IRC), will be used solely for internal Social Security Administration (SSA) purposes and will not be disclosed to other entities. Participants will be informed at the time of data collection that information obtained by survey or interview exclusively for statistical and research purposes will be protected from disclosure for other purposes to the fullest extent permissible by law.

Records in the system consist of data relating to the following: Demographic characteristics, education, marital status, military service, dependents, family and household composition; medical history (mental and physical); medical expenses, disability characteristics and health information; living arrangements, health insurance coverage and use; medical and rehabilitation services; employment; occupation and industry classification; income (including tax return information subject to section 6103 of the IRC); earnings and expenditures; referrals to and participation in the SSI and related Federal/State welfare programs; benefits received; types of cost of services under DI, SSI and related Federal/State welfare programs; reasons or circumstances of closure; attitudes toward work, rehabilitation or treatment programs; impairment-related work expenses; workers' compensation benefits; job search methods; knowledge and understanding of provisions affecting entitlement to benefits; also, for SSI projects only, driver's license and alcohol and drug use (disclosure of this information may be restricted by 21 U.S.C. 1175 and 42 U.S.C. 4582).

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Sections 222, 702 and 1110 of the Social Security Act and section 505 of Public Law (Pub. L.) 96-265 (the Social Security Disability Amendments of 1980), as amended by section 12101 of Pub. L. 99-272, section 10103 of Pub. L. 101-239 and section 5120 of Pub. L. 101-508.

PURPOSE(S):

The purpose of this system is to provide SSA with data necessary to carry out and evaluate demonstrations and experiments for testing alternative approaches to continuing benefit eligibility during employment and to the rehabilitation of title II DI beneficiaries and individuals who apply for or receive title XVI SSI payments on the basis of a disability or blindness and, to report to Congress as required by section 505 of Public Law 96-265, as amended by section 12101 of Public Law 99-272, section 10103 of Public Law 101-239 and section 5120 of Public Law 101-508.

Except for tax return information, and records collected by means of surveys or interviews for use solely for research and statistical purposes, SSA may also provide information from this system to other components of the Department of Health and Human Services (HHS), e.g., the HHS Health Care Financing Administration (HCFA) for the purpose of determining eligibility for Hospital Insurance (HI) benefits or Supplementary Medical Insurance (SMI) benefits under the demonstrations and experiments and for the purpose of obtaining data from HCFA on HI and SMI utilization during the demonstrations and experiments; to State disability determination units for the purpose of making disability

determinations; and to State VR agencies for the purpose of screening DI beneficiaries and SSI recipients for VR potential and designing and implementing a plan of VR services for accepted beneficiaries and recipients.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES FOR USERS AND THE PURPOSES OF SUCH USES:

Information may be disclosed for routine uses as indicated below:

1. With respect to any records, including those collected by means of survey or interview to be used solely for research and statistical purposes, disclosure may be made:

(a) To a congressional office in response to an inquiry from that office made at the request of the subject of a record.

(b) Subject to any restrictions imposed by section 6103 of the IRC, to a contractor under contract to SSA, for the performance of research and statistical activities directly related to this system of records in conducting the demonstrations and experiments and to provide a statistical data base for research studies.

2. With respect only to records that are not collected by means of surveys or interviews for use solely for research and statistical purposes, disclosure may be made subject to any restrictions imposed by section 6103 of the IRC:

(a) To a third party organization under contract to SSA for the performance of project management activities directly related to this system of records.

(b) To a State VR agency in the State in which the disabled individual resides, for the purpose of assisting the agency in providing rehabilitation counseling and service to the individual that are necessary in carrying out the demonstrations and experiments.

3. To the IRS, for the purpose of auditing SSA's compliance with the safeguard provisions of the IRC of 1986, as amended.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records in this system may be stored in paper form (e.g., hard copy questionnaires, punch cards and computer printouts), on microfilm and in magnetic media (e.g., magnetic tape and disc).

RETRIEVABILITY:

Records in this system are indexed and retrieved by the Social Security number (SSN).

SAFEGUARDS:

Safeguards have been established for automated records in accordance with the HHS Information Management Manual, Part 6, Automated Information Systems Security Program Handbook. This includes maintaining the records in a secured building, such as the SSA National Computer Center (NCC). Entry into the NCC is restricted to employees whose duties require such entry. Special passes including the employees' photographs are issued to all personnel authorized to enter the NCC. The employees are required to wear their passes at all times. Marshals are stationed in the lobby of the center to ensure that only those employees authorized to enter the NCC do so.

Manually maintained records are kept in locked cabinets or in otherwise secure areas. Access to the records is limited to those employees who require the information to perform their assigned duties. SSA employees and employees of contractors having access to the records in this system have been notified of criminal sanctions for unauthorized disclosure of information about individuals.

Contractor use of records is restricted to performing the duties of the contract, and contractors are required to establish adequate safeguards to protect personal information. Additionally, contractors and their employees are subject to criminal penalties for violations of the Privacy Act.

RETENTION AND DISPOSAL:

Magnetic tapes or other files with personal identifiers are retained in secured storage areas accessible only to authorized personnel.

Microdata files prepared for purposes of research and analysis are purged of personal identifiers and are subject to procedural safeguards to assure anonymity.

Hardcopy questionnaires will be destroyed when survey reports are completed. Records with identifiers will be held in secure storage areas and will be disposed of as soon as they are determined to be no longer needed for SSA analysis.

Means of disposal are appropriate to the storage medium (e.g., erasure of tapes, shredding of paper records). Records used in administering the demonstration and experimental programs are retained indefinitely.

System manager(s) and addresses: Associate Commissioner, Office of Research and Statistics, Social Security Administration, 4301 Connecticut Avenue, NW., Washington, DC 20008.

Notification procedures: An individual can determine if this system contains a record about him or her by writing to the system manager at the above address and providing name, address and SSN. (Furnishing the SSN is voluntary, however, it would make searching for the individual's record easier and avoid delay. An individual who is unable or unwilling to furnish his or her SSN will be required to provide other information such as date and place of birth and both parents' names to enable us to locate the record.)

An individual requesting notification of records in person need not furnish any special documents of identity. Documents he or she would normally carry on his or her person would be sufficient (e.g., credit cards, driver's license, or voter registration card). An individual requesting notification via mail or telephone must furnish a minimum of his or her name, date of birth and address in order to establish identity, plus any additional information specified in this section. These procedures are in accordance with HHS Regulations 45 CFR part 5b.

Record access procedures: Same as notification procedures. Also, requesters should reasonably identify the record and specify the information they are attempting to obtain. These procedures are in accordance with HHS Regulations 45 CFR part 5b.

Contesting record procedures: Same as notification procedures. Also, requesters should reasonably identify the record, specify the information they are contesting, and state the corrective action sought and the reasons for the correction with supporting justification showing how the record is incomplete, untimely, inaccurate or irrelevant. These procedures are in accordance with HHS Regulations 45 CFR part 5b.

Record source categories: Records in this system are derived in part from other SSA systems of records (e.g., the Earnings Recording and Self-Employment Income System (09–60–0059), the Claims Folders System (09–60–0089) (disability case folders), the Master Beneficiary Record (09–60–0090) and the Supplemental Security Income Record (09–60–0103)); other SSA administrative records; program records of other Federal/State welfare programs survey data collected by contractors or SSA personnel; from the individual; the Health Insurance Master Record (09–70–0502) of HHS/HCFA; case service reports of VR agencies and referral and monitoring agencies; and employers.

Systems exempted from certain provisions of the Privacy Act: None.

BILLING CODE 4190–29–M

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[CA-060-5101-10-YBEA, CA-24661]

Notice of Intent

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of intent to assess environmental impacts of a natural gas pipeline.

SUMMARY: Notice is hereby given that the Bureau of Land Management (BLM) is initiating an Environmental Assessment of a natural gas pipeline. The Southern California Gas Company (The Gas Company) has applied for an amendment to their Right-of-Way Grant under 43 CFR 2880 to construct, operate, and maintain a 36 inch natural gas pipeline to deliver natural gas to its load center south of the Riverside-Imperial County line. The California Desert Conservation Area (CDCA) Plan identified two pipelines along the proposed alignment across Federal land, but is silent on amending existing Grant's where substantial changes are involved. If approved, the BLM would allow construction of a new natural gas pipeline to replace one of the existing pipelines that will either be abandoned or removed.

DATES: Written comments must be submitted by January 21, 1993.

ADDRESSES: Written comments should be sent to: District Manager, ATTN: SCG Pipeline Project, Bureau of Land Management, California Desert District Office, 6221 Box Springs Boulevard, Riverside, California 92507-0714.

FOR FURTHER INFORMATION CONTACT: Stephen L. Johnson, Special Projects Manager, California Desert District Office, (714) 697-5234.

SUPPLEMENTARY INFORMATION: The Gas Company is a privately-owned natural gas utility regulated by the State of California with a service territory that includes Imperial County and most of Southern California south of Fresno, California. The Gas Company conducted planning studies to determine capacity requirements for its transmission system and, as a result, these studies indicated a need for this project.

Initial engineering and environmental studies determined that the proposed pipeline should start from the existing natural gas transmission pipelines which parallel Interstate 10 at a location approximately 3 miles west of Eagle Mountain Road and proceed south. The proposed alignment of the new pipeline will follow a route parallel to two existing natural gas pipelines. This proposed 32 mile pipeline segment will be 36 inches in diameter and will cross both public lands administered by the BLM and the U.S. Navy's Chocolate Mountains Aerial Gunnery Range. The initial environmental studies identified both desert tortoise habitat along the route and unexploded ordinance on the Range as issues.

The proposed pipeline will replace the older of the two existing natural gas pipelines that presently serve multiple communities south of the Riverside County line. The aforementioned existing pipeline, which will be removed from service after installation of the new line, was installed in 1948 and will require increasingly significant significant maintenance and repairs if it is to be kept in service.

The route of the proposed pipeline will closely follow the existing pipeline patrol road and will be installed and operated in accordance with all applicable State and Federal pipeline safety regulations and environmental requirements. Furthermore, if approved, this new pipeline will improve existing gas service to customers in the Imperial Valley by providing a higher level of service to them.

The Environmental Assessment (EA) will evaluate the effects of constructing, operating and maintaining this proposed natural gas pipeline from its point of origin to its initial point of termination. The EA will also address the abandonment or removal of the existing pipeline which will be replaced by this new 36 inch line. It is anticipated that this Environmental Assessment will be completed by the second quarter of 1993.

Dated: December 15, 1992.

Molly S. Brady,

Acting California Desert District Manager.

INTERSTATE COMMERCE COMMISSION

[Finance Docket No. 32182]

CSX Corporation and CSX Intermodal, Inc.—Control—Customized Transportation, Inc.

AGENCY: Interstate Commerce Commission.

ACTION: Notice of exemption.

SUMMARY: The Commission, under 49 U.S.C. 10505, exempts CSX Corporation (CSX) and its subsidiary, CSX Intermodal, Inc. (CSXI), from the regulatory requirements of 49 U.S.C. 11343, *et seq.*, for the acquisition by CSX, CSXI, and other CSX carrier affiliates of control of Customized Transportation, Inc. (CTI).

DATES: This exemption is effective on December 24, 1992. Petitions to reopen must be filed by January 11, 1993.

ADDRESSES: Send pleadings referring to Finance Docket No. 32182 to:

(1) Office of the Secretary, Case Control Branch, Interstate Commerce Commission, Washington, DC 20423.

(2) Petitioners' representatives: Peter J. Shudtz, One James Center, Richmond, VA 23219. Robert B. Allen, 200 International Circle, Hunt Valley, MD 21030.

FOR FURTHER INFORMATION CONTACT: Richard B. Felder, (202) 927-5610. [TDD for hearing impaired: (202) 927-5721].

SUPPLEMENTARY INFORMATION: Additional information is contained in the Commission's decision. To purchase a copy of the full decision, write to, call, or pick up in person from: Dynamic Concepts, Inc., room 2229, Interstate Commerce Commission Building, Washington, DC 20423. Telephone: (202) 289-4357/4359. [Assistance for the hearing impaired is available through TDD services (202) 927-5621].

Decided: December 9, 1992.

By the Commission, Chairman Philbin, Vice Chairman McDonald, Commissioners Simmons and Phillips.

Sidney L. Strickland, Jr.,

Secretary.

BILLING CODE 4410–01–M

Office of Justice Programs; Bureau of Justice Assistance

State Reimbursement Program for Incarcerated Mariel Cubans

AGENCY: Office of Justice Programs, Bureau of Justice Assistance (BJA), Justice.

ACTION: Notice of issuance of solicitation for applications to reimburse States for partial expenses incurred by the incarceration of certain Mariel Cubans.

SUMMARY: The Department of Justice Appropriations Act, 1993, Title I of Public Law 102–395, allocates up to $2.5 million to implement the State Reimbursement Program for Incarcerated Mariel Cubans. The State Reimbursement Program for Incarcerated Mariel Cubans provides assistance to the States to defray expenses associated with the incarceration of Mariel Cubans in State facilities. Mariel Cubans affected by the Act are those individuals incarcerated after conviction of a felony, following their parole by the Attorney General. The 1980 Mariel Cuban Boatlift placed an added burden upon the criminal justice systems of many states with the additional costs of incarceration. For reimbursement purposes, the period of incarceration is October 1, 1992, to September 30, 1993.

DATES: The State applications (S.F. 424) must be postmarked no later than February 1, 1993. All inmate data must be electronically transmitted by the applicant to the Bureau of Justice Assistance for verification purposes no later than February 1, 1993.

ADDRESSES: Bureau of Justice Assistance, Special Programs Division, 633 Indiana Avenue, NW., room 1058, Washington, DC 20531.

FOR FURTHER INFORMATION CONTACT: Telephone Louise Lucas, BJA, at (202) 307–1065.

SUPPLEMENTARY INFORMATION: On October 18, 1991, BJA mailed to all State departments of corrections a survey to determine the feasibility of establishing an electronic data entry system for the Mariel Cuban Reimbursement Program. Based on the completed surveys from 46 States, BJA determined that the electronic data entry system would enhance the operation of the program as well as reduce the paper flow of documents from the States. BJA, under separate cover, will provide to the States the necessary information needed to access the automated data entry system.

I. General Provisions

Eligible Applicants

All States are eligible to apply for and receive grants. "State" means any State of the United States and includes the District of Columbia and the Commonwealth of Puerto Rico.

Participating States

BJA expects that the 38 States that participated in the State Reimbursement Program last year will participate again this year. States participating in 1992 included: Alaska, Arkansas, Arizona, California, Colorado, Connecticut, District of Columbia, Florida, Georgia, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland,

[1] See Exempt. of Rail Abandonment—Offers of Finan. Assist., 4 I.C.C.2d 164 (1987).

Massechusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, Nevada, New Jersey, New Mexico, New York, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Utah, Virginia, Washington, and Wisconsin. Some additional States may participate in 1993.

II. Allocations and Use of Funds

Fund Availability

The Act provides a total of $2.5 million for the purpose of making grants to States. Awards will be calculated by taking the aggregate number of verified inmate months from all applications submitted and dividing the months into the appropriation. The verified number of months for each application will then be multiplied by the average inmate cost per month. The amount of reimbursement per prisoner, per annum, will not exceed $12,000.

Fund Use

The intent of the public law is to reimburse the States for partial expenses incurred by them for Mariel Cubans incarcerated in State facilities. A budget or expenditure plan is not required, as the award will be used solely for reimbursement purposes. Matching funds are not required.

III. Application Content

(a) All State applicants must submit Standard Form 424 (Application for Federal Assistance), and a certified listing of incarcerated Mariel Cuban prisoners. The certified listing shall be a "hard copy" of the electronically transmitted inmate data to BJA. The automated data entry system is designed to include information in the following sequence:

(1) Name (last name first).
(2) AKA (also known as).
(3) Alien Identification Number (e.g., A24 456 789).
(4) Inmate Number.
(5) Date of Birth.
(6) Date of Incarceration.
(7) Probable Earliest Release Date.

Submission of Mariel Cuban data in an alternative format must be approved by BJA prior to submission of an application.

(b) The certified listing must be signed by the Governor or one of his or her authorized representatives.

(c) The period of incarceration for reimbursement purposes is October 1, 1992, to September 30, 1993. The computation of funds will be based on an aggregate total of certified prisoners incarcerated for a 12-month period (e.g., if two prisoners are incarcerated for six months during the period, the State will be reimbursed the equivalent of the full amount for one prisoner for one year).

(d) The Act is specific in that the prisoner must have been paroled into the United States by the Attorney General during the 1980 influx of Mariel Cubans. States will not be reimbursed for those Cubans who Entered Without Inspection (EWI), or who were earlier arrivals (pre-boatlift), or later arrivals (post-boatlift).

(e) State law will prevail when a determination is required as to what constitutes a State facility and/or a State prisoner.

IV. Review of State Applications

State applications must be submitted in the required format within the time prescribed.

(a) The application and certified listing will be reviewed by BJA and a cross-check verification of prisoners will be made by the Immigration and Naturalization Service of the U.S. Department of Justice. This review will be completed no later than April 1, 1993, and grants will be made to the States immediately thereafter.

(b) Compliance is required with executive Order 12372, "Intergovernmental Review of Federal Programs." This program is covered by Executive Order 12372 and Department of Justice implementing regulations 28 CFR part 30. At the same time applications (S.F. 424) are submitted to BJA, states must submit grant applications to the State's Single Point of Contact, if there is a Single Point of Contact, and if this program has been selected for coverage by the State process. State processes last 60 days starting from the application deadline to comment on applications.

(c) Certification is required regarding 28 CFR part 69, "New Restrictions on Lobbying" and 28 CFR part 67, "Government-wide Debarment and Suspension and Government-wide Requirements for Drug-Free Workplace" (OJP Form 4061/6). This form should be submitted by the State as part of its application.

(d) Upon completion of a review of a State application, BJA will notify the applicant, in writing, of any specific reasons for disapproval of the application, in whole or in part.

V. Civil Rights Assurances

The applying State must specifically assure that it will comply, and that subgrantees and contractors will comply, with all applicable Federal non-discrimination laws and regulations, including the following:

(a) Title VI of the Civil Rights Act of 1964;
(b) Section 809(c) of the Omnibus Crime Control and Safe Streets Act of 1968, as amended, 42 U.S.C. 3789d;
(c) Section 504 of the Rehabilitation Act of 1973, as amended;
(d) Subtitle A, Title I of the American With Disabilities Act (ADA) (1990);
(e) Title IX of the Education Amendments of 1972;
(f) The Age Discrimination Act of 1975; and,
(g) The Department of Justice Non-Discrimination Regulations, 28 CFR part 42, subparts C, D, E, and G, and Disability Non-discrimination Regulations, 28 CFR part 35 and part 39.

Any application for $500,000 or more must be accompanied by a copy of the current Equal Employment Opportunity Program in accordance with the provisions of 28 CFR 42.301 *et seq.* State applicants that previously applied for and received funding under this initiative, and have also received an Office of Justice Programs approval of their Equal Employment Opportunity Program, need only submit a statistical update of the previously approved program to meet this requirement.

Jack A. Nadol,

Acting Director, Bureau of Justice Assistance.

BILLING CODE 4410-18-M

DEPARTMENT OF LABOR

Employment and Training Administration

Investigations Regarding Certifications of Eligibility to Apply for Worker Adjustment Assistance

Petitions have been filed with the Secretary of Labor under section 221 (a) of the Trade Act of 1974 ("the Act") and are identified in the appendix to this notice. Upon receipt of these petitions, the Director of the Office of Trade Adjustment Assistance, Employment and Training Administration, has instituted investigations pursuant to section 221 (a) of the Act.

The purpose of each of the investigations is to determine whether the workers are eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act. The investigations will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved.

The petitioners or any other persons showing a substantial interest in the subject matter of the investigations may

request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than January 4, 1993.

Interested persons are invited to submit written comments regarding the subject matter of the investigations to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than January 4, 1993.

The petitions filed in this case are available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Employment and Training Administration, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, DC 20210.

Signed at Washington, DC this December 7, 1992.

Marvin M. Fooks,

Director, Office of Trade Adjustment Assistance.

[TA-W-27,807]

Carter Jasper Company; Jasper, GA

Notice of Revised Determination on Reconsideration

On December 4, 1992, the Department issued an Affirmative Determination Regarding Application for Reconsideration for former workers of Carter Jasper Company in Jasper, Georgia. This notice will soon be published in the **Federal Register**.

A company official claims that a major customer of Carter Jasper decreased its purchases of canvas footwear from Carter Jasper and increased its imports of canvas footwear in 1992.

The investigation findings show that the workers at Jasper produced injection molded canvas footwear. The findings also show that all production at Jasper ceased in October, 1992 and all production workers were laid off.

Other findings show that U.S. aggregate imports of non-rubber footwear increased absolutely and relative to domestic shipments in 1991 compared to 1990 and in the first six months of 1992 compared to the same period in 1991.

On reconsideration, the Department conducted a survey of Carter Jasper's customers. The survey showed that a major customer, accounting for a substantial portion of Jasper's sales in 1992, substantially reduced its purchases from Carter Jasper in mid-1992 and increased its imports of canvas footwear in 1992.

Conclusion

After careful consideration of the new facts obtained on reconsideration, it is concluded that the Carter Jasper workers in Jasper, Georgia were adversely affected by increased imports of articles like or directly competitive with the canvas footwear produced at Carter Jasper in Jasper, Georgia. In accordance with the provisions of the Act, I make the following revised certification for the Carter Jasper workers in Jasper, Georgia.

"All workers of Carter Jasper Company in Jasper, Georgia who became totally or partially separated from employment on or after August 1, 1992 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974."

Signed at Washington, DC, this 9th day of December 1992.

Stephen A. Wandner,

Deputy Director, Office of Legislation & Actuarial Services, Unemployment Insurance Service.

[FR Doc. 92-30893 Filed 12-18-92; 8:45 am]

BILLING CODE 4510-30-M

Mine Safety and Health Administration

Fee Adjustments for Testing, Evaluation, and Approval of Mining Products

AGENCY: Mine Safety and Health Administration, Labor.

ACTION: Notice of fee adjustments.

SUMMARY: This notice revises the Mine Safety and Health Administration's (MSHA) user fees for testing, evaluation, and approval of certain products manufactured for use in underground mines. These fees are based on Fiscal Year 1992 data and reflect changes in approval processing operations as well as costs incurred to process approval actions.

DATES: These fee schedules are effective from January 1, 1993, through December 31, 1993. Approval applications postmarked January 1, 1993, or after will be chargeable under these fee schedules.

FOR FURTHER INFORMATION CONTACT: Peter M. Turcic, Chief, Approval and Certification Center, R.R. 1, Box 251, Triadelphia, West Virginia 26059.

SUPPLEMENTARY INFORMATION: In general, MSHA has computed the revised fees based on the cost to the government to provide testing, evaluation, and approval of products manufactured for use in underground mines. On May 8, 1987 (52 FR 17506), MSHA published a final rule, 30 CFR part 5—Fees for Testing, Evaluation, and Approval of Mining Products, which established the

specific procedures for fee calculation, administration, and revisions. This revised fee schedule is established in accordance with the procedures of that rule.

New approval programs, expected to be issued during 1993, and associated fees are listed in this notice. These include two subparts under part 7, Applicant or Third Part Testing, scheduled for issuance as final regulations in 1992: (1) Electric Motor Assemblies and (2) Electric Cables and Splice Kits. Fees for applications under these rules will be applicable on the effective dates as published in the final rules.

Fees under part 18, Action numbers 45 and 46, Shearer Evaluation and Shearer Evaluation Extension, represent programs previously in effect under approval programs for longwall equipment. Part 00, Action number 35, Administrative Records Update Program, is a new program representing a means for securing services to update changes in applicants' records, such as company transfers. These programs are in place and subject to the 1993 fee rates.

William J. Tattersall,

Assistant Secretary for Mine Safety and Health.

FEE SCHEDULE EFFECTIVE 01-01-93

BILLING CODE 4510-43-M

Occupational Safety and Health Administration

Maryland State Standards; Approval

1. Background

Part 1953 of title 29, Code of Federal Regulations, prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (hereinafter called the Act) by which the Regional Administrator for Occupational Safety and Health (hereinafter called the Regional Administrator), under a delegation of authority from the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter called the Assistant Secretary) (29 CFR 1953.4), will review and approve standards promulgated pursuant to a State plan which has been approved in accordance with section 18(c) of the Act and 29 CFR part 1902. On July 5, 1973, notice was published in the **Federal Register** (38 FR 17834) of the approval of the Maryland State plan and the adoption of subpart O to part 1952 containing the decision.

The Maryland State plan provides for the adoption of all Federal standards as State standards after comments and public hearing. Section 1952.210 of subpart O sets forth the State's schedule for the adoption of Federal standards. By letters dated October 19, 1992, from Commissioner Henry Koellein, Jr., Maryland Division of Labor and Industry, to Linda R. Anku, Regional Administrator, and incorporated as part of the plan, the State submitted State standards identical to amendments, corrections, and revisions to: (1) 29 CFR 1926.58, pertaining to the Occupational Exposure to Asbestos, Tremolite, Anthophyllite, and Actinolite Standard for the Construction Industry as published in the **Federal Register** of June 8, 1992 (57 FR 24330); (2) 29 CFR 1910.1001 and 1910.1101, pertaining to the Occupational Exposure to Asbestos, Tremolite, Anthophyllite, and Actinolite Standard for General Industry as published in the **Federal Register** of June 8, 1992 (57 FR 24330); and (3) CFR 1910.1048, pertaining to the Occupational Exposure to Formaldehyde Standard as published in the **Federal Register** of May 27, 1992 (57 FR 22307), June 10, 1992 (57 FR 24701), and June 18, 1992 (57 FR 27161). These standards are contained in COMAR 09.12.31. Maryland occupational safety and health standards were promulgated after a public hearing on September 22, 1992. These standards became effective on October 12, 1992.

2. Decision

Having reviewed the State submissions in comparison with the Federal standards, it has been determined that the State standards are identical to the Federal standards and, accordingly, are approved.

3. Location of the Supplements for Inspection and Copying

A copy of the standards supplements, along with the approved plan, may be inspected and copied during normal business hours at the following locations: Office of the Regional Administrator, 3535 Market Street, suite 2100, Philadelphia, Pennsylvania 19104; Office of the Commissioner of Labor and Industry, 501 St. Paul Place, Baltimore, Maryland 21202; and the OSHA Office of State Programs, U.S. Department of Labor, room N3700, 3rd Street and Constitution Avenue, NW., Washington, DC 20210.

4. Public Participation

Under 29 CFR 1953.2(c), the Assistant Secretary may prescribe alternative procedures to expedite the review process or for other good cause which may be consistent with applicable laws. The Assistant Secretary finds that good cause exists for not publishing the supplements to the Maryland State plan as proposed changes and making the Regional Administrator's approval effective upon publication for the following reasons:

a. The standards are identical to the Federal standards which were promulgated in accordance with Federal

law including meeting the requirements for public participation.

b. The standards were adopted in accordance with the procedural requirements of State law and further participation would be unnecessary.

This decision is effective December 21, 1992.

(Section 18, Public Law 91–596, 84 Stat. 1608 (29 U.S.C. 667))

Signed at Philadelphia, Pennsylvania, this 3rd day of November 1992.

Linda R. Anku,

Regional Administrator.

BILLING CODE 4510–30–M

MERIT SYSTEMS PROTECTION BOARD

Opportunity To Comment on the 1993 Research Agenda of the U.S. Merit Systems Protection Board

December 1992.

AGENCY: U.S. Merit Systems Protection Board.

ACTION: Notice of opportunity to comment on the 1993 research agenda of the U.S. Merit Systems Protection Board.

SUMMARY: The U.S. Merit Systems Protection Board (MSPB) is required by law to conduct special studies of the civil service and other Federal merit systems to determine whether they adhere to the merit principles governing the Federal civil service. MSPB is also required by law to report annually to the President and the Congress on the "significant actions" of the Office of Personnel Management (OPM). Based on this research, MSPB reports to the Congress and the President on whether the public interest in a civil service free of prohibited personnel practices is being adequately protected. MSPB is in the process of determining its 1993 research agenda. This notice invites public comment on personnel management issues to be considered as topics for merit systems studies, and solicits suggestions regarding OPM programs and activities to be included in the annual review and analysis of OPM signficant actions.

DATES: To ensure full consideration, comments should be received on or before January 25, 1993.

ADDRESSES: Comments must be made in writing and sent to the Office of Policy and Evaluation, U.S. Merit Systems Protection Board, 1120 Vermont Avenue, NW., 8th Floor, Washington, DC 20419, Attention: Mrs. Ligaya Fernandez.

FOR FURTHER INFORMATION CONTACT: Mrs. Ligaya Fernandez, Research Analyst, Office of Policy and Evaluation, U.S. Merit Systems Protection Board, 1120 Vermont Avenue, NW., 8th Floor, Washington, DC 20419, (202) 653–8737.

SUPPLEMENTARY INFORMATION: The Civil Service Reform Act of 1978 established a list of statutory merit principles and prohibited personnel practices as standards for personnel management in the Federal Government. MSPB is responsible for protecting the public interest in a civil service administered according to these standards. The Office of Policy and Evaluation has principal responsibility within MSPB for OPM oversight and merit systems studies.

(a) What Is a Merit System Study?

The law does not specify criteria for MSPB to use in determining the scope and nature of merit systems studies. In exercising its discretion as to which studies to conduct, MSPB relies on its internal research staff as well as input from a broad range of outside individuals and organizations. In conducting any study, MSPB is also authorized to make such inquiries as may be necessary and, unless otherwise prohibited by law, to have access to personnel records or information from OPM or other agencies as needed.

(b) What Is an OPM Significant Action?

The law also does not specify criteria for MSPB to use in determining which actions of OPM are significant for purposes of preparing its report. In exercising its discretion as to which actions of OPM to study, MSPB considers the following:

(1) Any OPM policy or program which might conflict with the statutory merit principles or contribute to the commission of a prohibited personnel practice;

(2) The extent to which other major decisions made or actions taken by OPM are in accord with and promote the merit principles; and

(3) OPM's overall impact on personnel management within the merit systems of the Federal civil service.

(c) Public Comment on MSPB's 1993 Research Agenda

MSPB invites any interested person or organization to comment on any systemic personnel management issues or practices the examination of which would assist MSPB in determining adherence to the merit principles and the absence of prohibited personnel practices. Individual personnel actions are outside the scope of the research agenda.

Interested persons or organizations are further invited to comment on which recent actions of OPM were "significant" for the civil service, and whether those actions were consistent with merit system principles and free from prohibited personnel practices.

(d) Format for Comments

The comments should contain for each topic a short statement of the issue being raised, a brief explanation as to why it should be studied, and a description of the impact of the issue on the Federal service.

(e) Acknowledgement of Comments

Due to the nature of this notice (i.e., a request for suggestions), no acknowledgement or response will be provided to those who submit comments.

(f) Confidentiality

MSPB will protect the identity of persons submitting comments and the confidentiality of such comments to the extent permitted by law.

Dated: December 15, 1992.

Robert E. Taylor,

Clerk of the Board.

BILLING CODE 7400–01–M

NATIONAL FOUNDATION ON THE ARTS AND HUMANITIES

Challenge/Advancement Advisory Panel Meeting

Pursuant to Section 10(a)(2) of the Federal Advisory Committee Act (Public Law 92–463), as amended, notice is hereby given that a meeting of the Challenge/Advancement Advisory Panel (Design Arts Advancement Section) to the National Council on the Arts will meet on January 8, 1993 from 9 a.m.–5 p.m. in room 730 of the Nancy Hanks Center, 1100 Pennsylvania Avenue, NW., Washington, DC 20506.

This meeting is for the purpose of application evaluation, under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the Agency by grant applicants. In accordance with the determination of the Chairman of November 24, 1992, this session will be closed to the public pursuant to subsections (c)(4), (6) and (9)(B) of section 552b of Title 5, United States Code.

Further information with reference to this meeting can be obtained from Ms. Yvonne M. Sabine, Advisory Committee Management Officer, National

Endowment for the Arts, Washington, DC 20506, or call (202) 682–5439.

Dated: December 15, 1992.

Yvonne M. Sabine,

Director, Panel Operations, National Endowment for the Arts.

BILLING CODE 7537–01–M

NATIONAL SCIENCE FOUNDATION

Special Emphasis Panel in Atmospheric Sciences; Notice of Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92–463, as amended), the National Science Foundation announces the following meeting.

Date and Time: Wednesday, January 6, 1993; 8 a.m. to 5 p.m.

Place: Room 523, National Science Foundation, 1800 G Street, NW., Washington, DC.

Type of Meeting: Closed

Contact Person: Dr. Richard S. Greenfield, Section Head, Lower Atmosphere Research, Division of Atmospheric Sciences, National Science Foundation, 1800 G St. NW., Washington, DC 20550. Telephone: (202) 357–7645.

Purpose of Meeting: To provide advice and recommendations concerning proposal submitted to NSF for financial support.

Agenda: To review and evaluate the NCAR Research Aircraft Fleet Restructuring proposal as part of the selection process for an award.

Reason for Closing: The proposal being reviewed includes information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposal. These matters are exempt under 5 U.S.C. 552b(c), (4) and (6) of the Government in the Sunshine Act.

Dated: December 14, 1992.

M. Rebecca Winkler,

Committee Management Officer.

Georgia Power Co., et al.; (Vogtle Electric Generating Plant, Units 1 and 2)

Atomic Safety and Licensing Board

Before Administrative Judges:
Peter B. Bloch, Chair
Dr. James H. Carpenter
Thomas D. Murphy

Re: License Amendment (Transfer to Southern Nuclear)

ASLBP No. 96–671–01–OLA–3

December 14, 1992.

(Limited Appearances; Prehearing Conference)

Pursuant to 10 CFR 2.715 and 2.752 [1], we will hold a public limited appearance session from 7 pm to up to 10 pm (as required), January 11, 1993, and a public prehearing conference from 9 am until 11 am on January 12, at the Law Enforcement Center, room 240, 401 Walton Way, Augusta, Georgia 30911.

Limited appearances may be written or oral. People wishing to speak at the limited appearance session may obtain priority by mailing a letter on or before January 5 to: Licensing Board (Georgia Power), U.S. Nuclear Regulatory Commission, Washington, DC 20555. Written appearances may be mailed to the same address or submitted at the Limited Appearance session. Limited Appearances will be listened to or read carefully but are not part of the decisional record and may not, therefore, form a basis for the opinion of the Board. Each appearance will be limited to from five to ten minutes, depending on the number of speakers; the time limit will be announced at the beginning of the session.

For the Atomic Safety and Licensing Board, Bethesda, Maryland.

Peter B. Bloch,

Chair.

BILLING CODE 7590–01–M

[1] See also § 2.751a.

[Docket No. 50–445]

TU Electric Co.; Consideration of Issuance of Amendment to Facility Operating License, Proposed No Significant Hazards Consideration Determination, and Opportunity for Hearing

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License No. NPF–87 issued to TU Electric Company (the licensee) for operation of the Comanche Peak Steam Electric Station, Unit 1 (CPSES) located in Somervell County, Texas.

The proposed amendment would revise the Unit 1 Technical Specifications to include revised heatup and cooldown curves for the reactor coolant system, revised limits for the power-operated relief valve (PORV) setpoints, and the addition of a specification for feedwater isolation valve pressure/temperature limits. These changes are required to support the licensing of Comanche Peak Steam Electric Station Unit 2.

Before issuance of the proposed license amendment, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act) and the Commission's regulations.

The Commission has made a proposed determination that the amendment request involves no significant hazards consideration. Under the Commission's regulations in 10 CFR 50.92, this means that operation of the facility in accordance with the proposed amendment would not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety. As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:

(1) The proposed changes do not involve a significant increase in the probability or consequences of an accident previously evaluated.

The following changes affect the pressure/temperature limits which define the acceptable regions of operation:

- The 50 psi decrease in heatup/cooldown curve;
- The 39 psi decrease in a portion of the PORV setpoint curve;
- The addition of the 20°F/hour heatup curve; and

• The 1°F increase in the criticality limit.

As such, these changes do not affect the probability that overpressure events (the events of concern) would occur. These changes only affect the conditions from which events could be initiated.

The consequences of overpressure events are limited by assuring that the applicable stress limits for the Reactor Coolant System pressure boundary (e.g., ASME Boiler and pressure Vessel Code, section III, appendix G and 10 CFR part 50, appendix G) are not exceeded. Because the revised acceptable regions of operation still assure that these limits are not exceeded, these changes have no impact on the consequences of an overpressure event.

The change of terminology to use the adjusted reference temperature (ART) is editorial only.

The changes in the ART values are updates based on the results from the reactor material irradiation surveillance program. The ART values on these figures are informational only and do not directly affect plant operation or performance.

The margin for instrumentation error described in the text above the heatup and cooldown curves is changed to reflect the additional 50 psi of measurement uncertainty which is incorporated into the curves. The margin for instrumentation error as noted on these figures is informational only and does not directly affect plant operation or performance.

In summary, these changes are either editorial or descriptive or only affect the limits which define the acceptable range for operation. As such, these changes do not change the probability or consequences of an accident previously evaluated.

(2) The proposed changes do not create the possibility of a new or different kind of accident from any previously evaluated.

The proposed changes are either editorial or descriptive or only affect the limits which define the acceptable regions for operation. No changes are proposed which could result in a new or different kind of accident from any accident previously evaluated.

(3) The proposed changes do not involve a significant reduction in a margin of safety.

The margin of safety is determined by the failure point for a particular system, structure, or component and the acceptance criteria which are established to ensure that the failure point is not reached during the events of concern. For these specifications, the failure points of concern are the points at which brittle fracture failures could occur in the Reactor Coolant System (RCS) pressure boundary. The acceptance criteria are, in part, the pressure/temperature limits provided by Figures 3.4–2 and 3.4–3 and the PORV setpoint limits in Figure 3.4–4.

For the Reactor Coolant System, the severity of the stresses which can exist are determined by the actual temperature, pressure, and heatup/cooldown rates which are allowed. The method of determining the pressure/temperature limit curves for various heatup and cooldown rates is based on approved calculational methodologies which establish an acceptable margin between the actual stresses and the failure point of the materials. An allowance for measurement uncertainties of the instruments is then combined with the actual stresses to produce the heatup/cooldown limit curves.

The different heatup/cooldown rate curves are calculated by the same methodologies and the same instrument uncertainties apply. Therefore, the curve for each heatup/cooldown rate provides essentially the same margin of safety. For example, for each heatup curve, the maximum stress, and therefore the minimum margin of safety, exists at the heatup rate designed for that curve. Consequently, the margin of safety for a 60°F/hour heatup while operating on the 60°F/hour curve is essentially the same as the margin of safety for a 100°F/hour heatup while operating on the 100°F/hour curve.

The new 20°F/hour heatup curve was determined using the same calculational methodologies as the new 60°F/hour and 100°F/hour heatup curves. The same instrument uncertainties were applied to develop all of these curves and therefore each provides essentially the same margin of safety.

The instrumentation used to assure operation within the allowed range for these curves has not been changed and therefore the uncertainty of the instrumentation has not changed. However, a previously unrecognized 50 psi uncertainty has been incorporated into all of the heatup/cooldown and PORV setpoint curves. Because the actual instrument uncertainty is unchanged but the existing curves are being lowered to incorporate an allowance for the additional 50 psi uncertainty, the maximum stress conditions allowed to exist have been reduced and the margin of safety has been increased.

As with the heatup and cooldown curves discussed above, the maximum allowable PROV setpoints specified in Figure 3.4–4 are selected to assure that pressure/temperature limits are not exceeded. The transients of concern are analyzed including factors such as equipment time delays, instrumentation uncertainties, valve opening times, etc., to ensure that the pressure overshoot does not exceed the limits established by appendix G of section III of the ASME Boiler and Pressure Vessel code. The PORV setpoint curve is determined by combining the results of the analysis with the limits determined by the ASME code. The account for the additional 50 psi uncertainty, the analysis was revised. When the analysee was revised, some overly conservative assumptions were replaced with acceptable but less conservative assumptions. As a result, the PORV setpoint curve has decreased when below 237°F by 39 psi instead of 50 psi. The other 11 psi was absorbed by the revised assumptions.

No changes were made to the installed plant hardware or instrumentation. Thus, an actual plant transient will progress in the same manner following this change in PORV setpoint curve except for the initial conditions. In other words, the actual pressure overshoot for the limiting transient is not expected to change. The pressure limits per the ASME code remains essentially unchanged. Therefore, the 39 psi reduction in the setpoint limit (i.e., initial conditions) increases the margin of safety.

The change in the terminology to use "ART" and the descriptive change in the pressure margin have no direct effect on either plant operations or on the actual margin.

The changes in the ART values are the results of an update of existing calculations and are based on the actual neutron fluence obtained from the reactor vessel material irradiation surveillance program. The revised ART values are used in the calculations of the revised heatup and cooldown curves. The effects of the changes to the ART values are reflected in the heatup and cooldown curves, but do not directly affect any margins or plant operations. The fact that the art values decreased indicates that the reactor vessel is more resistant to brittle fracture; however, the change is so small as to be inconsequential.

The revised criticality limits reflected on Figure 3.4–2 specify pressure/temperature limits for critical core operation in order to provide additional margin during actual power production, in accordance with 10 CFR part 50, appendix G. The curves are applicable for RCS temperatures below approximately 350°F. However, because criticality below an average RCS temperature of 551°F is prohibited by Technical Specification 3.1.1.4, the

changes to these limits are descriptive, and have no effect on margin or plant operation.

In summary, the proposed changes are either editorial or descriptive in nature with no effect on margin, or represent an increase in the actual margin of safety.

The NRC staff has reviewed the licensee's analysis and, based on this review, it appears that the three standards of 10 CFR 50.92(c) are satisfied. Therefore, the NRC staff proposes to determine that the amendment request involves no significant hazards consideration.

The Commission is seeking public comments on this proposed determination. Any comments received within thirty (30) days after the date of publication of this notice will be considered in making any final determination. The Commission will not normally make a final determination unless it receives a request for a hearing.

Written comments may be submitted by mail to the Rules and Directives Review Branch, Division of Freedom of Information and Publications Services, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555, and should cite the publication date and page number of this **Federal Register** notice. Written comments may also be delivered to room P–223, Phillips Building, 7920 Norfolk Avenue, Bethesda, Maryland, from 7:30 a.m. to 4:14 p.m. Federal workdays. Copies of written comments received may be examined at the NRC Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC 20555. The filing of requests for hearing and petitions for leave to intervene is discussed below.

By January 21, 1992, the license may file a request for a hearing with respect to issuance of the amendment to the subject facility operating license and any person whose interest may be affected by this proceeding and who wishes to participate as a party in the proceeding must file a written request for a hearing and a petition for leave to intervene. Requests for a hearing and a petition for leave to intervene shall be filed in accordance with the Commission's "Rules of Practice for Domestic Licensing Proceedings" in 10 CFR part 2. Interested persons should consult a currently copy of 10 CFR 2.714 which is available at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC 20555 and at the local public document room located at the University of Texas at Arlington Library, Government Publications/ Maps, 701 South Cooper, P.O. Box 19497, Arlington, Texas 76019. If a request for a hearing or petition for leave to intervene is filed by the above date, the Commission or an Atomic Safety and Licensing Board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board, will rule on the request and/or petition; and the Secretary or the designated Atomic Safety and Licensing Board will issue a notice of hearing or an appropriate order.

As required by 10 CFR 2.714, a petition for leave to intervene shall set forth with particularity the interest of the petitioner in the proceeding, and how that interest may be affected by the results of the proceeding. The petition should specifically explain the reasons why intervention should be permitted with particular reference to the following factors: (1) The nature of the petitioner's right under the Act to be made party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. The petition should also identify the specific aspect(s) of the subject matter of the proceeding as to which petitioner wishes to intervene. Any person who has filed a petition for leave to intervene or who has been admitted as a party may amend the petition without requesting leave of the Board up to fifteen (15) days prior to the first prehearing conference scheduled in the proceeding, but such an amended petition must satisfy the specificity requirements described above.

Not later than fifteen (15) days prior to the first prehearing conference scheduled in the proceeding, a petitioner shall file a supplement to the petition to intervene which must include a list of the contentions which are sought to be litigated in the matter. Each contention must consist of a specific statement of the issue of law or fact to be raised or controverted. In addition, the petitioner shall provide a brief explanation of the bases of the contention and a concise statement of the alleged factors or expert opinion which support the contention and on which the petitioner intends to rely in proving the contention at the hearing. The petitioner must also provide references to those specific sources and documents of which the petitioner is aware and on which the petitioner intends to rely to establish those factors or expert opinion. Petitioner must provide sufficient information to show that a genuine dispute exists with the applicant on a material issue of law or fact. Contentions shall be limited to matters within the scope of the amendment under consideration. The contention must be one which, if proven, would entitle the petitioner to relief. A petitioner who fails to file such a supplement which satisfies these requirements with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene became parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing, including the opportunity to present evidence and cross-examine witnesses.

If a hearing is requested, the Commission will make a final determination on the issue of no significant hazards consideration. The final determination will serve to decide when the hearing is held.

If the final determination is that the amendment request involves no significant hazards consideration, the Commission may issue the amendment and make it immediately effective, notwithstanding the request for a hearing. Any hearing held would take place after issuance of the amendment.

If the final determination is that the amendment request involves a significant hazards consideration, any hearing held would take place before the issuance of any amendment.

Normally, the Commission will not issue the amendment until the expiration of the 30-day notice period. However, should circumstances change during the notice period such that failure to act in a timely way would result, for example, in derating or shutdown of the facility, the Commission may issue the license amendment before the expiration of the 30-day notice period, provided that its final determination is that the amendment involves no significant hazards consideration. The final determination will consider all public and State comments received. Should the Commission take this action, it will publish in the **Federal Register** a notice of issuance and provide for opportunity for a hearing after issuance. The Commission expects that the need to take this action will occur very infrequently.

A request for a hearing or a petition for leave to intervene must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Docketing and Services Branch, or may be delivered to the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC 20555, by the above date. Where

petitions are filed during the last ten (10) days of the notice period, it is requested that the petitioner promptly so inform the Commission by a toll-free telephone call to Western Union at 1–(800) 325–6000 (in Missouri 1–(800) 342–6700). The Western Union operator should be given Datagram Identification Number N1023 and the following message addressed to Suzanne C. Black: Petitioner's name and telephone number, date petition was mailed, plant name, and publication date and page number of this **Federal Register** notice. A copy of the petition should also be sent to the Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555, and to George L. Edgar, Esq., Newman and Holtzinger, 1615 L Street, NW., Washington, DC 20336, attorney for the licensee.

Nontimely filings of petitions for leave to intervene, amended petitions, supplemental petitions and/or requests for hearing will not be entertained absent a determination by the Commission, the presiding officer or the presiding Atomic Safety and Licensing Board that the petition and/or request should be granted based upon a balancing of the factors specified in 10 CFR 2.714(a)(1)(i)–(v) and 2.714(d).

For further details with respect to this action, see the application for amendment dated August 31, 1992, as supplemented by letters dated October 29, 1992, and December 14, 1992, which are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC 20555 and at the local public document room located at the University of Texas at Arlington Library, Government Publications/ Maps, 701 South Cooper, P. O. Box 19497, Arlington, Texas 76019.

Dated at Rockville, Maryland, this 16th day of December 1992.

For the Nuclear Regulatory Commission.

Brian E. Holian,

Acting Project Manager, Project Directorate IV–2, Division of Reactor Projects—III/IV/V, Office of Nuclear Reactor Regulation.

BILLING CODE 7590–01–M

OFFICE OF PERSONNEL MANAGEMENT

Request for Review of OPM Form 1417 Submitted to OMB for Clearance

AGENCY: Office of Personnel Management.

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1980 (title 44, U.S. Code, chapter 35), this notice announces a proposed information collection, Combined Federal Campaign Results Code Sheet, OPM Form 1417. This form is completed annually by the local Principal Combined Fund Organizations, and is used by the Office of Personnel Management to compute the campaign contributions.

Approximately 500 forms are completed annually, each requiring an estimated one hour to complete, for a total public burden of 500 hours. For copies of this proposal call C. Ronald Trueworthy, (703) 908–8550.

DATES: Comments on this proposal should be received within 30 calendar days from the date of this publication.

ADDRESSES: Send or deliver comments to: Joseph Lackey, OPM Desk Officer, OIRA, Office of Management and Budget, New Executive Office Building, NW, Room 3002, Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Dennis A. Matteotti, (202) 606–2564.

U.S. Office of Personnel Management.

Douglas A. Brook,

Acting Director.

BILLING CODE 6325–01–M

PEACE CORPS

Information Collection Requests Under OMB Review

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 et seq.) this notice announces that the information collection requests abstracted below have been forwarded to the Office of Management and Budget for review and are available for public review and comment. A copy of the information collection may be obtained from Mr. Chris Kent, Office of Associate Director for Volunteer Recruitment and Selection, United States Peace Corps, 1990 K Street, NW., Washington, DC 20526. Mr. Kent may be called at 202–606–3994. Comments on these forms should be addressed to Lin Liu, Desk Officer, Office of Management and Budget, Washington, DC 20503.

Information Collection Abstract

Title: Peace Corps Volunteer Application.

Need for and Use of the Information: Peace Corps needs this information in order to process applicants for Volunteer service. The information is used to determine qualifications and potential for placement of applicants.

Respondents: Individuals who apply for Peace Corps Volunteer service.

Burden on the Public:

a. Annual reporting burden: 15,000 hours
b. Annual recordkeeping burden: 0 hours
c. Estimated average burden per response: 1 hour
d. Frequency of response: on occasion
e. Estimated number of likely respondents: 15,000

Title: Peace Corps Reference Form.

Need for Use of the Information: The Peace Corps needs this information in order to evaluate applicants for Volunteer service. The information is used to select and place applicant/ nominees to Peace Corps Volunteer programs.

Respondents: Individuals listed as references by applicants for Volunteer service.

Burden on the Public:

a. Annual reporting burden: 18,000 hours
b. Annual recordkeeping burden: 0 hours
c. Estimated average burden per response: 30 minutes
d. Frequency of response: on occasion
e. Estimated number of likely respondents: 36,000 hours

Elwin Guild,

Director of Planning and Policy Analysis.

BILLING CODE 6051–01–M

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–31597; File No. SR–NASD–92–37]

December 14, 1992.

Self-Regulatory Organizations; Order Approving a Proposed Rule Change by National Association of Securities Dealers, Inc. Relating to Transaction Reporting Procedures

The National Association of Securities Dealers, Inc. ("NASD") submitted to the Securities and Exchange Commission ("Commission") a proposed rule change (File No. SR–NASD–92–37) on August 31, 1992, pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 [1] and Rule 19b–4 thereunder. The purpose of the proposed rule change is

[1] 15 U.S.C. 78s.

to amend the NASD rules governing real-time transaction reporting.[2]

The Commission provided notice of the proposed rule change in Securities Exchange Act Release No. 31241 (September 25, 1992), 57 FR 45646. The Commission received no comments on the proposal. For the reasons discussed below, the Commission is approving the proposed rule change.

I. Description

The proposed rule change amends the NASD rules governing real-time transaction reporting in NASDAQ/NMS securities, NASDAQ Small-Cap securities, and exchange-listed securities.[3] The proposed rule change extends real-time transaction reporting,[4] deletes the *de minimis* thresholds for non-registered reporting members for real-time transaction reporting, and makes technical amendments to the transaction reporting rules.

The proposed rule change will extend real-time transaction reporting for NASDAQ/NMS and NASDAQ Small-Cap securities executed after normal market hours.[5] For NASDAQ/NMS and NASDAQ Small-Cap securities, the proposed rule change will require that members transmit last sale reports of transactions executed between the hours of 4 p.m. and 5:15 p.m. Eastern Time[6] through the Automated Confirmation Transaction System ("ACT") within 90 seconds after execution.[7] The proposed rule change also will require the use of the indicator, ".T," for trades reported after 4 p.m. to designate such trades as after hours.[8] For transactions in NASDAQ/NMS and NASDAQ Small-Cap securities executed outside the hours of 9:30 a.m. and 5:15 p.m., NASD members will be required to submit last sale reports weekly on Form T.

The proposed rule change deletes the *de minimis* thresholds for real-time trade reporting in NASDAQ/NMS, NASDAQ Small-Cap, and exchange-listed securities. Currently, NASD rules do not subject the non-registered market maker to real-time reporting in a specific security if the member's trading activity in that security satisfies the *de minimis* exemption. NASD rules exempt non-registered market makers with trading activity that, during the trading day, does not exceed 1,000 shares and $25,000, and has not exceeded these limits on five or more of the previous ten trading days. The proposed rule change will require non-registered market makers to submit, within ninety seconds of execution, last sale reports of transactions in NASDAQ/NMS and NASDAQ Small-Cap, and exchange-listed securities notwithstanding the number's transaction activity.
